[Notice No. 164]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

September 1, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, DC, and also in the ICC field office to which protests are to be transmitted.

Motor Carriers of Property

MC 47171 (Sub-111TA), filed July 10, 1978. Applicant: COOPER MOTOR LINES, INC., P.O. Box 4259, Greenville, SC 29608. Representative: Harris G. Andrews, V.P.—Traffic, P.O. Box 4259, Greenville, SC 29608. Supporting shipper(s): Amoco Chemical Corp., 200 East Randolph Drive, Chicago, IL 60601. Send protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, 9 Clinton Street, Newark, NJ 07102.

MC 129455 (Sub-34TA), filed August 11, 1978. Applicant: CARRETTA TRUCKING, INC., South 160, Route 17 North, Paramus, NJ 07652. Representative: Charles J. Williams, 1815 Front Street, Scotch Plains, NJ 07076. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except in bulk), for the account of Amoco Chemical Corp., from the facilities of Amoco Chemical Corp., at Texas City and Chocolate Bayou, TX, to points in CA, WA, OR, MD, DE, PA, NJ, NY, CT, RI, MA, IN, IL, and WI., under a continuing contract, or contracts, with Amoco Chemical Corp., for 180 days. Supporting shipper(s): Amoco Chemical Corp., 200 East Randolph Drive, Chicago, IL 60601. Send

protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, 9 Clinton Street, Newark, NJ 07102.

MC 135797 (Sub-129TA), filed July 10, 1978. Applicant: J. B. HUNT TRANSPORT, INC., P.O. Box 200, U.S. Highway 71, Lowell AR 72745. Representative: Paul R. Bergant, Sullivan & Associates, Ltd., 10 South LaSalle Street, Chicago IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed and animal feed ingredients* (except in bulk) between Kansas City, KS, Camp Hill and Mechanicsburg, PA, on the one hand, and, on the other, points in ND, SD, NE, KS, OK, TX, LA, AR, MO, IA, MN, WI, IL, MI, IN, KY, TN, MS, AL, GA, FL, SC, NC, VA, WV, OH, MD, DE, NJ, NY, PA, RI, CT, MA, VT, NH, and ME. Restriction: Restricted to traffic originating at the facilities of or utilized by Perk Foods located at or near the above named origins, for 180 days. Supporting shipper(s): Perk Foods, 1580 Northwest Highway, Park Ridge, IL 60068. Send protests to: William H. Land, Jr., District Supervisor, 3128 Federal Office Building, 700 West Capitol, Little Rock, AR 72201.

MC 135797 (Sub-130TA), filed July 10, 1978. Applicant: J. B. HUNT TRANSPORT, INC., P.O. Box 200, U.S. Highway 71, Lowell, AR 72745. Representative: Paul R. Bergant, P.O. Box 200, Lowell, AR 72745. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ground waste paper, liquid adhesives, chemicals in containers*, and (2) *equipment materials and supplies* used in the manufacture, distribution, and application of the commodities in (1) above, between the facilities of National Cellulose Corp., at or near Monroe, OH on the one hand, and, on the other, points in the United States (except AK and HI). Restriction: Restricted against the transportation of commodities in bulk in tank vehicles, for 180 days. Supporting shipper(s): National Cellulose Corp., 12315 Robin Boulevard, Houston, TX 77045. Send protests to: William H. Land, Jr., District Supervisor, 3108 West Capitol, Little Rock, AR 72201.

MC 138000 (Sub-38TA), filed August 23, 1978. Applicant: ARTHUR H. FULTON, INC., P.O. Box 86, Stephens City, VA 22655. Representative: Edward N. Button, P.O. Box 1417, Hagerstown, MD 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Powdered clay* (except in bulk), from Robbins, NC and its commercial zone to Chelsea, MI and its commercial zone, for 180 days. Applicant has filed an underlying ETA seeking 90 days of operating authority. Supporting shipper: LRI Industries, Inc., 11770 Dexter Road, Chelsea, MI 48118. Send protests to: T. Esposito, Transportation Assistant, Interstate Commerce Commission, 600 Arch Street, Room 3238, Philadelphia, PA 19106.

MC 138438 (Sub-31TA), filed August 23, 1978. Applicant: D. M. BOWMAN, INC., Route 2, Box 43A1, Williamsport, MD 21795. Representative: Edward N. Button, P.O. Box 1417, Hagerstown, MD 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bricks*, from East Windsor Hill, CT and Middleboro, MA and their respective commercial zones, to points in NY, NJ, OH, WV, VA, MD, DE, PA, and DC for 180 days. Applicant has filed an underlying ETA for 90 days operating authority. Supporting shippers: K-F Brick Co., Route 5, East Windsor Hill, CT 06028. Send protests to: T. Esposito, Transportation Assistant, Interstate Commerce Commission, 600 Arch Street, Room 3238, Philadelphia, PA 19106.

MC 142390 (Sub-3TA), filed July 10, 1978. Applicant: TRANSIT MOVING INC., Colonial Park Suite No. 116, 1027 Hollywood Boulevard, Iowa City, IA 52240. Representative: Carl E. Munson, 469 Fischer Building, Dubuqe, IA 52001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Expanded plastic articles* (except commodities in bulk), in shipper-owned or shipper-leased trailers, from Chicago, IL, to Indianapolis and Rushville, IN; Bancroft, IA; Grand Rapids and Monroe, MI; Minneapolis-St. Paul, MN; Cincinnati, OH; and Marshfield, WI, under a continuing contract(s) with Clark-Crain Foam Industries, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers(s): Clark-Crain Foam Industries, Inc., 1550 East 97th Place, Chicago, IL 60628. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Building, Des Moines, IA 50309.

MC 142917 (Sub-1TA), filed July 10, 1978. Applicant: CEDAR TRANSPORTATION, INC., P.O. Box 49, Stockton, CA 95201. Representative: Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, PA 19102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pressed fireplace logs*, from Trenton, NJ, to points in the United States east of a line beginning at the mouth of the Mississippi river, and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the United States-Canada boundary line; and materials and supplies used in the manufacture of pressed fireplace logs, from points in the above described destination territory to Trenton, NJ., for 180 days. Restricted to the operations authorized herein are limited to a transportation service to be performed under a continuing contract(s) with P & M Lumber Products, Inc., and Duraflame, Inc., of Falls Township, Bucks County, PA. Supporting shipper(s): Duraflame, Inc., P.O. Box 49, Stockton, CA 95201. Send protests to: T. M. Esposito, Transportation Assistant, 600 Arch Street, Room 3238, Philadelphia, PA 19106.

MC 144122 (Sub-23TA), filed August 11, 1978. Applicant: CARRETTA TRUCKING, INC., S. 160, Route 17 North, Paramus, NJ 07652. Representative: Charles J. Williams, 1815 Front Street, Scotch Plains, NJ 07076. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap plastic, plastic flakes, plastic powder, plastic granules, and plastic pellets*, (except in bulk), (1) between the facilities of George Woloch Co., Inc., at Allentown, PA, on the one hand, and, on the other, points in LA and TX; and (2) from points in LA and TX, to points in PA, NY, NJ, CT and MA, for 180 days. Supporting shipper(s): George Woloch Co., Inc., 120 Wall Street West, Lyndhurst, NJ 07071. Send protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, 9 Clinton Street, Newark, NJ 07102.

MC 144122 (Sub-24TA), filed August 8, 1978. Applicant: CARRETTA TRUCKING, INC., S. 160, Route 17 North, Paramus, NJ 07652. Representative: Joseph Carretta, S. 160, Route 17 North, Paramus, NJ 07652. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tape products, materials, equipment, and supplies* used in the manufacture thereof (except commodities in bulk), from Beacon, NY., and Passaic, NJ, to Carbondale, IL, and from Carbondale, IL, to points in CA; and (2) *springs and spring assemblies, bed frames, materials and equipment and supplies* used in the manufacture thereof, from Carthage, MO, to points in IL, IN, OH, MI, PA, NJ, NY and GA, for 180 days. Supporting shipper(s): Technical Tape, Inc., 1 Market Street, Passaic, NJ 07055. Send protests to: Joel Morrows, District Supervisor, Interstate Commerce Commission, 9 Clinton Street, Newark, NJ 07102.

MC 145019TA, filed July 10, 1978. Applicant: R. J. HEBERT TRUCK-

cilities of Nashua Corp. and its subsidiaries located at or near Chicago, IL,

Lavery (same address as applicant). Authority sought to operate pursuant to a certificate of public convenience

MC 145019TA, filed July 10, 1978. Applicant: R. J. HEBERT TRUCKING, INC., 458 Pelham Road, Dracut, MA 01826. Representative: James E. Mahoney, 84 State Street, Boston, MA 02109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are sold in drug, chain, discount and department stores* (except commodities in bulk, in tank vehicles) between the distribution centers, warehouses and retail outlets of J. M. Fields, Inc. in MA, on the one hand, and, on the other, Salem, NH, under a continuing contract with J. M. Fields, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): J. M. Fields, Inc., 450 West 33d Street, New York, NY 10001. Send protests to: Paul A. Roberts, District Supervisor, Interstate Commerce Commission, 150 Causeway Street, Boston, MA 02114.

MC 145022 (Sub-1TA), filed July 10, 1978. Applicant: MARSH BROTHERS TRUCKING SERVICE, INC., 1811 Howell Avenue, Dayton, OH 45407. Representative: Jerry B. Sellman, Muldoon, Pemberton & Ferris, 50 West Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from Powell County, KY, to Montgomery County, OH, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): BBS Coal, Inc., Robert L. Judy, Vice President, 3726 Harrison, Cincinnati, OH 45211; General Motors Corp., John C. Rill, Jr., Manager-Traffic, 300 Taylor, Dayton, OH 45442. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, ICC, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

MC 145045TA, filed July 10, 1978. Applicant: INTERNATIONAL FREIGHTWAYS, INC., 6638 South University Avenue, Chicago, IL 60637. Representative: William P. O'Connor (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Industrial tapes, tape dispensers, reproduction or copy machines and supplies* thereof, toners, chemicals NOI., machines and or parts thereof, rubber, resin, cotton piece goods, glass fiber yarns, synthetic film, tape, masking, paper sealing, strapping, plastic or rubber articles, paper gummed, paper supplies, pipe covering, packing rubber or gummed compound, and materials, equipment and supplies, used in the production, manufacturing and the distribution of the above named products; between the facilities of Nashua Corp. and its subsidiaries located at or near Chicago, IL, Troy, NY, Nashua, NH, Omaha, NE, Atlanta, GA, Dallas, TX, Seattle, WA, Los Angeles, CA, Denver, CO, on the one hand, and, on the other hand, points and places in AL, AZ, CA, CO, CT, DE, DC, FL, GA, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WA, WV, WI, and WY, for 180 days. Restricted to the facilities of the Nashua Corp. and its subsidiaries, and against the transportation of commodities in bulk, class A & B explosives, and household goods as defined by the commission. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Mr. Lawrence J. Mulholland, Production Manager, Nashua Corporation (Industrial Tape Division), 7800 South Woodlawn Avenue, Chicago, IL 60619. Send protests to: Lois Stahl, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, Room 1386, 219 South Dearborn Street, Chicago, IL 60604.

MC 145098 (Sub-1TA), filed July 10, 1978. Applicant: CASPER'S CARTAGE, INC., 3837 West 127th Street, Alsip, IL 60658. Representative: James L. Battey, 130 East Washington Street, Suite 1000, Indianapolis, IN 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement* in bulk in tanks, from the facilities of Louisville Portland Cement Co., at Logansport, IN to facilities of Ozinga Bros., Inc., at Mokena, IL, Alsip, IL, and Chicago Heights, IL, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Martin Ozinga III, Executive Vice President, Ozinga Bros., Inc., 9518 South Spaulding, Evergreen Park, IL. Send protests to: Lois M. Stahl, Transportation Assistant, Interstate Commerce Commission, 219 South Dearborn Street, Room 1386, Chicago, IL 60604.

MC 145160TA, filed July 26, 1978. Applicant: EDDIE DUMAS, d.b.a. DUMAS CONSTRUCTION CO., Route 4, Box 110A, El Dorado, AR 71730. Representative: Shackleford, Shackleford & Phillips, 100 East Church Street, El Dorado, AR 71730. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum related products*, from the facility of MacMillan Ring-Free Oil Co., at Norphlet, AR, to Baton Rouge, LA, and New Orleans, LA, and return to the facility at Norphlet, AR; and (2) *Oil field equipment*, from the facility of Phillips Petroleum Co., at El Dorado, AR, to drilling and production sites in East Texas, MS; LA, AL, and OK, under a continuing contract, or contracts, with Phillips Petroleum Co., and MacMillan Ring-Free Oil Co., Inc., for 180 days. Supporting shipper(s): (1) Phillips Petroleum Co., Box 1567, El Dorado, AR 71730. (2) MacMillan Ring-Free Oil Co., Inc., Drawer J, Norphlet, AR 71759. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Building, 700 West Capitol, Little Rock, AR 72201.

MC 145208TA, filed July 27, 1978. Applicant: ONEY ENTERPRISES, INC., P.O. Box 2978, Milan, NM 87020. Representative: James E. Snead, 215 Lincoln Avenue, P.O. Box 2228, Santa Fe, NM 87501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bulk salt*, by dump trucks only having a prior movement by rail in interstate commerce, from Reid Siding, NM, to Ambrosia Lake, NM, under a continuing contract, or contracts, with Morton Salt Co., Division of Morton-Norwich, for 180 days. Applicant has also filed an underlyng ETA seeking up to 90 days of operating authority. Supporting shipper(s): Morton Salt Co., Division of Morton-Norwich, 110 North Wacker Drive, Chicago, IL 60606. Send protests to: District Supervisor, Interstate Commerce Commission, 1106 Federal Office Building, 517 Gold Avenue SW., Albuquerque, NM 87101.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a special certificate of public convenience and necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in "Waste" Products, ex parte No. MC-85, 124 MCC 583 (1976).

An original and one copy of protests (including protestant's complete argument and evidence) against applicant's participation may be filed with the Interstate Commerce Commission within 20 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence within 30 days of the date of its notice in the FEDERAL REGISTER, subject to its tariff publication effective date.

P-17-78 (Special certificate—Waste products), filed August 31, 1978. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, IL 60650. Representative: William R. Lavery (same address as applicant). Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes in the transportation of waste products for recycling or reuse, between points in the United States, (except AK and HI) in furtherance of a recognized pollution control program sponsored by Motor Oils Refining Co. of McCook, IL; and Safety-Kleen Corp. of Elgin, IL for the purpose of transporting and recycling waste products.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

CONSUMER PRODUCT SAFETY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: September 8, 1978.

PREVIOUSLY ANNOUNCED DATE AND TIME: September 13, 1978, 9:30 a.m.

CHANGES IN THE MEETING: (See following revised agenda.)

Commission briefing, Wednesday, September 13, 1978, 9:30 a.m., third floor hearing room, 1111 18th Street NW., Washington, D.C.

REVISED AGENDA*

Open to the public

1. *Holiday safety spots.* The Commission will review the radio and television "spots" prepared for the 1978 Holiday Safety Campaign.

Closed to the public

2. *Final rule to exempt certain ink cartridges from labeling requirements.* In response to a petition from the Parker Pen Co. (HP 77-4), the Commission in November, 1977 proposed to exempt certain rigid or semi-rigid ink cartridges from labeling requirements of the Federal Hazardous Substances Act. At this meeting, the Commission will discuss this proposed exemption. (Closed—exemption 9, possible significant frustration of agency action.)

3. *Aluminum wiring.* The Commission and staff will meet to discuss issues related to aluminum wiring. This is a continuation of the special meeting the Commission held September 11. (Closed—exemption 10, litigation.)

[S-1841-78 Filed 9-12-78; 10:46 am]

[6355-01]

6

CONSUMER PRODUCT SAFETY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: September 1, 1978.

PREVIOUSLY ANNOUNCED DATE AND TIME: September 14, 1978, 9:30 a.m.

CHANGES IN THE MEETING: (See following revised agenda.)

Commission meeting, Thursday, September 14, 1978, 9:30 a.m., third floor hearing room and eighth floor conference room, 1111 18th Street NW., Washington, D.C.

* Agenda approved September 5; corrected September 6 to show discussion rather than decision for current Item 2 (Ink Cartridges). Agenda was revised September 8, to delete previous Item 2 (Chronic Hazard Priorities), and revised September 11 to add the Aluminum Wiring Item.

REVISED AGENDA** (AS OF SEPTEMBER 11)

Open to the public

1. *Recommendation to accept corrective action plan: Howard Commercial Turf Equipment, Inc., riding lawn mower, ID 78-56.* The staff has recommended that the Commission accept the corrective action plan which this company has implemented to deal with a possible brake defect, and that the Commission not pursue a timeliness-of-reporting case. Under the corrective action plan, the firm is refitting all the involved mowers, and has initiated production changes.

2. *Recommendation to accept corrective action plan: Wham-O Manufacturing Co., "Water Wiggle" toy, ID 78-75.* The staff has recommended that the Commission accept the corrective action plan Wham-O has implemented to deal with hazards associated with the nozzle design of this toy, which has allegedly caused two drownings. The staff also recommends that the Commission not pursue a timeliness-of-reporting case. The firm has notified customers and dealers, and is recalling the toy.

3. *Recommendation to close possible substantial product hazard case: Chadwick-Miller, Inc., ice cream scoop, ID 77-75.* Based on its evaluation that these ice cream scoops present less than a substantial product hazard, the staff has recommended that the Commission close this case, and not pursue a timeliness-of-reporting case,

4. *Recommendation to close case: Lambert Cycle of London, Ltd.* In August 1977, the Commission directed the staff to prepare a product ban of bicycles manufactured by Lambert Cycle of London, Ltd. At this meeting, the Commission will consider a staff recommendation to close this case, and not pursue a timeliness-of-reporting case.

5. *Petition on telescope solar eyepiece filters, CP 78-11.* Norman Sperling of Somerville, Mass., has petitioned the Commission to ban eyepiece solar filters sold with certain telescopes. Mr. Sperling has stated that concentrated heat from direct sunlight can shatter or crack these filters and cause temporary or permanent damage to the retina of the user's eye.

6. *Final exemption from special packaging requirements for mebendazole (Vermox).* In response to a petition from the manufacturer, Ortho Pharmaceutical, the Commission proposed to exempt certain forms of the drug mebendazole from child-resistant packaging requirements of the Poison Prevention Packaging Act. The proposal was published in October 1977. At this meeting, the Commission will consider the final exemption document.

7. *Proposed revision and amendment of regulations under the Flammable Fabrics Act (FFA).* The Commission will consider a draft FEDERAL REGISTER document which would revise the FFA regulations dealing with guarantees under section 8 of the act, and with the flammability standards for wearing apparel and vinyl plastic film.

8. *Provisional classification tetrachloroethylene (perchloroethylene) under CPS carcinogen policy.* At its July 27, 1978, meeting, the Commission conditionally approved the provisional classification of tetrachloroethylene as a category A substance under its interim carcinogen policy. At this meeting, the Commission will discuss additional data on the substance, and will vote once again on provisional classification.

Closed to the public

9. *Enforcement matter under the Poison Prevention Packaging Act (OS 576).* The Commission will consider a staff recommendation to initiate an enforcement proceeding for an alleged violation of Poison Prevention Packaging Act requirements.

Closed to the public, eighth floor conference room

10. *OMB Management Report.* The Commission will discuss the oral report to the Chairman from the OMB Management Assistance Team. The Chairman will brief the Commission on the report and will obtain informal guidance about possible future management directions.

19

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of September 18, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Wednesday, September 20, 1978, at 10 a.m. An open meeting will be held on Thursday, September 21, 1978, at 2:30 p.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402 (a)(8)(9)(i) and (10).

Chairman Williams, and Commissioners Loomis, Evans, and Karmel determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting scheduled for Wednesday, September 20, 1978, at 10 a.m., will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Formal orders of investigation.
Freedom of Information Act appeals.
Freedom of Information Act request.
Institution of administrative proceedings of an enforcement nature.
Institution of injunctive actions.
Settlement of administrative proceedings of an enforcement nature.
Settlement of injunctive action.
Other litigation matters.

The subject matter of the open meeting scheduled for Thursday, September 21, 1978, at 2:30 p.m., will be:

1. Consideration of plans for allocating regulatory responsibilities filed under 17 CFR 240.17d-2 between the National Association of Securities Dealers, Inc., and each of the following: Boston Stock Exchange, Inc., Cincinnati Stock Exchange, Inc., Midwest Stock Exchange, Inc., and Pacific Stock Exchange, Incorporated. For further information, please contact Gail Gordon Alkire at 202-755-1395.
2. Consideration of a proposal by the National Association of Securities Dealers, Inc. ("NASD") to adopt a set of rules to (i) regulate the options activities of so-called "access firms," i.e., NASD members who are not members of any exchange which lists the standardized options that they trade, and (ii) regulate trading of conventional (i.e., non-standardized) over-the-counter options, including options on securities other than common stock. For further information, please contact Jessica Licker at 202-755-1382.
3. Consideration of a Freedom of Information Act appeal of Andrew Jay Schwartzman of Media Access Project, a public interest law firm, from the determination by its Freedom of Information Act Officer denying access to certain agency records relating to *Home Box Office, Inc.* v. *Federal Communications Commission* and the request for a waiver of copying fees. For further information, please contact Philip Becker at 202-755-1234.

FOR FURTHER INFORMATION, PLEASE CONTACT:

Michael P. Rogan at 202-755-1638.

FEDERAL RESERVE SYSTEM

PRIVACY ACT ISSUANCES

Notice of Incorporation by Reference

Agency: Board of Governors of the Federal Reserve System.

Action: Incorporation by reference of Privacy Act issuances.

Summary: Federal agencies are required by the Privacy Act of 1974 to give annual notice of certain records they maintain. The notices published last year were compiled by the Office of the Federal Register into "Privacy Act Issuances—1977 Compilation." The purpose of this document is to incorporate by reference the notices that appear in "Privacy Act Issuances—1977 Compilation" and to publish in full the systems that the Board of Governors of the Federal Reserve System has amended since publication of the 1977 Compilation.

Dates: This document fulfills the annual notice requirements of the Privacy Act for 1978.

For further information contact: MaryEllen A. Brown, Senior Attorney, Legal Division, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW., Room B-1051E, Washington, D.C. 20551, (202) 452-3608.

Approval of the Director

The notices of systems of records of the Board of Governors which appear in "Privacy Act Issuances—1977 Compilation" are incorporated herein by reference. The Director of the Office of the Federal Register granted approval to incorporate by reference these Privacy Act issuances on August 28, 1978.

1977 Compilation Up-to-Date

Information about the Board's systems of records that appears in "Privacy Act Issuances—1977 Compilation" is complete and up-to-date. Since publication of the 1977 Compilation, the Board has made no changes to its systems of records.

Availability of 1977 Compilation

"Privacy Act Issuances—1977 Compilation" is available from regional depository libraries at 50 locations around the country and can be examined at these libraries free of charge. The 1977 Compilation is also available at the General Services Administration Federal Information Centers, which are located at 38 central points around the country and may be examined at the central headquarters and all field offices of this agency. It is also available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Upon request, the Office of the Federal Register will furnish a photocopy of the full text of a particular records system published in the 1977 Compilation for a nominal fee.

Location of Notices in 1977 Compilation

Notices of the Board of Governors' systems of records appear in volume I of the 1977 Compilation at 48142 (42 FR 48142, September 22, 1977.) The price of this volume is six dollars and fifty cents

Theodore E. Allison,
Secretary of the Board.

CO—1

System name: Copyright Applications File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Copyright claimants.

Categories of records in the system: Original, supplemental and renewal applications for claims to copyright.

Authority for maintenance of system: 17 U.S.C. sections 408 and 705 (the Act for General Revisions of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records in the preparation of search reports compiled at the request of a member of the public. These records are available to the public from 8 to 4 on weekdays.

The Office also uses these records to compile the Copyright Card Catalog. The cards in this catalog contain the names of copyright and renewal claimants of copyrighted works, the names of authors of copyrighted works, titles of works, registration numbers, publishers' names, pseudonyms, and additional information on copyrighted works.

Note: The Copyright Card Catalog includes a pre-1938 section in which the original copyright application also serves as the catalog card.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Bound volumes and microfilm.

Retrievability: Registration number, cross-referenced by name of author, name of claimant, and title of work in the Copyright Card Catalog.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Section Head, Record Storage Section
Records Management Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure".

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Copyright claimants or their authorized agents.

CO—2

System name: Pseudonym Card File (Previous to 1938)

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who author works under pseudonyms in those instances where both the author's real name and pseudonym appear on either the application for copyright registration or the deposit copy.

Categories of records in the system: Pseudonym, real name, claimant's name as given on the application and the deposit copy, registration number, and date of receipt of deposit copy.

Authority for maintenance of system: 17 U.S.C. section 705 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records in the preparation of search reports compiled at the request of a member of the public. These records are also available to the public during working hours.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: 3 x 5 cards in cabinet.

Retrievability: Alphabetically by author's pseudonym and real name.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Section Head, Card Catalog Section
Records Management Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquires about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure".

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains or such individual's authorized agent.

CO—3

System name: Master Index Cards File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Remitters of all cash received by the Office, and individuals who submit documents for recordation, whether or not accompanied by a remittance.

Categories of records in the system: Temporary and permanent records of material and remittances received, records of final disposition of cases (in the form of registration numbers or identity of other fee services), the amount charged and/or the amount refunded, if any.

Authority for maintenance of system: 17 U.S.C. section 708, (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The office uses this system: (1) to keep a record of the receipt and disbursement of all incoming cash; (2) to locate cases in-process before the permanent catalog record is available; and (3) to prepare refund vouchers.

Storage: 4 x 6 index cards in file cabinets.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Section Head, Materials Control Section
Acquisitions and Processing Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquires about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Remitters or their authorized agents.

CO—4

System name: Deposit Accounts Subsystem

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who maintain deposit accounts in the Office for the payment of their copyright fees.

Categories of records in the system: Name of deposit account holder, date of transaction, debit or credit notation, old balance, new balance, and transaction identification.

Authority for maintenance of system: 17 U.S.C. section 708, (Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records:

(1) To record copyright fee charges, replenishments, and current balances of deposit account holders; (2) to send periodic statements to deposit account holders of their transactions with the Office; (3) to notify deposit account holders that their accounts have become depleted; and (4) to obtain recent registration numbers to locate applications needed in the preparation of search reports.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records kept prior to November 1, 1977, are on 6 x 8 manila cards. After that date, all such records are on computer discs and tapes.

Retrievability: By name of deposit account holder, deposit account number, and transaction identification number.

Safeguards: The manual system of records is stored in locked file cabinets as are the microfilmed records. Access to both is restricted to authorized personnel. Computer records are stored on tapes and discs in a room which is restricted to authorized personnel. Computer access is by functional passwords which are restricted to personnel who require access to these records in the performance of their official duties.

Retention and Disposal: The former manual system will be kept indefinitely. The computerized system is used to store transactions for 3 months, at which time the record is transferred to microfilm for permanent retention.

System manager(s) and address:
Section Head, Fiscal Control Section
Acquisitions and Processing Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publication Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Deposit account holders and Office charge sheets.

CO—5

System name: Compliance Activity File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals from whom the Office has demanded, in accordance with 17 U.S.C. section 407 (An Act for General Revision of the Copyright Law), copies of works published with a notice of copyright.

Categories of records in the system: Author's name, title of work, publisher, copyright claimant, date of initial action.

Authority for maintenance of system: 17 U.S.C. section 407 (An Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to avoid sending out duplicate correspondence.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: 3 x 5 index cards in a file cabinet.

Retrievability: Alphabetically by author's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Retained until:

(1) Receipt of the requested copy; (2) abandonment of the case; or (3) the demand process is complete and the Library of Congress advises the Office that it does not want the copy for its collection.

System manager(s) and address:
Section Head, Compliance Section
Acquisitions and Processing Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Printed bibliographies, publishers' catalogs, citations provided by the Library of Congress, published citations of the work, and Office personnel who have personnally observed the item cited.

CO—6

System name: Miscellaneous Correspondence File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who have: (1) written to the Office for general information about copyright; (2) requested fee services such as search reports, copies of records, and certified copies of deposit copies; and (3) requested recordation of changes of name or address.

Categories of records in the system: General correspondence, intersectional referral forms, change of name/address forms, and charge out sheets.

Authority for maintenance of system: 17 U.S.C. sections 407-410, 705, 708 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records:

(1) To maintain a record of correspondence with individuals who address inquiries to the Office and with individuals who request search reports; (2) to maintain a record of requests for recordation of changes of name or address; (3) to record the removal and return of documents in the file by Office personnel; and (4) to record intersectional referrals,

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila envelopes in file cabinets.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Section Head, Materials Control Section
Acquisitions and Processing Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Remitters or their authorized agents.

CO—7

System name: Incomplete Submission Correspondence File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who wish to register a claim to copyright, but who have not sent the Office all of the elements (fee, application, deposit copies) necessary for registration.

Categories of records in the system: Applications for registration of a copyright claim, deposit copies, fees, and FL 81 form letters which advise the remitter that one or more elements necessary for registration have not been received.

Authority for maintenance of system: 17 U.S.C. sections 407-410, 708 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to identify and temporarily store incomplete deposits and correspondence requesting missing elements.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Elements received and form letters are filed on book shelves.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: When the missing elements are received, the fee, application and deposit copies are forwarded to the Examining Division. If the missing elements are not received after correspondence with the remitter, those elements which have been received are forwarded to the Acquisition Section for further action. In either case, the FL 81 letters are retained by the Materials Control Section in a separate chronological file.

System manager(s) and address:
Section Head, Materials Control Section
Acquisition and Processing Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Remitters or their authorized agents.

CO—8

System name: Open and Closed Unfinished Business Files

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Remitters of incomplete or imperfect applications for registration of a copyright claim.

Categories of records in the system: Applications for registration of a copyright claim, deposit copies, fees, correspondence, split fee sheets, intersectional referral sheets, search reports, cash cards, and history cards.

Authority for maintenance of system: 17 U.S.C. sections 407-410, 708.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records in the course of correspondence with applicants for registration of a copyright claim in those instances where correspondence is necessary to complete or perfect registration.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila envelopes in file cabinets and on book shelves.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in various parts of the Office, all of which are restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Records are retained in the Open file until registration is complete or until the remitter has failed to reply to Office correspondence. Closed files are permanently retained.

System manager(s) and address:
Section Head, Materials Control Section
Processing and Acquisitions Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Remitters or their authorized agents.

CO—9

System name: Recorded Documents File

System manager(s) and address:
Section Head, Performing Arts Section

CO—10

System name: Notices of Institution of Actions for the Infringement

Categories of individuals: Remitters of assignments or other documents pertaining to a copyright which have been submitted to the Office for recordation and require correspondence.

CO—9

System name: Recorded Documents File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who are parties to, or have submitted for recordation, assignments, licenses, notices of termination of transfer, and other documents affecting copyright ownership, notices of error in the name in a copyright notice; authors of anonymous or pseudonymous works in instances where any person having an interest in the copyright in such a work submits a statement identifying one or more authors of the work; authors of works in instances where any person having an interest in the copyright in a particular work submits a statement of the date of death of the author or a statement that the author is still living on a particular date; individuals who are parties to litigation under title 17 of the United States Code.

Categories of records in the system: Assignments, licenses, notices of termination of transfer, and other documents pertaining to copyright ownership, statements of the identity of an anonymous or pseudonymous author, statements of the date of death of an author or that the author is still living on a particular date, notices of error in the name in a copyright notice, notifications of the filing of actions under sections 411 and 508 of title 17 of the United States Code, and copies of final orders or judgements together with written opinions.

Authority for maintenance of system: 17 U.S.C. sections 203(a)(4), 205(a), 302(c), 302(d), 304(c), 406(a)(2), 411(a), 508(a), 508(b), 705(a) (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses this file to establish and maintain a public record of recorded copyright-related documents. These records are used in the preparation of search reports compiled at the request of a member of the public, and are available to records to compile an index to documents received for recordation. The index to documents received for recordation prior to January 1, 1978, is a separate index. The index to documents received on or after January 1, 1978, is interfiled in the Copyright Card Catalog.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Original documents submitted for recordation are microfilmed and returned to the remitter with the following exceptions: original copies of notifications of the filing of actions under sections 411 and 508 of title 17 of the United States Code and copies of final orders, judgments, and written opinions are microfilmed, but the original copies are permanently retained in the historical litigation file of the Copyright Office Library. Copies of copyright assignments and related documents received prior to 1954 are in bound volumes as well as on microfilm.

Retrievability: By the date the Office received the document and cross-referenced in the Copyright Card Catalog by individual names and titles of works.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Chief, Records Management Division
Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains, such individual's authorized agent, other parties to the document recorded, such parties' authorized agents, individuals having an interest in the copyright in a work which is the subject of the document submitted for recordation, and clerks of the courts of the United States.

CO—10

System name: Notices of Institution of Actions for the Infringement of Works Refused Registration.

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Persons who have instituted infringement actions in cases where the Office has refused registration of the work which is the subject of the litigation.

Categories of records in the system: Notice of the institution of an infringement action, a copy of the complaint, and documents related to that action.

Authority for maintenance of system: 17 U.S.C. section 411(a) (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records: (1) to determine whether the Register will exercise the option of becoming a party to the action with respect to the issue of registrability of the copyright claim; and (2) in the preparation of search reports compiled at the request of a member of the public.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila folders in file cabinet.

Retrievability: Alphabetically by name of applicant or applicant's authorized agent.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Retained indefinitely.

System manager(s) and address:
General Counsel
Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division. Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: The individual to whom the record pertains or such individual's authorized agent.

CO—11

System name: Motion Picture Agreement File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Copyright claimants who have agreed to deliver one copy of any motion picture they copyright if the Library of Congress requests a copy for its motion picture collection.

Categories of records in the system: Records contain the name and address of the copyright claimant and the date on which the Motion Picture Agreement was signed.

Authority for maintenance of system: 17 U.S.C. section 407 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to determine if the Library of Congress has a motion picture agreement with an applicant for registration of a copyright claim in a motion picture. If the Library has such an agreement, the copy of the motion picture submitted with the copyright application will be returned to the remitter after examination. In the absence of such an agreement, the Office will retain the copy.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: 3 x 5 cards in a metal file box.

Retrievability: Alphabetically by claimant's name.

Safeguards: These records are maintained in a room which is restricted authorized personnel and locked during nonworking hours.

Retention and Disposal: Retained indefinitely.

System manager(s) and address:
Section Head, Performing Arts Section
Examining Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Motion Picture Agreements are filled out by copyright claimants or their authorized agents. Upon receipt of these Agreements, the Exchange and Gift Division of the Library of Congress transcribes some of the information in the agreements onto 3 x 5 cards which are then sent to the Copyright Office.

CO—12

System name: Open and Closed Renewal Correspondence Files

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who have submitted an application for copyright renewal which requires correspondence and individuals who have requested general information about copyright renewal.

Categories of records in the system: Applications for copyright renewal, correspondence, original search forms, renewal search records, search sheets, split fee sheets.

Authority for maintenance of system: 17 U.S.C. section 304 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses the records in the Open file to hold cases requiring correspondence until the reply is received. The Office uses the records in the Closed file to hold correspondence and other material which may be requested by the Examiner in evaluating a case or by parties involved in litigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila envelopes in a file cabinet.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Records are retained in the Open file until a reply is received or the case is closed. Closed files are retained permanently.

System manager(s) and address:
Section Head, Renewal and Assignments Section
Examining Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains or such individual's authorized agent.

CO—13

System name: Unfinished Business Document File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Remitters of assignments or other documents pertaining to a copyright which have been submitted to the Office for recordation and require correspondence.

Categories of records in the system: Assignments, licenses, mortgages, wills, court decrees, statements of abandonment of copyright, affidavits (such as a statement with respect to the authorship of a work), agreements or contracts (such as an employment agreement), certificates of change of name or corporate certificates of corporate mergers, power of attorney documents.

Authority for maintenance of system: 17 U.S.C. section 205 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses this file to store securely assignments and other valuable documents pertaining to a copyright which have been submitted for recordation but which require correspondence prior to recordation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila envelopes in a file cabinet.

Retrievability: Alphabetically by remitter's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: As each recordation problem is resolved, the original document is microfilmed and then returned to the remitter.

System manager(s) and address:
Section Head, Renewal and Assignment Section
Examining Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains or such individual's authorized agent.

CO—14

System name: Appeal from Refusal to Register File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who are appealing the decision of the Register of Copyrights to refuse registration because, in accordance with title 17 of the United States Code (the Act for General Revision of the Copyright Law) the Register has determined that the material deposited does not constitute copyrightable subject matter or that the claim is invalid for any other reason.

Categories of records in the system: Copies of Office correspondence refusing to register a claim after January 1, 1978; letters appealing the refusal, subsequent correspondence regarding the appeal, and wherever possible copies or photocopies of the material submitted for registration.

Authority for maintenance of system: 17 U.S.C. 410 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records—(1) to respond to appeals from the Register's refusal to register a claim; and (2) to keep an accounting of the number and nature of appeals, Office responses, and reasons for initial refusals to register.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila folders in a file cabinet.

Retrievability: Alphabetically by name of the remitter, cross-referenced to title of work.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking house.

Retention and Disposal: Retained permanently.

Authority for maintenance of system: 17 U.S.C. section 705 (the Act for General Revision of the Copyright Law).

Record source categories: Individual to whom the record pertains, Copyright Office records, and trade reference sources.

Storage: Manila folders in a file cabinet.

Retrievability: Alphabetically by attorney's name.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Chief, Examining Division
Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains, or such individual's authorized agent, and Office personnel.

CO—15

System name: Biobibliographic File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Well known or prolific authors or authors of well known works, in those instances where the Office determines that it would be in the public interest to preserve published copyright-related information about such authors.

Categories of records in the system: Newspaper clippings, magazine articles, obituaries, book jackets, and search reports.

Authority for maintenance of system: 17 U.S.C. section 705 (the Act of General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records: (1) in the preparation of search reports compiled at the request of a member of the public, and (2) in the compilation of an index to this system, which cross-references authors, titles, and law firms, and which may indicate the contents of a record. These records are also available to the public during working hours.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Folders in file cabinets.

Retrievability: Alphabetically by author's name, law firm's name, or title of work.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Retained permanently.

System manager(s) and address:
Section Head, Reference Search Section
Information and Reference Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Magazines, newspapers, book jackets, trade reference sources, copyright card catalog, the assignee-assignor file, and applications.

CO—16

System name: Address File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Copyright claimants of record whose address has been requested by a member of the public.

Categories of records in the system: Name and address of claimant of record, year date of address.

Authority for maintenance of system: 17 U.S.C. section 705 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to facilitate searching for addresses of copyright claimants when such addresses are requested by a member of the public.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: 3 x 5 index cards in file box.

Retrievability: Alphabetically by claimant of record's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and is locked during nonworking hours.

Retention and Disposal: Retained indefinitely, but obsolete addresses are disposed of as more current addresses are obtained.

System manager(s) and address:
Section Head, Reference Search Section
Information and Reference Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Copyright claimants, their authorized agents, phone books, and city directories.

CO—17

System name: Domestic Master Mailing List

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who have frequent contact with the Office, or have asked to receive all Office information circulars, announcements, and other printed material prepared by the Office.

Categories of records in the system: Names and addresses.

Authority for maintenance of system: 17 U.S.C. section 707, (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to address and mail Office information circulars, announcements, and other printed material.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Computer print-out sheets in a binder, stored in a desk drawer.

Retrievability: Alphabetically by name.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Individuals may request that their names be dropped from the list. All other names and addresses are retained indefinitely.

System manager(s) and address:
Section Head, Information and Publications Section
Information and Reference Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains, Copyright Office records, and trade reference sources.

CO—18

System name: Freedom of Information Act Requests and Privacy Act Requests and Disclosures File

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who have submitted Freedom of Information Act requests and Privacy Act requests for disclosures of Office records as set forth in 37 CFR 203 and 204; individuals who have requested correction or amendment of Office records pertaining to them.

Categories of records in the system: Requests submitted under the Freedom of Information and Privacy Acts for disclosures of Office records; requests submitted under the Privacy Act for correction or amendment of Office records; copies of the Office response to these requests.

Authority for maintenance of system: 17 U.S.C. 701 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to maintain an accounting of Freedom of Information Act and Privacy Act requests for disclosure of records and Office responses to these requests. The Office also uses these records to maintain an accounting of requests submitted under the Privacy Act to correct or amend a record pertaining to an individual, and the Office responses to these requests. The Office also uses these records to compile the annual report required by the Freedom of Information Act, and to conduct the annual update and review and compile the the annual report required by the Privacy Act.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila folders in a file cabinet.

Retrievability: Alphabetically by requester's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during non-working hours.

Retention and Disposal: Retained indefinitely.

System manager(s) and address:
Section Head, Information and Publications Section
Information and Reference Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: Individual to whom the record pertains, and Copyright Office records.

CO—19

System name: ABA Master Mailing List

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Attorneys who are listed in the annual edition of the "American Bar Association Section of Patent, Trademark, and Copyright Law Committees" as members of copyright-related committees.

Categories of records in the system: Names and addresses.

Authority for maintenance of system: 17 U.S.C. section 707 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses these records to address and mail office information circulars, announcements, and other printed material to attorneys who are members of copyright-related ABA committees.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Manila folders in a file cabinet.

Retrievability: Alphabetically by attorney's name.

Safeguards: These records are maintained in a room which is locked during nonworking hours.

Retention and Disposal: Attorneys may request that their names be dropped from the list. Additionally, the Office uses the annual edition of the "American Bar Association Section of Patent, Trademark, and Copyright Law Committees" to update the list, deleting and adding names as appropriate.

System manager(s) and address:
Section Head, Information and Publications Section
Information and Reference Division, Copyright Office
Library of Congress
Washington, D.C. 20559

Notification procedure: Inquiries about an individual's record should be in writing addressed to the Supervisory Copyright Information Specialist, Information and Publications Section, Information and Reference Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Record access procedures: Requests from individuals should be in writing addressed to the official designated under "Notification procedure."

Contesting record procedures: See rules published in 37 CFR Part 204.

Record source categories: "American Bar Association Section of Patent, Trademark, and Copyright Law Committees."

CO—20

System name: Open and Closed Certification and Documents Work Files.

System location: Copyright Office, Library of Congress, Arlington, Virginia.

Categories of individuals: Individuals who request copies of Office records or additional certificates of copyright registration.

Categories of records in the system: Requester's name, date of request, description of record(s) or registration certificate(s) requested, action taken by the Office.

Authority for maintenance of system: 17 U.S.C. sections 706 and 708 (the Act for General Revision of the Copyright Law).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Office uses this system: (1) To maintain a record of all requests for copies of Copyright Office records and additional certificates of copyright registration; and (2) to control and monitor the processing of such requests.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: 3 x 5 paper slips in a file cabinet.

Retrievability: Alhphabetically by requester's name.

Safeguards: These records are maintained in a room which is restricted to authorized personnel and locked during nonworking hours.

Retention and Disposal: Records in the Open file are transferred to the Closed file when the requests are filled; the Closed file is retained indefinitely.

AGENCY: Coast Guard, DOT.

ACTION: Proposed interpretative rule.

SUMMARY: The Coast Guard is proposing to issue interpretative regulations concerning R.S. 4427(b) which deals with the licensing of personnel on uninspected towing vessels. Since the enactment of the statute, many questions have been asked concerning the application of manning standards to unispected towing vessels. These regulations will clarify the relationship between the statute and other manning statutes.

DATES: Comments must be received on or before October 30, 1978.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), (CGD 77/062) U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G/CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Comdr. Scott McCowan, Office of Merchant Marine Safety (G-MVP/82); Room 8214, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-2240.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each comment should include the name and address of the person submitting the comment, reference the docket number (CGD 77-062), identify the specific section of the proposal to which each comment applies, and include sufficient detail to indicate the basis on which each comment is made. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned but one may be held at a time and a place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, Mar. 8, 1978). A draft evaluation of the proposal has been prepared, and has been included in the public docket.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Comdr. Scott McCowan, Project Manager, Office of Merchant Marine Safety, and Mr. Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

Many questions have been asked by the marine community concerning the application of manning standards to uninspected towing vessels. These questions stem primarily from conflicting interpretations of R.S. 4427(b) (46 U.S.C. 405(b)) (concerned with the licensing of personnel on uninspected towing vessels) enacted in 1972, and its relationship to other manning statutes. The principal questions have concerned the 12 hour work provision of this statute conflicting with the three watch provisions of previously enacted statutes.

The Coast Guard is considering issuing the regulations in this document in order to clarify its interpretation of this issue and other related issues as follows:

a. Licensed operators serving under the authority of 46 U.S.C. 405(b) are subject to the 12-hour work clause of 46 U.S.C. 405(b) rather than the three watch provisions of 46 U.S.C. 673.

b. Licensed uninspected towing vessel operators shall not be included for computation purposes when determining whether a vessel meets the 65 percent able seamen requirement of 46 U.S.C. 672, on vessels subject to 46 U.S.C. 672.

c. Persons licensed solely under the provisions of 46 U.S.C. 405(b) cannot serve in any capacity as a licensed officer on vessels of 200 gross tons and over subject to the provisions of 46 U.S.C. 224a.

In order to clarify the intended effect of the regulations, a definition of rest time has been included.

Short periods of rest spent in a non-working status which militate against extended rest are included in the 12-hour work periods. Periods of rest in excess of 6 hours are not included in the 12-hour work period.

In consideration of the foregoing, it is proposed that part 157 of title 46 of Code of Federal Regulations be amended:

1. By adding a new § 157.20-5(c) to read as follows:

§ 157.20-5 Division into three watches.

* * * * * *

(c) On uninspected towing vessels of less than 200 gross tons to which the provisions of section 2 of the Seaman's Act of 1915, as amended (49 Stat. 1933, 46 U.S.C. 673) apply, the licensed operators required to be on board by R.S. 4427(b) (46 U.S.C. 405(b)) are not subject to the three watch provisions.

2. By revising § 157.20-15(b) to read as follows:

§ 157.20-15 Able seamen.

* * * * * *

(b) *Computation of number.* On vessels to which the provisions of section 13 of the Seamen's Act of 1915, as amended (46 U.S.C. 672), apply, at least 65 per centum of the deck crew, exclusive of licensed officers, licensed uninspected towboat operators, and apprentices, shall be of a rating not less than able seamen. In the event that the number of persons in the deck crew, as defined in § 157.10-20(a), is in excess of the number of persons required therein by the certificate of inspection, at least 65 per centum of the whole deck crew on the vessel, exclusive of licensed officers, licensed uninspected towboat operators, and apprentices, shall be of a rating of not less than able seamen.

3. By adding a new § 157.20-65 to read as follows:

§ 157.20-65 Uninspected towing vessel operators.

(a) For the purposes of this section, "rest time" is defined as any period of time when the operator, as required by R.S. 4427(b) (46 U.S.C. 405(b), is on board the towing vessel but is not in a work or duty status.

(b) No licensed operator of an uninspected towing vessel subject to R.S. 4427(b) (46 U.S.C. 405(b)) may work a vessel while underway, or perform other duties in excess of 12 hours in any consecutive 24-hour period except in an emergency.

(c) A period of rest ime of 6 hours or more is not counted as part of the 12 hours' work or duty status permitted under paragraph (b).

(d) Periods of rest time of less than 6 hours will be counted as part of the 12 hours' work or duty status permitted under paragraph (b), unless, in the judgement of the cognizant Officer in Charge, Marine Inspection, the actual rest time was sufficient to meet the intent of the Act to assure that only adequately rested operators are in charge of the navigation of uninspected towing vessels.

4. By adding a new § 157.30-10 (d) and (e) to read as follows:

§ 157.30-10 Officers of uninspected vessels.

* * * * * *

(d) A person licensed only as operator of uninspected towing vessels under R.S. 4427(b) (46 U.S.C. 405(b)) is not a licensed master, mate, or engineer within the terms of R.S. 4438a (46 U.S.C. 224a), but the holder of a master or mate license which authorizes service on uninspected towing vessels may serve, within the scope and limitation of the license, as the licensed operator required by R.S. 4427(b).

(e) The licensed operator required by R.S. 4427(b) (46 U.S.C. 405(b)) of uninspected seagoing towing vessels of 200 gross tons, or over, but less than 300 gross tons must be a licensed master or mate within the meaning of R.S. 4438a (46 U.S.C. 224a).

(53 Stat. 1049 (46 U.S.C. 224a); Pub. L. 92-239, 86 Stat. 423 (46 U.S.C. 405(b)); 38 Stat. 1169, as amended (46 U.S.C. 672); 38 Stat. 1164, as amended (46 U.S.C. 673); 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 8, 1978.

R. H. SCARBOROUGH,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

Guide to Record Retention Requirements

[Revised as of January 1, 1978]

Latest Edition

This useful reference tool, compiled from agency regulations and U.S. Statutes, is designed to assist industry and the public with their Federal record-keeping obligations.

The various digests in the "Guide" tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

In addition, the "Guide" contains the names, addresses, and phone numbers of contact persons within each agency who can answer substantive questions about the requirements.

Each digest also carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index lists for ready reference the categories of persons, groups, and products affected by Federal record retention requirements.

Price: $2.50

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 7—Agriculture

CHAPTER XVII—RURAL ELECTRIFICATION ADMINISTRATION, DEPARTMENT OF AGRICULTURE

PART 1701—PUBLIC INFORMATION

REA Bulletin: Engineering Service Contracts

AGENCY: Rural Electrification Administration, USDA.

ACTION: Final rule.

SUMMARY: The Rural Electrification Administration hereby amends Appendix A—REA Bulletins to provide for the issuance of a supplement to REA Bulletin 41-1, Engineering Services for Electric Borrowers. This supplement: (1) Announces the revision of REA Form 211 (8-78), Engineering Service Contract for the Design and Construction of a Generating Plant; (2) Provides for an alternate liability clause, with respect to special and consequential damages, that may be used at the borrower's option in negotiating for engineering services on REA Form 211; (3) Allows the borrower to formulate a comprehensive insurance program covering the borrower, its engineer, and any contractor or supplier involved in the design and/or construction of REA-financed generation projects; and (4) Permits borrowers to negotiate alternate compensation provisions when contracting for engineering services on REA Form 211.

DATE: The Supplement to REA Bulletin 41-1 becomes effective September 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Rowland C. Hand, Sr., Director, Power Supply and Engineering Standards Division, Rural Electrification Administration, room 3304, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202-447-4413.

SUPPLEMENTARY INFORMATION: REA regulations are issued pursuant to the Rural Electrification Act, as amended, (7 U.S.C. 901 et seq.). In response to the publication of the notice of the proposed issuance of a Supplement to REA Bulletin 41-1, public comments were received from 25 individuals representing consulting engineers and REA borrowers. Outlined below is a summary of the substantive comments received on the proposed issuance of the revised REA Form 211, along with REA's position on the issue raised. For ease of reference, the comments have been numerically keyed to the corresponding article and section of the proposed REA Form 211 announced in the November 4, 1977, FEDERAL REGISTER notice. Besides those major change listed below, many other lesser changes have been made in the contract as a result of public comments. Copies of the adopted contract are available from REA upon request. Due to the number of significant changes incorporated into the proposed Supplement to REA Bulletin 41-1, as a result of public comment, the final adopted supplement is printed below in its entirety. Additional copies are available from REA upon request.

General comment. Of all the parties submitting comments, three suggested that REA defer action on the revision of the proposed contract. One suggested deferral until after the Spring Generation and Transmission Managers Conference (May 1-3, 1978) and the others until a coordinated revision of REA Form 200 (Construction Contract—Generating) had been completed. REA has complied with the former recommendation to allow the managers an opportunity to discuss the proposed changes at their meeting and to submit their comments to REA. On the latter recommendation, REA is presently considering REA Form 200 for revision. If, and when, this revision occurs, the contract language will reflect the changes made in REA Form 211.

General comment. One consulting firm suggested that REA include a "Force Majeure" clause in the revised contract to protect the engineer from occurrences beyond its reasonable control. Since a problem has never arisen in this regard in the history of the program, REA does not consider it advisable to include such a clause in the revised contract form. On another matter, the same firm also suggested that the contract language be modified to hold the engineer harmless for any claims arising as a result of patent infringement. Again, this suggested change has not been adopted because REA believes that the borrower should not be held responsible for patent infringement claims when it is the engineer's design that gives rise to the claim.

Preamble. Two commenters requested that the Preamble be modified to cover those instances where design work is being performed under the contract terms and conditions but the contract has not, as yet, been approved by REA. Due to program restraints, REA cannot include such a provision in the contract.

Article I. Four commenters indicated that the proposed contract language could be interpreted to impose stricter than normal standards on the engineer. REA concurs with the commenters and has modified the contract language to require that the engineer provide its services in accordance with the normal standards and practices used in the engineering profession.

Three commenters suggested that a "Scope of Services" document be attached to the contract indicating, in detail, all services to be provided under the contract. REA believes that the present contract format is preferable since it is virtually impossible on such large and complex projects to list every service that an engineer is to provide.

One commenter suggested that the contract be written so as to allow the borrower to utilize its staff to provide some of the services normally provided by the engineer. REA believes that the borrower, in general, does not have the engineering capability to design and construct a powerplant. REA, also, believes that it is not desirable to split the responsibility on such projects.

Article II, section 1(d). Two borrowers suggested that the engineer be given responsibility for conducting topographic and grid system surveys and for doing soil testing. REA does not believe that these are responsibilities that should be assigned to the engineer in all cases. Several borrowers expressed a desire to have the flexibility of being able to retain some other firm to provide these services.

Article III, section 1. Sixteen comments were received on various aspects of this proposed section. However, most of these comments had one un-

derlying concern—what really are the engineer's duties and responsibilities on the construction site. In proposing the original change in this article, quests the data on a more frequent basis.

Article III, section 4. One commenter suggested that the contract borrower be permitted to insert such a clause in the contract if it so chose. Two commenters suggested that the borrower and/or the engineer be per-

vise "all details" of construction and "the manner of incorporation of materials and equipment into the project" have been deleted.

the existing compensation provision (art. V, sec. 1). However, REA is, by this supplement, permitting borrowers to negotiate alternate compensation clauses where the

value not exceed $40 per head for grade animals and not to exceed $90 per head for purebred animals, to two-thirds of the appraisal value not to

derlying concern—what really are the engineer's duties and responsibilities on the construction site. In proposing the original change in this article, REA tried to define the engineer's functions during construction so as to limit its responsibility to only those items for which it had direct control, thereby limiting its professional liability. From the many verbal and written comments received on this issue, no one solution seemed acceptable to the majority of commenters. Some people indicated that the proposed changes improved the engineer's position from a professional liability standpoint, while others indicated that the engineer's position was no better than under the existing REA Form 211 (8-72) and might even be worse. Having analyzed the various comments in detail, REA determined that the contract should address those few specific areas that were objectionable to all parties, and should not make major changes in language that are untested.

In this regard, REA intends to retain much of the existing language of Article III, section 1, of REA Form 211 (8-72). However, certain existing phrases will be deleted and the term "supervise" will be defined so as to enumerate those areas for which the engineer is not intended to have responsibility.

Article III, section 2. Two commenters suggested that a procedure be adopted whereby routine changes developing during the project life are implemented in an orderly fashion. REA has adopted this recommendation by making the implementation of minor changes the responsibility of the engineer and within the intent of its general undertakings under the contract with the borrower. Major changes affecting the project scope will be handled in a manner mutually agreed upon by the borrower and the engineer.

Another commenter suggested that REA remove its approval requirement on contract amendments. REA has not adopted this suggestion.

Article III, section 3. Four comments were received concerning revised cost estimates. Two commenters expressed a concern that providing updated cost estimates to the borrower could be expensive and hard to evaluate. The other commenters expressed an interest in when, and how often, such cost estimates should be revised. REA has determined that it is in the best interest of REA and the borrower to receive an updated cost estimate for each contract when the bid documents for that contract are submitted to REA for review, and to receive revised cash flow and project cost estimates quarterly after certain design and construction targets have been achieved, unless the borrower specifically requests the data on a more frequent basis.

Article III, section 4. One commenter suggested that the contract language be clarified to show that acceptance tests are normally conducted by the contractor and observed by the engineer. Another engineering firm recommended that the engineer be given the responsibility for plant start-up. Both of these recommendations were adopted with minor modifications.

Article V, section 1. Three commenters indicated that another means of computing the compensation due the engineer needs to be considered. Two commenters suggested a "cost plus" approach, while the other suggested that compensation should be based on an hourly rate. Due to the fact that REA Form 211 has been developed for use on various sized projects—from small diesel to large fossil fired plants—REA does not believe that changing the compensation format would be of benefit to the users of the form as a whole. However, REA is concurrently issuing with the revised contract form a supplement to REA bulletin 41-1 which will give borrowers the option of negotiating alternate compensation provisions with the engineer when contracting for engineering services on REA Form 211.

Article VI, section 3 (b) and (c). Four commenters suggested that the "minimum" insurance limits specified in the contract be increased. REA does not believe that the agency should dictate what amounts of insurance are required on the various projects to guarantee the engineer protection. REA believes that this is a determination that can only be made by the engineer after evaluating its possible exposure on a particular project. REA has, however, given the borrower the option of developing a comprehensive insurance program for the project (see art. VI, sec. 4, below, for further explanation).

Article VI, section 4. Eighteen comments were received on the proposed provision which would limit the engineer's liability for specific consequential damages. In general, most engineering firms felt that the proposed limit was unreasonably high. Some firms indicated that REA should go further and limit the engineer's liability for all damages—both direct and special and consequential. Other firms indicated that if only the engineer's liability for special and consequential damages was to be limited, then all such damages should be limited and not just a few. Two REA borrowers opposed limiting the engineer's liability and indicated that the provision, as proposed, was unacceptable to them. Two more commenters suggested that this provision not be included in the standard contract form but that the borrower be permitted to insert such a clause in the contract if it so chose. Two commenters suggested that the borrower and/or the engineer be permitted to procure various types of insurance to cover liability that might arise during the design or construction of the project.

After reviewing the various verbal and written arguments presented, REA has decided upon the following courses of action: (1) The revised REA Form 211 will not address the question of special and consequential damages directly. However, REA is issuing concurrently with the revised REA Form 211 a supplement to REA bulletin 41-1 that will give REA borrowers the option of inserting in the revised contract a clause which would limit the engineer's liability to the borrower for all special and consequential damages. The limit would be ten million dollars ($10,000,000) or five percent (5%) of the estimated generating plant cost, whichever is less. This approach is intended to give the borrower additional flexibility in negotiating a contract while providing the engineer with a specified limit on its exposure for those kinds of damages. (2) In addition, this supplement would also provide the borrower the option of developing, in conjunction with its engineer, a comprehensive insurance program. Such an insurance program would cover the borrower, its engineer, and any contractors or suppliers providing services or materials and equipment for the engineering, design, and construction of an REA-financed generating plant. The insurance coverages decided upon would supplement the minimum requirements specified in the standard REA Forms 200 and 211. Any such mutually agreed upon supplementary insurance program would be subject to REA review and approval.

SUPPLEMENT TO REA BULLETIN 41-1

SUBJECT: ENGINEERING SERVICE CONTRACTS FOR GENERATION FACILITIES

I. *Purpose.* This supplement: (1) Announces the revision of REA Form 211 (8-78), Engineering Service Contract for the Design and Construction of a Generating Plant, and (2) outlines various changes that may be made in the revised contract form under certain specified circumstances, if the borrower elects to permit such changes. This revised contract form and supplement replaces REA Form 211 (8-72) and the November 14, 1972, Supplement No. 2 to REA Bulletin 41-1.

II. *Summary of principal changes.* Listed below is a summary of the substantive changes made in REA Form 211, dated August 1972.

A. Article III, section 1—The term "supervise" has been defined so as not to confer upon the engineer responsibility for the contractor's construction means, methods, or techniques. In addition, the previous contract requirements that the engineer supervise "all details" of construction and "the manner of incorporation of materials and equipment into the project" have been deleted.

B. Article III, sections 4 and 6—The engineer's, borrower's, and manufacturer's roles in component and system tests and final acceptance tests of major equipment have been clarified to reflect usual practice.

C. Article III, section 5—A new provision has been added to the contract which gives the engineer the responsibility for coordinating and scheduling plant start-up activities.

In addition to those outlined above, many other lesser changes have been made throughout the contract to reflect current conditions and practice. Additional copies of revised REA Form 211 are available from REA upon request, or the attached form may be reproduced.

III. *Limitation of liability.* REA has become aware that some engineering firms are reluctant to sign REA Form 211, Engineering Service Contract for the Design and Construction of a Generating Plant, because of its lack of limitation of liability. REA has carefully reviewed this matter and has determined that where a borrower's board of directors believes that the borrower's best interest can be served by soliciting proposals which limit the engineer's liability, the following changes may be made in the standard REA Form 211 under the conditions specified below.

A. *Special and consequential damages.* In negotiating for engineering services on REA Form 211, the borrower may elect to limit the engineer's liability for special and consequential damages by inserting the following clause. (Note: This clause may be inserted without prior REA approval.)

"The Engineer shall not be liable to the owner under this agreement for special or consequential damages in an aggregate amount exceeding ten million dollars ($10,000,000) or five percent (5%) of the total estimated generating plant cost (page 1, line 10), whichever is less."

B. *Project insurance program.* If State statutes permit, borrowers may consider formulating a comprehensive insurance program for a specific generating project. This insurance program would modify the provisions of article VI, section 3, of REA Form 211 and would provide financial protection for the borrower, its engineer, and any contractors or suppliers providing goods or services for that project. Borrowers electing to exercise this option should consult with REA prior to formulating the insurance program.

Before exercising either of the above options, the borrower's board of directors should carefully weigh the relative advantages and disadvantages of soliciting proposals on such a basis. If the decision is made to solicit proposals on either basis, REA should be notified of this by an appropriate board resolution.

IV. *Payment provisions of REA Form 211.* It has come to REA's attention that many borrowers and consulting engineering firms would prefer for REA Form 211 to provide for the engineer to be compensated on some basis other than the one presently contained in the existing contract form. Since REA Form 211 is utilized for the design and construction of various sized generating projects (from small diesel to large fossil fired plants), REA does not believe it is in the overall best interest of borrowers to modify the existing compensation provision (art. V, sec. 1). However, REA is, by this supplement, permitting borrowers to negotiate alternate compensation clauses where the board of directors believes it is in the borrower's best interest to do so. Prior REA approval to insert such negotiated compensation clauses in the contract is not needed as long as the provision specifies a maximum "not-to-exceed" price to perform the scope of work defined in the contract.

Dated: September 6, 1978.

DAVID A. HAMIL,
Administrator.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—COOPERATIVE CONTROL AND ERADICATION OF LIVESTOCK OR POULTRY DISEASES

PART 54—ANIMALS DESTROYED BECAUSE OF SCRAPIE

Payment of Indemnities

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the regulations to increase the maximum indemnity which may be paid for sheep or goats destroyed because of scrapie, to provide for appraisals of such animals by special appraisers, and to clarify the regulations by defining or redefining certain terms used therein. These provisions are needed to insure that appraisals are made comparable to fair market values and that the regulations can be readily understood, and they are expected to result in improved cooperation with the scrapie eradication program by members of the sheep and goat industries.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. A. L. Klingsporn, USDA, APHIS, VS, Sheep, Goats, Equine, and Ectoparasites Staff, Room 739, Federal Building, 6505 Belcrest Road, Hyattsville, Md. 20782, 301-436-8321.

SUPPLEMENTARY INFORMATION: On March 17, 1978, there was published in the FEDERAL REGISTER (43 FR 11204-11205), a notice of proposed rulemaking which would increase maximum Federal indemnity which may be paid for animals destroyed because of scrapie from one-half of the appraisal value not exceed $40 per head for grade animals and not to exceed $90 per head for purebred animals, to two-thirds of the appraisal value not to exceed $300 per head for grade and purebred animals; to provided for appraisals of such animal by qualified appraisers; and to clarify the regulations by defining or redefining certain terms used therein.

A period of 60 days was provide for receipt of comments and six comments were received. Two were in favor of the proposed amendment as written. With regard to the four other comments one was in favor of the increased indemnity, but suggested clarification on the selection and employment of qualified appraisers to assure fair and equitable appraisals and to reduce costs. Another comment did not oppose the proposed amendment, but suggested clarification on the selection and employment of qualified appraisers, and inquired as to whom will be responsible for the expense of disposing of animals destroyed. The Department believes that this final rule clearly states the manner of selection and employment of qualified appraisers. Further, § 54.5 of the regulations clearly indicates that the expense of disposing of animals will not be paid by the Department. The remaining two comments also did not oppose the proposed amendment. One of these comments requested information on methods of destruction. Both requested that the animals be destroyed by humane methods. Additionally, one of these comments suggested editorial changes in part 54, to assure humane destruction under the supervision of a Veterinary Services employee accountable to the Deputy Administrator. The Department will encourage people destroying animals under part 54 to do so in a humane manner. However, the Department does not have the authority to require the destruction of such animals in a humane manner.

As noted in the proposal, the appraisal of animals under this part shall be made by a qualified appraiser selected and employed by Veterinary Services. The individual selected to make the appraisals will be a person from the area involved who is knowledgeable in sheep and goat values in the area where the appraisal is being made. He may be a purebred breeder, sheep or goat specialist, member of local breeder associations, show judge, or other such qualified person. This individual generally will be employed and paid by Veterinary Services on a part-time basis. However, an additional appraiser may be selected and employed by the owner if he deems the appraisal to be inadequate. In addition, with the approval of the owner and State representative, appraisals

can be made by a qualified Veterinary Services representative or jointly by a Veterinary Services representative and

(d) *Veterinary Services representative.* A person employed by Veterinary Services in animal health activities

thorized by the Deputy Administrator in an exceptional situation.

2. Section 54.3(a) is amended to read:

such animals are not to be processed for human food. The carcasses of the animals destroyed shall be disposed of

[3410-34]

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS,

these vaccines, but included suggestions for changes.

Four responses suggested the serum-neutralization titer required for satis-

can be made by a qualified Veterinary Services representative or jointly by a Veterinary Services representative and a State representative. Such appraisals would generally include small groups or individual scattered, exposed animals sold from infected and source flocks. If the owner believes the appraisal by the Veterinary Services representative or the joint appraisal by a Veterinary Services representative and State representative to be inadequate, an appraiser from the region will be employed by Veterinary Services. A proviso has been inserted into § 54.3(a) to clarify this matter.

The owner is responsible for the expense of disposal of animals destroyed under this part.

The destruction and disposition of animals destroyed will be under the supervision of a Veterinary Services or State representative who shall prepare and forward a report to the Deputy Administrator.

The definition of the word "flock," as it appeared in the proposal, in § 54.1(j) has been changed by deleting the words "or movement." As written in the proposal, the term "flock" was defined in relevant part as "two or more groups of animals under common ownership or supervision, and geographically separated, but which have an interchange or movement of animals." This definition was broader than intended by the Department in that two or more groups of animals under common ownership or supervision, and geographically separated could fall under the definition of "flock" if any of the animals were moved. The Department intended the definition of "flock," to apply only to two or more groups or animals which have an interchange of animals.

After due consideration of all relevant material submitted, the proposed regulations are hereby adopted as proposed, except for the change in the definition of a flock and the change in § 54.3(a).

Accordingly, Part 54, Title 9, Code of Federal Regulations, is amended in the following respects:

1. Section 54.1 is amended to read:

§ 54.1 Definitions.

For the purpose of this part, the following words, names, and terms shall be construed, respectively, to mean:

(a) *Department.* The U.S. Department of Agriculture.

(b) *Veterinary Services.* The Veterinary Services unit of the Animal and Plant Health Inspection Service, U.S. Department of Agriculture.

(c) *Deputy Administrator.* The Deputy Administrator for Veterinary Services or any other Veterinary Services official to whom authority has been delegated or may hereafter be delegated to act in his stead.

(d) *Veterinary Services representative.* A person employed by Veterinary Services in animal health activities who is authorized by the Deputy Administrator to perform the function involved.

(e) *State.* Any State or Territory or possession of the United States, the District of Columbia, or Puerto Rico.

(f) *State representative.* A person employed in livestock sanitary work of a State or a political subdivision thereof, and who is authorized by such State or political subdivision to perform the function involved under a cooperative agreement with the U.S. Department of Agriculture.

(g) *Owner.* A person, partnership, company, or corporation who has legal or rightful title to animals whether or not they are subject to a mortgage.

(h) *Mortgage.* Any mortgage, lien, or other security or beneficial interest held by any person other than the one claiming indemnity.

(i) *Animal.* A sheep or goat.

(j) *Flock.* A group of animals maintained on common ground, or two or more groups of animals under common ownership or supervision, and geographically separated, but which have an interchange of animals.

(k) *Affected animal.* An animal for which a diagnosis of scrapie has been made by a Veterinary Services representative or State representative.

(l) *Infected flock.* A flock in which an affected animal has been found by a Veterinary Services representative or a State representative.

(m) *Source flock.* A flock from which an animal was moved and within 18 months of the date of the movement the animal showed clinical evidence of scrapie, or from which two or more animals were moved and subsequent to the movement the animals showed clinical evidence of scrapie.

(n) *Exposed animal.* An animal, other than an affected animal, which is either in an infected or source flock, or which has been:

(1) Held, pastured, or penned with an infected flock at any time since the birth or introduction of the affected animal into such flock, or

(2) Held, pastured, or penned with a source flock at any time since the birth or introduction of an affected animal into such flock, or

(3) Female progeny of an affected female animal and her first generation male progeny, or

(4) The dam of an affected animal and the dam's first generation progeny, or

(5) The first generation progeny of an exposed female animal moved from an infected flock or source flock, or

(6) The first generation progeny of an affected male animal.

(o) *Destroyed.* Killed by slaughter or by such other means as may be authorized by the Deputy Administrator in an exceptional situation.

2. Section 54.3(a) is amended to read:

§ 54.3 Appraisal of animals.

(a) Subject to the provisions of paragraph (b) of this section, affected animals and exposed animals for which indemnity is to be paid under this part shall be appraised at their fair market value by an appraiser selected and employed by Veterinary Services in each of the Veterinary Services regions; except that, if the owner and State representative approve, such animals may be appraised by a Veterinary Services representative alone, or may be appraised jointly by a Veterinary Services representative and a State representative; *Provided,* That if the owner deems the appraisal of the Veterinary Services representative or of the joint Veterinary Services representative and State representative to be inadequate, the appraisal shall be made by an appraiser selected and employed by Veterinary Services in each of the Veterinary Services regions. Should the appraisal made by the appraiser employed by Veterinary Services be deemed inadequate by the owner, the owner may select and employ his own appraiser who shall appraise the animals and consult with the Veterinary Services appraiser and attempt to agree on the appraisal value. If the two appraisers do not agree on the appraisal value of the animals, the two appraisers shall select a third appraiser who will be employed by Veterinary Services. The three appraisers shall attempt to agree upon an appraisal value for the animals. Any appraisal agreed upon by these three appraisers will be final.

* * * * *

3. Section 54.7 (a) and (b) are amended to read:

§ 54.7 Destruction and disposition of animals.

(a) Indemnity for affected animals and exposed animals destroyed under this part shall be paid only after Veterinary Services obtains the written agreement of the owner to accept from the United States compensation which shall be equal to two-thirds of the appraised value of each animal, not to exceed $300 per head.

(b) Affected animals and exposed animals shall be destroyed on the premises where held, pastured, or penned at the time of appraisal; except that such animals may be moved for destruction to a location other than the premises where appraised when movement to such location is approved in advance by the State representative and Veterinary Services representative involved, and such animals are not to be processed for human food. The carcasses of the animals destroyed shall be disposed of by burial or incineration.

* * * * *

4. Section 54.8 is amended to read:

§ 54.8 Payments to owners for animals destroyed.

(a) Owners of affected animals and exposed animals destroyed in accordance with this part shall be paid an indemnity by the United States equal to two-thirds of the appraised value of each animal so destroyed, not to exceed $300 per head.

(b) Veterinary Services may indemnify owners up to the limitations specified in this part whether or not the State participates in indemnity payment.

(c) Animals presented for appraisal as purebred shall be accompanied by their certificate of registry at the time of appraisal, or they shall be appraised as grades; except that, in the absence of such proof of purebreeding, the Deputy Administrator shall grant a reasonable time for the owner to obtain and present his certificate of registration to the Veterinary Services representative.

(Sec. 3, 23 Stat. 32, as amended; sec. 2, 32 Stat. 792, as amended; sec. 11, 58 Stat. 734, as amended (21 U.S.C. 111, 114, 114a, 134a-134h); 37 FR 28464, 28477, 38 FR 19141.)

Because of the urgency involved in eradicating scrapie and preventing the dissemination of this disease among livestock of the country, it is essential that these provisions be placed into effect without delay. It is believed the amendments will expedite the eradication of scrapie and will protect gains made in the State-Federal cooperative scrapie eradication program and will therefore be of maximum benefit to affected persons and the public if they are made effective immediately.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, good cause is found for making these amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 11th day of September 1978.

NOTE.—It is hereby certified that the economic and inflationary effects of these amendments have been carefully evaluated in accordance with Executive Order 11821.

J. K. ATWELL,
Acting Deputy Administrator,
Veterinary Services.

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS; ORGANISMS AND VECTORS

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment authorizes the use of serum-neutralization tests instead of vaccination-challenge tests which are presently required by the Standard Requirements in the evaluation of certain vaccines. The result of this amendment would be cheaper, quicker, and more humane testing, without a decrease in the validity of the results.

EFFECTIVE DATE: This amendment becomes effective October 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. R. J. Price, Biologics Licensing and Standards Staff, USDA, APHIS, VS, room 827, Federal Building, Hyattsville, Md. 20782, 301-436-8245.

SUPPLEMENTARY INFORMATION: This amendment provides for the use of the serum-neutralization test instead of the vaccination-challenge test in the evaluation of certain vaccines. It also provides for subsequent vaccination-challenge testing if the serum-neutralization test results are not satisfactory.

The potency of many viral vaccines can be adequately evaluated by using a serum-neutralization test instead of a vaccination-challenge test. This test is conducted in the laboratory without using virulent virus in valuable test animals.

This amendment also provides editorial changes for clarity and consistency. The requirements for modified live and killed feline panleukopenia vaccines are reworded to equalize as nearly as possible the requirements for both.

On April 14, 1978, a notice of the proposed amendment to Part 113 of Title 9 was published in the FEDERAL REGISTER at 43 FR 15719.

Comments on this proposal were solicited and eight responses were received. One response was favorable to the proposal as written. Five responses supported the use of the serum-neutralization test instead of the vaccination challenge test in the evalution of these vaccines, but included suggestions for changes.

Four responses suggested the serum-neutralization titer required for satisfactory product in § 113.123(b)(4)(ii) be reduced from 1:8 to 1:4, since experience shows cats with serum-neutralization titers of 1:4 will resist challenge. Titers obtained when a serum is tested using the serum-neutralization test may vary significantly depending upon the test procedures used. As a result, a number of different titers have been reported to represent protection. This suggestion was rejected since data show that when the serum-neutralization test is conducted according to the proposed rule, a titer of 1:8 is required to assure protection from challenge.

Three responses suggested the number of cats required for the potency test in § 113.123(b) be reduced from four vaccinates and one control to two vaccinates and two controls or two vaccinates and one control. These suggestions were rejected since the proposed rule provides the minimum number of animals considered acceptable for use in this type of test to assure validity of results.

Two responses suggested § 113.123(b)(5) and 113.139(c)(4)(v) be amended to provide a limit to the time period permitted between completion of the serum-neutralization test and challenge of the cats. Such a time limit would not add to the validity of the test and could require the licensee to repeat the test if technical problems were encountered that delayed challenge beyond the established time limit. This suggestion was rejected as being unnecessarily restrictive.

One response suggested that the serum-neutralization test procedure also be applied to the 25 dog Master Seed immunogenicity test in §§ 113.140(c) and 113.141(c). This suggestion was considered to be outside the scope of the proposed rule.

Suggestions received in seven responses were considered appropriate and constructive. These suggestions have been incorporated in this final rule and are explained in the discussion of changes below.

After due consideration of all relevent matters, including the proposal set forth in the aforesaid notice, and pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151-158), the amendment of Part 113, Subchapter E, Chapter I, Title 9 of the Code of Federal Regulations, as contained in the aforesaid notice is hereby adopted with the following exceptions:

The terminology used to express the titers that are required has been amended. Sections 113.123 (b)(1) and (b)(4)(ii); § 113.123 (c)(1)(ii) and (c)(4)(iv); § 113.140 (c)(4)(iv); and § 113.141 (c)(4)(iv) have been reworded

for consistency and clarity to indicate titers are based upon final serum dilution.

(b) *Potency test—serum-neutralization test.* Bulk or final container samples of completed product shall be

§ 113.139 Feline panleukopenia vaccine.

* * * * *

(v) If the results of a valid SN test are unsatisfactory, the vaccinates and the controls may be challenged as pro-

tinued. Ten susceptible dogs (8 vaccinates and 2 controls) shall be used in the retest. Susceptibility shall be de-

ACTION: Rescheduling of meeting to discuss guard training and contingency planning rules.

for consistency and clarity to indicate titers are based upon final serum dilution.

The time period between vaccination and the collection of blood samples in § 113.123(b)(2), § 113.139(c)(4)(ii), § 113.140(c)(4)(ii), and § 113.141(c)(4)(ii) has been changed from "14 days" to "14 to 21 days." The additional time permitted will provide greater flexibility in the scheduling of the test, permit test animals greater time to develop an optimal response to vaccination, and will not effect the validity of results.

"Invalid" has been changed to "inconclusive" in § 113.123 (b)(4) and (b)(6); § 113.139(c)(3)(i), (c)(4)(iii), and (c)(4)(v); § 113.140 (c)(4)(iii) and (c)(4)(v); and § 113.141 (c)(4)(iii) and (c)(4)(v) for consistency.

The requirement that white blood cell counts be made on each test animal for nine consecutive days following challenge has been deleted from § 113.123(b)(5) to make procedures for testing modified live and killed virus feline panleukopenia vaccines more equal. This change also eliminates the need to conduct time-consuming white blood cell counts that are not necessary for interpretation of test results.

Printing errors have been corrected in § 113.123(b)(6) by changing "no" to "not" and in the heading for § 113.141 by correcting the spelling of "Distemper." Sections 113.123(b)(6) and 113.139(c)(3)(i) have been changed to require that white blood cell counts be taken "prior to challenge" rather than "prior to initiation of the test." This change permits greater flexibility in the test procedure, may reduce the number of white blood cell counts that are required if challenge of cats is not necessary, and permits the establishment of normal white blood cell counts closer to the day of challenge when they will be more valid.

1. Section 113.123 is amended by revising the introductory portion and revising paragraph (b) to read:

§ 113.123 Feline panleukopenia vaccine, killed virus.

Feline panleukopenia vaccine, killed virus shall be prepared from virus-bearing cell culture fluids or from tissues obtained from cats that have developed feline panleukopenia following inoculation with virulent feline panleukopenia virus prepared from a master seed virus which meets the applicable requirements prescribed in § 113.120. Each serial shall meet the special requirements for safety provided in paragraph (a) and the potency requirements provided in paragraph (b) of this section.

* * * * *

(b) *Potency test—serum-neutralization test.* Bulk or final container samples of completed product shall be tested for potency using five susceptible cats (four vaccinates and one control) as the test animals. Blood samples drawn from each cat shall be individually tested for neutralizing antibody against feline panleukopenia virus to determine susceptibility.

(1) A constant virus-varying serum neutralization test in tissue culture using 100 to 300 $TCID_{50}$ of virus shall be used. Cats shall be considered susceptible if there is no neutralization at a 1:2 final serum dilution.

(2) *Vaccination.* Each of the four vaccinates shall be injected as recommended on the label. If two doses are recommended, the second dose shall be given 7 to 10 days after the first dose and the cats observed each day for 14 to 21 days.

(3) *Serology.* At the end of the post-vaccination observation period, a second blood sample shall be obtained from each of the five cats and the serums shall be individually tested for neutralizing antibody against feline panleukopenia virus in the same manner used to determine susceptibility.

(4) *Interpretation of the SN test.* (i) If the control has not remained seronegative at 1:2, the test is inconclusive and may be repeated.

(ii) If at least 3 of the 4 vaccinates in a valid test have not developed titers based upon final serum dilution of at least 1:8, and the remaining vaccinate has not developed a titer of at least 1:4, the serial is unsatisfactory except as provided in paragraphs (b) (5) and (6) of this section.

(5) *Virus-challenge test.* If the results of the valid SN test are unsatisfactory, the vaccinates and the control may be challenged with a virulent feline panleukopenia virus furnished by veterinary services and each animal observed each day for an additional 14 days.

(6) *Interpretation of the virus-challenge test.* If the control does not show clinical signs of feline panleukopenia, the test is inconclusive and may be repeated except, that if any of the vaccinates show such signs, the serial is unsatisfactory. Clinical signs of feline panleukopenia shall include a pronounced leukopenia wherein the white blood cell count drops to 4,000 or less per cubic mm or the white cell count drops to less than 25 percent of the normal level established by an average of three or more counts taken prior to challenge.

2. Section 113.139 is amended by revising paragraphs (c)(1), (3)(i) and (ii) by revising paragraph (4) in its entirety.

§ 113.139 Feline panleukopenia vaccine.

* * * * *

(c) * * *

(1) Twenty-five feline panleukopenia susceptible cats shall be used as test animals (20 vaccinates and 5 controls). Blood samples drawn from each cat shall be individually tested for neutralizing antibody against feline panleukopenia virus to determine susceptibility.

(i) A constant virus-carrying serum neutralization test in tissue culture using 100 to 300 $TCID_{50}$ of virus shall be used.

(ii) Cats shall be considered susceptible if there is no neutralization at a 1:2 final serum dilution.

* * * * *

(3) * * *

(i) If at least 80 percent of the controls do not show clinical signs of feline panleukopenia during the observation period, the test is inconclusive and may be repeated. Clinical signs of feline panleukopenia shall include a pronounced leukopenia wherein the white cell count drops to 4,000 or less per cubic mm, or the white cell count drops to less than 25 percent of the normal level established by an average of three or more counts taken prior to challenge.

(ii) If at least 19 of the 20 vaccinates do not survive the observation period without showing clinical signs of feline panleukopenia as described in subparagraph (3)(i), of this paragraph, the master seed virus is unsatisfactory.

(4) The master seed virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Ten susceptible cats (8 vaccinates and 2 controls) shall be used in the retest. Susceptibility shall be determined in the manner provided in paragraph (c)(1) of this section.

(i) Each vaccinate shall be injected with a predetermined quantity of vaccine virus as provided in paragraph (c)(2) of this section.

(ii) Fourteen to twenty-one days postvaccination, a second serum sample shall be drawn from each cat and tested for neutralizing antibody to feline panleukopenia virus in the same manner used to determine susceptibility.

(iii) If the two controls have not remained seronegative at 1:2, the test is inconclusive and may be repeated.

(iv) If at least 6 of the 8 vaccinates in a valid test do not develop titers based upon final serum dilution of at least 1:8, and the remaining vaccinates do not develop titers of at least 1:4, the master seed virus is unsatisfactory except as provided in subparagraph (4)(v) of this paragraph.

(v) If the results of a valid SN test are unsatisfactory, the vaccinates and the controls may be challenged as provided in paragraph (c)(3) of this section. If 100 percent of the controls do not show clinical signs of feline panleukopenia, the test is inconclusive and may be repeated except, that, if any of the vaccinates show such signs, the master seed virus is unsatisfactory.

* * * * *

(3) Section 113.140 is amended by revising paragraph (c)(4) to read:

§ 113.140 Canine hepatitis vaccine.

* * * * *

(c) * * *

(4) The master seed virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Ten susceptible dogs (8 vaccinates and 2 controls) shall be used in the retest. Susceptibility shall be determined in the manner provided in paragraph (c)(1) of this section.

(i) Each vaccinate shall be injected with a predetermined quantity of vaccine virus as provided in paragraph (c)(2) of this section.

(ii) Fourteen to twenty-one days postvaccination, a second serum sample shall be drawn from each dog and tested for neutralizing antibody to canine hepatitis virus in the same manner used to determine susceptibility.

(iii) If the two controls have not remained seronegative at 1:2, the test is inconclusive and may be repeated.

(iv) If at least 6 of the 8 vaccinates in a valid test do not develop titers of at least 1:10 based upon final serum dilution, the master seed virus is unsatisfactory except as provided in subparagraph (4)(v) of this paragraph.

(v) If the results of a valid SN test are unsatisfactory, the vaccinates and the controls may be challenged as provided in paragraph (c)(3) of this section. If 100 percent of the controls do not show clinical signs of canine hepatitis, the test is inconclusive and may be repeated except, that, if any of the vaccinates show such signs, the master seed virus is unsatisfactory.

* * * * *

4. Section 113.141 is amended by revising paragraph (c)(4) to read:

§ 113.141 Canine Distemper Vaccine, Ferret Avirulent.

* * * * *

(c) * * *

(4) The master seed virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Ten susceptible dogs (8 vaccinates and 2 controls) shall be used in the retest. Susceptibility shall be determined in the manner provided in paragraph (c)(1) of this section.

(i) Each vaccinate shall be injected with a predetermined quantity of vaccine virus as provided in paragraph (c)(2) of this section.

(ii) Fourteen to twenty-one days postvaccination, a second serum sample shall be drawn from each dog and tested for neutralizing antibody to canine distemper virus in the same manner used to determine susceptibility.

(iii) If the two controls have not remained seronegative at 1:2, the test is inconclusive and may be repeated.

(iv) If at least 6 of the 8 vaccinates in a valid test do not develop titers of at least 1:50 based upon final serum dilution, the master seed virus is unsatisfactory except as provided in subparagraph (4)(v) of this paragraph.

(v) If the results of a valid SN test are unsatisfactory, the vaccinates and the controls may be challenged as provided in paragraph (c)(3) of this section. If 100 percent of the controls do not now clinical signs of canine distempter, the test is inconclusive and may be repeated except, that, if any of the vaccinates show such signs, the Master Seed Virus is unsatisfactory.

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 73—PHYSICAL PROTECTION OF PLANTS AND MATERIALS

Implementation of Security Personnel Qualification Training and Equipment Requirements by Commercial Nuclear Power Reactors; Rescheduled Meeting

AGENCY: Nuclear Regulatory Commission.

ACTION: Rescheduling of meeting to discuss guard training and contingency planning rules.

SUMMARY: On August 28, 1978 (43 FR 38370), the Commission published in the FEDERAL REGISTER a notice of meetings to discuss amendments to 10 CFR Part 73 requiring nuclear power-plant licensees to develop contingency and training and qualification plans. The region I meeting scheduled for October 11, 1978, has been rescheduled to October 13, 1978.

DATES AND ADDRESSES: The revised meeting schedule is as follows:

Region II—Sept. 27, 1978—Stadium Hotel, 450 Capitol Ave. SE., Atlanta, Ga. 30312, 404-688-1900.
Region III—Oct. 3, 1978—Ramada O'Hare, 6600 North Mannheim Rd., Des Plains, Ill. 60018, 312-827-5131.
Regions IV and V—Oct. 5, 1978—San Francisco Airport Hilton, P.O. 8355, San Francisco, Calif. 94128, 415-589-0770.
Region I—Oct. 13, 1978—Valley Forge Holiday Inn, 260 Goddard Blvd., King of Prussia, Pa., 19406, 215-265-7500.

FOR FURTHER INFORMATION CONTACT:

Frank G. Pagano, Chief, Reactor Safeguards, Development Branch, 301-492-7846.

Persons other than reactor licensees desiring to attend should call the Office of the Chief, Reactor Safeguards Development Branch, phone 301-492-7846, before September 25, 1978, for further information.

Dated at Washington, D.C., this 8th day of September, 1978.

For the Nuclear Regulatory Commission.

JACK W. ROE,
Acting Assistant Director for Reactor Safeguards, Division of Operating Reactors, Office of Nuclear Reactor Regulation.

SUMMARY: This rule increases the maximum allowed size of air taxi all-cargo aircraft in the States of Hawaii and Alaska to 18,000 pounds payload capacity to bring the rule for these two States in line with that for all other all-cargo air taxi operations. The amendment was proposed in part by various Hawaiian parties, and is in part at the Board's own initiative.

DATES: Adopted: September 11, 1978. Effective: October 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Joseph A. Brooks, Office of the General Counsel, Rules Division, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5442.

SUPPLEMENTARY INFORMATION: On March 28, 1978, the Board issued supplemental notice of proposed rulemaking EDR-341A (43 FR 13892, April 3, 1978) proposing to increase the maximum authorized size of all-cargo air taxi aircraft from 7,500 pounds to 18,000 pounds payload capacity in the States of Hawaii and Alaska, thereby establishing a uniform rule for all air taxi all-cargo operations.[1]

We have thoroughly reviewed the comments received on these issues,[2] the special situations of the two States, and our past policies in regard to air taxi operations in these areas. It is our opinion that the rule for Hawaii and Alaska should be the same as for all other operations of all-cargo air taxis, and that the maximum payload capacity for operations within these two States thus should be increased to 18,000 pounds. There is no sufficient reason to penalize shippers and communities in Alaska and Hawaii that use, or can use, the unique service provided by air taxis by imposing separate, lower weight limits for these two States.

Section 416 of the act requires the Board to make certain findings before exempting a class of air carriers from other sections of the act—namely, that the enforcement of these sections would be an undue burden on them because of the limited extent of, or unusual circumstances affecting, their operations, and that it is not in the public interest. As discussed below, the air taxi all-cargo operations in Hawaii and Alaska meet these requirements for exemption.

HAWAII

By ER-1031, dated December 8, 1977 (42 FR 62904, December 14, 1977), the Board increased the size of air taxi aircraft operating in Hawaii to 7,500 pounds (at that time the size applicable to all other air taxi operations). In that rule we found that there was no longer a valid basis for denying Hawaiian markets the benefits of expanded air taxi service available in all other States. This finding has remained valid, and has gained added force from the recent change in available all-cargo service in Hawaii.

On March 28, 1978, Hawaiian Airlines terminated the only certificated scheduled all-cargo freighter service available in the Hawaiian Islands. In response, the Board granted exemptions to three air carriers to use certain large aircraft to provide all-cargo service for a period of 2 years (order 78-3-152, dated March 30, 1978). These limited exemptions, however, do not solve the problem of adequate air cargo service in Hawaii, and are certainly no reason to make Hawaii an exception to the general weight size rule for air taxis. The combination passenger/cargo service offered by Hawaiian and Aloha (the two certificated carriers providing scheduled service in Hawaii) is no subsititute for frequent all-cargo service with adequate capacity needed to meet the demands of Hawaii's air-dependent communities and shippers.

All-cargo service permits the carriage of containers and pallets, and hazardous and oversize shipments, not possible on combination flights, to the island communities of Hawaii, thereby playing a key part in the movement of freight in the intra-Hawaiian market. For example, in 1977, Hawaiian carried 3.9 million revenue ton-miles of freight in cargo service.[3] The Hawaiian shippers and communities have now become dependent on air taxis for this all-cargo capacity. The need for additional air taxi cargo capacity, as well as for all-cargo service itself, is amply described in ER-1031 (pp. 5-6), especially, for example, at a point such as Kamuela, which receives only two scheduled certificated combination passenger flights per week. Expanded all-cargo service by air taxis in Hawaii is, therefore, clearly in the public interest.

Neither Hawaiian nor Aloha, in response to EDR-341A, has objected to this proposed increase in the size of aircraft for the all-cargo air taxis.[4] In fact, the only objection at all is by TIA, a supplemental carrier that holds certificate charter authority for intra-Hawaiian points. TIA raises two objections. First, it argues that with the Board's grant of exemptions to three air carriers to operate large aircraft, there is no longer a need for a class exemption for air taxis. According to the State of Hawaii, however, Air Cargo Enterprises is the only exempted carrier now providing large aircraft cargo service; and there is no indication when the other two exempted carriers (Air Cargo Hawaii and Air Polynesia) will start operations. Also, these three exemptions are only interim in nature, and in no way a substitute for permanent all-cargo authority. More important, the mere existence of these exemptions is no reason to create an exception for Hawaii to the general operating size for all-cargo air taxi aircraft, as implied in TIA's comment, unless a need can be shown to protect scheduled certificated service from undue diversion. TIA has presented no such evidence that would contradict our findings in ER-1031, particularly now that there is no longer scheduled certificated all-cargo service.

Second, TIA argues that this increase in aircraft size would put TIA at a competitive disadvantage, since it would have to compete with air taxis exempt from many requirements applicable to it as a section 401 supplemental carrier, with charter authority for intra-Hawaiian points. TIA contends that it should therefore be given comparable exemption authority for small aircraft. As we stated in ER-1052, the Board does not believe that this expanded all-cargo air taxi service presents direct competition to TIA, since TIA has presented no evidence that it operates similar size aircraft in these markets, or that particular traffic would be subject to diversion because of direct competition with air taxis operating small aircraft. Also, TIA's request for comparable exemption authority is beyond the scope of this rulemaking, although its specific request for dual operating authority as an air taxi will be given consideration by the Board as a separate proceeding. The issue underlying TIA's request, competitive fairness in domestic air cargo transportation, is being considered in the rulemaking on all-cargo air carriers operating under section 418 of the Act.[5]

On the question of whether the enforcement of certification procedures

[1] By ER-1052, effective June 1, 1978 (43 FR 25087, June 9, 1978), the Board increased the authorized size of all-cargo aircraft used by air taxis to 18,000 pounds, except for Hawaii and Alaska. This action was proposed in EDR-341, dated December 8, 1977 (42 FR 62930, December 14, 1977).

[2] Comments in response to EDR-341A have been received from the State of Hawaii, Hawaii Air Cargo Shippers Association, Trans International Airlines (TIA), Alaska Air Carriers Association, Reeve Aleution Airways, and Wien Air Alaska. Comments on the Hawaiian issue were also received in response to EDR-341 from County of Maui, State of Hawaii, Hawaii Air Cargo Shippers Association, and the Commuter Airline Association of America.

[3] Schedule T-1(b), CAB form 41.

[4] Before the termination of Hawaiian's all-cargo service, Aloha filed an answer in opposition to the original petition in this proceeding.

[5] TIA comments that order 78-3-152 is a precedent for allowing TIA similar exemptions to compete in the intra-Hawaiian cargo market. We find no such precedent in the order. The Board stated only that the three exempted carriers would be considered on equal basis with any other applicants for intra-Hawaiian cargo certificates.

and their accompanying regulations would be an undue burden on the all-cargo air taxi operator using this larger size of aircraft, the Board has reviewed its findings in ER-1031 (p. 9), and finds that they continue to apply here. Air taxis will still provide unique and limited operations which pose financial risks, and which need the flexibility to make quick route and rate changes to meet market demand.[6] These unusual circumstances, as well as the limited extent of air taxi operations, would just as likely prevent them from applying for certification to operate this size of aircraft as it would air taxi operators in other parts of the country, as we found in ER-1052.

The State of Hawaii argues that because of the diverse nature and size of shippers in Hawaii, all-cargo air taxis should be required to file a simplified form of tariff. The State argues that a tariff filing requiring little economic justification would not be a burden on the air taxi operators, would permit them to compete better with each other and with other classes of carriers, and would allow shippers to make more knowledgeable choices. As we stated in ER-1052, however, air taxis have long been exempt from any form of tariff filing, and to require even this simplified type of tariff would be an unnecessary burden on these small operators. The State has presented no evidence that the Hawaiian markets are so different from all other air taxi markets, or that there have been any problems in these markets in the past which require such a solution. We are, therefore, denying the State's request.

ALASKA

The Board's general rules in part 298 have not always contained an exception for Alaska to the general weight limit rule, contrary to the claims of Wien. Before Alaska statehood, Alaskan certificated carriers and air taxis operating within the State were regulated under parts 292 and 293 (14 CFR Parts 292 and 293) of our economic regulations. Part 293 contained a 7,900 pound maximum certified takeoff weight limit on intrastate air taxi operations. In January of 1961, however, in connection with the assumption by the State of Alaska of jurisdiction over intrastate air operations, part 293 was deleted, and part 298 was revised to include a section prohibiting regular air taxi operations within Alaska. This was done to protect Alaskan certificated carriers.[7] Part 298 was also revised to include a prohibiton of any intrastate air taxi operations without approval by the State of Alaska. The weight limit for all Board-regulated air taxis, however, remained at 12,500 pounds under part 298.

In 1972 the Board concluded the Part 298 Weight Limit Investigation (orders 72-7-61, 72-9-62), in which the examiner found that the air taxi weight limit should be raised to 7,500 pounds maximum payload capacity, except for Hawaii and Alaska. His decision stated that, because of the unique topography and competitive situation in these two States, their weight limits should remain at the old limit of 12,500 pounds certified takeoff weight. The Board on review agreed with the examiner's decision in regard to Hawaii, but deferred any action on the weight limit in Alaska for further investigation.

At the conclusion of a separate rulemaking on this issue, the Board, in ER-970, effective November 5, 1976 (41 FR 44033, October 6, 1976), stated that it disagred with the examiner, and decided to keep the weight limit for interstate air taxi aircraft in Alaska the same as for other air taxi operations, then 7,500 pounds for all other parts of the country, except Hawaii. The Board did, however, continue the unique restrictions on air taxi operations in Alaska, such as route protection for certificated carriers providing a minimum scheduled service, and a requirement that before operating in Alaska air taxis receive permission from the State. No other air taxi operation has been so restricted. The Board in no way, therefore, is "reversing its course," as asserted by Wien, and is in fact following its own precedent, as well as its recent testimony to the Congress, by establishing an 18,000-pound payload limit.[8]

The Board, as Wien correctly states, does, and will continue to, consider the special problems and needs of Alaska in applying its rules to that State. But, unless a clear need can be shown for an exception to the general weight limit rule, the aircraft size for Alaska should remain the same as for other parts of the country. Wien argues that just the opposite standard is required—that the Board must show why Alaska should not be excluded. It has long been our policy, however, to require the carrier or party seeking a special exception to establish the need for varying our general rules to create that exception. After reviewing all of the facts and arguments presented, it is our opinion that sufficient facts have been presented in this proceeding to make the requisite findings under section 416 of the act to raise the air taxi all-cargo aircraft payload limit in Alaska to 18,000 pounds, as has been done for all other air taxi all-cargo operations. Wien and other opponents of this rule have not presented sufficient evidence to justify an exception.

Wien and Reeve disagree with this conclusion. They argue that this increase would allow air taxis to compete with certificated carriers for the same limited traffic in the same markets using equal or larger aircraft. Such competition, they argue, will drain needed revenues (this is alleged to be especially important because all except for Reeve are receiving subsidy), thus imperiling their ability to support scheduled services to the many small, isolated communities in Alaska. Both of these certificated carriers are particularly concerned about the impact of the proposed increase in air taxi size on nonscheduled operations, which, since these are such a large part of their overall traffic, are important to their ability to support the certificate responsibility of scheduled service.

Both carriers claim that their operations are different from those of other certificated carriers in that their route systems consist of small, isolated communities spread over large distances, with thin traffic, extreme seasonality, and severe weather and climatic conditions. They argue that unlike the local service carriers, the small Alaskan carriers have not shifted to larger aircraft or reduced all-cargo services. Reeve and Wien also emphasize their dependence on freight revenues and charter operations to provide the economic margin to support essential scheduled services, as well as their vulnerability to peak season traffic skimming by air taxis. Reeve further states that it provides adequate scheduled freight service, including all-cargo service on a regular basis, to these communities, and there is no evidence of need for expanded exemption authority for air taxis in any area of Alaska.

For example, according to Reeve, its freight revenues amount to nearly 20 percent of passenger revenues, and its freight traffic as a percent of passenger traffic ranks above every local service carrier (36.3 percent). (The domestic trunkline average is 16.9 percent, while that for local service is 5.5 percent.) Also, over 30 percent of its total freight traffic is nonscheduled service, claims Reeve. Reeve and Wien

[6] Section 418 of the act, which recently liberalized the operating authority for all-cargo certificated carriers, specifically exempts Hawaii and Alaska, thus eliminating the option of operating under a section 418 certificate in those two States.

[7] By ER-589, effective October 31, 1969 (34 FR 15293), the regulatory prohibition was changed to allow air taxi regular service where a certificated carrier had less than two single-plane round trips per week.

[8] Presentation of the U.S. Civil Aeronautics Board before the Subcommittee on Aviation, U.S. Senate, March 21, 1977 (p. C-13); presentation of the U.S. Civil Aeronautics Board before the Subcommittee on Aviation, U.S. House of Representatives, April 18, 1977 (p. 71); Comments of the U.S. Civil Aeronautics Board on H.R. 8813, October 5, 1977 (p. 26).

thus argue that this freight revenue is subject to diversion by air taxis operating the same type of aircraft, with the part of certificated carriers. In fact, while the total freight revenue ton miles (RTM's) for the Alaskan certificated carriers in Alaska enplaned 48,262 tons of cargo, while the 20 commuter carriers operating in the

true for all-cargo air taxis in Alaska. Even if their is diversion from certificated carriers in some markets, uneconomic certificated scheduled service is Wien has misread the Board's purpose in this testimony, however. Our testimony does not mean that the Board craft and serve smaller markets than most local service carriers, their operations are no substitute for a reliable air taxi operation with adequate ca-

thus argue that this freight revenue is subject to diversion by air taxis operating the same type of aircraft, with no distinction between services by the two types of carriers. Since Reeve is only 1/20th the size of the smallest local service carrier and 1/100th the size of the smallest trunk carrier, it claims there is a far smaller cushion of protection against diversion in its operations than for other certificated carriers.

Reeve also states that the communities and markets served by the Alaskan carriers are totally different from those served by certificated carriers in other States, particularly in size. For example, Reeve estimates the population of 11 communities in its region receiving regular scheduled service as ranging from 10 to 100 at Port Moller to 4,400 at the Adak Naval Station. Reeve argues that the basic need for this type of community is not air freight service per se, but rather an integrated pattern of reliable scheduled service on a year-round basis. This type of service would be seriously jeopardized by the use of larger aircraft by air taxis to skim off vital freight traffic, argues Reeve. Reeve operates scheduled all-cargo service with C-46 aircraft once a week to Anchorage, Port Heiden, Sand Point, Cold Bay, and Dutch Harbor. Also, all of Reeve's combination aircraft (YS-11 and Electra) carry freight on both the upper and lower decks. The maximum payload capacities are: 15,500 pounds for the C-46, 14,000 pounds for the YS-11, and 33,000 pounds for the Electra. The service of expanded air taxis would thus be directly competitive with, rather than complementary to, certificated service, as occurs elsewhere. Since the Alaskan markets are so thin, even occasional operations by 18,000-pound air taxis would have a serious impact, especially during the peak season, it argues.

Reeve cites its service to Nikolski, an island of 50 permanent residents, as an example of its dependence on air freight. Last year, at Nikolski, Reeve deplaned only 100 passengers, but 88,000 pounds of cargo. Without this freight traffic, Reeve argues that it could not maintain year-round economic scheduled passenger and cargo service.

In this proceeding, these two carriers have stressed the dependence of their scheduled services on revenues that they derive from freight charters which, they claim, will be diverted to air taxis if the maximum permissible payload is increased to 18,000 pounds. Since November 1976, when we raised the weight limit size for air taxis (both passenger and cargo) in Alaska to 7,500 pounds, however, there has been no evidence that this size increase has caused any loss of freight charters on the part of certificated carriers. In fact, while the total freight revenue ton miles (RTM's) for the Alaskan certificated carriers decreased in 1977 from 37.9 million to 36.6 million, their nonscheduled civilian freight RTM's increased from 453,000 to 1.1 million. During the same period that this charter traffic increase occurred, however, their scheduled freight revenue ton-miles did decrease from 24.2 million to 21.2 million. A comparison of calendar years 1976 and 1977 (the year following the weight limit increase to 7,500 pounds) shows that the certificated carriers' enplaned cargo dropped from 54,515 tons to 48,262 tons; while the commuters enplaned cargo also dropped from 2,913 tons to 2,695 tons. For Reeve and Wien in particular, their traffic followed the same trend as for the Alaskan carriers as a whole—a decrease in total freight traffic and scheduled freight revenue tonmiles, while nonscheduled civilian freight increased. Neither carrier has offered any specific case in which increased air taxi competition diverted traffic from its scheduled or charter traffic. On the financial side, the Alaskan certificated carriers increased their charter freight revenues from $435,000 to $494,000 between 1976 and 1977, but their scheduled freight revenue decreased from $16.8 million to $15.6 million. As the only nonsubsidized Alaskan certificated carrier, Reeve's charter revenues increased from $303,000 to $384,000, while its scheduled freight revenues decreased from $894,000 to $835,000. Its overall operating profit, however, increased from $396,000 to $1.1 million.[9]

After the last increase in air taxi aircraft size in Alaska, the nonscheduled freight part of the certificated carriers' operations increased, and that part of their cargo operations where Board-regulated competition is restricted—scheduled service—showed a decline.[10]

Only where competition causes diversion from a certificated carrier that imperils certificated operations genuinely needed by the public would restrictions be justified. In the year ended June 30, 1977, the largest commuter carrier in Alaska in terms of cargo was Air North (Fairbanks, Alaska), which carried only 164,192 ton-miles of cargo. By contrast, for the same period, Wien carried 14,001,562 ton-miles (4.5 million RTM's of which was in scheduled all-cargo service); while Reeve carried 1,579,966 revenue ton-miles (157,775 RTM's of which was nonscheduled civilian freight service). Further, in calendar year 1977 the 5 certificated carriers in Alaska enplaned 48,262 tons of cargo, while the 20 commuter carriers operating in the State enplaned only 2,695 tons of cargo. Air taxi freight operations would thus have to grow at a phenomenal rate to seriously threaten certificated scheduled service in the State. There is not sufficient evidence available to indicate that increasing the size of all-cargo air taxis would have this result.

The certificated carriers also claim that, while the 7,500 pound limit is smaller than most of their aircraft, the 18,000 pound aircraft will permit the air taxis to use the same aircraft as they operate, particularly in freighter service. The air taxis, however, primarily serve completely different markets from Wien, Reeve, and other Alaskan certificated carriers. The certificated carriers do not, and cannot economically, serve all communities needing all-cargo service. For example, as of June 30, 1977, of the 76 markets in Alaska served by commuter air carriers, 61 are not served by certificated carriers; and, of the 20 commuter markets receiving only cargo and/or mail service, none is served by all-cargo certificated scheduled service.[11]

The claim of Wien and Reeve that expansion of the all-cargo weight limit to 18,000 pounds is unnecessary in Alaska is thus unfounded. Although they would be using similar aircraft, the Alaskan air taxis serve many different markets than the certificated carriers, and provide the same connecting link to larger markets as do air taxis in other areas of the country.

The goal of this rulemaking, as it has been in all proceedings involving an increase in the size limit for air taxis, is to encourage and protect an integrated air service, not only to maintain the health of the certificated route system, but also to assure that service needed in the public interest is provided, and that air taxis have the ability to fulfill their position as a supplement to the scheduled certificated route system. Although we recognize the differences between the Alaskan carriers and other certificated carriers, as well as their high percentage of freight and nonscheduled traffic, we do not believe that such significant diversion would occur as would impair scheduled air service or their certificated route system to the point where those who wish to use it are unable to do so. For example, when the air taxi weight limit was raised to 7,500 pounds, there was no rush by air taxi operators to use the larger aircraft, except where traffic potential existed. We expect this to continue to hold

[9] Air Carrier Traffic Statistics, and Air Carrier Financial Statistics, CAB.

[10] The Alaskan certificated carriers have never been protected from intra-state carriers approved by the State of Alaska.

[11] Commuter Air Carrier Traffic Statistics for the year ending June 30, 1977; Official Airline Guide.

true for all-cargo air taxis in Alaska. Even if their is diversion from certificated carriers in some markets, uneconomic certificated scheduled service is likely to be replaced by economic air taxi scheduled service, thereby strengthening the certificated carriers' route systems as a whole financially, reduce subsidy payments, and improve the quality and availability of air service to the local community.

Nor, contrary to Wien's assertion, do we believe that any traffic gained by air taxis would be entirely at the expense of the certificated carriers. Because of their freedom from the obligation to support a route system operation, and their ability to concentrate in a few markets, air taxis are able to provide a different type of service than certificated carriers, thereby often attracting new traffic to the air cargo market. For example, because of their ability to offer economical, frequent and specialized service, air taxis' services can include check clearance shipments for banks and other cargo requiring immediate transfer. This is not to say that there may not be some diversion from certificated carriers, but only that Reeve and Wien have underestimated the traffic generative potential of the air taxis, as well as their sound business sense not to engage in hit-and-run operations in markets served by certificated carriers. The Board will, of course, closely observe the competitive situation in Alaska, and will take whatever action may be necessary to maintain adequate scheduled and certificated service.

Two other arguments are advanced by the opponents of this amendment. First, they argue that since the new section 418 (creating a deregulated form of all-cargo certificate) by its express language excludes Alaska, as well as Hawaii, Congress has expressed an intent to exclude these States from the benefits of unregulated all-cargo service with larger aircraft, as proposed in this amendment. This argument is fully discussed in ER-1052, at p. 2, where we stated that nothing in Pub. L. 95-163 (which established section 418) or its legislative history, indicates a congressional intention to prevent the Board from continuing to provide, in part 298, for a class of air carrier operating only "small aircraft," or from continuing to redefine that term in light of changes in the need for air service. Nor is there any indication that Congress intended to foreclose the Board from changing the rule or weight limit specifically for air taxi operations conducted in Alaska.

The second argument, advanced by Wien, is that the Board's own testimony before the Congress on various deregulation bills indicates that Alaska should be exempted from any statutory increase in air taxi aircraft size.[12]

[12] See note 8, supra.

Wien has misread the Board's purpose in this testimony, however. Our testimony does not mean that the Board opposes an 18,000 pound limit for Alaska, but only that, because of the particular situation in Alaska, air taxi operations in the State should be determined by rule rather than statute, to allow greater flexibility. We specifically stated that the Board should be allowed to limit, by rule, the operations of air taxis in Alaska, but that we supported a general increase to 18,000 pounds. As discussed above, the Board does not believe that the public interest requires at this time any restrictions in addition to those already existing.

Further, as we have found for all other air taxis, it would be an undue burden to impose certification requirements on all-cargo small aircraft operators in Alaska to enable them to use 18,000 pound aircraft. Air taxis, even in Alaska, are quite limited in their operations. As a comparison, in the year ending June 30, 1977, the Alaskan certificated carriers moved 23.1 million revenue ton-miles of freight in all services. During the same period, the four largest air taxis in Alaska (in terms of cargo) together carried only 310,000. Also, our air taxi regulations now limit Board-authorized air taxis to occassional and irregular operations in those markets having a minimum of scheduled certificated service.

Wien has claimed that these protections are illusory for two reasons. First, it claims that the Board is abdicating its responsibilities to insure adequate scheduled certificated service; and, second, that neither the State nor the Board enforces the present restrictions. As we stated in ER-970 (p. 3), in rejecting these same arguments, the Board recognizes that there may be a need to afford a certain amount of protection to the Alaskan certificated carriers, consistent with the public interest. Contrary to Wien's assertion, however, the Board is not abdicating its responsibilities, since our regulations have never been intended to protect a federally-regulated carrier from intra-state competition. Isolated violations of these prohibitions, of course, are subject to enforcement complaints, and should not be a justification for adjustments to the basic rule structure.

Nor do air taxis in Alaska differ from the patterns found in the part 298 investigation and in ER-1052 as to the uniqueness of their operations and service. As we have found in these proceedings, the air taxis here are also providing a financially-risky, bush-hop type of service, which often provides the only all-cargo air service to small, rural, and isolated communities. While we agree with Reeve that the Alaskan certificated carriers use smaller aircraft and serve smaller markets than most local service carriers, their operations are no substitute for a reliable air taxi operation with adequate capacity to link those markets, which are uneconomical for certificated service (even when subsidized), to the somewhat larger markets served by these carriers. In this respect, air taxis remain distinguishable from Alaskan certificated carriers.

TIA argues that the restriction in its certificate which prohibits operations in the State of Alaska should also be removed, if the Board intends to expand the available cargo capacity of exempt air taxis in the State. TIA contends that to do otherwise is unfair, since both certificated supplemental and route carriers are prohibited from operating in Alaska, and should also be allowed to compete for available cargo demand. It states that its L-188 Electra and L-100 Hercules aircraft are well-suited to meet the demand of the intra-Alaskan cargo charter market, and are competitive with the weight size of aircraft proposed for use by air taxis. As we discussed in ER-1052, we do not believe that these aircraft are directly comparable to the larger aircraft to be used by air taxis. TIA has already filed a petition to amend its certificate to permit Alaskan operations (D.32499), and subsequently filed a motion to consolidate this petition into the Former Large Irregular Air Service Proceeding (D.32337).[13] Also, to consider TIA's petition here would be beyond the scope of this proceeding. Nor do we see any reason or need to delay this rulemaking pending completion of the petition amendment proceeding.

Reeve and TIA both strenously argue that the Board should order a full evidentiary hearing in this case, with opportunity for cross-examination. Reeve argues that the need for hearing here is even more important than for the basic rulemaking in this docket because of the Board's longstanding recognition of special circumstances in Alaska, and because of the potentially severe impact on Reeve's ability to maintain essential certificated scheduled services. Reeve has listed several factual questions which it argues should be explored at an oral hearing, including: the need for expanded all-cargo authority in Alaska; the fundamental distinctions between the proposed air taxi service and certificated service; and the potential for diversion from, and its impact on, certificated service.

As we have stated throughout this proceeding, the Board is not required

[13] In order 78-7-106, July 21, 1978, the Board denied TIA's motion to consolidate its petition into the *Large Irregular Case*. The Board will consider this matter in a separate order.

to use evidentiary hearing procedures in promulgating rules or in exercising its exemption authority.[14] We have

However, when the difference has

SUMMARY: The Commission is adopting an amendment to its private placement exemptive rule which modi-

to use evidentiary hearing procedures in promulgating rules or in exercising its exemption authority.[14] We have carefully reviewed Reeve's suggested factual issues, the extensive comments presented by Wien, Reeve and TIA, and the facts and statistics readily available from public Board reports. It is our opinion that the issues raised are not of the kind particularly requiring resolution through oral testimony and cross-examination, that there are ample facts and arguments in the record and public reports for the Board to make the required findings under section 416 of the act, and that no further procedures are needed.

Accordingly, the Board amends part 298 of its economic regulations (14 CFR part 298) as follows:

1. Paragraph (i) of § 298.2 is revised to read as follows:

§ 298.2 Definitions

* * * * *

(i) Large aircraft means:

(1) Any aircraft used in passenger service having a maximum seating capacity of more than 30, or a maximum payload capacity of more than 7,500 pounds; *Provided, however,* That for the purposes of this part, large aircraft shall include all models of the Convair 240, 340 and 440; Martin 202 and 404; F-27 and FH-227; and Hawker Siddeley 748; and shall also include any other aircraft with a maximum zero fuel weight in excess of 35,000 pounds, except as provided in subsection 298.2(i)(2) below.

(2) Any aircraft used solely in all-cargo service having a maximum payload capacity of more than 18,000 pounds.

2. Section 298.31 is revised to read as follows:

§ 298.31 Scope of service and equipment authorized.

Nothing in this part shall be construed as authorizing the operation of large aircraft in air transportation, and the exemption provided by this part to air taxi operators which register and reregister with the Board extends only to the direct operation in air transportation in accordance with the limitations and conditions of this part of aircraft having maximum passenger capacities and maximum payload capacities as defined in subsections 298.2(i)(1) and 298.2(i)(2) of subpart A of this part.

3. Paragraph (a) of § 298.34 is revised to read as follows:

§ 298.34 Limitations on air taxi service in Alaska.

(a) An air taxi operator shall not provide or offer to provide air transportation between points both of which are in the State of Alaska, or one of which is in Alaska and the other in Canada, unless the air taxi operator also holds authority from the State of Alaska to operate aircraft used in passenger service having a maximum payload capacity of 30 or less, and a maximum payload capacity of 7,500 pounds or less, or to operate aircraft used in all-cargo service having a maximum payload capacity of 18,000 pounds or less, as a common carrier in intrastate commerce, or has applied to the Board for, and received, special exemption authority (see subpart D of part 302 of the Procedural Regulations).

Title 19—Customs Duties

Chapter I—United States Customs Service

[T.D. 78-308]

PART 111—CUSTOMHOUSE BROKERS

Change of Policy Relating to Brokers' Charges for Incidental Services

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Change of policy/final rule.

SUMMARY: This document changes customs policy with regard to the results of a failure by a customhouse broker to provide a client an itemized accounting of the cost of any incidental service the broker may arrange for the client. Formerly, any variance between the amounts actually expended for these items and the broker's statement to his client, not fully explained both on the statement and in records required to be maintained for customs inspection and audit, was considered to be an improper withholding from the client of information relating to customs business and a failure to keep complete records. Under the policy change, customs will inquire only into the reasonableness of the charges and then only in cases in which the charges are not itemized on the broker's statement to the client or are not itemized in writing to the client before the charges are incurred. The policy change is made to recognize that a mere failure to itemize should not of itself be a violation of any obligation owed by the broker to his client under the customs regulations. The policy change nonetheless continues to protect importers against unreasonable billings for these incidental services.

EFFECTIVE DATE: This policy change is effective September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Edward B. Gable, Jr., Entry Procedures and Penalties Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5578.

SUPPLEMENTARY INFORMATION:

BACKGROUND

A "customhouse broker" is licensed by the Customs Service to transact customs business on behalf of his clients. The Customs Service is authorized by section 641, Tariff Act of 1930, as amended (19 U.S.C. 1641), and part 111, customs regulations (19 CFR Part 111), to license brokers and supervise their activities.

A broker's bill to his client often includes charges for "incidental services", such as freight, storage, cartage, cooperage, dock and messenger service, insurance, or bonds, which are arranged by the broker on behalf of his client. These incidental services are in addition to the primary customs-related function of entry documentation performed by brokers for their clients.

TREASURY DECISION 49868

Under Treasury decision 49868 dated May 19, 1939, the records maintained by brokers for customs inspection and audit are required to set forth the actual amounts expended by the broker for the incidental items referred to above. That Treasury decision provides that any variance between the amounts actually expended for these items and the broker's statement to his client, which is not explained fully both on the statement to the client and the records required to be maintained for customs, constitutes an improper withholding from the client of information relating to customs business (see section 111.39(a), customs regulations; 19 CFR 111.39(a)) and a failure to keep complete records (see sections 111.21 and 111.22, customs regulations; 19 CFR 111.21, 111.22; T.D. 78-138, T.D. 78-257).

REASONS FOR CHANGE IN POLICY

Customs has determined that a policy change is necessary because a mere failure of a broker to itemize incidental service charges for his client should not of itself be a violation of any obligation owed by a broker to his client under the customs regulations. This policy change nonetheless will continue to protect importers against unreasonable billings for these incidental services.

Accordingly, customs will continue to require that brokers maintain, available as part of their records of customs transactions for customs inspection and audit, an itemized accounting of the costs incurred by them for incidental services. However, customs now will make only limited inquiries into the reasonableness of the charges brokers bill clients and then only in case in which:

1. The difference between the cost of an incidental service to the broker and the amount billed to the client has not been identified (itemized) separately on billings to the client, or

2. The client has not been provided, in advance of importation, with a written itemized quotation of the charges for the incidental services, following which the client has authorized the broker to handle the importation.

If a difference between the cost to the broker and the amount billed to the client is not identified on the billing, or if the client has not received a prior written quotation itemizing the costs of the service, customs auditors will determine if the charge is reasonable according to the billing practices of the particular broker for that service.

If a broker is unable to justify the customs auditors substantial or unreasonable differences in billings between clients, based on normal, accepted business practices, such as volume discounts, special circumstances, or the like, the District Director of Customs will advise the broker of the apparent discrepancy and recommend an appropriate change. The broker, of course, will be given an opportunity to justify his charges to the District Director.

CHANGE OF POLICY

Customhouse brokers shall continue to maintain for customs inspection records of the costs incurred by them for "incidental services", such as freight, storage, cartage, cooperage, dock and messenger service, insurance, or bonds, arranged by the brokers for their clients, for which the brokers bill the clients.

In cases where the difference between the cost of an incidental service (see section 111.22(d), customs regulations) to the broker and the amount billed to the client has been identified separately on billings to the client, customs shall not inquire into the reasonableness of the difference. Nor shall customs inquire into the reasonableness of a broker's charge for an incidental service when the client has been provided with a written quotation of the charge and thereafter authorizes the broker to handle the importation.

However, when the difference has not been identified separately on billings to the client, or when the incidental service charge has not been quoted in writing to the client previous to importation, customs auditors shall verify whether the difference is reasonable according to the billing practices of that particular broker; that is, customs auditors shall examine the broker's records to determine whether the billings to one client for the service vary substantially from billings to other clients for the same service.

Where the broker cannot justify substantial differences between billings to one client and the rest of his clients on the basis of discounts for volume of business, special circumstances, or the like, the district director shall advise the broker of his findings and recommend an appropriate change. Upon request, the District Director shall afford the broker an opportunity to justify his charge.

AUTHORITY

This policy change is made under the authority of R.S. 251 (19 U.S.C. 66), section 624, 46 Stat. 759 (19 U.S.C. 1624), section 641, 46 Stat. 759, as amended (19 U.S.C. 1641), 77A Stat. 14 (19 U.S.C. 1202 (Gen. Hdnte. 11)), and 5 U.S.C. 301.

DRAFTING INFORMATION

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 33-5975]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Private Placement Exemptive Rule

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is adopting an amendment to its private placement exemptive rule which modifies the disclosure requirements when an offering does not exceed $1,500,000. This action is taken at this time in response to the public comments received and to allow issuers the benefits of the amendment at the earliest practicable date.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard K. Wulff, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549, 202-755-1240.

SUPPLEMENTARY INFORMATION: In Securities Act Release No. 5913 (Mar. 6, 1978) (43 FR 10701), the Commission published for comment proposed amendments to rule 146 (17 CFR 230.146) which would prohibit persons who receive compensation from the issuer in connection with an offering made in reliance upon the rule from also serving as offeree representatives, and would amend the disclosure requirements under the rule when an offering did not exceed $500,000. In a related action announced today, the Commission has withdrawn the proposed amendment to rule 146(a) regarding the disqualification of certain persons for serving as offeree representatives. See Securities Act Release No. 33-5976 under proposed rules in this issue. In light of the recent amendment to section 3(b) of the Securities Act of 1933 (15 U.S.C. 77a et seq.) raising the small issue exemption ceiling from $500,000 to $1,500,000 (Pub. L. 95-283 (May 21, 1978)), the Commission has determined to increase the dollar limitation under the proposed modification of the disclosure requirements for rule 146 and adopt the proposal. The Commission has also codified the nonexclusive concept of the rule in subparagraph (b)(2).[1] The substance of this provision previously appeared in a note to the rule.

BACKGROUND

Section 4(2) of the Securities Act of 1933 provides that offers and sales of securities by an issuer not involving any public offering are exempt from the registration provisions of the Act. Rule 146 provides objective standards for determining when the exemption is available. On December 6, 1976, the Commission published Securities Act Release No. 5779 (41 FR 53808) re-

[1] Release No. 33-5913, which proposed the amendments to rule 146 for comment, contains an extensive discussion of the Commission's views on the nonexclusive nature of the rule.

questing public comment about the operation of the rule. As a result of the comments received as well as the

§ 230.146 Transactions by an issuer deemed not to involve any public offering.

[4110-03]

Title 21—Food and Drugs

materials that have been compared to the master standard. The working standards are used by FDA in the testing and analysis of antibiotic drugs

effective date of this order will be forwarded to U.S.P.

The Commissioner notes that the U.S.P. is a nonprofit, self-supporting

(b) *Working standards.* * * * Unless otherwise noted, the working standard and the U.S.P. reference standard for the antibiotic drug named are identi-

V 43 / 180 SEP 15 78

questing public comment about the operation of the rule. As a result of the comments received as well as the Commission's own experience with rule 146, a proposal was made that subparagraph (e) of rule 146, which requires that an offeree have access to the same kind of information as required under the Act or that the offeree or his representative be furnished such information, be amended. Under the proposal, the information required by schedule I of regulation A (17 CFR 239.90) could be substituted for that presently required if the offering is for $500,000 or less.

In response to its invitation to comment upon these proposals, the Commission received 27 responses. The responses were predominantly directed toward the proposed amendment to rule 146(a) which has been withdrawn as indicated above. Several commentators did specifically approve of the proposal amending rule 146(e), and no commentator specifically opposed its adoption. The Commission notes that comments received in response to release No. 33-5779 strongly favored the relaxation of the disclosure requirements under the rule. In addition, the Commission believes that the increase in offering price from $500,000 to $1,500,000 under this provision may facilitate the raising of capital by small businesses without affecting the protection of investors. Consequently, the Commission has concluded that the proposal regarding rule 146(e) with the revision indicated above should be adopted.

SYNOPSIS OF THE AMENDMENT

As previously noted, subparagraph (e) of rule 146 requires an offeree to have access to the same kind of information required under the Securities Act or that the offeree or his representative be furnished the information. Under the amendment, the information prescribed by schedule I of regulation A can be substituted if the offering is for $1,500,000 or less. In this connection, persons relying on rule 146 should carefully consider the factors indicated in preliminary note 3 to the rule and the provisions of subparagraph (b)(1) of the rule in determining whether particular transactions are part of a larger offering.

As indicated in release No. 5913, the Commission is also relocating that portion of preliminary note 1 to rule 146 regarding the nonexclusivity of the rule under subdivision (b) of the rule.

TEXT OF THE AMENDMENT

Paragraphs (b) and (e) of 17 CFR 230.146 are amended to read as follows:

§ 230.146 Transactions by an issuer deemed not to involve any public offering.

* * * * *

(b) * * *

(1) * * *

(2) Transactions by an issuer which do not satisfy all of the conditions of this rule shall not raise any presumption that the exemption provided by section 4(2) of the Act is not available for such transactions.

* * * * *

(e) * * *

(1) * * *

(ii) * * *

(c) Notwithstanding paragraph (e)(1)(ii) (*a*) and (*b*) of this section exhibits required to be filed with the Commission as part of a registration statement or report need not be furnished to each offeree or offeree representative if the contents of the exhibits are identified and such exhibits are available pursuant to paragraph (e)(2) of this section; (*d*) If the aggregate sales price of all securities offered in reliance upon this rule does not exceed $1,500,000, the information requirements of paragraph (e)(1)(ii) may be satisfied by furnishing the disclosure required by schedule I of regulation A under section 3(b) of the Act; and

* * * * *

(Secs 4, 19, 203, 48 Stat. 77, 85, 906, 908; sec. 6, 68 Stat. 684; sec. 12, 78 Stat. 580; sec. 308(a)(2), 90 Stat. 57; 15 U.S.C. 77d(2), 77s(a).)

STATUTORY AUTHORITY FOR AMENDMENTS

The foregoing amendments have been adopted by the Commission pursuant to the Securities Act of 1933, particularly sections 3(b), 4(2) and 19(a) thereof. To the extent that the adoped provision differs from that originally proposed for comment, the Commission believes that republication for comment pursuant to the Administrative Procedure Act (5 U.S.C. 553) is unnecessary inasmuch as the change represents a relaxation of the provisions proposed.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

[Docket No. 78N-0261]

PART 430—ANTIBIOTIC DRUGS: GENERAL

PART 431—CERTIFICATION OF ANTIBIOTIC DRUGS

Antibiotic Reference Standards; Available from U.S.P.

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the regulations to change the manner of distributing antibiotic reference standards and clarifies that the agency's working standards and the U.S. Pharmacopeial's (U.S.P.) reference standards are identical. This action is being taken to simplify obtaining reference standards and to eliminate duplication of efforts in this regard. It will enable antibiotic and nonantibiotic reference standards to be available from a single source.

DATES: Effective October 1, 1978; comments by November 14, 1978.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

I. David Wolfson, Bureau of Drugs (HFD-335), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-5307.

SUPPLEMENTARY INFORMATION: Section 507 of the Federal Food, Drug, and Cosmetic Act provides for the certification of batches of antibiotic drugs. The Food and Drug Administration (FDA) has developed an antibiotic drug certification program that incorporates the use of both "master standards" and "working standards." These reference standards are described in § 430.5 of the regulations (21 CFR 430.5). A master standard is a specific lot of antibiotic material designated by the Commissioner of Food and Drugs as the standard of comparison in determining the potency of the working standards. Working standards are specific lots of homogeneous antibiotic materials that have been compared to the master standard. The working standards are used by FDA in the testing and analysis of antibiotic drugs and by manufacturers of antibiotic drugs to establish their own reference standards and to conduct critical assays.

Under § 431.1(f) (21 CFR 431.1(f)), FDA provides a portion of a working standard upon request. As a rule, requests only from persons seeking certification of antibiotic drugs are filled. Although no specific fee is charged for a portion of a working standard, the costs associated with providing it are incorporated into the agency's certification fees as overhead.

The U.S. Pharmacopeial Convention is well recognized in providing reliable reference materials. The U.S.P. currently provides more than 700 reference materials under its Reference Standards Program. The U.S.P. Drug Research and Testing Laboratory and FDA's laboratories participate in the collaborative testing of new standards and replacements for existing standards. In addition, laboratories throughout the nation, both academic and industrial, participate in the testing.

The U.S.P. reference standards are widely used in this country and have received worldwide recognition from foreign governments and manufacturers. To assure broader availability of antibiotic reference standards, the U.S.P. includes antibiotic reference standards as part of its extensive reference standards program. In many instances, the materials that serve as the U.S.P. reference standard and the FDA working standard are derived from the same source and are identical. If they are not from the same batch, procedures are in effect to assure the equivalence of these standards. These cooperative efforts of FDA and U.S.P. include original assays and periodic analyses of reference standards in collaborative studies.

Currently, both FDA and U.S.P. actively distribute antibiotic reference standards. The Commissioner believes that this is an unnecessary duplication of services. He has concluded that the most appropriate arrangement is to have a central source to which pharmaceutical manufacturers and any other persons can direct their orders for all reference standards. Therefore, beginning October 1, 1978, FDA will no longer provide antibiotic working standards. The U.S.P. will be the only source of reference standards of antibiotic drugs. Requests for these standards after October 1, 1978, should be made directly to the U.S.P., and addressed to U.S.P. Reference Standards, 12601 Twinbrook Parkway, Rockville, Md. 20852, phone 301-881-0666. Any requests received by FDA after the effective date of this order will be forwarded to U.S.P.

The Commissioner notes that the U.S.P. is a nonprofit, self-supporting, compendial entity and that moderate charges are necessary to cover the costs associated with establishing, storing, and distributing reference standards. The current U.S.P. charge of $30 for each reference standard will also apply to all U.S.P. antibiotic reference standards.

The Commissioner emphasizes that the only purposes of this amendment are to simplify obtaining reference standards and to eliminate duplication in distributing antibiotic reference standards. Any savings in overhead costs to FDA will be taken into account during periodic evaluations of the certification fees. The Commissioner will continue to designate suitable lots of antibiotic drugs as master standards, and after collaboration with the U.S.P. in establishing suitable lots of antibiotic drugs as U.S.P. reference standards, the Commissioner will designate them as FDA working standards.

The Commissioner believes that it is advantageous to establish an effective date for this change as soon as practicable. After consultation with the U.S.P., the Commissioner concludes that an effective date of October 1, 1978, is appropriate. This effective date will provide sufficient time for the U.S.P. to have available all necessary antibiotic reference standards.

Because the rule reduces unnecessary administrative duplication in establishing one source for obtaining reference standards and imposes no additional certification requirements, the Commissioner determines for good cause that prior notice and public procedure are unnecessary. However, an opportunity for submission of comments to determine whether the regulations should subsequently be modified or revoked is provided.

The Commissioner has determined that this document does not contain an agency action covered by § 25.1(b) (21 CFR 25.1(b)) and therefore consideration by the agency of the need for preparing an environmental impact statement is not required.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to the Commissioner (21 CFR 5.1), parts 430 and 431 are amended as follows:

1. In part 430 by adding a sentence to the end of the introductory paragraph in § 430.5(b) to read as follows:

§ 430.5 Definitions of master and working standards.

* * * * *

(b) *Working standards.* * * * Unless otherwise noted, the working standard and the U.S.P. reference standard for the antibiotic drug named are identical.

2. In part 431 by revising § 431.1(f) to read as follows:

§ 431.1 Requests for certification, check tests and assays, and working standards; information and samples required.

* * * * *

(f) Reference standards identical to working standards are available from: U.S.P. Reference Standards, 12601 Twinbrook Parkway, Rockville, Md. 20857, 301-881-0666.

Effective date. This regulation shall be effective October 1, 1978. However, interested persons may, on or before November 14, 1978, file with the Hearing Clerk (HFA-305), Food and Drug Administration, room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments in four copies and identified with the docket number found in brackets in the heading of this document. Comments received may be seen in the office of the Hearing Clerk between 9 a.m. and 4 p.m., Monday through Friday. Any changes in this regulation justified by these comments will be subject to a further amendment.

(Sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357).)

In accordance with Executive Order 12044, the economic effects of this action have been carefully analyzed, and it has been determined that the rulemaking does not involve major economic consequences as defined by that order.

Dated: September 7, 1978.

MERVIN H. SHUMATE,
Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 77P-0002]

PART 431—CERTIFICATION OF ANTIBIOTIC DRUGS

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 514—NEW ANIMAL DRUG APPLICATIONS

Revision of Sampling Procedure

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is revisiny the reg-

ulations specifying the intervals at which antibiotics in unit dosage forms, such as capsules, tablets, and supposi-

units collected and the intervals at which they are collected throughout production and during packaging

use a sampling procedure that would avoid including defective units in the sample would defeat the purpose of

poses. If the Commissioner allowed the individual monographs to take precedence over the general sampling regulations, manufacturers could

of 100 units systematically collected so that they are representative of the batch is sufficient for certification testing purposes. The current sam-

ic certification is in addition to the Current Good Manufacturing Practice (CGMP) requirements. This require-

ulations specifying the intervals at which antibiotics in unit dosage forms, such as capsules, tablets, and suppositories, are collected during manufacture or packaging or from the completed bulk batch for submission to FDA for certification. The revisions apply to batches exceeding 500,000 units. There revisions will result in sampling requirements that are more appropriate for the high-speed, large-volume production equipment now in use.

EFFECTIVE DATE: November 14, 1978.

FOR FURTHER INFORMATION CONTACT:

Philip L. Paquin, Bureau of Drugs (HFD-30), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-5220.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of March 29, 1977 (42 FR 16638), the Commissioner of Food and Drugs proposed to revise the antibiotic sampling procedure. The Commissioner included in the document an excerpt from a proposed new sampling procedure developed by the Sampling Committee of the Quality Control Section of the Pharmaceutical Manufacturers Association (PMA) to give the public an opportunity to review the manufacturers' suggested procedure. Both FDA and PMA sampling procedure proposals would revise the intervals at which antibiotics in unit dosage forms (capsules, tablets, and suppositories) are collected by deleting the currently required sampling interval (1 tablet per 5,000 units produced). The PMA proposed to give manufacturers a choice of collecting 100 units at approximately equal intervals either throughout the final production of the batch, during packaging or from the completed bulk batch, regardless of batch size. The Commissioner's proposal would require manufacturers to collect 100 units by taking single units at equal intervals throughout the final production of the batch or during packaging, such that the quantity produced between each unit collected is equal to 1 percent of the number of units in the batch. It did not provide for sampling from a completed bulk batch. The proposed requirement applied to all manufactured batches regardless of size. Interested persons were invited to submit comments on the Commissioner's proposal by May 31, 1977.

Comments were received from a trade association representing the pharmaceutical industry and from several pharmaceutical firms. In response to the comments, the Commissioner has revised the final rule so that the new requirements on the number of units collected and the intervals at which they are collected throughout production and during packaging apply only to batches exceeding 500,000 units. Representative sampling from bulk containers is also permitted when it is not feasible to collect samples throughout the final production of the batch (e.g., if tablets undergo further processing, such as polishing and coating, after being compressed). For batches of 500,000 units or less, the Commissioner has retained the current sampling procedure (1 unit per 5,000 units produced) with minor revisions in the regulations to state the requirements more clearly. The comments submitted and the Commissioner's conclusions are as follows:

1. *Intervals between units collected.* Several comments argued that the regulation should provide for a measure of flexibility in establishing the intervals between units collected. The regulation as proposed by FDA would require the sample to be collected at intervals such that 1 percent of the batch is produced between each unit collected. The comments contended that literal application of this requirement would be a practical impossibility as the exact size of the finished batch cannot always be accurately predicted. Theoretical yields are not always achieved because products are culled during manufacture to eliminate those with defects in appearance, weight, or other characteristics. Because the final batch size cannot be accurately predicted, 1 percent of the batch size cannot be precisely calculated. It is for this reason that the regulation proposed by PMA was worded to require sample collections at "approximately equal intervals."

The Commissioner concurs with these comments. Accordingly, § 431.1 (c)(8)(ii) (21 CFR 431.1(c)(8)(ii)) and § 514.50(c)(8)(ii) (21 CFR 514.50(c)(8)(ii)) are revised to permit the collection of samples at "approximately equal intervals."

2. *Multi-unit sampling.* One comment objected to the provision that only a single unit may be collected at any stage during the manufacturing, packaging, or holding operations. A problem may exist in the reluctance of any sampler to sample an obviously defective unit even though by timing, sequence, or other criteria it would be the appropriate sample.

The Commissioner concludes that the single-unit sampling procedure should be retained. The explicit purpose of revising the sampling procedure is to obtain a sample that is representative of approximately equal portions of the batch and to avoid the collection of excessively large samples. If the sample collected is defective, the purpose of the revised sampling procedure has been accomplished. To use a sampling procedure that would avoid including defective units in the sample would defeat the purpose of representative sampling. If the comment is suggesting, however, that some manufacturers may need to collect multiunit samples (some for their own sample reserve), the Commissioner notes that the rule does not prohibit this practice.

3. *Sampling from bulk containers and resamples.* Several comments proposed that the final regulation should specifically provide for sampling from bulk containers. The option to collect samples from bulk containers is an essential part of the proposal submitted to FDA by PMA. The Pharmaceutical Manufacturers Association noted that this provision was intended to provide for the collection of representative samples when quality control or other factors, such as difficulty in determining "final production" as in coating operations, preclude sampling during manufacture. Further, PMA noted that FDA occasionally calls for certification resamples from manufactured batches. Such resamples must be taken from the sequential bulk containers. A strict interpretation of the published proposal would appear to preclude such resampling. The comment strongly urged FDA to specifically provide for collection of samples from bulk containers.

The Commissioner agrees that representative sample collection from bulk containers should be permitted when it is not feasible to collect the samples throughout the final production of the batch (e.g., if tablets undergo further processing, such as polishing and coating, after being compressed), or if FDA requests certification resamples from manufactured batches. Accordingly, §§ 431.1(c)(8)(ii) (c) and 514.50(c)(8)(ii) (c) are revised to allow representative sample collection from completed bulk batches.

4. *Precedence for individual monograph.* One comment proposed that individual monograph should take precedence over general sampling regulations. Often individual monographs provide for the specific number of units to be taken. In some instances, the number of units may differ from the number provided in the subject proposal. For this reason, the final sampling regulation should specifically provide that conformity with the requirements of an individual monograph constitutes compliance with this regulation.

The Commissioner disagrees with this comment. Although individual monographs do provide a specific number of units to be collected, this minimum number applies only when the current general sampling regulation (1 unit per 5,000) would yield a sample too small for certification purposes. If the Commissioner allowed the individual monographs to take precedence over the general sampling regulations, manufacturers could submit the minimum number of units for any size batch, without any assurance that the certification sample units collected were representative of the batch. The revised final rule clearly states that when the sampling procedure would result in the collection of a sample that is smaller than the minimum submission requirements specified in the monograph, the minimum submission requirement in the monograph will prevail. Accordingly, the comment is rejected.

5. *Abolishment of a proven procedure.* One comment contended that the proposal abolishes a procedure that has been proven effective in favor of an untried replacement proposed by a special interest group, the PMA. If PMA wishes an alternative, the comment said, it should propose it as such, not as a replacement. The comment suggested handling the PMA proposal on an ad hoc basis, as a potential alternative applicable only to very large batches (over 5 million units).

The Commissioner does not agree that the proposal abolishes an effective procedure in favor of an untried replacement proposed by a special interest group. Since early 1972, discussions have been held between the FDA certification services staff, PMA Quality Control Section, Subcommittee on Antibiotic Certification, and non-PMA drug firms. The published proposal was based on the decisions reached during these discussions and does not, therefore, represent the opinion of one special interest group. Although the Commissioner agrees with the contention that the revision should apply only to large size batches, he believes the procedures should be used for any batch over 500,000 units, rather than over 5 million units as the comment suggested. Accordingly, the final rule provides that the revised sampling procedure applies only to those batches exceeding 500,000 units.

6. *Excessive sample sizes.* One comment contended that the proposal assumed that an inherent fault exists in submitting sample sizes "far in excess of what is needed for certification and testing." The comment stressed that the cost to the manufacturer under the current sampling procedure of submitting large samples to FDA is much less than the cost of establishing and maintaining variable sampling interval facilities, which pose a significant potential source of error.

The Commissioner disagrees with the contention that the proposal assumes that there is an inherent fault in submitting excessive sample units for certification. However, the proposal does stress that a sample consisting of 100 units systematically collected so that they are representative of the batch is sufficient for certification testing purposes. The current sampling procedure of collecting 1 dosage unit per 5,000 units produced results in the submission of samples from some of the larger batches far in excess of what is needed for testing. Storing and disposing of these samples and providing manpower for security present a major problem for FDA. The costs generated by this problem must be absorbed by the certification program and subsequently have an impact on certification fees. The elimination of this problem is part of FDA's plan to improve the efficiency of the certification program and to maintain reasonable certification fees. The Commissioner is not persuaded that the revised sampling procedure will result in additional costs to the manufacturer of increase the potential for error, particularly because the revisions apply only to batches in excess of 500,000 units.

7. *Sample/batch size correlation.* One comment contended that the proposal ignores sample/batch size correlation.

The Commissioner agress that the proposed sampling procedure did not relate sample size to batch size. As revised, however, the final rule will continue to permit sample size for batches consisting of 500,000 units or less to be determined by the size of the batch (i.e., 1 dosage unit per 5,000 produced). Samples sizes under this procedure will not result in samples exceeding 100 units. For drug product batches exceeding 500,000 units, sample/batch size correlation will not be retained. The Commissioner is not pursuaded that this requirement is necessary to assure collection of a representative sample. The Commissioner believes that collecting a maximum of 100 units will at approximately equal intervals from batches exceeding 500,000 units will provide a sample suitable for testing under the FDA certification procedure and will accomplish the primary objectives of the revision, which are to develop sampling requirements that are more appropriate for the high speed, large volume production equipment now in use, and to decrease the number of excess units currently submitted for certification.

8. *Two distinct sampling systems.* One comment contended that the proposal would result in requiring two distinct production sampling systems (one for certification and one for compliance with current good manufacturing practice requirements). This will result in confusion, increased cost, and disparity between release and certification data.

The Commissioner is aware that the collection of sample units for antibiotic certification is in addition to the Current Good Manufacturing Practice (CGMP) requirements. This requirement, however, is not new. The regulations have always required two distinct sampling systems because each serves a different purpose. The certification sampling procedure mandated by §§ 431.1 and 514.50 is designed to assure collection of a representative number of units from a batch for certification purpose. The CGMP regulations in Part 211 (21 CFR Part 211) are designed to enable each manufacturer to establish adequate quality control criteria for its manufacturing operations. The CGMP regulations allow manufacturers wide discretion in implementing in-process sampling procedures for testing for release prior to marketing. The Commissioner is not persuaded that finalization of the proposal would alter the situation which now exists with respect to antibiotic certification sampling and CGMP sampling requirements.

The Commissioner has determined that this document does not contain an agency action covered by § 25.1(b) and, therefore, consideration by the agency of the need for preparing an environmental impact statement is not required.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 507, 512(n), 59 Stat. 463 as amended, 82 Stat. 350-351 (21 U.S.C. 357, 360b(n)) and under authority delegated to the Commissioner (21 CFR 5.1), Parts 431 and 514 are amended as follows:

1. In Part 431, by revising § 431.1(c)(8)(ii) to read as follows:

§ 431.1 Requests for certification, check tests and assays, and working standards; information and samples required.

* * * * * *

(c) * * *

(8) * * *

(ii) In the case of drugs in unit dosage forms, such as tablets, capsules, or suppositories, samples shall be collected as follows:

(*a*) From batches exceeding 500,000 units, a representative sample consisting of 100 units shall be collected by taking single units at approximately equal intervals throughout the final production of the batch. If the person packaging the units into dispensing-size containers is not the manufacturer, the representative sample consisting of 100 units shall be collected by taking single units at approximately equal intervals during packaging.

(*b*) From batches of 500,000 units or less, a representative sample consisting of not more than 100 units shall be collected by taking single units at approximately equal intervals throughout the final production of the batch.

If the person packaging the units into dispensing-size containers is not the manufacturer, the samples shall be collected by taking single units at approximately equal intervals during packaging.

(*b*) From batches of 500,000 units or

[4210-01]

Title 24—Housing and Urban Development

vised prototype per unit cost schedules are being published for specific areas.

These cost limits, established pursuant to section 6(b) of the U.S. Housing

er County, N.Y., which is in error. The cost limit shall be $26,600 in lieu of limit published.

3. At 43 FR 26997, revise the proto-

If the person packaging the units into dispensing-size containers is not the manufacturer, the samples shall be collected by taking single units at approximately equal intervals during packaging. In no case shall more than 5,000 units be produced or packaged during a sampling interval. The minimum acceptable sample size shall be as specified in the appropriate monograph.

(c) When the manufacturing process is such that it is not feasible to collect the samples throughout the final production of the batch (e.g., if tablets undergo further processing, such as polishing or coating, after being compressed), the samples may be collected from bulk containers of the finished product, according to the following requirements:

(*1*) For batches exceeding 500,000 units: If the batch is in more than 100 containers, the sample is 1 unit from each container. If the batch is in 100 containers or less, the sample is 100 units, taken in approximately equal amounts from each container.

(*2*) For batches of 500,000 units or less: If the batch is in more than 100 containers, the sample is 1 unit from each container. If the batch is in 100 containers or less, the sample is at least 1 unit for every 5,000 units in the batch taken in approximately equal amounts from each container. The sample shall not be less than the minimum number of units specified in the appropriate monograph.

* * * * *

2. In Part 514, by revising § 514.50(c)(8)(ii) to read as follows:

§ 514.50 Requests for certifications, check tests and assays, and working standards for animal drugs subject to section 512(n) of the act; information and samples required.

* * * * *

(c) * * *

(8) * * *

(ii) In the case of drugs in unit dosage forms, such as tablets, capsules, or suppositories, samples shall be collected as follows:

(*a*) From batches exceeding 500,000 units, a representative sample consisting of 100 units shall be collected by taking single units at approximately equal intervals throughout the final production of the batch. If the person packaging the units into dispensing-size containers is not the manufacturer, a representative sample consisting of 100 units shall be collected by taking single units at approximately equal intervals during packaging.

(*b*) From batches of 500,000 units or less, a representative sample consisting of not more than 100 units shall be collected by taking single units at approximately equal intervals throughout the final production of the batch. If the person packaging the units into dispensing-size containers is not the manufacturer, the samples shall be collected by taking single units at approximately equal intervals during packaging. In no case shall more than 5,000 units be produced or packaged during a sampling interval. The minimum acceptable sample size shall be as specified in the appropriate monograph.

(c) When the manufacturing process is such that it is not feasible to collect the samples throughout the final production of the batch (e.g., if tablets are subjected to further processing, such as polishing or coating, after being compressed), the samples may be collected from bulk containers of the finished product, according to the following requirements:

(*1*) For batches exceeding 500,000 units: If the batch is in more than 100 containers, the sample is one unit from each container. If the batch is in 100 containers or less, the sample is 100 units, taken in approximately equal amounts from each container.

(*2*) For batches of 500,000 units or less: If the batch is in more than 100 containers, the sample is 1 unit from each container. If the batch is in 100 containers or less, the sample is at least 1 unit for every 5,000 units in the batch, taken in approximately equal amounts from each container. The sample shall not be less than the minimum number of units specified in the appropriate monograph.

* * * * *

Effective date. This regulation shall be effective November 14, 1978.

(Secs. 507, 512(n), 59 Stat. 463 as amended, 82 Stat. 350-351 (21 U.S.C. 357, 360b(n)).)

Dated: September 7, 1978.

MERVIN H. SHUMATE,
Acting Associate Commissioner for Regulatory Affairs.

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-78-571]

PART 841—PUBLIC HOUSING PROGRAM: DEVELOPMENT PHASE

Appendix A—Prototype Cost Limits for Low-Income Housing—Regions II, III, VIII, and IX

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development.

ACTION: Interim rule.

SUMMARY: On June 22, 1978, the Department published a revised Schedule A, "Prototype Cost limits for Low-Income Housing," to part 841. Consideration of subsequent factual data and omissions and an error detected in the June 22, 1978, revised schedule A require that revisions be made and published for: Row dwellings in Washington, D.C.; Newark, Asbury Park, North Bergen, and Freehold, New Jersey; Ronan, Browning, Harlem, Wolf Point, and Lodge Grass, Mont.; Mission, Fort Thompson, McLaughlin, Wagner, and Sisseton, S. Dak.; Fort Totten, N. Dak.; one bedroom elevator dwelling in Westchester County, N.Y., and detached and semidetached, row and walkup dwellings in Elko, Fallon, and Gardnerville, Nev.

EFFECTIVE DATE: September 15, 1978.

COMMENTS DUE: October 16, 1978.

ADDRESSES: Sent comments to the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Mr. Jack R. VanNess, Chief, Construction Cost Branch, Office of Technical Support, Room 6282, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5880. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Based on information supplied by the field offices and omissions and an error detected upon publication, revised prototype per unit cost schedules are being published for specific areas.

These cost limits, established pursuant to section 6(b) of the U.S. Housing Act of 1937, represent per unit cost schedules for low-income public housing and are required to be published at least annually in the FEDERAL REGISTER.

Section 6(b) of the Act provides that prototype cost shall be effective on September 15, 1978. However, timely written comments will be considered and additional amendments will be published if the Department determines that acceptance of the comments is appropriate. Comments with respect to cost limits for a given location should be sent to the address indicated above.

A finding of inapplicability respecting the National Environmental Policy Act of 1969, has been made in accordance with HUD procedures. A copy of this finding of inapplicability will be available for public inspection during regular business hours in the office of the rules docket clerk at the address specified above.

Accordingly, 24 CFR, part 841, appendix A. Prototype Cost Limits for Low-Income Housing, is amended as follows:

1. At 43 FR 26994, revise the prototype per unit cost schedules for row dwellings as shown on the prototype per unit cost schedule—region II—Newark, Asbury Park, North Bergen, and Freehold, N.J.

2. At 43 FR 26996, revise the one bedroom elevator limit for Westchester County, N.Y., which is in error. The cost limit shall be $26,600 in lieu of limit published.

3. At 43 FR 26997, revise the prototype per unit cost schedule for row dwellings as shown on the prototype per unit cost schedule region III—Washington, D.C.

4. At 43 FR 27037, revise the prototype per unit cost schedules for row dwellings as shown on the prototype per unit cost schedule—region VIII—Ronan, Browning, Harlem, Wolf Point, and Lodge Grass, Mont.

5. At 43 FR 27038, revise the prototype per unit cost schedules for row dwellings as shown on the prototype per unit cost schedule—region VIII—Mission, Fort Thompson, McLaughlin, Wagner, and Sisseton, S. Dak.

6. At 43 FR 27038, revise the prototype per unit cost schedule for row dwellings as shown on the prototype per unit cost schedule—region VIII—Fort Totten, N. Dak.

7. At 43 FR 27049, revise the prototype per unit schedules as shown on the prototype per unit cost schedule—region IX—Elko, Fallon, and Gardnerville, Nev.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)); sec. 6(b), U.S. Housing Act of 1937 (42 U.S.C. 1437(d)).)

Issued at Washington, D.C., on September 7, 1978.

MORTON BARUCH,
Deputy Assistant Secretary for Housing—Federal Housing Commissioner.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7565; EE-13-78]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Certain Custodial Accounts and Annuity Contracts

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to certain custodial accounts and annuity contracts. Changes in the applicable tax law were made by the Employee Retirement Income Security Act of 1974. The regulations would provide the public with the guidance needed to comply with that Act and would affect certain pension, profit-sharing, and stock bonus plans.

DATE: The regulations are effective beginning on January 1, 1974.

FOR FURTHER INFORMATION CONTACT:

Norman J. Misher of the Employee Plans and Exempt Organizations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CC: EE 202-566-3433, not a toll-free call.

SUPPLEMENTAL INFORMATION:

BACKGROUND

On October 16, 1975, proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 401(f) of the Internal Revenue Code of 1954 were published in the FEDERAL REGISTER (40 FR 48517). The amendments were proposed to confrom the regulations to section 1022(d) of the Employee Retirement Income Security Act of 1974 (88 Stat. 939), relating to certain custodial accounts and annuity contracts. Only one written comment was received and no public hearing was requested or held. The proposed amendments are adopted without change by this Treasury decision except for a minor clarifying revision.

This Treasury decision does not reflect section 1505(b) of the Tax Reform Act of 1976 (90 Stat. 1738), which clarifies section 401(f) by allowing a qualified pension plan to invest in an insurance contract with a segregated asset account even though the contract does not provide annuities. In order to provide an opportunity for public comment, a notice of proposed rulemaking reflecting section 1505(b) of that act will be published in the FEDERAL REGISTER at a later date.

DRAFTING INFORMATION

The principal author of this regulation was Norman J. Misher of the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly—

1. Section 1.401, as set forth in paragraph 1 of the October 16, 1975, notice of proposed rulemaking, is withdrawn.

2. The proposed amendments to 26 CFR Part 1 are adopted without change, except that the last sentence of paragraph (b)(1)(ii) is amended to read as follows:

§ 1.401-8 Certain custodial accounts and annuity contracts.

* * * * *

(b) *Rules applicable to custodial accounts and annuity contracts.* (1) * * * (ii) * * * This demonstration must be made in the same manner as the demonstration required by section 401(d)(1) and the regulations thereunder.

* * * * * *

(Secs. 401(f)(2), 7805, Internal Revenue Code of 1954 (88 Stat. 939 and 68A Stat. 917; 26 U.S.C. 401(f)(2), 7805).)

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: September 5, 1978.

Donald C. Lubick,
Assistant Secretary of the Treasury.

PAR. 2. Section 1.401-8 is redesignated as § 1.401-8A and is amended by revising the title and adding a new sentence at the end of paragraph (a) to read as follows:

§ 1.401-8A Custodial accounts prior to January 1, 1974.

(a) *Treatment of a custodial account as a trust.* * * * For regulations relating to the period after December 31, 1973, see § 1.401-8.

* * * * * *

PAR. 3. A new § 401.8 is added immediately before § 1.401-8A (as redesignated by paragraph 2 of this appendix) to read as follows:

§ 1.401-8 Certain custodial accounts and annuity contracts.

(a) *Treatment of a custodial account or an annuity contract as a qualified trust.* Beginning on January 1, 1974, a custodial account or an annuity contract may be used, in lieu of a trust, under any qualified pension, profit-sharing, or stock bonus plan if the requirements of paragraph (b) of this section are met. A custodial account or an annuity contract may be used under such a plan, whether the plan covers common-law employees, self-employed individuals who are treated as employees by reason of section 401(c), or both. The use of a custodial account or annuity contract as part of a plan does not preclude the use of a trust or another custodial account or another annuity contract as part of the same plan. A plan under which a custodial account or an annuity contract is used may be considered in connection with other plans of the employer in determining whether the requirements of section 401 are satisfied. For regulations relating to the period before January 1, 1974, see § 1.401-8A.

(b) *Rules applicable to custodial accounts and annuity contracts.* (1) Beginning on January 1, 1974, a custodial account or an annuity contract is treated as a qualified trust under section 401 if the following requirements are met:

(i) The custodial account or annuity contract would, except for that fact that it is not a trust, constitute a qualified trust under section 401; and

(ii) In the case of a custodial account, the custodian either is a bank or is another person who demonstrates, to the satisfaction of the Commissioner, that the manner in which he will hold the assets will be consistent with the requirements of section 401. This demonstration must be made in the same manner as the demonstration required by section 401(d)(1) and the regulations thereunder.

(2) If a custodial account would, except for the fact that it is not a trust, constitute a qualified trust under section 401, it must, for example, be created pursuant to a written agreement which constitutes a valid contract under local law. In addition, the terms of the contract must make it impossible, prior to the satisfaction of all liabilities with respect to the employees and their beneficiaries covered by the plan. For any part of the funds of the custodial account to be used for, or diverted to, purposes other than for the exclusive benefit of the employees or their beneficiaries as provided for in the plan (see paragraph (a) of § 1.401-2).

(3) An annuity contract would, except for the fact that it is not a trust, constitute a qualified trust under section 401 if it is purchased by an employer for an employee under a plan which meets the requirements of section 404(a)(2) and the regulations thereunder, except that the plan may be either a pension or a profit-sharing plan.

(c) *Effect of this section.* (1)(i) Any custodial account or annuity contract which satisfies the requirements of paragraph (b) of this section is treated as a qualified trust for all purposes of the Internal Revenue Code of 1954. Such a custodial account or annuity contract is treated as a separate legal person which is exempt from the income tax under section 501(a). In addition, the person holding the assets of such account or holding such contract is treated as the trustee thereof. Accordingly, such person is required to file the returns described in sections 6033 and 6047 and to supply any other information which the trustee of a qualified trust is required to furnish.

(ii) Any procedure which has the effect of merely substituting one custodian for another shall not be considered as terminating or interrupting the legal existence of a custodial account which otherwise satisfies the requirements of paragraph (b) of this section.

(2)(i) The beneficiary of a custodial account which satisfies the requirements of paragraph (b) of this section is taxed in accordance with section 402. In determining whether the funds of a custodial account are distributed or made available to an employee or his beneficiary, the rules which under section 402(a) are applicable to trusts will also apply to the custodial account as though it were a separate legal person and not an agent of the employee.

(ii) If a custodial account which has qualified under section 401 fails to qualify under such section for any taxable year, such custodial account will not thereafter be treated as a separate legal person, and the funds in such account shall be treated as made available within the meaning of section 402(a)(1) to the employees for whom they are held.

(3) The beneficiary of an annuity contract which satisfies the requirements of paragraph (b) of this section is taxed as if he were the beneficiary of an annuity contract described in section 403(a).

(d) *Definitions.* For purposes of this section—

(1) The term "bank" means a bank as defined in section 401(d)(1).

(2) The term "annuity" means an annuity as defined in section 401(g). Thus, any contract or certificate issued after December 31, 1962, which is transferable is not treated as a qualified trust under this section.

(e) *Cross reference.* For the requirement that the assets of an employee benefit plan be placed in trust, and exceptions thereto, see section 403 of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1103, and the regulations prescribed thereunder by the Secretary of Labor.

Title 29—Labor

CHAPTER XXV—PENSION AND WELFARE BENEFIT PROGRAMS, DEPARTMENT OF LABOR

PART 2520—RULES AND REGULATIONS FOR REPORTING AND DISCLOSURE

Summary Annual Report

AGENCY: Department of Labor.

ACTION: Amendment of regulations.

SUMMARY: This document sets forth amendments to clarify existing temporary regulations concerning the content, style, and format of the summary annual report (SAR) required to be furnished to participants and beneficiaries of employee benefit plans under the Employee Retirement Income Security Act of 1974 (ERISA). The amendments provide that when an extension of time in which to file an annual report has been granted by the Internal Revenue Service, an SAR must be furnished no later than 2 months after the close of the period for which the extension was granted. The amendments affect participants and beneficiaries of employee benefit plans, plan administrators, and other persons who might be involved in the preparation or receipt of SAR's.

DATES: The amendments are effective immediately.

FOR FURTHER INFORMATION CONTACT:

John Christensen, Office of Regulatory Standards and Exceptions, Pension and Welfare Benefit Programs, U.S. Department of Labor, Washington, D.C. 20216, 202-523-8515. This is not a toll free number.

SUPPLEMENTARY INFORMATION: These amendments clarify the provisions of 29 CFR 2520.104b-10 and 2520.104b-11 [1] regarding the date by which SAR's must be furnished to participants and beneficiaries of employee benefit plans. Those sections currently provide that the SAR must be furnished within 9 months of the close of the plan year, or within 9 months of the close of the fiscal year of the trust or other entity which is filing the annual report. These dates are 2 months after the date by which the annual report must ordinarily be filed with the Internal Revenue Service (Service).

In some cases, the Service grants an extension of time in which to file the annual report. Because the SAR is meant to provide participants and beneficiaries with a summary of their plan's latest annual report, preparation of the SAR by necessity must await preparation of the annual report, and it is apparent that the deadlines described above are not intended to apply in cases in which, pursuant to an extension granted by the Service, preparation of the annual report is delayed so as to make it difficult or even impossible to furnish the SAR in compliance with those deadlines. However, the existing regulations do not explicitly state that the deadlines do not apply in such instances, nor do they state when the SAR must be furnished in cases where the usual deadlines are inapplicable. As a result of the absence of such provisions in the regulations, the Department has received a number of inquiries from plan administrators and other affected persons with regard to this matter.

In order to eliminate the uncertainty described above, the Department is adopting certain clarifying amendments. The amendments provide that

[1] 41 FR 32522, Aug. 3, 1976.

when an extension of time in which to file the annual report has been granted by the Service, the corresponding SAR must be furnished no later than

the administrator of an employee welfare benefit plan which is part of a group insurance arrangement de-

1978 the time period for submitting such studies. Accordingly, the final rule is amended effective immediately.

of Administrative and Management Policy, Office of the Assistant Secretary—Policy, Budget and Admini-

ities within the Department of the Interior, and in particular by the Branch of Minority Procurement, Division of

when an extension of time in which to file the annual report has been granted by the Service, the corresponding SAR must be furnished no later than 2 months after the close of the period for which the extension was granted.

Because the amendments being adopted herein are designed solely to clarify certain existing requirements and thereby to eliminate uncertainty on the part of affected persons, the Department finds that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest. For the same reasons, the Department finds that the amendments may be made effective immediately.[2]

AUTHORITY: Secs. 104, 109, 110, 505 Pub. L. 93-406, 88 Stat. 847, 851, 894 (29 U.S.C. 1024, 1029, 1030, 1135).

Accordingly, Part 2520 of Chapter XXV of Title 29 of the Code of Federal Regulations is hereby amended as follows:

1. Amend § 2520.104b-10 by amending paragraph (a) thereof and adding thereto a new paragraph (e), the section as amended to provide as follows:

§ 2520.104b-10 Summary annual report.

(a) *Obligation to furnish.* Under the authority of sections 104(a)(3) and 110 of the act, the administrator of an employee benefit plan subject to Part 1, Title I of the act shall, except as otherwise provided in paragraph (e) of this section, furnish a summary annual report containing the information prescribed in paragraph (c) of this section to plan participants and beneficiaries within 9 months after the close of the plan year or the date prescribed in paragraph (b), in accordance with § 2520.104b-1.

* * * * *

(e) *Extension of time.* When an extension of time in which to file an annual report has been granted by the Internal Revenue Service, the summary annual report shall be furnished within 2 months after the close of the period for which the extension was granted.

2. Amend § 2520.104b-11 by amending paragraph (a) thereof and adding thereto a new paragraph (d), the section as amended to provide as follows:

§ 2520.104b-11 Summary annual report for plans which are part of a group insurance arrangement.

(a) *Obligation furnish:* In accordance with section 104(b)(3) of the act, the administrator of an employee welfare benefit plan which is part of a group insurance arrangement described in § 2520.104-43 shall, except as otherwise provided in paragraph (d) of this section, furnish a summary annual report containing the information prescribed in paragrpah (b) of this section for fiscal years beginning after December 31, 1974 in accordance with the requirements of § 2520.104b-1 within 9 months after the close of the fiscal year of the trust or other entity which is filing the annual report with the Secretary pursuant to § 2520.104a-6 * * *.

* * * * *

(d) *Extension of time.* When an extension of time in which to file an annual report has been granted by the Internal Revenue Service, the summary annual report shall be furnished within 2 months after the close of the period for which the extension was granted.

Signed at Washington, D.C., this 7th day of September, 1978.

IAN D. LANOFF,
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration.

[FR Doc. 78-25690 Filed 9-8-78; 11:03 am]

[2] It might be noted that the Department has recently issued a proposed regulation (43 FR , August , 1978) which, if adopted, would replace the existing regulations concerning SAR's. That proposed regulation contains a provision regarding extensions of time similar to that contained in the attached amendments.

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[PP 4F1646/R132A; FRL 967-5]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Thiabendazole; correction

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

SUMMARY: This document corrects a final rule that appeared at page 32782 in the FEDERAL REGISTER of Tuesday, June 28, 1977 (FR Doc. 77-18517), relating to the establishment of a tolerance for residues of the fungicide thiabendazole.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Edward Gross, Program Support Division (TS-757), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-755-4854.

SUPPLEMENTARY INFORMATION: In FR Doc. 77-18517 appearing at page 32782 in the issue of Tuesday, June 28, 1977, the item "0.02 part per million (negligible residue) in or on sweet potatoes from postharvest application to sweet potatoes intended only for use as seed" was inadvertently omitted from the table in paragraph (a) during the reformatting process. Therefore, § 180.242 is editorially amended by alphabetically inserting the above item in the table in paragraph (a) to read as follows:

§ 180.242 Thiabendazole; tolerances for residues.

(a) * * *

Commodity	Parts per million
* * * * *	
Sweet potatoes (POST-H to sweet potatoes intended only for use as seed).....	0.02(N)
* * * * *	

(Sec. 408(d)(2) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

SUBCHAPTER R—TOXIC SUBSTANCES CONTROL

PART 730—HEALTH AND SAFETY STUDY REPORTING REGULATIONS

Extension of Reporting Deadline

AGENCY: Environmental Protection Agency.

ACTION: Final rule, notice of extension.

SUMMARY: The final health and safety reporting regulations appearing at 40 CFR Part 730, 43 FR 30984 (July 18, 1978) became effective August 17, 1978, and provides that all persons who are required to submit lists and/or copies of health and safety studies must do so by September 18, 1978. EPA is now extending to October 16, 1978 the time period for submitting such studies. Accordingly, the final rule is amended effective immediately.

EFFECTIVE DATE: September 15, 1978.

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-1—GENERAL

Implementation of Program To Increase Contracting Participation of Minority Business Enterprises

AGENCY: Office of the Secretary, Department of the Interior.

ACTION: Temporary rule.

SUMMARY: This rule prescribes the Department of the Interior's policies, procedures, and contract clauses which establish the Department's program to increase the contracting and subcontracting participation of minority business enterprises. The program is authorized and required pursuant to Executive Order 11625, October 13, 1971, and 41 CFR 1-1.1302(a).

EFFECTIVE DATE: September 15, 1978.

ADDRESS: Send comments to address listed immediately below.

FOR FURTHER INFORMATION CONTACT:

Charlotte B. Spann, Chief, Branch of Minority Procurement, Division of Procurement and Grants, Office of Administrative and Management Policy, Office of the Assistant Secretary—Policy, Budget and Administration, Room 5523, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240, 202-343-4907.

SUPPLEMENTARY INFORMATION: This rule prescribes the policies, procedures, and contract clauses by which the Department is establishing its program to increase the level of participation of minority business enterprises in contracting and subcontracting for the procurement requirements of the Department. The program is authorized and required pursuant to Executive Order 11625, October 13, 1971, and 41 CFR 1-1.1302(a).

The principal authors of the policies, procedures, and contract clauses set forth in this rule are: Charlotte B. Spann, Kenneth T. Kelly, and William S. Opdyke, Office of Administrative and Management Policy, and Justin P. Patterson, Office of the Solicitor.

On March 27, 1978, President Carter annouced in his national urban policy message to the Congress that Federal procurement should be used to strengthen the economic base of the Nation's cities, communities, and neighborhoods, and provide important employment opportunities to city residents. He proposed two important initiatives which will increase the role of minority business in our economy. First, he established a goal to triple Federal procurement from minority businesses by the end of fiscal year 1979. Second, he required all agencies to develop goals for minority business participation in their contracts and grants activities. In this regard, the President indicated that Interior and four other agencies had already proposed improvements in minority business programs. Earlier, the Department had established an overall goal of $135 million, for minority participation during fiscal year 1978. As required by law and pursuant to President Carter's policies, this regulation sets forth a minority business program.

This rule is being published as a temporary rule pursuant to the authority of 5 U.S.C. 553(b)(B) without having been previously published as proposed rulemaking. Such action is necessary because of the immediate need for the implementation of a minority business enterprise program within the Department of the Interior. The Department of the Interior has determined that due to the existence of such need and the particular circumstances of the implementation of this program, it would be contrary to the public interest to delay its implementation. The program will be subject to close and continuous monitoring by the responsible procuring activities within the Department of the Interior, and in particular by the Branch of Minority Procurement, Division of Procurement and Grants, Office of Administrative and Management Policy, which has responsibility for the overall administration of the program. During the next 12 months, the effectiveness and practicality of the various policies, procedures, and contract clauses set forth herein will be monitored and analyzed and may be amended from time to time.

During this initial period of implementation, the Department of the Interior encourages concerned persons to comment on both the program as a whole and upon particular policies, procedures, or contract clauses. The Department is especially interested in receiving the views of prime and subcontractors, as well as from others upon whom this program may have a direct impact. Only with the comments of all parties having direct or actual experience under the program can a full and accurate evaluation of the program be undertaken and due regard be given to unforeseen impacts which may results from its various aspects.

For the foregoing reasons, and because the Department of the Interior wishes to have its MBE program operative during the award of the Department's fourth-quarter procurement requirements so as to meet the overall goals established by the President and the Secretary, the Department has determined that it is in the public interest to make this rule effective immediately upon publication, pursuant to 5 U.S.C. 553(b)(B).

SBA 8(a) PROGRAM

This program is in addition to the Small Business Administration's small business set-aside program operated pursuant to section 8(a) of the Small Business Act and prescribed under 41 CFR 1-1.713. This program is not intended to change or affect the small business set-aside program in any way.

PROGRAM DEVELOPMENT/COMPLIANCE

The Branch of Minority Procurement, Division of Procurement and Grants, Office of Administrative and Management Policy, is responsible for the establishment and administration of the program. Any changes made in the program will originate in and be the responsibility of the Branch of Minority Procurement. All comments or inquiries concerning the program should be directed to the Chief, Branch of Minority Procurement, at the above address.

The Office for Equal Opportunity (OEO) also has substantial responsibilities concerning the program; OEO is responsible for insuring compliance with the intent and purpose of the

regulations as set forth in this chapter, at all Department levels and contractor tiers. OEO is further responsible for assessing the effectiveness of

SUBCONTRACTING—REQUIRED CLAUSES

The Department is concerned not just with the level of participation of

involvement in Government contracting.

It is the Department's belief that the 20-percent goal for construction

the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) is not required.

LARRY E. MEIEROTTO,

for evaluating and documenting all findings with respect to the accomplishment of the goals, objectives, and policies of the Department's minority

ing to do business with the Government.

(4) Appointment of a qualified, full time Minority Business Enterprise

regulations as set forth in this chapter, at all Department levels and contractor tiers. OEO is further responsible for assessing the effectiveness of the various aspects of the program and for the recommendation of specific changes to improve the program.

FINDINGS

The Department of the Interior has analyzed the participation of minority business enterprises in procurements by its procuring activities. Based on this analysis, the Department of the Interior hereby finds that minority business enterprises have historically been underrepresented in Interior procurement.

Moreover, the Department of the Interior takes notice of the vast amount of data and court decisions referring to historical underrepresentation of minority business enterprises in the construction trades in general and finds that minorities are substantially underrepresented in these trades.

IMPLEMENTATION

Responsibility for the actual implementation and success of the program lies primarily with the heads of the various procuring activities within the Department which have the authority to enter into contracts; e.g., the Bureau of Land Management, or the National Park Service. (See 41 CFR 14-1.205 and 14-1.206.) Pursuant to 41 CFR 14-1.1302-5, the head of each procuring activity is required to "take positive action to achieve maximum practicable participation of minority businesses in the procuring activities of the organization." The action must include the establishment of percentage goals, the use of available minority vendor listings, directories, and query systems, the training of personnel to assist minority businesses seeking to do business with the activity, and the appointment of a Minority Business Enterprise Coordinator for each procurement office. In addition, operating procedures must be established which at a minimum, include the procedures specified in 41 CFR 14-1.1302-5(b)(5).

MINORITY BUSINESS ENTERPRISE COORDINATORS

The Minority Business Enterprise Coordinators (MBEC's) working in the individual procurement offices, have the responsibility to oversee the day-to-day implementation of the program and to take appropriate actions necessary to overcome obstacles wherever and whenever they occur. Such action shall include, but not be limited to, the specific duties and responsibilities enumerated in 41 CFR 14-1.1302-6.

SUBCONTRACTING—REQUIRED CLAUSES

The Department is concerned not just with the level of participation of minority business enterprises in prime contracting, but also in the subcontracting tiers. The Department recognizes that it is through subcontracting that many minority business enterprises can gain the experience which will eventually enable them to compete directly for Federal procurement requirements as prime contractors. Accordingly, 41 CFR 14-1.1310-2 prescribes certain contract clauses for use in solicitations and contracts which exceed specified dollar thresholds and which contain the clause required by 41 CFR 1-1.1310-2(a). These clauses are to be used in lieu of the clause set forth in 41 CFR 1-1.1310-2(b).

The contract clause prescribe in 41 CFR 14-1.1310-2(b) is to be utilized in formally advertised nonconstruction procurements exceeding $250,000. The clause generally requires that the low responsible, responsive bidder submit a detailed plan for establishing and conducting a minority business enterprise subcontracting program. The plan must include the specific actions to be taken by the contractor in securing minority business enterprise subcontractors. The plan must include, at a minimum, the designation of a liaison officer to conduct the subcontracting program, the identification and description of each specific subcontract to be awarded to a minority business enterprise, and the estimated number and dollar amount of all subcontracts to be awarded under the contract.

A separate clause is prescribed in 41 CFR 14-1.1310-2(c) for use in formally advertised construction contracts which exceed $250,000. When this clause is used, the contracting officer is required to determine a percentage goal of the total value of all subcontracts, which will be awarded to minority business enterprises. The percentage goal shall reflect known circumstances and market conditions, and should, to the extent permitted by known circumstances and market conditions, represent an amount which will significantly increase the level of minority business subcontracting participation above the level which would otherwise have been anticipated. Due to the historic underrepresentation of minority business enterprise subcontractors in Department of the Interior construction procurement, the Department has determined that the percentage goal specified for any such contract should initially be at least twenty percent (20%), except in those cases where known circumstances and market conditions would make such a percentage goal unfeasible. This and other goals will promote fair dealing and equitable relationships with minority business enterprises and their involvement in Government contracting.

It is the Department's belief that the 20-percent goal for construction projects will also assist in counterbalancing the anticipated shortfall by some of Interior's agencies in meeting their overall goals. A further rationale for the 20-percent goal is the effect of the geographic diversity of the minority population. In some areas of the country the minority population and number of minority contractors is sparse. Thus the need for a 20-percent goal is further enhanced to support an equitable program nationally. Moreover, this and similar goals are a flexible measure in reaching those areas where availability of minority business enterprises is greatest but underutilization of minority contractors is the most acute.

It is the hope of the Department of the Interior that the use of the percentage goal in such a manner will result in a meaningful nationwide impact on the participation of minority contractors and subcontractors particularly in the construction industry. The 20-percent goal is further deemed necessary in light of the presently existing statistical evidence indicating the serious underutilization of minority contractors and subcontractors in federally funded construction contracts. In addition, other efforts to remedy the problem of underutilization of minorities in federally funded construction projects have failed to result in any appreciable increase in minority participation. Also, other executive agencies such as the National Aeronautics and Space Administration and the General Services Administration have recorded appreciable success with a 20-percent goal program, aimed at increasing minority business participation in the construction industry.

In conclusion, the Department of the Interior recognizes that existing conditions, with respect to minority contractors participation in Department of the Interior funded projects are subject to change; consequently, the percentage goals used will be subject to review on an annual basis. The contract clause prescribed in 41 CFR 14-1.1310-2(d) is required for negotiated procurements over $250,000 and architect-engineer contracts over $100,000.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order and OMB Circular A-107. The Department has also determined that this rulemaking is not a major Federal action significantly affecting the quality of the human environment and that a detailed statement pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)) is not required.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

SEPTEMBER 12, 1978.

Accordingly, 41 CFR subpart 14-1.13 is adopted as follows:

1. The table of contents of Part 14-1 is amended by adding a new subpart 14-1.13 to read as follows:

Subpart 14-1.13—Minority Business Enterprise

Sec.
14-1.1300 Scope of subpart.
14-1.1302 Agency programs.
14-1.1302-1 Office of Administrative and Management Policy.
14-1.1302-2 Office for Equal Opportunity.
14-1.1302-3 Office of the Solicitor.
14-1.1302-4 Assistant Secretaries.
14-1.1302-5 Heads of procuring activities.
14-1.1302-6 Minority business enterprise coordinators.
14-1.1310 Subcontracting with minority business enterprises.
14-1.1310-2 Required clauses.
14-1.1350 Minority vendors sources.
14-1.1351 Reports.

AUTHORITY: E.O. 11625, October 13, 1971 and 41 CFR 1-1.1302(a).

2. Part 14-1 is amended by adding a new subpart 14-1.13 to read as follows:

Subpart 14-1.13—Minority Business Enterprise

§ 14-1.1300 Scope of subpart.

This subpart prescribes Department of the Interior policies, procedures, and contract clauses which establish a minority business enterprise program pursuant to the provisions of subpart 1-1.13 of this title. This subpart is in addition to the policies and procedures for contracts with the Small Business Administration pursuant to section 8(a) of the Small Business Act as prescribed under § 1-1.713 of this title and as otherwise prescribed by law.

§ 14-1.1302 Agency programs.

§ 14-1.1302-1 Office of Administrative and Management Policy.

The Branch of Minority Procurement, Division of Procurement and Grants, Office of Administrative and Management Policy is responsible for the establishment of policy, procedures, and guidelines for the effective administration of the Department's minority business enterprise program as required by § 1-1.1302 of this title.

§ 14-1.1302-2 Office for Equal Opportunity.

The Office for Equal Opportunity is responsible for insuring compliance with the intent and purpose of these regulations at all Departmental levels and contractor tiers. The Office for Equal Opportunity is also responsible for evaluating and documenting all findings with respect to the accomplishment of the goals, objectives, and policies of the Department's minority business program and for recommending those positive corrective actions needed to improve the program's effectiveness.

§ 14-1.1302-3 Office of the Solicitor.

Pursuant to the provisions of subpart § 14-1.13 of this chapter, the Office of the Solicitor is responsible for reviewing selected procurement actions for legal sufficiency in accordance with the provisions of § 14-1.352 of this chapter.

§ 14-1.1302-4 Assistant secretaries.

Each Assistant Secretary within the Department is responsible for insuring that all policies, procedures and regulations pertaining to the Department's minority business enterprise program are effectively implemented at all operational levels under his/her jurisdiction and for timely transmission of all communications related to the Department's minority business program to the heads of procuring activities; and for fully endorsing and supporting recommended Departmental minority procurement seminars, conferences and special forums.

§ 14-1.1302-5 Heads of procuring activities.

(a) The head of each procuring activity (see § 14-1.206 of this chapter) is responsible for administering the Department's minority business enterprise program within that activity. This responsibility may be assigned to a qualified senior level official(s) designated by the head of the procuring activity.

(b) The head of each procuring activity, or designee, shall take immediate positive action to insure maximum practicable participation of minority business enterprises in the procuring activities of the organization. This action shall include, but not be limited to, the following:

(1) Establishment of aggressive minority business goals based on the annual review of advance procurement plans. These goals shall be expressed as a percentage of planned procurement dollars and submitted in accordance with the requirements of § 14-1.1351 of this chapter.

(2) Full utilization of available minority vendor listings, directories, and query systems to insure that eligible and qualified minority business enterprises are included on the bidder's mailing lists and source lists.

(3) Providing training opportunities for all personnel involved in carrying out the Department's minority business enterprise program so as to effectively assist minority businesses seeking to do business with the Government.

(4) Appointment of a qualified, full time Minority Business Enterprise Coordinator (MBEC) for each procurement office within a procuring activity which has annual contract dollar awards of $20 million or more. When volume of procurement and contract activity warrants it, the appointment of a full time Minority Business Enterprise Coordinator (MBEC) in procurement offices with annual contract dollar awards of less than $20 million. Appointment of a qualified part-time MBEC for each procurement office which has annual contract dollar awards of less than $20 million and in which volume of procurement and contract activity does not justify a full time MBEC (see § 14-1.1302-6 of this chapter).

(5) Establishment of standard operating procedures which implement this subpart 14-1.13 and which, as a minimum, are to be followed by all personnel involved in carrying out the Department's minority business enterprise program. Such procedures shall include, but not be limited, to, the following actions:

(i) A review of each procurement requirement in excess of $2,500 to determine the opportunity for award to the Small Business Administration pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)) (see § 1-1.713 of this title). A search of minority business enterprises including those located in rural areas and the inclusion of such concerns on the bidder's mailing lists and source lists (see § 14-1.1350 of this chapter).

(ii) Regular consultations with the designated Minority Business Enterprise Coordinator, other procuring activities of the Department, and other Federal agencies, to insure that a sufficient number of minority business enterprises are identified on the bidder's mailing lists and other source lists, and to further insure that such lists are periodically updated and fully utilized in the solicitation of bids and offers from minority business enterprises.

(iii) With regard to minority business enterprise concerns on existing bidder's mailing lists and other source lists, maintain records showing the number of minority business enterprises solicited and the total dollar amount of awards to such concerns.

(iv) Whenever practicable, recommend a labor surplus set-aside or exclusive small business participation for each procurement requirement that cannot be awarded to the Small Business Administration pursuant to section 8(a) of the Small Business Act (15 U.S.C. 637(a)). (See §§ 1.706-5 and 1-1.706-6 and subpart 1-1.8 of this title).

(v) Insure to the maximum extent practicable, that procurement specifications and requirements are written

are provided to minority business enterprises.

(xii) Provide debriefings to unsuc-

minimum of 50 percent of their time for performance of minority business functions. Persons designated as

terprise regulations, policies, procedures, and other related information. Compile data and prepare all reports

specified in § 14-1.1310-2 of this chapter.

(n) Contact procuring activities of

exceed the specified dollar thresholds and which contain the clause required by § 1-1.1310-2(a) of this title. These

(v) Insure to the maximum extent practicable, that procurement specifications and requirements are written so as to enhance the possibility of participation by minority business enterprises.

(vi) Assist in the counseling of minority business enterprises on matters relating to future procurement opportunities and appropriate procedures for participating in the Department's procurement requirements. However, this does not include the advance release of information regarding specific procurements in process.

(vii) Review all proposed procurements to explore the possibility of dividing the work into components or subcomponents suitable for participation by minority business enterprises. Insure that the estimated dollar amount of a particular requirement is not used as a determining factor in soliciting minority business enterprise participation or in the award of contracts to the Small Business Administration under section 8(a) of the Small Business Act.

(viii) Insure that all competitive procurements and procurements offering subcontracting opportunities are synopsized in the Commerce Business Daily in a timely fashion and that the maximum practicable response time is provided (see § 1-1.1003-6 of this title).

(ix) Facilitate participation of minority business enterprises by providing them with counsel and advice on matters relating to preparation of bids and proposals, allowance of time for preparation of bids and proposals, quantities of articles or services required, specifications, delivery schedules, bonding requirements, level of effort estimates (when appropriate), and any other relevant procurement matters that will aid and assist minority business enterprises in competing for contract opportunities with the Department.

(x) Insure that each solicitation which incorporates the clauses prescribed under § 14-1.1310-2 of this chapter contains a conspicuous notice of the requirements for submission of a minority business enterprise subcontracting plan and that an appropriate evaluation factor is included in requests for proposals which contain the clause prescribed under § 14-1.1310-2 (d) of this chapter. Insure that a thorough review is made of subcontracting plans submitted by bidders/offerors, in consultation with the Minority Business Enterprise Coordinator of the procuring activity.

(xi) Take full advantage of the services offered by the Small Business Administration's field procurement representatives, and the local Office of Minority Business Enterprise, Department of Commerce, in order to insure that ample procurement opportunities are provided to minority business enterprises.

(xii) Provide debriefings to unsuccessful minority business enterprises upon request. The debriefing should place special emphasis on the deficiencies of the proposal or bid so that the minority business enterprises will be able to enhance their future solicitation responses based on the knowledge gained.

(xiii) Whenever practicable attend and participate in local procurement conferences, seminars, and meetings on matters relating to minority business enterprises. Apprise such concerns of procurement opportunities and also obtain a working knowledge of their capabilities. Invite members of minority trade and professional organizations, the Small Business Administration, and the Office of Minority Business Enterprise, Department of Commerce, to speak at Department sponsored procurement conferences and to participate in minority procurement workshops, seminars, special forums, etc.

(xiv) By using optional form 61 (see § 1-16.902-OF-61 of this title) obtain data on subcontract awards to minority business enterprises from all prime contractors having contracts which contain the clauses prescribed under § 14-1.1310-2 of this chapter. Negative reports are also required.

(xv) Maintain data on contract and subcontract awards to minority business enterprises and make such data available to the procurement activity personnel responsible for submitting required reports (see § 14-1.1351 of this chapter).

(xvi) Exercise sound judgement and flexibility in determining percentage goals for minority business enterprise subcontractors by considering known circumstances and market conditions; e.g., cases where it is clearly known and established that an insufficient or inadequate number of minority business enterprises are available within a reasonable geographical area; document all facts and circumstances whenever flexibility is used to determine percentage goals that fall above or below the 20 percent goal established for construction subcontracting; apply sanctions of default, suspension, or debarment in cases where evidence shows a contractor's lack of best efforts to meet MBE requirements.

§ 14-1.1302-6 Minority business enterprise coordinators.

The head of each procuring activity shall appoint full time and part-time Minority Business Enterprise Coordinators (MBECs) within each procurement office in accordance with the provisions set forth in § 14-1.1302-5 (b)(4) of this chapter. Part-time MBEC positions shall be allocated a minimum of 50 percent of their time for performance of minority business functions. Persons designated as MBEC's shall take positive actions that will result in the maximum practicable achievement of the minority business enterprise program objectives. The duties and responsibilities of MBEC's shall include, but not be limited to the following:

(a) Participate in procurement planning and evaluation activities including the review of and written concurrence in advance procurement plans; establish and update annual minority business enterprise goals; and consult with the contracting officer in the evaluation of and written concurrence in all minority business enterprise subcontracting plans submitted by potential prime contractors.

(b) Review of each procurement package in excess of $2,500 received in the procurement office to determine the potential for award to the Small Business Administration in accordance with section 8(a) of the Small Business Act (15 U.S.C. 637(a)). Subsequent to each review, the MBEC shall advise the appropriate contracting officer in writing, of all recommendations citing rationale for same.

(c) Assist program and procurement personnel in the development of the technical proposal evaluation criteria to insure that such criteria and their assigned weighting factors are a realistic representation of the Government's actual needs for technical expertise and know-how. For example, if the experience of the key or principal individual(s) is significant to the successful performance of the procurement requirement, the MBEC shall insure that the evaluation factor for "Key Personnel" is given greater weight than the factor for company experience.

(d) Insure to the maximum extent practicable, that contract opportunities of all dollar values including small purchases (under $10,000) are made available to minority firms and that there be no arbitrary limitations on the types of goods and services to be procured from minority business enterprises.

(e) In concert and cooperation with the contracting officer, insure that performance bonding requirements in nonconstruction contracts are not arbitrarily and capriciously imposed and that when such requirements are needed, the amount required does not exceed that absolutely necessary to protect the best interest of the Government.

(f) Establish internal operating procedures which implement the requirements of the regulations as set forth in this chapter. Insure that the procuring activity is kept abreast of new and/or revised minority business enterprise regulations, policies, procedures, and other related information. Compile data and prepare all reports pertaining to minority business enterprise activities. Insure that minority business enterprise reports are accurate, complete, and up to date.

(g) Maintain all records and files necessary to demonstrate that maximum efforts have been taken to implement an aggressive, effective, and viable minority business enterprise program.

(h) Assist contracting personnel in the review of large complex procurements to explore the feasibility of the requirement being divided into reasonably small lots suitable for participation by minority business enterprises.

(i) Participate in debriefing sessions with unsuccessful minority business bidders and offerors; the debriefing should place special emphasis on the deficiencies of the proposal or bid so that the minority business enterprise will be able to enhance its future responses to solicitations based on the knowledge gained.

(j) Actively and aggressively seek out and contact minority business firms having actual or potential capabilities to fulfill procurement requirements. In this regard, MBEC's shall continuously coordinate with local and regional officials of the Office of Minority Business Enterprise (OMBE), Department of Commerce, and the Small Business Administration (SBA) to advise them at the earliest possible date of projected or potential requirements for which minority sources will be sought.

(k) Assist in the establishment and maintenance of current source lists of minority businesses. Insure that all minority firms seeking to do business with the Department's procuring activity are listed under all commodity and service classifications in which the firms have demonstrated capabilities.

(l) Advise and counsel minority business representatives on the various ways and means of enhancing their participation in Government procurement by: (i) Explaining bid and proposal submission requirements; (ii) serving as liaison person to insure that minority businesses are granted access to appropriate program and project personnel; and (iii) directing minority business concerns to SBA or OMBE for certification of 8(a) eligibility, financial assistance, management assistance, and any other business or technical assistance offered by such organizations and their funded components in the private sector.

(m) Provide minority business enterprises with a source list of firms solicited for any proposed procurements that contain any of the minority business enterprise subcontracting clauses specified in § 14-1.1310-2 of this chapter.

(n) Contact procuring activities of other Federal agencies which procure like or similar goods and services for the purpose of increasing and expanding the list of minority sources at the Department's procuring activity.

(o) Establish contact with local minority trade, business and professional associations and Indian tribal councils to apprise them of the Department's program needs and recurring procurement requirements. Obtain the names and addresses of the minority business enterprises which have an expressed interest in the Department's requirements.

(p) Actively participate in the programs and activities of the local Minority Business Opportunity Committees (MBOC).

(q) Periodically sponsor or participate in area or local procurement conferences, workshops or trade fairs in order to attract potential minority contractors and to apprise them of current and projected contracting opportunities. Such conferences, workshops, or trade fairs should normally be held in conjunction with other departmental activities, activities of other Federal agencies, or the activities of a responsible local SBA or OMBE funded organization.

(r) Invite members of minority trade, business and professional associations, MBOC chairpersons, OMBE and SBA representatives to speak at conferences, workshops, seminars and other similar type forums to increase program and personnel awareness of minority business enterprises and their capabilities.

(s) To the extent practicable and feasible, participate in all training opportunities related to the minority business enterprise program.

(t) Encourage the establishment of local, regional and national Minority Business Enterprise Steering Committees or Councils, for the purpose of exploring new ways of increasing MBE contract awards. The committees or councils should be comprised of the MBEC and the appropriate procurement and program management official responsible for the procurement placement of organizational resources and requirements. These groups should meet as often as necessary, preferably not less than quarterly, to review the organization's complete MBE program and its progress.

§ 14-1.1310 Subcontracting with minority business enterprises.

§ 14-1.1310-2 Required clauses.

(a) The clauses set forth in paragraphs (b), (c), and (d) of this § 14-1.1310-2 are prescribed for use in solicitations and contracts which may exceed the specified dollar thresholds and which contain the clause required by § 1-1.1310-2(a) of this title. These clauses are to be used in lieu of the clause set forth under § 1-1.1310-2(b) of this title.

(b) The minority business enterprise subcontracting program (Department of the Interior), clause set forth in this § 14-1.1310-2(b) shall be included in each formally advertised, nonconstruction solicitation and resulting contract which may exceed $250,000. At the discretion of the contracting officer, this clause may be used in formally advertised nonconstruction solicitations and contracts which do not exceed $250,000, when, in the opinion of the contracting officer, substantial subcontracting opportunities exist. When this clause is utilized, a detailed minority business enterprise subcontracting program plan shall be obtained from the low responsive, responsible bidder. The plan must include, as a minimum, a detailed description of the specific actions to be taken by the contractor in establishing and conducting a minority business enterprise subcontacting program including, but not limited to, designation of a liaison officer to administer the contractor's subcontracting program; description and estimated dollar amount of each specific subcontract to be awarded to a minority business enterprise, including firm commitments when obtainable; and the estimated number and dollar value of all subcontracts to be awarded under the contract. Bidders shall be advised of the requirment for submission of a detailed minority business enterprise subcontracting plan and the contents of the plan, by a conspicuous notice in the solicitation. The solicitation notice shall state that as a matter of establishing responsibility, a plan acceptable to the contracting officer shall be submitted by the otherwise successful bidder to the contracting officer, and that the plan will become a part of the contract at the time of award. Whenever the contracting officer can establish a percentage of anticipated subcontracting which can realistically be awarded to minority business enterprises based on historical or other data, he shall add the following sentence to paragraph (a) of the clause under this § 14-1.1310-2(b):

"It is Interior's intent that —— percent (——%) of the total value of all subcontracts resulting from this prime contract be awarded to minority business enterprises as defined in the clause of this contract entitled, 'utilization of minority business enterprises.'"

MINORITY BUSINESS ENTERPRISE SUBCONTRACTING PROGRAM—(DEPARTMENT OF THE INTERIOR)

(a) In keeping with national policy which is to stimulate and encourage the economic

development of minority business enterprises, it is the Interior's objective that an aggressive and vigorous procurement pro-

tracting officer of the names of such subcontractors. The contractor further agrees to inform potential subcontractors of the re-

MINORITY BUSINESS ENTERPRISES SUBCONTRACTING PROGRAM—CONSTRUCTION CONTRACT (DEPARTMENT OF THE INTERIOR)

(8) Cooperate with the contracting officer in any studies or surveys of the contractor's minority business enterprise procedures and practices that the contracting officer may

tect-engineer services. The plan must include, as a minimum, a detailed description of the specific actions to be taken by the potential contractor in

"vendor information system (VIS)" is a direct method of obtaining current, detailed listings of minority 8(a) and non-8(a) firms. Requests can be made

development of minority business enterprises, it is the Interior's objective that an aggressive and vigorous procurement program of actively seeking out and soliciting minority business enterprises be accomplished at the prime contractor and subcontractor levels to ensure their increased participation in this constructive effort. The contractor agrees to use every posssible means available to carry out this policy by making subcontract opportunities available to minority business enterprises to the fullest extent consistent with the efficient performance of this contract. For the purpose of this program, the term "subcontract" includes all construction, modifications, supplies and material and service work contracted for the prime contractor in the execution of the work. In this regard, contractors should take note that in subcontract awards to minority business suppliers only the commission earned by the minority supplier will be credited towards meeting the assigned percentage goal in minority business enterprise subcontracting dollars.

(b) The contractor further agrees to immediately implement a program for the employment of specific minority business enterprises in accordance with the minority business enterprise subcontracting program plan which has been submitted to and approved by the contracting officer. The contractor agrees to aggressively conduct the MBE subcontracting program through the full term of this contract. In pursuit of this effort, the contractor shall:

(1) Designate a liaison officer who will administer the contractor's minority business enterprise program.

(2) Develop, maintain, and utilize comprehensive listings of minority vendors.

(3) Provide adequate and timely consideration of the potentialities of known minority business enterprises in all "make-or-buy" decisions.

(4) Ensure that known minority business enterprises will have an equitable opportunity to compete for subcontracts, namely by arranging (i) solicitations, (ii) time for the preparation of bids, (iii) quantities, (iv) specifications, and (v) delivery schedules so as to facilitate the participation of minority business enterprises.

(5) Maintain records showing (i) procedures which have been adopted to comply with the policies set forth in this clause including the establishment of a source list of minority business enterprises, (ii) awards to minority business enterprises on the source list, and (iii) specific efforts to identify and award contracts to minority business enterprises.

(b) Submit quarterly reports to the contracting officer summarizing the records referred to in subparagraph (4) above.

(7) Submit quarterly optional form 61 reports to the contracting officer.

(8) Cooperate with the contracting officer in any studies and surveys of the contractor's minority business enterprise procedures and practices that the contracting officer may from time to time conduct.

(c) The contractor further agrees to insert, in any subcontract hereunder which may exceed $250,000 the "utilization of minority business enterprises" clause and the "minority business enterprise subcontracting program" clause, including this paragraph (9); to require such subcontractors to submit to this contractor a summary plan of proposed further subcontracting to minority business enterprises, and to notify the contracting officer of the names of such subcontractors. The contractor further agrees to inform potential subcontractors of the requirements of this clause and that the minority status of potential subcontractors will be a key factor in the contractor's selection of subcontractors. If the contractor refuses or fails to carry out his obligations under this clause, such refusal or failure shall be considered to be a basis for default in accordance with the default clause of this contract.

(c) The minority business enterprise subcontracting program—construction contracts (Department of the Interior) clause set forth in this, § 14-1.1310-2(c) shall be included in each formally advertised construction contract which may exceed $250,000. At the discretion of the contracting officer, this clause may also be used in formally advertised construction contracts which do not exceed $250,000, when in the opinion of the contracting officer, substantial subcontracting opportunities exist. When this clause is utilized, the contracting officer is required to determine a percentage goal of the total dollar value of all subcontracts to be awarded to minority business enterprises. The percentage goal to be inserted in the following clause should normally be 20 percent or higher. In establishing the percentage goal, the contracting officer may exercise flexibility to the extent provided in the provisions set forth in § 14-1.1302-5(b)(5)(xvi) of this chapter. However, at the time the solicitation is issued, the contracting officer shall make every effort to ensure that the percentage goal represents an amount which will significantly increase subcontract awards to minority business enterprises beyond the level which could normally be anticipated to accrue to such firms. When this clause is utilized, a detailed minority business enterprise subcontracting program plan shall be obtained from the bidder selected to receive award. The plan must include, as a minimum, a description of the specific actions to be taken by the contractor in establishing and conducting a minority business enterprise program including, but not limited to, designation of a liaison officer to administer the contractor's subcontracting program; description and estimated amount of each specific subcontract to be awarded to a minority business enterprise, including commitments when obtainable; percentage of total estimated subcontract dollars, to be awarded to minority business enterprises; and estimated dollar value of all subcontracts to be awarded under the contract. In this regard, contractors should take note that in subcontract awards to minority business suppliers only the commission earned by the minority supplier will be credited towards meeting the assigned percentage goal in minority business enterprise subcontracting dollars. Bidders shall be advised of the requirement for submission of a detailed minority business enterprise subcontracting program plan and the contents of the plan by a conspicuous notice in the solicitation, preferably on the cover page. The solicitation notice shall state, that as a matter of responsibility, a plan acceptable to the contracting officer shall be submitted by the otherwise successful bidder to the contracting officer, and that the plan will become a part of the contract at the time of award.

MINORITY BUSINESS ENTERPRISES SUBCONTRACTING PROGRAM—CONSTRUCTION CONTRACT (DEPARTMENT OF THE INTERIOR)

(a) In keeping with national policy, which is to stimulate and encourage the economic development of minority business enterprises, it is Interior's objective that an aggressive and vigorous procurement program of actively seeking out and soliciting minority business enterprises be accomplished at the prime contractor and subcontractor levels to ensure their increased participation in this constructive effort. It is Interior's intent that —— percent (——%) of the total value of all subcontracts resulting from this prime contract shall be awarded to minority business enterprises as defined in the clause of this contract entitled "utilization of minority business enterprises." The contractor agrees to use every possible means available to carry out this policy by making subcontract opportunities available to minority business enterprises to the fullest extent consistent with the efficient performance of this contract. For the purpose of this program, the term "subcontract" includes all construction, modifications, supplies and material and service work contracted for by the prime contractor in the execution of the work. In this regard, contractors should take note that in subcontract awards to minority business suppliers only the commission earned by the minority supplier will be credited towards meeting the assigned percentage goal in minority business enterprise subcontracting dollars.

(b) The contractor does hereby agree to immediately implement a program for the employment of specific minority enterprises in accordance with the minority business enterprise subcontracting program plan which has been submitted to and approved by the contracting officer. The contractor further agrees to implement and aggressively conduct such a program during the full course of work under this contract. In this connection the contractor shall:

(1) Designate a liaison officer who will administer the contractor's minority business enterprise subcontract program.

(2) Develop, maintain and utilize comprehensive listings of minority businesses.

(3) Provide adequate and timely consideration of the potentialities of known minority business enterprises in all "make-or-buy" decisions, with timely notice to the contracting officer prior to entering into any subcontract of $50,000 or more, of the extent to which minority firms have been considered for the award.

(4) Insure that known minority business enterprises will have an equitable opportunity to compete for subcontracts, namely by arranging the (i) solicitation, (ii) time for the preparation of bids, (iii) quantities, (iv) specifications, and (v) delivery schedules so as to facilitate the participation of minority business enterprises.

(5) Maintain records showing (i) procedures which have been adopted to comply with the policies set forth in this clause, including the establishment of a source list of minority business enterprises, (ii) awards to minority business enterprises, on the source list, and (iii) specific efforts to identify and award contracts to minority business enterprises.

(6) Submit quarterly reports to the contracting officer, summarizing the record referred to in subparagraph (5) above.

(7) Submit quarterly optional form 61 reports to the contracting officer.

(8) Cooperate with the contracting officer in any studies or surveys of the contractor's minority business enterprise procedures and practices that the contracting officer may wish to conduct.

(c) The contractor further agrees to insert in any subcontract hereunder which may exceed $250,000, the "utilization of minority business enterprises" clause and the "minority business enterprises subcontracting program, construction contracts" clause including the paragraph (b); to require such subcontractors to submit to the contractor a summary plan of proposed further subcontracting to minority business enterprises, and to notify the contracting officer of the names of such subcontractors. The contractor further agrees to inform potential subcontractors of the requirements of this clause and that the minority status of potential subcontractors will be a key factor in the contractor's selection of subcontractors. If the contractor refuses or fails to carry out his obligation under this clause, such refusal or failure shall be considered to be a basis for default in accordance with the default clause of this contract.

(d) The minority business enterprise subcontracting program (Department of the Interior) clause set forth in § 14-1.1310-2(b) of this chapter shall be included in each negotiated solicitation and resultant contract for architect-engineer services, which may exceed $100,000 and in all other negotiated solicitations and resulting nonconstruction contracts which may exceed $250,000.

(1) When in the opinion of the contracting officer, substantial subcontracting opportunities exist, this clause may also be used in negotiated solicitation and contracts for architect-engineer services which may not exceed $100,000 and for any other negotiated solicitations and resulting nonconstruction contracts which may not exceed $250,000.

(2) When this clause is used, the contracting officer may determine a percentage goal of the total dollar value of all subcontracts to be awarded to minority business enterprises. In establishing the percentage goal, the contracting officer may exercise flexibility as provided in § 14-1.1302-5(b)(5)(xvi) of this chapter. The percentage goal used should reflect known circumstances and market conditions and must represent an amount which will significantly increase subcontract awards to minority business enterprises beyond the level which could normally be anticipated to accrue to such firms.

(3) When this clause is utilized, a detailed minority business enterprise subcontracting program plan shall be submitted by each offeror with its competitive or noncompetitive proposal. A factor for evaluating the adequacy of the subcontracting plan shall be included as a separate evaluation criterion and included in competitive requests for proposals and in the Commerce Business Daily notices for architect-engineer services. The plan must include, as a minimum, a detailed description of the specific actions to be taken by the potential contractor in establishing and conducting a minority business enterprise subcontracting program including, but not limited to, designation of a liaison officer to administer the subcontracting program; description and estimated dollar amount of each specific subcontract to be awarded to a minority business enterprise, including firm commitments when obtainable; and the estimated number and dollar value of all subcontracts to be awarded under the potential contract. Offerors shall be advised of the requirement for submission of a detailed minority business enterprise subcontracting plan with the proposal, the contents of the plan, and the method by which the plan will be evaluated in terms of an evaluation criterion by a conspicuous notice in the solicitation, on or near the cover page.

§ 14-1.1350 Minority vendor sources.

The head of each procurement activity shall insure the availability of or access to all possible sources of minority vendors, both locally and nationally. Until a Department of Interior automated minority data bank is operational, procuring activities are encouraged to make maximum use of the following sources in addition to any other listings at their disposal.

(a) The SBA publication "firms in the 8(a) business development program" should be used as an aid in locating eligible 8(a) firms. This publication is a nationwide listing, by State, and can be ordered from:

Small Business Administration, Office of Reports, Room 503, 1441 L Street NW., Washington, D.C. 20416.

(b) The SBA query system "minority vendors program (MVP)" is a direct method of obtaining current and more detailed data concerning eligible 8(a) firms. Requests for minority vendor lists under the MVP shall be made on SBA form 1024, in accordance with instructions on the reverse side of the form. Requests must identify goods or services by standard industrial classification (SIC) codes and telephone area codes for the regions in which desired firms must be located. If the location of the firm is not significant, a national search may be requested. MVP requests may be mailed or telecopied to the SBA in Washington, D.C. Forms and detailed instructions can be obtained from local SBA offices or by writing to the Branch of Minority Procurement, Division of Procurement and Grants, Office of Administrative and Management Policy, U.S. Department of the Interior, Washington, D.C. 20240.

(c) The National Minority Purchasing Council (NMPC) query system, "vendor information system (VIS)" is a direct method of obtaining current, detailed listings of minority 8(a) and non-8(a) firms. Requests can be made either by telephone or by completing and mailing the NMPC VIS Processing Form, which can be ordered from the NMPC at the address below:

(1) Telephone requests must include the desired VIS capability code(s) and, for regional requests, the VIS geographic regions. Calls should be made to the NMPC, area code 202-466-7077.

(2) Written requests must include the same information as in paragraph (c)(1) of this section on the VIS form, and should be mailed to the NMPC, Inc., 1925 K Street NW., Suite 206, Washington, D.C. 20006.

§ 14-1.1351 Reports.

(a) The head of each procuring activity shall submit to the Office of Administrative and Management Policy a report on the goals established for minority business enterprise contract and subcontract awards within the procuring activity during the fiscal year, no later than thirty (30) days prior to the beginning of each new fiscal year (see § 14-1.1302-5(b) of this chapter). The report shall be submitted on the Department of Commerce minority business enterprise program data form, MBE-91, sections 1, 2, and 3. The Office of Administrative and Management Policy will consolidate the goal reports of each procuring activity and submit a departmental goal report to the Office of Minority Business Enterprise, Department of Commerce.

(b) The head of each procuring activity shall submit to the Office of Administrative and Management Policy a quarterly progress report on the actual contract and subcontract awards made to minority business enterprise during the preceding quarter no later than thirty (30) days after the end of the fiscal year quarter. The progress report shall be submitted on the Department of Commerce minority business enterprise program data form, MBE-91, sections 1, 2, and 3. The numbers and amounts of awards shall be reported on a noncumulative basis for the preceding quarter and the following additional information shall also be submitted:

(1) For each contract awarded to the Small Business Administration (SBA) under section 8(a) of the Small Business Act (see § 1-1.713 of this title), list the name of the 8(a) contractor, the date requirement was offered to SBA, the dollar amount of the contract, the date of contract award, SBA office, a brief description of work under the contract, and the performance of the 8(a) contractor to date (satisfactory/unsatisfactory).

(2) For each precurement requirement offered to SBA under section 8(a) of the Small Business Act and re-

PART 36—INDIAN HEALTH

Subpart C—Contract Health Services

identifier in lieu of the call sign assigned by the Commission.

2. Our rules do not clearly permit use of the FAA identifier in lieu of the

proposed rules

(2) For each precurement requirement offered to SBA under section 8(a) of the Small Business Act and rejected by SBA, list the description of the work required under the procurement, the date the requirement was offered to SBA, the estimated dollar amount of the requirement, location of SBA office, and name of representative (if known), date of the SBA rejection, and reason(s) given by SBA for the rejection.

(3) For each contract awarded to a minority business enterprise, excluding section 8(a) contracts with SBA, list the name of the contractor, a description of the work under the contract, the dollar amount of the contract and the date of contract award.

(4) For contracts awarded which contain the clause prescribed by §§ 14-1.1310-2(b), 14-1.1310-2(c) or 14-1.1310-2(d) of this chapter submit an optional form 61 (see § 1-16.902-OF-61 of this title) report which summarizes the number and dollar amounts of subcontract awards made to minority business enterprises. The head of each procuring activity shall insure that an ample supply of the optional form 61 is on hand at each procurement office and that they are made available to contractors for their completion and quarterly submission to the contracting officer as required.

(5) In the event a procuring activity fails to meet its established goals, an explanation shall be provided on the last quarterly report for the fiscal year including specific recommendations for meeting future MBE goals.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 87—AVIATION SERVICES

Editorial Order Concerning Station Identification

AGENCY: Federal Communications Commission.

ACTION: Rule amendment.

SUMMARY: Amendment of FCC rules to permit station identification by a Federal Aviation Administration "identifier". The permissibility of the use of the FAA "identifier" in lieu of the FCC call sign is not clear in the rules. This action clarifies the rules to indicate that this practice is permissible.

EFFECTIVE DATE: September 22, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Kemp J. Beaty, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION:

Adopted: September 7, 1978.

Released: September 11, 1978.

1. Radionavigation land stations in the aviation services are assigned a three letter "identifier" by the Federal Aviation Administration. These stations are normally identified by this identifier in lieu of the call sign assigned by the Commission.

2. Our rules do not clearly permit use of the FAA identifier in lieu of the station's call sign. We are therefore amending § 87.115(g) of our rules to permit station identification by the FAA "identifier".

3. Regarding questions on matters covered in this document contact Kemp J. Beaty, telephone, 202-632-7197.

4. Authority for this amendment is contained in section 4(i), and 303 (c) and (r) of the Communications Act of 1934, as amended, and section 0.231(d) of the Commission's rules. Since the amendment is editorial in nature the public notice, procedure and effective date provisions of 5 U.S.C. 553 do not apply.

5. In view of the above, *it is ordered*, That the rule amendment set forth in the attached appendix is adopted effective September 22, 1978.

FEDERAL COMMUNICATIONS COMMISSION,

R. D. LICHTWARDT,
Executive Director.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is amended to read as follows:

In § 87.115 paragraph (g) is amended to read as follows:

§ 87.115 Station Identification.

* * * * * *

(g) A land station in the aviation services may use radio station call letters, its location, its assigned FAA identifier, or the name of the city, area, or airdrome which it serves together with such additional identification as may be required. An aeronautical enroute station which is a part of multistation network may also be identified by the location of its control points.

* * * * * *

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

RURAL ELECTRIC PROGRAM

Proposed Revision of REA Bulletin 181-1, Uniform System of Accounts Prescribed for Electric Borrowers of the Rural Electrification Administration

AGENCY: Rural Electrification Administration, USDA.

ACTION: Proposed rule.

SUMMARY: This action concerns the revision of REA Bulletin 181-1 to include additional electric plant instructions for REA borrowers regarding the accounting for item (19) "training costs", of Electric Plant Instruction 3, Components of Construction Cost. It is intended to clarify the circumstances under which such costs may be capitalized, as is mentioned in the Letter of Transmittal of the January 1, 1978, Uniform System of Accounts, and to provide specific accounting instructions.

DATE: Public comments must be received by REA no later than November 14, 1978.

ADDRESS: Submit written comments to the Director, Accounting and Auditing Division, Rural Electrification Administration, Room 4307, South Building, U.S. Department of Agriculture, Washington, D.C. 20250; submissions are available for public inspection at the above address during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Sheldon Chazin, Director, Accounting and Auditing Division, Rural Electrification Administration, Room 4307, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-7221.

Notice is hereby given that pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.) REA proposes to revise REA Bulletin 181-1, Uniform System of Accounts, to include the following:

ELECTRIC PLANT INSTRUCTION

Additional electric plant instructions for REA borrowers:

3. Components of Construction Cost.

(19) "Training Costs."

(a) Training costs may be capitalized only with the prior written approval of REA. Only the costs of training employees to operate or maintain new type production plant facilities that are being constructed and which are not conventional in nature, or are new to the company's operations, will be approved for capitalization.

(b) Training costs approved for capitalization shall be classified to an appropriately titled subaccount of Account 303, Miscellaneous Intangible Plant, and amortized to Account 405, Amortization of Other Electric Plant. The credit shall be to Account 111, Accumulated Provision for Amortization of Electric Utility Plant. The amortization should be over the estimated remaining service lives of the employees for whom the training is provided or on some other reasonable basis related to the period of expected benefit.

(c) Once plant is placed in service, the capitalization of training costs shall cease and subsequent training costs shall be expenses. (See Operating Expense Instruction 4.)

Dated: September 6, 1978.

DAVID A. HAMIL,
Administrator.

Farmers Home Administration

[7 CFR Parts 1822 and 1944]

RURAL HOUSING LOANS AND GRANTS AND RURAL HOUSING SITE LOANS

Proposed Revision—Redesignation

AGENCY: Farmers Home Administration, USDA.

ACTION: Proposed rule.

SUMMARY: The Farmers Home Administration (FmHA) proposes as part of a general restructuring and revision-redesignation of rural housing regulations, the revision to update and clarify the present rural housing site (RHS) loan regulations. This proposal action will provide the public and FmHA with a more workable RHS loan program. This action is being taken because of comments reviewed on a previous proposal and because of an administrative decision.

DATE: Comments must be received on or before October 16, 1978.

ADDRESS: Submit written comments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, D.C. 20250. All written comments made pursuant to this notice will be available for public inspection at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Conn, 202-447-7207.

SUPPLEMENTARY INFORMATION: The Farmers Home Administration (FmHA) has under consideration the transfer-redesignation under Chapter XVIII, Title 7, Code of Federal Regulations, Subchapter B, "Loans and Grants Primarily for Real Estate Purposes," of Part 1822, "Rural Housing Loans and Grants," Subpart G, to Subchapter L, Loan and Grant Making, Part 1944, Rural Housing Loans and Grants, Subpart G (§§ 1944.301-1944.350). Former subpart G of part 1822 (35 FR 16087) of this chapter published as a proposed rule at 38 FR 12815, dated May 16, 1973, is transferred and redesignated as Subpart G, "Rural Housing Site Loan Policies, Procedures and Authorizations," of this new part 1944. Basically, the present proposal supplements the May 16, 1973, proposal by the addition of a loan resolution, information on subordination, preapplication and application, presented as Exhibits A through D, incorporate comments received from the prior proposal, and is again being published for comment. The purpose of the proposed rule is to strengthen and clarify the rural housing site loan program.

It is proposed that 7 CFR be amended as follows:

PART 1822—RURAL HOUSING LOANS AND GRANTS

§§ 1822.261—1822.278 (Subpart G)—[Redesignated]

1. In Subchapter B, Loans and Grants Primarily for Real Estate Purposes, Part 1822, Rural Housing Loans and Grants, Subpart G (1822.261-1822.278) is transferred and redesignated as subpart G of Subchapter L, Loan and Grant Making of Part 1944, Rural Housing Loans and Grants.

2. As proposed, new part 1944, subpart G, as revised and redesignated reads as follows:

V 43 / 180 / SEP 15 78

SUBCHAPTER L—LOAN AND GRANT MAKING

PART 1944—RURAL HOUSING LOANS AND GRANTS

Subpart G—Rural Housing Site Loan Policies, Procedures and Authorizations

Subpart G—Rural Housing Site Loan Policies, Procedures, and Authorizations

§ 1944.301 General.

This subpart sets forth the policies and procedures and delegates authority for making rural housing site (RHS) loans under sections 523 and 524 of the Housing Act of 1949 as amended. Section 523 loans are direct loans for the purchase and development of building sites for housing to be build by the self-help method, they have additional requirements which are contained in § 1944.319.

§ 1944.302 Objective.

The basic objective of RHS loans is to assist public or private nonprofit organization in the acquisition and development of land for single and multiple family building sites in rural areas. This land will be subdivided into adequate building sites and sold on a nonprofit basis.

§ 1944.303 Definitions.

As used in this subpart.

(a) *Private nonprofit organization.* A corporation which is organized and operated for purposes other than making gains or profits for the corporation or its members; is legally precluded from distributing to its members any gains or profits during its existence, in the event of its dissolution, is legally bound to transfer its net assets to a nonprofit corporation of a similar type or to a municipal corporation which will agree to continue with the objectives of the loan for the remaining period, and at least 51 percent of the outstanding interest in the organization must be owned and controlled by individuals as defined in paragraph C of this section.

(b) *Public nonprofit organization.* A nonprofit corporation other than a private nonprofit corporation, including a municipal corporation or other corporate agency of a State or local government.

(c) *Individual.* A natural person who is a citizen of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, the territories and possessions of the United States, or who resides in one of the foregoing areas after being admitted for permanent residence.

(d) *Rural areas.* Open country or rural places as defined in § 1822.3 (c) of this chapter.

(e) *Development cost.* The cost of purchasing land and developing it into adequate sites including engineering and legal fees, streets, roads, utilities, minimum essential administrative costs, and necessary equipment.

(f) *Section 523 RHS loan.* A loan to an organization which will provide sites for housing to be built by the self-help method.

(g) *Section 524 RHS loan.* A loan to an organization which will provide sites for housing with no limitation as to the method of construction that will be used.

(h) *Office of the General Counsel (OGC).* The regional attorney or the attorney in charge who provides legal services to the Farmers Home Administration (FmHA) for the State in which the RHS project is located.

(i) *Conditional commitment.* The term is defined in § 1822.303 of this chapter.

§ 1944.304 Eligibility requirements.

(a) To be eligible for an RHS loan, the applicant must be a private or public nonprofit organization as defined in § 1944.303 (a) or (b) which is authorized to develop and sell sites for housing.

(b) In the case of a private nonprofit organization.

(1) If operating in one community and its trade area, meet the following additional requirements:

(i) Each member must be limited to one vote in the affairs of the organization.

(ii) A majority of the members must reside in the community or the trade area where the housing will be located.

(iii) The board of directors must number not less than five.

(iv) The directors must be members of the organization.

(v) Not less than five of the directors must be recognized as leaders in civic, governmental, fraternal, religious, and other community organizations of the community where the housing will be located.

(vi) The organization membership should represent a variety of interests in the community.

(vii) If a new organization, plan to adopt articles of incorporation and bylaws substantially conforming to the model articles and bylaws set forth in the appropriate FmHA State instructions.

(2) If operating in more than one community or on a county or regional basis and providing or planning to develop and sell housing sites in more than one community, meet the following requirements in addition to those in § 1944.304(b)(1) above with the exception of item (ii):

(i) The membership base should be representative of the area being served with at least five members representing a variety of interests from each community where the development and housing sites will be located. Each member must be limited to one vote in the affairs of the organization.

(ii) The board of directors should be representative of each community or trade area where the sites are to be located.

(iii) The total number of directors should not be less than five and the directors must be members of the organization.

(iv) The organization's articles of incorporation and bylaws must include the requirements outlined in paragraphs (b)(2) (i) and (ii) of this section.

§ 1944.305 Authorized representative of applicant.

The FmHA will deal only with the applicant or a bona fide representative of the applicant and the representative's technical advisers. An authorized representative of a nonprofit applicant must have no pecuniary interest in the award of the architectural or construction contracts, the purchase of equipment, or the purchase of the land for the housing site.

§ 1944.306 Loan purposes.

RHS loans may be made to qualified applicants for:

(a) The purchase of land to be used for housing sites. Loan funds may be used in the acquisition of land in excess of that needed for the number of sites to be developed only when this excess land is not suitable for sites and the transaction cannot be consummated without its inclusion.

(b) The development of sites, including the construction of essential access roads, streets, utility lines, and necessary equipment which will become a permanent part of the development. If public water and waste disposal facilities are not available and cannot reasonably be provided on a community basis with other financing, including FmHA water and waste disposal loans, funds may be included for this purpose. If any such facilities are located off the site, the following requirements must be met.

(1) The applicant will hold the title to the facility or have a legally assured right to use of the facility for at least the life of the loan and such title or right can be transferred to any subsequent owner of the site.

(2) The facilities are provided for the exclusive use of the project or funds are limited to the prorated part of the total cost of the facility according to the use and benefit to the project. The applicant will agree in writing to the application as extra payments on the loan of any subsequent collection by the borrower from other users or beneficiaries of the facility.

(3) Adequate security can be obtained with or without a mortgage based on the offsite facilities.

(c) The payment of necessary enginnering fees, legal fees, and closing costs. When RHS funds are to be used for such pruposes, the loan approval official shall determine that the amounts to be paid are reasonable and typical in the area for the services to be performed.

(d) The payment of actual cash cost of incidental administrative expenses such as postage, telephone, advertising, temporary secretarial help and travel expenses, if funds to pay these expenses are not otherwise available. The estimated cost of these items should be identified and shown in a budget. If a loan is made for this purpose, detailed operating budgets for the first year's operation and a typical year's operation will be prepared showing that the applicant has sufficient operating capital on hand or sufficient planned income to pay all other costs and meet payments on debts during the planning and development period prior to the sale of the sites. Exhibit F-5 of subpart D of this chapter of Part 1822 or a smiliar form may be used for this purpose.

(e) To provide other necessary facilities related to the housing such as parking and recreational areas, and landscaping including plantings, seeding, sodding, and driveways.

(f) When legally required by proper local, county, or State governmental bodies as a condition for subdivision approval, RHS loan funds may be used to provide common areas, playgrounds, and tot lots provided such facilities are dedicated to, and maintained by, a public body.

§ 1944.307 Limitations.

(a) *Loan limits.* The amount of the RHS loan or loans on each project at any time will be limited to a maximum amount of $500,000 unless the prior approval of the National Office is obtained in advance to develop an application for a larger loan.

(1) No loan will exceed the lesser of the development cost as defined in § 1944.303(e) or the security value of the property as improved with the loan.

(2) Prior consent of the National Office is required before loan approval when two or more applicant organizations have the same persons holding a majority of the membership interests or constitute a majority of the directors.

(b) *Limitations on use of loan funds.* Loans will not be made for:

(1) Development of sites or the purchase of land in excess of the immediate and identified needs in the locality.

(2) Purchase of land from a member of an applicant-organization, or from another organization in which any member of the applicant-organization has an interest, without prior written consent of the State director. Before granting such consent, the State director will determine that the site is at least as desirable in terms of location and physical layout as any other available sites and that the sales price represents the present market value of the property.

(3) Refinancing of debts, except:

(i) As authorized in paragraph (e) of this section.

(ii) When an applicant already owns land on which a lien has existed for more than 5 years before the date of the application, a subordination or release cannot be obtained, and the applicant does not have the financial resources necessary to obtain a release of the existing lien(s). In this situation, loan funds may be used to obtain a release of the land to be developed. The amount of funds used for such purposes shall be limited to the amount necessary to obtain the release and, in any case, shall not exceed the "as is" value of the land as determined in accordance with FmHA Instruction 422.3, which is available in any FmHA office.

(4) Payment of any fee, salary, commission, profit, or compensation to an applicant, or to any officer, director, trustee, stockholder, member, or agent of an applicant except as provided in § 1944.306(c). Contracts or agreement for services, to be provided by these persons and to be paid for with loan funds, should not be executed by the applicant without prior approval of the State Director.

(5) Payment of any fee, charge, or commission to any broker, negotiator, or other person for the referral of a prospective applicant or solicitation of a loan.

(c) *Sale of developed sites.* Developed sites will be sold as follows:

(1) Sites developed with section 523 loan funds must be sold only to families with low or moderate incomes who are eligible for and will receive a section 502 rural housing (RH) loan or a loan from any other source to build a house on the site by the mutual self-help method.

(2) Sites developed with a section 524 loan must be for housing low- and moderate-income families as defined in exhibits C and D of subpart A of part 1822 of this chapter, and may be sold to families, nonprofit organizations, public agencies, and cooperatives eligible for assistance under any section of title V of the Housing Act of 1949, or under any other law which provides financial assistance for housing low- and moderate-income families meeting the definitions as stated in this paragraph.

(3) When an RHS borrower is eligible for and receives an RRH loan, such loan may be made to include funds to pay off the pro rata amount of the RHS loan. The sale requirement of this regulation shall be considered met when the RHS applicant receives the RRH loan.

(d) *Suitability of sites.* Sites must meet the local requirements of the planned use of land in the area. Building sites must be well located and designed to provide a desirable living environment. Generally, a loan will not be made for the development of less than 10 units, but they need not be contiguous.

(e) *Obligations incurred before loan closing.* When an applicant files an application for a loan, the county supervisor will advise the applicant not to start construction or incur any indebtedness until the loan is closed. If, nevertheless, the applicant incurs debts for work, materials, land purchase, or other authorized fees and charges before the loan is closed, the State director may authorize the use of loan funds to pay such debts when he finds that all the following conditions exist:

(1) The debts were incurred after the applicant filed a written application for a loan with FmHA, or the

(g) *Compliance with the Interstate Land Sales Full Disclosure Act.* The State director will be responsible for

opment. When projects exceed 10 building sites the provisions of subpart H of part 1901 of this chapter will be

met and a conditional commitment issued prior to the start of construction of the home.

(iii) Other persons for use as residential housing, and

(iv) On the open market.

(b) *Title clearance and legal services.* The complete loan docket for all RHS loans will be sent to OGC for closing

(1) The debts were incurred after the applicant filed a written application for a loan with FmHA, or the debts were incurred prior to the date of application as part of a predevelopment loan specifically intended as temporary financing from a public agency or nonprofit organization and National Office concurrence is obtained.

(2) The applicant is unable to pay such debts from his own resources or to obtain credit from other sources and failure to authorize the use of loan funds to pay such debts would impair the applicant's financial position.

(3) The debts were incurred for authorized loan purposes.

(4) Contracts, materials, construction, and any land purchased meet FmHA standards and requirements.

(5) Payment of the debts will remove any liens which have attached, and any basis for liens that may attach, to the property, on account of such debts or such work, materials or land purchase.

§ 1944.308 Special conditions.

(a) *Evidence of need.* Loans will be made on the basis of the applicant providing firm market data that the number of sites to be developed are needed in the locality and can be sold within the repayment period of the loan.

(b) *Nondiscrimination.* The borrower will be required to agree not to discriminate or permit discrimination in accordance with item 3 of exhibit A of this subpart.

(c) *Supervisory assistance.* Supervision will be provided borrowers to the extent necessary to achieve the objectives of the loan and to protect the interests of the Government. County supervisors will counsel applicants in selecting locations that will provide essential services and facilities and result in the development of desirable communities.

(d) *Loan resolution.* A loan resolution will be adopted by the applicant's board of directors or governing body. Exhibit A of this subpart should be used when applicable. If changes are needed they should be made only after obtaining the advice of OGC.

(e) *Development policies.* Development will be planned and performed in accordance with subpart A and D of part 1804 of this chapter. Sites to be developed should be located in residential areas as part of established communities where other essential facilities and services such as schools, shopping and medical services are readily available.

(f) *Water and waste disposal facilities.* Water and waste disposal systems will be utilized in accordance with § 1804.66 of this chapter.

(g) *Compliance with the Interstate Land Sales Full Disclosure Act.* The State director will be responsible for determining that the applicant has or will comply with the provisions of this Act before the loan is approved.

(1) The Interstate Land Sales Full Disclosure Act (15 U.S.C. 1701 et seq.) is applicable to RHS loans if 50 or more lots are to be developed in the subdivision. Under the provisions of the Act, it is unlawful for any developer to make use of any intruments or transportation or communication in interstate commerce, or of the mails, to sell or lease any lot in any subdivision unless the land is registered with and a printed property report is furnished to the purchaser or leasee in advance of the signing of an agreement for sale or lease.

(2) There are certain exemptions to this general requirement. It is possible that sites or subdivisions developed under this subpart, which contain 50 or more lots, will qualify for the limited offering exemption set forth in 38 FR 23877, (1973). Such a determination can only be made by HUD. If the applicant believes the property is eligible for this exemption, it must file a partial statement of record requesting such exemption, pay the required fee and submit a comprehensive statement to HUD. If the applicant qualifies for the exemption, HUD may issue an exemption order limited to the facts, affirmations and representations contained in the request for exemption.

(3) The developer will file his request with the HUD office having jurisdiction over the area where the site is located. The applicant will furnish FmHA copies of the request submitted to HUD and a copy of HUD's reply. This information should be submitted with the application.

(h) *Preservation of prime agricultural lands.* Location of projects shall be in compliance with the Secretary of Agriculture's memorandum No. 1827 concerning preservation of prime agricultural lands. Applications which would irrevocably commit prime agricultural lands to nonagricultural uses may be approved only with the prior consent of the National Office. Applications involving prime agricultural land should be considered favorably only when there are no suitable alternative sites and only when there is an apparent overriding public need. Submittals to the National Office shall fully document the lack of suitable alternative sites and the overriding public need.

(i) *Implementation of Office of Management and Budget (OMB) Circular A-95 concerning formulation, evaluation, and review of Federal programs and projects having significant impact on area and community development.* When projects exceed 10 building sites the provisions of subpart H of part 1901 of this chapter will be applicable.

(j) *Guidelines for preparing environmental assessment and environmental impact statements.* See the provisions of subpart G of part 1901 of this chapter.

(k) *FmHA affirmative action.* An affirmative fair housing marketing plan will be submitted in accordance with §1901.203(c) of this chapter.

(l) *Disposal of excess land.* Excess land acquired with RHS funds as part of the total land package, or discovered after loan closing to be unsuitable for development, may be sold by the borrower provided:

(1) Funds received from the sale are paid on the FmHa loan account.

(2) The land sold and any development on this land is not financed by FmHA.

(3) The State director approves the sale in accordance with § 1861.43(a)(6) of this chapter. The partial release will be executed in accordance with § 1872.4 of this chapter.

(m) *Use of excess land for recreation purposes.* Open space for recreation may not be developed unless the land is unsuitable for adequate sites or required in accordance with § 1944.306(f) of this section. Recreation areas should however, be planned only if an acceptable method of ownership and management is possible. The following methods, with OGC guidance, may be used to accomplish this.

(1) The recreation area could be dedicated to a government body which would assume ownership and provide maintenance of the areas as a public park.

(2) A homeowners association comprised of all owners of the property in the development could be formed as a nonprofit association to retain ownership of the recreational property and provide maintenance.

(3) A trust agreement between a banking institution and the homeowners association may be utilized. The agreement should specify that the management of the recreation area will be the responsibility of the selected institution.

(4) Recreation land may be dedicated to a special taxing district created to provide ownership and maintenance of the property.

(n) *Conditional commitments for construction of homes on developed sites.* Conditional commitments may be issued on sites developed with an RHS section 524 loan to permit homes to be constructed on those sites prior to the sale of the site to an eligible purchaser in accordance with the following:

(1) The requirements of subpart H of part 1822 of this chapter must be met and a conditional commitment issued prior to the start of construction of the home.

(2) The conditional commitment must be issued to an RHS loan borrower who can legally provide the proposed housing and has the experience and training in construction to assure that the housing will be built or the conditional commitment must be issued jointly to the RHS loan borrower and a builder who has the legal capacity, training and experience necessary to construct the housing. In all cases the following language will be added under "other conditions" on Form FmHA 444-11, "Conditional Commitment":

Notwithstanding the other provisions of this commitment the sale of completed homes on sites developed with section 524 rural housing site loans will be limited to families eligible for assistance under any section of title V of the housing Act of 1974 or under any other law which provides financial assistance for housing low-and moderate-income families as defined in exhibits C and D of subpart A of part 1822 of 7 CFR. Prior to the sale of any home not to be financed through FmHA a request for approval shall be submitted to the local FmHA office which will include a verification of the purchasers income and source of the other credit to be used. Development of this site was on a nonprofit basis. Thus, this site is being sold for $[*price to be determined as provided for in § 1944.316 (b)*].

(3) In arriving at the commitment price for the site and the completed home, the value will be based on the present market value of the house only, plus the nonprofit selling price of the lot.

(4) If in order to obtain interim financing for the construction of the homes the RHS loan borrower requests a subordination by FmHA on individual lots, the State director may approve the subordination by completing and executing a subordination in the format of exhibit B of this subpart.

(5) FmHA's lien on any lot will be released only at the time of sale to an eligible purchaser.

(o) *Sale of sites to ineligible purchasers.* If after the development has been completed, and the borrower has made a diligent effort to sell the sites to eligible purchasers, sites still remain unsold, the following plans of liquidation should be followed with the approval of the State director.

(1) Section 523 sites will be offered for sale to ineligible purchasers in the following order.

(i) Persons eligible for assistance under the FmHA section 502 loan program,

(ii) To other persons eligible for assistance under any other law which provides financial assistance for housing low-and moderate-income families;

(iii) Other persons for use as residential housing, and

(iv) On the open market.

(2) Section 524 sites will be offered for sale to ineligible purchasers in the following order:

(i) To persons for use as residential housing; and

(ii) On the open market.

(3) The sale price will be set by FmHA in accordance with § 1944.316 and the entire proceeds applied to the loan account.

§ 1944.309 Rates, terms, use of sales proceeds, and type of loan.

(a) *Interest.* The interest rate will be as specified in subpart A part 1810 of this chapter.

(b) *Repayment period.* Payment will be due two years after the date of the loan. When necessary to carry out the loan purposes, the National Office may authorize extension of the maturity date.

(c) *Use of sales proceeds.* As lots are sold before the final due date of the note, the proceeds of the sales will be applied on the account, or any prior lien, in payment of real estate taxes assessed against the property, or, with prior approval of the National Office, used in a manner consistent with the purposes of the loan and the security interest of the government.

(d) *Type of loan.* Loans under this regulation will be made as insured loans, except that section 523 loans under § 1944.319 to develop building sites for sale in connection with self-help projects will be made as direct loans.

§ 1944.310 Security.

Each loan will be secured by a first mortgage on the property purchased or improved with the loan, and a security interest in the funds held by the corporation in trust for the Government, in accordance with the provisions of the loan resolution.

§ 1944.311 Technical, legal and other services.

(a) *Appraisals.* The property will be appraised by an FmHA employee authorized to make real estate appraisals. The appraisal will consist of a narrative statement prepared and signed by the authorized employee, describing in detail the items considered in arriving at the value of the property. Two values will be established by the appraiser:

(1) The fair market value of the total property "as is."

(2) The aggregate fair market value of the building sites after development. In determining the value of the property, the appraiser will consider the value and selling prices of similar building sites in the area, or similar areas.

(b) *Title clearance and legal services.* The complete loan docket for all RHS loans will be sent to OGC for closing instructions.

(c) *Contracts for legal services.* On projects requiring more legal services than are customarily required for title clearance alone, the applicant will be required to have a written contract when loan funds will be used for these services. All such contracts will be subject to review and approval by the State Director and, therefore, should be submitted to the State director through the county supervisor before execution by the applicant. Contracts will provide for the types of service to be performed and the amount of fees to be paid, either in lump sum on the completion of all services or in installments as services as performed.

(d) *Engineering services.* On projects requiring engineering services, a written contract will be required between the engineer and the borrower. All such contracts will be subject to review and approval by the State director, and therefore, should be submitted to him prior to being executed by the applicant. If, however, the applicant has entred into a contract to meet the RHS application requirements, the State director may grant post approval of the contract provided the services to be provided are in accordance with appropriate FmHA regulations and the fee is typical for the area.

(e) *Compliance with local codes and regulations.* Planning and development of sites will be for housing that will conform with any applicable housing assistance plans, laws, ordinances, codes and regulations governing such matters as construction, heating, plumbing, electrical installation, fire prevention, health and sanitation.

(f) *Optioning of land.* If a loan is to include funds to purchase real estate, form FmHA 440-34, "Option to Purchase Real Property," or other acceptable agreement to purchase will be used. This option or agreement will be executed before the loan is approved. After the loan is approved, the county supervisor will have Form FmHA 444-35, "Form Letter—Acceptance of Option", or other appropriate form of acceptance, completed, signed by the applicant, and mailed to the seller.

(g) *Use of and accountability for loan funds.* Supervised bank accounts will not be used except when they are required or authorized by the State Director for cases where adequate bonding is not available. If a supervised bank account is used, collateral for deposits of funds will be pledged in accordance with § 1803.4 of this chapter. All loan funds, and any borrower funds to be used to pay the development costs of the site, as well as proceeds from the sale of any sites not ap-

plied or used in accordance with § 1944.316 (c), will be deposited in a bank which is a member of the Federal Deposit Insurance Corporation. The

sor. This information is used to determine the applicant's eligibility and eliminate any proposals which have

sistance (Short Form)," together with the additional information as outlined in exhibit D will be submitted to the county supervisor.

Form No.	Name of form or document	Total number of copies	Signed by borrower	Number for loan docket	Copy for borrower

plied or used in accordance with § 1944.316 (c), will be deposited in a bank which is a member of the Federal Deposit Insurance Corporation. The county supervisor will assure that funds for land purchase are paid to the seller and used appropriately simultaneously with loan closing before issuing the partial release. After the loan is closed, the borrower will provide monthly reports to FmHA of all disbursements made and income received by them. Reports for each month will be submitted to the FmHA County Office during the first 10 days of the following month. No expenditures will be made without prior FmHA consent for items which are not included in the FmHA approved development cost estimate or for amounts greater than those set forth in such estimate.

(h) *Insurance.* The State director will determine the minimum amounts and types of insurance the applicant will carry.

(1) Suitable workmen's compensation insurance will be carried by the applicant for all its employees.

(2) The applicant will be advised of the possibility of incurring liability and encouraged, or required when appropriate, to obtain liability insurance.

(i) *Bonding.* (1) The provisions of § 1804.4(d)(2) of this chapter pertaining to surety bonds are applicable to RHS loans.

(2) The applicant will provide fidelity bond coverage for its officers and employees entrusted with the receipt, custody, and disbursement of its funds and the custody of any other negotiable or readily salable personal. The amount of the bond will be at least equal to the maximum amount of such funds including funds in bank accounts, and property that the applicant will have in its possession or control at any one time. The United States will be named co-obligee in the bond if not prohibited by State law and Form FmHA 440-24, "Position Fidelity Schedule Bond," may be used.

§ 1944.312 Processing applications.

(a) *Preapplication.* Form AD-621, "Preapplication for Federal Assistance," together with the additional information outlined in exhibit C, will be submitted to the County Supervisor. This information is used to determine the applicant's eligibility and eliminate any proposals which have little or no chance for funding. The applicant should be instructed not to prepare an application until notified to proceed by FmHA.

(1) *Actions by county supervisor.* The preapplication, with attachments, will be reviewed by the county supervisor. The preapplication, including the comments and recommendations of the county supervisor and District Director and any additional material considered necessary, will be forwarded to the State director.

(2) *Actions by State director.* If the applicant is an organization adopting without change the "Articles and Bylaws" prescribed by State regulations, the preapplication need not be submitted to the OGC.

(i) In all other cases involving RHS loans the docket, with any questions or comments of the State director will be submitted to the OGC for preliminary opinion as to whether the applicant and the proposed loan meet or can meet the requirements of State law and this regulation.

(ii) When the State director determines it necessary, and for all applications requesting a loan of more than $500,000, the preapplication will be sent to the National Office for evaluation and instructions. For loan requests of more than $500,000, and all other applications sent to the National Office, all information pertinent to determine the eligibility of the proposal should be submitted to the National Office.

(iii) The State director, after completing the review, of the preapplication will notify the county supervisor of the determination regarding the preapplication and authorize the county supervisor to prepare and execute form AD-622. The county supervisor will forward the original to the applicant, a copy to the State office, and retain a copy in the case file. If form AD-622 indicates unfavorable consideration, the applicant will be notified in accordance with § 1944.314 of this regulation.

(b) *Preparation of completed loan docket.* If the applicant has been requested to file an application, Form AD-625, "Application for Federal Assistance (Short Form)," together with the additional information as outlined in exhibit D will be submitted to the county supervisor.

(1) *County supervisors responsibility.* As the information for the loan docket is being developed, the county supervisor will work closely with the applicant. The county supervisor will review the information furnished for correctness, adequacy, and completeness. The county supervisor will determine that:

(i) The sites will be located in a good residential area and that essential facilities and services will be provided.

(ii) The lots will be reasonable in cost and of a type FmHA can appropriately finance.

(iii) There is an immediate and ready market for the proposed sites in the planned location.

(iv) The total number of sites planned does not exceed the number of loans the county office can reasonably expect to include in the rural housing program or for which other credit is reasonably assured when the sites are developed.

(v) The proposed subdivision will comply with the local, State and Federal codes, ordinances and regulations, including the Interstate Land Sales Full Disclosure Act, OMB Circular A-95, National Environmental Policy Act and guidelines for preparing environmental impact statements as outlined in this subpart and meet the requirements outlined in part 1804 of this chapter.

(2) Form FmHA 440-1, "Request for Obligation of Funds," will be completed in accordance with the forms manual insert (FMI).

(3) Form FmHA 444-5, "Multiple Family Housing Fund Analysis," will be completed in accordance with the FMI. Items 12, 13, and 15 of part B of the form will be left blank, with items 16 through 23 being completed when appropriate.

(c) *Assembly, review and distribution of complete loan docket items.* When all items required for the complete loan docket have been furnished, they will be examined thoroughly to make sure they are properly and accurately prepared and are complete in all respects, including dates and signatures. The loan docket items will be assembled in the following order and distributed as follows:

Form No.	Name of form or document	Total number of copies	Signed by borrower	Number for loan docket	Copy for borrower
*FmHA 444-5	Multiple Family Housing Fund Analysis	4		4-0 & 3C	
*FmHA 440-1	Request for Obligation of Funds	4	2	4-0 & 3C	1
*AD-621	Preapplication for Federal Assistance	3	1	2-0 & 1C	1-C
*Exhibit C	Information To Be Submitted With Preapplication for RHS Loan.	2	0	1-0	1-C
*AD-622	Notice of Preapplication Review Action	3		2-0 & 1C	1-0
*AD-625	Application for Federal Assistance (short form)	3	1	2-0 & 1C	1-0
*Exhibit D	Information To Be Submitted With Application for Federal Assistance (short form).	2	0	1-0	1-C
	Narrative-plan and other supporting information	2	1	1-0	1-C
	Certified Copy of Loan Resolution	1	1	1-0	

Form No.	Name of form or document	Total number of copies	Signed by borrower	Number for loan docket	Copy for borrower

	Appraisal Report With Attachments	1		1-0	
	Preliminary Title Opinion and a Final Title Opinion or a Title Insurance Binder and a Mortgage Title Insurance Policy.				
	Option or copy of deed, purchase contract, or other instrument of ownership.				

(d) *Submission of complete docket.* The complete docket will be sent to the State office together with the county supervisor's comments and recommendations.

§ 1944.313 Loan approval authority and State office action.

The State director is authorized to approve loans in accordance with this subpart and subpart A of part 1901 of this chapter. As soon as it is evident that a loan will be approved, the State director will complete form FmHA 071-1, "Project Information Card," as required by FmHA instruction 2015-C. The State director may redelegate approval authority to qualified State office employees. When a docket or preliminary application is received in the State office, the State director will:

(a) Utilize the services of technicians on his staff and from other agencies in evaluating the application.

(b) If additional information is needed to adequately evaluate the application, return the loan docket to the county supervisor with comments and recommendations for further processing.

(c) If the docket is sufficiently complete to enable the State director to determine that the applicant is eligible and the loan would be sound and proper, issue a proposed memorandum of approval listing any specific conditions that must be met before loan closing.

(d) If the applicant is not eligible or the loan would not be sound and proper and the deficiencies cannot be corrected, inform the county supervisor accordingly.

(e) When the loan is approved, the approval official will:

(1) Sign the original and one copy of form FmHA 440-1 and insert the approval official's title in the space provided. Indicate on all copies any conditions that must be met at or before the time the loan is closed. Such conditions could include the amount of surety and fidelity bond coverage, other insurance, the title evidence, and any other special requirements. If more space is needed, the form will be supplemented by a memorandum.

(2) Forward an executed form FmHA 440-1 to the applicant in accordance with the forms manual insert (FMI) and FmHA instruction 2015-C.

(f) After the loan is approved, the contents of the docket will be distributed in accordance with paragraph (c) of § 1944.312.

§ 1944.314 Loan disapproval.

If a loan is disapproved after the docket has been developed, the reason for such action will be shown on the original form FmHA 440-1. Form FmHA 440-1 will be initialed and dated. In all cases, the county supervisor will notify the applicant of the disapproval of the loan and the reasons therefor. The notification of disapproval at any time will inform the applicant that an appeal of the decision may be requested if it is believed that the decision has not been made in the proper manner based on the information submitted, as provided for in subpart B part 1900 of this chapter.

§ 1944.315 Loan closing.

(a) *Applicable instructions.* RHS loans will be closed in accordance with applicable provisions of Part 1807 of this chapter, State supplements, and closing instructions from OGC, and with the assistance of the designated attorney, representative of the title insurance company, or local attorney, whichever is appropriate.

(b) *Mortgage.* Unless the OGC determines the form to be inappropriate in any case, real estate mortgage form FmHA 427-1 (State), "Real Estate Mortgage for ————" will be used for all RHS section 524 loans modified by or with the advice of the OGC with respect to the name, address, and other identification of the borrower, style of execution, and acknowledgment. Additional paragraphs will be included in the mortgage to read as follows:

(1) "The property described herein was obtained or improved through Federal financial assistance. This property is subject to the provisions of Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the property continues to be used for the same or similar purpose for which financial assistance was extended or for so long as the mortgagor owns it, whichever is longer."

(2) "This instrument also secures the obligations and covenant of borrower set forth in Borrower's Loan Resolution of (*Date*), which is hereby incorporated herein by reference."

(c) *RHS section 523.* The mortgage to be used for RHS section 523 loans will be in accordance with § 1944.319.

(d) *Promissory Note.* Form FmHA 440-16, "Promissory Note," will be used. Instructions for preparation will be in accordance with the FMI.

(e) *Recorded mortgages.* When the real estate mortgage is returned by the recording official, the county supervisor will retain the original in the borrower's case folder. If the original is retained by the recording official for the county records, a conformed copy including the recording data showing the date and place of recordation and the book and page number will be prepared and filed in the borrower's case folder. A copy of the mortgage will be delivered to the borrower but will be conformed only if required by State law or if it is the custom of other lenders in the area.

(f) *Date of loan closing.* An RHS loan is considered closed when the mortgage is filed of record.

§ 1944.316 Actions after sites are developed.

The building sites will be sold on a nonprofit basis to eligible families or organizations as described in paragraph (c) of § 1944.307.

(a) An option, form FmHA 440-34, "Option to Purchase Real Property," or other acceptable agreement to purchase the property. The agreement should include any other information which the State director or county supervisor

conditions prescribed by the Government. To secure the note and any obligations as required by the Government, the president and the secretary are hereby authorized to

ernment to inspect such books and records at all reasonable times.

(b) Unless the Government gives prior consent—

The undersigned, ————, the

(a) An option, form FmHA 440-34, "Option to Purchase Real Property," or other acceptable agreement to purchase will be executed. The site will be clearly identified by a land survey.

(b) The sale price of each individual site will be based on its appraised value and will not exceed an amount sufficient to pay a proportionate part of the total development cost including the RHS loan and any other authorized costs of buying, developing, and selling the building site.

(c) The proceeds from sale of the building sites will be applied on the RHS loan and any prior lien or, with the prior approval of the national office, used in a manner consistent with the purposes of the loan and the security interest of the Government. The sites will be released from the mortgage in accordance with § 1872.4 of this chapter or otherwise in accordance with prior approval of the national office.

§ 1944.317 Subsequent RHA loans.

A subsequent RHS loan is a loan made to an applicant or borrower to complete the purchase and development planned with the initial loan. Subsequent RHS loans will be made on the same basis as initial RHS loans. A loan made to a RHS borrower to develop sites not planned with a previous loan will be considered an initial loan.

§ 1944.318 Complaints regarding discrimination in opportunity to buy developed sites.

Any person wishing to purchase a site financed by an RHS loan who believes that person has been discriminated against because of race, color, creed, or national origin may file a complaint with the county supervisor or State director. Any such complaint will be referred through the State director to the national office.

(a) The complaint must be in writing and signed by the complainant and contain the following information:

(1) The name and address (including telephone number) of the complainant.

(2) The name and address of the person committing the alleged discrimination.

(3) Date and place of the alleged discrimination.

(4) Any other pertinent information that will assist in the investigation and resolution of the complaint.

(b) The county supervisor or State director will acknowledge receipt of the complaint and promptly forward it to the national office.

(c) Attached to the written complaint should be a statement from the county supervisor or State director as to whether the security instrument or other document executed by the borrower contains a nondiscrimination agreement. The statement also should include any other information which the State director or county supervisor has pertaining to the complaint. The county supervisor or State director should delay a comprehensive investigation of any complaint until requested to investigate by the National Office.

(d) The national office will determine whether discrimination did in fact occur. If necessary, appropriate steps will be taken to ascertain the essential facts.

(e) If it is found that the complaint is without substance, the parties concerned will be notified.

(f) If it is found that the borrower discriminated FmHA will inform the parties of such finding and advise the borrower to take the action necessary to correct the discrimination and to give appropriate assurance of future compliance.

§ 1944.319 Special requirements for RHS section 523 loans (loans to organizations providing sites for self-help housing).

Loans to organizations which will provide sites for self-help housing (RHS section 523 loans) will be made under the provisions of this regulation with the following exceptions:

(a) *Eligibility.* The applicant must be a nonprofit organization engaged in assisting self-help projects.

(b) *Interest.* The interest rate will be 3 percent per annum on the unpaid principal balance.

(c) *Source of funds.* These will be direct loans made from the Self-Help Land Development Fund.

(d) *Evidence of need.* Loans to newly formed organizations will be made on the basis of the applicant's providing firm information as to the number of sites to be developed and the names of eligible bona fide prospective purchasers who are assured of available home financing. Loans to organizations currently involved in mutual self-help housing projects may be made without submitting a list of names of prospective site purchasers. There must, however, be definite evidence that enough families are available who are eligible and who will buy the sites when they are developed.

(e) *Multiple advances.* These loans may be disbursed over a period not to exceed 18 months from the date of the first advance.

(f) *Note forms.* Form FmHA 440-16 will be used. See § 1944.315(d).

(g) *Mortgage.* Unless the OGC determines the form to be inappropriate in any case, real estate mortgage form FmHA 427-1 (State), "Real Estate ——— for ——— (Direct Loan)," will be used modified as prescribed by or with the advice of the OGC with respect to the name, address, and other identification of the borrower, the style of execution, and the acknowledgment. Additional paragraphs will be included in the mortgage to read as follows:

(1) "The property described herein was obtained or improved through Federal financial assistance. The property is subject to the provisions of title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the property continues to be used for the same or similar purpose for which financial assistance was extended or for so long as the mortgagor owns it, whichever is longer."

(2) "This instrument also secures the obligations and covenants of borrower set forth in borrower's loan resolution of (date), which is hereby incorporated herein by reference."

§ 1944.320–§ 1944.350 [Reserved]

EXHIBIT A

LOAN RESOLUTION [(RURAL HOUSING SITE) LOAN TO NONPROFIT CORPORATION]

Loan resolution of ———, 19—— resolution of the board of directors of ——— providing for borrowing $—— to finance building sites and related facilities for persons and families of low or moderate income, as defined in exhibits C and D of subpart A of part 1822 of Chapter XVIII, Code of Federal Regulations (exhibits C and D of FmHA Instruction 444.1), in rural areas, the collection, handling, and dispostion of income, the issuance of a promissory note and real estate security instrument, and related matters. Whereas ——— (herein referred to as the "Corporation") is a nonprofit corporation duly organized and operating under ——— (authorizing State statute) and the board of directors of the Corporation (herein referred to as the "board") has decided to provide building sites and related facilities for eligible rural residents, the board has determined that the Corporation is unable to provide such facilities with its own resources or to obtain from other sources, for such purpose, sufficient credit upon terms and conditions which the Corporation could reasonably be expected to fulfill.

Be it resolved:

1. *Application for loan.* The Corporation shall apply for and obtain a loan (herein called "the loan") of $—— from the United States of America, acting through the Farmers Home Administration, U.S. Department of Agriculture (herein called "the Government") pursuant to section 523(b)(1)(B) or section 524 of the Housing Act of 1949. The loan shall be used solely for the specific eligible purposes specified or approved by the Government, in order to provide developed building sites (herein called "building sites") for eligible purchasers as defined by the Government.

2. *Execution of loan instruments.* To evidence the loan the Corporation shall issue a promissory note (herein referred to as "the note"), signed by its president and attested by its secretary, with its corporate seal affixed thereto, for the amount of the loan, payable 2 years after date, bearing interest at a rate, and containing other terms and

conditions prescribed by the Government. To secure the note and any obligations as required by the Government, the president and the secretary are hereby authorized to execute a real estate security instrument giving a lien upon the building sites and such other security as the Government shall require.

3. *Equal employment opportunity under construction contracts and nondiscrimination in the sale of sites and in any other benefits of the loan.* The president and the secretary are hereby authorized and directed to execute on behalf of the corporation: (a) Any undertakings and agreements required by the Government pursuant to Executive Order 11063 regarding nondiscrimination in the use and occupancy of housing; (b) Farmers Home Administration Form 400-1 entitled "Equal Opportunity Agreement" including an "Equal Opportunity Clause," and (c) Farmers Home Administration Form 400-4 entitled "Nondiscrimination Agreement (Under Title VI, Civil Rights Act 1964)," a copy of which is attached hereto and made a part hereof, and any other undertakings and agreements required by the Government pursuant to lawful authority.

4. *Site development account.* (a) The Corporation shall establish on its books a development account which shall be maintained so long as the loan obligations remain unsatisfied. All loan funds and any revenue received from the sale of loans for building sites or other purposes shall be placed in said account and shall be deposited in a bank or banks insured by the Federal Deposit Insurance Corporation. Funds in excess of $40,000 shall be collateralized as provided in Treasury Circular 176. Any such funds shall be held by the corporation in trust for the Government as security for the loan. Disbursements may be made only for development costs approved by the Farmers Home Administration and for repayment of the loan.

(b) The Corporation shall provide a fidelity bond, with a surety company approved by the Government covering the treasurer and any other officers or employees who will have custody or control of funds or readily marketable personal property of the Corporation in an amount not less than the estimated maximum amount of such funds and property to be held in the custody or control of the Corporation at any one time, which amount shall be approved or prescribed by the Government. The United States of America shall be named as coobligee and the amount of the bond shall not be reduced without the prior wirtten consent of the Government.

(c) A complete accounting will be made of all income, contributions, and loan funds required by this resolution to be deposited in the account. Each expenditure will be identified as to the source of funds from which payment is made. All proceeds from sales of the building sites shall upon receipt be immediately paid on the loan obligations, unless otherwise specifically authorized by the Government in writing.

5. *Regulatory covenants.* So long as the loan obligations remain unsatisfied the Corporation shall—

(a) Maintain complete books and records relating to the Corporation's financial affairs, promptly furnish the Government at the end of each month a report of all income and expenses, and permit the Government to inspect such books and records at all reasonable times.

(b) Unless the Government gives prior consent—

(1) Not sell sites to other than eligible purchasers.

(2) Not enter into any contract or agreement for improvements or extensions to the property securing the loan obligations.

(3) Not cause or permit voluntary dissolution of the corporation, nor merge or consolidate with any other organization, nor cause or permit any transfer or encumbrance of title to the building sites or any part thereof or interest therein, by sale, mortgage, lease, or otherwise.

(4) Not cause or permit the issuance or transfer of any stock, borrow any money, nor incur any liability aside from current expenses.

(c) Comply with all its agreements and obligations in or under the note, security instrument, and any related agreement executed by the Corporation in connection with the loan.

(d) Not alter, amend, or repeal without the Government's consent this resolution or the bylaws or articles of incorporation of the Corporation, which shall constitute parts of the total contract between the Corporation and the Government relating to the loan obligations.

(e) Do other things as may be required by the Government in connection with the development of the building sites or with any of the Corporation's operations or affairs which may affect the sites, the loan obligations, or the security.

6. *General provisions.* (a) It is expressly understood and agreed that any loan made will be administered subject to the limitations of the authorizing act of Congress and related regulations and that any rights granted to the Government herein or elsewhere may be exercised by it in its sole and exclusive discretion to carry out the purposes of the loan, enforce such limitations, and protect the Government's financial interest in the loan and security.

(b) The provisions of this resolution are representations to the Government to induce the Government to make a loan to the Corporation as aforesaid. If the Corporation should fail to comply with or perform any provision of this resolution or any requirement made by the Government pursuant to this resolution, such failure shall constitute default as fully as default in payment of amounts due on the loan obligations. In the event of such failure, the Government at its option may declare the entire amount of the loan obligations immediately due and payable and, if such entire amount is not paid forthwith, may take possession of and operate the project and proceed to foreclose its security, and may enforce all other available remedies.

(c) Any provisions of this resolution may be waived by the Government in its sole discretion, or changed by agreement between the Government and the Corporation after this resolution becomes contractually binding, to any extent such provisions could legally have been foregone, or agreed to in amended form, by the Government initially.

(d) Any notice, consent, approval, waiver, or agreement must be in writing.

(e) This resolution may be cited in the security instrument and any other instruments or agreements as the "Loan Resolution of ———, 19—— (date of this resolution)."

The undersigned, ———, the secretary of the Corporation identified in the foregoing loan resolution, hereby certifies that the foregoing is a true copy of a resolution of the board of directors of the Corporation passed on ———, 19——.

Date: ———.

Secretary.

EXHIBIT B

SUBORDINATION BY THE GOVERNMENT FOR USE WITH RURAL HOUSING SITE LOANS

Whereas, the United States of America acting through the Farmers Home Administration (hereinafter called the "Government") is the holder of the following described instrument(s) executed by ——— of ——— County, State of ——— (hereinafter called the "Borrower");

Title of instrument ———
Date of instrument ———
Date filed ———
Office filed ———
Book No. ———
Page No. ———

And whereas, ——— (hereinafter called the "Lender") has agreed to provide a loan to the borrower or to a builder designated by the borrower to construct a home on the property described in this instrument:

Now, therefore, in consideration of the Lender's agreement to make such loan to the borrower, the Government hereby consents to the Borrower obtaining said loan from the lender, and agrees to and hereby subordinates in favor of the Lender and his successors and assigns its liens or security interests created or evidenced by the above-described instrument(s) insomuch as they cover the following described property: (1)

———
———
———

Except that, the Government shall retain a first lien or security interest in the above-described property in an amount of (2) $——. Such first lien will be released only when satisfactory evidence is provided indicating that the lot with completed home is being sold to a family eligible for assistance under any section of title V of the Housing Act of 1949 or under any other law which provides financial assistance for housing low- and moderate-income families and that the benefits of the nonprofit development of the site are being passed on to the eligible purchaser and that the amount of that first lien is paid on the Borrower's rural housing site loan debt to the Government.

This subordination is limited to the amount actually loaned by the Lender to the Borrower for the foregoing purpose, but shall not exceed (3) $——.

Only the above-described property is affected by this subordination. This subordination shall not otherwise affect or modify the obligations secured by the aforesaid lien instrument(s), and the said obligations shall continue in force and effect until fully paid, satisfied, and discharged.

No Member of Congress shall be admitted to any share or part of this agreement or to any benefit that may arise thereupon.

In witness whereof, the United States of America has caused these presents to be signed on the —— date of ———, 19——, pursuant to delegated authority published

other qualified applicants that are likely to be able to obtain financing for a home.

b. List of names and addresses of any fam-

INSTRUCTIONS FOR COMPLETION OF EXHIBIT B

(1) Insert complete legal description of specific lot or lots on which lien is to be subordinated.

(2) Insert present market value of lot or pro rata amount of RHS loan, as determined in accordance with § 1944.316(b) of this regulation.

(3) This amount should be provided by lender, however, approval official should be assured that amount loaned does not exceed market value of the house, not including the value of the lot.

EXHIBIT C

INFORMATION TO BE SUBMITTED WITH PREAPPLICATION FOR RHS LOANS

The following information is to be submitted with Form AD–621, "Preapplication for Federal Assistance":

1. *Eligibility:* a. A copy of, or an accurate citation to, the specific provisions of State law under which the applicant is organized, a copy of the applicant's articles of incorporation, bylaws, and other authorizing documents; the names and addresses of the applicant's members, directors, and officers; and if another organization is a member of the applicant organization, its name, address, and principal business.

b. A current dated, and signed financial statement showing assets and liabilities, together with information on the repayment schedule and status of each debt.

2. *General description of the proposed project:* a. Location and size of tract or tracts to be bought and/or developed.

b. Location, size, and cost of other available and suitable sites in the area.

c. Number and size of individual sites planned together with a preliminary plot plan.

d. Preliminary engineering plans, if available.

e. Estimated cost and amount of loan needed.

f. Explanation of applicant's financial contribution to the project.

g. A map showing the location of and other supporting information on neighborhood and existing facilities such as distance to shopping areas, neighborhood churches, available transportation, drainage, sanitation facilities, water supply available or planned, and access to essential services such as doctors, dentists, and hospitals.

h. If facilities such as water and sewage systems, paved streets, and utilities are not currently, available, information on when and how they will be provided.

i. Written evidence of any State, county, or local planning, zoning, or other ordinances imposing additional restrictions or requirements upon the proposed sites.

3. *Need and demand:* a. Evidence of the need for the proposed sites in the locality by low- and moderate-income families and other qualified applicants that are likely to be able to obtain financing for a home.

b. List of names and addresses of any families who have been contacted and are eligible bona fide prospective purchasers.

EXHIBIT D

INFORMATION TO BE SUBMITTED WITH APPLICATION FOR FEDERAL ASSISTANCE (SHORT FORM)

The following information is to be submitted with Form AD–625, "Application for Federal Assistance (Short Form)":

1. A detailed plot plan and detailed preliminary plans and specifications for development of the building sites.

2. A detailed cost breakdown of the project for such items as land and rights-of-way, utility installations or connections, onsite improvements, engineering and legal services, and estimated interest.

3. If water and sanitary facilities are not publicly owned, a complete statement as to how they will be provided and details about their ownership and operation.

4. Satisfactory evidence of review and approval of the proposed development by applicable State and local officials whose approval is required by State or local laws, ordinances, or regulations.

5. Evidence of compliance with the Interstate Land Sales Full Disclosure Act, implementation of OMB A-95 concerning formulation, evaluation and review of Federal programs and projects having significant impact on area and community development and guidelines for preparing environmental impact statements where applicable.

6. Any additional information necessary to assure the feasibility of the proposal and the ability of the applicant to successfully carry out the proposal.

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 and OMB circular A-107.

Dated: September 9, 1978.

[10 CFR Parts 210, 211, and 212]

[Docket No. EA78-2]

PROPOSED EXEMPTION OF AVIATION GASOLINE AND KEROSENE-BASE JET FUEL FROM MANDATORY PRICING AND ALLOCATION REGULATIONS

Analysis and Recommendations

AGENCY: Federal Energy Regulatory Commission.

ACTION: Recommendations regarding exemption of aviation gasoline and kerosene-base jet fuel from mandatory pricing and allocation.

SUMMARY: On July 7, 1978, the Federal Energy Regulatory Commission published in the FEDERAL REGISTER amendments to exempt aviation gasoline and kerosene-base jet fuel from mandatory pricing and allocation regulations. The amendments were issued by the Economic Regulatory Administration and were transmitted to FERC for its consideration and recommendations. This document reflects the views expressed in response to the Commission's notice as well as those expressed to ERA as a result of that agency's proposal.

DATE: Nonapplicable.

FOR FURTHER INFORMATION CONTACT:

Robert L. Baum, Deputy General Counsel, Federal Energy Regulatory Commission, 202–275–4333.

SUPPLEMENTARY INFORMATION:

INTRODUCTION

SEPTEMBER 12, 1978.

On June 22, 1978, the Secretary of Energy transmitted to the Federal Energy Regulatory Commission certain amendments to the regulation under the Emergency Petroleum Allocation Act (EPAA) proposed by the Economic Regulatory Administration (ERA). Included were proposals to exempt aviation gasoline (avgas) and kerosene-base jet fuel (kerojet) from the mandatory petroleum allocation regulations as well as the mandatory petroleum price regulations. In order to take effect, an exemption from either the pricing or allocation regulations must be submitted to Congress as an "energy action." Under section 402(c)(1) of the DOE Act, the Commission is required to "consider" these proposals prior to submission to Congress by the Secretary.

At a Commission meeting on June 28, 1978, the Commission approved a FEDERAL REGISTER notice inviting comments and scheduling a public hearing on the proposals. The notice was published in the FEDERAL REGISTER on July 7, 1978, and established August 11, 1978, as the last day for written comments. A public hearing was scheduled and held on August 1 and 3.

The notice in the FEDERAL REGISTER indicated that the ERA had held public hearings and that the records of those hearings along with comments filed as as result of the ERA proposals would be available to the Commission. Accordingly, this summary reflects the views expressed in response to the Commission's notice as well as those expressed to ERA as a result of that Agency's proposal.

In order for a product to be exempted from the regulations the Secretary must find that the exemption is consistent with the attainment of public

policy objectives in section 4(b)(1) of the EPAA. These objectives are as follows:

(A) Protection of public health (including the production of pharmaceuticals) safety and welfare (including maintenance of residential heating, such as individual homes, apartments, and similar occupied dwelling units), and the national defense;

(B) Maintenance of all public services (including facilities and services provided by municipally, cooperatively, or investor owned utilities or by any State or local government or authority, and including transportation facilities and services which serve the public at large);

(C) Maintenance of agricultural operations, including farming, ranching, dairy, and fishing activities, and services directly related therto;

(D) Preservation of an economically sound and competitive petroleum industry; including the priority needs to restore and foster competition in the producing, refining, distribution, marketing, and petrochemical sectors of such industry, and to preserve the competitive viability of independent refiners, small refiners, nonbranded independent marketers, and branded independent marketers;

(E) The allocation of suitable types, grades, and quality of crude oil to refineries in the United States to permit such refineries to operate at full capacity;

(F) Equitable distribution of crude oil, residual fuel oil, and refined petroleum products at equitable prices among all regions and areas of the United States and sectors of the petroleum industry, including independent refiners, small refiners, nonbranded independent marketers, branded independent marketers, and among all users;

(G) Allocation of residual fuel oil and refined petroleum products in such amounts and in such manner as may be necessary for the maintenance of, exploration for, and production or extraction of—

(ii) Minerals essential to the requirements of the United States, and for required transportation related thereto;

(H) Economic efficiency; and

(I) Minimization of economic distortion, inflexibility, and unnecessary interference with market mechanisms.

In addition, section 12 of the EPAA provides that any amendment submitted to congress which proposes an exemption from the allocation regulations be accompanied by a finding that the product is no longer in short supply and the exemption would not have an adverse effect on the supply of any other oil or product. The exemption from the price regulations must be accompanied by findings that competition and market forces would provide adequate protection for the consumer and that such amendment would not result in inequitable prices for any class of user. The exemption also must be accompanied by an analysis of the potential economic impact of such amendment.

The Secretary has: (a) determined that the exemptions are consistent with the public policy objectives in § 4(b)(1) of the EPAA (supra), (b) found that avgas and kerojet are no longer in short supply and that exempting them from the pricing and allocation regulations would not have an adverse effect on the supply of oil or other refined products, (c) found that competition and market forces will provide adequate protection for the consumer and the exemption will not result in inequitable prices for any class of user, and (d) provided an analysis of the potential economic impact of the proposed exemptions. It is these issues which the Commission must now consider.

Although a representative of the Secretary made oral presentations at the hearings, the basis for the Secretary's determinations and findings is contained in documents entitled "Findings and Views Concerning the Exemption of Aviation Gasoline from the Mandatory Petroleum Allocation and Price Regulations, June 1978," and "finding and Views Concerning the Exemption of Kerojet Fuels from the Mandatory Petroleum Allocation and Price Regulations—June 1978." These documents were made available to interested persons in this proceeding. Earlier drafts were made available to the public at the time of the ERA proposal. At that time they were ERA's "Preliminary Findings." Subsequent to review of the comments and oral statements in that Agency's proceedings, the drafts were revised as a final report.

Comments on Avgas and Kerojet Exemption

	To ERA				To FERC			Total ERA and FERC*
	Oral		Written		Oral		Written	
	Avgas	Kerojet	Avgas	Kerojet	Avgas	Kerojet		
FBO's**	1	1	23	21	1	1	27	48

Airlines		2		3			8	9
Trade associations	2	4	5	5	1	3		10
State and Federal Government			4	4	1	1	2	6
Consumers			1	2				2
Consultants							1	1
Total	7	18	44	50	4	7	51	102

*Excludes duplicate counting of parties who presented their comments more than once.
**FBO's (fixed base operators) are vendors of aviation fuels to general customers at air fields.

None of the oral or written comments to the FERC or to ERA expressed opposition to the proposal although there were some suggestions for modifications. A large majority of the written comments merely expressed support for the proposal; some few provided additional factual material or added analysis to supplement the ERA work.

In spite of the overwhelming support for the proposal we feel that the dissenting suggestions merit more

In addition to a general discussion of avgas and kerojet industries and history of price controls, supply and demand trends, etc., the final reports contain the technical information which the Secretary believes supports the determination and findings which must accompany the exemption.

PUBLIC RECORD

ERA PROPOSAL

ERA, after detailed analysis of avgas and kerojet and after consideration of comments on their preliminary findings, proposes to exempt avgas and kerojet from price and allocation control with no transition program and with no monitoring of prices.

HEARINGS AND COMMENTS

The FERC held public hearings on the ERA proposals on August 1, 1978 (covering avgas), and August 3, 1978 (covering kerojet). Four parties commented orally on avgas and seven on kerojet. In addition 51 parties presented comments in writing.

The record also includes the ERA hearing of March 22, 1978, on avgas where there were 7 commentors and March 23, 1978, on kerojet when 18 speakers participated. ERA's record also includes 44 written comments on exemption of avgas from controls and 50 on kerojet exemption. A tabulation of the comments shows the scope of participation:

than cursory considertion. Of particular concern are:

1. The concern of the Energy Planning Di-

required by section 12(d)(2)(A) of the EPAA in which they anticipate:

1. No significant State or regional impacts.

cent of the commercial airlines' fuel is avgas, and this accounts for 6 percent of the total avgas market.

than cursory considertion. Of particular concern are:

1. The concern of the Energy Planning Division of the Montana Department of Natural Resources and Conservation (Montana) in their letter of July 26, 1978, to the Commission that the supply of aviation products appeared sufficient in the spring but there is now difficulty for FBO's to obtain supplies. Adequacy of supplies for forest firefighting and other emergency situations is their expressed immediate concern. Although this is the only mention of this type problem, it cannot be ignored.

2. The International Air Transport Association (IATA) claims, in their oral presentation to the FERC on August 3, 1978, that there is a need to provide air carriers with a safeguard of supply. In doing so they repeat points made to the ERA on March 23. A similar position was taken by Pacific Southwest Airlines in its August 4, 1978, letter to the Commission. Also, the Air Transport Association of America (ATA) and United Airlines in statements to the ERA on March 23 took the same position. ATA and United in letters to the Commission, asked that their previous testimony be considered although both emphasized the need to complete action by the end of this year.

These positions represent the two most significant differences from the ERA recommendation and although they are minority points of view they will be considered in our analysis.

Aviation Gasoline

ERA CONCLUSIONS

ERA's analysis of the supply and demand for aviation gasoline is contained in "Findings and Views Concerning the Exemption of Aviation Gasoline from the Mandatory Petroleum Allocation and Price Regulations" (U.S. Department of Energy, Economic Regulatory Administration, June 1978 DOE/ERA 002) and pages 3-36 in the transcript of the August 1 hearing before the FERC in this docket. ERA's recommendation for exemption from price and allocation control is based on their conclusions that:

1. Aviation gasoline is not in short supply and anticipated supplies will be sufficient to meet the demand through 1979. Similarly, stocks of aviation gasoline are sufficient to meet demand surges.
2. Adequate capacity exists to meet the demand for aviation gasoline and all other refined products, except for residual fuel oil and refineries have the flexibility to satisfy this demand.
3. Competition and market forces are adequate to protect consumers if aviation gasoline is exempted from regulations.
4. No major price increases for aviation gasoline are expected to occur solely as a result of exemption.
5. Exemption would not result in inequitable prices for any class of end-user.

With these conclusions, they find that their recommendation is consistent with the attainment of the objectives in section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973 (EPAA). They also present views on potential impacts of the exemption as required by section 12(d)(2)(A) of the EPAA in which they anticipate:

1. No significant State or regional impacts.
2. No adverse impact on the availability of consumer goods and services.
3. An insignificant effect on the gross national product.
4. No adverse effect on the competitive viability of independent refiners and marketers.
5. No adverse effect on small business.
6. No effect on the supply of fuel and feedstock for industry.
7. A negligible impact on the rate of unemployment.

ANALYSIS AND EVALUATION

1. *Supply and demand.* ERA's conclusions depend on the adequacy of supply to meet demand. Domestic demand for aviation gasoline in 1977 increased by about 4½ percent—the first increase in about 20 years. ERA's analysis of the avgas market leads them to conclude that the increase in 1977 represents a change in the trend and that continued small increases may be expected in the next few years. A review of the composition of the avgas makret supports this conclusion.

Aviation gasoline serves customers in four end-use categories: general aviation (corporation aircraft, personal flying, air charters, air taxis, commuter airlines, and civilian government flying), military, commercial airlines, and factory use.

The largest part of the present market is in general aviation. This market, served by fixed-base operators (FBO's) is the only end-use that has shown any growth in recent years and it now accounts for about 80 percent of the avgas market. Slightly less than half of the general aviation fuel requirements are avgas and it is in this part of the market that requirements are expected to increase.

In the general aviation category, almost three-fourths of the operations are for business purposes, about one-quarter for personal flying and 2 percent is classified as "other flying." Business aircraft use is continuing to grow and there is no indication of a decline in the popularity of personal flying. Corporate aircraft use a considerable amount of jet fuel but still require avgas for some operations.

Military use which represented the largest market for avgas 10 years ago (after most commercial airlines switched to jet fuel) has also converted to jet to a large extent. Less than 10 percent of the military aviation fuel is avgas and the military market accounts for about 15 percent of avgas sales.

Commercial airlines' switch from piston-engined aircraft to jet-powered equipment has been the the largest factor in the long-term decline of avgas use and this switch has about been completed. Now less than 1 percent of the commercial airlines' fuel is avgas, and this accounts for 6 percent of the total avgas market.

During the period of a declining market for aviation gasoline no major shortage problems have been recorded. Spot shortages have existed, particularly for low octane avgas. DOE regulations only apply to adequacy of supply of total aviation gasolines so the problems of shortages of a specific quality of aviation gasoline have been solved by refiners' voluntary response to DOE requests and by their response to their customers' needs.

With the exception of the spot shortages noted above, the supply appears to have been adequate and none of the FBO's have complained to ERA or FERC of serious shortages. There is a tendency to attribute any shortages to regulation and FBO's seem to expect the free market to be able to answer any supply problems.

FBO's show faith in their suppliers. The only supply evidence they present is the statement by their suppliers (the refiners) that supplies will be adequate. Some refiners have publicly stated that they will continue to supply customers for at least a year if they can't get a new supplier in that period. This has been interpreted by some spokesmen to indicate that all suppliers will adopt this policy in spite of the fact that some are known to plan to abandon markets as soon as they can.

Most refiners oppose a transitional supply arrangement similar to special rule 4 for motor gasoline, but none indicated they would find it intolerable. Refiners also oppose any form of price monitoring that would include provisions for automatic return to controls (monitoring with triggering). They do not object to DOE following price data or requiring reasonable reports to enable the monitoring of price trends (monitoring without triggering).

2. *Product specifications.* Aviation gasoline comes from the same part of the barrel as motor gasoline; currently about 45 percent of the refinery output is motor gasoline and about 0.3 percent is aviation gasoline. No aviation gasoline is imported at this time and no imports are expected.

Aviation gasoline was at one time available in five grades:

Grade (octane or performance number) and *Current Status*
80/87—Available; sometimes in short supply; some refiners want to phase it out.
91/98—Discontinued.
100/130—Available.
108/135—Discontinued.
115/145—Now a specialty product, available in only a few locations.
100/130 LL (low lead)—A new product designed to provide performance required for both 80/87 and 100/130.

There is a performance and/or maintenance penalty for using the wrong quality gasoline in most airplanes. Refiners have developed grade 100/130 low-lead because it reduces the problems caused by using 100/130 leaded gasoline in planes designed for 80/87 octane. It has not proven a completely satisfactory substitute and there have been numerous reports that 100/130 LL is damaging engines designed for grade 80/87.

Aircraft manufacturers, owners, and pilots seem to have adjusted to the discontinuation of production of 91/98 and 108/135 grades and it is possible that one all-purpose grade will be developed. Most, if not all, new aircraft are designed for 100/130 LL.

3. *Refinery capacity.* Aviation gasoline quality requirements are stricter than those for motor gasoline but not necessarily higher in octane rating. The potential supply for aviation gasoline is limitd by the quality requirements and by the availability of refinery facilities to provide product that meets specifications. Aviation gasoline specifications that may cause problems are octane requirements, additive requirement, and more precise quality control. The components of aviation gasoline are produced in the same facilities that produce motor gasoline and the adequacy of industry capacity will depend on the developments in motor gasoline rather than aviation gasoline. Less than 1 percent of the gasoline output from American refineries goes into aviation gasoline.

The development of one all-purpose grade of aviation gasoline, such as 100/130 low lead, would relieve supply problems of FBO's. It would, however, seem to aggravate supply problems of refiners since this step would require more high-octane unleaded components for aviation gasoline. It is the requirement for more high-octane unleaded components for motor gasoline that presents the major potential supply problem for that market. The grade to be phased out—80/87 octane leaded—should present no supply problems to refiners; it is, however, this product that has been in short supply while no problems in 100/130 low lead have been reported.

From the record, however, it seems clear that the Nation's total aviation gasoline supply will be adequate to meet needs if there are no major problems in total gasoline supply. There can, however, be supply problems in one specific grade, and, as noted in paragraph 5 below, there can be regional problems.

4. *Competition and prices.* FBO's expect there will be more competition among their suppliers with decontrol; ERA, on the other hand, looks for competition to remain about constant. There are indications that refiners will pull out from certain markets after controls are lifted but FBO's seem to feel that this step will enable refiners to supply other areas more efficiently and that new marketers will move in.

No complaints were received that prices are, or will be, too high. FBO's feel that competition limits their prices and only in some high-cost markets are they now at ceiling prices. ERA expects that FBO prices will increase as much as 4 cents per gallon in some areas and 1½ cents per gallon on the average because of the lifting of controls. No estimate was provided concerning the change in price at refineries, but ERA indicates that prior to control, avgas prices paralleled motor gasoline prices. It would seem reasonable to expect the same pattern to follow after decontrol. In their presentation on motor gasoline decontrol, ERA projected a 1 cent per gallon increase in motor gasoline prices due to decontrol. If this increase carries through to aviation gasoline, there may be an additional 1 cent increase if both motor gasoline and aviation gasoline are freed from control; this would represent a 11.5 percent increase (avgas now priced at 70 cents–$1 per gallon). Such an increase would be consistent with analyses by refiners.

5. *Objectives of section 4(b)(1) of the EPAA.* ERA analyzes the results of exemption of avgas as follows:

> It is DOE's finding that the exemption of aviation gasoline from the price and allocation regulations is consistent with the attainment of the objectives set forth in section 4(b)(1) of the EPAA. Since an adequate supply is anticipated, the continued allocation and pricing control of aviation gasoline are not necessary to protect the public health, safety, and welfare and the national defense (section 4(b)(1)(A)); the maintenance of all public services (section 4(b)(1)(B)); the maintenance of agricultural operations (section 4(b)(1)(C)); or the maintenance of exploration for the production or extraction of fuels and minerals (section 4(b)(1)(G)). Adequate supply and the positive effects of increased competition should insure that an exemption is consistent with the preservation of an economically sound and competitive petroleum industry (section 4(b)(1)(D)); the equitable distribution of crude oil, residual fuel oil, and refined petroleum products at equitable prices (section 4(b)(1)(F)); economic efficiency (section 4(b)(1)(H)); and the minimization of economic distortions, inflexibility, and interference with market mechanisms (section 4(b)(1)(I)). An exemption should have no adverse effect on the allocation of suitable crude oil to U.S. refineries (section 4(b)(1)(E)).

The ERA analysis is consistent with the record available from their March hearing. However, the Montana letter, noted above, offers a different viewpoint that would lead to different conclusions. Certainly there can be little doubt that overall supply is adequate and that any shortages would be localized. The ERA study admits to the possibility of local shortages so there is no inconsistency between the Montana evaluation of the supply situation and the ERA evaluation. It is the significance of local shortages that is of concern.

If local shortages represent inconveniences they are unfortunate; if they result in inability to meet an emergency they are intolerable and mean that this proposal, as presented, does not meet the requirements of section 4(b)(1)(A) of the EPAA to protect public health, safety, and welfare and section 4(b)(1)(B) to maintain all public services.

The problems raised by Montana were not presented to ERA in March when their hearings were held and, therefore, they have not been addressed by the ERA. Nor has any other party commented on this problem. We cannot be certain whether this is a problem unique to the State of Montana or whether it exists elsewhere but has not been reported. In any event, it seems proper to consider providing relief for such situations where they exist.

6. *Potential economic impacts.*—(a) *State and regional impacts.* DOE expects no State or regional impact. No participant presented any State or regional analysis to show adverse impact in any specific area but, as noted in paragraph 5 above, the Montana State Fuel Allocation Office pointed out that small remote FBO's could face problems that could adversely affect economic activity there.

The airplane is more important to the economic activity of sparsely populated areas where considerable distances must be covered in a normal working day than it is in densely populated areas. In the less populated areas, the use of aviation gasoline may not be large and the markets may be unattractive to suppliers. Therefore, the problem noted by Montana may have an economic impact to be considered. Provisions to accommodate the problem noted in paragraph 5 above would cover this problem to the extent it exists.

(b) *Availability of consumer goods.* ERA's conclusion that the exemption will have no adverse impact on the availability of consumer goods and services appears justified.

(c) *Competition.* ERA's conclusion that the exception will not adversely affect the competition viability of independent refiners and marketers seems justified.

(d) *Effect on small business.* ERA concludes that "an exemption • • • would not adversely affect small business." no comment received by ERA or FERC from refiners or FBO's would dispute this conclusion. To the extent this conclusion refers to small refiners (see paragraph 6c above) it seems jus-

tified. The FBO's are generally small businesses and, as noted in paragraph 5 and 6a above, Montana feels they

2. Adequate refinery capacity exists to meet the demand for kerojet and all other refined petroleum products,

as new equipment, larger aircraft, better load factors, and better scheduling. These steps have enabled airlines

Further improvement in supply would be achieved if the blending of naphtha with kerojet is allowed but

4. *Objectives of section 4(b)(1) of the EPAA.* The same considerations that apply to avgas seem to apply to kero-

take over and supplies move more freely, supply problems should be minimized, if ERA analysis is correct,

tified. The FBO's are generally small businesses and, as noted in paragraph 5 and 6a above, Montana feels they may be adversely affected in that State. This, however, would be a regional problem occurring in unusual instances and not a problem for all small businesses, or even for all small fixed base operators.

(e) *Supply of energy.* Aviation gasoline represents such a small part of our energy needs that its effect on supply and availability of energy will be negligible. Its use for commercial development of energy (company planes of energy companies) is not expected to suffer.

(f) *Unemployment, consumer price index, and gross national product.* The impact of aviation gasoline on national economic indicators will be small, as reported by ERA.

7. *Price monitoring.* The question of price monitoring was discussed by some parties. Generally it was opposed by refiners, ignored by FBO's and was requested by some airlines for jet fuel. ERA plans to continue to use existing price reporting systems until EIA's proposed price report form, EIA-12, is put into operation. This should provide adequate procedure to monitor prices (without triggering).

8. *Complaint procedures.* DOE currently has in operation a system for dealing with spot shortage problems in aviation gasoline. This system has proven to be an effective means of eliciting voluntary cooperation from suppliers to satisfy all needs. When free market forces take over and supplies move more freely, there should no longer be a need for this system, if the ERA analysis is correct. In the short run, however, this procedure should remain available as needed, and the method for handling problems of shortages should be made known to the public.

KEROSENE BASE JET FUEL

ERA CONCLUSIONS

ERA's analysis of the supply and demand for kerosene base jet fuel (Kerojet) is contained in "Findings and Views Concerning the Exemption of Kerojet Fuels from the Mandatory Petroleum Allocation and Price Regulations" (U.S. Department of Energy, Economic Regulatory Administration, June 1978, DOE/ERA-0001) and pages 134-184 in the transcript of the August 3 hearing before the FERC in this docket. ERA's recommendations for exemption from price and allocation control are based on the conclusions that:

1. Kerojet is not in short supply and anticipated supplies will be sufficient to meet the demand through 1979. Similarly stocks of kerojet are sufficient to meet demand surges.

2. Adequate refinery capacity exists to meet the demand for kerojet and all other refined petroleum products, except for residual fuel oil, and refineries have the flexibility to satisfy this demand.

3. Competition and market forces are adequate to protect consumers if kerojet is exempted from regulations.

4. Price increases for kerojet are not expected to exceed 1 cent per gallon solely as a result of the exemption.

5. Exemption would not result in inequitable prices for any class of end-user.

With these conclusions they find that their recommendation is consistent with the attainment of the objectives in section 4(b)(1) of the EPAA. They also present views on potential impacts of the exemption as required by section 12(d)(2)(A) of the EPAA in which they anticipate:

1. No significant State or regional impacts.
2. No adverse impact on the availability of consumer goods and services.
3. An insignificant effect on the gross national product.
4. No adverse effect on the competitve viability of independent refiners and marketers.
5. No adverse effect on small business.
6. No effect on the supply of fuel and feedstock for industry.
7. A negligible impact on the rate of unemployment.

ANALYSIS AND EVALUATION

1. *Supply and demand.* ERA recommendations are predicated upon an adequacy of supply. Kerojet requirements were growing at about 6½-7 percent per year prior to the oil embargo but in 1974 there was a drop in the domestic air activity. With the end of the embargo and the better supply situation some increase in kerojet demand has since been recorded and a 5 percent increase is projected by ERA.

The market for kerojet is 86 percent commercial air lines, 7 percent military, 5 percent general aviation; and 2 percent other.

The commercial airline market growth seems to follow past trends but may be understated. ERA points out that further action to deregulate airlines, now under consideration, could further accelerate kerojet demand. Military demand, now largely limited to carrier-based planes, could expand considerably beginning in 1979 if plans to switch all aircraft from naphtha-base jet fuel to kerojet are realized.

General aviation demand for kerojet is divided between commuter airlines and corporate jets. There are no specific factors that herald a change in the outlook for those uses.

Demand for kerojet has not grown as rapidly as the demand for jet travel. Efficiencies and economies have been brought about by such developments as new equipment, larger aircraft, better load factors, and better scheduling. These steps have enabled airlines to increase their revenue ton-miles per unit of fuel. Some further improvements are expected but their impact has not been quantified; nor are they expected to match those of the recent past. The balance between growth and efficiency will determine the market and there is no evidence that the ERA outlook is not accurate.

The outlook for military demand for kerojet can cause some pressures on supply. If the military does convert all its operations from naptha to kerojet it could bring about a need for 20 percent more kerojet beginning late next year. Such an increase in demand could put a strain on supply, but refiners, airlines and DOE are working to improve the supply situation either by a change in refinery yields or by developing a fuel for civilian aircraft that would include some naphtha (up to 30 percent) in the kerojet. If this step can be taken, it will eliminate the problem. Such a fuel would be interchangeable with kerojet and would not require modification of equipment.

2. *Refinery capability.* Jet fuel is available from U.S. refineries and from imports. Imports amounted to over 20 percent of our kerojet in 1973 and are projected to supply slightly more than 5 percent of our needs. With surplus foreign refining capacity it would appear that additional imports will be available if needed.

Prior to 1973 international airlines imported low cost kerojet in bond for flights to foreign countries. When foreign kerojet prices rose to make U.S. product cheaper, they switched to domestic kerojet and the cost of their imports was borne by the importers who passed it on to domestic as well as international airline customers. If there is an increase in kerojet prices following exemption, bonded imports may again be a factor in the supply-demand balance.

The major portion of the supply of kerojet under any circumstances will come from U.S. refineries. Kerojet is a highly refined kerosene; total refinery output of kerosene products have averaged less than 7 percent of crude runs, but yield can be increased to a maximum potential yield of about 10 percent without special equipment. With sophisticated and costly secondary operations and appropriate crude oil, it is possible that a refinery can yield 14 percent kerojet fuel. The output of kerojet may increase because of changes in the gasoline market and increases are expected because of increased crude runs. The optimistic supply outlook is enhanced by the increased flexibility of American refineries.

Further improvement in supply would be achieved if the blending of naphtha with kerojet is allowed but even without such a step the potential supply is adequate. Adequacy of supply, of course, depends on availability of crude oil imports for processing at our refineries and availability of imported oil products to supplement our refinery output. ERA analysis shows that the foreign crude oil and products are available. Spot shortages are considered possible, particularly in PAD IV (Colorado, Idaho, Montana, Utah, and Wyoming) but recent pipeline additions seem to have relieved this problem.

3. *Competition and prices.* Large integrated refiners dominate the kerojet market and four of these supply more than 70 percent of the fuel to airlines. ERA maintains that capital demands restrict entry and does not expect any changes in competition but some refiners and other commentors consider controls to be the restrictive factor and expect additional entrants into the market if kerojet is exempt from controls. The parties purchasing kerojet note increasing interest upon the part of potential new suppliers and increased supply availability. Sun Oil Co. has indicated an interest in reentering the kerojet market and some other refiners have indicated plans to look for new markets. The record suggests that there will be more competition in the future, particularly if controls are lifted.

Competition will tend to keep prices from increasing but most of the record suggests that there will be some increases. ERA projects a price increase of 1 cent per gallon if kerojet is exempted (plus any increase in crude costs). Price increases of 1-3 cents are suggested by one FBO. Several refiners in testimony to the ERA alleged that refiners need incentives to increase the output of kerojet. Whether price decontrol would be an adequate incentive was not stated.

The purchasers of kerojet (civilian airlines and FBO's) all support decontrol and are not concerned that prices to them will increase to the detriment of their operations. From the record would seem that the increase in kerojet prices in response to the exemption would be less than 10 percent. This is based on a review of the ERA analysis which gives the only quantification in the record plus the comments by other parties.

Foreign prices can, in some cases, serve as a brake on increases in domestic prices. ERA estimates that there is about a 4-cent difference between U.S. and foreign kerojet prices. If the kerojet prices increase more than 10 percent, imports, including bonded fuel, can become competitive.

4. *Objectives of section 4(b)(1) of the EPAA.* The same considerations that apply to avgas seem to apply to kerojet. Montana refers to an aviation fuels supply problem; the provision for protection to FBO's who need supplies to avoid emergencies should be considered for both avgas and kerojet when local conditions demand such protection.

5. *Potential economic impact.* Kerojet represents a much larger part of our energy use than avgas and therefore its impact will be more noticeable. The potential increased supply in response to exemption seems to be economically beneficial even when balanced against the expected small price increase. Kerojet prices, as noted above, are expected to increase less than 10 percent; fuels account for about 20 percent of the airlines operating cost so the impact on airline costs would appear to be less than 2 percent.

Airline concern seems to emphasize supply and suggest that the economic impact of slightly higher fuel prices would be offset by the operating advantages of an uncontrolled source of supply.

6. *Monitoring and transition.* One big difference of opinion that shows up in the consideration of kerojet is the question of monitoring and transition controls. All refiners oppose monitoring although some provide suggestions for monitoring if it is to be instituted. Airlines and airline associations, on the other hand, tend to call for monitoring at the same time they ask for decontrol. Transitional control is likewise opposed by refiners but supported by airlines; FBO's generally show no enthusiasm for either monitoring or controls.

ERA's opposition to monitoring is generally directed against monitoring with a trigger, a program for which there was no support in the record. ERA, either by itself or through EIA, will collect data that will enable it to follow price trends. Such monitoring without triggering is essential and should be part of the exemption program.

The transition program for kerojet seems to have less justification, except as noted in paragraph 4, above, for FBO's in unique circumstances. Airlines have demonstrated the ability to cope with supply problems and therefore it does not seem that they should need any transitional protection.

7. *Complaint procedures.* The record indicates that there is some confusion concerning the DOE method of handling complaints. DOE's present system has allowed for voluntary cooperation by suppliers to solve problems when this would prove more effective than operation of mandatory procedures. When free market forces take over and supplies move more freely, supply problems should be minimized, if ERA analysis is correct, and such a system may no longer be needed. In the short run, however, to provide for unforeseen events, this procedure should remain available as needed and the method of handling supply problems should be made known to the public.

CONCLUSION

The following correspondence sets forth the Commission's findings and conclusions and the final recommendation of the Commission.

By the Commission.

KENNETH F. PLUMB,
Secretary.

FEDERAL ENERGY REGULATORY COMMISSION,
Washington, D.C., September 6, 1978.

Hon. JAMES R. SCHLESINGER,
Secretary, Department of Energy,
Washington, D.C.

DEAR MR. SECRETARY: On June 22, 1978, you forwarded to the Federal Energy Regulatory Commission certain proposed amendments to the regulations under the Emergency Petroleum Allocation Act (EPAA) that would exempt aviation gasoline and kerosene-based jet fuel (kerojet) from both the mandatory pricing and allocation regulations. The commission has considered the proposed exemptions pursuant to Section 402(c)(1) of the Department of Energy Organization Act.

Based on our review of this matter the Commission has arrived at the conclusion that the methodology used to evaluate these matters is reasonable and the findings are appropriate. Accordingly, you are advised that the Commission has made the determination to concur in the proposals to exempt aviation gas and kerojet from the pricing and allocation regulations.

Although the data developed by the Economic Regulatory Administration (ERA) and the comments received by both the ERA and the FERC fully support the exemptions, both the data and the comments recognize that spot shortages of aviation fuels have existed and are likely to continue to exist. While the frequency and seriousness of these shortages cannot be accurately predicted, they remain a matter of concern.

The State of Montana's Department of Natural Resources and Conservation has submitted comments indicating that although supplies of "aviation products" appeared sufficient until recently, at the present time some fixed base operators in that State are having difficulty in obtaining suppliers. The letter (copy attached) was apparently not available to the ERA during its consideration of this matter. In addition, in both the ERA proceeding and proceedings before the Commission, the commercial airlines, although favoring the exemptions, request both a monitoring program and transitional controls for kerosene-based jet fuel.

In connection with the monitoring system, it is generally agreed that such a program should not contain a "trigger". In view of ERA's expressed intention to generally monitor prices of aviation fuel, the Commission does not conclude that a recommendation within the contemplation of § 404(b)

and § 404(c) of the DOE Act is necessary. However, the Commission believes that a monitoring program should be announced

Sincerely,

JOHN C. BRAUNBECK,
Fuel Allocation,

"United States Metric Board" to consist of part 500 to read as follows:

American Federation of Labor and Congress of Industrial Organizations or its successor who are representative of workers directly affected by metric

on behalf of the Board, or to take action on behalf of the Board, meet with members of the public or staff. Conference telephone calls that in-

(c) Disclose matters specifically exempted from disclosure by statute (other than section 552, Title 5, United States Code), provided, that such stat-

and § 404(c) of the DOE Act is necessary. However, the Commission believes that a monitoring program should be announced as part of the exemption and should be fully described by the ERA if the proposals are forwarded to Congress.

The possibility of a transitional program presents different problems. In this connection, the Commission is interested in the legal and administrative feasibility of a program more limited than Special Rule No. 4, adopted in connection with the exemption of motor gasoline. More specifically the Commission believes that you should consider the possibility of program applicable only to certain areas of the county. In this regard you may wish to examine whether such a program could be provided only upon request of a State or a State Energy office.

You are advised that the Commission has instructed the Secretary of the Commission to forward to you a letter stating its concurrence without recommendations in this proposal, unless, by noon, Friday, September 8, 1978, you advise the Commission that you wish to consult on any matter set forth in this letter.

Sincerely,

CHARLES B. CURTIS,
Chairman.

MONTANA DEPARTMENT OF NATURAL RESOURCES & CONSERVATION,
July 26, 1978.

Re Exemption of Aviation Jet Fuel and Gasoline from Federal Price and Allocation Regulation.

DEPARTMENT OF ENERGY,
FEDERAL ENERGY REGULATORY COMMISSION,
Washington, D.C.
Attn: Commission Secretary.

GENTLEMEN: The Montana State Fuel Allocation Office (MSFAO) hereby submits comments on removal of aviation products from price and allocation controls as noted in the July 3, 1978 Federal Energy Regulatory Commission (FERC) news release.

The MSFAO has closely followed DOE's aviation decontrol proceedings. The supply of aviation products appeared sufficient in Montana until approximately two months ago. Now, new fixed base operators are having difficulty obtaining suppliers. In addition, many small, established fixed-base operators are unable to secure priority fuel increases because of major oil company exchange problems.

Presently, the MSFAO understands that Phillips Petroleum Co. is unable to obtain aviation fuel from the Denver or Salt Lake City areas. If this is indeed the situation, DOE's findings of supply sufficiency is in error. Of immediate concern is the adequacy of supplies for forest fire fighting and other emergency situations. DOE, under the current regulations, has appointed Region X as the emergency aviation fuel problem cente for such situations in the Pacific Northwest. When decontrol is achieved, how will these emergencies be handled?

Because of major oil company withdrawals from the Montana marketing area, aviation fuel exchange capabilities will be greatly reduced with decontrol. Consequently, the small rural fixed-base operators will have a difficult time procuring supplies.

Prior to aviation fuel decontrol, the MSFAO hereby petitions FERC to investigate the above situations and provide emergency measures to deal with supply availability for fire fighting and small, fixed base operations.

Sincerely,

JOHN C. BRAUNBECK,
Fuel Allocation,
Montana Energy Division, DNRC.

DEPARTMENT OF ENERGY,
September 11, 1978.

Hon. CHARLES B. CURTIS,
Chairman, Federal Energy Regulatory Commission, Washington, D.C.

DEAR MR. CHAIRMAN: This is in response to your letter of September 6, 1978 to Secretary Schlesinger indicating the Commission's concurrence in the Secretary's proposal to exempt aviation fuel and kerosene-base jet fuel from mandatory price and allocation regulations. We appreciate the Commission's comments and suggestions regarding a price monitoring system and a transitional product allocation program to deal with localized shortages and will take these views into account in developing a final decontrol action. In light of the fact that the Commission's concurrence in the rule proposed by the Secretry is not subject ot any recommendations within the meaning of Section 404(b) of the Department of Energy Organization Act, I do not believe any further consultation beyond this exchange of letters in necessary.

Sincerely,

JOHN F. O'LEARY,
Deputy Secretary.

UNITED STATES METRIC BOARD

[15 CFR Part 500]

PROPOSED PROCEDURES FOR PUBLIC MEETINGS UNDER THE GOVERNMENT IN THE SUNSHINE ACT

Request for Public Comment

AGENCY: United States Metric Board.

ACTION: Proposed rule.

SUMMARY: The United States Metric Board proposes to adopt procedures for its public meetings in order to implement the Government in the Sunshine Act. Such procedures are intended to allow and encourage the public to observe the deliberations and decisions of the United States Metric Board to the maximum extent possible. Written comments concerning proposed procedures are invited from interested persons.

DATE: All relevant materails received on or before October 16, 1978, will be considered.

ADDRESS: Mail comments to: United States Metric Board, Magazine Building, Suite 301, 1815 North Lynn Street, Arlington, Va. 22209.

FOR FURTHER INFORMATION CONTACT:

John Tascher, 703-235-1933.

Title 15 of the Code of Federal Regulations is proposed to be amended by establishing chapter V to be entitled "United States Metric Board" to consist of part 500 to read as follows:

PART 500—PUBLIC MEETING PROCEDURES OF THE UNITED STATES METRIC BOARD

Sec.
500.1 Purpose and scope.
500.2 Definitions.
500.3 Open meetings.
500.4 Grounds on which meetings may be closed, or information may be withheld.
500.5 Procedure for announcing meetings.
500.6 Procedure for closing meetings.
500.7 Transcripts, recordings, and minutes of meetings.
500.8 Enforcement and review.

AUTHORITY: 5 U.S.C. 552b(g); Pub. L. 94-168, 89 Stat. 1007 (15 U.S.C. 205a-205k).

§ 500.1 Purpose and scope.

It is the policy of the United States Metric Board to provide the public with the fullest practicable information regarding its decisionmaking processes. It is the purpose of these regulations to provide the public with such information while protecting the rights of individuals and the Board's ability to carry out its responsibilities. Accordingly, these procedures apply to all meetings of the United States Metric Board, including committees of the Board. Every portion of every Board meeting will be open to public observation, except as otherwise provided in these regulations.

§ 500.2 Definitions.

As used in this part:

"Board" or "United States Metric Board" means the collegial body that conducts the business of the United States Metric Board, as specified in section 5 of Pub. L. 94-168 (15 U.S.C. 205d), consisting of:

(a) The Chairman, a qualified individual who shall be or has been appointment by the President, by and with the advice and consent of the Senate;

(b) Sixteen members who shall be or have been appointed by the President, by and with the advice and consent of the Senate, on the following basis—

(1) One selected from lists of qualified individuals recommended by engineers and organizations representative of engineering interests;

(2) One selected from lists of qualified individuals recommended by scientists, the sceientific and technical community, and organizations representative of scientists and technicians;

(3) One selected from a list of qualified individuals recommended by the National Association of Manufacturers or its successor;

(4) One selected from a list of qualified individuals recommended by the U.S. Chamber of Commerce, or its successor, retailers, and other commercial organizations;

(5) Two selected from a list of qualified individuals recommended by the

American Federation of Labor and Congress of Industrial Organizations or its successor who are representative of workers directly affected by metric conversion, and by other organizations representing labor;

(6) One selected from a list of qualified individuals recommended by the National Governors Conference, the National Council of State Legislatures, and organizations representative of State and local government;

(7) Two selected from a list of qualified individuals recommended by organizations representative of small business;

(8) One selected from a list of qualified individuals representative of the construction industry;

(9) One selected from a list of qualified individuals recommended by the National Conference on Weights and Measures and standards making organizations;

(10) One selected from a list of qualified individuals recommended by educators, the educational community, and organizations representative of educational interests; and

(11) Four at-large members to represent consumers and other interests deemed suitable by the President and who shall be qualified individuals.

"Chairman" means the presiding officer of the Board, appointed in accordance with section 5(b)(1), Pub. L. 94-168 (15 U.S.C. 205D(b)(1)).

"Committee" means any formally desgnated subdivision of the Board, consisting of at least two Board members, authorized to act on behalf of the Board, including the Board's standing committees and any ad hoc committees appointed by the Board for special purposes.

"Executive Director" means the individual appointed by the Board to serve as the chief executive officer of the Board, in accordance with section 10(a), Pub. L. 94-168 (15 U.S.C. 205i(a)).

"Meeting" means the deliberations of at least the number of individual voting members of the Board required to take action on behalf of the Board, where such deliberations determine or result in the joint conduct or disposition of official business of the Board, but does not include:

(a) Deliberations to open or close a meeting, to establish the time, place, and subject matter of a meeting, or to release or withhold information required or permitted by § 500.5 or § 500.6,

(b) Notation voting or similar consideration of matters whether by circulation of material to members individually in writing, or polling of members individually by telephone, telegraph, or similar mechanism, and

(c) Instances where individual members, authorized to conduct business on behalf of the Board, or to take action on behalf of the Board, meet with members of the public or staff. Conference telephone calls that involve the requisite number of members, and otherwise come within the definition, are included.

"Member" means a member of the Board.

"Staff" includes the employees of the United States Metric Board, other than the members of the Board.

§ 500.3 Open meetings.

(a) Members shall not jointly conduct or dispose of business of the board other than in accordance with these procedures. Every portion of every meeting of the Board shall be open to public observation subject to the exceptions provided in § 500.4.

(b) Open meetings may be attended by members of the Board, staff, and any other individual(s) or group(s) desiring to observe the meeting, provided that sufficient room is available to safely accommodate them. The Board shall exert its best efforts to assure that such room is available and therefore requests but does not require that those wishing to attend notify the Board in advance by phoning or writing the contact person identified in the Board's notice of the upcoming meeting.

(c) The public will be invited to observe and listen to the meeting, but not to participate unless specifically invited to do so by the Board and then only in accordance with such reasonable limitations and procedures as the Board shall specify.

§ 500.4 Grounds on which meetings may be closed, or information may be withheld.

Except in a case where the Board or one of its committees finds that the public interest requires otherwise, the open meeting requirement as set forth in the second sentence of § 500.3(a) shall not apply to any portion of a Board or committee meeting, and the informational disclosure requirements of §§ 500.5 and 500.6 shall not apply to any information pertaining to such meeting otherwise required by this part to be disclosed to the public, where the Board or committee, as applicable, properly determines that such portion or portions of its meetings or the disclosure of such information is likely to:

(a) Disclose matters that are (1) specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense of foreign policy and (2) in fact properly classified pursuant to such Executive order;

(b) Relate solely to the internal personnel rules and practices of the Board and its staff;

(c) Disclose matters specifically exempted from disclosure by statute (other than section 552, Title 5, United States Code), provided, that such statute (1) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (2) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(d) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(e) Involve accusing any person of a crime or formally censuring any person;

(f) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(g) Disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would (1) interfere with enforcement proceedings, (2) deprive a person of a right to a fair trial or an impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (5) disclose investigative techniques and procedures, or (6) endanger the life or physical safety of law enforcement personnel;

(h) Disclose information the premature disclosure of which would in the case of any agency, be likely to significantly frustrate implementation of a proposed agency action, except in any instance where the agency has already disclosed to the public the content or nature of its proposed action, or where the agency is required by law to make such disclosure on its own initiative prior to taking final agency action on such proposal; or

(i) Specifically concern the issuance of a subpena, or the Board's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Board of a particular case of formal Board adjudication pursuant to the procedures in section 554 of Title 5, United States code, or otherwise involving a determination on the record after opportunity for a hearing.

§ 500.5 Procedure for announcing meetings.

(a) Except to the extent that such

actual cost of duplication or transcription.

(3) The determination of the Board or General Counsel to withhold information and deny access to a transcript, recording, or minutes may be appealed to the General Counsel of the Board, if the determination was made by the Board, or to the Chairman, if the determination was made by the General Counsel. Appeals must be addressed to the General Counsel or Chairman, as appropriate, United States Metric Board, Suite 301, 1815 North Lynn Street, Arlington, Va. 22209, or to the Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Com-

§ 500.5 Procedure for announcing meetings.

(a) Except to the extent that such information is exempt from disclosure under the provisions of § 500.4, in the case of each Board or committee meeting, the Executive Director, acting at the Direction of the Board, shall submit for publication in the FEDERAL REGISTER, at least 7 days before the meeting, the following information:

(1) Time of the meeting,

(2) Place of the meeting,

(3) Subject matter of the meeting,

(4) Whether the meeting or parts of it are to be open or closed to the public, and

(5) The name and phone number of the person designated by the Board or committee to respond to requests for information about the meeting.

(b) The 7-day period for the public announcement required by paragraph (a) of this section may be reduced if a majority of the members of the Board or committee, as applicable, determine by a recorded vote that Board or committee business requires that such expedited meeting be called at an earlier date. In this case the Board or committee shall make public announcement of the time, place, and subject matter of such meeting, and whether open or closed to the public, at the earliest practicable time.

(c) The time or place of a meeting may be changed following the public announcement required by paragraph (a) of this section only if the Executive Director, acting at the direction of the Board or one of its committees, publicly announces such change at the earliest practicable time. Such change need not be voted on by the members.

(d) The subject matter of a meeting or the determination of the Board or committee, as applicable, to open or close a meeting, or portion of a meeting, to the public, may be changed following the public announcement required by paragraph (a) of this section, only if (1) a majority of the entire voting membership of the Board or committee determines by a recorded vote that Board or committee business so requires and that no earlier annoucement of the change was possible, and (2) the Board or committee publicly announces such change and the vote of each member upon such change at the earliest practicable time.

(e) Immediately following each public announcement required by this section, notice of the time, place and subject matter of a meeting, whether the meeting is open or closed, any change in one of the preceding, and the name and phone number of the person designated by the Board or committee to respond to requests for information about the meeting, shall be submitted for publication in the FEDERAL REGISTER.

§ 500.6 Procedure for closing meetings.

(a) Action to close a meeting or a portion thereof, pursuant to the exemptions set forth in § 500.4, shall be taken only when a majority of the entire voting membership of the Board or committee, as applicable, votes to take such action.

(b) A separate vote of the Board or committee members shall be taken with respect to each Board or committee meeting, a portion or portions of which are proposed to be closed to the public pursuant to § 500.4, or with respect to any information which is proposed to be withheld under § 500.4.

(c) A single vote of the Board or committee may be taken with respect to a series of meetings, a portion or portions of which are proposed to be closed to the public, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular matters and is scheduled to be held no more than 30 days after the initial meeting in such series.

(d) Whenever any person whose interests may be directly affected by a portion of a meeting requests that the Board or a committee close such portion to the public under any of the exemptions relating to criminal accusation or censure, personal privacy, or law enforcement information, as referred to respectively in paragraph (e), (f), (g) of § 500.4, the Board or committee, as applicable, upon request of any one of its members, shall vote by recorded vote, at the earliest practicable time, whether to close such meeting, to delete the relevant subject matter from the meeting agenda, or to delay discussion of the relevant subject matter to a subsequent meeting. Any resulting changes shall be announced in accordance with § 5 of these regulations.

(e) The vote of each member, taken pursuant to paragraph (a), (b), (c), or (d) of this section, shall be recorded, and may be by notation voting, telephone polling, or similar mechanism. Within 1 day of any such vote, the Board or committee shall make publicly available a written copy of the vote reflecting the vote of each member on the question. If a portion of a meeting is to be closed to the public, the Board or committee shall, within 1 day of the vote taken, pursuant to paragraph (a), (b), (c), or (d) of this section, make publicly available a full written explanation of its action closing the portion together with a list of all persons expected to attend the meeting and their affiliation. The information required by this paragraph shall be disclosed except to the extent it is exempt from disclosure under the provisions of § 500.4.

(f) For every meeting closed pursuant to § 500.4, the General Counsel of the United States Metric Board shall certify that, in his or her opinion, the meeting may be closed to the public and shall state each relevant exemptive provision. A copy of such certification, together with a statement from the presiding officer of the meeting setting forth the time and place of the meeting, and the persons present, shall be retained by the Board as part of the transcript, recording or minutes required by § 500.7.

§ 500.7 Transcripts, recordings, and minutes of meetings.

(a) The Board shall maintain a complete transcript or electronic recording adequate to record fully the proceedings of each meeting, or portion of a meeting, closed to the public, except that in the case of a meeting closed to the public pursuant to paragraph (i) of § 500.4, the Board shall maintain either such a transcript or recording, or a set of minutes.

(b) Where minutes are maintained they shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of any actions taken, and the reasons for such actions, including a description of each of the views expressed on any item and the record of any rollcall vote (reflecting the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

(c) The Board shall maintain a complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording of each meeting or portion of a meeting, closed to the public, for a period of at least 2 years after such meeting, or until 1 year after the conclusion of any Board proceeding with respect to which the meeting or portion was held, whichever occurs later.

(d) Public availability of such records shall be as follows:

(1) At the earlies practicable time the Board shall make available to the public, in its offices located at 1815 North Lynn Street, Arlington, Va. 22209, the transcript, electronic recording, or minutes of the discussion of any item on the agenda, or of any item of the testimony of any witness received at the meeting except for such item or items of such discussion or testimony as the Board or its General Counsel determines to contain information which may be withheld under § 500.4.

(2) Copies of such transcript, or minutes, or a transcription of such recording disclosing the identity of each speaker, shall be available at the

actual cost of duplication or transcription.

(3) The determination of the Board or General Counsel to withold information pursuant to paragraph (d)(1) of this section may be appealed to the Board. The Board shall make a final determination to withhold or release the requested information no later than at its next regularly scheduled meeting following the date of receipt of a written request for review. Such a request shall be deemed received by the Board when it has arrived at the offices of the Board in a form that describes in reasonable detail the material sought.

§ 500.8 Enforcement and review.

In addition to the right of appeal specified in § 500.7(d)(3) of these regulations, any person may bring an action to enforce these regulations and the relevant related provisions of the Government in the Sunshine Act, Pub. L. 94-409, 90 Stat. 1241, 5 U.S.C. 552b, in accordance with the provisions of that Act. Review of Board action related to these regulations may also be had in the same manner.

Dated at Arlington, Va., this 12th day of September 1978.

For United States Metric Board.

MALCOLM E. O'HAGAN,
Executive Director.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 762 3048]

CORNING GLASS WORKS, OWENS-ILLINOIS, INC.

Consent Agreements with Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreements.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, these provisionally accepted agreements, among other things, would require Corning, N.Y., and Toledo, Ohio manufacturers and distributors of disposable glass culture tubes to make bona fide efforts to identify and provide proper restitution to eligible end-user customers who had failed to receive the amount of disposable glass tubes specified on packaging.

DATE: Comments must be received on or before November 13, 1978.

ADDRESS: Comments should be directed to Office of the Secretary, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Harvey Saferstein, Director, Los Angeles Regional Office, Federal Trade Commission, 11000 Wilshire Boulevard, Los Angeles, Calif., 90024, 213-824-7575.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreements containing consent orders to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, have been placed on the public record, together with material submitted to the Commission that is not exempt from public disclosure under the Freedom of Information Act, for a period of 60 days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14).

[File No. 762 3048]

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

CORNING GLASS WORKS

The Federal Trade Commission having initiated an investigation of certain acts and practices of Corning Glass Works, a corporation, hereinafter sometimes referred to as proposed respondent, and it appearing that proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being invetigated,

It is hereby agreed by and between Corning Glass Works, by its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Corning Glass Works is a corporation organized, existing and doing business under and by virtue of the laws of the State of New York, with its principal office and place of business located at Houghton Park, Corning, N.Y. 14830.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives: (a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and it understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order, and that it may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

ORDER

I. *It is ordered*, That respondent Corning Glass Works, a corporation, its successors and assigns, and its officers, agents, representatives and employees, in connection with the manufacture, distribution or sale of disposable glass culture tubes in or affecting commerce, as "commerce" is defined in the Federal Trade Commissison Act, do forthwith cease and desist from failing to:

1. Make a bona fide effort, with the voluntary cooperation of each of its dealers, to identify all purchases of disposable glass culture tubes manufactured by respondent in sizes 10×75, 12×75 and 13×100 mm, by each such dealer's end-user customers between January 1, 1974, and December 31, 1975.

2. Make a refund to each person, partnership or corporation so identified as an end-user purchaser of the said products by (a) delivering or causing to be delivered a quantity of disposable culture tubes equal to 2.5 percent of the total of such tubes purchased by such end-user purchaser, (b) paying an amount of money equal to 2.5 percent of the total price paid for such tubes by such end-user purchaser, or (c) a combination of said methods, at respondent's option.

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix A to this order.

4. Maintain for a period of three years after the date of this order, and upon request make available to the Federal Trade Commission for inspection and copying, records adequate to show the manner and form of its compliance with this order, including but not limited to, a list of all persons, partnerships or corporations identified as end-user purchasers of disposable glass culture tubes, the amount of refund paid to each such person, partnership or corporation, and the date of payment.

5. Notify the Federal Trade Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

6. File with the Federal Trade Commission within sixty (60) days after service upon it of this order, and at such other times as the Federal Trade Commission may by written notice require, a report in writing, setting forth in detail the manner and form in which it has complied with this order.

II. *It is further ordered*, That respondent Corning Glass Works, a corporation, its successors and assigns, and its officers, agents, representatives and employees, in connection with the manufacture, distribution or sale of disposable glass culture tubes in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to:

1. Make a bona fide effort, with the voluntary cooperation of each of its dealers, to identify all purchases of disposable glass culture tubes manufactured by respondent in sizes 10×75, 12×75 and 13×100 mm, by each such dealer's end-user customers between April 1, 1974, and December 31, 1975.

2. Make a refund to each person, partnership or corporation so identified as an end-user purchaser of the said products by (a) delivering or causing to be delivered a quantity of disposable culture tubes equal to 2.5 percent of the total of such tubes purchased by such end-user purchaser, (b) paying an amount of money equal to 2.5 percent of the total price paid for such tubes by such end-user purchaser, or (c) a combination of said methods, at respondent's option.

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix B to this order.

4. Maintain for a period of three years after the date of this order, and upon request make available to the Federal Trade Commission for inspection and copying, records adequate to show the manner and form of its compliance with this order, including but not limited to, a list of all persons, partnerships or corporations identified as end-user purchasers of disposable glass culture tubes, the amount of refund paid to each such person, partnership or corporation, and the date of payment.

5. Notify the Federal Trade Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

6. File with the Federal Trade Commission within sixty (60) days after service upon it of this order, and at such other times as the Federal Trade Commission may by written notice require, a report in writing, setting forth in detail the manner and form in which it has complied with this order.

III. *It is further ordered*, That respondent Owens-Illinois, Inc., a corporation, its successors and assigns, and its officers, agents, representatives and employees, in connection with the manufacture, distribution or sale of disposable glass culture tubes in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to:

1. Make a bona fide effort, with the voluntary cooperation of each of its dealers, to identify all purchases of disposable glass culture tubes manufactured by respondent in sizes 10×75, 12×75 and 13×100 mm, by each such dealer's end-user customers between January 1, 1974, and December 31, 1975.

2. Make a refund to each person, partnership or corporation so identified as an end-user purchaser of the said products by (a) delivering or causing to be delivered a quantity of disposable culture tubes equal to 2.5 percent of the total of such tubes purchased by such end-user purchaser, (b) paying an amount of money equal to 2.5 percent of the total price paid for such tubes by such end-user purchaser, or (c) a combination of said methods, at respondent's option.

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix C to this order.

4. Maintain for a period of three years after the date of this order, and upon request make available to the Federal Trade Commission for inspection and copying, records adequate to show the manner and form of its compliance with this order, including but not limited to, a list of all persons, partnerships or corporations identified as end-user purchasers of disposable glass culture tubes, the amount of refund paid to each such person, partnership or corporation, and the date of payment.

5. Notify the Federal Trade Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

6. File with the Federal Trade Commission within sixty (60) days after service upon it of this order, and at such other times as the Federal Trade Commission may by written notice require, a report in writing, setting forth in detail the manner and form in which it has complied with this order.

IV. *It is further ordered*, That respondent Owens-Illinois, Inc., a corporation, its successors and assigns, and its officers, agents, representatives and employees, in connection with the manufacture, distribution or sale of disposable glass culture tubes in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to:

1. Make a bona fide effort, with the voluntary cooperation of each of its dealers, to identify all purchases of disposable glass culture tubes manufactured by respondent in sizes 10×75, 12×75 and 13×100 mm, by each such dealer's end-user customers between April 1, 1974, and December 31, 1975.

2. Make a refund to each person, partnership or corporation so identified as an end-user purchaser of the said products by (a) delivering or causing to be delivered a quantity of disposable culture tubes equal to 2.5 percent of the total of such tubes purchased by such end-user purchaser, (b) paying an amount of money equal to 2.5 percent of the total price paid for such tubes by such end-user purchaser, or (c) a combination of said methods, at respondent's option.

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix D to this order.

4. Maintain for a period of three years after the date of this order, and upon request make available to the Federal Trade Commission for inspection and copying, records adequate to show the manner and form of its compliance with this order, including but not limited to, a list of all persons, partnerships or corporations identified as end-user purchasers of disposable glass culture tubes, the amount of refund paid to each such person, partnership or corporation, and the date of payment.

5. Notify the Federal Trade Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

6. File with the Federal Trade Commission within sixty (60) days after service upon it of this order, and at such other times as the Federal Trade Commission may by written notice require, a report in writing, setting forth in detail the manner and form in which it has complied with this order.

[8010-01]

SECURITIES AND EXCHANGE COMMISSION

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix A hereto, or in such other form as may be approved by the Regional Director of the Commission's Los Angeles Regional Office.

II. *It is further ordered*, That respondent shall forthwith distribute a copy of this order to each of its operating divisions.

III. *It is further ordered*, That respondent notify the Commission at least 30 days prior to any proposed change in respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in respondent which may affect compliance obligations arising out of the order.

IV. *It is further ordered*, That the respondent herein shall within ninety (90) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

APPENDIX A

DEAR CUSTOMER: Following investigation by the Federal Trade Commission, Corning Glass Works had reason to believe that certain packages of disposable culture tubes sold by us between September 1973 and the fall of 1975 contained fewer tubes than the quantity specified. Several factors may have contributed to this situation including human error on our packing lines, slight variations in the tube diameter and our high speed manufacturing process. Fortunately, a careful audit of our disposable culture tube packages, conducted by our quality assurance people, indicated that the potential shortages were relatively small and that such shortages were limited to only 3 sizes—10×75, 12×75, and 13×100 mm. After learning of this problem and studying its causes, we took corrective action by changing to a slightly larger package in September 1975 and turning to an entirely different packaging concept early in 1976.

The above is Corning's version of the facts in this matter and has not been approved or adopted by the Commission or its staff.

We sincerely regret that this problem arose and wish to assure you that Corning Glass Works will strive to provide products of the highest quality and dependability at all times. Because of the impossibility of determining which customers may have purchased merchandise affected by this problem, we have voluntarily agreed with the Federal Trade Commission to make an across-the-board refund of 2.5 percent of your purchases of these tubes during the years 1974 and 1975. [Enclosed is a check for —— representing your purchases of such products from ———— (dealer's name) ———— during 1974 and 1975. If you purchased these sizes of tubes from more than one dealer, you may be receiving more than one separate check in the mail.[1]

If you have any questions you may write directly to Edmund M. Olivier, Vice-President and General Manager, Science Products Division, Corning Glass Works; Corning, N.Y. 14830 or call 607-974-4126. We hope you feel we have compensated you for any shortage you may have experienced.

Very truly yours,

R. MICHAEL WORLEY,
Marketing Manager,
Disposable Glassware.

You will be receiving a shipment of tubes within the near future which represents 2.5 percent of your purchase from ———— (dealer's name) during the years 1974 and 1975. If you purchased these sizes of tubes from more than one dealer you may receive more than one glass shipment.

[1] Alternative language to that in brackets above.

OWENS-ILLINOIS, INC., & KIMBLE DIVISION OF OWENS-ILLINOIS, INC.

[File No. 762 3048]

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The Federal Trade Commission having initiated an investigation of certain acts and practices of Owens-Illinois, Inc., a corporation trading and doing business under its own name and as Kimble Division of Owens-Illinois, Inc., hereinafter sometimes referred to as proposed respondent, and it appearing that proposed respondent is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated,

It is hereby agreed by and between Owens-Illinois, Inc., by its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Owens-Illinois, Inc., is a corporation organized, existing and doing business under and by virtue of the laws of the State of Ohio, trading and doing business under its own name and as Kimble division of Owens-Illinois, Inc., with its principal office and place of business located at the Owens-Illinois Building, Madison Avenue, Toledo, Ohio 43666.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and it understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order, and that it may be liable for a civil penalty in the amount provided by law for each violation of the order after it becomes final.

8. Notwithstanding any other provision of this agreement, the order contained herein shall not become final within the meaning of the Federal Trade Commission Act, as amended, unless and until the Commission shall have issued a final order against Corning Glass Works in connection with an investigation of that company undertaken by the Commission's Los Angeles Regional Office involving alleged practices similar to those alleged in the draft of complaint attached hereto, which order shall contain provisions substantially equivalent to the provisions of the order contained herein except for those portions of section I (including appendix A) thereof which pertain peculiarly to the alleged practices of proposed respondent, e.g., specific tube sizes, dates and refund rates. In the event that the Commission shall issue a final order against Corning Glass Works which contains provisions (other than the excepted portions of section I (including appendix A) referred to above) more favorable to that respondent than the corresponding provisions of the order contained herein, proposed respondent Owens-Illinois, Inc., shall have the right to renegotiate the provisions of the order contained herein to substitute any more favorable provisions [other than the excepted portions of Section I (including appendix A) referred to above] of the order against Corning Glass Works.

ORDER

I. *It is ordered*, That respondent Owens-Illinois, Inc., a corporation trading and doing business under its own name, as Kimble Division of Owens-Illinois, Inc., or under any other name or names, its successors and assigns, and its officers, agents, representatives and employees, in connection with the manufacture, distribution or sale of disposable glass culture tubes in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from failing to:

1. Make a bona fide effort, by soliciting the voluntary cooperation of each of its dealers, to identify all purchases of disposable glass culture tubes, except the 6 x 50 mm size, manufactured by respondent, by each such dealer's end-user customers between April 1, 1974, and December 31, 1975.

2. Make a refund to each person, partnership or corporation so identified as an end-user purchaser of the products referred to in 1., above, by (a) delivering or causing to be delivered a quantity of disposable culture tubes equal to 0.75 percent of the total of such tubes purchased by such end-user purchaser during such period; (b) paying an amount of money equal to 0.75 percent of the total price paid for such tubes by such end-user purchaser, if such price information is obtainable from the dealer (otherwise, such refund shall be based upon respondent's suggested consumer prices during such period; for this purpose a customer's purchase of tubes of a particular size for each time period shown on the records furnished by the dealer shall be deemed to be a single shipment); or (c) a combination of said methods, at respondent's option.

3. At or prior to the time of making the refund under 2., above, send to each such recipient of a refund, an announcement worded substantially as set forth in appendix A hereto.

II. *It is further ordered*, That respondent shall forthwith distribute a copy of this order to each of its operating divisions.

III. *It is further ordered*, That respondent notify the Commission at least 30 days prior to any proposed change in respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in respondent to the extent that any such change may affect compliance obligations arising out of the order.

IV. *It is further ordered*, That the respondent herein shall within ninety (90) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

APPENDIX A

DEAR CUSTOMER: Our Kimble disposable glass culture tubes are packaged in trays designed to hold 250 or 125 tubes each (depending on tube size), then boxed four trays to a carton. Following investigation by the Federal Trade Commission, it has been discovered that during the period from April 1, 1974, to December 31, 1975, because of our high-speed packing methods, a misalignment of the tubes could result in a count of fewer than 250, or 125, tubes, depending on size, in one or more of the four inner trays in a particular carton. Since such discovery was made we have taken appropriate corrective action.

The above is O-I's version of the facts in this matter and has not been approved or adopted by the Commission or its staff.

We sincerely regret that this problem arose and wish to assure you that Owens-Illinois, Inc. will strive to provide products of the highest quality and dependability at all times. Because of the impossibility of determining which customers may have purchased merchandise affected by this problem, we have voluntarily agreed with the Federal Trade Commission to make an across-the-board refund of 0.75 percent of your purchases of these tubes during the period from April 1, 1974, through December 31, 1975. [Enclosed is a check for —— representing 0.75 percent of your purchases of such products from ———— (dealer's name) during such period. If you purchased these sizes of tubes from more than one dealer, you may be receiving more than one separate check in the mail.][2]

If you have any questions you may write directly to Mr. E. W. Metz, Owens-Illinois, Inc., P.O. Box 1035, Toledo, 43666 or call 419-242-6543. We hope you feel we have compensated you for any shortage you may have experienced.

Very truly yours,

You will be receiving a shipment of tubes within the near future which represents 0.75 percent of your purchases from ———— (dealer's name) during such period. If you purchased these sizes of tubes from more than one dealer you may receive more than one glass shipment.

[2] Alternative language to that in brackets above.

[File No. 762-3048]

CORNING CLASS WORKS OWENS-ILLINOIS, INC.

ANALYSIS OF PROPOSED CONSENT ORDERS TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted agreements to proposed consent orders from Corning Glass Works and Owens-Illinois, Inc.

The proposed consent orders have been placed on the public record for sixty (60) days for reception of comments by the public. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will review the agreements and the comments received and will decide whether it should withdraw from the agreements or make final the agreements' proposed orders.

Corning Glass Works is a New York corporation; Owens-Illinois, Inc., is an Ohio corporation trading and doing business as Kimble Division of Owens-Illinois, Inc. They manufacture, distribute and sell disposable glass culture tubes.

The complaint alleges that the corporations manufactured and distributed boxes, carton or packages labeled as containing not less than 1,000 tubes, when, in fact, certain of the boxes, cartons or packages contained less than 1,000 tubes.

The consent order requires Corning to make restitution, in cash or tubes, to purchasers of three sizes of tubes, in the amount of 2.5 percent of their purchases in the years 1974 and 1975. It requires Owens-Illinois to make restitution, in cash or tubes, to purchasers of all but one size of tubes, in the amount of 0.75 percent of their purchases from April 1, 1974 to December 31, 1975.

The order is generally designed to compensate the corporations' customers for the short-count packages they may have bought.

The purpose of this analysis is to facilitate public comment on the proposed order and it is not intended to constitute an official interpretation of the agreement and proposed order to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17CFR Part 230]

[Release No. 33-5976]

PRIVATE PLACEMENT EXEMPTIVE RULE

AGENCY: Securities and Exchange Commission

ACTION: Withdrawal of proposal.

SUMMARY: The Commission is withdrawing a proposed amendment to its private placement exemptive rule which would have prohibited persons who receive compensation from the issuer in connection with the offering from also serving as an offeree representative. This action is taken in response to the public comments received urging that the proposal not be adopted.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard K. Wulff, Division of Corporation Finance, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-1240.

SUPPLEMENTARY INFORMATION: In Securities Act Release No. 5913 (Mar. 6, 1978) (43 FR 10701), the Commission published for comment proposed amendments to rule 146 (17 CFR 230.146) which would prohibit persons who receive compensation from the issuer in connection with an offering made in reliance upon the rule from also serving as offeree representatives, and would revise the disclosure requirements under the rule when an offering did not exceed $500,000. In a related action announced today, the Commission has adopted an amendment to rule 146 regarding the disclosure requirements for an offering not exceeding $1,500,000. See Securities Act Release No. 33-5975 under rules and regulations in this issue.

Under the proposal to amend subparagraph (a) of rule 146 a person receiving compensation directly or indirectly from an issuer in connection with an offering effected in reliance upon the rule would not qualify as an offeree representative. In response to the Commission's invitation to comment upon this proposal 27 commentators submitted their views. The comments opposed adoption of the proposal indicating a counterproductive effect which would do little in the interest of investor protection but further limit issuer reliance upon the rule. The commentators also believed adoption of the proposal would signifi-

cantly increase the costs involved in a rule 146 placement. Contrary to the

V 43 / 180 SEP 15 1978

cantly increase the costs involved in a rule 146 placement. Contrary to the statements set forth in release No. 33-5913, it was submitted that an offeree representative, even when compensated by the issuer, owes significant loyalty to his customer and that any potential conflict of interest is adequately balanced by full disclosure of the arrangements.

The commentators highlighted the fact that the Securities Act is a disclosure statute and that the proposal is contrary to the philosohpy embodied in the Act. In short, it was submitted that the disclosure of compensation arrangements with the issuer is sufficient to counter the potential conflict of interest. Moreover, it was asserted that loyalties do run, in the main, to the offeree rather than the issuer and that independence is not compromised in spite of the fee. A recurrent concern of the commentators was the increased costs attendant upon the implementation of the proposed amendment. Perhaps most important were the comments indicating that the proposal, if adopted, would discourage use of rule 146, inhibit the raising of capital, adversely affect the quality and cost of investment advice and eliminate the use of offeree representatives, all to the detriment of investors.

The Commission has considered the comments and agrees that the proposal should not be adopted.

In consideration of the foregoing, the proposal published in the FEDERAL REGISTER (43 FR 10701) on March 6, 1978, and circulated as Securities Act Release No. 5913 regarding the amendment of Rule 146 (a) "Offeree Representative" is hereby withdrawn.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

Customs Service

[19 CFR Part 177]

[541805/520715]

DUTIABLE STATUS OF "PIRATED" OR "STOLEN" RESEARCH AND DEVELOPMENT COSTS

Proposed Change of Position

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Proposed change of position.

SUMMARY: This document gives notice that the Customs Service is considering changing its present position of not including "pirated" or "stolen" research and development costs as part of the dutiable value of imported merchandise. This change in position is being considered because the current position of the Customs Service appears to conflict with the principles announced in Customs Court decisions and with the practice of including "assists" as part of the dutiable value of the merchandise.

DATES: Comments must be received on or before: November 14, 1978.

ADDRESS: Comments should be addressed to the Commissioner of Customs, Attention: Regulations and Legal Publications Division, 1301 Constitution Avenue NW., Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT:

Thomas L. Lobred, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-2983.

SUPPLEMENTARY INFORMATION:

BACKGROUND

It has been the position of the Customs Service not to include "pirated" or "stolen" research and development (R. & D.) costs as part of the dutiable value of imported merchandise, because the "pirate-company" (the producer of the merchandise using the "pirated" or "stolen" R. & D.) does not incur actual R. & D. costs in producing the merchandise. However, "assists", such as molds or R. &. D. costs, are unformly dutiable if otherwise provided to the producer in the normal course of business. In this context, the term "assists" is used to described anything of value acquired by or furnished to a foreign manufacturer, producer, or assembler at less than its full cost or value for use in the production, manufacture, or assembly of the imported merchandise. See T.D. 77-297.

The U.S. Customs Court, in *Ford Motor Company* v. *United States*, 29 Cust. Ct. 553 (1952), stated that the purpose of the applicable section of the value law is to derive "not the manufacturer's actual cost, but the actual cost of manufacturer" when determining the cost of production of imported merchandise. A similar rule was made applicable to constructed value determinations by the Customs Court in *Goodrich-Gulf Chemicals Inc.* v. *United States*, 66 Cust. Ct. 509 (1970). In view of these decisions and the Customs position that R. & D. costs are dutiable as "assists", Customs believes that the origin of an "assist" should not be considered in determining dutiable value. "Pirated" or "stolen" R. & D. costs which are necessary for the production of the merchandise should be considered dutiable "assists". Information concerning a process or idea which has become part of the public domain, however, is not included in determining dutiable value, because the information is freely available to anyone without incurring R. & D. costs.

PROPOSED CHANGE OF POSITION

The Customs Service is considering a change in its position of not including "pirated" or "stolen" R. & D. costs as part of the dutiable value of imported merchandise. The Customs Service proposes that "pirated" or "stolen" R. & D. costs be considered dutiable "assists" to be included as part of the dutiable value of imported merchandise.

AUTHORITY

This notice is published in accordance with § 177.10(c)(2) of the Customs Regulations (19 CFR 177.10(c)(2)).

COMMENTS

Pursuant to § 177.10(c)(1) of the Customs Regulations (19 CFR 177.10(c)(1)), the Customs Service invites written comments (preferably in triplicate) on this proposed change from all interested parties.

All comments received in response to this notice will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) during regular business hours at the Regulations and Legal Publications Division, Headquarters, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

DRAFTING INFORMATION

The principal author of this notice was Carmen D. Hawkins, Regulations and Legal Publications Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices of the Customs Service participated in its development.

Dated: September 11, 1978.

LEONARD LEHMAN,
Assistant Commissioner, Regulations and Rulings.

INCOME TAX

Treatment of Losses From Certain Guarantee Agreements

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the treatment of losses resulting from payments made in discharge of certain guarantee agreements. Changes to the applicable tax law were made by the Tax Reform Act of 1976. The Regulations would provide the public with the guidance needed to comply with the changes.

DATES: Written comments and requests for a public hearing must be delivered by . The amendments are proposed to be effective for losses incurred, on guarantee agreements made after December 31, 1975, in taxable years beginning after such date.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-255-76), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

William E. Mantle of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3459).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 166 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 605 of the Tax Reform Act of 1976 (90 Stat. 1575) (hereafter referred to as "the Act") and are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

REPEAL OF SECTION 166(F)

Section 605 of the Act repeals section 166(f) of the Code for losses incurred, on guarantees made after December 31, 1975, in taxable years beginning after such date. Section 166(f) dealt with agreements made by noncorporate taxpayers to guarantee the obligations of noncorporate borrowers if the proceeds of those obligations were to be used in the borrower's trade or business. The section provided, in part, that a payment by the guarantor in discharge of a guarantee obligation was to be treated as a business bad debt. Thus, the debt resulting from the payment under the guarantee was to be deductible as an ordinary loss even though the guarantee agreement did not arise in the course of the guarantor's trade or business.

NEW RULES

This notice of proposed rulemaking contains new rules to be applied to losses, on guarantee agreements made after December 31, 1975, in taxable years beginning after such date.

These new rules provide generally that if a guarantee agreement arose out of the guarantor's trade or business, the guarantor may treat a payment under the agreement as a business bad debt. If a guarantee agreement arose out of a transaction entered into for profit by the guarantor (and not as a part of the guarantor's trade or business), the guarantor may treat a payment under the agreement as a nonbusiness bad debt.

A payment may be treated as a bad debt under these rules only if the guarantee agreement was entered into in the course of the guarantor's trade or business or a transaction for profit, there was an enforceable duty upon the guarantor to make payment under the agreement, and the agreement was entered into before the obligation became worthless (or partially worthless). However, legal action need not have been brought against the guarantor.

A taxpayer must also demonstrate that he has received reasonable consideration for the guarantee agreement for a payment under the agreement to be treated as a bad debt. Reasonable consideration is not limited to direct consideration in the form of cash or property. Thus, if the guarantor can demonstrate that the guarantee was given without direct consideration in the form of cash or property but according to normal business practice or for a good faith business purpose, bad debt treatment is allowed if the conditions of these new rules are met. Consideration received from members of the guarantor's family must be direct consideration in the form of cash or property.

If the guarantor has a right of subrogation or other similar right against the borrower, bad debt treatment is not allowed until that right becomes worthless (or partially worthless in the case of a guarantee agreement which arose in the course of the guarantor's trade or business).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations is William E. Mantle of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

PROPOSED AMENDMENTS TO THE REGULATIONS

The proposed amendments to 26 CFR Part 1 are as follows:

§ 1.166 [Deleted]

PARAGRAPH 1. Section 1.166 and the historical note are deleted.

PAR. 2. Section 1.166-5 is amended by revising paragraph (c) to read follows:

§ 1.166-5 Nonbusiness debts.

* * * * *

(c) *Guaranty of obligations.* For provisions treating a loss sustained by a guarantor of obligations as a loss re-

ment made by the taxpayer in discharge of part or all of the taxpayer's obligation as a guarantor, endorser, or

(3) *Other applicable provisions.* Unless inconsistent with this section, other Internal Revenue laws concern-

approval of the order as a delayed compliance order.

DATE: Written comments must be re-

satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

SUMMARY: EPA proposes to approve an administrative order issued by the Commonwealth of Kentucky to United States Department of the

(c) *Guaranty of obligations.* For provisions treating a loss sustained by a guarantor of obligations as a loss resulting from the worthlessness of a debt, see §§ 1.166–8 and 1.166–9.

PAR. 3. Section 1.166-8 is amended by revising the caption and adding a new paragraph (d) at the end of the section. As revised, the section reads as follows:

§ 1.166–8 Losses of guarantors, endorsers, and indemnitors incurred on agreements made before January 1, 1976.

* * * * *

(d) *Effective date.* This section applies only to losses, regardless of the taxable year in which incurred, on agreements made before January 1, 1976.

PAR. 4. The following new section is added immediately after § 1.166–8:

§ 1.166–9 Losses of guarantors, endorsers, and indemnitors incurred, on agreements made after December 31, 1975, in taxable years beginning after such date.

(a) *Payment treated as worthless business debt.* This paragraph applies to taxpayers who, after December 31, 1975, enter into an agreement in the course of their trade or business to act as a guarantor, endorser, or indemnitor of a debt obligation. Subject to the provisions of paragraphs (c), (d), and (e) of this section, a payment made during a taxable year beginning after December 31, 1975, by the taxpayer in discharge of part or all of the taxpayer's obligation as a guarantor, endorser, or idemnitor is treated as a business debt becoming worthless in the taxable year in which the payment is made or in the taxable year described in paragraph (e)(2). Section 165 (relating to losses) shall not apply with respect to such a payment.

(b) *Payment treated as worthless nonbusiness debt.* This paragraph applies to taxpayers (other than corporations) who, after December 31, 1975, enter into a transaction for profit, but not in the course of their trade or business, to act as a guarantor, endorser, or indemnitor of a debt obligation. Subject to the provisions of paragraphs (c), (d), and (e) of this section, a payment made during a taxable year beginning after December 31, 1975, by the taxpayer in discharge of part or all of the taxpayer's obligation as a guarantor, endorser, or indemnitor is treated as a worthless nonbusiness debt in the taxable year in which the payment is made or in the taxable year described in paragraph (e)(2). Section 165 shall not apply with respect to such a payment.

(c) *Obligations issued by corporations.* No treatment as a worthless debt is allowed with respect to a payment made by the taxpayer in discharge of part or all of the taxpayer's obligation as a guarantor, endorser, or indemnitor of an obligation issued by a corporation if, on the basis of the facts and circumstances at the time the obligation was entered into, the payment constitutes a contribution to capital by a shareholder.

(d) *Certain payments not treated as worthless debts.* A payment in discharge of part or all of taxpayer's agreement to act as guarantor, endorser, or indemnitor of an obligation is to be treated as a worthless debt only if—

(1) The agreement was entered into in the course of the taxpayer's trade or business or a transaction for profit;

(2) There was an enforceable legal duty upon the taxpayer to make the payment (except that legal action need not have been brought against the taxpayer); and

(3) The agreement was entered into before the obligation became worthless (or partially worthless in the case of an agreement entered into in the course of the taxpayer's trade or business).

(e) *Special rules*—(1) *Reasonable consideration required.* Treatment as a worthless debt of a payment made by a taxpayer in discharge of part or all of the taxpayer's agreement to act as a guarantor, endorser, or indemnitor of an obligation is allowed only if the taxpayer demonstrates that he has received reasonable consideration for entering into the agreement. For purposes of this paragraph (e)(1), reasonable consideration is not limited to direct consideration in the form of cash or property. Thus, where a taxpayer can demonstrate that the agreement was given without direct consideration in the form of cash or property but in accordance with normal business practice or for a good faith business purpose, worthless debt treatment is allowed with respect to a payment in discharge of part or all of the agreement if the conditions of this section are met. However, consideration received from a taxpayer's spouse or any individual listed in section 152(a) must be direct consideration in the form of cash or property.

(2) *Right of subrogation.* With respect to a payment made by a taxpayer in discharge of part or all of the taxpayer's agreement to act as a guarantor, endorser, or indemnitor where the agreement provides for a right of subrogation or other similar right against the issuer, treatment as a worthless debt is not allowed until the taxable year in which the right of subrogation or other similar right becomes totally worthless (or partially worthless in the case of an agreement which arose in the course of the taxpayer's trade or business).

(3) *Other applicable provisions.* Unless inconsistent with this section, other Internal Revenue laws concerning worthless debts, such as section 111 relating to the recovery of bad debts, apply to any payment which, under the provisions of this section, is treated as giving rise to a worthless debt.

(f) *Effective date.* This section applies to losses incurred on agreements made after December 31, 1975, in taxable years beginning after such date. However, paragraph (c) of this section also applies to payments, regardless of the taxable year in which made, under agreements made before January 1, 1976.

JEROME KURTZ,
Commissioner of Internal Revenue.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 65]

[FRL 967-4; Docket No. DCO-78-25]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by the Commonwealth of Kentucky, Department for Natural Resources and Environmental Protection, to Owensboro Grain Co.

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the Commonwealth of Kentucky to Owensboro Grain Co. The order requires Owensboro Grain Co. to bring air emissions from its grain elevator in Owensboro, Ky., into compliance with certain regulations contained in the federally approved Kentucky State implementation plan (SIP) by March 1, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before October 16, 1978.

ADDRESSEES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Leon Folsom, Air Enforcement Branch, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, telephone 404-881-4298.

SUPPLEMENTARY INFORMATION: Owensboro Grain operates a grain elevator at its facility in Owensboro, Ky.

The order under consideration addresses fugitive emissions from various sources at the facility, which are subject to Kentucky air pollution control regulation 401 KAR 3:060, section 14(2). The regulation limits the emissions of particulate matter, and is part of the federally approved Kentucky State implementation plan. The order requires final compliance with the regulation by September 1, 1978, through the implementation of the following schedule for the construction or installation of control equipment:

(1) Commence onsite construction or installation of control equipment by June 1, 1978.

(2) Complete construction or installation of control equipment by August 20, 1978.

(3) Submit proof of final compliance by September 1, 1978.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. The source is required to submit monthly reports by the tenth (10th) of the month, beginning with the month following the date of signing this order, which reflect the actual hours and days the subject facilities are operated as well as listing throughput of grain for that month. As an interim control grain throughput shall not exceed 10,000 bushels per month for wheat and 1,000,000 bushels per month for corn.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Kentucky SIP. Compliance with the proposed order will not exempt the company from the requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order.

After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

(42 U.S.C. 7413, 7601.)

Dated: September 7, 1978.

JOHN C. WHITE,
Regional Administrator, Region IV.

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Approval of an Administrative Order Issued by the Commonwealth of Kentucky, Department for Natural Resources and Environmental Protection, United States Department of the Army, Headquarters U.S. Army Armor Center and Fort Knox

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the Commonwealth of Kentucky to United States Department of the Army, Headquarters U.S. Army Armor Center and Fort Knox (hereinafter referred to as "Fort Knox"). The order requires Fort Knox to bring air emissions from its asphalt plant and quarrying operations at Fort Knox, Ky., into compliance with certain regulations contained in the federally-approved Kentucky State Implementation Plan (SIP) by March 31, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the Federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before October 16, 1978.

ADDRESSES: Comments should be submitted to Director, Enforcement Division, EPA, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Richard S. DuBose, Air Enforcement Branch, U.S. Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, Telephone Number: 404-881-4298.

SUPPLEMENTARY INFORMATION: Fort Knox operates an asphalt plant and quarry at its facility at Fort Knox, Ky. The order under consideration addresses fugitive emissions from various sources at the facility, which are subject to Kentucky Air Pollution Control Regulation 401 KAR 3:060, section 14(2). The regulation limits the emissions of particulate matter and is part of the federally-approved Kentucky State Implementation Plan. The order requires final compliance with the regulation by March 31, 1979, through the implementation of the following schedule for the construction or installation of control equipment:

(1) Submit final control plan for achieving compliance with applicable regulation by September 1, 1978.

(2) Commence onsite construction or installation of control equipment by October 1, 1978.

(3) Complete construction or installation of control equipment by November 15, 1978.

(4) Submit proof of final compliance by December 1, 1978.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. The source is required to submit monthly reports by the tenth (10th) of the month, beginning with the month following the date of signing this order, which reflect the actual hours and days the subject facilities are operated as well as listing throughput of grain for that month. As an interim control grain throughput shall not exceed 10,000 bushels per month for wheat and 1,000,000 bushels per month for corn.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Kentucky SIP. Compliance with the proposed order will not exempt the company from the requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order.

After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[BC Docket No. 78-253; RM-3161]

FM BROADCAST STATIONS IN CLEWISTON, FLORIDA

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Channel 292A to Clewiston, Florida, as the community's first local FM broadcast service. The channel can be assigned in conformance with the minimum mileage separation requirements of the Commission's Rules. Petitioner has indicated that it will apply for the channel if it is assigned.

DATES: Comments must be filed on or before October 30, 1978, and reply comments on or before November 16, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Walker, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Clewiston, Florida), BC Docket No. 78-253, RM-3161.

1. The Commission has before it a petition for rule making filed by Hendry Broadcasting Company, Inc., licensee of Standard broadcast station WCNO, Clewiston, Florida, requesting the assignment of Channel 292A to Clewiston as the community's first local FM broadcast service. Petitioner has indicated that it will apply for the channel if it is assigned.

2. Channel 292A can be assigned to Clewiston in conformance with the minimum mileage separation requirements of the Commission's Rules. The coordinates for Channel 292A at Clewiston are North Latitude 26° 45' 30" and West Longitude 80° 56' 00".

3. Clewiston (population 7,000) is the seat of Hendry County (population 12,000) and is located in south central Florida, approximately 40 miles west of West Palm Beach. Petitioner states that Clewiston is the center of the sugar cane industry in Florida and that the area is also known for its cattle and citrus industries. Petitioner asserts that Clewiston has a need for a local FM broadcast service to provide a broadcast medium for the dissemination of local news and information.

4. Pursuant to the provisions of § 1.415 of the Commission's Rules and Regulations, interested parties may file comments on or before October 30, 1978, and reply comments on or before November 16, 1978.

5. This action is taken pursuant to sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as

tration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on

(2) Commence onsite construction or installation of control equipment by October 1, 1978.

(3) Complete construction or installation of control equipment by December 31, 1978.

(4) Submit proof of final compliance by March 31, 1979.

The source has consented to the terms of the order and has agreed to meet the order's increments during the period of this informal rulemaking. For interim controls, the source has agreed to:

(1) Use water trucks for suppression of dust on haul roads.

(2) Use temporary wet suppression system on the portable rock crusher.

(3) Use current control system on the main quarry crusher.

(4) Complete asphalt plant hook-up to baghouse by April 28, 1978. (Pug mill exhaust.) The asphalt plant will not be put into operation prior to the completion of the hook-up to the baghouse.

As an emission monitoring and reporting requirement, the source shall submit quarterly reports, beginning with April 1 through June 30, 1978, quarter, which reflect the actual hours and days the subject facilities are operated as well as documentation related to the fulfillment of the requirements for interim controls.

Because this order has been issued to a major source of particulate matter emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Clean Air Act (the Act). EPA may approve the order only if it satisfies the appropriate requirements of this subsection. EPA has tentatively determined that the above referenced order satisfies these requirements.

If the order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Kentucky SIP. Compliance with the proposed order will not exempt the company from the requirements contained in any subsequent revisions to the SIP which are approved by EPA.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order.

After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

The provisions of 40 CFR Part 65 will be promulgated by EPA soon, and will contain the procedure for EPA's issuance, approval, and disapproval of orders under section 113(d) of the Act. In addition, part 65 will contain sections summarizing orders issued, approved, and disapproved by EPA. A prior notice proposing regulations for part 65, published at 40 FR 14876 (April 2, 1975), will be withdrawn, and replaced by a notice promulgating these new regulations.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Proposed Tolerances for the Pesticide Chemical Carbaryl

AGENCY: Office of Pesticide Programs, Environmental Protection Agnecy (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that a tolerance be established for residues of the insecticide carbaryl on celery. The proposal was submitted by the Interregional Research Project. This amendment to the regulations would establish a maximum permissible level for residues of carbaryl on celery.

DATE: Comments must be received on or before October 16, 1978.

ADDRESS: Comments to: Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Strret SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Mrs. Patricia Critchlow, Registration Division (TS-767), Office of Pesticide Programs, EPA (202-755-2516).

SUPPLEMENTARY INFORMATION: The interregional Research Project No. 4 (IR-4), New Jersey State Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment stations of California, Florida, Michigan, New Jersey, and New York, has submitted a pesticide petition (PP 7E1935) to the EPA. This petition requests that the Administrator propose that 40 CFR 180.169 be amended by the establishment of a tolerance for combined residues of the insecticide carbaryl (1-naphthyl *N*-methylcarbamate) including its hydrolysis product 1-naphthol, calculated as 1-naphthyl *N*-methylcarbamate, in or on the raw agricultural commodity celery at 10 parts per million (ppm).

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerance included a rat oral lethal dose (LD_{50}) study with an LD_{50} of 510 milligrams (mg)/kilogram (kg) of body weight (bw), a 2-year rat study with a no-observable-effect level (NOEL) of 200 ppm, a one-year dog subchronic feeding study (negative at 10 mg/kg bw/day (the highest level fed), an 18-month mouse oncogenicity study (negative at 400 ppm) (the highest level fed), a three-generation rat reproduction study with an NOEL of 200 mg/kg bw/day, a Rhesus monkey teratology study (negative at 20 mg/kg bw/day) (highest exposure level) and a dog teratology study with a NOEL of 3 mg/kg and a dominant lethal mutagenicity in the rat (negative at 200 mg/kg) (the highest dose used). The acceptable daily intake (ADI) in man is 0.1 mg/kg bw/day based on the NOEL of the 2-year rat feeding study and a 100-fold safety factor.

Carbaryl is a candidate for a rebuttable presumption against registration (RPAR) since it may exceed the risk criteria described in 40 CFR 162.11(a)(3)(ii)(B) for some registered uses. However, the amount of carbaryl theoretically added to the diet from the proposed use, calculated to be 0.043 mg/day for a 1.5 kg/day diet, is too small to substantially increase the risk for man since it is only 1 percent of the theoretical maximal residue contribution (TMRC) from the tolerances which have previously been established on a variety of raw agricultural commodities at levels ranging from 100 ppm to zero ppm. The TMRC from these established tolerances is about 4 mg/day. Thus, the proposed tolerance is considered to pose a negligible increment in risk.

An adequate analytical method (colorimetry) is available for enforcement purposes, and the metabolism of carbaryl is adequately understood. No actions are currently pending against the continued registration of carbaryl, nor are there any desirable data lacking from the petition, nor any other considerations involved in establishing the proposed tolerance.

Any person who has registered, or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before October 16, 1978, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP7E1935/P90". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: September 8, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

(Section 408(e) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(e)].)

It is proposed that part 180, subpart C, section 180.169 be amended by alphabetically inserting celery at 10 ppm in the table to read as follows:

§ 180.169

Carbaryl; tolerances for residues.

Commodity	Parts per million
Celery	10

[47 CFR Part 1]

[Gen. Docket No. 78-205]

REIMBURSEMENT OF EXPENSES FOR PARTICIPATION IN COMMISSION PROCEEDINGS

Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of time for comments.

SUMMARY: The Commission is granting an extension of time in which to file comments and reply comments in the captioned proceeding. (43 FR 30834, July 18, 1978). The action is taken pursuant to requests made by organizations representing persons interested in this matter who wish to file comments. No further extensions of time are contemplated.

DATES: Comments must be received on or before October 16, 1978, and reply comments must be received on or before November 16, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Belle O'Brien, Office of Consumer Assistance, Room 258, 202-632-7000.

In the matter of reimbursement of expenses for participation in Commission proceedings; order extending time for filing comments.

Adopted: September 8, 1978.

Released: September 11, 1978.

By the General Counsel:

1. The Commission's notice of inquiry in this proceeding invited interested parties to submit comments on or before September 15, 1978, and reply comments on or before October 15, 1978.

2. The Federal Communications Bar Association (FCBA) and the law firm of McKenna, Wilkinson & Kittner (M.W. & K.) have requested that the time for filing comments be extended. The FCBA requests a 45-day extension of time for filing initial comments and M.W. & K. requests a 60-day extension.

3. We agree that an extension of time is justified. However, persons wishing to comment are informed by this order that no further extensions for the filing of comments or reply comments are contemplated.

4. *It is ordered*, that the date for filing comments in this proceeding, is extended through October 16, 1978, and for filing reply comments through November 16, 1978.

5. This action is taken pursuant to sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and sections 0.251(b) and 1.46 of the Commission's rules.

COMMERCIAL BROADCAST RENEWAL APPLICANTS AND NONCOMMERCIAL EDUCATIONAL BROADCAST APPLICANTS, PERMITTEES AND LICENSEES

Primers on Ascertainment of Community Problems

AGENCY: Federal Communications Commission.

ACTION: Further notice of proposed rulemaking.

SUMMARY: This action proposes to change the requirements contained in the Primer on Ascertainment of Community Problems by Noncommercial Educational Broadcast Applicants to indicate that noncommercial educational broadcasters are required to consult with any group which is significant in their communities even if the group is not already included in the 19 elements on the Community Leader Checklist. This action, which would have the effect of requiring that all significant community groups be contacted by noncommercial educational broadcasters, results from a petition filed by the National Gay Task Force.

DATES: Comments must be received on or before October 16, 1978, and reply comments on or before November 15, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Freda Lippert Thyden, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of the primers on ascertainment of community problems by commercial broadcast renewal applicants and noncommercial educational broadcast applicants, permittees and licensees.[1] Further notice of proposed rulemaking.

[1] Caption has been changed to reflect inclusion of the subject matter of this document.

Adopted: September 8, 1978.

Released: September 14, 1978.

By the Commission: Commissioner

lel change in the Primer for educational broadcast applicants. In view of the fact that the Community Leader provisions of the 1976 and Noncommercial

V 43 / 180 / 15 / 78 / SE

Adopted: September 8, 1978.

Released: September 14, 1978.

By the Commission: Commissioner Quello dissenting; Commissioner Washburn concurring in the result.

1. On August 8, 1978, we issued a notice of proposed rulemaking, (43 FR 35357, August 9, 1978), in this proceeding proposing to change language in the Primer on Ascertainment of Community Problem by Broadcast Renewal Applicants ("1976 Primer")[2] relating to the Community Leader Checklist. The comment and reply comment dates for that notice are October 16, and November 15, 1978.

2. In the above document, the Commission proposed to change language appearing in the *1976 Primer*, which sets forth the ascertainment requirements applicable to commercial broadcast license renewal applicants.[3] The *notice* proposes changing the Primer to indicate that these licensees have a responsibility to insure that all significant elements or institutions which are readily accessible within their community of license, whether or not they are one of the nineteen categories on the Community Leader Checklist, are ascertained. The Commission also proposed that other elements or institutions which might be significant in a particular community but not readily accessible be ascertained if their existence is brought to the attention of the licensee.

3. The same community leader ascertainment provisions in the 1976 Primer are found in the Primer on Ascertainment of Community Problems by Noncommercial Educational Broadcast Applicants ("Noncommercial Primer").[4] Both in 1976 and Noncommercial Primers provide for a Community Leader Checklist [5] containing 19 institutions and elements commonly found in a community.[6]

4. The proposal set out in the initial notice did not include making a parallel change in the Primer for educational broadcast applicants. In view of the fact that the Community Leader provisions of the 1976 and Noncommercial Primers are identical and the proposed changes would serve the same purposes in both cases, we believe that it is appropriate to propose the same modifications to the Noncommercial Primer as were proposed for commercial broadcasters in the initial notice. However, if filing parties believe there is any reason why commercial renewal and noncommercial broadcast applicants should be treated differently in this regard, they may so indicate.

5. Based on the foregoing discussion, and pursuant to the authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, it is proposed to amend the Primer on Ascertainment of Community Problems by Noncommercial Educational Applicants as described above.

6. Pursuant to applicable procedures set forth in sections 1.415 of the Commission's rules, interested parties may file comments on or before October 16, 1978 and reply comments on or before November 15, 1978. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding.

7. In accordance with the provisions of section 1.419 of the Commission's rules, an original and five copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. Members of the general public who wish to participate informally in the proceeding may submit one copy of their comments, specifying the docket number, including the entire designation (BC docket No. 78-237) in the heading. All filings made in this proceeding will be made available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C. 20554.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[FR Doc. 78-26049 Filed 9-14-78; 8:45 am]

[2] 57 FCC 2d 418 (1976).

[3] A separate Primer provides ascertainment guidelines for applicants for construction permits for new commercial broadcast stations. 27 FCC 2d 650 (1971).

[4] This primer applies to all noncommercial educational applications, renewal and otherwise. 58 FCC 2d 526 (1976).

[5] Whereas, applicants for construction permits for new commercial broadcast stations are not provided a checklist but rather are required to determine the composition of the community and select for consultations those community leaders that reflect that composition.

[6] See n. 2 of the initial notice in this proceeding for the list of elements. Consulting with one or more leaders in each of these elements creates a presumption of the adequacy of the community leader study. However, an applicant is permitted to show that one or more of these elements is not present in its community, and, at its option, it may utilize a category entitled "other" to interview leaders in elements not found on the checklist.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1060]

[Ex Parte No. MC-108]

TRANSPORTATION OF MOBILE HOMES

Proposed Rulemaking

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission is issuing proposed rules dealing with the practices of motor common carriers of mobile homes and their contents. The rules contain provisions concerning a carrier's liability for loss of or damage to a mobile home or its contents and require carriers to provide shippers, before a contract is signed, with an up-to-date copy of an information booklet, to be published by the Commission. These proposed regulations are designed to clarify the rights of shippers of mobile homes. During the course of this proceeding, the Commission will hold an informal conference on the proposed rules which will be open to anyone who wishes to attend.

DATE: Comments must be filed by November 14, 1978. Parties should indicate in their comments whether they wish to participate in the informal conference.

ADDRESS: An original and 15 copies, if possible, marked Ex Parte No. MC-108, should be forwarded to: Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak, phone 202-275-7693.

SUPPLEMENTAL INFORMATION: The Department of Defense (DOD) has petitioned the Commission to institute a rulemaking proceeding concerning practices of motor common carriers of mobile homes and their contents. The DOD petition states that carriers have engaged in the practice of including in their tariffs and bills of lading clauses purporting to limit their liability for loss or damage in violation of section 20(11) of the Interstate Commerce Act (the Act), 49 U.S.C. 20(11).

The Commission has looked into this matter and has found that, since the DOD petition was filed, mobile home carriers have removed the objectionable language from their tariffs and bills of lading. However, several other alleged practices of mobile home carriers have come to the Commission's attention. These alleged practices include the following:

(1) Carriers have denied liability on the basis of language in receipts signed by shippers on delivery of the mobile homes purportedly releasing the carriers from liability.

(2) Carriers have agreed, in exchange for the payment of an additional fee, to assume certain liability they would not otherwise incur, only to deny liability after damage occurs on the grounds that the additional fee was not paid prior to the time that the mobile home was shipped.

(3) Carriers have charged additional fees to assume liability for certain damage for which they would have been liable anyway.

(4) Carriers have delivered damaged mobile homes after dark without notifying the person receiving the mobile home that it has been damaged.

The Commission is not sure if these practices are isolated incidents or if they represent fairly widespread practices in the industry, and any individual who has encountered these practices or other questionable practices is encouraged to participate in this proceeding by filing comments describing the practices that they have encountered. Similarly, mobile home carriers are urged to submit any information that they may have concerning such practices.

The rules which the Commission is proposing in this proceeding have been kept short and simple. Sections 1060.1 and 1060.2 spell out carrier liability for loss or damage which occurs during the transportation of a mobile home and which is caused by the carrier or anyone engaged by it to transport or service the mobile home. The carrier's liability extends to loss of or damage to the contents of the mobile home, which is defined to include tires and equipment. Transportation includes incidental pickup and delivery and storage-in-transit.

Section 1060.3(a) responds to the original petition of the Department of Defense and bans the inclusion of any language in the carrier's tariffs or bills of lading purporting to limit the carrier's liability for loss of or damage to the mobile home or its contents.

Section 1060.3(b) contains the exception to § 1060.3(a) included in section 20(11) of the Act. A carrier may include in its tariffs or bills of lading provisions which limit its liability to a stated amount, in return for the performance of service at a reduced (released value) rate, or which require a shipper to declare the value of a shipment in return for an agreement by the carrier to assume liability up to, but not in excess of, the stated amount.

Section 1060.3(c) makes it clear that a carrier may offer, for an additional fee, to assume liability it would not otherwise incur. For example, carriers now agree, for an additional fee, to assume liability for loss or damage attributable to acts of God. The Commission would like to see carriers offer similar coverage for loss or damage resulting from inherent defects in a mobile home, and carriers are requested to comment on the feasibility of offering such coverage to shippers.

No language has been included in § 1060.3(c) banning the practice of charging an additional fee to assume liability which would be incurred anyway. The Commission does not believe it should be necessary to adopt such a rule in order to put a halt to such a patently illegal practice. The Commission hopes that the education of shippers through this rulemaking proceeding and the proposed information booklet will lead to the elimination of the practice. Language has been included in the provision, however, requiring carriers to notify any shipper who requests such additional coverage if he must pay the additional charge prior to the transportation of his mobile home.

Section 1060.4, which prohibits carriers from including language restricting liability in receipts to be signed on delivery of the mobile home, is patterned on § 1056.14 of the Commission's household goods regulations. It is included in the hope that it will prevent situations from arising in which carriers attempt to use language in receipts to avoid their liability.

Section 1060.5 requires carriers to provide shippers with an up-to-date copy of the Commission's Public Advisory No. 8. This advisory, which will be prepared during the course of this rulemaking proceeding, will contain all of the information which the Commission believes a prospective shipper of mobile homes should have. It is hoped that the booklet, by educating shippers to their rights, will help to alert them to practices which might violate those rights. Furthermore, the booklet will inform shippers as to how they can contact the Commission for assistance if they encounter any problems during or after the transportation of their mobile home. If carriers are engaging in questionable practices, the booklet should make it more likely that the Commission will find out about it, and if it develops that there is a need for further regulations, this proceeding can be reopened.

In recognition of the fact that many carriers transport mobile homes for regular customers, § 1060.5 does not require carriers to provide a copy of the information booklet each time they transport a mobile home for such customers.

Section 1060.6 requires certain information to be provided to the person who accepts delivery of the mobile home. The driver making the delivery must provide a written report stating the route followed in transporting the mobile home, the distance traveled, and the time elapsed. This information will be helpful to a shipper if a dispute develops concerning liability for damage to the mobile home during its transportation. For example, if warnings were posted in an area for high winds or flooding and the mobile home was transported through that area in spite of the warning, the carrier could be liable for any resultant damage, even though caused by an act of God. In such cases, the shipper should know the route that was taken.

Section 1060.6 also requires that notification be made at the time of delivery of any damage to the mobile home during its transportation. This provision is designed to prevent carriers from delivering damaged mobile homes after dark and not telling the person accepting delivery that any damage has occurred. The provision will also insure that the person accepting delivery is notified if the damage was related to any accidents, thefts, or natural disasters.

All persons are encouraged to study the rules set forth below and to submit comments on the rules themselves, the need for the rules, and the need for any additional rules. If anyone desires to attend an informal conference, to be held in Washington, D.C., to discuss the proposed rules, they should indicate their interest in their comments.

This proceeding is not a major Federal action signficantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Dated: August 24, 1978

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Murphy, Brown, Stafford, Gresham, and Clapp. Commissioner Clapp dissenting in part; Commissioner Murphy dissenting; and Commissioner Stafford dissenting.

H. G. HOMME, JR.,
Acting Secretary.

Commissioner Clapp, dissenting in part:

I am not convinced that the proposed rules are necessary. Essentially, these regulations embody the provisions of section 20(11) of the Act. I see no need for regulations reminding the mobile home carriers that section 20(11) applies to them. There is no evidence of widespread abuse by the mobile home carriers. If particular abuses were identified then specific regulations would be justified.

Further, proposed § 1060.3(b) is misleading. It can be read to approve released rates across-the-board for mobile home carriers. Section 20(11) allows released rates only if expressly authorized or required by order of the Commission. This section should be reworked.

I do agree with the proposal to require the carriers to provide prospective shippers with a copy of an information booklet explaining the carriers' obligations, the shippers' rights, and the Commission's role. This booklet would serve the purpose of the proposed regulations.

Commissioner Stafford, dissenting:

I find no justification for the proposed rulemaking. DOD's petition has been rendered moot by the voluntary

by it agrees, in return for an added charge, to assume liability it would not otherwise incur. However, if the tariff

SAND POINT

Alaska Department of Fish and Game, 99661.
Sand Point Community/School Library,

I find no justification for the proposed rulemaking. DOD's petition has been rendered moot by the voluntary action of the mobile home carriers. Moreover, the Commission has few complaints on file concerning practices within this segment of the transportation industry. To subject these carriers to a separate set of regulations is not warranted at this time. There is no hard data on which to base the specific rules. I believe the Commission's time should not be wasted on such a questionable rulemaking proceeding.

It is proposed that 49 CFR be amended by adding a new part 1060, as follows:

PART 1060—TRANSPORTATION OF MOBILE HOMES

Sec.
1060.1 General.
1060.2 Liability of carriers.
1060.3 Provisions in tariffs and bills of lading.
1060.4 Provisions in receipt signed by shipper or consignee.
1060.5 Information for shippers.
1060.6 Recordkeeping and reporting.

AUTHORITY: Secs. 20(11) and 219, ICC Act, 49 U.S.C. 20(11) and 319; sec. 553, Administrative Procedures Act.

§ 1060.1 General.

These regulations apply to the transportation of mobile homes and their contents (including tires and other equipment) by motor common carriers engaged in interstate or foreign commerce. As used in this part, transportation includes incidental pickup and delivery and storage-in-transit.

§ 1060.2 Liability of carriers.

A carrier shall be liable for any loss of or damage to a mobile home or its contents which occurs during its transportation, if the loss or damage is caused by the carrier or by anyone engaged by it to transport or service the mobile home or its contents.

§ 1060.3 Provisions in tariffs and bills of lading.

(a) Except as provided in paragraph (b) of this section, a carrier's tariffs and bills of lading shall not contain provisions which purport to limit the carrier's liability for loss of or damage to a mobile home or its contents.

(b) A carrier may include in its tariffs or bills of lading provisions which limit its liability to a stated amount in return for the performance of service at a reduced (released value) rate or which require a shipper to declare the value of a shipment in return for an agreement by the carrier to assume liability up to, but not in excess of, the stated amount.

(c) A carrier may include in its tariffs or bills of lading provisions whereby it agrees, in return for an added charge, to assume liability it would not otherwise incur. However, if the tariff or bill of lading requires prepayment of the added charge, that fact must be made clear to the shipper before the agreement is signed.

§ 1060.4 Provisions in receipt signed by shipper or consignee.

A receipt which is to be signed by a shipper or consignee in acknowledgment of delivery of a mobile home and its contents shall not contain any provisions having the effect of limiting the carrier's liability for any loss or damage, other than a statement that the mobile home and its contents have been received in apparent good condition, except as noted on the shipping documents.

§ 1060.5 Information for shippers.

Before a carrier agrees to accept a mobile home for shipment, the carrier must have on file a receipt showing that the prospective shipper has received an up-to-date copy of the Commission's Public Advisory No. 8, "Information for shippers of Mobile Homes."

§ 1060.6 Recordkeeping and reporting.

Before a driver asks a person accepting delivery of a mobile home to sign a receipt, the driver must provide that person with a written report which shall include:

(1) A record of the route followed in transporting the mobile home, the distance traveled, and the time elapsed; and

(2) A statement as to whether there was any damage to the mobile home during its transportation and, if so, whether the damage was related to any accidents, thefts, or natural disasters.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 611]

FOREIGN FISHING

Draft Fishery Management Plan for Halibut off the Coast of Alaska

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Notice of public hearing schedule.

SUMMARY: Pursuant to Title III of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), the North Pacific Fishery Management Council has prepared a draft fishery management plan, "Halibut off the Coast of Alaska." This plan will replace the management regime promulgated by the International Pacific Halibut Commission (IPHC) which will end April 1, 1979. It is designed to minimize the disruption of current halibut fishery practices and arrangements. All major management philosophies of the IPHC with regard to conservation of the halibut resource and regulation of the fishery have been carried forward in the plan. The draft plan has been prepared jointly by the North Pacific Fishery Management Council, International Pacific Halibut Commission, National Marine Fisheries Service and Alaska Department of Fish and Game. Public hearings will be held to receive comments on the draft plan.

DATES: Comments will be received until October 31, 1978. For the dates of the hearings, see Supplementary Information below.

ADDRESSES: Copies of the draft FMP are available at the locations listed in Supplementary Information below. Comments should be addressed to: Chairman, North Pacific Fishery Management Council, P.O. Box 3136DT, Anchorage, Alaska 99510. For the locations of the hearings, see Supplementary Information below.

FOR FURTHER INFORMATION CONTACT:

Maggie Duff, 202-634-7449 or 634-7450.

SUPPLEMENTARY INFORMATION: Individuals or organizations wishing to comment on the draft fishery management plan may do so at public hearings to be held at the times and locations listed below:

Seattle, Wash., October 7, 1978, 9 am to 5 pm, Seattle Airport Hilton, South 176th and Pacific South, 98188.

Kodiak, Alaska, October 10, 1978, 9 am to 5 pm, Elks Club Lodge, Marine Way, 99615.

Unalaska, Alaska, October 12, 1978, 9 am to 12 noon, Pan-Alaska Recreation Room, 99685.

Sitka, Alaska, October 24, 1978, 9 am to 3 pm, Centennial Building off Harbor Drive, 99835.

Seattle, Wash., October 26, 1978, 9 am to 5 pm, Vance Airport Inn at Sea-Tac, 18220 Pacific Highway South, 98199.

Anchorage, Alaska, October 31, 1978, 9 am to 5 pm, Commodore Room, Anchorage/Westward/Hilton Hotel, Third and E Streets, 99501.

The uncertainty of travel in Alaska during winter months makes it necessary to consider alternative meeting places and times. The Council has, therefore, scheduled October 16 thru 20, and November 6 thru 10, 1978, as alternative dates for the above scheduled public hearings if they have to be cancelled.

Cancelled public hearings will be rescheduled as soon as possible and not later than 5 days after the cancellation. Cancellations and new schedules will be announced locally by telephone, radio, television, and newspapers.

Background: The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), 16 U.S.C. 1801 *et seq.* (the "Act"), authorizes the Secretary of Commerce (the "Secretary"), to implement fishery management plans prepared by the Regional Fishery Management Councils for their areas of concern within the 3-200 mile Fishery Conservation Zone established by the Act.

The proposed action is to adopt and implement a Fishery Management Plan for the halibut resource off the coast of Alaska under the provisions of the Fishery Conservation and Management Act (Pub. L. 94-265). This Act extends jurisdiction over fishery resources and establishes a program for their management. The management regime proposed by this plan is designed to increase halibut stocks to a level approaching that which allows MSY, and to maintain a viable setline fishery for U.S. fishermen. Retention of halibut by foreign vessels is prohibited at all times. Regulations designed to protect halibut are included in other management plans developed by the North Pacific Fishery Council where necessary.

The transboundary nature of Pacific halibut requires that management of halibut in Canada and the United States be closely coordinated. Current information suggests that eggs and larvae from Canada frequently find their way into United States waters and that a significant movement of juveniles and adults occurs in the opposite direction. For this reason, the management regime outlined in this plan must be closely coordinated with any plans developed for halibut in Canadian waters.

This management plan continues the philosophy current in U.S./Canadian and I.P.H.C. management measures that Pacific halibut shall be regarded as a prohibited species by every fishery except the domestic setline fishery directed at Pacific halibut. this plan continues the basic management philosophy and regime of the last several years as set forth by the International Pacific Halibut Commission.

The council will not make its final decisions on the management regime until the public review process is complete. Written comments may be submitted on or before October 31, 1978, to the Executive Director, North Pacific Fishery Council, P.O. Box 3136DT, Anchorage, Alaska 99510, or to the Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

Copies of the draft fishery management plan are available at the following locations in the State of Alaska:

notices

V 43/180 SE 15 78

ACTION: Notice requesting comment.

SUMMARY: The U.S. Court of Appeals for the Seventh Circuit has invalidated portions of the Commission's regulations governing the abandonment of railroad lines and discontinuance of service, 41 FR 48520 as amended 42 FR 25327. The court's decision of May 30, 1978, as modified July 31, 1978, in Nos. 76-2283, 77-1008 and 77-1487, *Chicago & North Western Transportation Company, et al.* v. *United States, et al.*, affects the ability of the Commission to postpone issuance of an abandonment certificate beyond the statutorily prescribed 6-month negotiating period. 49 CFR 1121.38(i)(2). It also addresses the computations of avoidable cost and return on the line for subsidy computation purposes, in subpart D of the regulations.

On remand, the Commission seeks comment from all interested persons on the best means to bring its regulations into compliance with the decision of the seventh circuit.

The full text of the court's decision is available from the Commission upon request.

DATE: Comments must be received on or before October 16, 1978.

FOR FURTHER INFORMATION CONTACT:

Edward J. Schack, 202-275-7580.

SUPPLEMENTARY INFORMATION: Section 1a of the Interstate Commerce Act (act), as enacted in section 802 of the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94-210, established a two-stage abandonment procedure. The Commission first must decide whether a proposed abandonment or discontinuance is in the public interest. If it finds that it is, a notice is published in the FEDERAL REGISTER. Interested persons have 15 days after that publication to offer financial assistance for rail service continuation, either through a subsidy or acquisition of the line. If the Commission finds that a financially responsible person or organization has offered financial assistance that is likely to cover (A) the difference between attributable revenues and avoidable costs of the service, together with a reasonable return on the value of the line, in the case of a subsidy, or (B) the acquisition cost of all or part of the line, then it must postpone the issuance of an abandonment certificate for up to 6 months to enable the parties to negotiate a binding financial assistance agreement.

The portions of the Commission's implementing regulations affected by the court's decision are discussed separately below.

POSTPONEMENT OF ABANDONMENT CERTIFICATE

The Commission's regulations 1121.38(i)(2) provides that, if the parties are unable to reach agreement during the 6-month negotiating period, the Commission may take one of the following actions:

(i) Issue a final certificate at the end of the 6-month period * * *;

(ii) Reopen the underlying abandonment or discontinuance proceeding to reevaluate the application on its merits in light of the financial assistance offer;

(iii) Direct the carrier to continue to provide rail freight service for an additional year in return for compensation to be computed by the Commission (in accordance with certain standards) * * * or

(iv) Take whatever action is appropriate in the particular situation and in conformity with section 1a of the Act. Such action may include but not be limited to setting the matter for arbitration subject to the final review of the Commission.

In promulgating the regulations, the Commission believed that all of these options were necessary to permit it effectively to supervise negotiations and provide for some equality of bargaining power between the railroads and affected shippers. The Court held, however, that only the first of the four options is authorized by statute. It invalidated the remaining three sections.

The Commission intends to seek further judicial review only with respect to its authority, under section 17(9)(g) of the Act, to reopen the underlying abandonment proceeding.

AVOIDABLE COST AND RETURN ON LINE

(1) *"Current cost" of equipment.* In its regulations, § 1121.42(c)(4) and 1121.42(m), the Commission considers "current cost" of equipment for depreciation purposes as the portion of historical average cost of the carrier providing the service allocable during the subsidy year to the service involved. The court (one judge dissenting), on the other hand, held that for calculating depreciation as an avoidable cost, current equipment costs should be "the cost that would be avoided if the service were terminated and the equipment used elsewhere on the railroad, i.e., the cost of purchasing new equipment." The court expressly refrained from ruling on whether the book cost of locomotives and freight cars is the appropriate base upon which to calculate return, as provided in § 1121.42(c)(6)(ii) of the regulations. But the court indicated that on reopening the railroads should be afforded the opportunity to argue that replacement costs should be used for calculating the return investment on element of avoidable cost for subsidy computations.

(2) *Cost of equity capital in determining return on equipment.* Although both debt and equity capital are invested in locomotives and freight cars, the regulations provide a single rate of return on these items based on the cost of debt capital. Section 1121.42(c)(6) and 1121.42(1), (3), and (5). No specific methods of measuring the equity capital costs had been suggested by the carriers and the Commission believed that reliance solely on the cost of debt capital would provide an effective return on equity capital while promoting administrative convenience. The court directed the Commission to develop a standard which would recognize the cost of equity capital in locomotives and freight cars.

(3) *Cost of capital for railroads in reorganization.* Section 1121.44(b) of the regulations provides that the reasonable return of a railroad in reorganization shall be the average yield on all railroad bonds for the week immediately preceding the execution of the subsidy agreement, as quoted by any standard investors' service. The court held this provision invalid insofar as it excludes the cost of equity capital for railroads in reorganization.

(4) *Effect of income taxes.* The court directed the Commission, upon remand, to consider the effects of applicable Federal and State income taxes on the return on equity capital of railroads, including railroads in reorganization, invested in equipment in accordance with section 1a(11)(a) of the Act. It also directed the Commission to address the criticism that using the effective tax rate for a railroad's overall operations to calculate the effect of taxes upon the equity portion of return on investment in a line, as provided by § 1121.44(c) of the regulations, is inadequate.

Dated: September 8, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Stafford, Gresham, Clapp, and Brown. Commissioner Brown absent and not participating.

H. G. HOMME, Jr.,
Acting Secretary.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON AGENCY DECISIONAL PROCESSES

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Agency Decisional Processes of the Administrative Conference of the United States, to be held at 9:30 a.m. Thursday, September 28, 1978, in the office of Ginsburg, Feldman and Bress, 1700 Pennsylvania Avenue NW., Suite 300, Washington, D.C.

The Committee will meet to discuss Professor Michael Baram's study of the use of cost-benefit analysis in Federal regulation.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least 2 days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this meeting contact David M. Pritzker, 202-254-7065. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

CIVIL AERONAUTICS BOARD

[Docket 33324; 78-8-179]

ALLEGHENY AIRLINES, INC.

Amendment of Certificate of Public Convenience and Necessity for Route 97; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day August, 1978.

By Order 78-8-178, issued concurrently with this Order, we have proposed to realign the route system of American Airlines in a manner which would, among other things, give American unrestricted authority in 23 minor markets [1] where Allegheny holds restricted authority.[2] As discussed in Orders 78-7-91, 78-4-109 and 76-5-101, it is our view that such small markets do not, as a practical matter, present competitive considerations of significant magnitude, and, accordingly, we have proposed as a matter of policy to grant unrestricted authority to all carriers authorized to serve such minor markets. The removal of operating restrictions on Allegheny as well as American will give those carriers greater flexibility to establish more logical aircraft routings, and may enable them to offer new or additional service, thereby benefiting the traveling public without any significant adverse impact on other carriers.

Therefore, consistent with our tentative findings and conclusions set forth in Order 78-8-178, and those in Orders 78-7-91, 78-4-109 and 76-5-101, we tentatively find and conclude that the elimination of restrictions on Allegheny's operations in the 23 markets listd below is required by the public convenience and necessity, and is consistent with out policy of removing restrictions which serve no useful purpose and which are otherwise wasteful and undesirable.[3]

Interested persons will be given 30 days following the date of service of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing complete with the opportunity for oral cross-examination is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained; answers shall be filed 10 days after objections are due.

Accordingly, *it is ordered* That: 1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending Allegheny's certificate for Route 97 so as to remove operating restrictions in the markets listed in Appendix A;

2. Any interested persons having objections to the issuance of an order making final the proposed findings, conclusions, and certificate amendment and modification set forth here shall, no later than October 11, 1978, file with the board and serve upon all persons listed in Appendix I of Order 78-8-178, a statement of objections together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the stated objections; answers to objections shall be filed no later than October 26, 1978;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised before further action is taken by the Board; [4]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action; and

5. A copy of this order shall be served upon all persons listed in Appendix I of Order 78-8-178.

This order shall be published in the FEDERAL REGISTER.

[1] I.e., markets which generate fewer than 20 true O&D plus interline connecting passengers a day.

[2] The minor markets where both Allegheny and American currently hold restricted authority are set forth in Appendix A of this order.

[3] We further tentatively conclude that Allegheny is a citizen of the United States within the meaning of the act, and is fit, willing, and able to perform properly the air transportation proposed here and to comform to the provisions of the act and the Board's rules, regulations, and requirements.

[4] All motions or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

By the Civil Aeronautics Board.

[Docket 28874; order 78-8-178]

AMERICAN AIRLINES, INC.

Application for Route Realinement by Show-Cause Order; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of August 1978.

By application, filed February 13, 1976, and by petition and amended application, both filed October 15, 1976, American Airlines has requested the Board to issue an order directing interested persons to show cause why American's certificates of public convenience and necessity for Routes 4, 7, 25, and that portion of its certificate for Route 134 relating to its domestic authority, should not be amended or modified to realize its existing 21 domestic segments into 2 linear segments (1 of which includes a mainland-Hawaii segment)[1] and to eliminate certain conditions which American claims are no longer required for competitive reasons and which impede the carrier's operating flexibility.[2] American also has requested a waiver of part 312 of the Board's Procedural Regulations, which requires the filing of an environmental evaluation.

In support of its applications, American contends that: Its route system is burdened by numerous segment and route junction stop requirements and certificate conditions; relief from these restrictions would facilitate greater scheduling flexibility, better equipment utilization and improved service to the public, without any significant impact on competing carriers; and its submission conforms with the Board's realinement guidelines, with some minor proposed changes.

Answers in general support of American's petition were filed by the Cincinnati parties[3] the El Paso Civic Interests[4] and by the town of Islip, Long Island. Answers in general opposition were filed by the State of Maryland and by the Port of Oakland. The Iowa Department of Transportation filed a petition for leave to intervene.

The following local service carriers filed specific objections to American's proposal as it affects individual markets, as well as a variety of general objections directed to the question of realining the route systems of trunkline carriers: Allegheny Airlines, Frontier Airlines, Ozark Air Lines, North Central Airlines, Piedmont Aviation, and Texas International Airlines.[5]

Answers were also filed by Air California, Braniff Airways, Continental Air Lines, Delta Air Lines, Eastern Air Lines, Trans World Airlines, United Air Lines, Western Air Lines, and World Airways.

American filed a reply, addressing the objections raised by the other parties.

As we stated in the recent Continental, Ozark, Delta, and Western route realinements,[6] it is our policy to realine the route systems of the certificated scheduled carriers to maximize the opportunities for scheduling flexibility and equipment utilization, to conform route authority to traffic flows, and to eliminate or modify certificate conditions which serve no useful purpose, impair meaningful market development, and inhibit significant improvement in the carrier's economic performance. These objectives are equally applicable to trunk and local service carriers.[7]

We tentatively conclude that American's proposed realinement, as modified by this Order, conforms with the Board's policy and objectives discussed above and that substantial public service and carrier benefits will result from the realined route system. The proposed realinement will offer American the potential for significant improvement in operating efficiency and will permit it to provide improved service to the traveling public.[8]

Many of the local service carriers object to American's petition on the general grounds that our realinement of truck carriers, through show cause procedures, is unwise, These carriers and other parties also express concern that the award of improved authority to American in minor and monopoly markets will create dormant authority in those markets which will serve to discourage attempts by other carriers to enter the affected markets. They suggest that any improvement in authority to American could retard needed service expansion, contrary to the public interest. To remedy this alleged harm of the realinement program, several civic parties[9] suggest that the Board adopt a policy that, if any particular route authority awarded in a realinement is not used during a 12-month period and another carrier seeks that authority, an award of operating rights on that particular route be made to the latter carrier and the incumbent's rights be deleted automatically.

In addition, several carriers have raised the *Ashbacker*[10] doctrine as a bar to the Board's individual consideration of requests by American for improved authority in specific markets.

It will suffice here to say that we have rejected these contentions in the past and reject them here, and refer to our Delta order[11] for a full discussion of these issues.

[1]A map showing the realined system as proposed by this Order is set forth in Appendix A. All appendices are filed as a part of the original document.

[2]American's certificates for its international Routes 56, 137, 166 and the Mexican portion of 134 are unaffected by the applications and petition.

[3]The Greater Cincinnati Chamber of Commerce, the Kenton County Airport Board, operators of the Greater Cincinnati Airport, and the city of Cincinnati.

[4]The city of El Paso, the El Paso Airport and Mass Transit Board, and the El Paso Chamber of Commerce.

[5]These eight local service carriers filed a motion requesting a stay of further procedural steps on trunkline realinement applications for purposes of receiving written and oral argument on certain alleged legal and policy issues concerning trunk realinements. This motion was denied in the Western realinement proceeding by Order 77-11-74, November 17, 1977, at 4-13. See also, Order 78-4-109, April 19, 1978, at n. 6, for a fuller history of this motion.

[6]Orders 78-7-91, 78-6-4, 78-4-109, and 77-11-74, making final Order 76-5-101.

[7]Orders 78-6-4, at 2, and Order 78-4-109, at 4-5.

[8]American will, of course, be required by the *Domestic Passenger-Fare Investigation—Phase 9* (*Fare Structure*), Order 74-12-109, December 27, 1974, to revise its fares in markets in which it receives improved authority so that the fares are calculated in a manner which properly reflects the improved authority resulting from the realinement.

[9]The Cincinnati Parties, the El Paso Civic Interests and the town of Islip.

[10]*Ashbacker Radio Corp.* v. *F.C.C.*, 326 U.S. 327 (1975).

[11]Order 78-4-109, at 5-8.

We have applied here the guidelines used in the Delta realinement.[12] In addition, we will grant American's requests for changes in the designation of certain named points on its certificate and for deletion of Long Beach as a named point. The hyphenation of New York and Newark, Dallas and Fort Worth, and Buffalo and Niagara Falls will improve operating and scheduling flexibility and will enable American to more easily respond to the demands of the marketplace.[13] As for the deletion of Long Beach (currently hyphenated with Los Angeles and Ontario), American does not intend to serve Long Beach through Daugherty Field; the city of Long Beach has not objected to the request, and, according to American's petition, does not desire additional air service.

Finally, American has requested a waiver of the requirement of Part 312 of the Board's Procedural Regulations, which require the filing of an environmental evaluation. American supports its request by stating that the realinement of its routes will enable it to operate more efficiently, and produce greater opportunities for reduction in fuel consumption, air pollution and ambient noise levels. Further, American indicates that it is not proposing any increased service as a result of its proposals.

We will waive the requirement that American file an environmental evaluation. Further, we tentatively conclude that the action we propose here will not constitute a major action significantly affecting the quality of the environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA).[14]

The proposed restriction removals for Allegheny, Braniff, Eastern, Frontier, Hughes Airwest, Piedmont, National, North Central, Texas International, TWA, and United, which we are proposing in separate orders issued concurrently, will enable those carriers to operate more efficiently, and will not constitute either major Federal actions within the meaning of NEPA or major regulatory actions within the meaning of the Energy Policy and Conservation Act.

We futher conclude that American Airlines is a citizen of the United States within the meaning of the act, and is fit, willing, and able to perform properly that air transportation proposed here and to conform to the provisions of the act and the Board's rules, regulations, and requirements.

Interested persons will be given 30 days following the date of service of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing, complete with the opportunity for oral cross-examination, is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained; answers shall be filed 15 days after objections are due.

Accordingly, *it is ordered* that:

1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending American's certificates for Routes 4, 7, 25, and 134 in the manner set forth in the accompanying proposed certificate (Appendix B);

2. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and certificate amendments and modifications set forth here shall, no later than October 11, 1978, file with the Board and serve upon all persons listed in Appendix I, a statement of objections together with a summary of testimony, statistical data, and evidence expected to be relied upon to support the stated objections; answers to objections shall be filed no later than October 26, 1978;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board;[15]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action;

5. The motion of the Iowa Department of Transportation for leave to intervene be granted;

6. American's application for a waiver of Part 312 be granted; and

7. A copy of this order shall be served upon all persons listed in Appendix I.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 78-25947 Filed 9-14-78; 8:45 am]

[6320-01]

[Docket 33325; Order 78-8-180]

BRANIFF AIRWAYS, INC.

Amendments of Certificate of Public Convenience and Necessity for Route 9; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of August 1978.

By Order 78-8-178, issued concurrently with this Order, we have proposed to realign the route system of American Airlines in a manner which would, among other things, give American unrestricted authority in six minor markets[1] where Braniff holds restricted authority.[2] As discussed in Orders 78-7-91, 78-4-109, and 76-5-101, it is our view that such small markets do not, as a practical matter, present competitive considerations of significant magnitude, and, accordingly, we have proposed as a matter of policy to grant unrestricted authority to all carriers authorized to serve such minor markets. The removal of operating restrictions on Braniff as well as American will give those carriers greater flexibility to establish more logical aircraft routings, and may enable them to offer new or additional service, thereby benefiting the traveling public without any significant adverse impact on other carriers.

Therefore, consistent with our tentative findings and conclusions set forth in Order 78-8-178, and those in Orders 78-7-91, 78-4-109, and 76-5-101, we tentatively find and conclude that the

[12]American proposes to refine our definition of "clearly superior" in Guideline 3(b) and to add a new guideline, enabling any carrier to operate one-stop service between any two points that are more than 50 percent circuitous relative to a nonstop routing. We proposed certain significant modifications to our guidelines in the Delta route realinement, Order 78-4-109, at Appendix C. Because of our desire, as will as that of the applicants, to complete the realinements expeditiously we have been reluctant to alter the guidelines any further. Proposals similar to those made by American here were rejected in the Delta order; and we decline to amend our guidelines further in this order.

[13]There were no objections to the hyphenation of these points. In fact New York and Newark are hyphenated on American's Route 4 but are designated as coterminal points on Routes 7 and 25. As to the other city pairs, American was permitted to serve Niagara Falls through Buffalo by means of an airport notice filed in 1956; American has served the Dallas-Fort Worth area through the Dallas/Fort Worth Regional Airport since 1974.

[14]We further tentatively conclude that this action will not constitute a major regulatory action within the meaning of the Energy Policy and Conservation Act and does not require an energy statement pursuant to Part 313 of our Procedural Regulations.

[15]All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

[1]That is, markets which generate fewer than 20 true O. & D. plus interline connecting passengers a day.

[2]The minor markets where both Braniff and American currently hold restricted authority are set forth in Appendix A to this order.

[6320-01]

[Docket 33326; order 78-8-181]

EASTERN AIR LINES, INC.

Amendments of Certificates of Public Convenience and Necessity for Routes 5, 6, 10 and 71; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington D.C. on the 31st day of August 1978.

By Order 78-8-178, issued concurrently with this Order, we have proposed to realign the route system of American Airlines in a manner which would, among other things, give American unrestricted authority in 18 minor markets[1] where Eastern holds restricted authority.[2] As discussed in Orders 78-7-91, 78-4-109, and 76-5-101, it is our view that such small markets do not, as a practical matter, present competitive considerations of significant magnitude, and, accordingly, we have proposed as a matter of policy to grant unrestricted authority to all carriers authorized to serve such minor markets. The removal of operating restrictions on Eastern as well as American will give those carriers greater flexibility to establish more logical aircraft routings, and may enable them to offer new or additional service, thereby benefiting the traveling public without any significant adverse impact on other carriers.

Therefore, consistent with our tentative findings and conclusions set forth in Order 78-8-178, and those in Orders 78-7-91, 78-4-109, and 76-5-101, we tentatively find and conclude that the elimination of restrictions on Eastern's operations in the 18 markets is required by the public convenience and necessity, and is consistent with our policy of removing restrictions which serve no useful purpose and which are otherwise wasteful and undesirable.[3]

Interested persons will be given 30 days following the date of service of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing complete with the opportunity for oral cross-examination is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained; answers shall be filed 10 days after objections are due.

Accordingly, *it is ordered* That:

1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending Eastern's certificates for Routes 5, 6, 10, and 71 so as to remove operating restrictions in the markets listed in Appendix A;

2. Any interested persons having objections to the issuance of an order making final the proposed findings, conclusions, and certificate amendment and modification set forth here shall, no later than October 11, 1978, file with the Board and serve upon all persons listed in Appendix I of Order 78-8-178, a statement of objections together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the stated objections; answers to objections shall be filed no later than October 26, 1978;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised before further action is taken by the Board; [4]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action; and

5. A copy of this order shall be served upon all persons listed in Appendix I of Order 78-8-178.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[1]This is, markets which generate fewer than 20 true O&D plus interline connecting passengers a day.

[2]The minor markets where both Eastern and American currently hold restricted authority are set forth in Appendix A to this order.

[3]We further tentatively conclude that Eastern is a citizen of the United States within the meaning of the act, and is fit, willing, and able to perform properly the air transportation proposed here and to conform to the provisions of the act and the Board's rules, regulations, and requirements.

[4]All motions or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

[3]We further tentatively conclude that Braniff is a citizen of the United States within the meaning of the act, and is fit, willing, and able to perform properly the air transportation proposed here and to conform to the provisions of the act and the Board's rules, regulations, and requirements.

[4]All motions or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

APPENDIX A.—*Minor Markets Where Eastern Will Receive Unrestricted Authority*

Market	Traffic[1] fiscal year 1975	Present authority
Buffalo to:		
Memphis	6,140	No single-plane service.

[6320-01]

[Order 78-8-190; Docket 32662]

EASTERN AIR LINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of August 1978.

On May 11, 1978, Eastern Air Lines filed an application to amend its certificate of public convenience and necessity for route 6 to allow it to provide nonstop service between Atlanta, Ga., and Columbus, Ohio. On May 17, it filed a motion for hearing of its application.

In support of its application, Eastern states that it currently participates in the Columbus-Atlanta market but is required to carry passengers one-stop via Charlotte, N.C.; that Delta is the only carrier authorized to provide nonstop service in the market and that its service is operated with high fares and high-load factors; and that many passengers are forced onto one-stop flights. It claims that its proposed service will provide much needed additional nonstop authority [1] and will also lead to new single-plane service in four beyond-Atlanta markets, as well as first effective competitive service in eight markets, and that its certification in the market will significantly improve the overall economy of its operations.[2]

The Toledo and Atlanta parties filed pleadings in support of Eastern's application.[3] Delta filed an answer in opposition.

Delta argues that we should defer any action on Eastern's application until we consider Delta's application to provide competitive service in the Atlanta-Raleigh / Durham / Greensboro/High Point/Winston-Salem markets.[4] It also claims that Eastern should not be certificated in the Columbus-Atlanta market because it is unable and unwilling to uphold its service responsibilities in its other markets, and because it cannot and will not provide the competition that it claims it can offer.

We have decided to order any interested persons to show cause why Eastern's petition should not be granted as requested. Our tentative conclusion that Eastern should be authorized to conduct nonstop operations between Columbus and Atlanta is based on the following tentative findings.

Eastern's application, which involves removal of a one-stop restriction, falls within the class of cases which can be handled by show-cause procedures because of the absence of any material, determinative issue of fact requiring resolution in a formal evidentiary proceedings.[5] Implementation of its service proposal will significantly benfit the traveling public. It will also result in new single-plane service in four beyond-Atlanta markets, as well as first effective competitive service in eight.

Eastern claims that grant of the requested authority will improve its overall economy of operations and will result in profitable operations in the 1979 forecast year.[6] We find that there

[1]Its service proposal indicates that it plans to operate four daily Columbus-Atlanta round trips which will continue on to Jacksonville, West Palm Beach, Sarasota, Houston, and Toledo in various service patterns.

[2]See attached appendix.

[3]The Toledo parties consist of the Toledo-Lucas County Port Authority, the Toledo Area Chamber of Commerce and the city of Toledo. The Atlanta parties are the city of Atlanta and Atlanta Chamber of Commerce.

[4]Docket 32159.

[5]See Piedmont's application for Boston entry, order 78-4-69, Apr. 14, 1978; application of Eastern Air Lines, order 78-6-60, June 8, 1978.

[6]Delta, the incumbent, in no way contests Eastern's financial forecast.

is sufficient traffic in the market to sustain profitable operation, if not under its proposal, then under some

Interested persons will be given 30 days following the date of service of this order to show cause why these

By the Civil Aeronautics Board.[14]

PHYLLIS T. KAYLOR,
Secretary.

In the matter of former large irregular air service investigation (docket

Tours, Inc., d.b.a. Duncan Airlines (has not operated direct air service);

Dated at Washington, D.C., September 7, 1978.

is sufficient traffic in the market to sustain profitable operation, if not under its proposal, then under some variation of it.[7] We need not find that Eastern's precise proposal here, or any other specific service pattern, can in fact be profitably operated.[8] If Eastern's proposal or a variation can be operated on a profitable basis service is likely to be provided, and we are persuaded that has been plausibly shown here.[9] However, even if the service is or becomes unprofitable the carrier is free, under permissive authority, to cease serving the markets. We are satisfied that nothing developed in an oral evidentiary hearing would reverse this conclusion.[10]

Delta's arguments fail to persuade us that we should either defer or denty Eastern's application. The pendency of Delta's Raleigh/Greensboro-Atlanta application does not constitute a valid reason for failing to act on Eastern's now. As for the argument that Eastern will not provide the comptetion it claims it can offer, we presume that Eastern's management will respond in an economically rational manner and will gear its service to market conditions and its economic opportunities between Columbus and Atlanta and elsewhere. Whether or not Eastern provides the level of service which it now proposes or serves the market at all,[11] its certification benefits the public by creating a competitive spur to the incumbent to provide the public with the level and kinds of service it wants.[12]

[7] For the year ended Sept. 30, 1977, there were 107,610 O&D plus connecting passengers in the Columbus-Atlanta market.

[8] See order 78-4-69, at 6-7.

[9] As noted in order 78-4-69, our conclusion that Eastern has made a plausible showing that service can be profitably provided is not an element of our tentative findings of public convenience and necessity, but rather of our determination to give this application priority of processing.

[10] We would dismiss Eastern's application if it involved authority under consideration in Eastern's route realinement, docket 29983. However, nonstop Columbus-Atlanta authority is superior to what it would receive under the realinement guidelines, i.e., two-stop authority or one-stop authority via Charlotte.

[11] We find that the public convenience and necessity require that the authority we propose to grant Eastern be permissive, so that its management can have the discretion to provide service or not as the demands of the market dictate.

[12] We also tentatively conclude that Eastern is fit, willing and able to perform the air transportation it proposes and to conform to the provisions of the Act and the Board's rules; that, on evaluation of Eastern's environmental submission, our proposed action will not be a major Federal action significantly affecting the quality of the environment within the meaning of sec. 102(2)(C) of the National Environment Policy Act of 1969; and that approval of Eastern's proposal will not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975, as defined in sec. 313 of our regulations.

[13] Since provision is made for filing objections, no petitions for reconsideration will be entertained.

Interested persons will be given 30 days following the date of service of this order to show cause why these tentative findings and conclusions should not be made final. We expect that objections will be supported by detailed economic or legal arguments. If an oral evidentiary hearing complete with the opportunity for cross-examination is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established through written pleadings. General, vague or unsupported objections will not be entertained. Answers to objections ar due within 10 days after the due date for objections.

Accordingly, *it is ordered*, that: 1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative conclusions stated here and amending Eastern's certificate for route 6 so as to add a new segment authorizing the permissive nonstop scheduled air transportation of persons, property and mail between the terminal point Atlanta, Ga., and the terminal point Columbus, Ohio;

2. Any interested person having objections to the issuance of an order making final the proposed findings, conclusions and certificate amendments set forth here shall, no later than October 11, 1978, file with the Board and serve upon all persons listed in paragraph 6 a statement of objections together with a summary of testimony, statistical data, and evidence expected to be relied upon to suport its objections; answers to objections shall be filed no later than October 23, 1978;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised before further action is taken by the Board;[13]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for further action; and

5. A copy of this order shall be served upon all persons named in the service list of Docket 32662.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[14]

PHYLLIS T. KAYLOR,
Secretary.

[6320-01]

[Order 78-9-26; Docket 32327, et al.]

FORMER LARGE IRREGULAR AIR SERVICE INVESTIGATION, ET AL.

Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of September 1978.

[14] All Members concurred.

In the matter of former large irregular air service investigation (docket 32327; former large irregular air service investigation—Phase 1 (docket 33361); former large irregular air service investigation—Phase 2 (docket 33362); former large irregular air service investigation—Phase 3 (docket 33363); applications of Duncan Tours, Inc., d.b.a. Duncan Airlines, Petroleum Air Transport, Inc., Puerto Rico Airlines Corp., Rosenbalm Aviation, Inc. (Dockets 33060, 33061, 33189, 33190, 3309, 33010, 33169, 3170).

By Order 78-7-106 (43 FR 33779, Aug. 1, 1978), the Board outlined the issues and procedures for this proceeding. We organized the case so that issues relating to our tentative findings and conclusions on need and applicant selection would be taken up in the policy portion of the proceeding (paragraph 5(a) of the order) and other issues would be tried by administrative law judges (paragraph 5(b) of the order). To facilitate the hearings before the administrative law judges, we divided the applicants into three groups according to direct air service operating experience and assigned a different phase number to each group. Those phases are dockets 32327-1 (applicants once but no longer operating), 32327-2 (applicants currently operating), and 32327-3 (all others).

For internal administrative record purposes, we are redesignating the three hearing phases with new docket numbers. The original phasing concept, however, will be retained for each hearing docket by way of modified titles. Documents submitted or filed in conjunction with the hearings under paragraph 5(b) of order 78-7-106 should reflect the proper hearing docket: for example, submissions for the hearing on applications from persons once but no longer operating will be labeled with:

Former large irregular air service investigation—Phase 1, docket 33361.

Note that the title for each hearing reflects the proper phase.

Comments under paragraph 5(a) of order 78-7-106 on the proposed policy determinations, answers, and other submissions pertaining to nonhearing matters should reflects the basic docket No. 32327.[1] These documents will be labeled with:

Former large irregular air service investigation, docket 32327.

These should also be served upon parties to all three phases.

On another matter, motions to consolidate have been filed by Duncan Tours, Inc., d.b.a. Duncan Airlines (has not operated direct air service); Petroleum Air Transport, Inc. (part 121 private carriage); Puerto Rico Airlines Corp. (has not operated direct air service); and Rosebalm Aviation, Inc. (part 121 private carriage). The applications of Duncan, Petroleum Air, and Rosenbalm are worldwide in scope. Puerto Rico Airlines seeks authority to engage in supplemental air transportation in interstate, Caribbean, and military areas. We are granting these motions.

Accordingly, 1. We redesignate the following dockets:

(a) 32327-1 will be former large irregular air service investigation—Phase 1, docket 33361;

(b) 32327-2 will be former large irregular air service investigation—Phase 2, docket 33362;

(c) 32327-3 will be former large irregular air service investigation—Phase 3, docket 33363;

2. Documents filed in conjunction with the hearings under paragraph 5(b) of order 78-7-106 shall bear the respective label set forth in paragraph 1 above;

3. All other documents shall be labeled former large irregular air service investigation, docket 32327; and

4. To the extent they conform to the scope of the proceeding,

(a) We consolidate the applications of Duncan Tours, Inc., d.b.a. Duncan Airlines (dockets 33060, 33061) and Puerto Rico Airlines Corp. (dockets 33009, 33010) into phase 3, docket 33363.

(b) We consolidate the applications of Petroleum Air Transport, Inc. (dockets 33189, 33190), and Rosenbalm Aviation, Inc. (dockets 33169, 33170), into phase 2, docket 33362. To the extent parts of the applications do not conform to the scope of the proceedings, we dismiss them.

We shall publish this order in the FEDERAL REGISTER,

By the Civil Aeronautics Board.[2]

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 78-26064 Filed 9-14-78; 8:45 am]

[1] Initial comments, petitions for reconsideration, etc., submitted prior to service of this order will be received as long as they carry docket 32327 or one of the phases (e.g., 32327-1).

COMMITTEE FOR PURCHASE FROM

[6320-01]

[Docket 33334; Order 78-8-189]

UNITED AIR LINES, INC.

Amendments of Certificates of Public Convenience and Necessity for Routes 1, 34, 51, and 57; Order to Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of August 1978.

By Order 78-8-178, issued concurrently with this Order, we have proposed to realign the route system of American Airlines in a manner which would, among other things, give American unrestricted authority in 36 minor markets[1] where United holds restricted authority.[2] As discussed in Orders 78-7-91, 78-4-109, and 76-5-101, it is our view that such small markets do not, as a practical matter, present competitive considerations of significant magnitude, and, accordingly, we have proposed as a matter of policy to grant unrestricted authority to all carriers authorized to serve such minor markets. The removal of operating restrictions on United as well as American will give those carriers greater flexibility to establish more logical aircraft routings, and may enable them to offer new or additional service, thereby benefiting the traveling public without any significant adverse impact on other carriers.

Therefore, consistent with our tentative findings and conclusions set forth in Order 78-8-178, and those in Orders 78-7-91, 78-4-109, and 76-5-101, we tentatively find and conclude that the elimination of restrictions on United's operations in the 36 markets is required by the public convenience and necessity, and is consistent with our policy of removing restrictions which serve no useful purpose and which are otherwise wasteful and undesirable.[3]

Interested persons will be given 30 days following the date of service of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing complete with the opportunity for oral cross-examination is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts the objector would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained; answers shall be filed 10 days after objections are due.

Accordingly, *it is ordered*, That:

1. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and amending United's certificates for routes 1, 34, 51, and 57 so as to remove operating restrictions in the markets listed in Appendix A;

2. Any interested persons having objections to the issuance of an order making final the proposed findings, conclusions, and certificate amendment and modification set forth here shall, no later than October 11, 1978, file with the Board and serve upon all persons listed in Appendix I of Order 78-8-178, a statement of objections together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the stated objections; answers to objections shall be filed no later than October 26, 1978;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised before further action is taken by the Board;[4]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action; and

5. A copy of this order shall be served upon all persons listed in Appendix I of Order 78-8-178.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[1] I.e., markets which generate fewer than 20 true O&D plus interline connecting passengers a day.

[2] The minor markets where both United and American currently hold restricted authority are set forth in Appendix A to this order.

[3] We further tentatively conclude that United is a citizen of the United States within the meaning of the act, and is fit, willing, and able to perform properly the air transportation proposed here and to conform to the provisions of the act and the Board's rules, regulations, and requirements.

[4] All motions or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

APPENDIX A.—*Minor Markets Where United Will Receive Unrestricted Authority*

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Public hearings notice on mackerel, squid, and butterfish management plans.

SUMMARY: The New England Fishery Management Council, in cooperation with the Mid-Atlantic Fishery Management Council, announces that three public hearings on the Mackerel, Squid, and Butterfish Fishery Management Plans, prepared by the Mid-Atlantic Fishery Management Council, have been scheduled as follows: (1) Tuesday, October 3, 1978, at the Dutch Inn, Galilee, R.I. from 7 to 10 p.m.; (2) Wednesday, October 4, 1978, at the Fuller School, Gloucester, Mass., from 7 to 10 p.m., and (3) Thursday, October 5, 1978, at the Holiday Inn West, Portland, Maine, from 7 to 10 p.m.

FOR FURTHER INFORMATION CONTACT:

Mr. Spencer Apollonio, Executive Director, New England Fishery Management Council, Peabody Office Building, One Newbury Street, Peabody, Mass. 01960, 617-535-5450.

SUPPLEMENTAL INFORMATION: Hearings are being held to receive public comment on the plans, and are open to the public. Copies of the management plans are available at the above council office.

Dated: September 11, 1978.

WINFRED H. MEIBOHM,
Acting Executive Director, National Marine Fisheries Service.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1978

Deletions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Deletions from procurement list.

SUMMARY: This action deletes from Procurement List 1978 commodities produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: September 15, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On July 21, 1978 the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (43 FR 31427) of proposed deletions from Procurement List 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the commodities listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 46-48c, 85 Stat. 77.

Accordingly, the following commodities are hereby deleted from Procurement List 1978:

CLASS 7210

Pillowcase (IB), 7210-00-299-9609 and 7210-00-716-9000.
Sheet, crib (IB), 7210-00-717-000.

C. W. FLETCHER,
Executive Director.

DEPARTMENT OF DEFENSE

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE, COMMAND, CONTROL AND COMMUNICATIONS SUB-PANEL

Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. APP. I), notice is hereby given that the Command, Control and Communications Sub-Panel of the Chief of Naval Operations (CNO) Executive Panel Advisory Committee will meet on October 4-5, 1978, at the Pentagon, Washington, D.C. Sessions of the meeting will commence at 8:30 a.m. and terminate at 5:30 p.m. on both days. All sessions will be closed to the public.

The entire agenda will be devoted to discussions of sensitive command, control, and communications systems and related intelligence. The agenda will consist of classified information that is specifically authorized by executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact Commander Robert B. Vosilus, USN, Executive Secretary of the CNO Executive Panel Advisory Committee, 1401 Wilson Boulevard, Room 405, Arlington, Va. 22029, telephone number, 202-894-3191.

Dated: September 7, 1978.

P. A. WILLE,
Captain, JAGC, U.S. Navy Deputy Assistant Judge Advocate General (Administrative Law).

[3810-70]

Office of the Secretary

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Notice of Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-436, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, November 7, 1978; Tuesday, November 14, 1978; Tuesday, November 21, 1978; and Tuesday, November 28, 1978 at 9:45 a.m. in Room 1E801, The Pentagon, Washington, D.C.

The committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392. At this meeting, the committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-643, the Federal Advisory Committee Act, meetings may be closed to the public when they are "concerned with matters listed in section 552b. of Title 5, United States Code." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b.(c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b.(c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b.(c)(2)), and the detailed wage data considered by the committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b.(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the chairman concerning matters believed to be deserving of the committee's attention. Additional information concerning this meeting may be obtained by writing the chairman, Department of Defense Wage Committee, Room 3D281, The Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

INTERGOVERNMENTAL COORDINATION OF DEPARTMENT OF DEFENSE LAND AND FACILITY PLANS AND PROJECTS

List of DOD Federal Regional Council Liaison Officers

Notice is hereby given that the Deputy Assistant Secretary of Defense (Installation and Housing) on September 5, 1978, issued the following memorandum to the Assistant Secretaries of the Army (IL&FM), Navy (MRA&L), and Air Force (MRA&I), and the directors of the Defense Agencies:

32 CFR 243 established a DOD Federal Regional Council (FRC) liaison position at each of the 10 Federal regions to represent the Deputy Assistant Secretary of Defense (Installations and Housing) for all DOD matters regarding the evaluation, review, and coordination of Federal and federally assisted programs and projects (OMB Circular A-95). The functions assigned to this liaison officer are specified under § 243.5(d), DOD Federal Regional Council Liaison Officers.

The following is the list of the DOD Federal Regional Council Liaison Representatives (FRCLR) for A-95 matters designated by the military departments to function in this capacity, with their addresses and telephone numbers.

It is requested that this list be disseminated to appropriate military installations and activities in order that they are aware of the FRCLR for A-95 matters for their region. Further, to ensure compatibility of efforts, addresses should also provide each of the FRCLR's with a list of military installations and activities within that FRCLR's area of cognizance.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

COLUMBIA LNG CORP.

Allocation of Synthetic Natural Gas (SNG) Feedstocks

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of availability of environmental assessment and notice of negative determination and request for comments on a petition for feedstock assignment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces the availability of its environmental assessment (EA) of a proposed assignment of supplier and a base period use of synthetic natural gas (SNG) feedstocks for the Columbia LNG Corp.'s (Columbia) Green Springs, Ohio, SNG plant. DOE has determined, based on the EA, that the proposed assignment of 100 percent of historical operating levels does not constitute a major Federal action significantly affecting the quality of the human environment, within the meaning of section 102(2)(C) of the National Environmental Policy Act. Comments regarding the EA and DOE's determination that an environmental impact statement is not required are invited. Additionally, interested parties are invited to comment on Columbia's petition for SNG feedstock.

DATE: Written comments to be submitted by September 27, 1978.

ADDRESS: Comments should be submitted to Box VI, Economic Regulatory Administration, Office of Public Hearing Management, Room 2313, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Richard Johnson, Economic Regulatory Administration, Office of Fuel Supply and Allocation, Room 6318, 2000 M Street NW., Washington, D.C. 20461, 202-254-3330.

Carol Borgstrom, Office of Environment, Room 7119, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9760.

Deanna Williams, Department of Energy, Freedom of Information Reading Room, 12th and Pennsylvania Avenue NW., Room 2107, Washington, D.C. 20461, 202-566-9161.

SUPPLEMENTAL INFORMATION:

I. BACKGROUND

On November 24, 1975, the Federal Energy Administration (FEA) (a predecessor agency of DOE) issued a decision and order assigning Columbia a base period use of 6,125,000 barrels of propane, butane, or natural gasoline per quarter, designating Dome Petroleum, Ltd., as a supplier for 3,500,000 barrels, and permitting Columbia to obtain the remainder of the feedstock from imported non-Canadian sources, to draw from its inventory or, if approved by FEA, from surplus domestic product. This assignment was effective through December 31, 1976. On June 9, 1976, Columbia submitted a supplemental petition requesting a permanent base period assignment at the same level of 6,125,000 barrels of propane, butane, or natural gasoline for each quarter corresponding to a base period. At that time, FEA initiated a review to determine whether various allocation levels, if granted, would significantly affect the quality of the human environment. Pending completion of ERA's environmental review, Columbia has been given feedstock allocations through September 30, 1978.

The analysis of the EA indicates operation of the SNG plant would not significantly affect the quality of the human environment at an allocation of 100 percent of the current base period volume. Therefore, DOE has determined that if Columbia is assigned feedstock at 100 percent of current base period volumes, a negative determination, pursuant to 10 CFR 208.4(c), is appropriate and that no EIS is required.

ERA is continuing to evaluate Columbia's need for the SNG produced at its Green Springs plant. In this connection, ERA has recently received information from the attorney general of Ohio raising questions as to the class of customer receiving gas service from Columbia's distribution company customers. If it is determined that an allocation less than 100 percent of base period volumes is required, DOE will consider the need for further environmental review.

II. COMMENT PROCEDURE

Single copies of the Columbia EA may be obtained from the Fuel Supply and Allocation Office, Room 6318, 2000 M Street NW., Washington, D.C. 20461, 254-3330. Copies of the EA are also available for public review in the DOE Freedom of Information Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays. A file containing all pertinent information and data filed in conjunction with Columbia's petition, other than confidential information which ERA has deter-

mined to be exempt from the disclosure requirements of 5 U.S.C. 522, is also available for public inspection and

mined to be exempt from the disclosure requirements of 5 U.S.C. 522, is also available for public inspection and copying at the DOE Freedom of Information Reading Room.

Interested parties may submit written comments with respect to the EA, negative determination and the petition to Box VI, Public Hearing Management, Department of Energy, Room 2313, 2000 M Street NW., Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on the documents submitted to DOE with the designation "Columbia LNG Corp. Feedstock Assignment." All comments should be received by DOE by 4:30 p.m., September 27, 1978, in order to insure consideration.

Any person submitting written comments should forward 15 copies to ERA and should comply with the requirements of the ERA procedural regulations set forth at 10 CFR 205.9 et seq.

Any information or data submitted with respect to the EA, the negative determination, or Columbia's petition considered by the person furnishing it to be confidential must be so identified and submitted in writing, in one copy only, in accordance with procedures set forth in 10 CFR 205.9(f). Any material not accompanied by a statement of confidentiality will be considered to be nonconfidential. The Economic Regulatory Administration reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

Issued in Washington, D.C., September 11, 1978.

BARTON R. HOUSE,
Assistant Administrator, Fuels Regulation, Economic Regulatory Administration.

Economic Regulatory Administration

LEWIS E. IANDOLI

Action Taken on Consent Order

Pursuant to 10 CFR 205.199J, the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of final action taken on a consent order. Under the terms of 10 CFR 205.199J(c) no consent order involving sums in excess of $500,000 shall become effective until ERA publishes notice of its execution and solicits and considers public comments with respect to its terms. On June 7, 1978, ERA published notice of a consent order which was executed between Lewis E. Iandoli d.b.a. Blue Ridge Fuel Co. (Iandoli) and ERA (43 FR 24727, June 7, 1978). With that notice and in accordance with 10 CFR 205.197(c), ERA invited interested persons to comment on the consent order. A press release in conformity with 10 CFR 205.197(c) was issued on June 16, 1978.

No comments were received during the designated period. ERA has concluded that the consent order as executed between ERA and Iandoli is an appropriate resolution of the compliance proceedings described in the notice published on June 7, 1978 and hereby gives notice that the consent order shall become effective as proposed, without modification, upon publication of the notice in the FEDERAL REGISTER.

Issued in Washington, D.C. on the 1st day of September 1978.

RICHARD B. HERZOG,
Assistant Administrator for Enforcement, Economic Regulatory Administration.

[6740-02]

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2452]

CONSUMERS POWER CO.,

Application for Change in Land Rights

SEPTEMBER 7, 1978.

Take notice that Consumers Power Co. (licensee) on May 30, 1978, filed an application with the Federal Energy Regulatory Commission under the Federal Power Act, 16 U.S.C. 791a-825r for lands included in the Hardy plant project No. 2452. Licensee states that the purpose of the conveyance and easement is to enable the Michigan State Highway Commission to relocate Route U.S.-131 and to upgrade it to limited access freeway status between the village of Howard City, Mich., and the city of Big Rapids, Mich., and to relocate certain telephone lines that will follow the highway corridor over project property. (Correspondence to Mr. P. A. Perry, Secretary, Consumers Power Co., 212 West Michigan Avenue, Jackson, Mich. 49201.) The project is located in Mecosta and Newaygo Counties, Mich., on the Muskegon River.

Licensee states that the State Highway Commission seeks to upgrade Route U.S.-131 to limited access freeway status between Howard City and Big Rapids to provide for anticipated future traffics growth and to alleviate a serious safety hazard posed by the existing U.S.-131. The limited access status of the proposed highway mandates that the State Highway Commission acquire title to the land in fee. Licensee states that it will retain flowage rights over the conveyed lands within project boundaries.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR 1.8 or 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any protest or petition to intervene must be filed on or before October 2, 1978. The Commission's address is: 825 North Capitol Street, NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26009 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. RP78-76]

GAS RESEARCH INSTITUTE

Extension of Time

SEPTEMBER 7, 1978.

On August 28, 1978, the people of the State of California and the Public Utilities Commission of the State of California (California) filed a motion for additional time to respond to the staff's report on Gas Research Institute's filing in this proceeding as noticed by the Commission on July 3, 1978. California states that it had not received a copy of the staff's comments as of August 24, 1978. GRI filed an answer on August 29, 1978, stating no objection to the request, but asking that an extension apply only to California.

Upon consideration, notice is hereby given that California shall file its comments on or before September 11, 1978.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26010 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP74-317, et al.]

GREAT LAKES GAS TRANSMISSION CO.

Petition To Amend

SEPTEMBER 8, 1978.

Take notice that on August 28, 1978, Great Lakes Gas Transmission Co. (Petitioner), 2100 Buhl Building, Detroit, Mich. 48226, filed in docket No. CP74-317, et al., a petition pursuant to section 7(c) of the Natural Gas Act to amend the order issued on July 7, 1977, as amended on August 1, 1978, in the instant docket so as to reflect amendments in the transportation agreement between Petitioner and Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin) authorized by said certificate, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner states that this petition is a companion to the petition of Michigan Wisconsin filed on May 4, 1978, in docket No. CP74-136, which requests that the Commission authorize the development of the south Chester 15 field located in Chester Township, Otsego County, Mich. in lieu of the presently authorized Leonard field located in Oakland County, Mich. It is stated that Petitioner has agreed to provide the transportation service from the south Chester 15 field for Michigan Wisconsin.

Petitioner states, further, that by the terms of its agreement with Michigan Wisconsin it would receive gas from Michigan Wisconsin, during the summer period, at an existing interconnection at Farwell, Mich. and Petitioner would deliver thermally equivalent volumes to Michigan Wisconsin at a new interconnection, with pipeline facilities proposed bo be constructed by Michigan Wisconsin, at mile post 748.3 on Petitioner's pipeline in Otsego County, Mich. Petitioner states that it would not charge any price for this summer period exchange.

During the winter period, Petitioner states that it would receive gas from Michigan Wisconsin at the new interconnection in Otsego County, Mich. and would redeliver a thermally equivalent quantity to Michigan Wisconsin at the Farwell interconnection and/or at an existing interconnection near Crystal Falls, Mich. Petitioner proposes to charge a rate of 2.66 cents per Mcf of gas for any deliveries made by it to Michigan Wisconsin at Farweil. Any deliveries made at the Crystal Falls interconnection, Petitioner states, would be considered as exchange deliveries and no rate would be charged to Michigan Wisconsin for such deliveries. It is said that almost all of the deliveries by Petitioner during the winter period are expected to be made at Crystal Falls, and would generate insignificant revenues to Petitioner.

Petitioner states that if its proposed amendment is granted it would not install 15.2 miles of 36-inch diameter pipeline loop that would otherwise be required to transport the gas to the Leonard storage field. Petitioner would instead, it is stated, install a hot tap at mile post 748.3 of its pipeline in Otsego County, Mich. at an estimated cost of $41,400 to provide the proposed service. Petitioner states that the costs of acquiring and developing the south Chester field on a project basis would be less than required to develop the Leonard field as authorized.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 24026, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-142]

JUAREZ GAS COMPANY S.A. v. DEL NORTE NATURAL GAS CO.

Changing Date for Informal Conference

SEPTEMBER 8, 1879.

By notice issued on August 18, 1978, an informal conference of all interested persons in the above-captioned matter was set for September 6, 1978. Because of prior commitments, counsel for Juarez Gas Co. submitted a letter on August 29, 1978, requesting that the conference be postponed. The letter indicates that staff counsel and counsel for Del Norte Natural Gas Co. have no objection. Accordingly, the date for the informal conference is hereby changed to October 19, 1978, at 10 a.m. at the offices of the Federal Energy Regulatory Commission, 825 North Capital Street, Washington, D.C. 20426. The room number will be posted on the second floor on the day of the conference.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Project No. 2804]

MAINE HYDRO-ELECTRIC DEVELOPMENT CORP.

Application for Minor License for Hydroelectric Project

SEPTEMBER 11, 1978.

Public notice is given that Maine Hydro-Electric Development Corp. has filed [1] an application under the Federal Power Act (16 U.S.C. 791(a)-825(r) (1970)) for a minor license for the proposed project No. 2804, to be known as the Goose River Hydroelectric project. Correspondence regarding this application should be sent to: Mr. Lawrence Gleeson, Mill Lane, P.O. Box 402, Belfast, Maine 04975.

Project No. 2804 would consist of the rehabilitation of five consecutive developments on the Goose River; the combined output of the completed project would be 426 kW. The following description of the project's five developments proceeds in sequence, beginning with the uppermost and continuing downstream.

SWAN LAKE DAM

The first development, located approximately 7 miles upstream from the mouth of the Goose River would consist of:

(1) The existing 10-foot-high, 250-foot-long dam of concrete and stone construction;

(2) A gate structure with three regulating gates;

(3) A reservoir with a storage capacity of 7,500-acre-feet.

This dam would be used only to regulate the water levels in Swan Lake and the flow to the downstream power developments. There would be no power facilities at this development.

MASONS DAM

Four miles downstream from Swan Lake is the Masons Dam development which would consist of:

(1) The existing 15-foot-high, 86-foot-long dam of rock masonry construction;

(2) An existing 160-foot-long, 3-foot-diameter penstock which would be reconditioned;

(3) The existing tailrace and wheel pit;

(4) An existing powerhouse to be reconditioned allowing the installation of a new 75 kW generator;

(5) A reservoir with a storage capacity of 1,621-acre-feet; and

[1] This proceeding was commenced before the Federal Power Commission (FPC). By regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Federal Energy Regulatory Commission (FERC). In this notice, the term "Commission" refers to the FPC for actions or statements that occurred before October 1, 1977; otherwise, it refers to the FERC.

(6) Appurtenant facilities.

KELLY DAM

protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules.

which would cost approximately $5,250. El Paso will reimburse applicant for the actual cost of installing

[6740-02]

In addition, Applicant proposes to increase the present horsepower capacity of the Humbert Compressor

(6) Appurtenant facilities.

KELLY DAM

One mile downstream from Masons Dam is the Kelley Dam development which would consist of;

(1) The existing 15-foot-high, 135-foot-long dam of rock masonry construction;

(2) A proposed 305-foot-long, 3-foot-diameter penstock (to be constructed);

(3) The existing tailrace;

(4) An existing powerhouse to be reconditioned allowing the installation of a new 55 kW generator;

(5) A reservoir with a storage capacity of 200-acre-feet; and

(6) Appurtenant facilities.

MILL DAM

One-half mile downstream from Kelly Dam is the Mill Dam development, which would consist of:

(1) The existing 6-foot-high, 70-foot-long dam of rock masonry construction;

(2) An existing 108-foot-long, 4-foot-diameter penstock;

(3) An existing powerhouse which applicant proposes to recondition allowing operation on an existing 94 kW generator;

(4) A reservoir with a storage capacity of 7-acre-feet and;

(5) Appurtenant facilities

CMP DAM

One-half mile downstream from Mill Dam is the CMP Dam development. This is the last development on the Goose River and it would consist of:

(1) An existing 21-foot-high, 231-foot-long dam of concrete gravity/buttress construction;

(2) An existing 1,100-foot-long, 5-foot-diameter penstock, parts of which would require restoration and replacement;

(3) A powerhouse (to be constructed);

(4) A new 200 kW generator to be installed in the powerhouse;

(5) A reservoir with a storage capacity of 72-acre-feet; and

(6) Appurtenant facilities.

USE OF PROJECT POWER

Applicant proposes to sell the power generated at these developments to the Central Maine Power Co. for distribution to its customers.

Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR 1.8 or 1.10 (1977). In determining the appropriate action to take, the Commission will consider all protests filed, but a person who merely files a protest does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any protest or petition to intervene must be filed on or before November 13, 1978. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-2]

[Docket No. CP78-496]

NORTHERN NATURAL GAS CO.

Application

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed in docket No. CP78-496 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 600 Mcf of natural gas per day for El Paso Natural Gas Co. (El Paso) for delivery to the city of Rankin, Tex. (Rankin) and the installation and operation of certain minor measurement facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that Rankin, a municipal customer of El Paso's, has been experiencing excessive lost-or-unaccounted-for volumes during the past several months. This problem is primarily due to the deteriorated state, caused by corrosion, of Rankin's transmission system, it is said.

Applicant states that on June 23, 1978, Applicant and El Paso entered into a gas transportation agreement whereby El Paso would deliver up to 600 Mcf of gas per day to Applicant at an existing point of interconnection between the pipeline systems of Applicant and El Paso located in Schleicher County, Tex., and Applicant would transport and deliver this gas for the account of El Paso to Rankin at a point on Applicant's mainline located approximately one (1) mile north of Rankin in Upton County, Tex.

Applicant states that the purpose of this arrangement is to assist Rankin in correcting its lost-or-unaccounted-for problem, which results in the waste of natural gas and constitutes a potential hazard.

Applicant indicates that in order to accommodate the delivery of gas to Rankin it is necessary to install and operate minor measurement facilities, which would cost approximately $5,250. El Paso will reimburse applicant for the actual cost of installing such facilities, it is said.

It is indicated that pursuant to the gas transportation agreement, El Paso would pay Applicant 3.85 cents per Mcf for all gas volumes transported and delivered for El Paso's account to Rankin. In addition, Applicant would retain one (1) percent of the gas volumes received from El Paso for transportation, which volume is for fuel shrinkage, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26013 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP78-83]

PANHANDLE EASTERN PIPE LINE CO.

Petition To Amend

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978 Panhandle Eastern Pipe Line Co. (Petitioner), P.O. Box 1642, Houston, Tex. 77001, filed in docket No. CP78-83, a petition pursuant to section 7(c) of the Natural Gas Act to amend the order issued by the Commission on January 30, 1978 in the instant docket, and to waive § 157.7(b)(1)(c) of the Commission's regulations so as to authorize Petitioner to expend an increased amount for the construction and operation of certain gas purchase facilities, during the 12-month period commencing January 30, 1978, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

It is stated that Petitioners were authorized to construct and operate certain facilities, to enable it to contract for and receive into its pipeline system natural gas, with such construction and operation authorized to take place during the 12-month period beginning January 30, 1978, at a total cost not to exceed $12 million with the single-project costs not to exceed $1,500,000. Petitioner states that due to a number of new supply sources, as well as the increased costs of connecting new wells the $12 million previously authorized is insufficient to meet Petitioner's costs for new gas purchase facilities. Consequently, Petitioner requests that the Commission waive § 157.7(b)(1)(c) of the Commission's regulations, and amend the order issued on January 30, 1978 in the instant docket to authorize Petitioner to construct facilities at a total cost not to exceed $18 million. Petitioner states that it does not anticipate the cost of any single project to exceed the $1,500,000 originally authorized.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26015 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP78-495]

PANHANDLE EASTERN PIPE LINE CO.

Application

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978, Panhandle Eastern Pipe Line Co. (Applicant), P.O. Box 1642, Houston, Tex. 77001, filed in docket No. CP78-495 an application pursuant to section 7(c) of the National Gas Act for a certificate of public convenience and necessity authorizing the construction and operation during the 1978 construction season of two new compressor stations, additions of horsepower at two existing compressor stations, and an additional 59.2 miles of pipeline between four (4) and eight (8) inches in diameter in Kearny County, Kans., Carson County, Tex., and Weld County, Colo., all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to construct and operate various facilities, which, it says, would cost approximately $6,816,000, in order to connect new supplies of natural gas.

Applicant proposes the establishment of what it calls the Hampton Compressor Station which, it states, would be located in Kearny County, Kans., and would be equipped with 1,800 compressor horsepower; 54.9 miles of pipeline of varying diameters between 4-inch and 8-inch, which would be utilized in connecting new natural gas supplies in Kearny County, Kans., on the upstream side of the proposed Hampton Compressor Station; and 4.3 miles of 8-inch pipeline, which would be utilized as a discharge line from the proposed Hampton Compressor Station to connect with the existing Miles Compressor Station.

Approximately sixty-eight (68) percent of the dollar value of the facilities proposed in this application would be utilized by Applicant in Kearny County, Kans., it is said. Applicant states that it has successfully secured for the first time sources of natural gas supply in this area of Kansas.

Applicant also proposes the establishment of what it refers to as the Armour Compressor Station, which, it says, would be located in Carson County, Tex., and would be equipped with 1,400 compressor horsepower. Applicant states that it has secured a new source of natural gas in the vicinity of the proposed station.

In addition, Applicant proposes to increase the present horsepower capacity of the Humbert Compressor Station, located in Weld County, Colo., from 700 horsepower to 1,400 horsepower. Applicant states that recently, the Colorado Oil and Gas Conservation Commission authorized drilling on 160-acre spacing units in the Weld County area. Applicant further states that producers in Weed County are now drilling new wells and that the increased compression facilities it has proposed herein are necessary to handle the resultant increases in volumes of gas.

Finally, Applicant proposes to increase the present horsepower capacity of the Blair Compressor Station in Carson County, Tex., from 700 horsepower to 1,400 horsepower. Applicant states that it needs the additional horsepower because it has connected new wells to its pipeline system upstream of the Blair Compressor Station and anticipates the connection of additional wells during 1978 and 1979.

Applicant notes that it has filed simultaneous with this application in docket No. CP78-83 pursuant to § 157.7(b)(1)(i) of the Commission's rules and regulations (18 CFR 157.7(b)(1)(i)) a request to increase by $6 million its budget authorization for new natural gas connection facilities for the 12-month budget period, which began January 30, 1978. Certain of the supplies connected under the proposed authorization in docket No. CP78-83 would be handled by the facilities for which authorization is requested herein, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its

designee on this application if no petition to intervene is filed within the time required herein, if the Commis-

Line Corp. (Transco) at Crowley, La., for transportation to United. In addition, it is said that the E/T agreement

application to amend the order of May 24, 1976, as amended, in said docket pursuant to section 7(c) of the Natural

Applicant states that for the transportation service proposed herein it would retain 6.23 percent of the volumes delivered as makeup for com-

tion of up to 420 dekatherms (dt) equivalent of natural gas per day on an interruptible basis for the Celotex Corp. (Celotex) an existing industrial

with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18

designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26016 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP77-108]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO, INC., AND UNITED GAS PIPE LINE CO.

Petition To Amend

SEPTEMBER 8, 1978.

Take notice that on August 24, 1978, Tennessee Gas Pipeline Co., a Division of Tenneco, Inc. (Tennessee), P.O. Box 2511, Houston, Tex. 77001 and United Gas Pipe Line Co. (United), P.O. Box 1478, Houston, Tex. 77001, filed in docket No. CP77-108 a joint petition to amend the order of April 14, 1978 (1 FERC ——) issued by the Commission pursuant to section 7(c) of the Natural Gas Act so as to provide for transportation by Tennessee to United, and an exchange of 80,000 Mcf of gas per day in addition to the 300,000 Mcf per day previously authorized in this docket, and the delivery of gas to United at two additional points, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

It is indicated that pursuant to the Commission's order of April 14, 1978, Tennessee was authorized to transport up to 300,000 Mcf per day for United in accordance with a transportation agreement between the parties dated July 14, 1976, as amended June 16, 1977 (Tennessee's FERC gas tariff rate schedule T-63). Under the transportation agreement, Tennessee receives volumes of gas from United at Starks, La. (Starks) and delivers equal volumes to United at three points: West Monroe and Bayou Sale, La., and Chauncey, Miss., it is said.

It is further indicated that Tennessee and United have entered into an exchange and transportation agreement (E/T agreement) dated May 1, 1978, in which Tennessee has agreed to receive an additional 80,000 Mcf per day from Transcontinental Gas Pipe Line Corp. (Transco) at Crowley, La., for transportation to United. In addition, it is said that the E/T agreement provides for the delivery of equal volumes of gas to United at Cocodrie and Lirette, La., in addition to the three above-mentioned redelivery points, and grants to Tennessee the right to make available to United at Lirette up to 150,000 Mcf per day of the volumes received at Starks and Crowly, La., as exchange gas.

It is stated that for the volumes of gas which are to be transported under the E/T agreement, Tennessee would charge a rate based upon its then-effective 100 Mcf-mile charge, computed on the basis of a 100-percent load factor and utilizing Tennessee's then-current system average transmission cost of service applied to the distance in miles between the receipt point and the applicable delivery point.

Tennessee and United state that on July 20, 1978, they filed an application in docket No. CP78-436 requesting authorization to construct pipeline and compression facilities. The proposed pipeline is said to extend from Cocodrie to Lirette. Tennessee and United state that these facilities will enable Tennessee to make redeliveries of the proposed exchange and transportation volumes at the Cocodrie and Lirette points.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26017 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP76-267]

TEXAS GAS TRANSMISSION CORP.

Application To Amend

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978, Texas Gas Transmission Corp. (Applicant), P.O. Box 1160, Owensboro, Ky. 42301, filed in docket NO. CP76-267 an application to amend the order of May 24, 1976, as amended, in said docket pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) so as to extend Applicant's authorization to transport and deliver volumes of natural gas to Southern Indiana Gas and Electric Co. (SIGECO) for the account of Aluminum Co. of America (Alcoa) for an additional 2-year period, commencing November 1, 1978, all as more fully set forth in the application to amend on file with the Commission and open to public inspection.[1]

It is indicated that by order of the Federal Power Commission, issued May 24, 1976, as amended, Applicant was authorized to transport, on an interruptible basis, and deliver a volume of natural gas to SIGECO for the account of Alcoa. This certificate authorization to transport gas expired by its terms as of June 30, 1978, it is stated.

Applicant requests that the certificate issued in the instant docket be amended to authorize the transportation service for an additional 2-year period, commencing November 1, 1978, pursuant to a Transportation Service Agreement between Applicant and Alcoa, dated July 14, 1978. Applicant asserts that the proposed extension is within the contemplation of § 2.79 of the Commission's general policy and Interpretations (18 CFR 2.79), as amended by Commission order No. 2, issued February 1, 1978.

It is indicated that the volumes of gas to be transported for the account of Alcoa, as proposed herein, would be purchased by Alcoa from Weeks Petroleum Corp. (Weeks) and Sun Gas Co. (Sun). These volumes of natural gas would be delivered to Applicant for the account of Alcoa by Texas Eastern Transmission Corp. (Texas Eastern) at an existing point of delivery from Texas Eastern to Applicant at Applicant's Sharon Purchase Meter Station located near Lisbon, La., it is stated, and that Applicant would simultaneously redeliver the volumes of gas received from Texas Eastern up to 5,808 Mcf per day to its existing point or points of delivery with Sigeco, for ultimate delivery to Alcoa's facility in Warrick, Ind. Applicant States that it in no event would be obligated to deliver on any day an aggregate amount of more than 102,000 Mcf of gas through all its points of delivery to Sigeco. It is indicated that Sigeco has agreed to accept volumes of natural gas up to 5,808 Mcf per day for the account of Alcoa.

[1] This proceeding was commenced before the Federal Power Commission. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Commission.

Applicant states that for the transportation service proposed herein it would retain 6.23 percent of the volumes delivered as makeup for compressor fuel and line loss. This percentage was calculated on an incremental basis for pipeline throughput to and within the rate zone in which the delivery by Applicant would be made, which is Zone 3, it is stated. It is indicated that Applicant would not retain any volumes for its own system supply. Applicant states that it would collect an initial charge from Alcoa of 24.81 cents per Mcf for all volumes delivered to Sigeco for Alcoa's account (Applicant's FERC gas tariff, third revised volume No. 1, revised sheet No. 7-A.

It is further indicated that Texas Eastern will file an application, at approximately the same time as the filing of the application herein, for a certificate of public convenience and necessity for authorization for Texas Eastern to transport and deliver volumes of gas for the account of Alcoa.

Any person desiring to be heard or to make any protest with reference to said application to amend should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-26018 Filed 9-14-78; 8:45 am]

[6740-02]

[Docket No. CP78-497]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

SEPTEMBER 8, 1978.

Take notice that on August 25, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in docket No. CP78-497 an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of up to 420 dekatherms (dt) equivalent of natural gas per day on an interruptible basis for the Celotex Corp. (Celotex) an existing industrial customer of Pennsylvania Gas and Water Co. (PG&W), one of Applicant's resale customers served under rate schedule CD-3, pursuant to Applicant's rate schedule T for a period of 2 years, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that Celotex has contracted to purchase from Davis Oil Co., ENI Oil and Gas development drilling program 1977/1978E, and the Campbell Co. 1977 limited partnership (Davis, et al.), up to 420 dt of natural gas per day at a price of $1.90 per million Btu's, which price would increase $.10 per million Btu at the end of the first year of the contract. Such gas would be produced from the Papalote west field area in San Patricio County, Tex., and is not available for resale in the interstate market, it is said. It is indicated that Celotex would arrange to have the subject gas delivered to a mutually agreeable point on Applicant's system in that county, and Applicant would redeliver the transportation quantities to existing points of delivery to PG&W for the account of Celotex. Applicant indicates that PG&W would transport such quantities of natural gas delivered to it by Applicant for the account of Celotex to Celotex's Pittston, Pa. plant, where such gas would be used for "process gas" requirements to dry mineral acoustical time by a direct fire method which process is limited by current technology to the use of propane as alternate fuel. Experiments using other fuels have failed to produce a tile of acceptable quality; thus the Pittston plant is dependent on natural gas and propane, it is stated.

Applicant indicates that under its rate schedule T, it would charge Celotex an initial rate of 24.0 cents per dt for all quantities delivered hereunder, and would retain, initially, 4.4 percent of the quantities received for transportation as makeup for compressor fuel and line loss. The transportation service provided by PG&W for Celotex is subject to PG&W's existing rate schedule SL-8, it is said. The application states that Davis, et al., would reimburse Applicant for their pro-rate share (amounting to $6,000) of existing authorized metering facilities owned by Applicant and required for the receipt of the subject gas into Applicant's pipeline.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will b considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless othewise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket Nos. RP76-136, RP77-26 and RP77-106]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Tariff Filing

SEPTEMBER 7, 1978.

Take notice that Transcontinental Gas Pipe Corp. (Transco) on August 23, 1978, tendered for filing certain revised tariff sheets to its FERC gas tariff, Second Revised Volume No. 1, and Original Volume No. 2 to become effective on various dates from February 1, 1977 through December 1, 1977. Transco states that this filing is being made pursuant to and in accordance with the Commission's order of June 27, 1978, approving the settlement agreement in docket Nos. RP76-136 and RP77-26.

Transco states that the tariff sheets which are applicable to sales for resale, storage, and firm transportation services and are filed to become effective on various dates from February 1, 1977 through September 2, 1977,

V 43 / 180 / SE 15 78

V 43 / 180 SE 15 78

are the same as the tariff sheets contained in sections 1 through 9 of appendix C of the settlement agreement in docket Nos. RP76-136 and RP77-26. Additionally, the tariff sheets filed to be effective December 1, 1977, reflect the settlement rates contained in section 9 to be effective September 2, 1977, adjusted to reflect the elimination of the opinion 770-A surcharge, which occurred after the agreement was filed. Transco further states that the tariff sheets which are applicable to interruptible transportation service rate schedules reflect changes which are in conformity with article VII of the approved settlement agreement and that certain of the tariff sheets for interruptible transportation services relate to rate schedule changes made effective in docket No. RP77-106 subject to the outcome of the proceedings in docket Nos. RP77-136 and RP77-26.

Transco states that copies of the instant filing have been mailed to each of its jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 22, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspections.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP78-498]

UNITED GAS PIPE LINE CO.

Application

SEPTEMBER 8, 1978.

Take notice on August 28, 1978, United Gas Pipe Line Co. (Applicant), P.O. Box 1478, Houston, Tex. 77001, filed in docket No. CP78-498 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 25,000 Mcf of natural gas per day for Florida Gas Transmission Co. (Florida Gas), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant indicates that Florida Gas has acquired the right to purchase said volumes of gas from onshore production in Jefferson Davis County, Miss., attributable to the interests of Florida Gas Exploration Co. Florida Gas desires Applicant to transport such gas to an existing authorized point of interconnection between the pipeline systems of the two companies, it is said. Consequently, Applicant and Florida Gas have entered into an agreement dated August 16, 1978, whereby Florida Gas would deliver or cause the delivery to Applicant for the account of Florida Gas up to 25,000 Mcf of gas per day at a tap to be installed by Applicant, at Index 301-4 Jefferson Davis County, Miss. Applicant states that it would redeliver equivalent volumes of gas to Florida Gas, less an allowance for fuel and company-used gas, at an existing authorized point of interconnection between the pipeline systems of Applicant and Florida Gas in St. Landry Parish near Arnauldville, La., or St. Helena Parish, La., or at Wiggins, Stone County, Miss.

It is indicated that Applicant would charge Florida Gas for the transportation services an amount per Mcf equal to Applicant's jurisdictional transmission cost of service in effect from time to time in Applicant's northern rate zone as such may be determined by Applicant based on rate filings made from time to time with the Commission, less any amount included in such average jurisdictional transmission cost of service which is attributable to gas consumed in the operation of Applicant's pipeline system which current average jurisdictional transmission cost of service, exclusive of the cost of gas consumed in Applicant's operation is 24.46 cents per Mcf in Applicant's northern rate zone.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 29, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-138]

UNITED GAS PIPE LINE CO.

Order Granting Petition for Advance Approval and Granting Interventions

SEPTEMBER 5, 1978.

On September 23, 1977,[1] United Gas Pipe Line Co. (United) filed a petition[2] pursuant to section 154.38(d)(5)(i) of the Commission's regulations[3] requesting advance assurance that United will be permitted to recover in rates some $12.7 million in research, development, and demonstration (R.D. & D.) expenditures associated with its "project SNG-biomass." The project will explore anaerobic digestion processes for the conversion of nonfossil carbonaceous materials (eg. municipal solid wastes (MSW), agricultural residues and "biomass"[4]) into methane (i.e. synthetic natural gas). If initial project research proves successful, United proposes to construct and operate a pilot facility having the capability of converting 100 tons per day of nonfossil carbonaceous materials into

[1] This proceeding was commenced before the FPC. By joint regulation of Oct. 1, 1977 (10 CFR 1000.1), it was transferred to the FERC.

[2] The petition was supplemented on Dec. 5, 1977, May 17, 1978, and July 12, 1978.

[3] Amended by order No. 566 issued June 3, 1978, rehearing denied by order issued Aug. 3, 1977, in docket No. RM76-17, motion for reconsideration denied by order issued Jan. 9, 1978, in docket No. RM76-17.

[4] The "biomass" species to be studied in particular are (water hyacinths) and bermuda grass.

1,000 Mcf per day of methane gas. The Commission shall rule that United's project expenditures are entitled to rate treatment subject to the annual review provisions of the Commission's regulations.

Notice of United's petition was issued on September 23, 1977, calling for protests or petitions to intervene to be filed on or before February 6, 1978. The State of Louisiana filed an untimely notice of intervention on March 30, 1978. Memphis Light, Gas and Water Division, city of Memphis, filed a timely petition to intervene. Inasmuch as both parties have demonstrated an interest in this proceeding, they shall be permitted to intervene.

As stated in more detail in the petition, as supplemented, United's project SNG-biomass seeks to convert a combination of MSW, agricultural residues, and biomass into pipeline quality methane by an anaerobic digestion process. The project will initially consist of laboratory research into (1) feedstock selection, production, cultivation, transportation, and storage, and (2) anaerobic digestion technology. From this laboratory research a computerized process and economic model will be developed leading to the design, construction, and operation of a pilot plant. The project is expected to take at least 8 years and cost $12.7 million.

United indicates that one of the unique aspects of its proposal is the use of an optimum combination of terrestrial (bermuda grass) and aquatic (water hyacinths) plant cultures as a partial feedstock for the anaerobic digestion process. The combination of crops to be used will depend upon the specific wastes which will be gasified as well as the soil and water quality of the site location.

United also points out that its proposed use of anaerobic digestion should decrease energy consumption compared to the anaerobic digestion processes now employed in sewage disposal. Current sewage disposal techniques require that aqueous effluent resulting from the digestive process be subjected to secondary waste treatment. This secondary treatment converts the bulk of the energy-rich organic matter into carbon dioxide and water by oxidation but, in the process, consumes significant amounts of energy.

United proposes to develop a process which would use this aqueous effluent to raise aquatic plants which, in turn, could serve not only to remove a wide variety of water pollutants but also to capture solar energy by photosynthesis. Solid wastes produced by anaerobic digestion will be used to fertilize terrestrial crops.

United distinguishes its process from the process to be used at a pilot plant under construction at Pompano Beach, Fla. The latter process, United states, uses for feedstock a mixture of shredded MSW and primary sewage sludge. Dewatered residual sludge is landfilled and residual water from the sludge recycled directly back to the digestors or else applied to the landfill. United's project, on the other hand, uses a combined feedstock of biomass and MSW. Residual solids and liquids will be used to produce terrestrial and aquatic feedstock crops respectively. This approach, if successful, will minimize the disposal problems which occur as a result of anaerobic digestion.

United estimates that the first year of its project will cost $290,000. Of this total, $220,000 will be paid to the Institute of Gas Technology (IGT) under a May 18, 1977 contract, between United and IGT. The research will test the anaerobic digestibility of bermuda grass, water hyacinths, and MSW from New Orleans, La.

Additionally, United signed on July 28, 1977, a letter of intent requiring a $50,000 contribution toward the design, construction, and operation of a pilot plant at Walt Disney World in Orland, Fla., to grow water hyacinths in 50,000 gallons per day of municipal sewage effluents. The project aims to determine whether effluent purification resulting from the growth of water hyacinths is sufficient to meet water quality standards. The project involves other companies, the National Aeronautical and Space Administration, the Environmental Protection Agency, and the State of Florida. The total cost is expected to be $932,000 which will be shared by all participants over the 24 months of the project. Other costs in the first year of the project SNG-biomass are miscellaneous in character.

In accordance with section 154.38(d)(5)(iii) of the Commission's regulations[5] United's petition also purports to comply with the requirement that a 5 year R.D. & D. plan be submitted as part of United's request for advance approval.

United's project SNG-biomass involves research, design, construction, and operation of an experimental anaerobic digestion pilot plant for the conversion to synthetic gas of a unique and heretofore untested combination of selected biomass and waste feedstock. The results from the R.D. & D. effort will be closely monitored so that project tasks, goals and timetables may be modified or altered if necessary.

United has an R.D. & D. section within the company and it is being used to coordinate its efforts with private and Federal organizations and agencies to insure that there is no overlap or duplication. It will seek patents and licenses of significant inventions and all revenues derived from the R.D. & D. project will be credited to the gas customers.

Moreover, United agrees to comply with order No. 566 and the Commission's regulations by filing annually a comprehensive and detailed report on the R.D. & D. results, progress to date, as well as proposed future project tasks.

The Commission has reviewed the application and the supplemental data and concludes United's project SNG-biomass is within the R.D. & D. definition 28.B of the uniform system of accounts and that United's plan is adequate under the guidelines set forth in section 154.38(d)(5)(iii) of the Commission regulations.

The Commission order: (A) Actual expenditures associated with project SNG-biomass for the year ended May 31, 1978, shall be allowed in rates in accordance with section 154.38(d)(5)(v) of the Commission's regulations and account 188 of the Commission's uniform system of accounts.

(B) The authorization granted in paragraph (A), above, is conditioned upon United's continued compliance with sections 154.38(d)(5)(iii) and 154.38(d)(5)(iv) of the Commission's regulations.

(C) The State of Louisiana and Memphis Light, Gas, and Water Divison are permitted to intervene in this proceeding subject to the Commission's rules and regulations; *Provided, however,* That the participation of the intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in the petitions to intervene; and *Provided, further,* that the admission of such intervenors shall not be construed as recognition that they might be aggrieved by any order entered in this proceeding.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

Office of Assistant Secretary for International Affairs

ADDITIONAL AGREEMENT FOR COOPERATION BETWEEN THE GOVERNMENT OF THE UNITED STATES AND THE EUROPEAN ATOMIC ENERGY COMMUNITY

Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amend-

ed (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the additional agreement for cooperation between the Government of the United States and the European Atomic Energy Community (EURATOM) concerning the peaceful uses of atomic energy.

The subsequent arrangement to be carried out under the above mentioned agreement involves a modification to a loan contract negotiated by the Government of the United States and Euratom whereby the United States agrees to the transfer for 8.05 grams of plutonium 242 (previously transferred from the United States to France) from the Institut Laue Langevin (ILL) in Grenoble, France to the Atomic Energy Research Establishment (AERE) in Harwell, England. This material will be used in specific heat (nondestructive) experiments by AERE personnel. Afterwards, the material will be reencapsulated and returned to France.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of the nuclear material will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than 15 days after the date of publication of this notice.

For the Department of Energy.

Dated: September 12, 1978.

ROBERT N. SLAWSON,
Acting Director for Nuclear Affairs International programs.

Office of Hearings and Appeals

ISSUANCE OF PROPOSED DECISIONS AND ORDERS

August 28 through September 1, 1978

Notice is hereby given that during the period August 28 through September 1, 1978, the proposed decisions and orders which are summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to applications for exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of the proposed decision and order in final form may file a written notice of objection within 10 days of service. For purposes of the new procedures, the date of service of notice shall be deemed to be the date of publication of this notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a notice of objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the proposed decision and order in final form.

Any aggrieved party that wishes to contest any finding or conclusion contained in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In that statement of objections an aggrieved party must specify each issue of fact or law contained in the proposed decision and order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these proposed decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 and 5 p.m., e.d.t., except Federal holidays.

SEPTEMBER 11, 1978.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

Proposed Decisions and Orders

American Petroleum Refiners Association, Inc., Washington, D.C., FEE-4433, Aviation Jet Fuel

The American Petroleum Refiners Association, Inc. filed an application for class exception relief from the provisions of sections 212.82 and 212.93. The exception request, if granted, would permit a class of refiners and resellers to retroactively increase their maximum permissible selling prices for aviation jet fuel which they have supplied to the Defense Fuel Supply Center. On August 31, 1978, the DOE issued a proposed decision and order which determined that the class exception request be dismissed.

C. F. Lawrence & Assoc., Inc., Midland, Tex., DEE-1304, Crude Oil

C. F. Lawrence & Assoc., Inc., filed an application for exception from the provisions of 10 CFR, part 212, subpart D. The exception request, if granted, would permit C. F. Lawrence to sell the crude oil produced for the benefit of the working interest owners at the Childress M. I. Masterson lease at upper tier ceiling prices. On September 1, 1978, the DOE issued a proposed decision and order which determined that the exception request be granted.

Continental Oil Co., Houston, Tex., DEE-0983, DEE-0984, Crude Oil

The Continental Oil Co. filed an application for exception from the provisions of 10 CFR 212.73. The exception request, if granted, would permit the firm to sell the crude oil produced from the McCroskey and McNee leases located in Santa Barbara County, Calif., at upper tier ceiling price levels. On August 29, 1978, the DOE issued a proposed decision and order in which it determined that the exception request be granted for both the McCroskey and McNee leases.

W. N. McMurry, Casper, Wyo., DXE-1477, Crude Oil

W. N. McMurry filed an application for exception from the provisions of 10 CFR 212.73. The exception request, if granted, would result in the extension of exception relief previously granted and would permit McMurry to continue to sell certain of the crude oil which he produces at upper tier ceiling prices. On August 29, 1978, the DOE issued a proposed decision and order which determined that the exception request be granted.

Mobil Oil Corp., New York, N.Y., DEE-1460, Crude Oil

The Mobil Oil Corp. filed an application for exception from the provisions of 10 CFR 212.73. The exception request, if granted, would permit Mobil to sell the crude oil produced from the H&J 495-D lease at upper tier ceiling prices. On September 1, 1978, the DOE issued a proposed decision and order which determined that the exception request be granted in part.

North Kern Front Enterprises, Inc., Santa Ana, Calif., DEE-1081, Crude Oil

North Kern Front Enterprises, Inc. filed an application for exception from the provisions of 10 CFR, part 212, subpart D. The exception request, if granted, would permit the firm to sell the crude oil produced from the Mitchell lease located in Kern County, Calif., at market price levels. On September 1, 1978, the DOE issued a proposed decision and order which determined that the exception request should be denied.

Texaco, Inc., Denver, Colo., DEE-1338, DEE-1339, Crude Oil

Texaco, Inc. filed two applications for exception from the provisions of 10 CFR, part 212, subpart D. The exception requests, if granted, would permit the working interest owners to sell the crude oil which is produced from the State of Wyoming "G" lease and from the John Sweeney lease at upper tier ceiling prices. On September 1, 1978, the DOE issued a proposed decision and order which determined that the requests be granted in part.

GULF REFUND PROCEDURES

Extension of Time for Comments

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of extension of comment period.

SUMMARY: On August 28, 1978, a notice was published in the FEDERAL REGISTER that pertained to the settlement of claims resulting from a $42,240,000 refund by Gulf Oil Corp.

Attached to the notice was a copy of an Interim Decision and Order that established procedures for refund applications. The notice sought public comments on the procedures by September 18, 1978. The Table of Contents of the FEDERAL REGISTER contained an incorrect page reference to the Notice and accompanying Decision and Order. The purpose of this document is to provide notice that the Notice and Interim Decision and Order may be found on page 38,548 of the August 28, 1978, FEDERAL REGISTER. In view of the foregoing, the comment period will be extended until September 29, 1978.

DATE: Comments by September 29, 1978.

ADDRESS: Office of Public Hearing Management, Box VH, 2000 M Street NW., Room 2313, Washington, D.C. 20461.

Issued in Washington, D.C., on September 13, 1978.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

Federal Energy Regulatory Commission

[Docket No. RI78-5]

ELMS BROS. & CO.

Order Granting Petition for Special Relief

SEPTEMBER 7, 1978.

On November 1, 1977, Elms Bros. & Co. (Elms), filed a petition for special relief in docket No. RI78-5 pursuant to section 2.76 (18 CFR 2.76) of the Commission's general policy and interpretations. Elms seeks authorization to charge a total rate of $1.14 per Mcf for natural gas produced from the Scott well, located in Gray Township, Greene County, Pa., and sold to Columbia Gas Transmission Corp. (Columbia). Elms owns 100 percent working interest in the subject gas.

Notice of Elm's petition was issued on March 31, 1978. Columbia filed a timely petition to intervene, stating therein, among other things, that it would abide by any rate found justified by the Commission.

Currently, Elms sells gas to Columbia at the rate of 82 cents per Mcf. This gas is being sold pursuant to a contract, dated January 13, 1939, and a small producer certificate issued in docket No. CS76-1115 on December 28, 1976.

In a previous petition for special relief, filed in docket No. RI78-48,[1] Elms advised the Commission staff that it contemplated working over the Scott well and that it would file a petition for special relief when it secured a rig to do the workover. Additionally, Elms stated that it did not expect to gain immediate access to a rig due to the limited availability of rigs; however, due to a cancellation, a rig became available, and Elms decided to take advantage of the opportunity and do the workover then, notwithstanding it had not filed a petition for special relief regarding the Scott well. In that Elms previously informed the Commission of the contemplated additional work and the well has been recovering only out-of-pocket costs, staff concluded that the petition should be considered under section 2.76.

Staff estimates that the workover will return the well to its previous production level resulting, over a life of 9.16 years, in the recovery of estimated remaining gross reserves of 32,875 Mcf of gas.

Due to the adequacy of the data filed by Elms, staff concludes that no field investigation is necessary. Based on data filed by Elms, staff calculates that Elms net remaining book value amounts to $4,670 as of January 1, 1978. Further, staff estimates that the initial year operating expense will be $1,500, which results, allowing a 5 percent-per-year inflation factor during the first 5 years of project life, in total operating expenses over the projected life of the well of $15,052. These costs and the net working interest reserves of 30,650 were used in a traditional cost study.[2] The result of the study indicates that a total rate of $1.14 per Mcf is required to allow Elms to recomp all costs associated with the project, including a 15-percent rate of return. Moreover, staff estimates that granting the above rate will result in a revenue increase of less than $10,000 over the life of the project.

We conclude, after considering the data submitted and staff's analysis thereof, that it is in the public interest to grant special relief to Elms.

The Commission orders: (A) Elms petition for special relief is granted.

(B) Elms is authorized to collect a total rate of $1.14 per Mcf at 14.73 psia for the sale of its gas from the Scott well, Greene County, Pa., to Columbia effective on the date of this order subject to the condition set forth in paragraph (C) below.

(C) Within 30 days of the effective date herein, Elms must file a statement signed by Columbia that the work has been completed to Columbia's satisfaction.

(D) Columbia is permitted to intervene in the above entitled proceeding, subject to the rules and regulations of the Commission; *Provided, however, That its participation shall be limited to matters affecting affecting asserted rights and interest specifically set forth in its petition for leave to intervene; And provided further,* That the admission of Columbia in the manner provided shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders entered in this proceeding, and that Columbia agrees to accept the record as it now stands.

By the Commission.

KENNETH F. PLUMB,
Secretary.

APPENDIX A.—*Elms Bros. & Co. Docket No. RI78-5, Scott Lease, Greene County, Pa.*

[Unit cost of gas]

Line No. and item (a)	Amount (b)
1. Net working interest at volumes:	
2. Gas—Mcf at 14.73 psia [1]	30,650
3. Liquids—Barrels	0
4. Cost of production:	
5. Return on rate base at 15 pct [2]	$5,661
6. D.D. & A [3]	7,803
7. Production expense [4]	15,052
8. Plug and abandon well [5]	6,400
9. Regulatory expense [6]	31
10. Total cost of production	34,947
11. Unit cost of gas (cents per Mcf):	
12. Cost of production [7]	1.14
13. Production tax	0
14. Total unit cost	1.14

[1] 32,875 Mcf times 93.23 net working interest.
[2] Line 17 of sheet 3 times 0.15 times 9.16 year productive life.
[3] From sheet 2, line 6.
[4] Based on $1,500 per year escalated 5 pct per year for the first 5 yr.
[5] Cost to plug and abandon well.
[6] Line 2 times 0.1 cent/Mcf (per opinion No. 749).
[7] Line 10 divided by line 2.

NOTE.—The above cost is based on representations of the applicant contained in his filing. The volumes are based on staff's estimated recoverable reserves of 32,875 Mcf of gas.

[Investment]

Line No. and item (a)	Amount (b)
1. Investment:	
2. Remaining net book value	$4,670
3. Workover	4,000
4. Total investment	8,670
5. Less salvage value	867
6. Depreciable investment	7,803
7. Depreciation per unit of production [1]	0.254584
8. Total gas	30,650

[1] Line 6 divided by line 8.

[1] Staff previously determined that the 82 cents per Mcf price for the Scott well would recover only out-of-pocket costs.

ISSUANCE OF EXPERIMENTAL USE PERMIT

Correction

In FR Doc. 78-22489 appearing at page 35999 in the issue of Monday, August 14, 1978, in experimental use permits No. 3125-EUP-145 and No. 3125-EUP-144, the following corrections should be made in the center section describing the experimental use permits granted to Mobay Chemical Corp., Kansas City, Mo. 64120.

The eighth line of the description in both permits should read: "• • • A total of 7,275 acres is involved • • •."

The list of States in which the programs are authorized in both permits starts on line 10 of No. 3125-EUP-144. To that list are added the following States: "• • • Colorado, Kansas, Nebraska, New Mexico, and Wyoming • • •."

Dated: September 11, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

REBUTTABLE PRESUMPTION AGAINST REGISTRATION AND CONTINUED REGISTRATION OF PESTICIDE PRODUCTS CONTAINING 2,4,5-TRICHLOROPHENOL AND ITS SALTS

Extension of Period for Submission of Rebuttal Evidence and Comments

On July 25, 1978, the Environmental Protection Agency (EPA) issued a notice of presumption against registration and continued registration of pesticide products containing the ingredient 2,4,5-trichlorophenol and its salts. This notice was published in the FEDERAL REGISTER on August 2, 1978 (43 FR 34026). The regulations governing rebuttable presumptions provide that the applicant or registrant of such pesticide products shall have forty-five (45) days from the date such notice is sent to submit evidence in rebuttal of the presumption. However, for good cause, an additional sixty (60) days may be granted in which such evidence may be submitted (40 CFR 162.11(a)(1)(i)).

A request for an additional 60 days in which to present evidence to the Agency has been received from one of the major registrants who was affected by the notice of presumption. The requester has specified a need for additional time to collect and analyze data and other information in order to adequately rebut and respond to the notice.

The Agency agrees that additional time would be beneficial for the submission of complete and accurate responses to the notice of presumption. Therefore, because good cause has been shown, all registrants, applicants for registration, and other interested persons shall have until November 17, 1978, to submit rebuttal evidence and other comments or information. Such evidence, comments, or other information relevant to the presumption against registration and continued registration should be submitted to the Federal Register Section, Technical Services Division (TS-757), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 20460. All comments should bear the identifying notation "OPP-30000/27B." Comments and information received on or before November 17, 1978, shall be considered before it is determined whether a notice shall be issued in accordance with 40 CFR 162.11(a)(5)(ii) and 7 U.S.C. 136(a)(c)(6) or 7 U.S.C. 136(d)(b)(1). Comments received after November 17, 1978, shall be considered only to the extent feasible consistent with the time limits imposed by 40 CFR 162.11(a)(5)(ii). All written comments filed pursuant to this notice will be available for public inspection in the Office of Federal Register Section at the above address from 8:30 a.m. to 4 p.m., Monday through Friday. The file supporting the Agency's presumption against this pesticide is available for public inspection in the Office of Special Pesticide Review, Room 447, East Tower, EPA, during the same hours.

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

REBUTTABLE PRESUMPTION AGAINST REGISTRATION AND CONTINUED REGISTRATION OF PESTICIDE PRODUCTS CONTAINING 2,4,5-TRICHLOROPHENOL AND ITS SALTS

Correction

In FR Doc. 78-21012 in the issue of August 2, 1978, commencing on page 34053, third column, add the following to the list of Federally Registered Products Containing 2,4,5-TCP and its salts.

On page 34053, third column, under registrant No. 001043—Vestal Laboratories—Division of Chemed Corp., 4963 Manchester Avenue, St. Louis, Mo. 63110, following the entry product No. 00015—Anti-Bacterial Vescu-Lite, add product No. 00040—Ty-Lon 27 Bacteriostat and Algicide.

On page 34054, second column, registrant No. 005736—DuBois Research Laboratories, Dubois Chemical Division, Chemed Corp., 3630 East Kemper Road, Sharonville, Ohio 45241, before the entry product No. 00054—D-Slime, Algicide Bacteriostat, add product No. No. 00053—Gax-15 Microbiocide.

On page 34054, second column, following the product entry 00010—SC 710 Algicide under registrant No. 008428—Shrader Chemical Co., 1205 South Santa Fe, Compton, Calif. 90221 add registrant No. 008501—Pace National Corp., 500 7th Ave., South Kirkland, Wash. 98033 and its product No. 00017—Moss Stop.

On page 34054, third column, following the last product entry 07183—Algicide 101L, add registrant No. 037296—Product-Sol, Inc., 2010 Cole Ave., Birmingham, Mich. 48008 and its product No. 00001—Bioderm 200 Antimicrobial.

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant
Administrator
for Pesticide Programs.

RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the adminstration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ["Interim Policy Statement"]. On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" [41 FR 3339]. This document described the changes in the Agency's procedures for implementing section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement which were effected by the enactment of the amendments to FIFRA on November 28, 1975 [Pub. L. 94-140], and the regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 [40 CFR Part 162].

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street SW., Washington, D.C. 20460. In the case of applications subject to the section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, are being used to support an application described in this notice, (c) desires to assert a claim under section 3(c)(1)(D) for such use of his data and wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, or (d) wishes to assert confidential status under section 10 for his data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Process Coordination Branch, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 12 and 16—202-755-9315;
PM 21 and 22—202-426-2454;
PM 24—202-755-2196;
PM 31 and 32—202-426-2635;
PM 15 and 17—202-426-9427;
PM 23—202-755-1397;
PM 25—202-426-2632.

The Iterim Policy Statement requires that claims for compensation be filed within 60 days of publication of this notice. EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under section 10 of FIFRA, as amended, should be made within 30 days subsequent to publication of this notice. Registration will be delayed pending resolution of section 10 claims.

Dated: Spetember 11, 1978.

DOUGLAS D. CAMPT,
Acting Director
Registration Division.

FEDERAL MARITIME COMMISSION

AGREEMENT FILED

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and San Juan, P.R. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by October 5, 1978. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreement No. 9427-4 and 9552-3.

Filing Party: Howard A. Levy, Esq., Suite 727, 17 Battery Place, New York, N.Y. 10004.

Summary: Agreements 9427-4 and 9552-3 modify, respectively, the Germany-North Atlantic Rate Agreement and the North Atlantic/West Europe Rate Agreement to (1) authorize agreement on services and facilities provided or performed in conjunction with intermodal shipments moving via ports covered by the agreement, whether moving under a through bill of lading or otherwise, and (2) authorize agreement with other U.S./European conferences serving the same ports relative to the establishment, policing, and enforcement of rules, practices, and charges relating to the use, employment, and transport of loaded and unloaded containers in Europe only, subject to the right of independent action.

Notice of the filing of Agreeement 9427-4 previously appeared in the FEDERAL REGISTER on July 19, 1976 (41 FR 29748) and notice of the filing of Agreement 9552-3 previously appeared on June 11, 1976 (41 FR 23799).

Upon advice of the Commission's staff, these agreements were modified and refiled by proponents on September 20, 1977, to (1) provide that any interconference agreement entered into must first be filed with and approved by the Commission and (2) exclude from the jurisdiction of the agreements all-water through movements originating at or destined to ports outside the scope of the agreements.

These changes were for purposes of clarification and resulted in no substantive change in the scope of the agreements or the anticompetitive relationships of the parties.

Because of the above changes and the lapse of time since the initial filing of these agreements, the Commission has decided to afford interested parties a further opportunity to comment thereon before it takes final action.

By order of the Federal Maritime Commission

Dated: September 12, 1978.

JOSEPH C. POLKING,
Assistant Secretary.

[6730-01]

[Docket No. 78-32]

PACIFIC WESTBOUND CONFERENCE—EQUALIZATION AND ABSORPTION RULES AND PRACTICES

Order of Investigation and Hearing

By petition of February 21, 1975, the Port of Portland (hereafter "Portland") complained of, and requested an a investigation into, the equalization practices of the Pacific Westbound Conference (hereafter "PWC") and its ocean carrier member lines, as those practices allegedly harmed Portland. Portland alleged that PWC members not serving Portland by direct vessel call arranged with shippers of cargo naturally tributary to Portland to truck their cargo to San Francisco, Oakland, and Long Beach, Calif., and to Seattle and Tacoma, Wash., for ocean carriage from those ports. These ocean carriers then absorbed, or paid the shippers, the difference in the inland transportation charges from the shipments' point of origin to Portland and to the various ports. Portland alleged that this practice resulted in a diversion of cargo, naturally tributary to Portland, away from its normal flow through Portland to these California and Washington ports.

Portland charged that this equalization practice violated article 3 of the PWC basis agreement No. 57, sections 15, 16, and 17 of the Shipping Act, 1916 (hereafter "act"), section 8 of the Merchant Marine Act, 1920 and section 205 of the Merchant Marine Act, 1936.

Article 3 of agreement No. 57 provides in part, "There shall be • • • no absorption at loading or discharging ports of rail or coastal steamer freights or other charges directly or indirectly • • • except as may be agreed to by two-thirds of parties hereto • • •." Portland contended that article 3 did not provide for equalization of motor carrier inland freight rates and charges. Motor carriage was apparently the primary mode of inland transport involved in this matter.

Portland further contended that equalization, authorized by rule No. 16 (then rule 2) of PWC freight tariff No. 3, between ports in Oregon and Washington and British Columbia was unlawful under sections 15, 16, and 17 of the Act and unnamed provisions of the Merchant Marine Acts of 1920 and 1936. Portland cited *City of Portland* v. *PWC*, 4 FMB 664 (1955), wherein the Commission's predecessor authorized equalization on deciduous fruits and dairy products when service is unavailable at the ports through which these products would normally move. Portland alleged in its petition that direct service for these products, from Portland to the Far East points and ports named in PWC tarrif No. 3, had become adequate.

Portland also alleged that PWC's equalization practices created increased environmental costs that were borne by the public. These costs, which Portland was unable to quantify, were increased air pollution, noise impact, fuel consumption and roadway congestion. Portland stated that the FMC was mandated by Congress through the National Environmental Policy Act to consider these environmental costs in its regulatory decisions.

Other Portland allegations involved over-equalization through excessive payments for inland costs and a charge that the PWC tariff did not authorize equalization of charges by ICC exempt carriers.[1]

PWC responded to Portland's petition contending that its rules and practices were not violative of any statute. PWC cited specific Portland allegations it believed to be groundless and deserving summary rejection. These were: (1) The specific instance of equalization without proper reporting (by Phoenix Container Lines); (2) that article 3 of PWC's agreement did not authorize absorptions or equalization of motor carrier inland freight charges, and (3) that PWC's tariff did not authorize equalization of charges by ICC exempt motor carriers.

As to Portland's general allegations concerning PWCD's equalization practices, the conference contended that its rules and practices reflected the Commission's prior decisions respecting these rules as set forth in *City of Portland* v. *PWC, supra,* and *Stockton Port District* v. *PWC,* 9 FMC 12 (1965). However, PWC offered to "undertake a full and objective review of these rules and practices in the light of any relevant considerations that Portland or others may wish to present, and will attempt to gather relevant facts on its own."

PWC stressed that because it was willing to participate in a good faith exchange of views and of facts in an effort to resolve any objections raised by Portland, a Commission-ordered investigation was premature. Such ex-

[1] Portland also alleged that a specific PWC member was not properly reporting equalizations and absorptions. As this investigation is designed to study overall practices, the Commission will not investigate that allegation here. Portland may, however, institute a complaint proceeding under section 22 of the act if it wishes to pursue the reporting matter.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

available from other Federal sources and that the proposed reporting requirements are consistent with the provisions of section 3512. GAO is cur-

changes were held, and much correspondence was exchanged among Portland, the PWC and the Commission's staff, but did not resolve the issues involved.

A section order requesting further and more current information from PWC and Portland concerning PWC equalization and absorption affecting Portland was served on April 14, 1978. The data was submitted by Portland on May 31, 1978, and by PWC some 2 weeks later. Portland's data indicates that, during a 1-year period, approximately 29,000 TEU's and 340,000 short tons of cargo moved through Portland to destinations served by PWC. This cargo was carried via about 200 vessel calls. Portland also attempted to provide descriptions of "naturally tributary" area and environmental impacts. It agreed to present environmental data in any manner required by the Commission.

Seventeen PWC carriers reported that they do not equalize and absorb inland transportation costs on cargo vis-a-vis Portland. Four other carriers, apparently handling about 60,000 short tons, do equalize and absorb vis-a-vis Portland. Two of those lines also serve Portland directly. This information from Portland and PWC, while providing some guidance, is not sufficient to resolve the issues raised by Portland, especially in view of recent Commission pronouncements regarding cargo routing, and a formal proceeding must now be instituted.

The Commission believes, however, that due to the extensive record already compiled, consisting of correspondence and replies to section 21 orders, many of the issues raised can be resolved without the necessity of a trial-type evidentiary hearing on every issue and that, if such a hearing becomes necessary, it can be limited to certain narrowly defined issues.

Moreover, in view of our recent decision in *Council of North Atlantic Shipping Associations, et al.* v. *American Mail Lines, Ltd., et al.*, ("CONASA") 18 S.R.R. 774 and *Board of Commissioners of the Port of New Orleans, et al.* v. *Seatrain International, et al.*, ("Port of New Orleans") 18 S.R.R. 763, both issued on August 8, 1978, we must reject Portland's suggestion that section 8 of the Merchant Marine Act of 1920 be specified as a statutory section, the violation of which is in issue in this proceeding. While certain cargo may be naturally tributary to a port, any "naturally tributary zone" surrounding the Port is constantly changing and is determined by various factors including shipper needs and cargo characteristics. *CONASA, supra*, 18 S.R.R. 779. But section 8 "* * * does not require the Commission to incorporate any specific concept of naturally tributary cargo into its Shipping Act considerations, nor does it otherwise create substantive rights in Shipping Act proceedings." *Port of New Orleans, supra*, 18 S.R.R. 770.

Accordingly, this proceeding will be governed by the precedents and guidelines set forth in the *CONASA* and *Port of New Orleans* cases (*supra*).

Now, therefore, *it is ordered*, That, pursuant to sections 15, 16, 17 and 22 of the Act, an investigation and hearing is hereby commenced to examine PWC's equilization and absorption practices as they affect Portland. This investigation shall examine: (1) Whether article 3 of PWC's basic agreement No. 57 permits equalization and absorption of motor carrier inland freight rates and charges; (2) whether PWC's equalization and absorption practices, as they affect Portland, are unlawful and detrimental to the commerce of the United States and the general public interest, or unduly prejudicial or unjustly discriminatory to Portland or to businesses and individuals which depend on Portland's economic viability pursuant to section 205 of the Merchant Marine Act, 1936, and sections 15, 16 and 17 of the Shipping Act, 1916; (3) whether PWC freight tariff No. 3, rule 16 violates section 205 of the Merchant Marine Act of 1936, and sections 15, 16 and 17 of the Shipping Act, 1916 by permitting equalization and absorption of cargo away from Portland where direct service is adequate to handle such cargo; and, (4) whether PWC freight tariff No. 3, rule 16 permits cargo being equalized and absorbed to move on ICC exempt carriers;

It is further ordered, That all previous correspondence and replies to section 21 orders received by the Commission be made part of the record, and may be referred to by any party without resubmission, but that any further proceeding be limited to the submission of memoranda of law on the above issues and affidavits of fact concerning but not limited to: (1) The extent of equalization and absorption of cargo away from and to Portland; (2) the sufficiency of Portland direct carrier service to PWC destinations to handle cargo being equalized and absorbed away from that port; (3) the area, if any, which should be considered "naturally tributary" to Portland; and, (4) the justification, if any, for equalization and absorption away from Portland;

It is further ordered, That, Portland be designated a petitioner, that PWC and its member lines listed in appendix A be named respondents, and that hearing counsel also be a party to this proceeding;

It is further ordered, That persons other than those already parties to this proceeding who desire to become parties to this proceeding and to participate therein shall file a petition to intervene pursuant to rule 72 of the Commission's rules of practice and procedure (46 CFR 502.72);

It is further ordered, That the following procedural schedule be adhered to:

October 16, 1978—Petitions to intervene;

November 1, 1978—Opening memoranda of law and affidavits of fact (petitioner, respondents, and hearing counsel);

December 1, 1978—Reply memoranda of law and affidavits of fact (all parties);

December 20, 1978—Requests for discovery, hearing and/or oral argument;

It is further ordered, That any requests for discovery or evidentiary hearing must be accompanied by a statement setting forth in detail the facts to be proven, their relevance to the issues in this proceeding, and why such data could not be submitted through affidavit;

It is further ordered, That a notice of this order be published in the FEDERAL REGISTER and that a copy thereof be served upon Portland, PWC and hearing counsel;

It is further ordered, That all documents submitted by any party of record in this proceeding shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573 in an original and 15 copies as well as being mailed directly to all parties of record.

By the Commission.

JOSEPH C. POLKING,
Assistant Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Contingency of Reporting Requirements' Effective Date

A request for cleance of proposed reports intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on August 29, 1978. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice is to inform the public that the effective date of these reports will not become valid until GAO has completed its clearance review.

INTERSTATE COMMERCE COMMISSION

On September 6, 1978, GAO published a notice in the FEDERAL REGISTER (43 FR 39607-8) that ICC requested a clearance of revisions to the annual report forms for class I and class II railroads, forms R-1 and R-2. ICC promulgated these revisions in order No. 36725 which was decided July 18, 1978. In its order, ICC stated that these revisions became effective on January 1, 1978. In this notice, GAO specifies that the effective date for these reports is contingent upon ICC compliance with 44 U.S.C. 3512 which precludes the collection of information from 10 or more persons until the Comptroller General has had the opportunity to advise that the information required is not presently available from other Federal sources and that the proposed reporting requirements are consistent with the provisions of section 3512. GAO is currently conducting its review of these reports.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) relating to advisory committees. The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Radiologic Devices Section of the Obsteterics-Gynecology and Radiology Devices Panel.	Oct. 2, 9 a.m., Room 6821, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing/open committee discussion, 9 a.m. to 4 p.m.; Lilliam Yin (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7555.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing/open committee discussion. Glenn H. Brown, Ph. D., D.Sc., Director of Liquid Crystal Institute, Regents Professor of Chemistry, Kent State University, will discuss "Structure and Properties of Cholesteric Liquid Crystal"; Wendy Logan, M.D., Consultant, Roswell Park Institute, will discuss "Liquid Crystal Cutaneous Termography"; and Orliss Wildermuth, M.D., Clinical Professor of Radiologic Therapy, University of Washington Medical School, will discuss "Application of Liquid Crystal Thermography to the Determination of the Abnormality of the Breast."

Interested parties are encouraged to present information pertinent to the use of encapsulated cholesteric liquid crystal as contact thermography to detect abnormality of the temperature distribution of the breast. Submission of data on tentative classification findings is also invited. Those desiring to make formal presentations should notify Lillian Yin by September 18, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Committee name	Date, time, and place	Type of meeting and contact person
2. Radiopharmaceutical Drugs Advisory Committee.	Oct. 5, 9 a.m., Conference room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open committee discussion, 9 to 11:30 a.m.; open public hearing, 11:30 a.m. to 12:30 p.m.; open committee discussion, 12:30 to 5 p.m.; Joyce Creamer (HFD-150), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4260.

General funcion of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and in-

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writ-

of radiopharmaceutical drugs; contrast media adverse reaction data collection; radiobiologic efficacy review; and in-

proximate time desired for their presentation.

sponse to the over-the-counter (OTC) review's call for data for this Panel (see also § 330.10(a)(2) (21 CFR

The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization

General funcion of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of nuclear medicine.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. Topics of discussion include the pediatric use of radiopharmaceutical drugs; contrast media adverse reaction data collection; radiobiologic efficacy review; and investigational new drug (IND), new drug application (NDA), and Radioactive Drug Research Committee (RDRC) status.

Committee name	Date, time, and place	Type of meeting and contact person
3. Teratology Subcommittee of the Science Advisory Board.	Oct. 13, 9 a.m., National Center for Toxicological Research, Jefferson, Ark.	Open public hearing/open committee discussion, 9 a.m. to 3:30 p.m.; Ruth S. Magee, National Center for Toxicological Research, Jefferson, Ark. 72079, 501-541-4528.

General function of the Committee. The Committee advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing/open committee discussion. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

The Committee will discuss pharmacokinetics, hypertension study, new program areas, and perinatal research.

Committee name	Date, time, and place	Type of meeting and contact person
4. Dental Device Section of the Ophthalmic; Ear, Nose, Throat; and Dental Devices Panel.	Oct. 12 and 13, 9 a.m., Room 1813, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing, Oct. 12, 9 a.m. to 1:30 p.m.; open committee discussion, Oct. 12, 1:30 to 4 p.m., and Oct. 13, 9 a.m. to 4 p.m.; Gregory Singleton, D.D.S. (HFK-450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of denture cushions, plaque disclosing kits, denture adhesives, and preformed positioners to Gregory Singleton, D.D.S. Submission of data on tentative classification findings is also invited. Those desiring to make formal presentations should notify Dr. Singleton by September 25, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments. Presentations by manufacturers of denture adhesives and denture cushions will be given.

Open Committee discussion. The Committee will review the presentation for denture adhesives and determine a classification category based on the information presented. Discussion will cover the research findings presented by manufacturers of denture cushions and re-evaluation of the classification category assigned to these devices based on these findings; recommendations for the classification of plaque disclosing kits; and recommendations for the classification of preformed tooth positioners.

Committee name	Date, time, and place	Type of meeting and contact person
5. Oral Cavity Drug Products Panel	Oct. 17 and 18, 9 a.m., Conference room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, Oct. 17, 9 to 10 a.m.; open committee discussion, Oct. 17, 10 a.m. to 4:30 p.m., and Oct. 18, 9 a.m. to 4:30 p.m.; John T. McElroy (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4871.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those who desire to make such a presentation should notify the contact person before October 12, 1978, and submit a brief statement of the general nature of the data, information, or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open Committee discussion. The Panel will review data submitted in response to the over-the-counter (OTC) review's call for data for this Panel (see also § 330.10(a)(2) (21 CFR 330.10(a)(2))).

The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
6. Biochemical Mechanisms in Toxicity Subcommittee of the Science Advisory Board.	Oct. 19, 9 a.m., National Center for Toxicological Research, Jefferson, Ark.	Open public hearing/open Committee discussion, 9 a.m. to 3:30 p.m.; Ruth S. Magee, National Center for Toxicological Research, Jefferson, Ark. 72079, 501-541-4528.

General function of the Committee. The Committee advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing/open Committee discussion. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Discussion will include presentations of new programs in biochemical mechanisms in toxicity: Mechanisms of initiation of mutagenesis and carcinogenesis by structurally simple alkylating agents; detection, identification, and quantitation of components from DNA modified by exposure to nonradioactive suspected mutagens and other toxicants; role of n-Hydroxy arylamines in bladder carcinogenesis; role of persistent DNA-bound residues of 2-AAF in tumor induction; feasibility of the utilization of functional cell culture systems derived from variety or organs and mammalian species as predictors of potential mutagenicity/carcinogenicity; and other new program areas.

Committee name	Date, time, and place	Type of meeting and contact person
7. Slow Acting Anti-Rheumatic Drugs Guideline Subcommittee of the Arthritis Advisory Committee.	Oct. 19, 9 a.m., Conference room I, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing, 9 to 10 a.m.; open committee discussion, 10 a.m. to 5 p.m.; Joyce Creamer (HFD-150), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4260.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in arthritic conditions.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those desiring to make oral or written comments concerning the guidelines should contact Joyce Creamer by October 2, 1978. Copies of the draft guidelines may be obtained from Joyce Creamer by written request.

Open Committee discussion. The Committee will discuss and review comments on draft guidelines and revisions of guidelines.

Committee name	Date, time, and place	Type of meeting and contact person
8. Mutagenesis Subcommittee of the Science Advisory Board.	Oct. 20, 9 a.m., National Center for Toxicological Research, Jefferson, Ark.	Open public hearing/open committee discussion, 9 a.m. to 3:30 p.m.; Ruth S. Magee, National Center for Toxicological Research, Jefferson, Ark. 72079, 501-541-4528.

General function of the Committee. The Committee advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing/open Committee discussion. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

The meeting will include discussion of the detection of chemically induced mutations by assay of metabolic characteristics and discussion of heritable translocation document in preparation.

Committee name	Date, time, and place	Type of meeting and contact person
9. Gastroenterology and Urology Section of the General Medical Devices Panel.	Oct. 26, 9 a.m., Room 529A, HHH Bldg., 200 Independence Ave. SW., Washington, D.C.	Open public hearing, 9 to 10 a.m.; open committee discussion, 10 a.m. to 3:30 p.m., Dennis J. Cotter (HFK-430), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7226.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently

potence device to Dennis J. Cotter. Submission of data relative to tentative classification findings is also invit-

Open Committee discussion. The Panel will discuss the requirements for the establishment of product develop-

2.Ralston-Purina Co., Checkerboard Square, St. Louis, Mo. 63188.

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information on classification of gastroenterology and urology devices or product development protocols for hemodialyzers, ultrasonic stone crusher, and mechanical/hydraulic impotence device to Dennis J. Cotter. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify Mr. Cotter by October 16, 1978, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open Committee discussion. The Panel will discuss the requirements for the establishment of product development protocols used in testing and evaluating hemodialyzers, ultrasonic stone crusher, and mechanical/hydraulic impotence device. The Panel's recommendations will be the basis for agency establishment of product development protocol criteria to be used in the collection of clinical data supporting the safety and efficacy of these gastroenterology and urology devices.

Committee name	Date, time, and place	Type of meeting and contact person
10. Miscellaneous External Drug Products Panel.....	Oct. 29 and 30, 9 a.m.; Holiday Inn, Bethesda, Md. (Oct. 29); Conference room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. (Oct. 30).	Open committee discussion, Oct. 29, 9 a.m. to 4:30 p.m.; open public hearing, Oct. 30, 9 a.m. to 10 a.m.; open committee discussion, Oct. 30, 10 a.m. to 4:30 p.m.; John T. McElroy (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4871.

General function of the Committee. The Committee reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those who desire to make such a presentation should notify the contact person before October 25, 1978, and submit a brief statement of the general nature of the data, information, or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open Committee discussion. The Panel will review data submitted in response to the over-the-counter (OTC) review's call for data for this Panel (see also § 330.10(a)(2) (21 CFR 330.10(a)(2))).

The Panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

The Commissioner approves the scheduling of meetings at locations outside of the Washington, D.C., area on the basis of the criteria of 21 CFR 14.22 of FDA's regulations relating to public advisory committees.

Dated: September 11, 1978.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

Food and Drug Administration

[Docket No. 78N-0105]

GRAS SAFETY REVIEW OF VITAMIN D AND SOY PROTEIN ISOLATES

Public Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration is announcing that public hearings will be held on vitamin D and soy protein isolates so that data, information, and views can be presented orally to determine if they are generally recognized as safe (GRAS) or subject to a prior sanction.

DATES: Hearings will be held September 25, 1978, for vitamin D and September 26, 1978 for soy protein isolates.

ADDRESS: The hearings will be held in the Holiday Inn, 8120 Wisconsin Avenue, Bethesda, Md. 20014.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750.

George W. Irving, Jr., Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, Md. 20014, 301-530-7033.

USPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 16, 1978 (43 FR 26132), the Commissioner of Food and Drugs issued a notice advising the public that an opportunity would be provided for the oral presentation of data, information, and views at public hearings to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (hereafter referred to as the Select Committee), concerning the safety of the following four categories of food ingredients and the Select Committee's tentative determination of whether or not they are GRAS or subject to a prior sanction:

Gluconates.
Vitamin D.
Soy protein isolates.
Unmodified, pregelatinized, and modified starches.

Requests received for a hearing on gluconates from Gallard-Schlesinger Chemical Corp., Carle Place, N.Y., and on unmodified, pregelatinized, and modified starches from the Corn Refiners Association, Washington, D.C., were subsequently withdrawn. The Corn Refiners Association proposes to submit a written statement in lieu of an oral hearing presentation. No other reqests were received on gluconates and unmodified, pregelatinized, and modified starches. Accordingly, no hearing will be held on these food ingredients.

The Select Committee received a request from Vitamins, Inc., 200 East Randolph Drive, Chicago, Ill. 60601, asking for an opportunity to appear at a public hearing on vitamin D to make an oral presentation. No other requests were received for a hearing on vitamin D.

In accordance with the procedures set forth in the FEDERAL REGISTER of June 16, 1978 (43 FR 26132), announcement is hereby made that a hearing on vitamin D will be held at 1:30 p.m., on September 25, 1978, in the Holiday Inn, 8120 Wisconsin Avenue, Bethesda, Md. 20014. Those who have requested an opportunity to make oral presentations will be expected to complete their presentations within the period indicated and in accordance with the following schedule: September 25, 1978, 1:30 to 2:15 p.m., L. E. Kovacs, Ph. D., Vitamins, Inc.—30 minutes.

The Select Committee also received requests from the following companies and organizations asking for an opportunity to appear at a public hearing on soy protein isolates to make oral presentations:

1. Food Protein Council, 1800 M Street NW., Washington, D.C. 20036.
2. Ralston-Purina Co., Checkerboard Square, St. Louis, Mo. 63188.
3. Central Soya Co., Inc., Fort Wayne, Ind. 46802.
4. Mead Johnson Nutritional Division, Evansville, Ind. 47721.
5. Grain Processing Corp., 1600 Oregon, Muscatini, Iowa 52761.

No other requests for a hearing on soy protein isolates were received.

In accordance with the procedures set forth in the FEDERAL REGISTER of June 16, 1978 (43 FR 26132), announcement is hereby made that a hearing on soy protein isolates will be held at 9 a.m., on September 26, 1978, in the Holiday Inn, 8120 Wisconsin Avenue, Bethesda, Md. 20014. Those who have requested an opportunity to make oral presentations will be expected to complete their presentations within the periods indicated and in accordance with the following schedule:

September 26, 1978, 9 a.m. to 12 p.m:
1. Food Protein Council, speaker to be named—15 minutes.
2. H. L. Schilt, D. H. Waggle, Ph. D., and D. T. Hopkins, Ph. D., Ralston-Purina Co.-60 minutes.
3. E. F. Sipos, Ph. D., and E. W. Meyer, Ph. D., Central Soya Co., Inc.—15 minutes.
4. H. P. Sarett, Ph. D., Mead Johnson Nutritional Division—20 minutes.
5. A. M. Hansen, Ph. D., Grain Processing Corp.—20 minutes.

Dated: September 13, 1978.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

[Docket No. 78N-0154]

GRAS SAFETY REVIEW OF SODIUM CHLORIDE AND POTASSIUM CHLORIDE

Public Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration is announcing that a public hearing will be held for sodium chloride and potassium chloride so that data, information, and views can be presented orally to determine if they are generally recognized as safe (GRAS) or subject to a prior sanction.

DATE: Hearing, September 25, 1978.

ADDRESS: The hearing will be held in the Holiday Inn, 8120 Wisconsin Avenue, Bethesda, Md. 20014.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750.

George W. Irving, Jr., Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, Md. 20014, 301-530-7033.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of June 13, 1978 (43 FR 25487), the Commissioner of Food and Drugs issued a notice advising the public that an opportunity would be provided for the oral presentation of data, information, and views at a public hearing to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (hereafter referred to as the Select Committee), concerning the safety of the following five categories of food ingredients and the Select Committee's tentative determination of whether or not they are GRAS or subject to a prior sanction:

Pantothenates.
Thiamine.
Urea.
Vitamin B_{12}.
Sodium chloride and potassium chloride.

No requests were received for a hearing on pantothenates, thiamine, urea, or vitamin B_{12}. Accordingly, no hearing will be held on these food ingredients.

The Select Committee received requests from the following companies, institutions, and organizations asking for an opportunity to appear at a public hearing on sodium chloride and potassium chloride to make oral presentations:

1. Salt Institute, 206 North Washington Street, Alexandria, Va. 22314.
2. Frito-Lay, Inc., Frito-Lay Tower, Exchange Park, P.O. Box 35034, Dallas, Tex. 75235.
3. Center for Science in the Public Interest, 1755 South Street NW., Washington, D.C. 20009.
4. American Heart Association, 7320 Greenville Avenue, Dallas, Tex. 75231.
5. Morton Salt Co., 110 North Wacker Drive, Chicago, Ill. 60606.

Requests for a hearing on sodium chloride and potassium chloride were also received from the following organizations but were subsequently withdrawn:

1. National Food Processors Association, 1133 Twentieth Street NW., Washington, D.C. 20036.
2. International Hydrolyzed Protein Council, Suite 505, 1625 K Street NW., Washington, D.C. 20006.
3. Kikkoman Foods, Inc., P.O. Box H, Walworth, Wis. 53184.

No other requests for a hearing on sodium chloride and potassium chloride were received.

In accordance with the procedures

[Docket No. 75N-0187; DESI 10837]

PROCHLORPERAZINE MALEATE WITH ISOPROPAMIDE IODIDE

Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration is reissuing a notice of opportunity for hearing that was published and later rescinded. The notice proposes to withdraw approval of the new drug application for a combination product containing prochlorperazine maleate and isopropamide iodide, on the ground that the product lacks substantial evidence of effectiveness. The product has been used as an adjunct in the treatment of peptic ulcer and irritable bowel syndrome.

DATES: Any request for hearing must be submitted on or before October 16, 1978. All data and information relied upon in support of any such request and any other comments must be submitted on or before November 14, 1978.

ADDRESSES: Communications in response to this notice should be identified with the docket No. 75N-0187 and the reference number DESI 10837, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

Requests for hearing, supporting data and information, and other comments: Hearing Clerk (HFA-305), Room 4-65.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

Robert J. Temple, M.D., Bureau of Drugs (HFD-1110), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4730.

SUPPLEMENTARY INFORMATION:

BACKGROUND

In a notice (DESI 10837) published in the FEDERAL REGISTER of June 22, 1971 (36 FR 11875), the Food and Drug Administration (FDA) announced its conclusions based on a report received from the National Academy of Sciences-National Research Council (NAS-NRC) that the drug products described below are less than effective (possibly effective as adjunctive therapy in peptic ulcer and in the irritable bowel syndrome, functional diarrhea, ulcerative colitis, urinary bladder spasm, and urethral spasm), and lacking substantial evidence of effectiveness for their other labeled indications, and that additional evidence is required to establish their effectiveness.

In a notice published in the FEDERAL REGISTER of November 11, 1975 (40 FR 52652), the Director of the Bureau of Drugs offered an opportunity for hearing on the proposal to withdraw approval of the following new drug applications:

NDA 11-162; Combid Spansules, containing prochlorperazine maleate and isopropamide iodide; Smith Kline & French Laboratories, Division of SmithKline Corp., 1500 Spring Garden Street, Philadelphia, Pa. 19101.

NDA 11-368; Pro-Banthine with Dartal tablets, containing propantheline bromide and thiopropazate hydrochloride; Searle Laboratories, Division of G. D. Searle & Co., Box 5100, Chicago, Ill. 60680.

The notice stated that the combination drugs lacked substantial evidence of effectiveness and, furthermore, that the major tranquilizer components (thiopropazate hydrochloride and prochlorperazine maleate) of the combinations, as single entities, had not been shown to be effective as sedatives or as antianxiety agents in nonpsychotic patients. For the latter reason these combinations were not included in the group of anticholinergic/sedative combinations that were allowed to remain on the market while studies were conducted to demonstrate effectiveness (so called "paragraph XIV" drugs). In the FEDERAL REGISTER of November 25, 1975 (40 FR 54602), the notice of November 11, 1975, was rescinded with respect to both products. The recission notice stated that another notice concerning the products would be published at a later date.

The status of the propantheline bromide-thiopropazate hydrochloride combination was the subject of a notice of opportunity for hearing published in the FEDERAL REGISTER of February 28, 1978 (43 FR 8185).

This notice reissues the notice of opportunity for hearing of November 11, 1975, with respect to Combid Spansules (NDA 11-162).

In a notice published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11754) as amended by 42 FR 15468 (March 22, 1977) and 42 FR 35895 (July 12, 1977), the single-entity anticholinergic, isopropamide iodide (Darbid tablets, NDA 10-744, DESI 3265) was evaluated as effective for use as adjunctive therapy in the treatment of peptic ulcer and probably effective for use as adjunctive therapy in the irritable bowel syndrome (irritable colon, spastic colon, mucous colitis). In a notice published in the FEDERAL REGISTER of April 3, 1971 (36 FR 6447) as amended by 36 FR 20997 (November 2, 1971) the single entity tranquilizer prochlorperazine (Compazine, DESI 9149) was evaluated as effective in the management of manifestations of psychotic disorders and for the control of severe nausea and vomiting and possibly effective for the control of excessive anxiety, tension, and agitation as seen in neuroses or associated with somatic conditions. In a followup notice published in the FEDERAL REGISTER of April 7, 1978 (43 FR 14742) the possibly effective indication was upgraded to effective and reworded to read for the management of psychoneurotic patients displaying primarily symptoms of moderate to severe anxiety and tension.

EFFICACY ISSUE

The submission from Smith Kline & French consisted of four studies, which are discussed below:

1. *Combid vs. Darbid vs. placebo in peptic ulcer.* This multi-investigator double-blind study was carried out in 221 outpatients who had had duodenal ulcer documented within 10 days of the trial. The patients all had ulcer pain and, in most cases, tension, anxiety, or sleep disturbance. Patients were randomly assigned to Combid (10 milligrams Compazine, 5 milligrams Darbid), Darbid 5 milligrams, or placebo. They were told to eat a bland diet and were permitted antacids (different antacids and different antacid frequencies for various investigators). There was no uniformity in the baseline antacids used.

Patients were seen at 0, 1, 2, and 4 weeks and were rated according to severity (0-3) of ulcer symptoms (pain, nocturnal pain, nausea, vomiting) and tension-related symptoms (anxiety, tension, and sleep disturbance). An ulcer symptom score and a tension-related symptom score were generated by adding the scores for individual symptoms. In addition, a global evaluation of ulcer symptoms and tension-related symptoms was made at the last visit: Excellent—marked relief of most symptoms; good—marked relief of some symptoms; fair—partial relief of symptoms; poor—no relief of symptoms; and worse—increased symptoms.

An intial report was provided on August 16, 1972, and a more detailed analysis was submitted on July 6, 1973. The reports claim that the global evaluation of ulcer symptoms showed more satisfactory resolution on both active drugs than placebo ($p<0.05$) and that Combid showed some tendency to be better than Darbid, although not to a statistically significant degree.

The results thus fail to show a significant advantage for Combid over Darbid, and the study fails facially to demonstrate a contribution of Compazine to the overall effect of Combid, as required by 21 CFR 300.50. In addition, the study does not support the effectiveness of Darbid. The entire advantage of Combid and Darbid over placebo arises from the results of only one investigator, Dr. Weiss, out of the nine investigators in this study. Neither FDA nor SKF can explain the sharp difference between Dr. Weiss and the other investigators (It did not result from breakdown of blinding, according to the firm, as Dr. Weiss' code was returned unopened.), but it is clear that the study overall (eight of nine investigators) shows no advantage of either "active" drug (Combid or Darbid) over placebo. Put another way, Dr. Weiss' positive results are unconfirmed by eight other identical studies, seven of them of comparable size.

In addition to the global analysis, individual pain and ulcer symptom scores (sum of pain, night pain, nausea, and vomiting scores) were analyzed in a combined analysis. Numerous patients were omitted from this analysis for inappropriate reasons, e.g., if an investigator provided "too few patients" or if "nearly all of the final (symptom) scores were zero." There is no explanation of how analyst bias was prevented in the course of this after-the-fact analysis, as required by 21 CFR 314.111(a)(5)(ii)(a)(*4*), and it is striking that Dr. Weiss' scores, which were clearly untypical and might have been excluded on those grounds, were kept in the analysis.

In any case, analysis of individual scores fails to show a contribution of Compazine to the effects of the combination for any symptom. The results of the pain analysis (patients with complete relief of pain at weeks 1, 2, and 4) show a significant advantage for Combid over placebo at weeks 2 and 4 for the five "included" investigators, but Combid was not significantly superior to Darbid. Thus Compazine made no contribution to the effect of the combination on pain. 21 CFR 300.50. Moreover, if Dr. Weiss' patients are omitted, the placebo group is slightly superior to Combid for pain relief at weeks 1 and 2 and slightly worse at week 4. Both are better than Darbid at all weeks. Again, any positive trends in this multi-investigator study are attributable to a single set of untypical results and the study overall fails to show effectiveness for either Combid or Darbid.

Analysis of ulcer symptom score averages gives the the same result. If Dr. Weiss' values are omitted, placebo scores are almost identical to Combid scores. No statistical significant advantage for Combid over Darbid is claimed in any case. 21 CFR 300.50.

In summary, the study fails to demonstrate any advantage of Combid over Darbid in treatment of ulcer symptoms and does not show that either agent is more effective than placebo. What positive results are reported are attributable entirely to the results of one of nine investigators; the remainder of the data (excluding Weiss) does not show even a trend favoring Combid over placebo until numerous patients are excluded for various reasons devised long after completion of the study. These exclusions regularly favor Combid and are not adequately justified. (21 CFR 314.111(a)(5)(ii)(*a*)(*4*).) The study was also deficient in design in not seeking to assure use of a single antacid and in not measuring antacid use carefully (21 CFR 314.111(a)(5)(ii)(*a*)(*2*)(*iii*)), but results did not seem to depend on type of antacid or frequency of use.

2. *Combid vs. Darbid vs. placebo in irritable bowel syndrome.* This multi-investigator double-blind study was carried out in 266 outpatients with irritable bowel syndrome (defined as any two of the following: (1) Abdominal discomfort or pain, (2) an apparent relationship between pain and bowel movement, (3) erratic or abnormal bowel function, and/or (4) chronic recurrent symptoms, often clearly temporarily related to emotional stress and/or dietary indiscretion, and absence of organic disease of the gastrointestinal tract). In about two-thirds of the patients a sigmoidoscopic or barium examination had been performed within 6 months; results were the same for them and the total group. Patients were randomly assigned Combid, Darbid, or placebo and were followed up at 1, 2, and 4 weeks. A bland diet and antacids were given in various ways by the different investigators. Patients were rated according to global evaluation, using the same definitions as the previous study, but the global evaluation was not separated into tension-related and gastrointestinal-related symptoms as in the previous study—a serious flaw. There is no doubt that Compazine is an effective agent in treating emotional disorders. The question is whether, when added to Darbid, it contributes to treatment of gastrointestinal symptoms. The question cannot be answered if other kinds of symptoms are lumped together. In addition, individual symptoms, both gastrointestinal (abdominal discomfort or pain, distension, diarrhea, constipation, alternating diarrhea and constipation, and urgency) and emotional (anxiety, tension, and sleep disturbances) were rated on a scale of 0-3.

Results were described as showing a statistically significant advantage for Combid over Darbid and placebo in achieving excellent or good results in the global efficacy evaluation, with Darbid and placebo indistinguishable from each other. Unfortunately, as noted there was no separate global evaluation of gastrointestinal symptoms and these results thus are based on a mixture of gastrointestinal and emotional symptoms. The results do not in any way support the usefulness of Compazine in treating gastrointestinal symptoms.

In the evaluation of individual gastrointestinal symptom scores, Combid and Darbid were reported to be superior to placebo at various times but at no time was Combid significantly superior to Darbid. The study thus on its face does not show a contribution by Compazine to the effect of the combination on the irritable bowel syndrome, as required by 21 CFR 300.50.

3. *Combid vs. Darbid in treatment of psychophysiological gastrointestinal disorders.* This was a seven-investigator double-blind study of 209 patients with gastrointestinal complaints thought to result from anxiety, tension, or neurosis and manifested by such complaints as nausea, belching, epigastric discomfort, diarrhea, etc. Patients were assigned randomly to treatment and assessed essentially as

in the previous study, with both symptom scores and a global evaluation.

Global evaluation favored Combid, output than the Darbid group, it is unlikely that Compazine interfered with Darbid in this phase of the study.

unaware of any adequate and well-controlled clinical investigations, conducted by experts qualified by scientific

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), making findings and conclusions, denying a hearing.

All submissions pursuant to this

food-producing animals (21 CFR 510.450).

I. D. Russell Co. and Ralston Purina

in the previous study, with both symptom scores and a global evaluation.

Global evaluation favored Combid, but not to a statistically significant degree. Moreover, the favorable result is almost entirely due to a single investigator, Berger, whose results markedly favored Combid. Equally important, as in the irritable bowel syndrome study, the global evaluation includes an emotional symptom component and is not a pure gastrointestinal symptom measurement.

There were small differences in the effects of the Combid vs. Darbid, which in the firm's words, "do not approach the level of statistical significance." The results thus do not provide support for the idea that adding Compazine to Darbid to treat the presumed emotional causes of these patients' gastrointestinal symptoms in any way helps provide relief of those symptoms (21 CFR 300.50).

4. *Gastric acid secretion study.* Updike carried out a double-blind, parallel design study in 16 male patients with documented active or inactive ulcer disease. Its purpose was to compare the effects of Combid and its components on gastric secretory activity and to detect possible interaction. Patients were randomly assigned to capsules of Combid (10 milligrams Compazine and 5 milligrams Darbid), Compazine (10 milligrams), Darbid (5 milligrams), or placebo twice a day. They were evaluated at baseline and after 2 weeks of treatment. Evaluation consisted of analysis for acid output, pH, and volume of two consecutive 90-minute collections of gastric secretions, the first before and the second after a 1.5-milligram/kilogram injection of betazole hydrochloride. The 14-day analysis was begun 2½ hours after the last treatment capsule (i.e., betazole was given 4 hours after the last capsule).

Two principal comparisons were made: (1) Baseline secretion before and after therapy, and (2) betazole-stimulated secretion before and after therapy. The baseline volume and acid output were lower than placebo in the Combid and Darbid groups (Combid was lowest) but not in the Compazine group. Factorial analysis showed that Compazine was not effective, that Darbid was effective in lowering total volume and acid output ($p<0.05$), and that Compazine interacted significantly in reducing volume. Only a factorial analysis is reported. There is no claim that either Combid or Darbid reduced volume or acid output significantly in a direct comparison with placebo. There is also, despite an 11-page analysis, no discussion of the statistical power of the study to detect an unfavorable effect of Compazine if one existed. Nevertheless, as the Combid group had a lower volume and acid output than the Darbid group, it is unlikely that Compazine interfered with Darbid in this phase of the study.

In the betazole-stimulation phase of the study, there was no significant treatment effect seen, although acid output and volume were lower in the Combid and Darbid groups (the two groups were almost identical). This phase of the study is obviously a "no-test" situation and cannot be used to indicate no interaction.

Overall, the study suggests that Compazine does not impair the effect of Darbid on acid secretion but, probably because of its very small size, it is unable to show this definitively. The study was not designed or intended to show that any of the drugs are effective in the treatment of duodenal ulcer or any other illness and cannot provide substantial evidence of such effectiveness.

Bioavailability Issue

Submissions were received in October 1976 and December 1977.

Combid Spansule is a sustained-release formulation of a combination of prochlorperazine and isopropamide. The prochlorperazine component is prepared so that an initial dose is released promptly and the remaining medication is released gradually over a prolonged time. The isopropamide iodide component is not sustained release because of its long half-life. The objectives of this study were to demonstrate the sustained-release characteristics of prochlorperazine from a Compazine Spansule and to compare the degree and duration of inhibition of hydrochloric acid secretion following oral administration of 5 milligrams of isopropramide (Darbid tablet).

The data in this submission are unacceptable under 21 CFR 320.21 for demonstrating bioavailability. The data provided were not based on studies of the Combid Spansule but arose from studies of the single entities, prochlorperazine and isopropramide. Moveover Combid contains 10 milligrams of prochlorperazine and 5 milligrams of isopropamide while the submitted prochlorperazine study was for 15 milligrams of prochlorperazine.

Bioavailability studies of the Combid Spansule, rather than its separate components, are required, and the serum and urine levels of prochlorperazine should be determined. If assay methodology for isopropamide is not available, physiological parameters such as gastric secretion could be monitored.

The Combid Spansule should be compared to immediate and sustained release forms of each single entity in a crossover design.

Therefore, on the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigations, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5) and 21 CFR 300.50 which provide substantial evidence of effectiveness for Combid Spansules (NDA 11-1620.

Notice of Opportunity for Hearing

Therefore, notice is given to the holder of the new drug application and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application and all amendments and supplements thereto on the ground that new information before him with respect to the drug product, evaluated together with the evidence available to him at the time of approval of the application, shows there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder of the new drug application specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug that the person manufactures or distributes. Such person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

In addition to the grounds for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962, or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

The applicant or any other person subject to this notice pursuant to 21 CFR 310.6 who decides to seek a hearing, shall file (1) on or before October 16, 1978, a written notice of appearance and request for hearing, and (2) on or before November 14, 1978, the data, information, and analyses relied on to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of the applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by the person not to make use of the opportunity for a hearing concerning the action proposed with respect to the product and constitutes a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner of Food and Drugs will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate. Such submissions except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 5.82).

Dated: September 5, 1978.

J. Richard Crout,
Director, Bureau of Drugs.

[Docket No. 77N-0442]

REED PHARMACAL CO., ET AL.

Sufonamide Drugs; Withdrawal of Approval of Certain NADA's

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This document withdraws approval of certain new animal drug applications for which no written appearances or requests for hearing were filed in response to a notice of opportunity for hearing. This document also vacates that notice as it pertains to the Ralston Purina Co., I. D. Russell Laboratories, and Upjohn Laboratories.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Emilio E. Viera, Bureau of Veterinary Medicine (HFV-125), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3134.

SUPPLEMENTARY INFORMATION: In the Federal Register of February 28, 1978 (43 FR 8184), the Director of the Bureau of Veterinary Medicine issued a notice of opportunity for hearing proposing to withdraw approval of certain new animal drug applications for certain sulfonamide products for use in food-producing animals on the ground that the sponsors had failed to submit the results of 90-day subacute toxicity studies as required by § 510.450 Sulfonamide-containing drugs for oral, injectable, intramammary, or intrauterine use in food-producing animals (21 CFR 510.450).

I. D. Russell Co. and Ralston Purina Co. responded to the notice and indicated that they were authorized to use the results of the 90-day subacute toxicity studies generated by Merck & Co., and that their NADA's should not be withdrawn.

The Director has evaluated these responses and finds that the firms have received authorization from Merck & Co., and that Merck has submitted the results of 90-day subacute toxicity studies as required by § 510.450. Therefore, the Director agrees that the notice of opportunity for hearing should be vacated as it pertains to NADA 6-776 and NADA 6-891 for I. D. Russell Co. and NADA 7-076 and NADA 8-244 for Ralston Purina Co. Additionally, NADA 9-696, Kaobiotic tablets, sponsored by Upjohn Laboratories was withdrawn in a separate, independent proceeding published in the Federal Register of July 14, 1978 (43 FR 30354). Therefore, the Director also vacates the notice of opportunity for hearing as it pertains to that product. No other sponsor filed a timely written appearance or request for hearing in response to the notice within the 30-day period provided, as required by § 514.200 Contents of notice of opportunity for a hearing (21 CFR 514.200). Such failure is construed as an election not to avail themselves of the opportunity for hearing and is grounds for entering a final order without further notice.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau of Veterinary Medicine (21 CFR 5.84) and in accordance with § 514.200 Contents of notice of opportunity for a hearing, and § 514.116 Notice of withdrawal of approval of application (21 CFR 514.116), notice is given that the notice of opportunity for hearing published in the Federal Register on February 28, 1978 (43 FR 8184) is vacated as it pertains to NADA 6-776 and NADA 6-891 for I. D. Russell Co., NADA 7-076 and NADA 8-244 for Ralston Purina Co. and NADA 9-696 for Upjohn Laboratories, and that approval of the following new animal drug applications and all supplements thereto is withdrawn:

[Docket No. 77N-0240]

SINGLE-ENTITY CORONARY VASODILATORS

Drugs for Human Use; Drug Efficacy Study Implementation; Permission for Drugs To Remain on the Market; Amendment

AGENCY: Food and Drug Administration (FDA).

ACTION: Notice.

SUMMARY: This notice announces a change in previously published conditions for testing and marketing of coronary vasodilators. The conditions previously published required that each manufacturer conduct both bioavailability studies and clinical studies of effectiveness on its own particular products in order for them to remain on the market pending conclusions as to effectiveness. The agency now will allow a drug to remain on the market even though its manufacturer is not conducting clinical studies of its effectiveness, provided that some manufacturer is conducting such studies on a product containing the same chemical entity in a similar dosage form. The purpose of this change in policy is to minimize redundant clinical testing. The notice also allows additional time for completing both bioavailability studies and clinical studies, and it changes the requirements for marketing of drugs without approved new drug applications (NDA's) or abbreviated new drug applications (ANDA's).

DATES: ANDA's for conventional oral dosage forms, sublingual dosage forms, and topical dosage forms must have conditional approval by December 1, 1978; ANDA's for controlled-release oral forms and oral products coated so as to significantly affect product dissolution and absorption must have conditional approval by April 1, 1979. Identify previously submitted clinical studies, submit previously unsubmitted clinical studies, and identify ongoing clinical studies by October 16, 1978. Notify FDA by October 16, 1978, whether or not clinical studied will be undertaken. Submit data from bioavailability studies by March 14, 1979, or within 30 days after the completion, whichever is earlier. Submit protocols for clinical studies by June 12, 1979. Start clinical studies by September 17, 1979. Submit the results of completed clinical studies by September 15, 1981, or 30 days after their completion, whichever is earlier.

ADDRESSES: Communications in response to this notice should be identified with the NDA or ANDA number (if any), or other identifying number, and the following in a box in the upper portion of the cover letter: "Paragraph XIV Drug—Category I; Coronary Vasodilator," They should be directed to the attention of the appropriate officer named below and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

Supplements to NDA's (identify with NDA number): Division of Cardio-Renal Drug Products (HFD-110), Room 16B-30, Bureau of Drugs.

ANDA's and amendments thereto: Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for guidelines for clinical studies: Division of Cardio-Renal Drug Products (HFD-110), Room 16B-30, Bureau of Drugs.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

All other submissions required by this notice: Division of Cardio-Renal Drug Products (HFR-110), Room 16B-30, Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

CONCERNING BIOAVAILABILITY STUDIES

Bernard E. Cabana, Bureau of Drugs (HFD-520), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4750.

CONCERNING CLINICAL STUDIES

Thomas H. Davis, Bureau of Drugs (HFD-110), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4730.

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of August 26, 1977 (42 FR 43127), and amended on October 21, 1977 (42 FR 56156), the Commissioner of Food and Drugs announced: (1) the availability of guidelines and methods of evaluating the bioavailability and effectiveness of single-active-ingredient coronary vasodilators, and (2) the specific conditions under which these products may be marketed while such studies are in progress.

The notices detailed the requirements for three categories of products:

Those that were subjects of approved NDA's on August 26, 1977; those that were on the market on August 26, 1977, without approved NDA's; and those entering the market after August 26, 1977. They announced that each manufacturer must comply with certain specific conditions in order for its products to remain on or enter the market after August 26, 1977. Among the conditions were that each manufacturer must make a commitment to conduct bioavailability studies and must conduct or participate in clinical tests for effectiveness within the terms of the notices. In a notice published in the FEDERAL REGISTER of February 17, 1978 (43 FR 7044), the Commissioner modified the requirement for clinical testing in the interest of minimizing duplicative and costly clinical testing of essentially the same drug product and the burden that redundant testing places on already overloaded and scarce clinical testing resources. The Commissioner concluded that the public interest would be better served by not requiring each manufacturer to carry out clinical studies of its own product, as long as the required clinical studies are being conducted by at least one manufacturer on a drug product containing the same chemical ehtity in a similar dosage form. This notice implements that change in policy with respect to single-entity coronary vasodilators.

This change in policy applies only to requirements for clinical studies and does not eliminate present requirements for bioavailability studies on individual products as a condition of continued marketing while studies of effectiveness are in progress.

The August 26, 1977, notice, as amended by the October 21, 1977, notice, announced that all such products on the market at that time must be the subject of an NDA or the sponsor must submit an ANDA by December 27, 1977, and have it conditionally approved by May 23, 1978. It further required that all sponsors of such products who intended to conduct bioavailability studies notify FDA on or before November 28 1977. For products entering the market after August 26, 1977, it required the submission of an ANDA and a commitment to conduct bioavailability studies. The Food and Drug Administration has found that it could not complete by May 23, 1978, all action on all of the ANDA's submitted in response to the notice. The agency has needed more time to resolve with the applicants deficiencies in the original submissions not sufficiently serious to warrant outright disapproval and to validate the firms' analytical methods in FDA laboratories. Accordingly, the Commissioner is extending the date by which ANDA's must be conditionally approved.

Any drug product on the market after December 27, 1977, for which the sponsor failed to submit an ANDA and a commitment to conduct bioavailability studies is unlawfully marketed and is subject to immediate action to remove it from the market. Accordingly, the only products legally on the market on September 15, 1978, are those: (1) That are the subject of an approved NDA or were the subject of an ANDA by December 27, 1977 (and the ANDA has not been declared nonapprovable), and (2) for which, on or before November 28, 1977, the NDA holder or the ANDA applicant filed a notice of intent to conduct bioavailability studies. The Food and Drug Administration intends to initiate prompt regulatory action against all products affected by the August 26, 1977, and October 21, 1977, notices and this notice under category I of the administrative guideline "Marketed New Drugs Without Approved NDA's or ANDA's," the availability of which was announced in the FEDERAL REGISTER of September 23, 1976 (41 FR 41770).

The August 26, 1977, notice, as amended on October 21, 1977, announced that, for products on the market on August 26, 1977, bioavailability studies must be started by March 27, 1978, and completed within 6 months after their initiation. This would require that all bioavailability tests be completed by September 25, 1978, at the latest. The laboratories capable of conducting bioavailability tests, however, lacked the capacity to carry out these tests for all manufacturers requesting them by that deadline. The Commissioner concludes that additional time is justified. Accordingly, it is now required that all bioavailability tests be completed and submitted to FDA by March 14, 1979.

The August 26, 1977, and October 21, 1977, notices both announced that clinical trials must be completed and the results submitted to FDA by August 27, 1979. The Commissioner now finds that this date is not realistic because of the difficulty of locating and securing suitable patients and the time required for completing and analyzing the results of the studies. Accordingly, it is now required that clinical trials be completed and the results submitted to FDA no later than 2 years after their initiation or by September 15, 1981, whichever is earlier.

The Commissioner is aware of numerous protocols for clinical trials of coronary vasodilators that have been referred to in various submissions to the agency. Some of the trials may have been completed, others abandoned; but in most instances there has been no systematic summary of their status. Therefore, NDA and ANDA holders are being asked to supplement or amend their applications with a complete accounting of the status of all well-controlled clinical trials.

Therefore, the August 26, 1977, notice, as amended on October 21, 1977, is further amended as follows:

1. The section entitled "REQUIREMENTS FOR PRODUCTS NOW SUBJECTS OF APPROVED NDA'S" and the section entitled "REQUIREMENTS FOR PRODUCTS NOT NOW SUBJECTS OF APPROVED NDA'S" are replaced by the following section:

REQUIREMENTS FOR PRODUCTS THAT ARE SUBJECTS OF ABBREVIATED NDA'S (INCLUDING THOSE NOT YET CONDITIONALLY APPROVED) AND APPROVED NDA'S ON SEPTEMBER 15, 1978

Proceedings to withdraw approval of NDA's or to refuse approval of ANDA's on the basis of lack of substantial evidence of effectiveness will not be taken provided that each of the following conditions is met:

1. On or before October 16, 1978, each person who holds an approved NDA or who has submitted an ANDA in compliance with the requirements of the August 26, 1977, and October 21, 1977, notices (and the ANDA has not been declared nonapprovable) either supplements or amends such application, as appropriate, as follows. (If the information in the ANDA or supplemental NDA is complete and satisfactory, it will be conditionally approved pending conclusions concerning bioavailability studies of the sponsor's product and pending results of clinical studies of that product or another product to which the same effectiveness conclusions would apply. Such conditionally approved products will have the same legal status as products that are subjects of "deemed approved" applications reviewed in the drug efficacy study.)

a. To identify all previously submitted completed clinical studies of effectiveness that comply with the essentials of adequate and well-controlled clinical investigations as set forth in 21 CFR 314.111(a)(5)(ii).

b. To submit to FDA all previously unsubmitted completed clinical studies that comply with 21 CFR 314.111(a)(5)(ii).

c. To identify all ongoing clinical studies of effectiveness that are in compliance with 21 CFR 314.111(a)(5)(ii).

d. To inform FDA of plans either to conduct or not to conduct additional clinical studies of effectiveness.

2. Each sponsor is conducting or intends to conduct bioavailability studies and the studies are completed and submitted to the Division of Cardio-Renal Drug Products within 30 days after their completion or by March 14, 1979,

whichever is earlier. That division will inform the sponsor whether the bioavailability data are satisfactory. (If

cal dosage form, the ANDA or supplemental NDA is conditionally approved by December 1, 1978. All deficiencies

uct is bioavailable, proceedings will be commenced to withdraw or refuse approval of the application and future

(secs. 505, 701, 52 Stat. 1052-1053, as amended, 1055-1056, as amended (21 U.S.C. 355, 371)), the Administrative

whichever is earlier. That division will inform the sponsor whether the bioavailability data are satisfactory. (If FDA determines that the bioavailability studies are inadequate or fail to show that the product is bioavailable, proceedings will be commenced to withdraw or refuse approval of the application, and future clinical trials would necessitate submission of a "Notice of Claimed Investigational Exemption for a New Drug" (IND).)

3. A sponsor who has elected to conduct clinical studies submits a protocol for such studies to the Division of Cardio-Renal Drug Products by June 12, 1979.

4. If clinical studies are to be conducted, the studies are ongoing by September 17, 1979, and the sponsor informs the Division of Cardio-Renal Drug Products when studies are underway. Because clinical studies must be underway by September 17, 1979, the Division of Cardio-Renal Drug Products will at that time, upon request, inform interested persons of the identity of all products undergoing clinical study. Queries regarding products undergoing testing before that time will also be answered, but may be incomplete.

5. If the sponsor is not conducting clinical studies on its own product by September 17, 1979, another sponsor is conducting such studies on a product containing the same chemical entity in a similar dosage form. (If no person has elected to conduct clinical studies on a particular product, it follows that such product will no longer be eligible to remain on the market.) For purposes of this provision the following dosage forms are considered to be separate and distinct:

a. Conventional dosage forms involving oral tablets, capsules, and solutions.

b. Sublingual dosage forms.

c. Controlled-release dosage forms and oral products coated so as to significantly affect product dissolution and absorption.

d. Topical products from which the active ingredient is absorbed through the skin.

6. An analyzed progress report of the clinical studies is submitted annually to the Division of Cardio-Renal Drug Products, and a brief progress report is submitted at 6-month intervals.

7. Clinical studies are completed and the results submitted to the Division of Cardio-Renal Drug Products within 30 days after their completion or by September 15, 1981, whichever is earlier.

8. The FDA does not issue a nonapprovable letter to the applicant regarding an ANDA or supplemental NDA.

9. For a conventional oral dosage form, sublingual dosage form, or topical dosage form, the ANDA or supplemental NDA is conditionally approved by December 1, 1978. All deficiencies in the original submission must be resolved by this date.

10. For a controlled-release oral dosage form or products coated so as to significantly affect product dissolution and absorption, the ANDA or supplemental NDA is conditionally approved by April 1, 1979. All deficiencies in the original submission must be resolved by this date.

2. The section entitled "REQUIREMENTS FOR PRODUCTS ENTERING THE MARKET AFTER AUGUST 26, 1977" is replaced by the following:

REQUIREMENTS FOR PRODUCTS ENTERING THE MARKET AFTER SEPTEMBER 15, 1978

Regulatory action will not be taken against a product that enters the market after September 17, 1978, based upon the absence of an approved NDA (or an ANDA that was submitted in compliance with the August 26, 1977, and October 21, 1977, notices and has not been declared nonapprovable) under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355), provided that each of the following conditions is met:

1. If the product is to be placed on the market on or before December 1, 1978 (if a conventional oral dosage form, sublingual dosage form, or topical dosage form), or April 1, 1979 (if a controlled-release oral dosage form or oral product coated so as to significantly affect product dissolution and absorption), prior to the start of marketing the sponsor submits an ANDA (21 CFR 314.1(f)); on or before March 14, 1979, the sponsor submits the data from completed bioavailability studies to the Division of Cardio-Renal Drug Products; and at the time the ANDA is submitted, the sponsor notifies the Division of Cardio-Renal Drug Products whether clinical studies will be conducted on the product.

2. If the sponsor does not intend to conduct clinical studies on its own particular product, another sponsor is conducting such studies on a product containing the same chemical entity in a similar dosage form as discussed in paragraph 5 above. By September 17, 1979, the Division of Cardio-Renal Drug Products will, upon request, inform interested persons of the identity of all products undergoing clinical study at that time. Queries regarding products undergoing studies before that time will also be answered, but may be incomplete.

The Division of Cardio-Renal Drug Products will inform the sponsor whether or not the bioavailability data are satisfactory. (If FDA determines that the bioavailability studies are inadequate or fail to show that the product is bioavailable, proceedings will be commenced to withdraw or refuse approval of the application and future clinical trials would necessitate an IND.)

If the information in the ANDA is complete and satisfactory, it will be conditionally approved pending conclusions concerning bioavailability studies of the sponsor's product and pending results of clinical studies of that product or another manufacturer's product to which the same effedtiveness conclusions would apply. Such conditionally approved products will have the same legal status as products that are subjects of "deemed approved" applications reviewed in the drug efficacy study.

3. A sponsor who elects to conduct clinical studies submits a protocol for such studies to the Division of Cardio-Renal Drug Products within 90 days after submitting the results of the bioavailability studies.

4. A sponsor who elects to conduct clinical studies begins the studies within 6 months after submitting the results of the bioavailability studies and informs the Division of Cardio-Renal Drug Products when the studies are underway.

5. An analyzed progress report of the clinical studies is submitted annually to the Division of Cardio-Renal Drug Products and a brief progress report is submitted at 6-month intervals.

6. Clinical studies are completed and the results submitted to the Division of Cardio-Renal Drug Products within 30 days after their completion or by September 15, 1981, whichever is earlier.

7. For a conventional oral dosage form, sublingual dosage form, or topical dosage form, the ANDA is conditionally approved by December 1, 1978. All deficiencies in the original submission must be resolved by this date.

8. For a controlled-release oral dosage form and oral products coated so as to significantly affect product dissolution and absorption, the ANDA is conditionally approved by April 1, 1979. All deficiencies in the original submission must be resolved by this date.

9. For a product that is to be placed on the market after December 1, 1978, if the product is a conventional oral dosage form, sublingual dosage form, or topical dosage form, or for a product to be placed on the market after April 1, 1979, if the product is a controlled-release oral dosage form (or an oral product coated so as to significantly affect product dissolution and absorption), the sponsor first submits and obtains conditional approval of an ANDA prior to marketing the product.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052-1053, as amended, 1055-1056, as amended (21 U.S.C. 355, 371)), the Administrative Procedure Act (5 U.S.C. 553, 554), and under authority delegated to the Commissioner (21 CFR 5.1).

Dated: September 7, 1978.

MERVIN H. SHUMATE,
Acting Associate Commissioner for Regulatory Affairs.

[Docket No. 77P-0289]

TOPICAL OINTMENT MYCITRACIN AND OINTMENT BACIGUENT

Exemption From Certification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Commissioner of Food and Drugs announces approval of the Upjohn Co.'s petition requesting that two of its antibiotic drug products, Topical Ointment Mycitracin and Ointment Baciguent, be exempted from the batch certification requirements for antibiotic drugs. The Commissioner has reviewed pertinent information and has concluded that the petitioner meets the conditions for exemption specified in the antibiotic drug regulations. The agency has notified the petitioner by letter that the petition was approved and is issuing this notice in compliance with the regulations.

EFFECTIVE DATE: September 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert J. Rice, Jr., Bureau of Drugs (HFD-30), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-5220.

SUPPLEMENTARY INFORMATION: Based on authority provided in section 507 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 357), the antibiotic drug regulations in § 433.1 (21 CFR 433.1) establish the procedures for obtaining exemption from batch certification of topical antibiotic drugh products. The Upjohn Co., Kalamazoo, Mich., in accordance with § 433.1, filed a petition (FDA Docket No. 77P-0289, on public file at the office of the Hearing Clerk (HFA-305), Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857) requesting exemption from batch certification of two antibiotic drug products, Topical Ointment Mycitracin and Ointment Baciguent.

The Commissioner reviewed the data and information submitted as part of the petition, as well as other relevant factors regarding the certification history of the two drug products. He concluded that under the conditions of § 433.1 agreed to by the petitioner, batch certification of Topical Ointment Mycitracin and Ointment Baciguent is not necessary to ensure safety and efficacy of such drug products. Therefore, the petitioner was notified that the petition was granted and that batch certification of these two products, manufactured at the Kalamazoo, Mich. facility, would no longer be required, provided the conditions of § 433.1 continue to be met.

Dated: September 7, 1978.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

Health Services Administration

MATERNAL AND CHILD HEALTH RESEARCH GRANTS REVIEW COMMITTEE

Reestablishment

Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463 (5 U.S.C. Appendix I), the Health Services Administration announces the reestablishment by the Acting Secretary, HEW, with concurrence by the General Services Administration, of the following advisory committee:

Designation. Maternal and Child Health Research Grants Review Committee.

Purpose. The Committee shall advise the Secretary and the Administrator, Health Services Administration, regarding research grants in the field of maternal and child health and reviews applications for grants to improve the operation, functioning, and general usefulness and effectiveness of maternal and child health services of all kinds by providing financial support for studies that may contribute to the advancement of health services for mothers and children.

Authority for this Committee will expire on June 30, 1980, unless the Secretary, HEW, with the concurrence of the General Services Administration, formally determines that continuance is in the public interest.

Dated: September 5, 1978.

WILLIAM H. ASPDEN, JR.,
Associate Administrator for Management.

National Institutes of Health

REPORT ON BIOASSAY OF 1,4-DIOXANE FOR POSSIBLE CARCINOGENICITY

Availability

1,4-dioxane (CAS 123-91-1) has been tested for cancer-causing activity with rats and mice in the carcinogenesis program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of 1,4-dioxane for possible carcinogenicity was conducted by administering the test chemical in the drinking water to Osborne-Mendel rats and B6C3F1 mice.

Groups of 35 rats and 50 mice of each sex were administered 1,4-dioxane at concentrations of either 0.5 percent or 1.0 percent (v/v) in the drinking water. Because of variations in intake of water, the doses of test chemical received by the high-dose groups were not precisely twice those received by the low-dose groups; in the male mice, the high dose was only slightly greater than the low dose. The rats were dosed for 110 weeks and the mice for 90 weeks. Matched controls consisted of 35 untreated rats and 50 untreated mice of each sex. All surviving rats were killed at 110-117 weeks and all surviving mice at 90-93 weeks.

The mean body weights of the rats and mice were not consistently affected by the administration of dioxane. Survival rates of the dosed groups of rats and female mice were lower than those of corresponding control groups, but sufficient numbers of animals were at risk for development of late-appearing tumors.

It is concluded that under the conditions of this bioassay, 1,4-dioxane induced hepatocellular adenomas in female Osborne-Mendel rats. 1,4-dioxane was carcinogenic in both sexes of rats, producing squamouscell carcinomas of the nasal turbinates, and in both sexes of B6C3F1 mice, producing hepatocellular carcinomas.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program No. 13.393, Cancer Cause and Prevention Research.)

[4110-08]

REPORT ON BIOASSAY OF N-PHENYL-P-PHENYLENEDIAMINE FOR POSSIBLE CARCINOGENICITY

Availability

N-Phenyl-p-phenylenediamine (CAS 101-54-2) has been tested for cancer-causing activity with rats and mice in the carcinogenesis program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of N-Phenyl-p-phenylenediamine for possible carcinogenicity was conducted by administering the test chemical in the diet to Fischer 344 rats and B6C3F1 mice.

Groups of 50 rats of each sex were administered N-Phenyl-p-phenylenediamine at one of two doses, either 600 or 1,200 ppm, for 78 weeks and were then observed for 26 additional weeks. Matched controls consisted of groups of 20 untreated rats of each sex. All surviving rats were killed at 104 weeks.

Groups of 50 mice of each sex were initially administered N-Phenyl-p-phenylenediamine at one of the following doses, either 2,500 or 5,000 ppm for the males and either 5,000 or 10,000 ppm for the females, for 31 weeks. Because of toxicity of the chemical, the doses were lowered at that time and terminated at 48 weeks. The animals were then observed for 43 additional weeks. Time-weighted average doses during the period of administration were 2,057 or 4,114 ppm for the males and 3,672 or 8,170 ppm for the females. Matched controls consisted of groups of 20 untreated mice of each sex. All surviving mice were killed at 91 weeks.

Mean body weights of the dosed rats were only slightly lower than those of the matched controls during the bioassay. Mean body weights of the dosed mice were appreciably lower than those of the matched controls, and mortality was high in the dosed groups prior to reduction of the doses, particularly in the females. Sufficient numbers of rats and mice of each sex were at risk for the development of late-appearing tumors; however, the shortened period used for administering N-Phenyl-p-phenylenediamine to the mice may not have been adequate for determining the carcinogenic potential of the test chemical in this species.

It is concluded that under the conditions of this bioassay, N-Phenyl-p-phenylenediamine was not carcinogenic for Fischer 344 rats or for B6C3F1 mice.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

Office of Education

GRANTS UNDER THE TEACHER CORPS PROGRAM

Suggested Questions To Consider in Preparing an Application

INTRODUCTION

Although they are not required to do so, it is suggested that applicants consider the questions in this document when they prepare applications for grants under the Teacher Corps program (20 U.S.C. 1101 et seq.). These questions are designed to assist applicants in addressing the evaluation criteria set forth in subpart F of the Teacher Corps regulation (45 CFR 172). While these questions do not constitute an all inclusive list, they are useful questions to think about. In the past, applications that have received high evaluations have addressed these kinds of questions. The questions are listed under the criteria that they address.

QUESTIONS TO CONSIDER

I. *School learning climate criterion.* (Sec. 172.151.) (25 points)

A. *To what extent are the objectives developed under sec. 172.62 (school learning climate) likely to achieve the outcome in sec. 172.60(a) (improved school learning climate)?* (Sec. 172.151(a).) (8 points)

1. Do the school learning climate objectives include each of the following and will they produce measurable results:

(a) Education that is multicultural—promotes knowledge of and sensitivity to the needs of diverse cultures?

(b) School programs that can accomodate a wide range of varibility?

(c) School programs that focus on identifying children with learning or behavioral problems, diagnosing their special needs and prescribing specific learning activities?

2. Were the objectives developed as a result of an assessment of the needs in the community?

3. Are the objectives designed to affect the total school learning environment?

4. Were the objectives developed through a collaborative planning process involving all the project schools, the community and the institution of higher education?

5. Is there evidence that the principal controllers of educational resources (i.e., the community council chairman, school superintendent and the dean of the college of education) are committed to achieving the objectives?

6. Are the objectives realistic, when one considers the existing shool environment, community environment and available resources?

7. Is there a basis for each of the objectives in research, theory or practical experience?

B. *To what extent are the project activities likely to accomplish the school learning climate objectives developed under sec. 172.62?* (Sec. 172.151(b).) (9 points)

1. Are the project activities directly related to the objectives and to the processes that are designed to achieve those objectives?

2. Do the project activities focus on continued planning with the collaborative involvement of significant groups in the school, community and institution of higher education?

3. Are the project activities comprehensive; that is, do they emphasize total school-community involvement and offer a broad range of school and community activities?

4. Do the project activities provide a variety of options for achieving the same goals or objectives?

5. Is there evidence that adequate resources are available, or will be made available, to carry out the project activities that are designed to improve the school learning climate?

6. Have the local educational agency and institution of higher education provided adequate resources for school based programs in the past?

7. Do the project activities include:

(a) Programs that provide multicultural education?

(b) Programs that accommodate a wide range of variability in children?

(c) Programs that focus on identifying children with learning or behavioral problems, diagnosing special needs, and prescribing specific learning activities?

8. Do the activities affect the entire school staff in the project schools?

C. *To what extent is the management plan for accomplishing the school learning climate objectives, developed under sec. 172.62, realistic and economical?* (Sec. 172.151(c).) (8 points)

1. In the past, have the local educational agency and institution of higher education demonstrated their ability to successfully manage change through collaborative efforts focused on school learning climate objectives?

2. Is the project's organizational structure, and its relationship with the

local educational agency's organizational structure, well defined and agreed upon?

3. Are the responsibilities for planning, development and implementation of the objectives well defined?

4. Is there a realistic timetable for planning, development, implementation dissemination and evaluation of the objectives?

5. Is there a collaborative system for shared decisionmaking that:

(a) Involves all significant groups in the community, the project schools and the institution of higher education?

(b) Provides for two-way communication between the project staff and such groups?

(c) Uses the representation of such groups to expedite decisionmaking?

(d) Includes an efficient process for input and decisionmaking?

6. Is there evidence that a shared decisionmaking process (involving all significant groups in the community, the project schools and the institution of higher education) was used on the planning and development of the application?

7. Is there an evaluation program that will assess both the process and the product and provide feedback to the project management, community council and policy board?

8. Does the management plan cover all the project years and provide for annual revision?

9. Does the management plan identify and describe the resources that are needed?

(U.S.C. 1103(g).)

II. *Educational personnel development system criterion* (Sec. 172.152) (36 points).

A. *To what extent are the objectives developed under sec. 172.63 (educational personnel development system) likely to achieve the outcome in Sec. 172.60(b) (improved educational personnel development system)?* (Sec. 172.152(a).) (9 points)

1. Do the educational personnel development system objectives include:

(a) Improving the methods used by the local educational agency and the institution of higher education?

(b) Increasing the capacity of the institution of higher education to provide training related to the school learning climate objectives?

(c) Providing both pre-service and in-service training as an integral process that will produce measurable outcomes?

2. Were the objectives developed from an assessment of the needs in each of the project schools?

3. Were the objectives developed through a collaborative planning process, that involves the school (specifically the school staff), the institution of higher education and the community council?

4. Are the objectives designed to respond to the needs of the entire staff in each of the project schools?

5. Is there evidence that the principal controllers of educational resources (i.e., the school superintendent, dean of the college of education and community council chairman) are committed to achieving the objectives?

6. Are the objectives realistic in relation to existing policies of the local educational agency, professional organizations and the available resources?

7. Is there a basis for each of the objectives in research, theory or experience?

B. *To what extent are the project training activities likely to accomplish the objectives developed under Sec. 172.63(b) (development of the capacity of the institution of higher education to provide training that will achieve the objectives under sec. 172.62(b)?* (Sec. 172.152(b).) (9 points)

1. Do the project training activities relate directly to the educational personnel development system objectives?

2. Do the project training activities focus on continued planning with the collaborative involvement of significant groups in the local educational agency, institution of higher education and community?

3. Are the project training activities comprehensive; that is, do they emphasize involvement of the total school staff and offer a broad range of staff development activities?

4. Do the project training activities provide a variety of options for achieving the same goals or objectives?

5. Is there evidence that adequate resources are available to carry out the training activities that are designed to establish new educational personnel development systems?

6. In the past, has the institution of higher education provided adequate resources for educational personnel development efforts?

7. Do the project training activities develop the capacity of the institution of higher education to provide training that will achieve the objectives?

8. Are the pre-service and in-service training activities of the institution of higher education part of an integral process?

9. Are the project training activities of the institution of higher education designed to achieve the objectives and improve the competency of the educational personnel?

10. Do the project training activities of the institution of higher education include training for volunteers and teacher aides that is designed to prepare them for service in the project?

11. Do the project training activities, that are provided by the institution of higher education to teacher-interns, include:

(a) Practical classroom experience?

(b) Academic study?

(c) Practical experiences and training in the community served by the project?

12. Do the project training activities include involving the project staff from the institution of higher education in activities at the project schools and in the community?

C. *To what extent are the project training activities likely to accomplish the objectives developed under sec. 172.63(a) and (c) (basic and systemic improvements in the methods used by the institution of higher education and the local educational agency to train educational personnel; provision of pre-service and in-service training as an integral process)?* (Sec. 172.152(c).) (9 points)

1. Are the project training activities directly related to the objectives?

2. Do the project training activities focus on continued planning with the collaborative involvement of significant groups in the local educational agency, institution of higher education and community?

3. Are the described project training activities comprehensive; that is, do they emphasize the involvement of the entire school staff and offer a broad range of training activities?

4. Do the project training activities provide a variety of options for achieving the same goals or objectives?

5. Is there evidence that adequate resources are available to provide the project training activities?

6. In the past, has the local educational agency provided adequate training resources?

7. Will the local educational agency provide adequate time for teachers to participate in the project training activities?

8. Do the project training activities provide pre-service and in-servicxe training as an integral process?

9. Do the project training activities provide for the participation of team leaders, including supervising the teacher-interns during their experience at all the project schools?

D. *To what extent is the management plan for accomplishing the educational personnel development system objectives developed under sec. 172.63 realistic and economical?* (Sec. 172.152(d).) (9 points)

1. In the past, have the local educational agency and the institution of higher education demonstrated their ability to successfully manage change, through collaborative efforts focused on educational personnel development?

2. Is the project's organizational structure, and its relationship with the organizational structures of the insti-

tution of higher education and local educational agency, well defined and agreed to?

(*institutionalization objectives*)? (Sec. 172.153(b).) (8 points)

1. Are the project activities directly

practices to a broad range of groups in educational agencies and institutions?

3. Were the objectives developed as a

6. Does the management plan provide a sound method for evaluation so that only the successful elements of the project are adopted by other

b. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate that the application forms and

The campus and State grant branch will accept hand-delivered applications between 8 a.m. and 4 p.m. (Washington, D.C., time) daily, except Satur-

tution of higher education and local educational agency, well defined and agreed to?

3. Are the responsibilities for the planning, development, and implementation of the objectives well defined?

4. Is the timetable for planning, development, implementation, and evaluation of the activities realistic?

5. Is there a collaborative system for shared decisionmaking that:

(a) Involves all significant groups?

(b) Provides for two-way communication between the project staff and significant groups?

(c) Uses representation from significant groups to expedite decisionmaking?

6. Is there evidence that a shared decisionmaking process, that involves all significant groups, was used in planning the objectives and project activities?

7. Is there an evaluation program that assesses both the process and the product and provides feedback to the project staff, community council and policy board?

(20 U.S.C. 1193(g).)

III. Institutionalization criterion (Sec. 172.153.) (21 points)

A. *To what extent are the objectives developed under sec. 172.64 (institutionalization) likely to achieve the outcome in sec. 172.60(c) (continuation of educational improvements made as a result of the project, after Federal funding ends)?* (Sec. 172.153(a).) (7 points)

1. Do the institutionalization objectives specifically described the methods that will be used to institutionalize the successful products, processes and practices that result from the project?

2. Are the objectives designed to affect both the educational programs (in the school and community) and the educational personnel development systems (in the local educational agency and institution of higher education)?

3. Were the objectives developed as a result of a collaborative planning process that involved the local educational agency, the community council and the institution of higher education?

4. Is there evidence that the principal controllers of educational resources (i.e., the community council chairman, school superintendent and dean of the college of education) are committed to achieving the objectives?

5. Are the objectives realistic, when one considers the resources of the local educational agency, community and institution of higher education (as well as the administrative and programmatic constraints)?

B. *To what extent are the project activities likely to accomplish the objectives developed under sec. 172.64 (institutionalization objectives)?* (Sec. 172.153(b).) (8 points)

1. Are the project activities directly related to the objectives?

2. Do the project activities focus on continued planning and shared decisionmaking involving significant groups in the local educational agency, institution of higher education and community?

3. Do the project activities provide different options for achieving the same goals or objectives?

4. Is there evidence that adequate resources will be available to carry out the project activities, as an ongoing local effort, once the Federal funding ends?

5. Is documentation of the project activities provided for as an ongoing process?

C. *To what extent is the management plan for accomplishing the objectives developed under sec. 172.64 (institutionalization objectives) realistic and economical?* (Sec. 172.153(c).) (6 points)

1. In the past, have the local educational agency and institution of higher education successfully managed the adoption of project results into their ongoing education programs?

2. Is the process for transition from Teacher Corps project operation to ongoing educational program operation well defined with respect to the organizational structures and responsibilities?

3. Is there a collaborative method for:

(a) Systematically evaluating the programs and practices introduced by the project?

(b) Determining which practices should, and should not, be continued?

(c) Developing an institutionalization plan for those practices that are successful?

4. Is the timetable for institutionalization realistic?

5. Are there specific plans outlined for the continuation of the educational improvements, made as a result of the project, in the local educational agency and the institution of higher education.

(20 U.S.C. 1103(g).)

IV. *Adaptation of educational improvements criterion* (Sec. 172.154.) (18 points)

A. *To what extent are the objectives developed under sec. 172.65 (demonstration and dissemination) likely to achieve the outcome in sec. 172.60(d) (adaptation of educational improvements)?* (Sec. 172.154(a).) (6 points)

1. Do the adaptation objectives describe specific methods for dissemination to other educational agencies and institutions?

2. Do the objectives propose dissemination of processes, products, and practices to a broad range of groups in educational agencies and institutions?

3. Were the objectives developed as a result of a collaborative planning process that involved the local educational agency, community council and institution of higher education?

4. Is there evidence that the principal controllers of educational resources (i.e., the community council chairman, school superintendent and dean of the school of education) are committed to achieving the objectives?

5. Do the objectives realistically reflect the amount of resources available for dissemination activities and the nature of the educational agencies and institutions involved?

B. *To what extent are the project activities likely to accomplish the demonstration and dissemination of the adaptation objectives developed under sec. 172.65?* (Sec. 172.154(b).) (6 points)

1. Are the project activities, that are designed to achieve adaptation, specifically described.

2. Are the project activities directly related to the objectives?

3. Do the project activities focus on planning and dissemination methods that are efficient and cost effective ways of communicating with groups in other educational institutions and agencies?

4. Do the project activities provide for dissemination to a broad range of user groups?

5. Do the project activities include a wide variety of options to meet the needs of different user groups at different levels of understanding?

6. Is there evidence that adequate resources are available to carry out the adaptation activities?

C. *To what extent is the management plan for achieving the demonstration and dissmination objectives developed under sec. 172.65 realistic and economical?* (Sec. 172.154(c).) (6 points)

1. In the past, have the local educational agency and institution of higher education effectively disseminated educational improvements to other agencies and institutions?

2. Is there an organizational plan that clearly describes the responsibilities of the project staff, local educational agency, institution of higher education and community council?

3. Are the significant groups from the local educational agency, institution of higher education and community council involved in the planning, development and implementation of the dissemination efforts?

4. Is the timetable for planning and implementing the adaptation activities realistic?

5. Does the management plan consider the needs of user groups in other agencies and institutions, in determining the most effective methods for demonstration and dissemination?

6. Does the management plan provide a sound method for evaluation so that only the successful elements of the project are adopted by other groups?

(20 U.S.C. 1103(g).)

(Catalog of Federal Domestic Assistance Program No. 13.489.)

Dated: September 10, 1978.

EARNEST L. BOYER,
U.S. Commissioner of Education.

[FR Doc. 78-26087 Filed 9-14-78; 8:45 am]

[4110-02]

Office of Education

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT, COLLEGE WORK-STUDY, AND NATIONAL DIRECT STUDENT LOAN PROGRAMS

Closing Dates for Filing Applications, Corrections, and Appeals for Funds and for Establishing Eligibility

The Commissioner of Education gives notice that:

1. An eligible institution of higher education may apply for fiscal year 1979 funds—for use in the 1979-80 award period—under the supplemental educational opportunity grant (SEOG), college work-study (CWS), and national direct student loan (NDSL) programs;

2. An institution of higher education that is seeking eligibility status may apply for fiscal year 1979 funds—for use in the 1979-80 award period—under the SEOG, CWS, and NDSL programs;

3. An area vocational school may apply for fiscal year 1979 funds—for use in the 1979-80 award period—under the CWS program; and

4. An area vocational school that is seeking eligibility status may apply for fiscal year 1979 funds—for use in the 1979-80 award period—under the CWS program.

These programs allocate to institutions funds to assist students who need financial aid to meet the cost of postsecondary education.

The SEOG, CWS, and NDSL are authorized respectively by Title IV-A-2, C and E of the Higher Education Act of 1965.

(20 U.S.C. 1070b-1070b-3; 42 U.S.C. 2751-2756; and 20 U.S.C. 1087aa-1087bb.)

a. *Closing dates.* Applicants shall observe the following closing dates:

1. For submitting applications for funds, October 16, 1978.

2. For submitting corrections to applications for funds or to fiscal-operations reports, December 1, 1978.

3. For submitting appeals for funds, January 8, 1979.

4. For establishing institutional eligibility, January 15, 1979.

b. *Application forms and information.* Application forms are being prepared but are not yet available. We anticipate that the application forms and instructions will be ready for mailing on or about September 15, 1978.

An applicant institution shall prepare and submit its application in accordance with the instructions included in the package sent to it.

The Commissioner reviews and edits, by computer, applications, and accompanying fiscal-operations reports. The Commissioner mails to each institution:

(1) A notice of the recommended funding levels by program, or

(2) Instructions for making any necessary corrections. In accordance with these instructions, an institution shall return corrected versions of edited applications and fiscal-operations reports.

The U.S. Office of Education, Washington, D.C., must receive all corrections no later than December 1, 1978.

The notice of recommended funding levels also includes instructions to an institution that may wish to appeal one or more recommended amounts. An institution that files an appeal shall file in accordance with these instructions.

The U.S. Office of Education, Washington, D.C., must receive all appeals no later than January 8, 1979.

c. *Applications sent by mail.* An applicant shall address a mailed application to the U.S. Office of Education, Bureau of Student Financial Assistance, Division of Program Operations, Campus and State Grant Branch, Room 4621, Regional Office Building, 3, 400 Maryland Avenue SW., Washington, D.C. 20202.

In order for an application to be assured of consideration, an applicant must mail it on or before the pertinent closing date and must provide the following proof of mailing.

Proof of mailing consists of a legible U.S. Postal Service dated postmark or a legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service.

NOTE.—The U.S. Postal Service does not uniformly provide a dated postmark. An applicant should check with its local post office before relying on this method.

The Commissioner encourages an applicant to use registered for first-class mail.

d. *Applications delivered by hand.* An application that is hand-delivered must be taken to: The U.S. Office of Education, Campus and State Grant Branch, Room 4621, Regional Office Building 3, 7th and D Streets SW., Washington, D.C.

The campus and State grant branch will accept hand-delivered applications between 8 a.m. and 4 p.m. (Washington, D.C., time) daily, except Saturdays, Sundays, and Federal holidays.

e. *Eligibility deadline.* The Commissioner accepts, processes, and reviews applications from institutions that have not qualified as eligible institutions of higher education under sections 491(b) or 1201(a) of the Higher Education Act of 1965 (20 U.S.C. 1085(b), 1141(a)).

For an institution to receive an allocation of fiscal year 1979 funds, the Division of Eligibility and Agency Evaluation, Bureau of Higher and Continuing Education, U.S. Office of Education, must have received by January 15, 1979, all materials and documents necessary for the Commissioner to determine whether that institution is an eligible institution of higher education.

Similarly, the Commissioner accepts applications from area vocational schools whose eligibility to participate in the CWS program has not been established.

For an area vocational school to receive an allocation of fiscal year 1979 funds, the Division of Eligibility and Agency Evaluation, Bureau of Higher and Continuing Education, U.S. Office of Education, must have received by January 15, 1979, all materials necessary for the Commissioner to determine whether that school is an area vocational school.

f. *Further information.* For further information contact Mr. Robert Coates, Acting Chief, Campus and State Grant Branch, Division of Program Operations, Room 4621, Regional Office Building 3, 400 Maryland Avenue SW., Washington, D.C. 20202; telephone 202-245-2432.

g. *Applicable regulations.* The regulations applicable to these programs are:

1. SEOG: 45 CFR part 176;
2. CWS: 45 CFR part 175: and
3. NDSL: 45 CFR part 144.

All of these program regulations were published in the FEDERAL REGISTER on August 24, 1978 (43 FR 37896-37956).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA DESERT CONSERVATION AREA

Wilderness Inventory

Notice is hereby given that the Bureau of Land Management is conducting a wilderness inventory on the public lands of the California desert conservation area in accordance with section 603 of the Federal Land Policy and Management Act of 1976 (Pub. L. 94-579). This and other resource inventories are being conducted at this time in order to comply with the requirement of section 601(d) of the Act that the California desert plan be completed by September 30, 1980.

Field analysis utilizing the Bureau of Land Management's draft wilderness procedures as guidelines, as well as extensive public involvement, have been underway since May 1, 1978, and will continue through November 1, 1978. Public involvement has included seventeen public meetings and twenty-eight workshops in addition to news releases and mailings to obtain input on the existence of wilderness characteristics and roads in areas identified tentatively as "roadless" within the conservation area.

The Bureau will issue a draft wilderness inventory map and narratives for the California desert conservation area on November 1, 1978, to be followed by a 90-day period for public review and comment. Public meetings will be held December 4-15, 1978, at times and places to be announced in a subsequent notice.

Persons who wish to receive additional information or a copy of the November report and notice of meeting locations are invited to write the BLM Wilderness Inventory Team, Riverside District Office, 1695 Spruce Street, Riverside, Calif. 92507, and request their names be placed on the mailing list.

At the close of the 90-day public review period (February 1, 1979), the Bureau will prepare the final map showing wilderness study areas in the California desert conservation area. Study areas will be those areas which have been found to have the characteristics necessary for consideration by Congress for inclusion within the national wilderness preservation system as provided for in section 603(a) of Pub. L. 94-579.

Dated: September 7, 1978.

ROBERT E. METZGER,
Acting State Director.

NEW MEXICO

Notice of Application

SEPTEMBER 5, 1978.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Phillips Petroleum Co. has applied for one 4½-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 18 S., R. 31 E.,
Sec. 27, SW¼SE¼;
Sec. 33, SE¼NE¼;
Sec. 34, NW¼NE¼ and NW¼.

This pipeline will convey natural gas across 1.085 miles of public land in Eddy County, N. Mex.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, N. Mex. 88201.

[4310-84]

[Wyoming 64657]

WYOMING

Notice of Application

SEPTEMBER 7, 1978.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Stauffer Chemical Co. of Wyoming of Green River, Wyo., filed an application for a right-of-way to construct 4-inch lateral pipelines for the purpose of transporting natural gas across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 21 N., R. 112 W.,
Sec. 10, NW¼SW¼;
Sec. 14, W½SW¼;
Sec. 22, NW¼NE¼ and N½NW¼.

The proposed pipelines will transport natural gas produced from the Whiskey Buttes Well No. 21 located in the NE¼SW¼ sec. 9 to a point of connection with Stauffer Chemical Co. of Wyoming's existing mainline located in the SW¼SW¼ sec. 10; from the Whiskey Buttes Well No. 9 located in the NE¼SW¼ sec. 21 to a point of connection with the same mainline in the NW¼SW¼ sec. 14, and from the Whiskey Buttes Well No. 19 in the NE¼SW¼ sec. 15 to a point of connection with the proposed pipeline to be located in the NW¼NE¼ sec. 22, T. 21 N., R. 112 W., all within Lincoln County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 North, P.O. Box 1869, Rock Springs, Wyo. 82901.

Bureau of Land Management

OUTER CONTINENTAL SHELF, WESTERN AND CENTRAL GULF OF MEXICO

Proposed Oil and Gas Lease Sale No. 51

In connection with oil and gas leasing on the Outer Continental Shelf, the Secretary of the Interior has established a policy relating to sale notices to further and enhance consultation with the affected coastal States. That policy includes providing the affected States with the opportunity to review the draft proposed sale notice prior to its final publication in the FEDERAL REGISTER. The following is a draft sale notice for proposed Sale No. 51 in the offshore waters of the Western and Central Gulf of Mexico area. This notice is hereby published as a matter of information to the public.

Dated: September 8, 1978.

ARNOLD E. PETTY,
Acting Associate Director, Bureau of Land Management.

CECIL D. ANDRUS,
Secretary of the Interior.

PROPOSED SALE NOTICE

1. *Authority.* This notice is published pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343), as amended, and the regulations issued thereunder (43 CFR Part 3300).

2. *Filing of bids.* Sealed bids will be received by the Manager, New Orleans Outer Continental Shelf (OCS) Office, Bureau of Land Management, Hale Boggs Federal Building, 500 Camp Street, Suite 841, New Orleans, La. 70130. Bids may be delivered, either by mail or in person, to the above address until 4:15 p.m., c.s.t., December 1978; or by personal delivery to (sale site in New Orleans, La. to be announced) between the hours of 8:30 a.m., c.s.t., and 9:30 a.m., c.s.t., December —, 1978. Bids received by the Manager later than the times and dates specified above will be returned unopened to the bidders. Bids may not be modified or withdrawn unless written modification or withdrawal is received by the Manager prior to 9:30 a.m., c.s.t., December —, 1978. All bids must be submitted and will be considered in accordance with applicable regulations, including 43 CFR Part 3300. The list of restricted joint bidders which applies to this sale was published in 43 FR 1978.

3. *Method of bidding.* A separate bid in a sealed envelope, labeled "Sealed Bid for Oil and Gas Lease (insert number of tract), not to be opened until 10 a.m., c.s.t., December —, 1978," must be submitted for each tract. A suggested form appears in paragraph 17 of this notice. Bidders are advised that tract numbers are asigned solely for administrative purposes and are not the same as block numbers found on official protraction diagrams or leasing maps. All bids received shall be deemed submitted for a numbered tract. Bidders must submit with each bid one fifth of the cash bonus in cash or by cashier's check, bank draft, certified check, or money order payable to the order of the Bureau of Land Management. No bid for less than a full tract as described in paragraph 13 will be considered. Bidders submitting joint bids must state on the bid form the proportionate interest of each participating bidder, in percent to a maximum of five decimal places, as well as submit a sworn statement that the bidder is qualified under 43 CFR Part 3302. The suggested form for this statement to be used in joint bids appears in paragraph 18. Other documents may be required of bidders under 43 CFR 3302.4. Bidders are warned against violation of 18 U.S.C. 1860, prohibiting unlawful combination or intimidation of bidders.

4. *Bonus bidding with a fixed sliding scale royalty.* Bids on tracts 51-1, 51-2, 51-3, 51-4, 51-5, 51-6, 51-7, 51-9, 51-10, 51-23, 51-24, 51-25, 51-26, 51-27, 51-28, 51-29, 51-30, 51-31, 51-35, 51-36, 51-37, 51-38, 51-39, 51-40, 51-44, 51-45, 51-72, 51-73, 51-75, 51-76, 51-80, 51-86, 51-87, 51-88, 51-89, 51-90, 51-91, 51-92, 51-93, 51-98, 51-99, 51-105, 51-107, 51-108, 51-109, 51-111, 51-119, 51-125, 51-127, 51-128, 51-129, 51-131, 51-132, 51-135, 51-136, 51-137, 51-142, 51-144, and 51-145 must be submitted on a cash bonus bid basis with the percent royalty due in amount or value of production saved, removed or sold fixed according to the sliding scale formula described below. This formula fixes the percent royalty at a level determined by the value of lease production during each calendar quarter. For purposes of determining the royalty percent due on production during a quarter, the value of production during the quarter will be adjusted for inflation as described below. The determination of the value of the production on which royalty is due will be made pursuant to 30 CFR 250.64.

The fixed sliding scale formula operates in the following way: when the quarterly value of production, adjusted for inflation, is less than or equal to $13.236229 million, a royalty of 16.66667 percent in amount or value of production saved, removed or sold will be due on the unadjusted value or amount of production. When the adjusted quarterly value of production is equal to or greater than $13.236230 million, but less than or equal to $1662.854082 million, the royalty percent due on the unadjusted value or amount of production is given by

$$R_j = b[\mathrm{Ln}\,(V_j/S)]$$

where

R_j = the percent royalty that is due and payable on the unadjusted amount or value of all production saved, removed or sold in quarter j
b = 10.0
Ln = natural logarithm
V_j = the value of production in quarter j, adjusted for inflation, in millions of dollars
S = 2.5

When the adjusted quarterly value of production is equal to or greater than $1662.854083 million, a royalty of 65.00000 percent in amount or value of production saved, removed or sold will be due on the unadjusted quarterly value of production. Thus, in no instance will the quarterly royalty due exceed 65.00000 percent in amount or value of quarterly production saved, removed or sold.

In determining the quarterly percent royalty due, R_j, the calculation will be carried to five decimal places (for example, 20.17329 percent). This calculation will incorporate the adjusted quarterly value of production, V_j, in millions of dollars, rounded to the sixth digit, i.e., to the nearest dollar (for example, 15.392847 millions of dollars).

The form of the sliding scale royalty schedule is illustrated in figure 1. Note that the effective quarterly royalty rate depends upon the inflation adjusted quarterly value of production. However, this rate is applied to the unadjusted quarterly value of production to determine the royalty payments due.

Figure 1
Form of the Sliding Royalty Schedule

[Approved Sept. 24, 1959]

OCS LEASING MAP, WEST CAMERON AREA, SOUTH ADDITION, LOUISIANA MAP NO. 1B
[Approved Sept. 8, 1959]

OCS LEASING MAP, EUGENE ISLAND AREA, SOUTH ADDITION, LOUISIANA MAP NO. 4A
[Approved Sept. 8, 1959]

In adjusting the quarterly value of production for use in calculating the percent royalty due on production during the quarter, the actual value of production will be adjusted to account for the effects of inflation by dividing the actual value of production by the following inflation adjustment factor. The inflation adjustment factor used will be the ratio of the GNP fixed weighted price index for the calendar quarter preceding the quarter of production to the value of that index for the quarter preceding the issuance of the lease. The GNP fixed weighted price index is published monthly in the Survey of Current Business by the Bureau of Economic Analysis, U.S. Department of Commerce. The percent royalty will be due and payable on the actual amount or value of production saved, removed, or sold as determined pursuant to 30 CFR 250.64. The timing of procedures for inflation adjustments and determinations of the royalty due will be specified at a later date. Table 1 provides hypothetical examples of quarterly royalty calculations using the sliding scale formula just described under two different values for the quarterly price index.

Leases awarded on the basis of a cash bonus bid with fixed sliding scale royalty will provide for a yearly rental or minimum royalty payment of $3 per acre or fraction thereof.

Bidders for these tracts should recognize that the Department of Energy is authorized, under section 302 (b) and (c) of the Department of Energy Organization Act, to establish production rates for all Federal oil and gas leases.

5. *Bonus bidding with a fixed constant royalty.* Bids on the remaining tracts to be offered at this sale must be on a cash bonus basis with a fixed royalty of 16⅔ percent. Leases which may be issued will provide for a yearly rental payment or minimum royalty payment of $3 per acre or fraction thereof. A suggested cash bonus bid form is shown in paragraph 17.

6. *Equal opportunity.* Each bidder must have submitted by 9:30 a.m., c.s.t., December , 1978, the certification required by 41 CFR 60-1.7(b) and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, on the Compliance Report Certification Form, Form 1140-8 (November 1973), and the Affirmative Action Representation Form, Form 1140-7 (December 1971).

7. *Bid opening.* Bids will be opened on December , 1978, beginning at 10 a.m., c.s.t., at the address stated in paragraph 2. The opening of the bids is for the sole purpose of publicly announcing and recording bids received and no bids will be accepted or rejected at that time. If the Department is prohibited for any reason from opening any bid before midnight, December , 1978, that bid will be returned unopened to the bidder, as soon thereafter as possible.

8. *Deposit of payment.* Any cash, cashier's checks, certified checks, bank drafts, or money orders submitted with a bid may be deposited in a suspense account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States.

9. *Withdrawal of tracts.* The United States reserves the right to withdraw any tract from this sale prior to issuance of a written acceptance of a bid for that tract.

10. *Acceptance or rejection of bids.* The United States reserves the right to reject any and all bids for any tract. In any case, no bid for any tract will be accepted and no lease for any tract will be awarded to any bidder unless:

(a) The bidder has complied with all requirements of this notice and applicable regulations;

(b) The bid is the highest valid cash bonus bid; and

(c) The amount of the bid has been determined to be adequate by the Secretary of the Interior.

No bid will be considered for acceptance unless it offers a cash bonus in the amount of $25 or more per acre or fraction thereof.

11. *Successful bidders.* Each person who has submitted a bid accepted by the Secretary of the Interior will be required to execute copies of the lease specified below, pay the balance of the cash bonus bid together with the first year's annual rental and satisfy the bonding requirements of 43 CFR 3304.1 within the time provided in 43 CFR 3302.5.

12. *Protraction diagram/leasing maps.* Tracts offered for lease may be located on the following leasing maps/protraction diagram which are available from the Manager, New Orleans Outer Continental Shelf Office at the address stated in paragraph 2.

(a) Outer Continental Shelf Leasing Maps—Texas Nos. 1 through 8. These maps are arranged in two sets, Nos. 1 through 4 (7 maps), which sell for $5 per set, and Nos. 5 through 8 (9 maps), which sell for $7 per set.

(b) Outer Continental Shelf Leasing Maps—Louisiana Nos. 1 through 12. This is a set of 27 maps which sells for $17.

(c) Outer Continental Shelf Official Protraction Diagram: NH 16-7, Viosca Knoll, which sells for $2.

13. *Tract Descriptions.* The tracts offered for bid are as follows:

NOTE.—There may be gaps in the numbers of the tracts listed and they are not in sequence. Some of the blocks identified in the final environmental statement may not be included in this notice.

OCS LEASING MAP, SOUTH PADRE ISLAND AREA, TEXAS MAP NO. 1

FOOTNOTES

[1] That portion of the lease block seaward of the Three-Marine-League Line.

[2] That portion of the lease block which is more than 3 geographical miles seaward from the line described in the supplemental decree of the U.S. Supreme Court, June 16, 1975 (*United States* v. *Louisiana*, 422 U.S. 13).

[3] That portion of the south half of the lease block which is more than 3 geographical miles seaward from the line described in the supplemental decree of the U.S. Supreme Court, June 16, 1975 (*United States* v. *Louisiana*, 422 U.S. 13) to the zone 1 line as that zone is defined in the interim agreement (Oct. 12, 1956) between the United States and State of Louisiana.

[4] W½SW¼ and that portion of the north half of the lease block which is more that 3 geographical miles seaward from the line described in the supplemental decree of the U.S. Supreme Court, June 16, 1975 (*United States* v. *Louisiana*, 422 U.S. 13).

[5] That portion of the lease block located landward of the line 3 geographical miles seaward from the line described in the supplemental decree of the U.S. Supreme Court, Dec. 13, 1965 (*United States* v. *Louisiana*, 382 U.S. 288).

[6] That portion of the lease block located seaward of the third supplemental decree line (404 U.S. 388, Dec. 20, 1971).

[7] That portion of the lease block described as follows:

Beginning at the southeast corner of said block which is described by coordinates x=2,264,446.02, y=127,591.99; thence westerly along the south boundary of the block, 15,600.00 ft to coordinates x=2,248,846.02, y=127,591.99; thence northerly along the west boundary of the block 6,645.35 ft to coordinates x=2,248,846.02, y=134,237.34; thence N. 76°17'04" E., 499.25 ft to coordinates x=2,249,331.04, y=134,355.71; thence S. 65°53'32" E., 16,559.30 ft to coordinates x=2,264,446.02, y=127,591.99, the point of beginning.

[8] That portion of the lease block seaward of the Three-Marine-League Line measured from the historic shoreline described in the *United States* v. *Louisiana*, No. 9 original (394 U.S. 836).

14. *Lease terms and stipulations.* All leases issued as a result of this sale will be for an initial term of 5 years. Leases issued as a result of this sale will be on Form 3300-1 (September 1978), available from the Manager, New Orleans Outer Continental Shelf Office, at the address stated in paragraph 2. For leases resulting from this sale for tracts offered on a cash bonus basis with fixed sliding scale royalty, listed in paragraph 4, Form 3300-1 will be amended as follows:

Sec. 6 *Royalty on Production.* (a) To pay the lessor a royalty of that percent in amount or value of production saved, removed or sold from the leased area as determined by the sliding scale royalty formula as follows. When the quarterly value of production, adjusted for inflation, is less than or equal to $13.236229 million, a royalty of 16.66667 percent in amount or value of production saved, removed or sold will be due on the unadjusted value or amount or production. When the adjusted quarterly value of production is equal to or greater than $13.236230 million, but less than or equal to $1662.854082 million, the royalty percent due on the unadjusted value or amount of production is given by

$$R_j = b[\mathrm{Ln}\ (V_j/S]$$

where

R_j = the percent royalty that is due and payable on the unadjusted amount or value of all production saved, removed or sold in quarter j

b = 10.0

Ln = natural logarithm

V_j = the value of production in quarter j, adjusted for inflation, in millions of dollars

S = 2.5

When the adjusted quarterly value of production is equal to or greater than $1662.854083 million, a royalty of 65.00000 percent in amount or value of production saved, removed or sold will be due on the unadjusted quarterly value of production. Thus, in no instance will the quarterly royalty due exceed 65.00000 percent in amount or value of quarterly production saved, removed or sold.

In determining the quarterly percent royalty due, R_j, the calculation will be carried to five decimal places (for example, 20.17329 percent). This calculation will incorporate the adjusted quarterly value of production, V_j, in millions of dollars, rounded to the sixth digit, i.e., to the nearest dollar (for example, 15.392847 millions of dollars). • • •

Except as otherwise noted, the following stipulations will be included in each lease resulting from this proposed sale. In the following stipulations the term "Supervisor," refers to the Gulf of Mexico Area Oil and Gas Supervisor for Operations of the Geological Survey and the term "Manager," refers to the Manager of the New Orleans OCS Office of the Bureau of Land Management.

STIPULATION NO. 1

If the Supervisor, having reason to believe that a site, structure or object of historical or archaeological significance hereinafter referred to as "cultural resource", may exist in the lease area, gives the lessee written notice that the lessor is invoking the provisions of this stipulation, the lessee shall upon receipt of such notice comply with the following requirements:

Prior to any drilling activity or the construction or placement of any structure for exploration or development on the lease, including but not limited to, well drilling and pipeline and platform placement, hereinafter in this stipulation referred to as "operation", the lessee shall conduct remote sensing surveys to determine the potential existence of any cultural resource that may be affected by such operations. All data produced by such remote sensing surveys as well as other pertinent natural and cultural environmental data shall be examined by a qualified marine survey archaeologist to determine if indications are present suggesting the existence of a cultural resource that may be adversely affected by any lease operation. A report of this survey and assessment prepared by the marine survey archaeologist shall be submitted by the lessee to the Supervisor and to the Manager for review.

If such cultural resource indicators are present the lessee shall: (1) Locate the site of such operation so as not to adversely affect the identified location; or (2) establish, to the satisfaction of the Supervisor, on the basis of further archaeological investigation conducted by a qualified marine survey archaeologist or underwater archaeologist using such survey equipment and techniques as deemed necessary by the Supervisor, either that such operation will not adversely affect the location identified or that the potential cultural resource suggested by the occurrence of the indicators does not exist.

A report of this investigation prepared by the marine survey archaeologist or underwater archaeologist shall be submitted to the Supervisor and the Manager for review. Should the Supervisor determine that the existence of a cultural resource which may be adversely affected by such operation is sufficiently established to warrant protection, the lessee shall take no action that may result in an adverse effect on such cultural resource until the Supervisor has given directions as to its preservation.

The lessee agrees that if any site, structure, or object of historical or archaeological significance should be discovered during the conduct of any operations on the leased area, he shall report immediately such findings to the Supervisor, and make every reasonable effort to preserve and protect the cultural resource from damage until the Supervisor has given directions as to its preservation.

STIPULATION NO. 2

(To be included only in those leases resulting from this proposed sale for tracts 51-8 and 51-78):

Operations within the circle with a radius of 5,820 meters around point A, located by X=2,720,700, Y=736,500 (Texas Lambert System) and within the circle with a radius of 7,000 meters around point B located by X=3,775,400, Y=153,280 (Texas Lambert System) shall be restricted as specified in either (a) or (b) below:

(a) All drill cuttings and drilling fluids must be disposed of by shunting the material to the bottom through a downpipe that terminates an appropriate distance, but not more than six meters, from the bottom.

(b) The operator (lessee) shall submit a monitoring plan as part of the exploration and development and production plans. The monitoring plan will be designed to assess the effects of oil and gas exploration and development operations on the biotic communities of South Baker Bank and 29 Fathom Bank.

The monitoring program shall indicate that the monitoring investigations will be conducted by qualified independent scientific personnel and that these personnel and all required equipment will be available at the time of operations. The monitoring team will submit its findings to the supervisor on a schedule established by the supervisor, or immediately in case of imminent danger to the biota of the bank resulting directly from drilling or other operations. If it is decided that surface disposal of drilling fluids or cuttings presents no danger to the bank, no further monitoring of that particular well or platform will be required. If, however, the monitoring program indicates that the biota of the bank is being harmed, or if there is a great likelihood that operation of that particular well or platform may cause harm to the biota of the bank, the supervisor shall require shunting as specified in (a) above or other appropriate operational restrictions.

STIPULATION NO. 3

(To be included only in the leases resulting from this proposed sale for tracts 51-54 and 51-55):

No structures, drilling rigs, or pipelines will be allowed within the aliquots established for the West Flower Garden Bank (Tract 51-55, High Island Area, East Addition, South Extension A-397): W½-W½NW¼; W½NW¼SW¼; NW¼SW¼SW¼.

Outside the above aliquots, exploration and development operations are permitted within the circle with a radius of 6,116 meters around point P, located by X=3,674,965, Y=50,690 (Texas Lambert System), with the following restrictions:

All drill cuttings and drilling fluids must be disposed of by shunting the material to the bottom through a downpipe that terminates an appropriate distance, but no more than 10 meters, from the bottom; however, if the shunting method is not adequate, as determined by the monitoring program proceedings outlined in this stipulation, to protect the unique character of the subject area, then the material must be transported a minimum of 10 miles from any 50-meter isobath surrounding live reef-building coral before disposal. Disposal sites must be approved by the supervisor.

No garbage, untreated sewage, or other solid waste shall be disposed of from vessels (workboats, crew-boats, supply boats, pipelaying vessels) during exploration and development operations.

No drilling permits shall be issued by the supervisor until he has found that the lessee's exploration and development plan filed under 30 CFR 250.34 is adequate to insure the exploration and production operations in the leased area will have no significant adverse effect on the biota communities associated with the high value requiring sites on the Flower Garden Banks. As a part of the development plan, a reef monitoring program must be included.

The monitoring program will be designed to assess the effects of oil and gas exploration and development operations on the visability of the coral reefs and associated communities. The development plan should indicate that the monitoring program will be conducted by qualified independent scientific personnel and that program personnel and equipment will be available at the time of operations. The monitoring team will submit its findings to the Regional Director, U.S. Fish and Wildlife Service, the manager, and the supervisor, on a regular schedule established by the supervisor, or immediately in case of imminent danger to the reefs resulting directly from drilling or other operations.

STIPULATON NO. 4

To be included in any leases resulting from this proposed sale for the sliding scale royalty tracts listed in paragraph 4 of this notice.

(a) The royalty rate on production saved, removed or sold from this lease is subject to consideration for reduction under the same authority that applies to all other oil and gas leases on the Outer Continental Shelf (30 CFR 250.12 (e)). The Director, Geological Survey, may grant a reduction for only 1 year at a time. Reduction of royalty rates will not be approved unless production has been underway for 1 year or more.

(b) Although the royalty rate specified in section 6(a) of this lease or as subsequently modified in accordance with applicable regulations and stipulations is applicable to all production under this lease, not more than 16⅔ percent of the production saved, removed or sold from the lease area may be taken as royalty in amount, except as provided in section 15(d); the royalty on any portion of the production saved, removed or sold from the lease in excess of 16⅔ percent may only be taken in value of the production saved, removed or sold from the lease area.

STIPULATION NO. 5

Unless the lessee can demonstrate to the satisfaction of the supervisor that it would not be in the interests of conservation, all reservoirs underlying this lease which extend into one or more other leases with either a different royalty rate or a royalty rate based on a sliding scale, as indicated by drilling and other information, shall be operated and produced only under a unit agreement including the other lessee(s) and approved by the supervisor. Such a unit agreement shall provide for the fair and equitable allocation of production and costs. The supervisor shall prescribe the method of allocating production and costs in the event operators are unable to agree on a method acceptable to him.

15. *Information to Lessees.* The Department of the Interior will seek the advice of the States of Texas, Louisiana, Mississippi, and Alabama and other Federal agencies, to identify areas of special concern which might require appropriate protective measures for live bottom areas and areas which might contain cultural resources.

If it is determined that live bottom areas might be adversely impacted by the proposed activities then the supervisor, in consultation with the Regional Director, Fish and Wildlife Service (FWS), the manager, BLM and the Sates, will require the lessee to undertake any measures deemed economically, environmentally, and technologically feasible to protect live bottom areas.

In September —, 1978, the OCS Lands Act Amendments of 1978 was enacted. Some sections of current regulations applicable to OCS leasing operations are inconsistent with this new legislation, and the legislation requires the issuance of some new regulations. The inconsistencies will be corrected by rulemakings and the new regulations will be issued as soon as possible. Nevertheless, bidders are notified that provisions of the new OCS Lands Act Amendments shall apply to all leases offered at this lease sale and shall supersede all inconsistent provisions in current regulations applicable to OCS leasing operations.

Some of the tracts offered for lease may fall in areas which may be included in fairways, precautionary zones, or traffic separation schemes. Corps of Engineers permits are required for construction of any artificial islands, installations and other devices permanently or temporarily attached to the seabed located on the Outer Continental Shelf in accordance with section 4(f) of the Outer Continental Shelf Lands Act of 1953 as modified by the 1978 Amendments.

Bidders are advised that the Departments of the Interior and Transportation have entered into a Memorandum of understanding dated May 6, 1976, concerning the design, installation, operation and maintenance of offshore pipelines. Bidders should consult both Departments for regulations applicable to offshore pipelines.

16. *OCS Orders.* Operations on all leases resulting from this sale will be conducted in accordance with the provisions of all Gulf of Mexico Orders, as of their effective date, and any other applicable OCS Order as it becomes effective.

17. *Suggested Bid form.* It is suggested that bidders submit their bids to the Manager, New Orleans Outer Continental Shelf Office, in the following form:

OIL AND GAS BID

The following bid is submitted for an oil and gas lease on the tract of the Outer Continental Shelf specified below:

Tract No. ———

Total amount bid ———

Amount per acre ———

Amount of cash bonus submitted with bid —

PROPORTIONATE INTEREST OF COMPANY(S) SUBMITTING BID

Qualification No. ———

UNITED STATES INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-52]

CERTAIN APPARATUS FOR CONTINUOUS PRODUCTION OF COPPER ROD

Denial of Motion To Amend Complaint

Notice is hereby given that the United States International Trade Commission denied the motion of complainant, Southwire Co., to amend the complaint in investigation No. 337-TA-52 on certain apparatus for the continuous production of copper rod, in which complainant sought to add an antitrust-type count to the investigation. Respondents opposed the motion to amend, as did the Commission investigation attorney, and the presiding officer's order of August 1, 1978, recommended denial of complainant's motion.

The Commission determined, pursuant to section 210.20(d) of the Commission's rules of practice and procedure (19 CFR 210.20(d)), that complainant had not shown good cause for the amendment to the complaint, and that there would be prejudice to the public and to the rights of the parties to the investigation if the motion were granted. The Commission has adopted the views and rationale of the presiding officer in recommending denial of the motion to amend the complaint. The presiding officer's recommended order is on file and available at the Office of the Secretary of the Commission.

Notice of institution of the investigation was published on May 22, 1978 (43 FR 21951).

By order of the Commission.

Issued: September 11, 1978.

KENNETH R. MASON,
Secretary.

[7020-02]

[Investigation 337-TA-41]

CERTAIN CERAMIC TILE SETTERS

Commission Determination, Order and Memorandum Opinion

PROCEDURAL HISTORY

On June 19, 1978, complainant Ferro Corp. filed, pursuant to section 210.51 of the Commission's Rules of Practice and Procedure [1] (hereinafter "Rules"), a motion to terminate this investigation as to all issues and with respect to all respondents (see motion to terminate filed June 19, 1978). The presiding officer, acting in conformity with sections 210.51(c) and 210.53 of the Rules,[2] concluded that no present violation of section 337 of the Tariff Act of 1930 [3] (hereinafter "section 337") exists with respect to the importation of the tile setters which are the subject of the Commission's investigation, and recommended, by order of June 28, 1978, (see recommended determination and order, filed June 28, 1978), that (1) the Commission determines that there is no violation of section 337 in the importation or sale in the United States of certain ceramic tile setters, and (2) the Commission grant complainant's motion to terminate the investigation. It is the purpose of this determination, order and memorandum opinion to consider the presiding officer's recommendation and to rule on complainant's motion to terminate.

DETERMINATION AND ORDER

Having considered (1) complainant's motion to terminate (motion docket No. 41-13), and (2) the presiding officer's recommendation of June 28, 1978, in the context of the record in the instant investigation, the Commission determines that no violation of section 337 presently exists by reason of the importation or sale in the United States of the ceramic tile setters which are the subject of the Commission's investigation.

Therefore, the Commission grants complainant's motion to terminate and orders that the instant investigation be and hereby is terminated with respect to all issues and all respondents.

OPINION

The notice of investigation issued in connection with the instant investigation enumerated six alleged unfair acts and unfair method of competition: (1) Patent infringement, (2) unfair use of know how and trade secrets, (3) discriminatory and/or unfairly low pricing with the intent to destroy or injure competition, (4) conspiracy to price discriminatorily and/or unfairly low, (5) attempt and intent to monopolize, and (6) conspiracy to attempt to monopolize (see 43 FR 5901, Feb. 10, 1978).

In his order for prehearing statements issued May 23, 1978, the presiding officer directed the parties to submit statements of the issues to be considered at the hearing. Any contentions not set forth in detail were to be deemed abandoned, uncontroverted, or withdrawn (see order for prehearing statements, issued May 23, 1978). In its

[1] 19 CFR 210.51.

[2] 19 CFR 210.51(c) and 210.53.
[3] 19 U.S.C. 1337.

prehearing statement filed in compliance with the above order, complainant omitted any reference to alleged anticompetitive acts (2) through (6) as set forth in the notice of investigation, thus effectively removing those acts from consideration in the adjudication of the case.

On June 15, 1978, complainant filed with U.S. Patent and Trademark Office a disclaimer pursuant to 35 U.S.C. 253 disclaiming claims 1, 4, 6, 7, and 8 of U.S. Letters Patent 3,169,295 (the '295 patent) the only patent claims at issue in the investigation. Notice of the disclaimer was published in the August 22, 1978, issue of the Official Gazette of the United States Patent and Trademark Office (see 973 OG 42). Since the effect of complainant's section 253 disclaimer is to cancel the disclaimed claims from its '295 patent, patent infringement too has been eliminated as an issue in this investigation.

Inasmuch as none of the six alleged unfair methods of competition and unfair acts enumerated in the Commission's notice of investigation remain viable, the Commission concludes that there is no present violation of section 337. The Commission therefore has determined to order the termination of the instant investigation as to all issues and all respondents.

By order of the Commission.

Issued: September 11, 1978.

KENNETH R. MASON,
Secretary.

[7020-02]

[Investigation No. 337-TA-58]

CERTAIN FABRICATED STEEL PLATE PRODUCTS FROM JAPAN

Notice of Investigation

Notice is hereby given that on August 7, 1978, the Steel Plate Fabricators Association (complainant), 15 Spinning Wheel Road, Hinsdale, Ill. 60521 filed a complaint with the U.S. International Trade Commission under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337). The complaint alleges unfair methods of competition and unfair acts in the importation and sale of certain fabricated steel plate products from Japan by reason of (1) collusive bidding and (2) individual and concerted action implementing predatory pricing schemes facilitated by sales at unreasonably low or below cost prices.

The complaint further alleges that such unfair methods of competition have the effect or tendency to destroy or substantially injure the fabricated steel plate industry in the United States and to restrain or monopolize trade and commerce in fabricated steel plate products in the United States.

Complainant requests an order directing the respondents named below to cease and desist from engaging in the alleged unfair practices, and seeks such further relief as may be appropriate.

Having considered the complaint, the U.S. International Trade Commission on September 7, 1978, ordered:

1. That, pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), an investigation be instituted to determine, under subsection (c) whether, on the basis of the allegations set forth in the complaint and the evidence adduced, there is a violation of subsection (a) of this section in the importation of certain fabricated steel plate products into the United States, or in their sale, by reason of (1) collusive bidding and (2) individual and concerted action implementing predatory pricing schemes facilitated by sales at unreasonably low or below cost prices.

2. That, for the purpose of this investigation so instituted, the following are hereby named as parties:

a. The complainant is Steel Plate Fabricators Association, 15 Spinning Wheel Road, Hinsdale, Ill. 60521.

b. The respondents are the following companies alleged to be involved in the importation of such articles into the United States, or in their sale, and are parties upon which the complaint and this notice are to be served:

Japan Steel Works, a.k.a. The Japan Steel Works, Ltd., 1-12-1 Yuraku-cho, Chiyoda-ku, Tokyo, Japan.
Kobe Steel Co., 13-18, 1-chome, Wakinohama-cho, Fukiai-ku, Kobe, Japan.
Ishikawajima-Harima Industries, a.k.a. Ishikawajima-Harima Heavy Industries, New Ote-Machi Building, 2-1, Ote-Machi, 2-chome, Chiyoda-ku, Tokyo, Japan.
C. Itoh & Co., 4 Nihonbashi-Honcho, 2-Chome Chuo-ka, C.P.O. Box 136, Tokyo, Japan.

c. Wilhelm A. Zeitler, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, is hereby named Commission investigative attorney, a party to this investigation.

3. That, for the purpose of the investigation so instituted, Chief Administrative Law Judge Donald K. Duvall, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, is hereby appointed as presiding officer.

Responses must be submitted by the named respondents in accordance with section 210.21 of the Commission's rules of practice and procedure, as amended (19 CFR 210.21). Pursuant to sections 201.16(d) and 210.21(a) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint and this notice. Extensions of time for submitting a response will not be granted unless good and sufficient cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute waiver of the right to appear and contest the allegations of the complaint and of this notice, and will authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both a recommended determination and a final determination, respectively, containing such findings.

The complaint is available for inspection by interested persons at the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, and in the New York City office of the Commission, 6 World Trade Center.

By Order of the Commission.

Issued: September 11, 1978.

KENNETH R. MASON,
Secretary.

[7020-02]

[AA1921-186]

RAYON STAPLE FIBER FROM BELGIUM

Determination of Injury or Likelihood of Injury

On May 2, 1978, the U.S. International Trade Commission received advice from the Department of the Treasury (43 FR 18619 (May 1, 1978)) that rayon staple fiber from Belgium is being, or is likely to be sold in the United States at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on May 15, 1978, the Commission instituted investigation No. AA1921-181 under section 201(a) of the act to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. Notice of the institution of the investigation and of the public hearing to be held in connection therewith was published in the FEDERAL REGISTER of May 19, 1978 (43 FR 21740). On June 20, 1978, a hearing was held in Washington, D.C., at which time all interested persons were provided the opportunity to appear by counsel or in person.

On July 21, 1978, the Commission was advised by Treasury that it had reconsidered the basis for its fair-value comparisons of rayon staple fiber from Belgium (43 FR 32915 (July 28, 1978)).

As a result of its reconsideration, Treasury modified its determination of May 2, 1978, such that the weighted

at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on May 15, 1978, the

The sole U.S. importer of Belgian rayon staple sold rayon staple to three textile mills during the period January 1977-March 1978. In 1976 these firms

likely to be injured by reason of the importation of rayon staple fiber from Belgium sold at LTFV within the meaning of the Antidumping Act,

appropriate basis for calculating fair value. Treasury then found the revised weighted average margin of 57.6 percent. While I was prepared to vote on

The Commission should not apply antitrust principles to its factfinding proceedings under the Antidumping Act. We should not make determina-

As a result of its reconsideration, Treasury modified its determination of May 2, 1978, such that the weighted average LTFV margin increased from 6.7 percent to 57.6 percent. Having received new and substantially different advice from Treasury, the Commission took the following actions:

1. Terminated investigation No. AA1921-181 without any determination because of the intervening advice of the Treasury;

2. Instituted the instant investigation (No. AA1921-186) to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of rayon staple fiber from Belgium into the United States; and

3. Determined that there did not appear to be good and sufficient reasons for holding a public hearing in investigation No. AA1921-186 because the written statements and transcript of the hearing from the prior investigation remainded relevant to the Commission's determination in the new investigation. Nevertheless, in accordance with 19 CFR 208.4, the Commission allowed any interested persons to submit a request for a public hearing in investigation No. AA1921-186. No such requests were received and a new public hearing was not held.

Notice of the termination of investigation No. AA1921-181 and the institution of investigation No. AA1921-186 was published in the FEDERAL REGISTER of August 8, 1978 (43 FR 35122).

On the basis of its investigation the Commission determines (Vice Chairman Alberger and Commissioner Ablondi dissenting and Commissioner Minchew not participating) that an industry in the United States is being or is likely to be injured by reason of the importation of rayon staple fiber from Belgium, which is being, or is likely to be, sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

In arriving at its determination, the Commission gave due consideration to all written submissions from interested parties and information adduced at the hearing as well as information provided by the Department of the Treasury and data obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

STATEMENT OF REASONS FOR THE AFFIRMATIVE DETERMINATION OF CHAIRMAN JOSEPH O. PARKER AND COMMISSIONERS GEORGE M. MOORE AND CATHERINE BEDELL

On May 2, 1978, the U.S. International Trade commission received advice from the Secretary of the Treasury (Treasury) that rayon staple fiber from Belgium is being, or is likely to be, sold in the United States at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on May 15, 1978, the Commission instituted investigation No. AA1921-181 under section 201(a) of said act to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established,[1] by reason of the importation of such merchandise sold at LTFV into the United States.

On July 21, 1978, the Commission received new and substantially different advice from the Secretary of the Treasury. The Secretary stated that he had reconsidered the basis for his fair-value comparisons relating to rayon staple fiber from Belgium. The earlier determination was modified, and the average weighted LTFV margin was increased from 6.7 to 57.6 percent. Therefore, on July 25, 1978, the Commission terminated investigation No. AA1921-181 without any determination and instituted a new investigation (AA1921-186) to determine whether an industry in the United States is being or is likely to be injured by reason of the importation of such merchandise into the United States.

recovered from the 1975 recession and earned $7.6 million net operating profit. This changed abruptly in 1977 when the domestic industry registered a $1.7 million net operating loss. In 1978 the financial difficulties of the domestic industry accelerated, and it lost nearly $3.0 million during January-March alone. U.S. domestic shipments of rayon staple fiber declined from 433 million pounds in 1976 to 424 million pounds in 1977. U.S. producers accumulated large inventories in 1977, increasing from 24.2 million pounds on December 31, 1976, to 47.3 million pounds on December 31, 1977, or by 95 percent.

The entry of Belgian rayon staple into the U.S. market in 1977 caused the domestic industry to lose sales. The effect of such imports might have been less consequential had U.S. consumption increased sufficiently to give both U.S. producers and importers a larger market in which to grow. However, in a declining or stagnant market which existed in 1977, increased import penetration was gained almost entirely at the expense of the domestic industry. With the rapid development of other manmade fibers, U.S. consumption of rayon staple declined from 890 million pounds in 1968 to 711 million pounds in 1973, and then fell to 391 million pounds in 1975. Consumption recovered somewhat in 1976 to 475 million pounds and remained virtually unchanged in 1977.

The sole U.S. importer of Beligian rayon staple sold rayon staple to three textile mills during the period January 1977-March 1978. In 1976 these firms purchased virtually all of their commodity rayon staple from a U.S. producer. During 1977 the bulk of these firms' purchases of such staple were supplied by LTFV imports from Belgium. This investigation disclosed that the importer undersold U.S. producers during the period January-September 1977 and that price was an important factor influencing the decisions of these textile mills to purchase imports.

The importer's pricing policy not only resulted in lost sales to the domestic industry, but it also contributed to the suppression of U.S. producers' prices. During January-June 1977 Belgian fiber entered the U.S. market selling at a price well below the average domestic price. In March 1977 the largest U.S. producer of rayon staple fiber announced that it would be increasing its list price from $0.58 per pound to $0.61 per pound, effective May 1977. A second U.S. producer announced a similar increase in list price. By mid-1977 the average domestic transaction price registered about $0.574, reflecting a $0.02-per-pound increase since October-December 1976. This price difference influenced some U.S. textile mills to shift to imports and forced U.S. producers, in an effort to retain market share, to reduce their prices. By October-December 1977 the U.S. producers which had increased their list prices rolled them back to $0.58 per pound. The average domestic price fell from $0.574 per pound in April-June 1977 to $0.557 per pound in April-May 1978.

The issue of likelihood of injury to the domestic industry primarily involves the ability and willingness of Fabelta, the Belgian producer, to export rayon staple fiber to the United States at LTFV. According to information received at the public hearing, Fabelta operated at about 77 percent of capacity in 1977. The difference between this level of operation and full capacity is an additional 15 million pounds of annual production of rayon staple. With the European market experiencing a prolonged slump in demand, Fabelta has an incentive to increase its exports to the United States. The very large LTFV margins (57.6 percent) applicable to Fabelta's exports to the United States strongly suggest that Fabelta is willing to make LTFV sales when it is necessary to do so in order to sell its staple.

CONCLUSION

On the basis of the information obtained in the Commission's investigation, we conclude that an industry in the United States is being injured or is likely to be injured by reason of the importation of rayon staple fiber from Belgium sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

[1] Prevention of the establishment of an industry is not an issue in this investigation and will not be discussed further.

STATEMENT OF REASONS FOR THE NEGATIVE DETERMINATION OF COMMISSIONER BILL ALBERGER [2]

In order for a Commissioner to make an affirmative determination in an investigation under the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), it is necessary to find that an industry in the United States is being or is likely to be injured, or is prevented from being established,[3] *and* the injury or likelihood thereof must be by reason of imports at less than fair value (LTFV).

DETERMINATION

On the basis of information obtained in this investigation, I determine that an industry in the United States is not being injured and is not likely to be injured by reason of the importation of rayon staple fiber from Belgium, which the Department of the Treasury (Treasury) has determined is being sold at LTFV.

THE IMPORTED ARTICLE AND THE DOMESTIC INDUSTRY

Rayon staple fiber is a manmade textile fiber, which resembles raw or unprocessed cotton. It is spun into yarn and then either woven or otherwise processed into a variety of end products. In this determination, I consider the relevant domestic industry to consist of the facilities in the United States devoted to the production of rayon staple fiber. Three U.S. firms currently produce rayon staple fiber.

LTFV SALES

U.S. imports from Belgium, which were negligible from 1973 through 1976, increased to 6.5 million pounds in 1977 and 1.4 million pounds during the first quarter of 1978. Price comparisons made by Treasury for the period February 1, 1977, through July 31, 1977, revealed that 100 percent of the rayon staple exported to the United States from Belgium was sold at LTFV, with a margin of 57.6 percent. Treasury had earlier reported margins of only 6.7 percent. Just prior to a scheduled vote on AA1921-181, Treasury notified the Commission that it had determined that sales in the home market were made at prices less than the cost of producing the merchandise and that lacking information with respect to sales to third countries constructed value was the appropriate basis for calculating fair value. Treasury then found the revised weighted average margin of 57.6 percent. While I was prepared to vote on this case on July 25, I joined my colleagues in voting to terminate the previous investigation without any determination, and to institute this new investigation—to allow time to consider the impact of this revised margin.

Counsel for the domestic industry has argued that these revised margins have great significance to the Commission. He contends that Treasury's finding shows purposeful intent to Fabelta of Belgium (the only company exporting rayon staple fiber to the United States from Belgium) to engage in unfair pricing practices designed to injure the domestic producers by eliminating them entirely or substantially reducing their productive capacity. Counsel points to case law proscribing sales below cost with predatory intent and urges that we should find affirmatively even if complainant has not demonstrated the extent and seriousness of the injury. He seems to be arguing that in cases where Treasury determines dumping margins by constructed value based on costs, the Commission can relax its injury standard.

I totally reject the contention that the Commission's injury determination in antidumping investigations may be altered by some inference of intent derived from comparison to costs of production. That would distort the purpose of the Antidumping Act and the type of legislative factfinding role the Commission plays in enforcing the Act. While counsel cites the Sherman Act, the Robinson-Patman Act, and the Federal Trade Commission Act as examples of laws prohibiting predatory pricing practices, the Antidumping Act was not designed to be such a measure. It prohibits international price discrimination but does not depend on a finding of intent. Our factfinding hearings are merely designed to uncover the indicia of injury and its causal relationship with LTFV sales, but do not equip us to adjudicate matters revolving around the intentions of the parties. In this case we have nothing more than mere allegations of intent. We cannot adopt the approach of a court, nor can we utilize formal, on the record adjudication, as we have under section 337 of the Tariff Act of 1930. While there is precedent under section 337 for prohibiting predatory pricing, the Commission has been mindful of the differences between that statute and the Antidumping Act.[4]

The Commission should not apply antitrust principles to its factfinding proceedings under the Antidumping Act. We should not make determinations that rest upon a presumption of illegality. My determination of injury under the Act will be confined to the record of this proceeding and established procedents.

THE QUESTION OF INJURY OR LIKELIHOOD BY REASON OF LTFV SALES

U.S. imports—From 1973 to 1977, total imports of rayon staple fiber have increased from 44.2 million pounds to 54.1 million pounds, and based on first quarter data for 1978, appear to be remaining at 1977 levels. Imports from Belgium were negligible during 1973-76, 6.5 million pounds in 1977, and 1.4 million pounds January-March 1978. This volume from Belgium accounted for 1.4 percent of apparent U.S. consumption in 1977 and 1.1 percent in the first quarter of 1978.

Production and shipments—Domestic production declined sharply from a high level of 660 million pounds in 1973 to a low of 350 million pounds in 1975, then recovered to 507 million pounds in 1977, and appears to be continuing to climb slightly in 1978, based only on first quarter data. U.S. producers' shipments followed a similar pattern during the past 5 years.

Capacity utilization—Domestic facilities producing rayon staple fiber operated at 84 percent of capacity in 1973 and 78 percent in 1974, before dropping to 49 percent during the 1975 recession. Capacity has dropped about 17 percent since 1974, and utilization has recently recovered to the 1974 level. The recovery appears to be continuing in 1978.

Exports—Substantial quantities of rayon staple fiber have been exported in recent years. U.S. exports increased from only 16.9 million pounds in 1973 to 33.8 million pounds in 1974, and then jumped to 59.4 million pounds in 1977. This quantity exceeds imports in 1977, and is about nine times the volume of LTFV imports from Belgium.

Inventories—The peak level of inventories during the period January 1973-March 1978 was reached at the end of 1974—67.3 million pounds. Inventories had dropped to 24.2 million by the end of 1976, but were up again by 47.3 million pounds on December 31, 1977, before dropping to 45.1 million pounds by March 13, 1978.

Consumption—Apparent consumption of rayon staple peaked in 1968 at 890 million pounds dropped to 711 million pounds in 1973 and then dropped to 391 million pounds in 1975. Much of this decline is due to competition from polyester and other manmade fibers. In 1976 and 1977, apparent consump-

[2] Commissioner Italo H. Ablondi concurs in the result.

[3] Prevention of the establishment of an industry is not an issue and will not be discussed further.

[4] See USITC Publication 863, In the Matter of Certain Welded Stainless Steel Pipe & Tube, Inv. No. 337-TA-29, p. 13-16; and USITC Publication 899, Welded Stainless Steel Pipe & Tube from Japan, Inv. No. AA1921-180, p. 12-14.

tion recovered to 475 and 478 million pounds, respectively.

Employment—The average number of production and related workers producing rayon staple fiber declined

sales are explained above, and inventories, while up from 1976, are well below 1975 levels. I simply cannot attribute the present profit situation of

system. The meeting is open to the public.

Anyone wishing additional information should contact Frank de la Fe,

personal in origin, are not within the purview of the act. Neither are deaths attributable to "stress and strain." Inhalation of carbon monoxide is considered a traumatic injury.

oxygen to the heart muscle. Dr. Aronow's research has also demonstrated that raising the arterial carboxyhemoglobin level from 1.09 percent to 6.34 percent lowered the ventricular fi-

positive correlation between CO levels in the atmosphere and the number of cardio-respiratory complaints received in the emergency room of Colorado General Hospital. On the basis of his

tion recovered to 475 and 478 million pounds, respectively.

Employment—The average number of production and related workers producing rayon staple fiber declined from 3,700 in 1973 and 1974 to 2,300 in 1975 before climbing to 2,700 in 1977. Employment during the first quarter of 1978 averaged 2,600, but man-hours worked increased from 5.7 million hours in 1977 to 5.9 million, on an annualized basis, in the first quarter of 1978.

Profits—Since 1974, when the aggregate net operating profit to net sales ratio was 13.4 percent, losses have been more prevalent than profits. Losses occurred in both 1975 and 1977, and the first quarter of 1978 looks even worse. Profits of 2.9 percent were realized in 1976. Not all domestic producers suffered losses in 1975, 1977, and 1978.

Prices—Price competition exists in three different ways in this investigation. Intense competition appears to exist between the three domestic producers, who accounted for between 94 percent and 89 percent of apparent consumption between 1973 and 1977. Obviously, competition also exists between importers and U.S. producers. A third area of price competition involves the interaction of rayon staple, polyesters, and other manmade fibers in the marketplace. While prices may appear low and suppressed since late 1974, the competition between substitute fibers appears to be an important factor. The imported product is generally priced below domestic staple, and the average net selling prices of imports from Belgium have been below similar domestic prices in each quarter since 1976. However, the Belgian product has never been the lowest priced imported product in any quarter.

Lost sales—There are three verified cases of lost sales in 1977, although they were not solely related to price. All three users mentioned quality problems with the domestic product.

Summary—Nineteen hundred and seventy-five was a horrible year for this industry, with sharp declines in production, shipments, capacity utilization, exports, employment, profits, and obviously consumption. Three were no measurable imports from Belgium until 1977. Since 1975, domestic production, shipments capacity utilization, and employment have made major recoveries and with the exception of employment are approaching 1974 levels. Exports have increased sharply to new record levels in 1978. Profits recovered in 1976, but have dropped badly since then. Consumption remains well below 1974 levels. The factors indicating some degree of injury, unrelated to the 1975 recession, are profits, prices, inventories, and lost sales. The price situation and the lost sales are explained above, and inventories, while up from 1976, are well below 1975 levels. I simply cannot attribute the present profit situation of U.S. producers to LTFV imports from Belgium and, therefore do not find injury by reason of such imports.

With respect to likelihood of injury, the only factor suggesting any future injury in the first quarter of 1978 is profits. Production, shipments, capacity utilization, consumption, and manhours worked are all up or steady. Inventories and imports from Belgium are down. The question of the capacity of Fabelta of Belgium to ship larger quantities at low prices to the United States must be addressed. Apparently Fabelta's idle capacity in 1977 could produce about three times as much rayon staple as was exported to the United States in that year. Import penetration from Belgium could increase to around 4 percent of apparent U.S. consumption, hardly an overwhelming level. Counsel for Fabelta stated that it has limited annual exports to the United States to no more than 9 million pounds, or slightly less than 2 percent of apparent consumption. There may be a slight possibility of some problems occurring in the future with respect to imports from Belgium but I certainly wouldn't classify it as a likelihood.

By order of the Commission.

Issued: September 12, 1978.

KENNETH R. MASON,
Secretary.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

NATIONAL MINORITY ADVISORY COUNCIL ON CRIMINAL JUSTICE

Date Changes of Meeting

This is to provide notice of change in dates of the meeting of the National Minority Advisory Council on Criminal Justice (NMACCJ).

The National Minority Advisory Council will hold its regular quarterly meeting on September 29-30, 1978 instead of September 22-23, 1978. The meeting will be held in the 13th Floor Conference Room of the Law Enforcement Assistance Administration (LEAA), 633 Indiana Avenue NW., Washington, D.C. 20531. The meeting is scheduled to run from noon until 6 p.m. on the 29th and from 9 a.m. until 3 p.m. on the 30th. The two sessions will center on review of the Council's final report on the national needs assessment of minorities and their relationship with the criminal justice system. The meeting is open to the public.

Anyone wishing additional information should contact Frank de la Fe, Project Monitor, 633 Indiana Avenue NW., Washington, D.C. 20531, telephone number 202-376-3868.

FRANK DE LA FE,
Project Monitor, National Minority Advisory Council on Criminal Justice.

[4410-18]

RELATIVE CONTRIBUTION OF CARBON MONOXIDE AND HEART DISEASES TO THE DEATH OF PUBLIC SAFETY OFFICERS

Meeting

On April 21, 1978, five leading medical experts on the toxic effects of carbon monoxide (CO) met in Washington with officials of the Law Enforcement Assistance Administration (LEAA) to offer advice on when CO inhalation should be considered a substantial factor in the deaths of firefighters and others whose survivors may be eligible for benefits under the Public Safety Officers' Benefits Act (PSOB). The experts were:

Wilbert S. Aronow, M.D., Chief, Cardiovascular Section of the Veterans Administration Hospital in Long Beach, Calif., Professor of Medicine, Professor of Pharmacology and Therapeutics, Professor of Community and Environmental Medicine, Vice-Chief, Cardiovascular Division, and Chief, Cardiovascular Research, University of California, Irvine;
Russell S. Fisher, M.D. Chief Medical Examiner of the State of Maryland;
Thomas L. Kurt, M.D., Associate Professor, Division of Cardiology, University of Colorado Medical Center;
Richard D. Stewart, M.D., Professor, Department of Environmental Medicine, Medical College of Wisconsin; and
Robert L. Thompson, M.D., Captain, U.S. Navy, Chairman, Department of Forensic Sciences, Armed Forces Institute of Pathology (AFIP).

Their advice was sought on a complex issue which arises regularly under the PSOB Act. Under the act, the eligible survivors of a public safety officer who dies as the direct and proximate result of a personal injury sustained in the line of duty are entitled to $50,000 in benefits. In accordance with the legislative history of the act, LEAA has determined that the "direct and proximate" requirement will be satisfied only when a traumatic injury is a "substantial factor" in the officer's death. To be a substantial factor, the injury must contribute to the death to as great a degree as any other contributing factor, such as a pre-existing chronic, congenital, or progressive disease. Deaths resulting from such diseases, whether occupational or

personal in origin, are not within the purview of the act. Neither are deaths attributable to "stress and strain." Inhalation of carbon monoxide is considered a traumatic injury.

Many of the firefighter deaths reviewed by LEAA have been attributable, in some degree, to chronic heart disease. In some of these cases, the toxicological examination of the victim at autopsy also revealed a higher than normal level of CO saturation in the blood. In order to properly decide the case, therefore, LEAA had to determine whether the CO level was so high as to warrant it being a substantial factor in the victim's death. A review of the medical literature and consultation with a variety of experts revealed that the relationship between CO exposure, heart disease, and death is complex and not yet fully understood even in the scientific community. In order to avail themselves of the best possible information, and more specifically, to develop a general guideline for coverage under the Act that was reasonable, fair, and supported by the most current expertise, LEAA staff responsible for administering the act asked the doctors listed above to share their knowledge with them.

Prior to the meeting, LEAA sent each doctor a letter explaining the act and its implementig regulations, and enclosed a number of relevant medical journal articles. A summary of the applicable law was presented again at the meeting.

The group, as a whole, cautioned LEAA that, for want of sufficient scientific knowledge, the subject was not yet capable of precise quantification. Each doctor was asked to present the results of his own research for the consideration and comment of the others.

Dr. Aronow informed the group that his research had demonstrated that rasing the venous carboxyhemoglobin (COHb) level from 1.03 percent to 2.68 percent aggravates angina pectoris. He also noted the similar conclusions reached by Dr. Anderson and associates, whose study demonstrated that increasing the venous COHb level from 1.3 percent to 2.9 percent aggravates angina pectoris. In addition, he cited a study by Cohen and associates which demonstrated an association between atmospheric CO pollution in Los Angeles and case fatality rates for patients with acute myocardial infarction admitted to 35 Los Angeles hospitals. Dr. Aronow explained that because CO has approximately 245 times a greater affinity for hemoglobin (Hb) than oxygen (O_2) does, CO inhibits the supply of oxygen to the heart muscle. Carbon monoxide also causes tighter binding of oxygen to hemoglobin, further decreasing the availability of oxygen to the heart muscle. Dr. Aronow's research has also demonstrated that raising the arterial carboxyhemoglobin level from 1.09 percent to 6.34 percent lowered the ventricular fibrillation threshold in dogs with experimentally induced acute myocardial injury. These effects combine to make the victim more vulnerable to heart attacks and to sudden death.

Dr. Fisher presented an analysis of carbon monoxide-related deaths that had been seen by his office. A substantial number of cases supported the generally accepted theory advanced by Dr. Aronow, but the largest group of cases showed that persons with serious heart disease tolerated CO saturation levels of well over 50 percent before dying. Other participants pointed out that some of those deaths could have occurred in air containing a very high content of carbon monoxide. In those circumstances, just a few breaths could have produced the high CO saturation percentages noted and a fatal episode of ventricular fibrillation.

Dr. Stewart explained the results of a study he performed on Milwaukee firefighters, which found that, after a fire, nonsmoking firefighters had a mean CO saturation of approximately 5 percent, and smokers approximately 11 percent. Before a fire, each group had levels of approximately 3 percent and 7 percent, respectively. Only 0.5 percent of those firefighters who averaged between 11 and 19 percent saturation experienced any coronary trouble. The saturation levels of the firefighters who died ranged from 2-89 percent.

Dr. Stewart also noted one problem that could result from setting too high a level of saturation as the "substantial factor" standard. The inhalation of high concentrations of CO can result in arterial blood with a toxic CO saturation reaching the brain, causing cerebral hypoxia. By the time that blood with the high CO saturation has circulated to the rest of the body, however, the percentage of CO in the venous blood would be reduced sharply. For example, inhalation of 10 percent CO for a few breaths could send blood to the brain that was 50 percent to 70 percent saturated. After several minutes of recirculation and no further exposure to CO, the venous blood might show a 5 percent saturation. If the hypoxia (which cannot be identified at autopsy) resulted in ventricular fibrillation and death, the relatively low CO level found at autopsy and the victim's preexisting heart disease could lead LEAA to improperly deny benefits in a case where CO inhalation was truly a substantial factor in the victim's death.

Dr. Kurt summarized two of his studies, one of which demonstrated a positive correlation between CO levels in the atmosphere and the number of cardio-respiratory complaints received in the emergency room of Colorado General Hospital. On the basis of his own experience and the preceding discussion, Dr. Kurt suggested 20 percent saturation as the level at which CO became a substantial factor in a death also contributed to by heart disease. He noted the level was consistent with Dr. Fisher's findings, and above the CO level found in even the heaviest smoker. He had originally suggested a sliding scale of benefits for carbon monoxide-related deaths starting at zero dollars in benefits for job-related deaths at 2 percent CO saturation and working up to $50,000 in benefits at 20 percent CO saturation and greater. Because the Act only permits the award of $50,000 or nothing, this concept could not be applied.

Discussion followed on whether different standards should be set for smokers and nonsmokers. The group agreed that the standard set should take into account the increased CO level in the blood of regular smokers. This increased level had been amply demonstrated by several studies, including Dr. Stewart's study of the Milwaukee firefighters. On the basis of that study, Dr. Stewart felt that 20 percent would be a substantial factor beyond a reasonable doubt, but that at 13 percent, there was still a likelihood that CO inhalation would be a major contributing factor to death. Dr. Kurt suggested a level of 15 percent saturation for both smokers and nonsmokers, with a benefit of the doubt given to nonsmokers with as low as 10 percent saturation. The group concurred in this recommendation, believing that most doctors familiar with the issue would find these figures generous to the victim's survivors.

On a later date, Dr. Fisher urged that LEAA consider a 20 percent level for smokers, and 13 percent for nonsmokers, respectively. However, given the imprecision of present scientific knowledge and the possibility, as recognized in his own findings, that CO saturation levels of less than 20 percent could be a substantial factor in a particular decedent's death, he concurred in the agreed standard.

The group was also asked to develop a method of estimating the CO saturation level in the blood at the onset of a fatal cardiac or pulmonary event, if resuscitative attemps resulted in reducing the level below the "substantial factor" level by the time of death. Dr. Stewart stated that the percentage of CO in a sedentary individual breathing air at sea level is reduced by 50 percent in 5 hours. The same person receiving 100 percent oxygen would eliminate 50 percent of the CO in his system in 90 minutes. Dr. Stewart of-

fered to provide LEAA with computer-generated tables specifying the percentage of CO reduction over a 12-hour period at 5-minute intervals. The charts would be prepared for persons

the New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C., room N-4437. The agenda for the meeting is as follows:

[4510-30]

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COM-

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of

4. Providing certified copies of Rules and Regulations or Standards to the Office of the State Archivist.

This decision is effective September 15, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29

fered to provide LEAA with computer-generated tables specifying the percentage of CO reduction over a 12-hour period at 5-minute intervals. The charts would be prepared for resuscitation by 21 percent oxygen (ambient air), 40 percent oxygen (nasal prongs), 85 percent oxygen (mask), and 100 percent oxygen (bag). Because the rate of elimination also varies slightly depending on the atmospheric pressure, Dr. Stewart also agreed to provide LEAA the appropriate charts for above sea level, under sea level, and sea level.

Reviewed and Approved:

Dr. Wilbert S. Aronow, Dr. Russell S. Fisher, Dr. Thomas L. Kurt, Dr. Richard D. Stewart, Dr. Robert L. Thompson.

On the basis of the group's recommendation, LEAA will find CO inhalation a substantial factor in a public safety officer's death when the decedent had a CO saturation level of 15 percent or greater at the time of the fatal event, or, if the decedent was a nonsmoker, a saturation level of 10 percent or greater. LEAA believes that the selection of these standards reflects the most advanced thought on this issue and comports with the requirement in the PSOB regulations that any reasonable doubt arising from the circumstances of the officer's death be resolved in favor of paying the benefit. See 28 CFR 32.4.

Benefits will be denied in cases meeting the above guideline only if the doctor performing the autopsy and the doctor reviewing the file on behalf of LEAA expressly agree that (1) CO inhalation was not a substantial factor in the death, or (2) the CO saturation level was not attributable to a personal injury, as defined in the LEAA regulations.

The tables provided by Dr. Stewart will be used to calculate the CO saturation level at the onset of the fatal event.

If any further information on this subject is needed, please contact Mr. William F. Powers, Director, Public Safety Officers' Benefits Program, LEAA, Washington, D.C. 20531.

JAMES M. H. GREGG,
Assistant Administrator,
Office of Planning and Management.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL

Meeting

The regular fall meeting of the Business Research Advisory Council will be held at 9:30 a.m., October 4, 1978, at the New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C., room N-4437. The agenda for the meeting is as follows:

1. Chairman's Opening Remarks—J. Frank Gaston.
2. Commissioner's Remarks—Janet L. Norwood, Acting Commissioner.
3. The Job Vacancy Program—Prospects and Plans.
4. Committee Reports: (a) Manpower and Employment, (b) Economic Growth; (c) Wages and Industrial Relations (a preview).
5. Other Business.
6. Chairman's Closing Remarks.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on area code 202-523-1559.

Signed at Washington, D.C. this 8th day of September 1978.

JANET L. NORWOOD,
Acting Commissioner of Labor Statistics.

[FR Doc. 78-25910 Filed 9-14-78; 8:45 am]

[4510-24]

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON WAGES AND INDUSTRIAL RELATIONS

Meeting

The BRAC Committee on Wages and Industrial Relations will meet at 2 p.m., October 4, 1978, at the General Accounting Office Building in room 4453, 441 G Street NW., Washington, D.C. The agenda for the meeting is as follows;

1. Work in Progress.
2. WIR Program Planning and Budget Cycles.
3. Status of Sub-Committee Work on Long-Range Program Plans.
4. Changing Structure of Employee Compensation.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on area code 202-523-1559.

Signed at Washington, D.C. this 8th day of September 1978.

JANET L. NORWOOD,
Acting Commissioner of Labor Statistics.

[4510-30]

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate, or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information petinent to the determinations which must be made regarding these applications are invited to submit such information in writing within 2 weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 11th day of September 1978.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

APPLICATIONS RECEIVED DURING THE WEEK ENDING SEPTEMBER 8, 1978

Name of applicant, location of enterprise, and principal product or activity: American Brass, Inc., Headland, Ala., manufacture of brass and bronze ingot.

[FR Doc. 78-26023 Filed 9-14-78; 8:45 am]

[4510-26]

Occupational Safety and Health Administration

UTAH STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State Plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 10, 1973, notice was published in the FEDERAL REGISTER (38 FR 1178) of the approval of the Utah Plan and the adoption of Subpart E to Part 1952 containing the decision.

The Utah Plan provides for the adoption of Federal Standards as State Standards by:

1. Advisory Committee recommedation.
2. Publication in newspapers of general/major circulation with a 30-day waiting period for public comment and hearing(s).
3. Commission order adopting the standards and designating an effective date.
4. Providing certified copies of Rules and Regulations or Standards to the Office of the State Archivist.

Section 1952.113 of subpart E sets forth the State's schedule for adoption of Federal Standards. By letters dated June 1, 1978, from Ronald L. Joseph, Acting Administrator, Utah Occupational Safety and Health Division, to Curtis A. Foster, Regional Administrator, and incorporated as part of the Plan, the State submitted rules and regulations concerning 29 CFR 1910.1045 for Occupational Exposure to Acrylonitrile (Vinyl Cyanide), 43 FR 2586, Tuesday, January 17, 1978. These standards which are contained in the Utah Occupational Safety and Health Rules and Regulations for General Industry, were promulgated per the requirements of Utah Code annotated 1953, Title 63-46-1, and in addition, published in newspapers of general/major circulation throughout the State. No public comment was received and no hearings held. The Emergency Temporary Standard for Occupational Exposure to Acrylonitrile (Vinyl Cyanide) was adopted by the Industrial Commission of Utah, Archives File Number 2727 on May 3, 1978, pursuant to Title 35-9-6 Utah Code Annotated 1953.

2. *Decision.* The State submission having been reviewed in comparison with the Federal Standards, it has been determined that the State Standards are identical to the Federal Standards and accordingly should be approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Room 1554, Federal Office Building, 1961 Stout Street, Denver, Colo. 80294; Utah State Industrial Commission, UOSHA Offices at 448 South 400 East, Salt Lake City, Utah 84111; and the Technical Data Center, Room N2439R, Third and Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Utah State Plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

The Standards were adopted in accordance with the procedural requirements of State law which permitted public comments, and further public participation would be repetitious.

This decision is effective September 15, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1808 (29 U.S.C. 667).)

Signed at Denver, Colo., this 18th day of August 1978.

CURTIS A. FOSTER,
Regional Administrator.

WYOMING STATE STANDARDS

Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State Plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On May 3, 1974, notice was published in the FEDERAL REGISTER (39 FR 15394) of the approval of the Wyoming Plan and the adoption of Subpart BB to Part 1952 containing the decision.

The Wyoming Plan provides for the adoption of Federal standards as State standards after public hearings. Section 1953.23(a)(2) of 29 CFR provides that whenever a Federal standard is promulgated, the State must adopt or promulgate a standard or standard change which will make the State standard at least as effective as the Federal standard or change within 6 months of the Federal promulgation or change. In response to Federal standard changes, the State has submitted by letter dated July 14, 1978, from Donald G. Owsley, Health and Safety Administrator, to Curtis A. Foster, Regional Administrator, and incorporated as part of the plan, State standards comparable to 29 CFR 1910.401, 29 CFR 1910.410, 29 CFR 1910.411, 29 CFR 1910.420, 29 CFR 1910.421, 29 CFR 1910.422, 29 CFR 1910.423, 29 CFR 1910.424, 29 CFR 1910.430, 29 CFR 1910.440 and 29 CFR 1910.441 Commercial Diving Operations which was published in the FEDERAL REGISTER (42 FR 37650), Friday, July 22, 1977. These standards, which are contained in the Wyoming Occupational Safety and Health Rules and Regulations for General Industry, were promulgated after hearings held on March 17, 1978, and by resolution

adopted by the Wyoming Occupational Health and Safety Commission on May 12, 1978, and became effective on

certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

[4510-28]

[TA-W-3517]

lead prices (31 cents by U.S. producers versus 25 cents by the LME), which may have prompted some U.S. customers to purchase abroad. Also from Feb-

All workers at the Vanadium mine of ASARCO, Inc., Vanadium, N. Mex., who became totally or partially separated from employment on or after January 1, 1978, are

ports to domestic production ratio increased from 14.1 percent in the first quarter of 1977 to 19.5 percent for the same period in 1978.

adopted by the Wyoming Occupational Health and Safety Commission on May 12, 1978, and became effective on July 6, 1978, pursuant to section 27-278, Wyoming Statutes 1957, as amended 1973.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards.

3. *Location of supplements for inspection and copying.* A copy of the standards supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, Occupational Safety and Health Administration, Room 1554, Federal Building, 1961 Stout Street, Denver, Colo. 80294; the Occupational Health and Safety Department, 200 East Eighth Avenue, Cheyenne, Wyo. 82001; and the Technical Data Center, Room N2439R, Third and Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2(c) of 29 CFR Part 1953, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Wyoming State Plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reason:

The standards were adopted in accordance with the procedural requirements of State law, which included public comments, and further public participation would be unnecessary.

This decision is effective September 15, 1978.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Denver, Colo., this 8th day of August 1978.

CURTIS A. FOSTER,
Regional Administrator.

Office of the Secretary

[TA-W-3725]

APEX GLOVE CO., MILWAUKEE, WIS.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3725: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 18, 1978 in response to a worker petition received on May 15, 1978 which was filed by the Amalgamated Clothing & Textile Workers Union on behalf of workers producing work gloves at Apex Glove Co., Milwaukee, Wis.

The notice of investigation was published in the FEDERAL REGISTER on June 13, 1978 (43 FR 25498-9). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Apex Glove Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

On May 28, 1976, the Department issued a certification of eligibility to apply for worker adjustment assistance applicable to workers at Apex Glove Co. (TA-W-710). That certification expired on May 28, 1978—2 years from its date of issuance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. The investigation revealed that, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both of the firm or subdivision have decreased absolutely.

Value of sales by Apex Glove Co. increased in January-June 1978 from the same period in 1977. Production increased in January-June 1978 from the same period in 1977. Production increased in the fourth quarter of 1977 and first two quarters of 1978 compared to the same quarter of the previous year.

CONCLUSION

After careful review, I determine that workers of Apex Glove Co., Milwaukee, Wis. are denied eligibility to apply for adjustment assistance under title II, chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 6th day of September 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3517]

ASARCO, INC., VANADIUM, N. MEX.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3517: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 18, 1978, in response to a worker petition received on April 5, 1978, which was filed by the United Steelworkers of America on behalf of workers and former workers mining zinc at the Vanadium mine of ASARCO, Inc., Vanadium, N. Mex. During the course of the investigation it was established that lead is also mined.

The notice of investigation was published in the FEDERAL REGISTER on May 2, 1978 (43 FR 18789). No public hearing was requested and none was held. The information upon which the determination was made was obtained principally from officials of ASARCO, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, the U.S. Department of the Interior, *The American Metal Market, Metal Bulletin, Metals Week,* industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of refined and recovered lead increased from 101 thousand short tons in 1975 to 147 thousand short tons in 1976 and then increased to 264 thousand short tons in 1977. Imports increased from 47 thousand short tons in the first quarter of 1977 to 66 thousand short tons for the same period in 1978. The import to domestic production ratio increased from 7.8 percent in 1975 to 10.7 percent in 1976 and then to 19.7 percent in 1977. The import to domestic production ratio increased from 14.1 percent in the first quarter of 1977 to 19.5 percent for the same period in 1978.

Imports of lead are affected by the differential between domestic producers' prices and the price of lead on the London Metal Exchange (LME). Generally, prices charged by domestic producers range from 2 to 4 cents per pound above LME prices. When the LME price drops more than the 2 to 4 cents per pound below the domestic producer' prices, there is increased demand for imported lead. In August 1977 there was a 6-cent difference in lead prices (31 cents by U.S. producers versus 25 cents by the LME), which may have prompted some U.S. customers to purchase abroad. Also from February-April 1978 lead prices on the LME have ranged from 6.5 to 7.0 cents per pound lower than those charged by U.S. producers. Consequently, imports of refined and recovered lead increased 79.6 percent from 1976 to 1977 and 40.4 percent in the first quarter of 1978 when compared to the same period in 1977, while domestic production of lead has remained fairly constant in 1977 and in the first quarter of 1978.

U.S. imports of slab zinc increased from 380,437 short tons in 1975 to 714,489 short tons in 1976 before declining to 555,147 short tons in 1977. Imports increased from 121,120 short tons in the first quarter of 1977 to 155,998 short tons for the same period in 1978. The import to domestic production ratio increased from 76.7 percent in 1975 to 127.0 percent in 1976 and then to 127.9 percent in 1977. The import to domestic production ratio increased from 94.0 percent in the first quarter of 1977 to 152.1 percent for the same period in 1978.

Imports of zinc are affected by the differential between the domestic price of zinc established by U.S. producers and the price established by the LME (London Metal Exchange). When the LME price drops more than the estimated transportation cost of 5 cents per pound below the producers' price, the demand for imported zinc increases. Except for brief periods in the spring of 1976 and in March 1977, the price differential between U.S. producers and the LME has exceeded 5 cents per pound. The average U.S. producer price for zinc was 7.6 cents higher than the average LME zinc price in 1977 and 7.1 cents higher in the first quarter of 1978. This is well above the 5-cent limit at which domestic suppliers can remain competitive. Consequently, in the first quarter of 1978 when many domestic zinc producers curtailed production because of the depressed market price of zinc, imports of slab zinc increased 28.8 percent when compared to the same period in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the lead and zinc produced at the Vanadium mine of ASARCO, Inc., Vanadium, N. Mex., contributed importantly to the decline in sales and production and to the total or partial separation of workers at the mine. In accordance with the provisions of the act, I make the following certification:

All workers at the Vanadium mine of ASARCO, Inc., Vanadium, N. Mex., who became totally or partially separated from employment on or after January 1, 1978, are eligible to apply for adjustment assistance under title II, chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3518]

ASARCO, INC., DEMING, N. MEX.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3518: Investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on April 18, 1978, in response to a worker petition received on April 5, 1978, which was filed by the United Steelworkers of America on behalf of workers and former workers producing zinc at the Deming Mill of ASARCO, Inc., Deming, N. Mex. During the course of the investigation it was established that lead is also produced.

The Notice of Investigation was published in the FEDERAL REGISTER on May 2, 1978 (43 FR 18789). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of ASARCO, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, the U.S. Department of the Interior, *The American Metal Market, Metal Bulletin, Metals Week,* industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of refined and recovered lead increased from 101 thousand short tons in 1975 to 147 thousand short tons in 1976 and then increased to 264 thousand short tons in 1977. Imports increased from 47 thousand short tons in the first quarter of 1977 to 66 thousand short tons for the same period in 1978. The imports to domestic production ratio increased from 7.8 percent in 1975 to 10.7 percent in 1976 and to 19.7 percent in 1977. The imports to domestic production ratio increased from 14.1 percent in the first quarter of 1977 to 19.5 percent for the same period in 1978.

Imports of lead are affected by the differential between domestic producers' prices and the price of lead on the London Metal Exchange (LME). Generally, prices charged by domestic producers range from 2 to 4 cents above LME prices. When the LME price drops more than 2 to 4 cents per pound below the domestic producers' price, the demand for imported zinc increases. Except for brief periods in the spring of 1976 and in March 1977, the price differential between U.S. producers and the LME has exceeded 5 cents per pound. The average U.S. producer price for zinc was 7.8 cents higher than the average LME zinc price in 1977 and 7.1 cents higher in the first quarter of 1978. This is well above the 5-cent limit at which domes-

tic suppliers can remain competitive. Consequently, in the first quarter of 1978 when many domestic zinc producers curtailed production because of the depressed market price of zinc, imports of slab zinc increased 28.8 percent when compared to the same period in 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the lead and zinc produced at the Deming Mill of ASARCO, Inc., Deming, N. Mex., contributed importantly to the decline in sales and production and to the total or partial separation of workers at the mill. In accordance with the provisions of the Act, I make the following certification:

All workers at the Deming Mill of ASARCO, Inc., Deming, N. Mex., who became totally or partially separated from employment on or after January 1, 1978, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3070]

BENNETT MANUFACTURING CO., NEW HAVEN, IND.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3070: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on February 7, 1978, in response to a worker petition received on January 31, 1978, which was filed by Amalgamated Clothing & Textile Workers Union on behalf of workers and former workers producing tailored suits and sport coats at Bennett Manufacturing Co., New Haven, Ind. During the course of the investigation it was determined that women's skirts and blouses are also produced at the plant.

The notice of investigation was published in the FEDERAL REGISTER on February 24, 1978 (43 FR 7744). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Bennett Manufacturing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

U.S. imports of women's, misses' and children's suits decreased from 412 thousand dozen in 1975 to 408 thousand dozen in 1976 and further decreased to 384 thousand dozen in 1977. U.S. imports of women's, misses' and children's skirts decreased from 791 thousand dozen in 1976 to 654 thousand dozen in 1977. U.S. imports of women's, misses' and children's blouses and shirts have declined relative to domestic production from 1976 to 1977.

A Departmental survey was conducted of manufacturers representing nearly all Bennett Manufacturing Co. contract work. The consensus among the respondents was that imports have had a negligible effect upon the markets they serve and any changes in purchasing patterns were due to shifts in consumer preference of style and fabric and general decreases in demand for knitted dresses and suits.

CONCLUSION

After careful review I determine that all workers of Bennett Manufacturing Co., New Haven, Ind., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3574]

BROWN SHOE CO., CARUTHERSVILLE, MO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3574: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 4, 1978, in response to a worker petition received on April 25, 1978, which was filed on behalf of workers and former workers producing ladies' shoes at the Caruthersville, Mo. plant of the Brown Shoe Co.

The Notice of Investigation was published in the FEDERAL REGISTER on May 23, 1978 (43 FR 22087). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Brown Shoe Co., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales of ladies' shoes at the Caruthersville, Mo. plant of Brown Shoe Co. increased 11.3 percent, in quantity, from 1975 to 1976, 11.2 percent from 1976 to 1977 and 3.9 percent in the first half of 1978 compared to the same period of 1977. Production increased 12.7 percent, in quantity, from 1975 to 1976, 10.2 percent from 1976 to 1977 and 2.4 percent in the first half of 1978 compared to the same period of 1977.

CONCLUSION

After careful review I determine that all workers at the Caruthersville, Mo. plant of the Brown Shoe Co. are denied eligibility to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington D.C., this 6th day of September 1978.

[TA-W-3746]

CORNELIUS WEISS CO., INC., BROOKLYN, N.Y.

Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on May 23, 1978, in response to a worker petition received on May 15, 1978, which was filed on behalf of workers and former workers producing women's slacks at the Brooklyn, N.Y. plant of Cornelius Weiss Co., Inc.

The Notice of investigation was published in the FEDERAL REGISTER on June 6, 1978 (43 FR 24633-34). No public hearing was requested and none was held.

The petitioner, the Amalgamated Clothing and Textile Workers Union, requested withdrawal of this petition. The basis for the withdrawal was that the petition was filed in error. Consequently, the investigation has been terminated.

Signed at Washington, D.C., this 30th day of August 1978.

HAROLD A. BRATT,
Acting Director, Office of Trade Adjustment Assistance.

[4510-28]

[TA-W-3590]

H & D SPORTSWEAR, INC., WEST PATERSON, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3590: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats and jackets at H & D Sportswear, Inc., West Paterson, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of H & D Sportswear, Inc., its customers (manufacturers), the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of section 222 of the act must be met. The Department's investigation revealed that all of the requirements have been met.

U.S. imports of women's, misses', and children's coats and jackets increased from 2,252 thousand dozen in 1976 to 2,723 thousand dozen in 1977. Imports declined from 590 thousand dozen in the first quarter of 1977 to 572 thousand dozen in the first quarter of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

The Office of Trade Adjustment Assistance conducted a survey of the principal manufacturers for which H & D Sportswear worked in 1976, 1977, and 1978. Manufacturers who accounted for a majority of sales in 1976, and 1977, reduced purchases from H & D Sportswear in the May 1977 through April 1978 period compared to the like period of the previous year. The manufacturers increased purchases of imported ladies' coats and jackets in the May 1977 through April 1978 period compared to the like period of the previous year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the ladies' coats and jackets produced at H & D Sportswear, Inc., West Paterson, N.J. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of H & D Sportswear, Inc., West Paterson, N.J. who became totally or partially separated from employment on or after June 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3793 & 3793A]

INTERDATA DIVISION OF THE PERKIN-ELMER CORP., OCEANPORT AND OAKHURST, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3793 and 3793A: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 31, 1978, in response to a worker petition received on May 26, 1978, which was filed on behalf of all workers producing cables for computers at the Oceanport, N.J. plant of the Interdata Division of the Perkin-Elmer Corp. The petition was expanded to include workers at the Oakhurst, N.J. plant since the company operates the two plants as a single production unit. The investigation revealed that workers at the Oceanport and Oakhurst plants produce minicomputers.

The Notice of Investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26497). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Perkin-Elmer Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales of minicomputers and other software at the Oceanport and Oakhurst, N.J. plants of the Interdata Division of the Perkin-Elmer Corp. increased in 1977 compared to 1976 and increased in the first 5 months of 1978 compared to the same period in 1977. Production data was not provided. Sales approximate production.

CONCLUSION

After careful review, I determine that all workers of the Oceanport and Oakhurst, N.J. plants of the Interdata Division of the Perkin-Elmer Corp. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

[TA-W-3834]

UNITED STATES STEEL CORP., PITTSBURGH, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3834: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 26, 1978, in response to a worker petition received on June 23, 1978, which was filed on behalf of workers at the Fairless Works, Fairless Hills, Pa. plant of the United States Steel Corp.

The Notice of Investigation was published in the FEDERAL REGISTER on July 11, 1978 (43 FR 29844). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the United States Steel Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the group eligibility requirements of section 222 have been met.

U.S. imports of steel mill products increased from 15,791 thousand tons in 1976 to 17,431 thousand tons in 1977. Imports declined from 4,911 thousand tons in the first quarter of 1977 to 4,000 thousand tons in the first quarter of 1978. The ratio of imports to domestic production increased from 15.1 percent in 1976 to 16.7 percent in 1977.

The Office of Trade Adjustment Assistance conducted a survey of the principal manufacturers for which United States Steel Corp. worked in 1976, 1977, and 1978. Manufacturers who accounted for a majority of sales in 1976, and 1977, reduced purchases from United States Steel Corp. in the May 1977 through April 1978 period compared to the like period of the previous year. The manufacturers increased purchases of imported steel mill products in the May 1977 through April 1978 period compared to the like period of the previous year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with steel mill products produced at the Fairless Works, Fairless Hills, Pa. plant of United States Steel Corp. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Fairless Works, Fairless Hills, Pa. plant of United States Steel Corp. who became totally or partially separated from employment on or after June 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3834: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 26, 1978, in response to a worker petition received on June 23, 1978, which was filed on behalf of workers at the Fairless Works, Fairless Hills, Pa. plant of the United States Steel Corp.

The Notice of Investigation was published in the FEDERAL REGISTER on July 11, 1978 (43 FR 29844). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the United States Steel Corp., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the group eligibility requirements of section 222 have been met.

U.S. imports of steel mill products increased from 15,791 thousand tons in 1976 to 17,431 thousand tons in 1977. Imports declined from 4,911 thousand tons in the first quarter of 1977 to 4,000 thousand tons in the first quarter of 1978. The ratio of imports to domestic production increased from 15.1 percent in 1976 to 16.7 percent in 1977.

The Office of Trade Adjustment Assistance conducted a survey of the principal manufacturers for which United States Steel Corp. worked in 1976, 1977, and 1978. Manufacturers who accounted for a majority of sales in 1976, and 1977, reduced purchases from United States Steel Corp. in the May 1977 through April 1978 period compared to the like period of the previous year. The manufacturers increased purchases of imported steel mill products in the May 1977 through April 1978 period compared to the like period of the previous year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with steel mill products produced at the Fairless Works, Fairless Hills, Pa. plant of United States Steel Corp. contributed importantly to the decline in sales and to the separation of workers at that plant. In accordance with the provisions of the act, I make the following certification:

All workers of the Fairless Works, Fairless Hills, Pa. plant of United States Steel Corp. who became totally or partially separated from employment on or after June 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc. 78-25921 Filed 9-14-78; 8:45 am]

certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on March 28, 1978, in response to a worker petition received on March 13, 1978, which was filed on behalf of workers and former workers of Silver King Mining & Milling Co., Inc., producing zinc ore at the Yellowhead Mine, Metaline Falls, Wash.

The Notice of investigation was published in the FEDERAL REGISTER on April 11, 1978 (43 FR 15205). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from Silver King Mining & Milling Co., Inc., its customers, *Metals Week, Metal Bulletin*, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

Silver King Mining & Milling Co., Inc., along with another firm, mined the Yellowhead Mine of the Bunker Hill Co. Silver King produced zinc ore which was hauled to the concentrator at the Pend Oreille Mine nearby where it was made into zinc concentrate. The concentrate was taken by Bunker Hill to its refineries in Kellogg, Idaho and refined into zinc and sold.

The ratio of imports of slab zinc to domestic production increased from 76.7 percent in 1975 to 127.0 percent in 1976 and 127.9 percent in 1977.

Industry sources maintain that domestic suppliers of zinc can remain competitive with foreign suppliers as long as the domestic price is within 5 cents per pound of the London Metal Exchange price. Except for brief periods in the spring and summer of 1976 and 1977, the price differential between U.S. producers and the LME has exceeded 5 cents per pound. The average U.S. production price for zinc was 7.6 cents per pound higher than the average LME zinc price in 1977, well above the 5-cent limit at which domestic suppliers can remain competitive.

Evidence developed during the course of the investigation indicates that imports of refined zinc metal have been an important factor affecting domestic sales of zinc and depressing the price of zinc. The depressed price of zinc has brought about a reduction in the domestic production of refined zinc and has resulted in cutbacks and shutdowns at many mines and concentrators producing zinc concentrate, among them, the Yellowhead Mine, Metaline Falls, Wash.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with zinc ore produced at the Yellowhead Mine, Metaline Falls, Wash. by Silver King Mining & Milling Co., Inc., Usk, Wash. contributed importantly to the decline in production and to the total or partial separations of workers of that firm. In accordance with the provisions of the act, I make the following certification:

All workers of Silver King Mining & Milling Co., Inc., Usk, Wash., who were engaged in employment related to the production of zinc ore at the Yellowhead Mine, Metaline Falls, Wash. who became totally or partially separated from employment on or after May 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

[TA-W-3844]

TARA KNITTING MILLS, INC., BROOKLYN, N.Y.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3844: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 14, 1978, in response to a worker petition received on June 12, 1978, which was filed by the International Ladies Garment Workers Union on behalf of all workers producing ladies dresses, suits and sportswear at the Brooklyn, N.Y. plant of Tara Knitting Mills, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27924). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Tara Knitting Mills, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses', and children's dresses were recorded at 371,000 dozen in the first quarter of 1977 and increased by 8.6 percent in the first quarter of 1978 to 403,000 dozen.

U.S. imports of women's, misses', and children's suits were recorded at 62,000 dozen in the first quarter of 1977 and increased by 67.7 percent to 104,000 dozen in the first quarter of 1978.

The Department conducted a survey of the major customer buying ladies suits and dresses from Tara Knitting Mills. In mid-year 1977 that customer drastically reduced purchases from Tara and began to import ladies suites and dresses. By 1978 this customer had totally ceased buying from Tara and depended primarily on imports as a source for ladies suits and dresses.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's knitwear produced by Tara Knitting Mills, Inc., Brooklyn, N.Y., contributed importantly to the sales or production declines and to the total or partial separation of workers at the plant. In accordance with the provisions of the act, I make the following certification:

All workers of Tara Knitting Mills, Inc., Brooklyn, N.Y., who became totally or partially separated from employment on or after November 6, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3797]

UNITECH CHEMICAL CO., ST. JOSEPH, MO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In Accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3797: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 31, 1978, in response to a worker petition received on May 23, 1978, which was filed by the National Brotherhood of Packinghouse & Industrial Workers on behalf of workers and former workers producing bone glue at the St. Joseph, Mo. plant of Unitech Chemical Co.

The Notice of Investigation was published in the FEDERAL REGISTER on June 20, 1978 (43 FR 26479). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Unitech Chemical Co., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

The petition received by the Office of Trade Adjustment Assistance alleges that major layoffs occurred at the St. Joseph plant of Unitech Chemical Co., during 1975. In accordance with section 223(b) of the act, no certification may apply to any worker whose last total or partial separation from the subject firm occurred more than 1 year prior to the date of the petition. Since the date of the petition in this case is May 23, 1978, workers of the St. Joseph plant who were separated from employment prior to May 23, 1977, would not be eligible to apply for adjustment assistance.

Shipments of bone glue by the St. Joseph, Mo., plant of Unitech Chemical Co. increased in both quantity and value in 1977 from 1976 and during January-May 1978 compared to January-May 1977. Compared to the same quarter of the previous year, production increased during four consecutive quarters from the second quarter of 1977 through the first quarter of 1978.

CONCLUSION

After careful review, I determine that workers of the St. Joseph, Mo., plant of Unitech Chemical Co. are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3834]

UNITED STATES STEEL CORP., AIRCRAFT DIVISION, PITTSBURGH, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-3834: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on June 12, 1978, in response to a worker petition received on June 7, 1978, which was filed by three workers on behalf of all workers at the Pittsburgh, Pa., facility of the Aircraft Division of the United States Steel Corp.

The Notice of Investigation was published in the FEDERAL REGISTER on June 27, 1978 (43 FR 27925). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of United States Steel Corp. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. It is concluded that all of the group eligibility criteria have been met.

Average facility employment began to decline in November 1977 and declined in the first half of 1978 compared to the like 1977 period.

The petitioners maintain and operate a fleet of company-owned planes which are primarily utilized to transport officials of the Steel Division of the United States Steel Corp. This transportation activity is necessary to the support of the operations of the Steel Division. Workers engaged in the production of a significant percentage of the Steel Division's total 1976 production of steel have previously been certified eligible to apply for adjustment assistance benefits. See Department determinations for adjustment assistance cases: TA-W-1292, 1431, 1433, 1438, 1439, 1444, 1447, 1449, 1451, 1452, 2135, 2588, 2836, and 3205. The certifications for the above cases will expire between March 18, 1979 and April 6, 1980, depending upon the date of certification of the individual cases.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increasesd imports of articles like or directly competitive with the steel products produced at the various United States Steel Corp. plants that have already been certified eligible for adjustment assistance have contributed importantly to the total or partial separation of workers at the Pittsburgh, Pa., facility of the Aircraft Division of the United States Steel Corp. as required for certification under section 222 of the Trade Act of 1974. In accordance with the provisions of the act, I make the following certification:

All employees of the Pittsburgh, Pa., facility of the aircraft division of the United States Steel Corp. who became totally or partially separated from employment on or after November 1, 1977, are eligible to apply for adjustment assistance benefits under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 6th day of September 1978.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-3655]

VINCO FASHIONS, INC., JERSEY CITY, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-3655: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the act.

The investigation was initiated on May 8, 1978, in response to a worker petition received on April 28, 1978, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' coats and raincoats at Vinco Fashions, Inc., Jersey City, N.J.

The Notice of Investigation was published in the FEDERAL REGISTER on May 26, 1978 (43 FR 22793). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Vinco Fashions, Inc., its manufacturers, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met.

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial

will conclude at 1 p.m. on September 24.

TENTATIVE AGENDA—SEPTEMBER MEETING

Opportunities in the Private Sector" on October 20, 1978, in the Mount Vernon Room of the Sheraton Carlton

V 43 / 180 SEP 15 78

That increases of imports of articles like or directly competitive with articles produced by the firm or subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales or production.

A survey of the manufacturers who purchased ladies' coats and raincoats produced at Vinco Fashions, Inc., indicated that these manufacturers have not reduced purchases from the subject firm. Since the company was founded in August 1976, a comparison of sales and production figures from 1976 to 1977 is only valid for the period from September-December. Sales and production, in quantity, as well as employment, increased in the last four months of 1977 compared to the same period in 1976. Sales, production and employment also increased in the first 5 months of 1978 compared to the same period in 1977. Although sales and production declined in the first quarter of 1978 compared to the first quarter of 1977, employment increased during this period. Increased employment in the first quarter of 1978 is reflected in increased sales and production recorded in April and May 1978.

CONCLUSION

After careful review I determine that all workers at Vinco Fashions, Inc., Jersey City, N.J., are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington D.C., this 6th day of September 1978.

HARRY J. GILMAN,
Acting Director, Office of Foreign Economic Research.

NATIONAL COMMISSION FOR MANPOWER POLICY

MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770) notice is hereby given that the National Commission for Manpower Policy will sponsor a conference on "Creating Job Opportunities in the Private Sector" on October 20, 1978, in the Mount Vernon Room of the Sheraton Carlton Hotel located at 16th and K Streets NW., Washington, D.C. The conference will convene at 9 a.m. and adjourn at 5 p.m.

The National Commission for Manpower Policy was established pursuant to Title V of the Comprehensive Employment and Training Act of 1973 (Pub. L. 92-203). The Act charges the Commission with the broad responsibility of advising the Congress, the President, the Secretary of Labor, and other Federal agency heads on national manpower issues. The Commission is specifically charged with reporting annually to the President and the Congress on its findings and recommendations with respect to the Nation's manpower policies and programs.

The agenda will be concerned with employer wage subsidies; increasing youth employment in the private sector; the structurally unemployed and potential ways of increasing their private sector employment; and private employers' perspective of policies for disadvantaged workers.

Members of the general public or other interested individuals may attend the conference as observers. Members of the public desiring to submit written statements to the Commission that are germane to the agenda may do so, provided such statements are in reproducible form and are submitted to the Director no later than two days before and seven days after the meeting.

Additionally, members of the general public may request to make oral statements to the Commission to the extent that the time available for the conference permits. Such oral statements must be directly germane to the announced agenda items and written applications must be submitted to the Director of the Commission 3 days before the conference. This application shall identify the following: The name and address of the applicant, the subject of his or her presentation and its relationship to the agenda; the amount of time requested; the individuals' qualifications to speak on the subject matter; and a statement as to why a written presentation will not suffice. The Chairman reserves the right to decide to what extent public oral presentation will be permitted at the conference. Oral presentations shall be limited to statements of fact and views and shall not include any questions of Commission members or other participants unless these questions have been specifically approved by the Chairman.

Minutes of the conference, working papers and other documents prepared for the conference will be available for

public inspection 5 working days after the conference at the Commission's headquarters located at 1522 K Street NW., Room 300, Washington, D.C.

Signed at Washington, D.C., this 5th day of September 1978.

ISABEL V. SAWHILL,
Director, National Commission for Manpower Policy.

[FR Doc. 78-25928 Filed 9-14-78; 8:45 am]

[4510-30]

MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770) notice is hereby given that the National Commission for Manpower Policy will sponsor a 2-day conference on Work Time and Employment on October 6 and October 7, 1978, in the North Ballroom of the Capitol Hill Quality Inn, located at 415 New Jersey Avenue NW., Washington, D.C. The conference will begin at 9 a.m. and adjourn at 5 p.m. on both days.

The National Commission for Manpower Policy was established pursuant to Title V of the Comprehensive Employment and Training Act of 1973 (Pub. L. 92-203). The Act charges the Commission with the broad responsibility of advising the Congress, the President, the Secretary of Labor, and other Federal agency heads on national manpower issues. The Commission is specifically charged with reporting annually to the President and the Congress on its findings and recommendations with respect to the Nation's manpower policies and programs.

The conference will explore the viability of combating unemployment by reducing work time in order to spread jobs among a larger number of persons. The session on October 6 will deal with four papers which examine the basic premises of combating unemployment by reduced work time. These papers will deal with work time trends, work time decisions of individuals and firms, and the long range effects of using work time reductions to fight unemployment. The session on October 7 will focus on four papers concerning alternative policy options for sharing work. These options include short-time compensations, tax incentives to firms to cover added fixed labor costs incurred by work time reductions, amendment of the Fair Labor Standards Act to limit overtime and reduce the standard work week, and earlier retirement ages to reduce the size of the labor force. The papers will be verbally summarized by the authors, critiqued by selected discussants, then discussed by a panel of authors, discussants and invited participants.

Members of the general public or other interested individuals may attend the conference as observers. Members of the public desiring to submit written statements to the Commission that are germane to the agenda may do so, provided such statements are in reproducible form and are submitted to the Director no later than 2 days before and 7 days after the meeting.

Additionally, members of the general public may request to make oral statements to the Commission to the extent that the time available for the conference permits. Such oral statements must be directly germane to the announced agenda items and written applications must be submitted to the Director of the Commission 3 days before the conference. This application shall identify the following: The name and address of the applicant, the subject of his or her presentation and its relationship to the agenda; the amount of time requested; the individual's qualifications to speak on the subject matter; and shall include a justifying statement as to why a written presentations would not suffice. The Chairman reserves the right to decide to what extent public oral presentation will be permitted at the conference. Oral presentations shall be limited to statements of fact and views and shall not include any questions of commission members or other participants unless these questions have been specifically approved by the Chairman.

Minutes of the conference, working papers and other documents prepared for the conference will be available for public inspection 5 working days after the conference at the Commission's headquarters located at 1522 K Street NW., Room 300, Washington, D.C.

Signed at Washington, D.C. this 5th day of September 1978.

ISABEL V. SAWHILL,
Director, National Commission for Manpower Policy.

NATIONAL COMMISSION ON UNEMPLOYMENT COMPENSATION

MEETING

NOTE.—This document originally appeared in the FEDERAL REGISTER for Wednesday, September 13, 1978. It is reprinted in this issue at the request of the Department of Labor.

The seventh meeting of the NCUC will be held in the Westward Hilton Hotel, Anchorage, Alaska, on September 22, 23, and 24. The meeting will begin at 9 a.m. on September 22 and will conclude at 1 p.m. on September 24.

TENTATIVE AGENDA—SEPTEMBER MEETING

FRIDAY, SEPTEMBER 22 (9 A.M.)

1. NCUC meeting with executive board and other members of Interstate Conference of Employment Security Agencies (ICESA). The topics for discussion include: Cost equalization, reinsurance, pension deductions, agricultural workers, substitute teachers, solvency standards, taxable wage base and tax rate under FUTA, duration period, administrative financing. 9 a.m.-5:30 p.m.

SATURDAY, SEPTEMBER 23 (9 A.M.)

2. Continuation of NCUC meeting with ICESA. 9 a.m.-1 p.m.
3. Commission discussion of first interim report. 2:15 p.m.-5:30 p.m.

SUNDAY, SEPTEMBER 24 (9 A.M.)

4. Continuation of discussion of first interim report. 9 a.m.-11:30 a.m.
5. Commission business session. 11:30 a.m.-1 p.m.
   a. Legislative report.
   b. Old business.
   c. New business.

Telephone inquiries and communications concerning this meeting should be directed to: James M. Rosbrow, Executive Director, National Commission on Unemployment Compensation, Room 440, 1815 Lynn Street, Rosslyn, Va. 22209, phone 703-235-2782.

Signed at Washington, D.C., this 7th day of September 1978.

JAMES M. ROSBROW,
Executive Director, National Commission on Unemployment Compensation.

NATIONAL COMMUNICATIONS SYSTEM

TELECOMMUNICATIONS: DIGITAL COMMUNICATION PERFORMANCE PARAMETERS

Proposed Federal Standard 1033

The Administrator of the General Services Administration (GSA) is responsible, under the provisions of the Federal Property and Administrative Services Act of 1949, as amended, for the Federal standardization program. On August 14, 1972, the national communications system (NCS)[1] was designated by the Administrator, GSA, as the responsible agent for the development of telecommunication standards for NCS interoperability and the computer-communications interface. The Federal Telecommunication Standards Committee (FTSC) was established

[1] DOD Directive 5100.41, "Arrangements for Discharge of Executive Agent Responsibilities for the NCS"—filed as part of original document.

under the administration of NCS to accomplish this mission. Additionally, the Secretary of Commerce is authorized, under the provisions of Pub. L.

PURPOSE OF SUBCOMMITTEE: To advise the Division of Polar Programs on the development and conduct of a

NAME: Subcommittee on Sociology of the Advisory Committee for Social Sciences.

under the administration of NCS to accomplish this mission. Additionally, the Secretary of Commerce is authorized, under the provisions of Pub. L. 89-306, to develop and establish uniform Federal automatic data processing standards.

The proposed Federal standard is part of a series of joint Federal telecommunication standards and Federal information processing standards (FIPS) falling within the area of mutual responsibility to the NCS and National Bureau of Standards (NBS) as defined in FIPS, PUB 23,[2] and NCS Circular 175-1.[3]

The purpose of this standard is to facilitate interoperability between telecommunication systems and information processing systems of the Federal Government by establishing uniform, user-oriented means of specifying the performance of digital telecommunication systems and services acquired by Federal departments and agencies. A previous version of this standard was published in the FEDERAL REGISTER, volume 42—No. 35, February 22, 1977, to solicit comments prior to formal coordination. The revised versin of the standard incorporates, where possible, the thrust of the comments received. Copies of this standard may be obtained from:

Office of the Manager, National Communications System, Attention: NCS-TS, Washington, D.C. 20305.

Prior to submission of the final endorsement of this proposed Federal standard and the companion FIPS publication to the Department of Commerce (DOC); the Office of Science and Technology Policy (OSTP), and GSA, it is essential that proper consideration is given to the needs and views of industry, the public, and State and local governments. The purpose of this notice is to solicit such views. Interested parties may submit their comments to the Office of the Manager, National Communications System, Attention: NCS-TS, Washington, D.C. 20305. All comments should be submitted within 60 days of the date of this notice. Telephone inquiries should be directed to Mr. Dennis Bodson, 202-692-2124.

PRESTON D. HIX,
Colonel, USA,
Acting Deputy Manager.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Services, Department of Defense.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

MUSIC ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-163), is amended, notice is hereby given that a meeting of the Music Advisory Panel (Planning Section) to the National Council on the Arts will take place October 4, 1978, from 9:30 a.m. to 5:30 p.m.; October 5, 1978, from 9:30 a.m. to 5 p.m., in Washington, D.C. Location to be determined.

A portion of this meeting will be open to the public on October 4, 1978, from 9:30 a.m. to 1 p.m., and October 5, 1978, from 9:30 to 11 a.m., and from 1 to 5 p.m. The topic of discussion will be the ensemble program and future program directions.

The remaining sessions of this meeting on October 4, 1978, from 1 to 5:30 p.m., and October 5, 1978, from 11 a.m. to 1 p.m., are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1966, is amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER March 17, 1977, these sessions will be closed to the public pursuant to subsections (c) (4), (6), and 9(b) of section 552b of Titie 5, United States Code.

Futher information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6070.

JOHN H. CLARK,
Director, Office of Council and Panel Operation, National Endowment for the Arts.

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR BEHAVIORAL AND NEURAL SCIENCES, SUBCOMMITTEE ON PSYCHOBIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

NAME: Subcommittee on Psychobiology of the Advisory Committee for Behavioral and Neural Sciences.

DATE AND TIME: October 12 and 13, 1978—8:30 a.m. to 5 p.m. each day.

PLACE: Room 321, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETING: Closed.

CONTACT PERSON: Fred Stollinitz, Program Director, Psychobiology Program, Room 320, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4264.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning support for research in psychobiology.

AGENDA: To review and evaluate research proposals as part of the selection process for awards.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: September 12, 1978.

M. REBECCA WINKLER,
Committee Management Coordinator.

ADVISORY COMMITTEE FOR ENVIRONMENTAL BIOLOGY, SUBCOMMITTEE ON ECOLOGICAL SCIENCES

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting:

NAME: Subcommittee on Ecological Sciences of the Advisory Committee for Environmental Biology.

DATE AND TIME: October 12 and 13, 1978—8:30 a.m. to 5 p.m. each day.

PLACE: Room 338, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETING: Closed.

CONTACT PERSONS: Dr. George W. Cox, Program Director, Ecology Program, 202-632-7324, and Dr. Melvin I. Dyer, Program Director, Ecosystem Studies Program, 202-632-5854, Room 336, National Science Foundation, Washington, D.C. 20550.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning support for research in ecological sciences.

AGENDA: To review and evaluate research proposals as part of the selection process for awards.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, inlcuding technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: September 12, 1978.

M. REBECCA WINKLER,
Committee Management Coordinator.

ADVISORY COMMITTEE FOR POLAR PROGRAMS, SUBCOMMITTEE ON BIOLOGY AND MEDICINE

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation announces the following meeting:

NAME: Subcommittee on Biology and Medicine of the Advisory Committee for Polar Programs.

DATE AND TIME: October 3, 1978—9 a.m. to 5 p.m.

PLACE: Room 628, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETING: Part open—9:00 to 2:00, open; 2:00 to 3:00, ciosed; 3:00 to 5:00, open.

CONTACT PERSON: Dr. Francis S. L. Williamson, Program Manager, Room 623, National Science Foundation, Washington, D.C. 20550, 202-632-4162.

PURPOSE OF SUBCOMMITTEE: To advise the Division of Polar Programs on the development and conduct of a variety of programs including the behavioral and physiological adaptation of organisms to low temperatures, the structure and functioning of marine and terrestrial ecosystems, the monitoring of pollutants, biological resource assessments, environmental and technological change on living systems, biomedical research, the roie of remote sensing in biological studies, and the development of international cooperation in polar research.

AGENDA: 9 a.m. to 12 noon, open: Status of and plans for the Antarctic research program; status of and plans for the Arctic research program; subcommittee discussion of above items. 1:30 to 2 p.m., open: Budget trends. 2 to 3 p.m., closed: Review of two research proposals. 3 to 5 p.m., open: discussion of budget trends related to program planning; and recommendations.

SUMMARY MINUTES: May be obtained from the Committee Management Coordinator, Room 248, Division of Financial and Administrative Management, National Science Foundation, Washington, D.C. 20550.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to made such determinations by the Acting Director, NSF, on February 18, 1977.

Dated: September 12, 1978.

M. REBECCA WINKLER,
Committee Management Coordinator.

ADVISORY COMMITTEE FOR SOCIAL SCIENCES, SUBCOMMITTEE ON SOCIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Science Foundation annouces the following meeting:

NAME: Subcommittee on Sociology of the Advisory Committee for Social Sciences.

DATE AND TIME: October 12 and 13, 1978—9 a.m. to 5 p.m. each day.

PLACE: Room 628, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

TYPE OF MEETING: Part open—October 12, 9 a.m. to 5 p.m., closed; October 13, 9 a.m. to 12:30 p.m., closed; October 13, 12:30 to 3 p.m., open; October 13, 3 p.m. to 5 p.m., closed.

CONTACT PERSON: Dr. Roland J. Liebert, Program Director, Sociology Program, National Science Foundation, Washington, D.C. 20550, telephone 202-632-4204.

SUMMARY MINUTES: May be obtained from the Committee Management Coordinator, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning research support in sociology.

AGENDA: October 13, 12:30 to 3 p.m., open session: General discussion of computer technology and other equipment advances relevant to sociology, of standards for assessing need for equipment, and of research topics which deserve special emphasis. October 12, 9 a.m. to 5 p.m. and October 13, 9 a.m. to 12:30 p.m. and October 13, 3 to 5 p.m., closed sessions: To review and evaluate research proposals as part of the selection process for awards.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON REACTOR FUEL

Meeting

The ACRS Subcommittee on Reactor Fuel will hold an open meeting on October 4, 1978, in Room 1046, 1717 H Street NW., Washington, D.C. 20555, to continue its review of NRC research on reactor fuel for consideration by the ACRS in its preparation of a report to Congress.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977 (42 FR 56972), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the designated Federal employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

WEDNESDAY, OCTOBER 4, 1978

4 P.M. UNTIL THE CONCLUSION OF BUSINESS

The subcommittee may meet in executive session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to discuss the subcommittee's preparation of a report to the full committee on reactor fuel research.

At the conclusion of the executive session, the subcommittee will hear presentations by and hold discussions with representatives of the NRC staff and their consultants, pertinent to the above topics. The subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether additional meetings on this topic are necessary.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by a prepaid telephone call to the designated Federal employee for this meeting, Dr. Thomas G. McCreless, telephone 202-634-3267, between 8:15 a.m. and 5 p.m., e.d.t.

Dated: September 12, 1978.

John C. Hoyle,
Advisory Committee Management Officer.

[7590-01]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON IMPROVED SAFETY SYSTEMS

Meeting

The ACRS Subcommittee on Improved Safety Systems will hold an open meeting on October 4, 1978, in Room 1167, 1717 H Street NW., Washington, D.C. 20555, to discuss the NRC plan for research to improve the safety of light-water nuclear powerplants.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977 (42 FR 56972), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the designated Federal employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

WEDNESDAY, OCTOBER 4, 1978

MEETING WILL COMMENCE AT 8:30 A.M.

The subcommittee may meet in executive session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting and to discuss the Subcommittee's preparation of a report to the full Committee on improved safety systems.

At the conclusion of the executive session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC staff and their consultants, pertinent to the above topics. The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and whether additional meetings on this topic are necessary.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by a prepaid telephone call to the designated Federal employee for this meeting, Dr. Thomas G. McCreless, telephone 202-634-3267, between 8:15 a.m. and 5 p.m., e.d.t.

Dated: September 12, 1978.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON RELIABILITY AND PROBABILISTIC ASSESSMENT

Meeting

The ACRS Subcommittee on Reliability and Probabilistic Assessment will hold an open meeting on October 4, 1978, in room 1167, 1717 H Street

NW., Washington, D.C. 20555, to continue its review of the NRC Office of Nuclear Regulatory Research programs in risk assessment.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977 (42 FR 56972), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by memnbers of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

WEDNESDAY, OCTOBER 4, 1978

1 P.M. UNTIL THE CONCLUSION OF BUSINESS

The Subcommittee may meet in executive session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting.

At the conclusion of the executive session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, and their consultants, pertinent to the agenda items. The Subcommittee may then caucus to determine whether the matters identified in the initial session have been adequately covered and to formulate a report and recommendations to the full Committee.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the designated Federal employee for this meeting, Mr. Robert L. Wright, Jr., telephone 202-634-3314, between 8:15 a.m. and 5 p.m., e.d.t.

Dated: September 12, 1978.

[Docket No. 50-325]

CAROLINA POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 14 to facility operating license No. DPR-71, issued to Carolina Power & Light Co. (the licensee) for operation of the Brunswick Steam Electric Plant, Unit No. 1 (the facility), located in Brunswick County, N.C. The amendment is effective as of its date of issuance.

The amendment raises the lift settings of the safety-relief valves by 25 psi.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated August 14, 1978, as supplemented August 30, 1978, (2) amendment No. 14 to license No. DPR-71, and (2) the Commission's related safety evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Southport-Brunswick County Library, 109 West Moore Street, Southport, N.C. 28461. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 11th day of September 1978.

For the Nuclear Regulatory Commission.

THOMAS A. IPPOLITO,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc. 78-26000 Filed 9-14-78; 8:45 am]

[7590-01]

[Docket No. 50-155]

CONSUMERS POWER CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 20 to facility operating license No. DPR-6, issued to the Consumers Power Co. (the licensee), which revised the technical specifications for operation of the Big Rock Point Plant (the facility) located in Charlevoix County, Mich. The amendment is effective as of its date of issuance.

The amendment consists of changes to the technical specifications to increase the interval between control rod withdrawal time tests.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated July 28, 1978, (2) amendment No. 20 to license No. DPR-6, and (3) the Commission's related safety evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Charlevoix Public Library, 107 Clinton Street, Charlevoix, Mich. 49720.

A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Director, Division of Operating Reactors.

V 4

Dated at Bethesda, Md., this 1st day of September 1978.

For the Nuclear Regulatory Com-

nection with issuance of this amendment.

For further details with respect to

set forth in CR-3's technical specifications, the ECCS cooling performance for the facility would conform with

termined that to meet the limits of 10 CFR 50.46(b), operator action is required to open the manually operated

lution to the ECCS small break analysis problem. This submittal references the B. & W. summary of May 1, 1978,

dures will not endanger life or property or the common defense and security.

Dated at Bethesda, Md., this 1st day of September 1978.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[7590-01]

[Docket No. 50-302]

FLORIDA POWER CORP. ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued amendment No. 16 to facility operating license No. DPR-72, issued to the Florida Power Corp., city of Alachua, city of Bushnell, city of Gainesville, city of Kissimmee, city of Leesburg, city of New Smyrna Beach and Utilities Commission, city of New Smyrna Beach, city of Ocala, Orlando Utilities Commission and city of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the city of Tallahassee (the licensees) which revised the technical specifications for operation of the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Fla. The amendment is effective as of the date of issuance.

This amendment revises the technical specifications to support operation of Crystal River Unit No. 3 during the remainder of cycle 1 with 4 fuel assemblies acquired from Oconee Unit 1 and without burnable poison rod assemblies and most orifice rod assemblies. In addition, quadrant power tilt limits are changed to compensate for increased detector uncertainties and administrative use of revised reactor coolant pressure-temperature limits has been reviewed.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not invlove a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated June 6, and July 21, 1978, (2) amendment No. 16 to license No. DPR-72, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Crystal River Public Library, Crystal River, Fla. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 1st day of September 1978.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Operating Reactors.

[Docket No. 50-302]

FLORIDA POWER CORP., ET AL. (CRYSTAL RIVER UNIT NO. 3, NUCLEAR GENERATING PLANT)

Exemption

I

Florida Power Corp. and 11 other coowners are the holders of facility operating license No. DPR-72 which authorizes the operation of the nuclear power reactor known as Crystal River Unit No. 3, Nuclear Generating Plant (CR-3), at steady state reactor power levels not in excess of 2,452 megawatts thermal (rated power). The facility consists of a Babcock & Wilcox (B. & W.) designed pressurized water reactor (PWR) located at the licensees' site in Citrus County, Fla.

II

In accordance with the requirements of the Commission's emergency core cooling system (ECCS) acceptance criteria, 10 CFR 50.46, Florida Power Corp. (FPC) submitted on August 6, 1974, an ECCS evaluation for the facility. The ECCS performance submitted by FPC was based upon an ECCS evaluation model developed by B. & W., the designer of the nuclear steam supply system for this facility. The B. & W. ECCS evaluation model had been previously found to conform to the requirements of the Commission's ECCS acceptance criteria, 10 CFR Part 50.46, and appendix K. The evaluation indicated that with the limits set forth in CR-3's technical specifications, the ECCS cooling performance for the facility would conform with the criteria contained in 10 CFR 50.46(b) which govern calculated peak clad temperture, maximum cladding oxidation, maximum hydrogen generation, coolable geometry and long-term cooling.

On April 12, 1978, B. & W. informed the NRC that it had determined that in the event of a small break loss of coolant accident (LOCA) on the discharge side of a reactor coolant pump, high pressure injection (HPI) flow to the core could be reduced somewhat. Subsequent calculations indicated that in such a case the calculated peak clad temperature might exceed 2,200° F.

Previous small break analyses for B. & W. 177 fuel assembly (FA) lowered loop plants had identified the limiting small break to be in the suction line of the reactor coolant pump. Recent analyses have shown that the discharge line break is more limiting than the suction line break. As a result, it was necessary that operating B. & W. plants of this design provide justification and propose restrictions as necessary to continue operating. Since CR-3 was shutdown at that time, and has been since March 3, 1978, to conduct repairs resulting from burnable poison rod assembly failures, no immediate action was necessary.

CR-3 has an ECCS configuration which consists of two HPI trains. Each train has a HPI pump and injects into two of the four reactor coolant system (RCS) cold legs on the discharge side of the RCS pump. (There is also a third HPI pump installed.) The two parallel HPI trains are connected but are kept isolated by a manual valve (known as a crossover valve) that is normally closed. Upon receiving a safety injection signal, the HPI pumps are started and valves in the four injection lines are opened. Assuming loss of offsite power and the worst single failure, only one HPI pump and two of the four injection paths would be available.

If a small break is postulated to occur in the RCS piping between the RCS pump discharge and the reactor vessel, the HPI flow injected into this line (about 50 percent of the output of one HPI pump) could flow out the break. Therefore, for the worst combination of break location and single failure, only 50 percent of the flow rate of a single HPI pump would contribute to maintaining the coolant inventory in the reactor vessel. This situation had not been previously analyzed and B. & W. had indicated that the limits specified in 10 CFR 50.46 may be exceeded.

B. & W. has stated that they have analyzed a spectrum of small breaks in the pump discharge line and have determined that to meet the limits of 10 CFR 50.46(b), operator action is required to open the manually operated crossover valve and to manually align the motor driven isolation valves which had failed to open. This would allow the flow from the HPI pump to feed all four reactor coolant legs. B. & W. has assumed that 30 percent of the flow would be lost through the break and 70 percent would enter the core.

B. & W. has prepared and submitted a summary entitled "Analysis of Small Breaks in the Reactor Coolant Pump Discharge Piping for the V. & W. Lowered Loop 177 FA Plants," May 1, 1978 (the B. & W. summary), which describes the methods used and the results obtained in the above analysis. The analysis models operator action by assuming a step increase in flow to the reactor vessel (with balanced flow in the three intact loops) 10 minutes after the LOCA reactor protection system trip signal occurs.

The results of the B. & W. analyses for reactor coolant pump discharge line break sizes of 0.17, 0.15, 0.13, 0.1, 0.07, and 0.04 ft^2 at a reactor power level of 2,568 Mwt were presented in the B. & W. summary of May 1, 1978. This power level is representative of the full power rating of similar B. & W.-designed reactors and encompasses the 2,452 Mwt full power rating of CR-3. Based on these results, B. & W. states that with operator action consistent with that modeled in the analysis, a 0.13 ft^2 discharge line break is the most limiting case. In this case, core uncovery occurs for about 350 seconds and the conservatively calculated peak clad temperature is approximately 1,550° F. This temperature is well below the limit specified in 10 CFR 50.46(b).

Based on our review of the B. & W. analyses, we found that the calculations supported the conclusion that a 0.13 ft^2 discharge line break is the most limiting case. However, the analyses did not demonstrate that the assumptions employed in supplying heat inputs to the FOAM Code (a part of the approved B. & W. model) were conservative. Therefore, B. & W. was requested to justify the use of these assumptions. By letter dated August 11, 1978, B. & W. submitted a report which describes and compares the simplified and detailed input methods for the FOAM analyses. We have reviewed this report and have determined that the assumptions used in supplying heat inputs are conservative and the use of the simplified input in the FOAM calculations meets the requirement for calculations using an approved model.

By letter dated June 14, 1978, FPC submitted justification for restart and operation of CR-3 at rated power prior to implementation of a permanent solution to the ECCS small break analysis problem. This submittal references the B. & W. summary of May 1, 1978, stating that the results are applicable to CR-3, and presents procedural modifications to describe how the required operator actions have been instituted. These procedural changes regarding operator action are consistent with the assumptions of the B. & W. analysis and have been implemented. The letter also states that shift review and simulator training will be conducted on the changes. FPC has stated that this action has been completed. Based on the above, we conclude that the procedures implemented and the training conducted by FPC relative to operator action in the event of a small break are acceptable and allow reliance on prompt operator action for an interim period. We do not, however, consider the need to assume prompt operator action outside the control room to be in compliance with 10 CFR 50.46.

Reliance on prompt local operation of valves after the onset of a LOCA is not desirable on a permanent basis. FPC has, by letter dated July 21, 1978, as supplemented on July 27, 1978, proposed a permanent solution for this issue. We are currently reviewing this proposal.

Due to our inability to conclude that operation of CR-3 to 100 percent of licensed power would be in conformance with 10 CFR 50.46, and due to the pending restart of the facility, FPC was requested by telephone on July 24, 1978, to either provide an acceptable ECCS for resumption of cycle 1 operation or request an exemption from the provisions of 10 CFR 50.46 with justification to support licensing of CR-3 operation.

By letter dated August 4, 1978, FPC requested an exemption from the provisions of 10 CFR 50.46. FPC states that CR-3 can be operated to 100 percent rated power in full compliance with 10 CFR 50.46; however, to assure this, prompt operator actions as described in FPC's June 14, 1978, letter are necessary. FPC also states that improvements to the ECCS prior to restart of CR-3 would not be feasible and therefore the exemption has been requested.

We have reviewed the effects of changes made to the facility during the current outage and have concluded that operation of CR-3 at power levels of up to 2,452 Mwt and in accordance with the operating procedures of this exemption, will assure that the ECCS system will conform to the performance criteria of 10 CFR 50.46. Accordingly, until modifications are completed to achieve full compliance with 10 CFR 50.46, operation of the facility at power levels up to 2,452 Mwt with appropriate operating procedures will not endanger life or property or the common defense and security.

In the absence of any safety problem associated with the facility during the period until the modifications for achieving full compliance with 10 CFR 50.46 are completed, there appears to be no public interest consideration favoring undue restriction of the operation of the captioned facility. Accordingly, the Commission in accordance with 10 CFR 50.12 is appropriate. The specific exemption has determined that an exemption is limited to the period of time necessary to complete modifications regarding the ECCS system, but no later than the next scheduled refueling outage, currently scheduled to begin on May 1, 1979.

III

Copies of the following documents are available for inspection at the Commission's Public Document Room at 1717 H Street, Washington, D.C. 20555, and are being placed in the Commission's local public document room at the Crystal River Public Library, Crystal River, Fla.

(1) B. & W. Report "Analysis of Small Breaks in the Reactor Coolant Pump Discharge Piping for the B. & W. Lowered Loop 177 FA Plants" dated May 1, 1978,

(2) FPC's justification for restart and interim operation dated June 14, 1978,

(3) The application for exemption dated August 4, 1978,

(4) B. & W. comparison of amplified and detailed input methods for FOAM analysis dated August 11, 1978, and

(5) This exemption in the matter of Florida Power Corp., at al., Crystal River Unit No. 3 Nuclear Generating Plant.

IV

Wherefore, in accordance with the Commission's regulations as set forth in 10 CFR 50.12, Florida Power Corp. is hereby granted an exemption from the provisions of 10 CFR Part 50, paragraph 50.46(a). With respect to Crystal River Unit No. 3, this exemption is conditioned as follows:

(1) Until further authorization by the Commission, Florida Power Corp. shall operate in accordance with the procedures described in its letter of June 14, 1978.

(2) This exemption shall be terminated upon completion of the modifications in accordance with this exemption or upon shutdown for the next scheduled refueling outage, whichever occurs first.

Dated at Bethesda, Md., this 1st day of September 1978.

For the Nuclear Regulatory Commission.

VICTOR STELLO, Jr.,
Director, Office of Inspection and Enforcement.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Waste Disposal; Meeting

In accordance with the purposes of sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards, Subcommittee on Waste Disposal will hold a meeting on October 3, 1978, in room 1046, 1717 H Street, NW., Washington, D.C. 20555.

The agenda for the subject meeting shall be as follows:

Tuesday, October 3, 1978—8:30 a.m. until the conclusion of business

The Subcommittee will discuss the Waste Isolation Safety Assessment Program (WISAP) and the Waste Isolation Flow and Transport Program (WIFT). Representatives of the Nuclear Regulatory Commission staff and its contractors will participate in the discussions.

Persons desiring to attend or present oral statements should notify Mr. Paul Boehnert, Executive Secretary of the Subcommittee (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m., EDT, as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. The use of still, motion picture, and television cameras during the meeting may be permitted, subject to the approval of the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a prepaid telephone call to the Executive Secretary of the Subcommittee prior to the meeting. In view of the possibility that the schedule for Subcommittee meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the Executive Secretary if such rescheduling would result in major inconvenience.

Dated: September 12, 1978.

JOHN C. HOYLE,
Advisory Committee Management Officer.

REGIONAL STATE LIAISON OFFICERS

Meeting

On October 24 and 25, 1978, the Nuclear Regulatory Commission will sponsor a meeting with State Liaison Officers in Maine, New Hampshire, Vermont, Massachusetts, New York, Connecticut, Rhode Island, Pennsylvania, Maryland, Delaware, and New Jersey to discuss mutual regulatory interests. Forty-nine Governors have appointed Liaison Officers to NRC and this will be the first meeting of officers from the States in NRC region I (King of Prussia, Pa). The meeting, which will be open to the public, will be held on October 24th from 1 to 5:30 p.m. and on October 25 from 8:30 a.m. to 3:15 p.m. at the Holiday Inn, 260 Goddard Boulevard, King of Prussia, Pa.

Questions regarding this meeting should be directed to Tom Elsasser, NRC's Regional Liaison Officer, at 215-337-1150.

Dated at Bethesda, Md., this 11th day of September 1978.

For the Nuclear Regulatory Commission.

ROBERT G. RYAN,
Director Office of State Programs.

OFFICE OF MANAGEMENT AND BUDGET

PRIVACY ACT

Notice of New Systems

The purpose of this notice is to give members of the public an opportunity to comment on Federal agency proposals to establish or alter personal data systems subject to the Privacy Act of 1974.

The Act states that "each agency shall provide adequate advance notice to Congress and the Office of Management and Budget of any proposal to establish or alter any system of records in order to permit an evaluation of the probable or potential effect of such proposal on the privacy and other personal or property rights of individuals * * *."

OMB policies implementing this provision require agencies to submit reports on proposed new or altered systems to Congress and OMB 60 days prior to the issuance of any data collection forms or instructions, or 60 days prior to the issuance of any requests for proposals for computer and communications systems or services to support such systems—whichever is earlier.

The following reports on new or altered systems were received by OMB between August 21 and September 1, 1978. Inquiries or comments on the proposed new systems or changes to existing systems should be directed to the designated agency point-of-contact and a copy of any written comments provided to OMB. The 60 day advance notice period begins on the report date indicated.

DEPARTMENT OF JUSTICE

System name: Swine Flu Administrative Claim File System.

Report date: August 16, 1978.

Point-of-contact: Ms. Bronson Clayton, Administrative Counsel, Office of Management and Finance, Department of Justice, Washington, D.C. 20240.

Summary: This proposed system will be maintained by the Civil Division as a record of claims filed for damages resulting from reactions to the swine flu vaccine. Although the Department of Health, Education, and Welfare receives the claims and makes the final decision, the Justice Department makes recommendations on their disposition. The records will include information submitted by individuals supporting their damage claims. Information may be disseminated on a routine use basis to agencies, courts, or parties involved in litigation regarding the claims; to agencies involved in law enforcement investigations related to the information; and to the public, media, and other organizations for educational/informational purposes, without individual identifiers.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

System name: Mortgagee Activities Review System.

Report date: August 16, 1978.

Point-of-contact: Mr. Harold Rosenthal, Department of Housing and Urban Development, Washington, D.C. 20410.

Summary: This proposed system will be used to evaluate the qualifications of those who apply to be HUD approved mortgagees. The record subjects will be the directors, officers, and managers of applicant firms; their educational, professional, and employment history will be included on a voluntary basis.

DEPARTMENT OF THE INTERIOR

System name: Personnel Research Records.

Report date: August 17, 1978.

Point-of-contact: Mr. Warren Dahlstrom, Department of the Interior, Washington, D.C. 20240.

Summary: This system, established earlier in 1978, is being modified to eliminate disclosure of records to law enforcement agencies for investigation and prosecution purposes, in order to reflect concerns of Subcommittee on Government Information and Individual Rights of the House Government Operations Committee.

DEPARTMENT OF DEFENSE

System name: AMEDD Personnel Management System.

Report date: August 21, 1978.

Point-of-contact: Mr. William Cavaney, Defense Privacy Board, Forrestal Building, 1000 Independence Avenue, Washington, D.C. 20301.

Summary: This proposed system will include records on officers in the Army Medical Corps, as well as those who have applied for or recently been released from active duty with the Corps. The records, which will include personal, professional, and background information data, will be part of an automated system used to improve personnel management, including duty assignments, patient care, position vacancies, and training requirements.

DEPARTMENT OF ENERGY

System name: Participants in Experiments, Studies and Surveys.

Report date: August 25, 1978.

Point-of-contact: Milton Jordan, Department of Energy, Washington, D.C. 20585.

Summary: This proposed system will include a number of DOE surveys, studies, and experiments, which will be subsystems of the overall system. DOE has determined that a continuing single notice will be more informative and efficient than a series of notices being added and deleted at frequent intervals. The first three subsystems will consist of survey responses on the Annual Survey of Oil and Gas Reserves; National Interim Residential Study; and Residential Energy Consumption Survey.

DEPARTMENT OF DEFENSE

System name: Mailing Lists for Army Newspapers/Periodicals.

Report date: August 28, 1978.

Point-of-contact: Mr. William Cavaney, Department of Defense, Washington, D.C. 20301.

Summary: The Army Department proposes to consolidate current mailing lists for Army newspapers, newsletters, professional and trade publications, journals, and other special interest periodicals.

System name: Drug Rehabilitation Action Management Information Program.

Report date: August 28, 1978.

Point-of-contact: Mr. William Cavaney, Department of Defense, Washington, D.C. 20301.

Summary: The Strategic Air Command maintains a drug rehabilitation program for Air Force active duty military personnel who are identified as drug users. This proposed system will be used to follow those individuals' progress and to support personnel management actions regarding the individuals.

WAIVER REQUESTS

OMB procedures permit a waiver of the advance notice requirement when the agency can show that the delay caused by the 60-day advance notice would not be in the public interest. It should be noted that a waiver of the 60-day advance notice period does not relieve an agency of the obligation to publish a notice describing the system and to allow 30 days for public comment on the proposed routine uses of the personal information to be collected. A waiver of the 60-day advance notice provision was requested by agencies for the following reports received between August 21 through September 1, 1978. Public inquiries or comments on the proposed new or altered systems should be directed to the designated agency point-of-contact and a copy of any written comments provided to OMB. Comments on the operation of the waiver procedure should be directed to OMB.

DEPARTMENT OF DEFENSE

System name: College Transcript Registry System.

Report date: August 17, 1978.

Point-of-contact: Mr. William Cavaney, Department of Defense, Washington, D.C. 20301.

Summary: The Department of the Army proposes to establish this system of records in cooperation with the American Council on Education and the American College Testing Program. The system will include records of tests and courses taken, as well as occupational special ties, and pay grade and unit numbers, and will give a reliable record of individuals' training progress, both for placement in advanced training programs and to avoid duplication of training, and for use by potential civilian employer. Statistical reports will also be generated by the system. It will initially be a pilot program at Forts Eustis and Polk for individuals who participated in the Army Continuing Education System and attended Army service schools.

Status of waiver request: No action as of September 5, 1978.

FEDERAL TRADE COMMISSION

System name: Individual Claims Submitted Pursuant to Consent Agreement in *Bachman* v. *Pertschuk.*

Report date: August 22, 1978.

Summary: The system is being established to administer claims of racial discrimination filed by current and former employees and applicants for FTC jobs. The FTC has determined that, in order to fulfill its affirmative action responsibilities a system of records retrieved by claimants' names is necessary.

Status of waiver request: No action as of September 5, 1978.

VETERANS ADMINISTRATION

System name: Fee Basis Medical and Pharmacy Program.

Report date: August 30, 1978.

Point-of-contact: Mr. Edwin Arnold, Veterans Administration, Washington, D.C. 20420.

Summary: The VA proposes to centralize all automated data processing functions for this system from current processing centers to the VA Data Processing Center at Austin, Tex. Data in the system will then be transmitted via the Advanced Records System (ARS) telecommunications network rather than by mail. The result will be reduced processing time and thus speedier payments to health care providers.

Status of waiver request: No action as of September 5, 1978.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[FR Doc. 78-26007 Filed 9-14-78; 8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-10393]

FIDELITY BONDING OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

The Securities and Exchange Commission today announced the views of its Division of Investment Management ("Division") regarding the duties of members of the boards of directors of registered management investment companies who are not "interested persons" of such investment companies respecting their responsibilities under section 17(g) of the Investment Company Act of 1940 and rule 17g-1 thereunder with regard to the fidelity bonding of officers and employees against larceny and embezzlement. The Division believes the directors should be aware of the issues raised in two recent Federal court cases concerning such bonding requirements and this release alerts them to the Division's concerns with respect to existing provisions of fidelity bonds being obtained to satisfy the requirements of rule 17g-1. In this regard, the Division recommends that the directors, in the exercise of their statutory responsibilities under rule 17g-1 and their general fiduciary obligations under the Act, carefully examine their existing fiedlity bonds to determine that they effectively satisfy the specific requirements and purposes of the Act and rule.

FOR FURTHER INFORMATION CONTACT:

S. Elliott Cohan 202-755-0237 or John M. Metzger 202-755-0233, Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549.

BACKGROUND

Section 17(g) of the Investment Company Act of 1940 ("Act"), 15 U.S.C. 80a-1, et seq., authorizes the Securities and exchange Commission ("Commission") to require by rule and regulation that any officer or employee of a registered management investment company ("investment company") having access to securities or funds of such investment company, either directly or through authority to draw upon such funds or to direct generally the disposition of such securities, be bonded by a reputable fidelity insurance company against larceny and embezzlement. The Commission, pursuant to this provision, adopted rule 17g-1 ("Rule"), 17 CFR 270.17g-1, in 1947 and amended it in 1964 and 1974.

Rule 17g-1 provides, in substance, that the form and amount of the fidelity bond be determined by a majority of the investment company's board of directors who are not "interested persons" as defined in the Act ("disinterested directors") at least once each year; that a copy of the resolution of the disinterested directors approving the form and amount of the bond be filed with the Commission; that a copy of each amendment to the bond be filed with the Commission; that, in the case of an "individual bond" or "single insured bond," written notice be given by the acting party to the affected party and to the Commission not less than 60 days prior to the effective date of cancellation, termination or modification of the bond; that, in the case of a "joint insured bond," written notice be given by the acting party to the affected party and by the fidelity insurance company to each named investment company under the bond and the Commission not less than 60 days prior to the effective date of cancellation, termination or modification[1]

[1] The division has recently taken a "no-action" position with regard to a bond written by the Federal Insurance Company which effectively permits a waiver of the 60-day notice requirement with respect to a modification of the bond provisions. However, the waiver was permitted on the conditions that: the modification did not adverse-

Footnotes continued on next page

of the bond; and that the amount of the bond for any investment company named as an insured in a single or joint bond shall not be less than the

joint fidelity bonds (a "basic" bond and an "excess" bond, both of which were written on a Standard Form 14) in which the Insurance Co. of North

complaint alleged that one Robert R. Hagopian (a co-conspirator in the *Research Equity* case) while president of Index Fund, caused Index Fund to

and fraudulent activities of Hagopian.[8] Writing for the majority, Judge Smith (with whom Chief Judge Kaufman

Index Fund cases, they clearly highlight two specific areas of concern which the Division believes the disin-

received new riders which amended their existing Standard Form 14 fidelity bonds. It is not yet clear whether

V43/180 SE 15 78

of the bond; and that the amount of the bond for any investment company named as an insured in a single or joint bond shall not be less than the minimum amounts of coverage set forth in a schedule based on the gross assets of the insured.

Instead of adopting an entirely new fidelity bond form to meet the unique bonding requirements of investment companies, the surety industry has generally used its stockbrokers blanket bond ("Standard Form 14"). The Standard Form 14 was designed specifically to meet the needs of broker-dealers and investment bankers, but it has been used, generally with numerous modifications (i.e. riders), for fidelity coverage of registered investment companies.[2] Due to the distinct differences in organization and methods of operation between brokerage and investment banking firms and investment companies, certain problems have come to the attention of the Division regarding the provisions of the fidelity bond forms presently being used and the applicability of those provisions to the requirements of the rule. For this reason, the Division believes it appropriate to the highlight these problems for the disinterested directors who have responsibility for ensuring that proper coverage is maintained.

RECENT LITIGATION

Two recent lawsuits involving Standard Form 14 fidelity coverage of investment companies identified certain unanticipated problems in the language of the bond form being used at that time for the fidelity bonding of most investment companies.

On December 17, 1976, Judge A. C. Wollenberg, U.S. District Court for the Northern District of California, dismissed on the merits the case of *Research Equity Fund, Inc.* v. *Insurance Company of North America.*[3] In that lawsuit, Research Equity Fund, Inc. ("Fund"), an open-end management investment company registered under the Act, brought an action to obtain recovery under two Standard Form 14 joint fidelity bonds (a "basic" bond and an "excess" bond, both of which were written on a Standard Form 14) in which the Insurance Co. of North America ("INA") agreed to indemnify the Fund for losses resulting from any dishonest or fraudulent act of any of its employees. The complaint alleged that one of the Fund's portfolio managers (whose employment agreement was with the investment adviser) and outside co-conspirators caused the Fund to purchase securities at prices which the portfolio manager knew were artificially inflated by the conspirators' market manipulations and which he later sold for the Fund at a loss. Judge Wollenberg concluded (1) that the person influencing the trading in question (the portfolio manager whose employment agreement was with the investment adviser) was not an employee of the fund and (2) that the fidelity bonds purchased from the INA did not cover trading losses. These conclusions were based, among other things, upon findings that "* * * employees of investment advisers who render services to registered management companies are not 'employees' or 'covered persons' within the meaning of Rule 17g-1(a)"[4] and that the losses of the investment company caused by the market manipulation were trading losses that came within the terms of the "trading loss exclusion" clause of the fidelity bond. Because the court found this exclusion could have been removed by payment of an additional premium by the Fund and the addition of a rider to the Standard Form 14, an action taken by some registered investment companies, the court denied recovery under the bonds held by Research Equity. Research Equity has appealed this decision.[5]

In a more recent case, *Index Fund, Inc.* v. *Insurance Company of North America,*[6] *based on a similar factual situation and involving some of the same co-conspirators, a different Federal district court handed down an opinion identical in result to that of Research Equity.* On October 18, 1977, Judge Charles H. Tenney, U.S. District Court for the Southern District of New York, granted the defendant's motion for judgment notwithstanding the verdict. In that lawsuit, Index Fund, Inc., an open-end management investment company registered under the Act during the time period with which the action was concerned, brought suit to obtain recovery under a fidelity bond in which INA agreed to indemnify Index Fund for losses resulting from any dishonest or fraudulent act of any of its employees. The complaint alleged that one Robert R. Hagopian (a co-conspirator in the *Research Equity* case) while president of Index Fund, caused Index Fund to purchase securities at prices which he knew were artificially inflated by the conspirators' market manipulations and which he later sold for Index Fund at a loss.[7]

The case was tried to a jury, and the jury returned a verdict for the plaintiff, Index Fund. In setting aside the jury verdict, the court held that (in addition to an error in the amount of the judgment) the jury's verdict was against the greater weight of the evidence and could not stand.

Judge Tenney, citing the findings of fact and conclusions of law in the *Research Equity* case, concluded: (1) that the term "trading," in the "trading loss exclusion" contained in the bond, should not be given any interpretation other than that contained in the bond itself—"transactions involving the purchase, sale or exchange of securities"; (2) that the plaintiff, in fulfilling its statutory duty, could have purchased a bond without a "trading loss exclusion" but failed to do so; (3) that the trading exclusion was a major determinant of the price of the bond; and (4) that the loss complained of (larceny and embezzlement) fell squarely within the trading loss exclusion of the Standard Form 14, a clause which the court found to be valid and enforceable.

Judge Tenney noted that the testimony of the INA employees and a representative of the Surety Association of America indicated: (1) that the terms of the Standard Form 14 issued to an investment company, and the meaning of those terms, are no different when the bond is purchased by an investment company than when it is purchased by a broker or investment banker; (2) that it was INA's practice not to provide for losses for "trading" coverage unless it was specifically requested and a supplemental premium paid; and (3) that Standard Form 14s are regularly issued to investment companies as well as to investment banks and stockbrokers, and their terms have the same meaning in all three situations.

On appeal, the U.S. Court of Appeals for the Second Circuit recently reversed the judgment of the lower court and held that INA was liable on the bond to Index Fund for those losses it suffered from the dishonest

[6] [1977-1978 Transfer Binder] Fed. Sec. L. Rep. (CCH) ¶ 96,198 rev'd, No. 77-7600 (2d Cir. Aug. 1, 1978).

[7] Hagopian pleaded guilty to charges of criminal conspiracy and embezzlement for his fraudulent actions while serving as president of Index Fund. See *United States* v. *Hagopian*, 72 Crim. 884 (S.D.N.Y. 1977). The embezzlement charge was alleged as a violation of section 37 of the Investment Company Act, 15 U.S.C. 80a-36, which is titled "Larceny and Embezzlement."

and fraudulent activities of Hagopian.[8] Writing for the majority, Judge Smith (with whom Chief Judge Kaufman concurred) concluded that: (1) in such a diversity action the court had to apply the substantive law, including the conflict of law rules, of the State of New York; (2) under the conflict of law rules in New York, courts when construing the meaning of words in a contract or determining the validity of specific provisions in a contract apply the law of the State which has the most significant relationship to and the greatest interest in the transaction of the parties; (3) in the case at bar the State of New York had the greatest interest and most significant contacts; (4) under New York law, where the words in a clause of a fidelity bond are capable of more than one reasonable construction, the courts construe such words most strictly against the insurer and most favorably to the insured, particularly where doubt is found in an exclusionary clause; (5) if fairly possible the "trading loss exclusion" in the bond had to be construed in favor of Index Fund and against INA; (6) where the obligee is a registered investment company rather than a broker, fraudulent purchase of securities for the investment company by a covered employee at artificially manipulated prices may well be considered to be without the contemplated meaning of "trading" as used in the bond; (7) even if "trading" was ordinarily read in such a manner as to include activities such as Hagopian's, the fact remained that the bond at issue was a statutory bond; (8) under New York law, the fidelity bond has to be read in conjunction with the statutory requirements pursuant to which it was issued where the issuer either knew or ought to have known of the statutory requirements; (9) accordingly, consideration must be given to the language of the Investment Company Act of 1940 and the purpose for which the bond is given; and (10) in construing the act the court had "* * * no doubt that in requiring a bond to provide coverage against losses from 'larceny and embezzlement' by an officer of a registered investment company Congress intended such bonds to cover the kind of dishonest and fraudulent activity in which Hagopian engaged."[9]

In a separate opinion, Judge Meskill dissented and stated that, "I would affirm the decision of the district court and hold Index Fund to its bargain."[10]

AREAS OF CONCERN

Notwithstanding the reasoning or the results in the *Research Equity* and *Index Fund* cases, they clearly highlight two specific areas of concern which the Division believes the disinterested directors of investment companies should focus on. These are the "trading loss exclusion" and the definition of "employee" which exist in the Standard Form 14. For although "larceny or embezzlement," as defined by the Act,[11] occurred in these two cases, the provisions of the bonds purchased by the two investment companies, as interpreted by both district courts, prevented recovery.

Because investment companies make extensive use of strict securities custodial arrangements pursuant to section 17(f) of the act, 15 U.S.C. 80a-17(f) and rules 17f-1 and 17f-2 thereunder, 17 CFR 270.17f-1, 17f-2, it is extremely difficult for a wrongdoer physically to steal an investment company's assets; the principal means for any substantial larceny or embezzlement to take place is through the improper trading of securities. Thus, it is vitally important that there be no exclusion in investment company bonds for losses caused by larceny and embezzlement due to artificial manipulation by criminal conspirators of prices received in investment company securities transactions. However, two Federal district courts in the cases discussed above held that the fidelity bonds involved in those cases contained just such an exclusion. Consequently, although the Second Circuit Court of Appeals reversed the Southern District of New York and allowed recovery in the *Index Fund* case, the Division is concerned that losses caused by larceny or embezzlement perpetrated through improper investment company securities trading activity may be excluded from fidelity bond coverage merely because the trader or a trading desk is involved.

Moreover, investment companies, which generally have substantially all of their operations conducted by employees supplied by an external investment adviser, also need a broad definition of "employee" in their fidelity bonds. However, in the *Research Equity* case an employee of the investment adviser was found not to be an employee of the investment company for purposes of fidelity coverage, despite the fact that the investment adviser was another named insured on the same joint fidelity bonds held by Research Equity Fund, Inc.

NEW RIDERS TO THE STANDARD FORM 14 FIDELITY BONDS

After the decision in *Research Equity,* many investment companies received new riders which amended their existing Standard Form 14 fidelity bonds. It is not yet clear whether these new riders do, in fact, resolve the problems experienced by Research Equity Fund, Inc. and Index Fund, Inc. However, these new riders, together with those initially added to the bond, significantly increase the complexity of an already complicated document. The Division believes the complexity existing in such fidelity bonds was a major factor in and of itself in the current litigation in this area, and warrants careful consideration by all disinterested directors.

CONCLUSION

The Division strongly suggests that the disinterested directors of investment companies carefully examine the fidelity bonds maintained for their companies, keeping in mind the recent court decisions regarding the provisions of Standard Form 14 and recognizing the complexity of fidelity bonds written to meet the specific needs of the rule. Where appropriate, in conducting such reviews, consideration should be given to obtaining an opinion from the insurance carrier writing the insurance that the policy issued will solve the problems exemplified in the cases described above. Consideration should also be given to obtaining opinions of legal counsel familiar with fidelity and surety law with respect to the complex legal issues involved. In this regard, the Division reminds the disinterested directors of their specific statutory obligations under the provisions of the rule and their fiduciary responsibilities under the Act to assure that the investment companies which they serve have fidelity bond coverage which both satisfies the requirements of the rule and offers adequate protection to shareholders. Rule 17g-1(d) states, in part, that "The bond shall be in such reasonable form and amount as a majority of the board of directors of the registered management investment company who are not 'interested persons' of such investment company * * * shall approve as often as their fiduciary duties require * * * with due consideration of all relevant factors * * *." 17 CFR 270.17g-1(d) (emphasis added).

By the Commission.

ADVISORY COMMITTEE TO U.S. SECTION, INTERNATIONAL NORTH PACIFIC FISHERIES COMMISSION

Partially Closed meeting

The Advisory Committee to the U.S. Section, International North Pacific Fisheries Commission, will meet on September 26, 1978, in open session from 8:30 a.m. to noon at the Federal Building, Juneau, Alaska. This session will discuss the 1978 Protocol to the International Convention for the High Seas Fisheries of the North Pacific Ocean, surveillance of foreign fishing fleets, the progress of fisheries research, the Alaska salmon fisheries, and fishery developments as they affect the International North Pacific Fisheries Commission. The meeting on September 26 will be open to the public from 8:30 a.m. to noon.

The Advisory Committee will also meet in closed session from 1 p.m. to 5 p.m. on September 26, 1978. This session will not be open to the public inasmuch as the discussion will involve classified matters pertaining to the U.S. negotiating position to be taken at the 25th Annual Meeting of the International North Pacific Fisheries Commission to be held in Vancouver, B.C., Canada, during October 30-November 3, 1978. Pursuant to the North Pacific Fisheries Act of 1954, 1023(c) U.S.C. 16 as amended, which provides that the "advisory committee • • • shall be granted opportunity to examine and to be heard on all proposed programs of study and investigation, reports, and recommendations of the U.S. Section," the members of the Advisory Committee will examine various options for the negotiating position at the Special Meeting, and these considerations must necessarily involve review of classified matters.

Given the immediacy of the October 30, 1978, annual meeting of the International North Pacific Fisheries Commission and the time necessary for adequate U.S. preparation for that meeting, the Advisory Committee to the U.S. Section of the International North Pacific Fisheries Commission could be convened no later than September 26, 1978. For these reasons, the Department of State was unable to comply with the 15-day notice requirement as set forth in Office of Management and Budget Circular A-63; Revised.

Requests for further information on the meeting should be directed to Mr. Carl Price, Pacific Fisheries Officer, Room 3214 (OES/OFA/FA), U.S. Department of State, Washington, D.C. 20520. Mr. Price can be reached by telephone on 202-632-2883.

Dated: September 12, 1978.

BENOIT BROOKENS II,
Special Assistant to the Deputy Assistant Secretary for Oceans and Fisheries Affairs.

INTERSTATE COMMERCE COMMISSION

[Notice No. 713]

ASSIGNMENT OF HEARINGS

SEPTEMBER 12, 1978.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 114569 (Sub-221F), Shaffer Trucking, Inc., now being assigned October 18, 1978, (3 days), at Denver, CO, in a hearing room to be later designated.
MC 144409 (Sub-1F), F. C. Auto Sales, Inc., now being assigned October 16, 1978, (2 days), at Denver, CO, in a hearing room to be later designated.
MC 133233 (Sub-57), Clarence L. Werner d.b.a. Werner Enterprises, now assigned October 13, 1978, at Chicago, IL, is postponed indefinitely.
MC 138026 (Sub-16F), Logistics Express, Inc., now assigned October 12, 1978, at Chicago, IL, is postponed indefinitely.
MC 2835 (Sub-40), Adirondack Transit Lines, Inc., now assigned for October 11, 1978, at Albany, NY, is postponed to October 13, 1978 (2 days), at Albany, NY, in a hearing room to be later designated.
MC 123872 (Sub-79), W & L Motor Lines, Inc., now assigned October 2, 1978, at Charlottesville, VA, is canceled and transferred to Modified Procedure.
MC 144697, Gibco Motor Express, Inc., transferred to Modified Procedure.
MC 55889 (Sub-47F), AAA Cooper Transportation, transferred to Modified Procedure.
MC 136828 (Sub-19), Cook Transports, Inc. and MC 136828 (Sub-20), Cook Transports, Inc., now assigned for hearing on October 30, 1978, at Birmigham, AL, is postponed indefinitely.
MC-C-9860, Carolina Coach Co., et al. v. Williams Bus Rental, now being assigned for hearing on October 18, 1978 (3 days), at Rocky Mount, NC, in a hearing room to be later designated.
MC 119670 (Sub-33F), The Victor Transit Corp., now being assigned for prehearing conference on October 16, 1978, at the Offices of the Interstate Commerce Commission, Washington, D.C.
MC 107107 (Sub-466F), Alterman Transport Lines, Inc., now being assigned for hearing on November 1, 1978, at the Offices of the Interstate Commerce Commission, Washington, D.C.

H. G. HOMME, Jr.,
Acting Secretary.

ILLINOIS CENTRAL GULF RAILROAD CO. AND LOUISVILLE & NASHVILLE RAILROAD CO.

Petition for Declaratory Order—Security Deposits—Payment of Demurrage Charges

AUGUST 28, 1978.

The Commission voted today that the practice of requiring a security deposit to guarantee payment of demurrage charges is unlawful under section 6 of the act, absent publication of tariff provisions. Rail carriers were ordered to discontinue the practice until such time as reasonable tariff regulations are published and filed with the Commission. The order is effective 45 days from the date of service of the decision.

A copy of this notice will be sent to the Director of the Federal Register for publication.

H. G. HOMME, Jr.,
Acting Secretary.

POLICY STATEMENT ON INFLATION

General Increases—Wage Increases, the Need to Hold Down the Inflationary Cycle

Inflation is unquestionably one of the most serious problems facing the United States today. Not only has this been recognized by the Administration and the Congress, but national public polls have demonstrated that rising prices are the greatest single cause of concern among our citizens.

President Carter has asked that wage and price increases in each industry and sector of the economy be held this year to an amount significantly below the average increase for the preceding 2 years. He has called upon all the independent regulatory agencies to take an active role in holding the line against rising prices. On April 11, 1978, in an address to the American Society of Newspaper Editors, he said:

• • • I am asking the independent regulatory agencies to try to reduce inflation when they review rate changes, and to explore regulatory changes that can make the regulated industries more efficient.

Because of the importance of the national fight against inflation, the Interstate Commerce Commission is issuing this public statement of its policies.

Requests by carriers for rate or fare increases, particularly general increases, which are subject to our jurisdiction will be scrutinized with particular care, and the pass-through of increased costs will not be permitted in the absence of a compelling revenue need. Those submitting increase requests should be prepared to show that—

- The increase is fully justified by cost increases which the carrier has no reasonable means of controlling, and to which it is definitely committed, and is not based on projected cost increases reflecting anticipated inflationary trends.
- The increase is the minimum required to assure adequate and safe service and to attract capital at reasonable costs.
- The increase, particularly if it exceeds the President's guidelines on wages and prices, must be fully justified not only on the basis of rising costs, but also on the basis of changes in work practices or other similar changes in the efficiency of operations.

In addition, we will examine all other proceedings which come before us in view of their impact upon inflation. Most particularly, we will consider whether any action we may take would serve to promote or to restrict competition for we are convinced that healthy and vigorous competition is the best means for assuring efficient operation and fair prices. The competitive impacts will be examined closely, for example, in applications involving requests for new operating authority, where favorable action on our part would be likely to increase competition, and in those involving mergers or common control, where a grant of the authority sought might well lessen existing competition.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Stafford, Gresham and Clapp. Commissioner Murphy concurring.

Dated: September 8, 1978, at Washington, D.C.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 165]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 5, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 13569 (Sub-39TA), filed July 11, 1978. Applicant: THE LAKE SHORE MOTOR FREIGHT CO., 1200 South State Street, Girard, OH 44420. Representative: John P. Tynan, Bowes, Milliner, Rodgers & Liberstein, 167 Fairfield Road, P.O. Box 1409, Fairfield, NJ 07006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Guard rails, highway, steel;* (2) *pipe or tubing, iron or steel, NOI*, from the facilities of the Regal Tube Co. at Chicago, IL, to the facilities of (1) O. W. Hubbell and Sons, New York Mills, NY, and (2) L. S. Lee and Sons, Oaks Corners, NY, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Regal Tube Co., 7401 South Linder Avenue, Chicago, IL, 60638. Send protests to: Martin P. Monaghan, Jr., Special Agent, Bureau of Operations, Interstate Commerce Commission, 731 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

MC 14552 (Sub-65TA) filed July 11, 1978. Applicant: McNICHOLAS TRANSPORTATION CO., 555 West Federal Street, Youngstown, OH 44502. Representative: Paul F. Beery, Beery & Spurlock Co., L.P.A., 275 East State Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel, and iron and steel articles*, from Weirton, WV and the Weirton, WV commercial zone, to points in FL, GA, AL, LA, SC and AR, for 180 days. Restricted to service from the facilities of Weirton Steel Division, National Steel Corp. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Weirton Steel Division, National Steel Corp., 3 Sorings Drive, Weirton, WV 26062. Send protests to: Martin P. Monaghan, Jr., Special Agent, Bureau of Operations, Interstate Commerce Commission, 731 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

MC 26396 (Sub-193TA), filed July 11, 1978. Applicant: POPELKA TRUCKING CO., d.b.a. THE WAGGONERS, P.O. Box 990, Livingston, MT 59047. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt roofing materials* from ports of entry on the international boundary line between the United States and

Canada located in MT and ND to points in the States of WA, OR, ID,

transport loads composed solely of frozen foods as well as mixed loads with regulated and otherwise exempt commodities. From the facilities of

cessories thereof, and materials and supplies used in the manufacture of bicycles, tricycles and unicycles (except commodities in bulk), from

tainers and container ends, from the facilities of American Can Co. at Batavia, IL, to points in IN, IA, MO, OH and WI, for 180 days. Applicant has

Canada located in MT and ND to points in the States of WA, OR, ID, MT, WY, ND, and SD, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): R. D. Benjamin, Building Products of Canada, Ltd., Suite 200, 10500 Cote de Liesse Road, Lachine, PQ, Canada H9T 3E3. Send Protests to: D/S Paul J. Labane, Interstate Commerce Commission, 2602 1st Avenue North, Billings, MT 59101.

MC 32882 (Sub-97TA), filed July 11, 1978. Applicant: MITCHELL BROS. TRUCK LINES, P.O. Box 17039, 3841 North Columbia Boulevard, Portland, OR 97217. Representative: Edward G. Rawle, 1400 East Anaheim Street, Wilmington, CA 90744. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in appendix V to the report in descriptions in motor carriers certificates, 61 MCC 209; between Los Angeles County, CA, on the one hand, and, on the other, Salt Lake City; Ogden; Logan; and Provo, UT, and Grand Junction; Colorado Springs; Denver; and Pueblo, CO and their respective commercial zones, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): There are approximately eight statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, DC, or copies thereof which may be examined at the field office named below. Send protests to: R. V. Dubay, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, OR 97204.

MC 59367 (Sub-123TA), filed July 11, 1978. Applicant: DECKER TRUCK LINE, INC., P.O. Box 915, 3584 5th Avenue South, Fort Dodge, IA 50501. Representative: William L. Fairbank, 1980 Financial Center, Des Moines, IA 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen vegetables and frozen potato products* from the facilities of Wiscold, Inc., located at or near Beaver Dam and Milwaukee, WI to points in CO, IL, IN, IA, KS, MI, MN, MO, NE, ND, and SD, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Wiscold, Inc., P.O. Box 26336, Milwaukee, WI 53226; International Co-op, P.O. Box 1378, Grand Fords, ND 58201; American Potato Co., a wholly-owned subsidiary of Basic American Food Co., 555 California Street, San Francisco, CA 94104. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Building, Des Moines, IA 50309.

MC 107403 (Sub-1086TA), filed June 13, 1978, and published in the FEDERAL REGISTER issue of August 10, 1978, and republished as corrected this issue. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Representative: Martin C. Hynes, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt* (in bulk, in tank vehicles), from Cleveland, OH, to points in AR, KY, IA, LA, KS, MO, OK, MS, MI, MN, NE, ND, SD, and TX, for 180 days. Supporting shipper(s): Unique Paving Materials Corp., 3993 East 93d Street, Cleveland, OH 44105. Send protests to: T. M. Esposito, Transportation Assistant, 600 Arch Street, Room 3238, Philadelphia, PA 19106. The purpose of this republication is to add OK as a destination point as previously omitted.

MC 115311 (Sub-292TA), filed July 11, 1978. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, GA 31061. Representative: Mark C. Ellison, P.O. Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Newsprint paper* from Richmond County, GA to AL, AR, FL, KY, KS, LA, MS, OK, NC, SC, TN, TX, and VA; and (2) *materials, equipment and supplies* used in the manufacturing and distribution of newsprint paper from AL, AR, FL, KY, KS, LA, MS, OK, NC, SC, TN, TX and VA to Richmond County, GA; for 180 days. Supporting shipper(s): Abitibi Southern Corp., P.O. Box 1647, Augusta, GA 30903. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 West Peachtree Street NW., Room 300, Atlanta, GA 30309.

MC 124078 (Sub-834TA), filed July 11, 1978. Applicant: SCHWERMAN TRUCKING CO., 611 South 28 Street, P.O. Box 1601, Milwaukee, WI 53215. Representative: Richard H. Prevette (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk and bags, from Evansville, PA to points in CT, DE, DC, MD, NJ, NY, VA, and WV, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Cement Division, National Gypsum Co., 17515 West Nine Mile Road, P.O. Box 887, Southfield, MI 48075; Ernest J. Lubeck. Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 124692 (Sub-213TA), filed July 11, 1978. Applicant: SAMMONS TRUCKING, P.O. Box 4347, Missoula, MT 59806. Representative: Donald W. Smith, Suite 945, 9000 Keystone Crossing, Indianapolis, IN 46240. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass tanks* from the facilities of Steve Anderson, Inc. d.b.a. Lifetime Fiberglass Tank Co. at Denver, CO., to points in the United States, for 180 days. Supporting shipper(s): Steve Anderson, President, Steve Anderson, Inc., d.b.a. Lifetime Fiberglass Tank Corp., 5000 Packinghouse Road, Denver, CO 80216. Send protests to: D/S Paul J. Labane, Interstate Commerce Commission, 2602 1st Avenue North, Billings, MT 59101.

MC 125533 (Sub-24TA), filed June 27, 1978, and published in the FEDERAL REGISTER issue of August 24, 1978, and republished as corrected this issue. Applicant: GEORGE W. KUGLER, INC., 2800 East Waterloo Road, Akron, OH 44312. Representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay roofing tile and parts, materials and supplies* used in the installation of clay roofing tile, from New Lexington, OH, to points in MA, RI, CT, NY, NJ, PA, MD, and WI, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Ludocici-Celadon, Division of C.S.C., Inc., 4757 Tile Plant Road, New Lexington, OH 43764. Send protests to: District Supervisor, Interstate Commerce Commission, 731 Federal Building, 1240 East 9th Street, Cleveland, OH 44199. The purpose of this republication is to show New Lexington, OH in lieu of New Kensington, OH as previously published.

MC 129387 (Sub-71TA), filed July 10, 1978. Applicant: PAYNE TRANSPORTATION, INC., P.O. Box 1271, Huron, SD 57350. Representative: Scott E. Daniel, P.O. Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen prepared foods*, and (2) *agricultural* (including horticultural) *and fish* (including shellfish), *commodities* otherwise exempt from economic regulation under section 203(b)(6) of the Interstate Commerce Act when moving at the same time as the commodities in (1) above. A mixed load restriction is not sought. Applicant proposes to

transport loads composed solely of frozen foods as well as mixed loads with regulated and otherwise exempt commodities. From the facilities of Van de Kamp's located at: (A) Santa Fe Springs, CA to points in IL, MI, OH, KS, MO, Erie, PA, and Syracuse, NY (and points in their respective commercial zones), and (B) Erie, PA to points in IL, KS, MI, MN, MO, OH, WI, and Atlanta, GA, for 180 days. The authority sought in parts (1) and (2) above is restricted to the transportation of the above commodities in vehicles equipped with mechanical refrigeration. Supporting shipper(s): Van de Kamp's, 13100 Artic Circle Drive, Santa Fe Springs, CA 90670. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 455, Federal Building, Pierre, SD 57501.

MC 133975 (Sub-7TA), filed July 11, 1978. Applicant: FLAMINGO TRANSPORTATION, INC., 901 First Street, West Palm Beach, FL 33401. Representative: Richard B. Austin, Suite 214, Palm Coast II Building, 5255 Northwest 87th Avenue, Miami, FL 33178. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those requiring special equipment and mobile homes, between Palm Beach County, FL, on the one hand, and, on the other, points in Indian River, Martin, Okeechobee, and St. Lucie Counties, FL, and in the city of Clewiston and its commerical zone, restricted to transportation of traffic having an immediately prior or subsequent handling by freight forwarder, for 180 days. There is no environmental impact involved in this application. Supporting shipper(s): Florida-Texas Freight, Inc., P.O. Box 670-777, Miama, FL 33167. Send protests to: Donna M. Jones, Transportation Assistant, Interstate Commerce Commission-BOP, Monterey Building, Suite 101, 8410 Northwest 53d Terrace, Miami, FL 33166.

MC 136363 (Sub-19TA), filed June 23, 1978, and published in the FEDERAL REGISTER issue of August 22, 1978, as MC 136364 (Sub-19TA), and republished as corrected this issue. Applicant: J & P PROPERTIES, INC., First and Washington, Streets, P.O. Box 1146, Apopka, FL 32703. Representative: James E. Wharton, Suite 811, Metcalf Building, 100 South Orange Aveniue, Orlando, FL 32801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bicycles, tricycles, and unicycles, and parts and accessories thereof, and materials and supplies* used in the manufacture of bicycles, tricycles, and unicycles (except commodities in bulk), from Celina, OH, on the one hand, and, on the other, points in FL, GA, and AL, for 180 days. Supporting shipper(s): Huffy Corp., 410 Grand Lake Road, Celina, OH 45822. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay Street, Jacksonville, FL 32202. The purpose of this republication is to show applicant's address as First and Washington Streets as previously published.

MC 138206 (Sub-4TA), filed May 23, 1978, and published in the FEDERAL REGISTER issue of July 5, 1978, and republished as corrected this issue. Applicant: TRULINE CORP., 4455 South Cameron Avenue, Las Vegas, NV 89701. Representative: Robert G. Harrison, 4299 James Drive, Carson City, NV 89701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum products*, from points in Clark County, NV to Salt Lake City, UT, and *gypsum board paper*, from Commerce, CO to points in Clark County, NV, for 180 days. Supporting shipper(s): Flintkote Co., 2201 East Washington, Los Angeles, CA 90012. Send protests to: W. J. Huetig, District Supervisor, Interstate Commerce Commission, 203 Federal Building, 705 North Plaza Street, Carson City, NV 89701. The purpose of this republication is to correct the commodity and territorial scope of application as previously published.

MC 139577 (Sub-23TA), filed June 21, 1978, and published in the FEDERAL REGISTER issue of August 23, 1978, and republished as corrected this issue. Applicant: ADAMS TRANSIT, INC., P.O. Box 338, 204 East Winnebago Street, Friesland, WI 53935. Representative: Michael J. Wyngaard, 150 East Gilman Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal containers and container ends*, from the facilities of American Can Co. at (a) Chicago, IL, to points in IN, IA, MI, MN, MO, OH, and WI, (b) Hoopeston Ill., to points in IN, IA, MI, MN, MO, OH, and WI, (c) Austin, IN, to points in IL, MI, MN, MO, OH, and WI, (d) Hammond, IN, to points in IL, MN, MO, OH, and WI, (e) Indianapolis, IN, to points in IL, IA, MI, MN, MO, OH, and WI, (f) Fort Dodge, IA, to points in IL, IN, and MN, (g) St. Paul, MN, to points in IL, IN, IA, MO, and WI, (h) Whitehouse, OH, to points in MI and WI, and (i) Milwaukee, WI, to points in IL, IN, IA, MI, MN, MO, and OH, and (2) *plastic containers and container ends*, from the facilities of American Can Co. at Batavia, IL, to points in IN, IA, MO, OH and WI, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): American Can Co., 915 Harger Road, Oak Brook, IL 60521. Send protests to: Ronald A. Morken, District Supervisor, Interstate Commerce Commission, 212 East Washington Avenue, Room 317, Madison, WI 53703. The purpose of this republication is to add Michigan (MI) to part (1)(c), and also to change (3) to (e) as previously published.

MC 140101 (Sub-4TA), filed June 30 1978, and published in the FEDERAL REGISTER issue of August 24, 1978, and republished as corrected this issue. Applicant: I.T.A. TRUCKING, INC., P.O Box 62, Amherst, WI 54406. Representative: Wayne W. Wilson, 150 East Gilman Street, Madison, WI 53703 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen vegetables and frozen potato products*, from the facilities of Wiscold, Inc., located at or near Beaver Dam and Milwaukee, WI, to points in the United States (except AK and HI), for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): (1) International Co-op, P.O. Box 1378, Grand Forks, ND 58201, (2) Wiscold, Inc., 11400 West Burleigh Street, P.O. Box 26336, Milwaukee, WI 53226, and (3) American Potato Co., Bank of America Center, 555 California Street, San Francisco, CA 94104. Send protests to: Ronald A. Morken, District Supervisor, Interstate Commerce Commission, 212 East Washington Avenue, Room 317, Madison, WI 53703. The purpose of this republication is to show the correct address of the second (2) supporting shipper as P.O. Box 26336 in lieu of 26226, as previously published.

MC 144813 (Sub-1TA), filed June 19, 1978, and published in the FEDERAL REGISTER issue of August 10, 1978, and republished as corrected this issue. Applicant: HUNT TEAL TRUCKING, INC., 3324 Northwest, 32d Street, Miami, FL 33142. Representative: Glen Teal (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen boxed meat*, from Tampa and Miami, FL, to Rocky Mount, NC, and its commercial zone, Pittsburgh, PA, and its commercial zone, Oneida, NY, and its commercial zone, Canajoharie, NY, and its commercial zone, and Bedford, VA, and its commercial zone, for 180 days. Supporting shipper(s): United Beef Packers, Inc., 1630 Northwest 70th Avenue, Miami, FL 33147. Send pro-

tests to: George M. Parker, District Supervisor, Interstate Commerce Commission, 8410 Northwest 53d Terrace, Miami, FL 33166. The purpose of this republication is to show applicant's address as First and Washington Streets as previously published.

MC 141804 (Sub-1TA), filed July 11, 1978. Applicant: WESTERN COMMERCIAL TRANSPORT, INC., 3333 Quebec Street, Suite 6000, Denver, CO 80207. Representative: Richard P. Kissinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in appendix V to the report in descriptions in motor carriers certificates, 61 MCC 209; between Los Angeles County, CA, on the one hand, and, on the other, Salt Lake City; Ogden; Logan; and Provo, UT, and Grand Junction; Colorado Springs; Denver; and Pueblo, CO and their respective commercial zones, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): There are approximately eight statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, DC, or copies thereof which may be examined at the field office named below. Send protests to: R. V. Dubay, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, OR 97204.

MC 142303 (Sub-1TA), filed July 11, 1978. Applicant: ROBERT L. HOLLAND, 1 Lakeside Drive, Lake Jackson, TX 77566. Representative: Robert L. Holland (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Houston, TX to points in AR, LA, NM, OK, and TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Texas Petroleum Co., P.O. Box 1111, Houston, TX 77001. Send protests to: Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 142304 (Sub-1TA), filed July 11, 1978. Applicant: ROBERT L. HOLLAND, 1 Lakeside Drive, Lake Jackson, TX 77566. Representative: Robert L. Holland (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Houston, TX to points in AR, LA, NM, OK, and TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Texas Petroleum Co., P.O. Box 1111, Houston, TX 77001. Send protests to: Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 142305 (Sub-1TA), filed July 11, 1978. Applicant: ROBERT L. HOLLAND, 1 Lakeside Drive, Lake Jackson, TX 77566. Representative: Robert L. Holland (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Houston, TX to points in AR, LA, NM, OK, and TX, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Texas Petroleum Co., P.O. Box 1111, Houston, TX 77001. Send protests to: Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, WI 53202.

MC 145070 (Sub-1TA), filed July 11, 1978. Applicant: PROGRESSIVE TRANSPORTATION, INC., 1 Progressive Drive, Cedar Rapids, IA 52404. Representative: Robert D. Gunderson, 5 River Park Place East, Fargo, ND 58103. [Notice No. 166]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 5, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

MC 51146 (Sub-614TA), filed July 12, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, WI 54306. Representative: James W. Muldoon, Muldoon, Pemberton & Ferris, 50 West Broad Street, Columbus, OH 43215. 1

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (eastern time), Tuesday, September 19, 1978.

PLACE: Chairman's Conference Room, No. 5240, on the fifth floor of the Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED:

Open to the public:

1. Freedom of Information Act Appeal No. 78-6-FOIA-118, concerning a request by an employer charged with discrimination for access to investigative files.
2. Report on Commission Operations by the Executive Director.

Closed to the public:

Litigation Authorization; General Counsel Recommendations: Matters closed to the public under the Commission's regulations at 29 CFR 1612.13.

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This notice issued September 12, 1978.

2

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: S-3823-76.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m. (eastern time), Wednesday, September 13, 1978.

CHANGE IN THE MEETING: The following matters are postponed for consideration at a later date:

1. Freedom of Information Act Appeal No. 78-6-FOIA-118, concerning a request by an employer charged with discrimination for access to investigative files.
2. Freedom of Information Act Appeal No. 78-7-FOIA-150, concerning a request by a party who filed a charge of discrimination for access to the file on that charge after his right to bring a Title VII action expired.

A majority of the entire membership of the Commission determined by recorded vote that the business of the Commission required this change and that no earlier announcement was possible.

In favor of change.—Eleanor Holmes Norton, Chair; Daniel E. Leach, Vice Chair; and Ethel Bent Walsh, Commissioner.

Opposed.—None.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

This notice issued September 8, 1978.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their date of publication in the FEDERAL REGISTER are listed with each State.

Arizona, AZ78-5114, Aug. 11, 1978
Arkansas, AR78-4063 Jun. 16, 1978; AR78-4064, AR78-4067, AR78-4068, AR78-4069, Jun. 23, 1978.
California, CA78-5123, Aug. 18, 1978.
Connecticut, CT75-2067, Apr. 25, 1978.
Florida, FL78-1043, Apr. 14, 1978.
Hawaii, HI78-5016, Mar. 17, 1978.
Louisiana, LA78-4072, July 14, 1978; LA78-4077, Aug. 11, 1978.
Maryland, MD77-3086, Aug. 5, 1977.
Michigan, MI78-2054, Jun. 2, 1978.
Nevada, NV78-5010, Mar. 10, 1978.
New Jersey, NJ78-3009, Apr. 21, 1978.
North Dakota, ND78-5113, Jul. 21, 1978.
Pennsylvania, PA78-3053, Aug. 11, 1978.
Texas, TX78-4017, Mar. 10, 1978; TX78-4038, Apr. 14, 1978; TX78-4051, May 12, 1978; TX78-4073, Jul. 21, 1978; TX78-4078, TX78-4079, Aug. 11, 1978; TX78-4080, Aug. 4, 1978; TX78-4083, TX78-4084, Aug. 25, 1978.

SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State. Supersedeas Decision numbers are in parentheses following the numbers of the decisions being superseded.

Guam, GU78-5021(GU78-5127), Mar. 24, 1978.
Mississippi, MS78-1014(MS78-1079), Feb. 17, 1978.
Nevada, NV78-5009(NV78-5124), Mar. 10, 1978.
Oklahoma, OK77-4036(OK78-4093), Feb. 18, 1977.
Texas, TX77-4139(TX78-4089), Jul. 1, 1977; TX78-4032(TX78-4090), Apr. 14, 1978; TX78-4014(TX78-4091), Feb. 17, 1978; TX78-4042(TX78-4092), Apr. 14, 1978.
Virginia, VA76-3244(VA78-3061), Sept. 10, 1976.

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

None.

Signed at Washington, D.C. this 8th day of September 1978.

DONALD M. ESSIG,
Acting Administrator,
Wage and Hour Division.

DECISION #HI78-5016 (Cont'd):

Change (Cont'd):
Power Equipment Operators (Except Piledriving and Steel Erection) (Cont'd):

Group 1: Partsman (heavy duty repair shop parts room when needed); Repairman, helper

Group 2: Compressor, electrically, diesel or gas powered etc.; Hydraulic Monitor; Material loader and/or Conveyor operator (handling building material); Mixer Box operator (concrete plant); Pump operator; Spreader Boxman (with screeds); Tar pot fireman (power agitated)

Group 3: Oiler; Fireman; Switchman; Brakeman; Deckhand; Tar Pot fireman; Box operator (bunker); Locomotive (up to and including 30 tons); Roller (5 tons and under); Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Tugger Hoist, single drum; Rodman and Chainman

Group 4: Boom truck or dual purpose "A" frame truck; Dinky operator; Fork lift or lumber stacker (construction job site); Material hoist (1 drum); Straddle truck; Ross Carrier and similar (jobsite)

Group 5: Agri-Cat (mini-cat); Concrete Mixer (up to 2 yds.); Concrete pumps or pumpcrete guns; Generators, gasoline or diesel driven (100 K.W.); Lubrication and Service Engineer (mobile and grease rack); Towermobile; Welding machine (gasoline or diesel)

Group 6: Combination loader and backhoe including Hopto (up to and including 1/2 yd.); Concrete batch plants (wet or dry); Concrete saws and/or grinder (self-propelled unit on streets, highways, airports and canals); Drilling machinery (not to apply to waterliners, wagon drills or jackhammers); High-line cableway signalman; Loader (up to and including 2-1/2 cu. yds.); Lull High Lift; Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical finishers (concrete) (large Clary, Johnson Bidwell Bridge Deck or similar types); Mobile Crane Driver; Pavement breakers; Portable Crushers; Power Jumbo operator (setting slip forms, etc., in tunnels); Rollers (over 5 tons); Self-propelled compactor (single engine); Slip Form Pumps (power driven hydraulic, electric, air, gas, etc., lifting device for concrete forms); Small Rubber-tired tractors; Trencher (up to and including 6 ft.)

DECISION #MI78-5016 (Cont'd): MODIFICATIONS P. 7

Change (Cont'd):
Power Equipment Operators (Except Piledriving and Steel Erection) (Cont'd):

Group 7: Crusher plant; Dual drum mixer; Gradesetter (mechanical or otherwise); Hoist (2 drums); Loader (over 2-1/2 cu. yds. up to and including 5 cu. yds.); Mechanical Finishers or Spreader machine, Asphalt (Barber Greene and similar); Mine or shaft hoist; Mixermobile (over 5 tons); Pavement Breaker, truck mounted, with compressor combination; Pavement breaker with compressor combination (operators 1 or 2); Pipe cleaning machine (tractor propelled and supported); Pipe wrapping machine (tractor propelled and supported); Pipe bending machine (Pipe lines only); Self-propelled elevating grade plane; Slusher operator; Small tractor (with boom D-6 or similar); Trencher (over 6 ft.); Water tanker (pulled by Euclids, T-Pulls, DW-10, 20, 21 or similar); Instrument Man

Group 8: Boring machine; Cast-in-place pipe laying machine; Concrete batch plant (multiple units); Combination loader and hydraulic backhoe (over 1/2 yd. up to and including 3/4 yd.); Conveyor (tunnel); Engineer, Locomotive (over 30 tons up to and including 100 tons); Finishing machine operator (airports and highways); Hydraulic backhoe (over 1/2 yd. to and including 3/4 yd.); Kolman loader; Mechanic trench shield; Mucking Machine; No-Joint pipe laying machine; Portable crushing and screening plants; Saurman type dragline (under 5 yds.); Self-propelled boom type lifting device; Stationary pipe wrapping, cleaning and banding machine; Surface heater and planer; Tunnal badger; Tri-batch paver

Group 9: Boom type backfilling machine; Combination mixer and compressor (gunite); Do-more loader and Adams elegrader; Lull Hi-Lift (40' or over); Rubber-tired earthmoving equipment (up to 12 cu. yds.); Wheel trencher (over 6")

Group 9-A: Dozers; Heavy duty repairman or welder; Push cats; Scrapers; Self-propelled compactor with dozer; Sheep Foot; Tractors; Tractors (with boom, larger than D-6 and similar)

Group 10: Chicago boom; Hoist (3 drums); Koehring Skooper; Loader (over 5 yds. up to and including 12 yds.); Locomotive (over 100 tons) (single or multiple units); Power blade operator; Rubber-tired earthmoving equipment (up to and including 35 cu. yds., Euclid, T-Pulls, DW-10, 20, 21 and similar); Saurman type dragline (5 yds. or over); Soil Stabilizer (P & H equal); Sub-grader (Curries or other automatic type); Track-laying type earthmoving machine (single engine with tandem scraper); Tractor, compressor, drill combination; Tractor (tandem scraper); Tractors (D-9 or equivalent); Chief of Party

DECISION #MI78-5016 (Cont'd): MODIFICATIONS P. 8

Change (Cont'd):
Power Equipment Operators (Except Piledriving and Steel Erection) (Cont'd):

Group 10-A: Cranes (not over 25 tons); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (up to and including 1 cu. yd.)

Group 11: Automatic slip form paver (concrete or asphalt); Cranes (over 25 tons); DW-10, 20, etc. (tandem); Earthmoving machine (multiple propulsion power units and two or more scrapers) (up to and including 35 cu. yds. struck m.r.c.); Highline cableway; Lift slab machine; Loader (over 12 yds.); Power shovels, clamshells, draglines, backhoes, gradealls (over 1 yd. and up to 7 yds.); Power blade operator (16 or over); Pre-stress wire wrapping machine; Self-propelled compactor (with multiple propulsion power units); Single engine rubber-tired earthmoving machine (with tandem scraper); Tandem Cats; Tower cranes, mobile; Trencher (pulling attached shield); Universal, Liebher, Linden and similar types of tower cranes; Wheel excavator (up to and including 750 cu. yds. per hour)

Group 12: Band Wagon (in conjunction with wheel excavator); Derricks; Drill Rigs; Multi-propulsion earthmoving machines (2 or more scrapers) (over 35 cu. yds. "struck" m.r.c.); Power shovels and draglines (7 cu. yds. m.r.c. and over); Rubber-tired Earthmoving equipment (over 35 cu. yds., Euclids, T-Pulls, DW-10, 20, 21 and similar); Wheel excavator (over 750 cu. yds.)

Mechanic

GROUP 3:
Air tugger (2 drum), asphalt plant, backhoe, blacksmith, boom tractor, bulldozer, central mixing plant, cherry picker, clamshell, crane derrick, derrick boat, derrick car, draglino, dredge, elevating grader, excavator (power belt), forklift, hoist (2 drum) locomotive engineer, marine engineer (chief), master pilot, mixermobile, motor patrol & similar type equipment, paver (21 C.F. or larger), piledriver, recharger, roaming greaser (1st), scoop (skimmer), scraper, shovel, trenching machine (over 18" bucket line width), tournapull, DW-10 & similar pulltype scrapers, traxavator and similar endloaders, welder, welding machines or S/N pumps (2 to 6), well driller, well point pumps

GROUP 4:
Air tugger, asphalt spreader (bituminous distributor) asphalt spreader (bituminous mixer), backfilling machine, conveyor, drill (earth), finishing machine, fireman, heating plant, hoist, marine engineer (assistant), mixer, payloader, and similar endloaders, pilot, power generating plant, pump (concrete), roller, scoopmobile, tractor (with power take-off), trenching machine(18" or smaller bucket line width), tugboat, winch truck

GROUP 5:
Air compressor, form grader, locomotive hostler, oiler (truck crane), pump, roughneck, tractor (without attachments), welding machine

GROUP 6:
Batch scale, deckhand, motorboat (in or outboard), oiler scowman

SUPERSEDEAS DECISION

STATE: Nevada

COUNTIES: Statewide (does not include the Nevada Test Site and Tonopah Test Range, and highway construction in Douglas County), Nevada

DECISION NUMBER: NV78-5124

DATE: Date of Publication

Supersedes Decision No. NV78-5009 dated March 10, 1978, in 43 FR 10229

DESCRIPTION OF WORK: Building Construction (does not include single family homes and garden type apartments up to and including 4 stories), heavy and highway construction.

	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	Education and/or Appr. Tr.

Group 2: Concrete Mixer Operator, skip type; Conveyor Operator; Fireman; Hydrostatic Pump Operator; Oiler Crusher (asphalt or concrete plant); Plant Operator, generator, pump or compressor; Rotary Drill Helper (oilfield); Skiploader - wheel type up to 3/4 yd. with attachment; Soils Field Technician; Tar Pot Fireman; Temporery Heating Plant Operator; Trenching Machine Oiler; Truck Crane Oiler

Group 3: A-Frame or Winch Truck; Elevator Operator (inside); Equipment Greaser (rack); Ford Ferguson (with dragtype attachments); Helicopter Radioman (ground); Power Concrete Curing Machine; Power Concrete Saw; Power driven Jumbo Form Setter; Ross Carrier; Stationary Pipe Wrapping and Cleaning Machine

Group 4: Asphalt Plant Fireman; Boring Machine; Boxman or Mixerman (asphalt or concrete); Bridge type Unloader and Turntable Operator; Chip Spreading Machine; Concrete Pump (small portable); Dinky Locomotive or Motorman (up to and including 10 tons); Equipment Greaser (grease truck); Helicopter Hoist; Highline Cableway Signalman; Hydra-hammer-Aero Stomper; Power Sweeper; Roller (compacting); Screed (asphalt or concrete); Trenching Machine (up to 6 feet)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)
Clark, Esmeralda, Lincoln, Nye Counties

Group 5: Asphalt Plant Engineer; Concrete Batch Plant; Backhoe (up to and including 3/4 yds.); Bit Sharpener; Concrete Joint Machine (canal and similar type); Concrete Planer; Deck Engine; Forklift (under 5 ton capacity); Machine Tool; Maginnis Internal Full Slab Vibrator; Mechanical Berm (curb or gutter concrete or asphalt); Mechanical Finisher (concrete-Clary-Johnson-Bidwell or similar); Pavement Breaker; Road Oil Mixing Machine; Roller (asphalt or finish); Rubber-tired Earth Moving Equipment, (single engine, up to and including 25 yds. struck); Self-propelled Tar Pipelining Machine; Slip Form Pump (power-driven hydraulic lifting device for concrete forms); Tugger Hoist (1 drum); Tunnel Locomotive (over 10 and up to and including 30 tons); Stinger Crane (Austin-Western or similar type); Skiploader Crawler and wheel type (over 3/4 yards and up to and including 1½ yds.); Tractor-Bulldozer, Tamper, Scraper (single engine, up to 100 HP, Flywheel and similar types, up to and including D-5 and similar types)

Group 6: Asphalt or Concrete Spreading (tamping or finishing); Asphalt Paving Machine (Barber Greene or similar type); BHL Lima Road Pactor or similar; Bridge Crane; Pipe Laying Machine (cast in place); Combination Mixer and Compressor (gunite work); Concrete Pump (truck mounted); Concrete Mixer; Crane (up to and including 25 tons); Crushing Plant; Elevating Grader; Forklift (over 5 tons); Grade Checker; Gradeall; Grouting Machine; Heading Shield; Heavy Duty Repairman; Hoist (Chicago Boom and similar type); Kolman Belt Loader and similar type; LeTourneau Blob Compactor or similar type; Lift Slab Machine (Vagtborg and similar types); Lift Mobile; Loader-Athey, Euclid, Sierra and similar type); Material Hoist; Micking Machine 1/4 yd. - rubber-tired, rail or track type); Pneumatic Concrete Placing Machine (Hackley-Presswell or similar type); Pneumatic Heading Shield (tunnel); Pumpcrete gun; Rotary Drill (excluding caisson type); Rubber-tired Earth Moving Equipment Operator (single engine - Caterpillar, Euclid, Athey Wagon and similar types with any and all attachments over 25 yards and up to and including 50 cubic yards struck); Rubber-tired Scraper (self-loading - paddle wheel type - John Deere, 1040 and similar single unit); Skiploader (Crawler and wheel type over 1½ yds., up to and including 6½ yds.); Surface Heaters and Planers; Rubber-tired Earth Moving Equipment, multiple engine (up to and including 25 yds., struck); Trenching Machine (over 6 feet depth capacity, manufacturers rating); Tower Crane; Tractor Compressor Drill Combination; Tractor (any type larger than D-5, 100 flywheel HP and over or similar) (Bulldozer, Tamper, Scraper and Push Tractor single engine); Tractor (boom attachments); Traveling Pipe Wrapping, Cleaning and Bending; Tunnel Locomotive (over 30 tons); Shovel, Backhoe, Dragline, Clamshell (over 3/4 yd. and up to 5 cu. yds. M.R.C.)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)
Clark, Esmeralda, Lincoln, Nye Counties

Group 7: Crane (over 25 tons up to and including 100 tons M.R.C.); Derrick Barge; Dual drum mixer; Hoist, stiff legs, guy derrick, or similar type, up to and including 100 tons; Monorail locomotive (diesel, gas or electric); Motor patrol-blade Operator (single engine); Multiple engine tractor operator (Euclid and similar type except Quad 9 cat); Rubber-tired earth moving equipment (single engine over 50 yds. struck); Rubber-tired earth moving equipment (multiple engine, Euclid, Caterpillar and similar) (over 25 yds. and up to 50 cu. yds. struck); Tractor loader operator (crawler and wheel type over 6½ yds.); Tower crane repairman; Shovel, backhoe, dragline, clamshell operator (over 5 cu. yds. MRC); Woods mixer and similar pugmill equipment; Heavy duty repairman - welder combination

Group 8: Auto grader; Automatic slip form; Crane (over 100 tons); Hoist stiff legs, guy derricks or similar types (capable of hoisting 100 tons or more); Mass excavator (less than 750 cu.yds.); Mechanical finishing machine; Mobile form traveler; Motor patrol (multi engine); Pipe mobile machine; Rubber-tired earth moving equipment (multiple engine, Euclid, Caterpillar and similar type over 50 cu. yds. struck); Rubber-tired self loading scraper (paddle wheel-auger type self-loading) (2 or more units); Tandem equipment (2 units only); Tandem tractor (quad 9 or similar type); Tunnel mole boring machine; Rubber-tired Scraper (pushing without push cat, push-pull) (50¢ per hour additional)

Group 9: Canal liner; Canal trimmer; Helicopter pilot; Highline cableway; Wheel excavator (over 750 cu. yds.); Remote controlled earth moving equipment ($1.00 per hour additional to base rate)

[a]POWER EQUIPMENT OPERATORS - Area Definition- See "Area Definition" following Truck Drivers

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)
Remaining Counties

Group 1-A: Assistant to Engineer, including brakeman, deckhand, fireman, oiler, partsman (heavy duty repair shop parts room when needed), Switchman, Tar Pot Fireman; Boiler Tender

Group 2: Compressor; Material Loader and/or Conveyor (handling building materials); Pump; Tar Pot Fireman (power agitated)

Group 3: Box operator (bunker); Concrete curing machine (streets, highways, airports, canals); Conveyor belt (tunnel); Engineer generating plant (500 K.W.); Fireman hot plant; Hydraulic monitor; Lubrication and service engineer (mobile and grease rack); Mixer bor operator (concrete plant); Motorman; Rotomist; Screedman (except asphaltic or concrete paving); Oiler (truck crane); Rodman or chainman; Bobcat or similar loader, 1/4 cu. yd. or less

Group 4: Ballast jack tamper; Ballast regulator; Ballast tamper multiple-purpose; Boxman (asphalt plant); Concrete mixer, skip type; Dinky; Fork lift (construction job site); Ross carrier; Skip loader (under 1 cu. yd.); Tie Spacer; Line Master

Group 5: Concrete Mixer (over 1 cu. yd.); Concrete pumps or pumpcrete guns; Elevator and material hoist (1 drum); Screedman (Barber-Greene and similar)(asphalt or concrete paving); Shuttle car; Signalman

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)
Remaining Counties

Group 6: Boom truck or dual purpose "A" frame truck; B.L.H. lima road pactor or similar; Chip box spreader (Flaherty type or similar); Concrete batch plant (wet or dry); Concrete saws (highways, streets, airports, canals); Highline cableway signalman; Locomotive (over 30 tons); Maginnis International full slab vibrator (airports, highways, canals, warehouses); Mechanical burn, curb and/or curb gutter machine (concrete or asphalt); Power jumbo (setting slip forms, etc., in tunnels); Roller (except asphalt); Self-propelled Compactor (single engine); Slip Form Pump (power driven by hydraulic, electric, air, gas, etc., lifting device for concrete forms); Stationary pipe wrapping, cleaning and bending machine; Pavement breaker or tamper (with or without compressor combination); Pavement breaker, truck mounted, with compressor combination; Small rubber-tired tractors; Self-propelled tape machine; Auger type drilling equipment up to and including 30 ft. depth drilling capacity m.r.c.

Group 7: Compressor (over 2); Concrete conveyor; Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); Crusher plant engineer; Deck engineer; Drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Generators; Grade setters; Grade checker; Kolman loader; Material hoist (2 or more drums); Mechanical finishers or spreader machine (asphalt, Barber-greene and similar); Mine or shaft hoist; Pipe bending machines (pipelines only); Pipe cleaning machines (tractor propelled and supported); Pipe wrapping machines (tractor propelled and supported); Portable crushing and screening plants; Pumps (over 2); Refrigeration plants; Self-propelled boom type lifting device (center mount) (10 ton capacity or less); Slusher; Soil tester (certified); Surface heater and planer; Trenching machine (maximum digging capacity 3 ft. depth); Truck type loader; Welding machines (gasoline or diesel); Roller (asphalt); Instrumentman; Auger type drilling equipment over 30 ft. depth digging capacity M.R.C.

Group 8: Asphalt plant engineer; Car passer; Cast-in-place pipe laying machine; Combination slusher and motor; Dozer; Concrete batch plant (multiple units); Elevating grader; Grooving and grinding machine (highways); Heavy-duty repairman and/or welder; Ken-seal; Loader (up to and including 2½ cu. yds.); Machanical trench shield; Mixermobile; Push cats; Road oil mixing machine; Wood-mixer (and other similar pugmill equipment); Rubber-tired earthmoving equipment (up to and including 35 cu. yds. "struck" m.r.c., Euclid, T-pulls, DW's 10, 20, 21 and similar); Self-propelled compactor with dozer; Sheepfoot; Small tractor (with boom); Soil stabilizer (P&H or equal); Timber Skidder (rubber tired) or similar equipment; Tractor; Tractor drawn scraper; Tractor mounted compressor drill combination; Trenching machine (over 3 ft. depth); Tri-batch paver; Tunnel badger or tunnel boring machine; Tunnel mole boring machine; Vermeer T-600B rock cutter

Group 9: Canal finger drain digger; Chicago boom; Combination backhoe and loader (up to and including 3/8 yds.); Combination mixer and compressor (gunite); Lull Hi-lift (20 ft. or over); Mucking machine; Tractor with boom (D6 or larger); Track laying type earth moving machine (single engine with tandem scrapers); Sub-grader (Gurries or other types)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)
Remaining Counties

Group 10: Boom type backfilling machine; Bridge crane; Cary-lift or similar; Chemical grouting machine; Derricks; Derrick barges (except excavation work); Euclid loader and similar types; Heavy duty rotary drill rigs; Lift-slab (Vagtborg and similar types); Loader (over 2½ cu. yds. up to and including 4 cu. yds.); Locomotive (over 100 tons)(single or multiple units); Multiple engine earth moving machines (Euclid, dozers, etc.); Pre-stress wire-wrapping machine; Rubber-tired scraper, self-loading; Self-propelled reservoir-debris equipment floating (200 HP and over); Shuttle car (reclaim station); Single engine Scraper (over 35 cu. yds.); Train loading station; Vacuum cooling plant; Whirley crane (up to and including 25 tons); Trenching Machine; Multi-engine with sloping attachments (JEFFCO or similar); Chief of Party

Group 10-A: Backhoe (up to and including 1 cu. yd. hydraulic); Backhoe (up to and including 1 cu. yd. cable); Cranes (not over 25 tons) (hammerhead and gantry); Grade-alls (up to and including 1 cu. yd.); Motor patrol; Power Shovels, Clamshells, Draglines; Cranes (up to and including 1 cu. yd.); Rubber-tired scraper, self-loading (twin engine); Self-propelled boom-type lifting device (canter mount) (over 10 tons); CMI dual lane auto-grader SP30 or similar

Group 11: Automatic Asphalt or Concrete slip form paver; Automatic railroad car dumper; Canal finger drain backfiller; Canal trimmer; Cranes (over 25 tons); Highline cableway operator; Loader (over 4 yds. up to and including 12 cu. yds.); Multiple-engine earthmoving equipment (up to and including 75 cu. yds. "struck" M.R.C.); Power shovels, clamshells, draglines, backhoes, grade-alls (over 1 yd. and up to and including 7 cu. yds. M.R.C.); Self-propelled compactor (with multiple propulsion power units); Single engine rubber-tired earth-moving machine (with tandem scraper); Slip form paver (concrete or asphalt); Tandem cats and scrapers; Tower crane mobile; Universal Liebher and tower cranes (and similar types); Wheel excavator (up to and including 750 cu. yds. per hour); Whirley cranes (over 25 tons); Euclid loadar when controlled from the pullcat

Group 11-A: Band wagons (in conjunction with wheel excavators); Loader (over 12 cu. yds.); Multi-engine earth moving equipment (over 75 cu. yds. "struck" M.R.C.); Operator of helicopter (when used in construction work); Power shovels and draglines (over 7 cu. yds. M.R.C.); Remote controlled earth moving equipment; Wheel excavator (over 750 cu. yds. per hour)

LABORERS
Heavy and Highway Construction
POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)
TRUCK DRIVERS

AREA 1: All of northern Nevada within the following lines:

Commencing at the N.E. corner of township 22N, range 18E, Mount Diablo Baseline and Meridian at the California-Nevada border;
Thence easterly to the N.E. corner of township 22N, range 22E;
Thence southerly to the N.E. corner of township 20N, range 22E;
Thence easterly to the N.W. corner of township 20N, range 26E;
Thence northerly to the N.W. corner of township 22N, range 26E;
Thence easterly to the N.W. corner of township 22N, range 29E;
Thence northerly to the N.W. corner of township 30N, range 29E;
Thence easterly to the N.E. corner of township 30N, range 33E;
Thence southerly to the S.E. corner of township 24N, range 33E;
Thence westerly to the S.E. corner of township 24N, range 31E;
Thence southerly to the S.E. corner of township 16N, range 31E;
Thence westerly to the S.E. corner of township 16N, range 30E;
Thence southerly to the S.E. corner of township 15N, range 30E;
Thence westerly to the S.E. corner of township 15N, range 27E;
Thence southerly to the S.E. corner of township 14N, range 27E;
Thence westerly to the S.E. corner of township 14N, ragne 23E;
Thence southerly to the S.E. corner of township 13N, range 23E;
Thence westerly to the S.E. corner of township 13N, range 22E;
Thence southerly to the N.E. corner of township 10N, range 22E;
Thence easterly to the N.E. corner of township 10N, range 23E;
Thence southerly along the easterly line of range 23E to the intersection of the California-Nevada border;
Thence north-westerly, then northerly following the California-Nevada border to the point of beginning.

Area 1 also includes that portion of northern Nevada included within the following lines:

Commencing at the S.W. corner of township 37N, range 52E;
Thence northerly to the N.E. corner of township 37N, range 52E;
Thence easterly to the N.W. corner of township 37N, range 58E;
Thence southerly to the S.W. corner of township 37N, range 58E;
Thence easterly to the S.E. corner of township 37N, range 58E;
Thence southerly to the N.E. corner of township 31N, range 58E;
Thence westerly to the N.W. corner of township 31N, range 58E;
Thence southerly to the S.W. corner of township 31N, range 58E;
Thence westerly to the S.E. corner of township 31N, range 52E;
Thence northerly to the N.E. corner of township 31N, range 52E;
Thence westerly to the S.E. corner of township 31N, range 51E;
Thence northerly to the point of beginning.

AREA 2: All areas not included within Area 1 as defined above.

SUPERSEDEAS DECISION

STATE: Oklahoma COUNTY: Atoka, Bryan, Choctaw, Haskell, LeFlore, Latimer, McCurtain, Pittsburg, Coal & Pushmataha
DECISION NO. OK78-4093 DATE: Date of Publication
Supersedes Decision No. OK77-4036 dated February 18, 1977 in 42 FR 10261

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Planning and Development

COMMUNITY DEVELOPMENT BLOCK GRANTS

Rehabilitation Assistance and Program Benefit

V 43 / 180 SEP 15 1978

[4210-01]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[24 CFR Part 570]

[Docket No. R-78-570]

COMMUNITY DEVELOPMENT BLOCK GRANTS

Rehabilitation Assistance and Program Benefit

AGENCY: Office of the Assistant Secretary for Community Planning and Development, (HUD).

ACTION: Proposed rule.

SUMMARY: HUD is issuing a proposed rule that would permit the use of block grant funds for rehabilitation assistance to be provided on a spot basis throughout the applicant's jurisdiction where this is necessary to eliminate conditions detrimental to public health and safety.

DATE: Comments must be received on or before: October 16, 1978.

ADDRESS: Comments should be addressed to: Rules Docket Clerk, Office of the General Counsel, Room 5218, 451—7th Street SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Harriet L. Frank or William R. Hammer, Entitlement Cities Division, Office of Block Grant Assistance Washington, D.C. 20410, 202-755-6304 or 6306.

Background

On March 1, 1978, final rules were published in the FEDERAL REGISTER governing eligible activities (43 FR 8434), and entitlement grants (43 FR 8450). These rules were based in part from amendments to title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) under title I of the Housing and Community Development Act of 1977 (Pub. L. 95-128). Those amendments eliminated the requirement that rehabilitation financing be incidental to other activities, and thus permitted rehabilitation financing to be provided on a spot basis throughout the community.

The rules published in March 1, 1978, restricted spot rehabilitation to low- and moderate-income persons. This notice proposes to expand the eligibility of spot rehabilitation to include situations where such rehabilitation is necessary to eliminate conditions detrimental to public health and safety.

Rehabilitation Assistance

Paragraph (c)(2) of section 570.202 is proposed to be amended to permit the use of block grant funds for spot rehabilitation where such rehabilitation is necessary to eliminate conditions detrimental to public health and safety. Rehabilitation assistance to be provided under this Section would not be limited to low- and moderate-income persons. However, it would be limited to those improvements necessary to correct the conditions detrimental to public health and safety. Unlike rehabilitation assistance provided under other provisions, general property improvements, and improvements of a cosmetic nature would not be permitted in these cases. The conditions to be remedied under this provision would generally be documented by the applicant as violations of health and safety or housing codes.

Program Benefit

Paragraph (e)(2) of § 570.302 is proposed to be revised to add rehabilitation to the list of activities that may be carried out under the category of elimination of scattered detrimental conditions, which is one of the categories of projects which prevent or eliminate slums or blight. Activities carried out under this provision would be limited to those necessary to correct the conditions that are detrimental to public health and safety. The overall requirement that block grant programs must principally benefit low- and moderate-income persons is not changed.

Other Information

A finding of inapplicability with regard to environmental impact has been prepared in accordance with HUD handbook 1390.1. Copies of this finding are available for inspection and copying during business hours in the Office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451-7th Street SW., Washington, D.C. 20410.

All relevant comments received on or before the date specified above will be considered before the adoption of the final rule. Copies of the comments will be available for examination during business hours at the above address.

Accordingly, 24 CFR Part 570 is amended as set forth below:

I. By amending § 570.202(c)(2) as follows:

§ 570.202 Eligible rehabilitation and preservation activities.

* * * * * *

(c) * * *

(2) *Rehabilitation financing.* Block grant funds may be used to finance the rehabilitation of privately owned residential, nonresidential (excluding industrial) and mixed use properties.

(i) Such financing may be provided either (A) within areas designated in the application for comprehensive treatment, such as a NSA; (B) for persons of low- and moderate-income; or (C) to eliminate conditions detrimental to public health and safety, provided that the rehabilitation assistance is limited to the extent necessary to correct the conditions that are detrimental to public health and safety.

(ii) Block grant funds may be used directly to finance rehabilitation, including settlement costs, through the direct use of block grant funds in the provision of assistance, such as grants, loans, loan guarantees, and interest supplements, for:

* * * * * *

II. By redesignating paragraphs (c)(2)(i), (ii), (iii), (iv), and (v) of § 570.202 as paragraphs (c)(2)(ii)(A), (B), (C), (D), and (E), respectively.

III. By amending § 570.302(e)(2) as follows:

§ 570.302 Authorization to incur costs.

* * * * * *

(e) * * *

(2) A project designed to eliminate detrimental conditions which are scattered or located outside slum or blighted areas. Authorized activities are only those necessary to eliminate the specific conditions of blight or physical decay, by acquisition of blighted structures, demolition, historic preservation, relocation, and rehabilitation to the extent necessary to eliminate conditions detrimental to public health and safety pursuant to § 570.202(c)(2)(i)(C).

* * * * * *

(Title I, Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.); Title I, Housing and Community Development Act of 1977 (Pub. L. 95-128); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., September 8, 1978.

ROBERT C. EMBRY, Jr.,
Assistant Secretary for Community Planning and Development.

The authentic text behind the news . . .

The Weekly Compilation of PRESIDENTIAL DOCUMENTS

Administration of Jimmy Carter

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published quarterly, semiannually, and annually. Other features include lists of acts approved by the President and of nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	CSC		CSA	CSC
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Revision of Delegations of Authority

AGENCY: Department of Agriculture.

ACTION: Final rule.

SUMMARY: This document transfers the delegations of authority for management of the Department's Equal Employment Opportunity Program and the EEO Discrimination Complaints and Appeals activities from the Director, Office of Personnel to the Director, Office of Equal Opportunity. This change will result in increased emphasis for the Department's EEO program. In addition, the delegations of authority relating to the Department's Contract Compliance program are revoked as the Department no longer has that responsibility.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

James Frazier, Director, Office of Equal Opportunity, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-4256.

Part 2, Subtitle A, Title 7, Code of Federal Regulations is amended as follows:

Subpart C—Delegations of Authority to the Deputy Secretary, Assistant Secretaries, the Director of Economics, Policy Analysis and Budget, and the Director, Office of Governmental and Public Affairs

1. Section 2.25 is amended by revoking and reserving paragraphs (h)(2) and (h)(3) as follows:

§ 2.25 Delegations of authority to the Assistant Secretary for Administration.

• • • • •

(h) Related to equal opportunity

• • •

(2) [Revoked and Reserved]
(3) [Revoked and Reserved]

• • • • •

Subpart J—Delegations of Authority by the Assistant Secretary for Administration

2. Section 2.78 is amended by revoking and reserving paragraphs (a)(11) and (a)(12) as follows:

§ 2.78 Director, Office of Personnel.

(a) • • •
(11) [Revoked and Reserved]
(12) [Revoked and Reserved]

• • • • •

3. Section 2.80 is amended by revoking and reserving paragraphs (a)(1) and (a)(2) and adding paragraphs (a)(13) through (21) as follows:

§ 2.80 Director, Office of Equal Opportunity.

(a) • • •
(1) [Revoked and Reserved]
(2) [Revoked and Reserved]

• • • • •

(13) Develop regulations, plans, and procedures necessary to carry out the Department's equal employment opportunity programs including the development, implementation, and coordination of EEO Action Plans.

(14) Coordinate activities of Agency EEO Counselors, as related to Departmental policies and procedures.

(15) Process formal EEO discrimination complaints, up to the appellate stage, by employees or applicants for employment.

(16) Develop, implement, and coordinate the Hispanic Employment Program.

(17) Develop, implement, and coordinate the Federal Women's Program.

(18) Administer the discrimination appeals and complaints program for the Department, including all formal individual or group appeals, where the system provides for an avenue of redress to the Department level, Civil Service Commission or other outside authority.

(19) Perform staff work for the Director of Equal Employment Opportunity including the preparation of decisions on complaints of discrimination.

(20) Provide liaison on EEO matters, including complaints and appeals, with the EEOC, the CSC, USDA agencies and Department employees.

(21) Serve as focal point through which all contacts involving matters relating to title VI of the Civil Rights Act of 1964 are made with the Department of Justice, except those matters in litigation including administrative enforcement actions which shall be coordinated by the Office of General Counsel.

(5 U.S.C. 301 and Reorganization Plan No. 2 of 1953.)

Dated: September 6, 1978.

For Subpart C:

BOB BERGLAND,
Secretary of Agriculture.

For Subpart J:

JOAN S. WALLACE,
Assistant Secretary for Administration.

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. No 99]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1979 and Succeeding Crop Years

EXTENSION OF FINAL DATES FOR FILING APPLICATIONS

AGENCY: Federal Crop Insurance Corporation.

ACTION: Rule; extension of sales closing dates.

SUMMARY: This is an extension of the final dates for the filing of applications for sugarcane crop insurance in all counties in Florida and Texas effective for the 1979 crop year. This action is being taken since the Federal Crop Insurance Corporation is contemplating changes in the current sug-

arcane crop insurance regulations effective with the 1979 crop year, and prospective insureds must be given sufficient time to consider such changes and to file applications under

SUGARCANE

• • • • •

"The closing date time for filing applications for year [illegible] for the

SUPPLEMENTARY INFORMATION: Notice is hereby given that the Nuclear Regulatory Commission has extended through March 14, 1979, the

arcane crop insurance regulations effective with the 1979 crop year, and prospective insureds must be given sufficient time to consider such changes and to file applications under the provisions of the revised regulations.

EFFECTIVE DATE: August 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Peter F. Cole, Secretary, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, D.C., 20250, 202-447-3325.

SUPPLEMENTARY INFORMATION: The normal closing date for the filing of applications for sugarcane crop insurance in those counties in Florida and Texas, where such insurance is otherwise authorized to be offered, is August 31.

The Federal Crop Insurance Corporation is currently considering a revision of the sugarcane crop insurance endorsement to become effective for the 1979 crop year. This revision will be issued in a separate document. The Corporation has determined that it would be fair and equitable to extend the sales closing date through September 30, 1978, for accepting applications for sugarcane crop insurance for the 1979 crop year inasmuch as the contemplated revision would become effective at about the same time as the closing date of August 31, or shortly thereafter.

The additional time for accepting applications will provide prospective insured an opportunity to examine the changes in the regulations. Extension of closing dates would be of benefit to the producer by allowing more time to consider crop insurance protection. Since this extension is of benefit to the producer and since producers need to be informed of such extension immediately, the Corporation has found and determined that compliance with the procedure for notice and public participation in the proposed rulemaking procedure would be impracticable, unnecessary, and contrary to the public interest. Therefore, this amendment is issued without compliance with such procedure. Accordingly, under the authority contained in the Federal Crop Insurance Act, as amended (7 U.S.C. 1501 et seq.), § 401.103(a) of the Federal Crop Insurance Regulations for the 1969 and succeeding crop years as found in 7 CFR Part 401 is amended by adding at the end of the entry under the heading of "Sugarcane" the following:

§ 401.103 Application for insurance.

(a) • • •

CLOSING DATES

"The closing date time for filing applications for crop insurance for the 1979 crop year on sugarcane in those counties in Florida and Texas where such insurance is otherwise authorized to be offered is hereby extended from August 31, 1978, until the close of business on September 30, 1978. Such applications received during this period will be accepted only after it is determined that no adverse selectivity will result."

(Secs. 506, 615, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1501, 1516.)

Dated: September 1, 1978.

JOYCE M. MCCOY,
Acting Secretary,
Federal Crop Insurance Corporation.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 164; Lemon Reg. 162, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of California-Arizona lemons that may be shipped to the fresh market during the period September 17-23, 1978, and increases the quantity of such lemons that may be so shipped during the period September 10-16. Such action is needed to provide for orderly marketing of fresh lemons for the periods specified due to the marketing situation confronting the lemon industry.

DATES: The regulation becomes effective September 17, 1978, and the amendment is effective for the period September 10-16, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Findings. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under this marketing order, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on September 12, 1978, to consider supply and market conditions and other factors affecting the need for regulation, and recommended quantities of lemons deemed advisable to be handled during the specified weeks. The committee reports the demand for lemons continues good on 140's and larger, easier on 165's and smaller.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of lemons. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

1. Section 910.464 is added as follows:

§ 910.464 Lemon regulation 164.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period September 17, 1978, through September 23, 1978, is established at 200,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

§ 910.462 Amended.

2. Paragraph (a) of § 910.462 lemon regulation 162 (43 FR 39954) is amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period September 10, 1978, through September 16, 1978, is established at 235,055 cartons."

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: September 13, 1978.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-26266 Filed 9-14-78; 12:40 pm]

[3410-07]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER K—PROPERTY MANAGEMENT

[FmHA Instruction 1955-C]

PART 1955—REAL ESTATE AND CHATTEL PROPERTIES

Subpart C—Disposal of Acquired Property

SUITABLE PROPERTY

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations to reflect a change resulting from recent legislation. The intended effect is to include as "suitable property" in Government inventory all property that was in a rural area when the initial loan was made but which area was later reclassified as nonrural due to development and population expansion.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert M. Yates, 202-447-3752.

SUPPLEMENTARY INFORMATION: Section 1955.103(e) of subpart C, part 1955, chapter XVIII, title 7 in the Code of Federal Regulations is amended. It is the policy of this Department that rules relating to public property, loans grants benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. These amendments, however, are not published for proposed rulemaking since the purpose of the change is to implement a recent legislative provision of the Agricultural Credit Act of 1978. This amendment also removes a restriction.

Accordingly, § 1955.103, paragraph (e) is amended as follows:

§ 1955.103 Definitions.

•	•	•	•	•

(e) *Suitable property.* Property that could be used by a borrower to carry out the objectives of an FmHA loan program with financing provided through that program. Any property located in an area whose designation has been changed from rural to nonrural and which is otherwise suitable property shall be considered as if it were still in a rural area.

•	•	•	•	•

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the assistant Secretary for Rural, development, 7 CFR 2.70; delegations of authority by Director, OEO 29 FR 14764, 33 FR 9850.)

Dated: September 6, 1978.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

[FR Doc. 78-26152 Filed 9-15-78; 8:45 am]

[7590-01]

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 51—LICENSING AND REGULATORY POLICY AND PROCEDURES FOR ENVIRONMENTAL PROTECTION

Uranium Fuel Cycle Impacts From Spent Fuel Reprocessing and Radioactive Waste Management

AGENCY: Nuclear Regulatory Commission.

ACTION: Extension of the interim fuel cycle rule.

SUMMARY: The Commission promulgated on March 14, 1977, an interim rule identifying the environmental impact values for the uranium fuel cycle which are to be included in environmental reports and environmental impact statements for individual light water nuclear power reactors. The interim rule was made effective for 18 months with the possibility of extension for good cause. The Commission now finds good cause to extend the period of effectiveness of the interim rule for 6 months, through March 14, 1979.

EFFECTIVE DATE: September 14, 1978.

FOR FURTHER INFORMATION CONTACT:

E. Leo Slaggie, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, phone 202-634-3224.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the Nuclear Regulatory Commission has extended through March 14, 1979, the effectiveness of the interim fuel cycle rule, 10 CFR 51.20(e) ("table S-3," as revised) originally made effective on March 14, 1977, for a period of 18 months (42 FR 13803, March 14, 1977). The Commission finds this extension desirable to avoid disruption in licensing procedures pending completion of the proceedings to promulgate a final fuel cycle rule.

BACKGROUND

The events leading to the promulgation of the Commission's interim fuel cycle rule were described at length in the March 14, 1977, notice of rulemaking (42 FR 13803). The Commission there stressed that the sole purpose of the interim rule and its predecessors was to identify the environmental impacts attributable to the reprocessing and waste management portions of the LWR fuel cycle. The Commission noted that it was not the purpose of the rulemaking proceeding to decide which of the various waste management approaches should be employed in practice or to settle upon licensing or site selection criteria. The interim rule represented a "temporary measure pending completion of the final rulemaking proceedings which will reflect additional public participation." The Commission expressed its belief that these proceedings could be concluded within the 18-month period of effectiveness established for the interim rule, but left open the possibility of entending the period of effectiveness for good cause.

After promulgating the interim rule, the Commission initiated public participation in developing a final rule by issuing on May 30, 1977, a notice of reopened hearing (42 FR 26987, May 26, 1977). A three-person Hearing Board was appointed to conduct the hearings under procedures established by the Commission. Twenty-four parties participated, including the NRC staff, other Federal agencies, several States, public interest groups, members of the nuclear industry, and interested individuals. The Board took written testimony from the parties, followed up by written questions and answers, and then heard 10 days' of oral testimony between January 16, 1978, and March 30, 1978. The record closed June 30, 1978, with the submission of final position statements by the parties. The Hearing Board has informed the Commission that its record includes more than 1,100 pages of direct testimony, several hundred pages of written responses to questions, more than 1,200 pages of transcript of oral hearings, written rebuttal testimony, and final concluding statements.

In June 1978, the Commission requested the Hearing Board to provide the Commission a report summarizing the record and outlining the signifi-

the advantage of keeping the interim rule in place outweighs the risk that use of the rule will lead to unsound results. Accordingly, the Commission

362, Supplement 1, may be obtained from:

Rolls-Royce Motors Ltd., Light Aircraft Engine Division, Crewe, Cheshire CW1

Compliance required within the next fifty (50) hours time in service after the effective date of this AD, unless already accomplished.

To prevent the possibility of cylinder head

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe,

upper edge of the cover and that it is slightly higher on the side opposite the fixed lug. Release the operating handle and check that it will automatically return to position "Don".

In June 1978, the Commission requested the Hearing Board to provide the Commission a report summarizing the record and outlining the significant issues raised in the proceedings. The Commission also requested, once that was completed, that the Hearing Board submit its recommendations regarding the reprocessing and waste management aspects of the fuel cycle rule. Anticipating that the time required for the Board to prepare recommendations and for the Commission to make full use of the extensive record might well extend past the September 14, 1977 expiration date of the interim rule, the Commission also asked the Hearing Board for its views on whether the record supports extension of the rule for a reasonable period.

On August 31, 1978, the Hearing Board submitted its 137-page summary and outline. In an accompanying memorandum the Board advised the Commission that preparation of their recommendations may take until October 31 1978. In an attachment to the summary and outline, the Board stated in response to the Commission's request for its views on extending the interim rule:

> It is our view that the rulemaking record adequately supports an extension of the interim rule for a reasonable period, pending completion of our recommendations and Commission consideration prior to action on a final rule. * * * We have concluded that, as a result of the record in the reopened proceedings, some additions in and modifications to the fuel cycle rule as it affects reprocessing and waste management are warranted and will, therefore, be recommended. These additions and modifications are not, in our opinion, substantial enough to change the effects of the present interim rule.

EXTENSION OF INTERIM RULE

The Commission is now confronted with the question whether there is good cause to extend the interim rule for the additional time preparation of a final rule will require. When the interim rule was promulgated, the Commission reviewed in detail the balance of considerations, weighing "the costs of a hiatus in licensing that would be caused by the failure to promulgate an interim rule" against "the risks of proceeding by interim rule where the sufficiency of the information supporting the rule might later be called into question during the final rulemaking proceeding on the permanent rule." (42 FR 13803, 13804.) The Commission found then that the balance favored having the interim rule.

Now that the Commission has before it the summary of the final rulemaking hearings and the Hearing Board's view that the record supports extension of the interim rule, the Commission has further strong evidence that the advantage of keeping the interim rule in place outweighs the risk that use of the rule will lead to unsound results. Accordingly, the Commission finds good cause to extend the period of effectiveness of the interim rule through March 14, 1979. The Commission has considered extension for a shorter period, notably the January 1, 1979, date urged by the Natural Resources Defense Council in letters dated July 14 and August 29, 1978. The Commission has instead opted for extension to March 14, 1979, so that the additional period would provide a reasonable margin following receipt of the Hearing Board's recommendation, for the Commission to consider carefully the outcome of the final rulemaking.

The Commission will address NRDC's general procedural suggestions for the conclusion of the S-3 rulemaking in a separate order to be issued shortly.

Dated at Washington, D.C., this 12th day of September 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 18298; Amdt. 39-3301]

PART 39—AIRWORTHINESS DIRECTIVES

Rolls-Royce Motors Ltd. Model 0-200-A, -B, and -C Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts an airworthiness directive (AD) which requires resetting the Rolls-Royce Motors Ltd. Model 0-200 engine series magneto to engine timing and inspection of the cooling baffle installation. The AD is needed to prevent cylinder head cracking and possible head separation which could result in complete power loss.

EFFECTIVE DATE: October 2, 1978.

Compliance required within the next 50 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: Rolls-Royce Motors Ltd. Service Bulletins T-362 and T-362, Supplement 1, may be obtained from:

Rolls-Royce Motors Ltd., Light Aircraft Engine Division, Crewe, Cheshire CW1 3PL, England.

A copy of the Rolls-Royce Motors Ltd. Service Bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Mr. Don C. Jacobsen, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: There have been an increasing number of reports of cylinder head cracking on RRM 0-200 series engines which, if permitted to continue, could result in cylinder failure. Such failures could result in a complete power loss. These failures have been determined to be pressure and temperature oriented and may be caused by advanced magneto timing or improper installation of the engine cooling baffles. Since this condition is likely to exist or develop in other engines of the same type design, an airworthiness directive is being issued which requires resetting the magneto to engine timing to 24°+1°/−0° BTC on both magnetos and inspection for proper installation and security of all intercylinder and perimeter cooling baffles. It has been found that reduction of magneto timing to 24° BTC significantly decreases cylinder pressures and temperatures with no substantial effect on power or performance. Calibration testing conducted on a representative engine indicated a 1.5% power loss with average head temperature maintained at 475° F; however, when cooling air was held constant (as is the case in the aircraft installation) head temperatures decrease and tests indicate there is no apparent power reduction.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Adminstrator § 39.13 of Part 39 of the Federal Aviation Regulation (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

ROLLS ROYCE MOTORS LTD. Applies to all Model 0-200-A, -B, and -C engines.

Compliance required within the next fifty (50) hours time in service after the effective date of this AD, unless already accomplished.

To prevent the possibility of cylinder head cracking accomplish the following:

(a) Reset magneto to engine timing to 24°+1°/−0°, BTC on both magnetos.

(b) Overstamp the engine data plate timing number with the current 24° setting.

(c) Inspect for and insure proper installation and security of all intercylinder and perimeter cooling baffles in accordance with FAR § 43.13.

(d) Make a log book entry stating that the timing change has been made in compliance with this AD.

NOTE.—RRM Service Bulletins T-362 and T-362, Sup. 1, pertain to this subject.

This amendment becomes effective October 2, 1978.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1855 (c)); and 14 CFR 11.89.)

Issued in Washington, D.C., on September 8, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[4910-13]

[Docket No. 17844; Amdt. 39-3302]

PART 39—AIRWORTHINESS DIRECTIVES

Messerschmitt-Bolkow-Blohm GmbH Model BO-105 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires replacement or repair of certain Autoflug safety belts type BAGU FAG-5 and FAG-7 equipped with type GL-2 buckles and installed in the BO-105 series helicopters. The AD is needed to prevent jamming of the seat belt buckle release mechanism which could result in the entrapment of the occupant.

DATES: Effective October 18, 1978. Compliance schedule—As prescribed in body of AD.

ADDRESSES: The applicable Technical Instruction may be obtained from Messrs. Autoflug GmbH, Industriestrasse 10, D-2084 Rellingen 2, West Germany.

A copy of the Technical Instruction is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone: 513.38.30.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an AD requiring replacement or repair of Autoflug type BAGU FAG-5 and FAG-7 safety belts with type GL-2 buckles and manufactured prior to October 1, 1974, and installed on Model BO-105 series helicopters was published in the FEDERAL REGISTER at 43 FR 16740 on April 20, 1978. The proposal was prompted by reports of jamming of the seat belt buckle release mechanism which could result in the entrapment of the occupant.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received. Accordingly, the proposal is adopted without substantive change. Minor clarifying changes have been made.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

MESSERSCHMITT-BOLKOW-BLOHM GmbH. Applies to all Model BO-105 helicopters, all serial numbers, equipped with Autoflug safety belts types BAGU FAG-5 and FAG-7 with type GL-2 buckles and a date of manufacture prior to October 1, 1974.

Compliance required as indicated unless already accomplished.

To reduce the possibility of the safety belt release mechanism either jamming or requiring release forces beyond a specified range, while the belt is stressed under a load condition, accomplish the following:

(a) Within the next 30 hours time in service after the effective date of this AD, inspect the safety belts and if the date of manufacture stamped on the belt's name tag is prior to October 1, 1974, before further use, except that the aircraft may be flown in accordance with FAR 21.197 and 21.199 to a place where repairs or replacement can be made—

(1) Replace the safety belt assembly with a serviceable safety belt assmbly of the same part number; or

(2) Repair the GL-2 buckle assembly in accordance with Autoflug Technical Instruction No. 3/77, or an FAA-approved equivalent, and test the buckle and release mechanism for proper operation in accordance with paragraphs (a)(2) (i) through (iv) of this AD, or an FAA-approved equivalent.

(i) *Checking the locking and release action of the buckle.* Set the opening lever of the buckle to position "Release" and press the lever against the stop. Check that the lever flange of the body is at least level with the upper edge of the cover and that it is slightly higher on the side opposite the fixed lug. Release the operating handle and check that it will automatically return to position "Don".

Lift the operating lever position "Release" and press it at right angles to its longitudinal axis to place the body in an inclined position. Check that the body tumbles freely in the cover.

(ii) *Checking the arresting mechanism of the operation lever.* In position "Locked" the release force of the arresting mechanism of the operating lever—measured at the strap handle and at right angles to the lever—must be 4.4 ± 1.4 lbs.

(iii) *Checking the locking mechanism of the multiple-point buckle.* Insert the belt lugs into the multiple-point buckle and subject each lug to a load of approximately 20 lbs. with the load applied at right angles to the buckle plane. Perform this test once with the cover of the buckle pointing upwards and once downwards, ensuring that the operating lever and body are unobstructed. The buckle must not open and must keep the belt lugs securely locked.

(iv) *Checking the force to release.* With the safety belt fastened and positioned to simulate an inverted aircraft/seat position and while applying 250 lbs. load uniformly distributed across the buckle and belt webbing, measure the force necessary on the operating lever to actuate belt release. The measured force to actuate belt release must not be greater than 45 lbs.

(b) Mark the safety belts repaired and tested to comply with paragraph (a)(2) of this AD with permanent legible marking either on the manufacturer's name tag or on the belt webbing near the name tag with the number of this AD and the date repaired.

(c) If the safety belt is tested prior to repair in accordance with paragraph (a)(2) and complies with the limits specified in paragraphs (a)(2) (i) through (iv) of this AD, the compliance time to effect repairs is extended to 150 hours time in service after the effective date of this AD, at which time the GL-2 buckle assembly must be replaced or repaired and retested in accordance with paragraph (a) of this airworthiness directive.

(d) Equivalent means of compliance with the AD must be approved by the Chief, Aircraft Certification Staff, Europe, Africa, and Middle East Region.

This amendment becomes effective October 18, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

Issued in Washington, D.C., on September 8, 1978.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[4910-13]

[Docket No. 75-CE-26-AD; Amdt. 39-3298]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna T310, 320, 340, 401, and 411 Series Airplanes and Cessna Models 402, 402A, 402B, 414, 421, 421A, and 421B Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule (revision).

SUMMARY: This amendment revises Airworthiness Directive 75-23-08, applicable to Cessna T310, 320, 340, 401, and 411 series airplanes, and Cessna Models 402, 402A 402B, 414, 421, 421A, and 421B airplanes by either deleting or extending the inspection intervals on new improved exhaust system components. This action provides relief to owners/operators without compromising safety.

EFFECTIVE DATE: September 25, 1978.

COMPLIANCE: As prescribed in the body of the AD.

ADDRESSES: Cessna multi-engine service letter No. ME77-1 (supplement No. 2), dated June 26, 1978, referenced in this AD, may be obtained from Cessna Aircraft Co., Marketing Division, Attention: Customer Service Department, Wichita, Kans. 67201; telephone 316-685-9111. A copy of the service letter cited above is contained in the rules docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Mo. 64106 and at Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Donald L. Page, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106; telephone 816-374-3446.

SUPPLEMENTARY INFORMATION: This amendment revises AD 75-23-08, applicable to Cessna T310, 320, 340, 401, and 411 series airplanes, and Cessna Models 402, 402A, 402B, 414, 421, 421A, and 421B airplanes. AD 75-23-08 presently requires repetitive inspections of exhaust system components on these airplanes. Subsequent to the issuance of this AD, the manufacturer has developed and made available exhaust system components having increased reliability that permit either deletion or extension of the inspection intervals without compromising the existing level of safety. In addition, the manfacturer has issued supplement No. 2 to Cessna service letter No. ME77-1 to reflect this and to update its existing exhaust system component and inspection information. Finally, on new models of certain series airplanes to which this AD is applicable, the manufacturer has incorporated improved exhaust systems which render future applicability unnecessary. Accordingly, the FAA is revising the AD to make it consistent with these actions.

Since this amendment is relieving in nature and imposes no additional burden on any person, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after the date of publication in the FEDERAL REGISTER.

ADOPTION OF AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by revising AD 75-23-08, amendment 39-2419 (40 FR 52717-52720) as corrected on December 1, 1975 (40 FR 55637) and as revised by amendments 39-2687 (41 FR 33245, 33246) and 39-2830 (42 FR 9013), as follows:

(1) Revise the applicability statement so that it now reads as follows:

CESSNA: Applies to T310, 320, 340, 401, and 411 series airplanes and Models 402, 402A, 402B, 414, 421, 421A, and 421B airplanes.

(2) Revise Paragraph I.A) so that it now reads as follows:

"I. Repetitive General Exhaust System Inspection:

(A) On all new and in-service airplanes listed above, visually inspect the exhaust system components per procedures hereafter specified in accordance with the following schedule:

50-HOUR INSPECTION

Inspect components not listed in table II or III within 50 hours time-in-service after the effective date of this AD or last inspection per AD 75-04-01 and within each 50 hours time-in-service thereafter.

100-HOUR INSPECTION

Inspect components listed in table II within 100 hours time-in-service after the effective date of this AD or last inspection in accordance with this AD and within each 100 hours time-in-service thereafter.

EXEMPT COMPONENTS

Components listed in table III are exempt from these inspection requirements.

3) Delete the existing Table I and insert a new Table I which reads:

TABLE I

NOTES FOR TABLE II

GENERAL NOTES: 0850XXX and 5654XXX numbers shown in parenthesis are earlier part numbers for the corresponding 9910XXX part numbers.

Ball joint attaching parts (springs, bolts, nuts, washers and cotter pins) are subject to the 100-hour inspection instead of the 50-hour only if installed in combination with the components listed in Table II.

1. Exhaust stack assemblies are sealed type and the part numbers shown include risers for both cylinder banks and the cross-over pipes.
2. Components incorporate formed sheet metal coupling flanges.
3. Components incorporate external safety ring.
4. Compcnents incorporate internal safety sleeve.
5. Components incorporate seal-less style machined coupling flanges.
6. Components require seals (part number 17189-250-N1) at coupling flange.
7. Alternate for MVT68892-250 and 4301BT250 couplings.
8. Gasket (P/N 24096-300-N) not required when these parts are installed.
9. NH1000897-30 supersedes 4356AA300. Gasket (P/N 24096-300-N) is required on all 421 aircraft not equipped with 9910379-19 & -20 Elbow Assemblies.

5) Immediately following Table II add Table III which reads:

(6) Revise the sentence immediately following paragraph VI to read:

Cessna service letter ME75-17 dated July 14, 1975 and Cessna service letter ME77-1

miles to 30 miles. Interested persons were invited to participate in this rule-making proceeding by submitting written comments on the proposal to the FAA. No comments were received.

[4910-13]

[Airspace Docket No. 78-NW-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Control Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes Control 1445 northwest of Neah Bay, Wash., since it has been rarely used. This action returns the airspace to the public for unrestricted use.

EFFECTIVE DATE: November 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Lewis W. Still, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-8525.

SUPPLEMENTARY INFORMATION:

HISTORY

On June 19, 1978 (43 FR 26321), the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revoke Control Area 1445 which extends northwest from the Neah Bay, Wash., for approximately 33 miles with a width varying from 10 miles to 30 miles. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. This amendment is the same as that proposed in the notice. Section 71.163 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 348).

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.163 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 348) is amended, effective 0901 G.m.t., November 2, 1978, as follows:

Under § 71.163, the designation of Control 1445 is revoked.

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on September 7, 1978.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 76-NW-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Controlled Airspace, Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the designation of controlled airspace in the vicinity of Richland, Wash. The rule designates additional airspace as a control zone. This action is necessary to provide controlled airspace protection for aircraft executing approaches to the Richland Airport.

EFFECTIVE DATE: October 19, 1978.

FOR FURTHER INFORMATION CONTACT:

Dale C. Jepsen, Airspace Specialist (ANW-533), Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108; telephone: 206-767-2610.

SUPPLEMENTARY INFORMATION:

HISTORY

A notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER on Thursday, July 6, 1978, which described the proposed Richland, Wash., control zone. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. Comments were received from the Aircraft Owners and Pilots Association (AOPA) and the Women's Medical Service, P.C., both of which favored the proposal.

THE RULE

This amendment to part 71 of the Federal Aviation Regulations (FAR) designates control zone airspace as controlled airspace to encompass aircraft executing approaches to the Richland, Wash., Airport.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.171 (subpart F) of the Federal Aviation Regulations is amended as follows:

RICHLAND, WASH.

That airspace bounded by a line beginning at latitude 46°15'46" N., longitude 119°13'06" W., thence clockwise along an arc of a 5-mile radius circle centered on the Richland Airport (latitude 46°18'30" N., longitude 119°18'00" W.) to latitude 46°18'27" N., longitude 119°11'43" W., thence counterclockwise via an arc of a 5-mile radius centered on the Tri-Cities Airport (latitude 46°15'50" N., longitude 119°16'53" W.) to point of beginning. Unless specified by Notice to Airmen, this Control Zone is effective continuously.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Seattle, Wash., on September 7, 1978.

C. B. WALK, Jr.,
Director, Northwest Region.

[Airspace Docket No. 78-ANW-14]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Controlled Airspace, Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the designation of controlled airspace in the vicinity of Pendleton, Oreg. This alteration is needed to accommodate a planned standard instrument approach procedure to the Hermiston, Oreg., Airport. The status of the Hermiston Airport will change from VFR to IFR in conjunction with the establishment of the standard instrument approach procedure.

EFFECTIVE DATE: October 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Dale C. Jepsen, Airspace Specialist (ANW-533), Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108; telephone 206-767-2610.

SUPPLEMENTARY INFORMATION:

History

A notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER on Thursday, July 20, 1978, which described the proposed Pendleton 700-foot transition area. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. The one comment received was from the Aircraft Owners and Pilots Association (AOPA) which voiced no objection to the proposal.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (FAR) designates additional 700-foot transition area at Pendleton, Oreg., as controlled airspace to encompass aircraft executing a standard instrument approach procedure to the Hermiston, Oreg., Airport.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Pendleton, Oreg., transition area in section 71.181 of part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective 0901 G.m.t., September 15, 1978, as follows:

Pendleton, Oreg.

Add the following description to the 700-foot airspace designation:

"Within a 5-mile radius of the Hermiston Municipal Airport (latitude 45°49'39" N., longitude 119°15'41" W.) and within 2.5 miles each side of the Pendleton VORTAC 300° radial, extending from the 5-mile radius area to the Pendleton VORTAC."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Seattle, Wash., on September 7, 1978.

C. B. WALK, Jr.,
Director,
Northwest Region.

[Airspace Docket No. 78-RM-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Establishment of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates a 1,200-foot transition area at Bozeman, Mont. This action is necessary to provide controlled airspace for holding aircraft and additional controlled airspace for air traffic control purposes.

EFFECTIVE DATE: 0901 G.m.t., November 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David M. Laschinger, Operations, Procedures, and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010; telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

History

On July 17, 1978, the FAA published for comment, a proposal to designate a 1,200-foot transition area at Bozeman, Mont. (43 FR 30573). The only comment received expressed no objection.

Rule

This amendment to part 71 of the Federal Aviation regulations (FAR's) designates a 1,200-foot transition area at Bozeman, Mont. This action is necessary to provide controlled airspace for holding aircraft and additional controlled airspace for air traffic control purposes.

Drafting Information

The principal authors of this document are Mr. David M. Laschinger, Operations, Procedures, and Airspace Branch, Air Traffic Division, and Mr. Daniel J. Peterson, Office of Regional Counsel.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the administrator, part 71 of the Federal Aviation regulations (14 CFR Part 71) is amended effective 0901, G.m.t., November 2, 1978, as follows:

By amending subpart G § 71.181 by designating the following transition area:

Bozeman, Mont.

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Gallantin Field (latitude 45°46'50" N., longitude 111°09'20" W.) and within 5.5 miles northeast and 9.5 miles southwest of the Bozeman ILS northwest localizer course extending from the 11-mile radius area to 28 miles northwest of Gallatin Field, and that airspace extending upward from 1,200 feet above the surface bounded on the south by the northern edge of V86, on the west by the east edge of V21, on the north by the Helena, Mont., 1,200-foot transition area, on the east by a point 8 miles east of V2, excluding that area designatd as the Butte, Mont., 1,200-foot transition area.

(Sec. 307 (a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on September 6, 1978.

M. M. MARTIN,
Director,
Rocky Mountain Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Smithfield, R.I., 700-Foot Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment changes the designation of the Smithfield, R.I., 700-foot transition area to Pawtucket, R.I., and amends the transition area to provide added controlled airspace for aircraft executing a new RNAV runways 5 and 23 and VOR-B standard instrument approach procedures to the Pawtucket, R.I., North Central State Airport.

EFFECTIVE DATE: November 2, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard G. Carlson, Operations Procedures and Airspace Branch, ANE-536, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803; telephone 617-273-7285.

SUPPLEMENTARY INFORMATION: On July 20, 1978, the Federal Aviation Administration published a notice proposed to change the designation of the Smithfield, R.I., 700-foot transition area to Pawtucket, R.I., and to amend the transition area to provide added controlled airspace for aircraft executing new RNAV runways 5 and 23 and standard instrument approach procedures to the Pawtucket, R.I., North Central State Airport.

No objections were received.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator the description of the Smithfield, R.I., 700-foot transition area in part 71, § 71.181 of the Federal Aviation regulations (14 CFR Part 71.181) is amended, effective 0901 G.m.t., November 2, 1978, as follows:

a. Change the title of Smithfield, R.I., 700-foot transition area to Pawtucket, R.I., 700-foot transition area.

b. Delete from the description the words: "excluding the portion that overlaps the Providence 700-foot Transition Area," and substitute the words: "and within 5 miles each side of the 097 radial from the PUTNAM VORTAC extending from the 5 mile radius to VORTAC, and within 4 miles each side of Runway 5 centerline extended from the 5 mile radius area to 9 miles southwest of the runway threshold and within 2.5 miles each side of Runway 23 centerline extended from the 5 mile radius area to 6 miles northeast of the runway threshold; excluding that portion that coincides with the Providence, Rhode Island, Danielson, Connecticut, Hopedale, Massachusetts, and Southbridge, Massachusetts 700-foot transition areas."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Burlington, Mass., on August 29, 1978.

ROBERT E. WHITTINGTON,
Director,
New England Region.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 33-5977]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Increase In Amount of Small Offering Exemption

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: A recent amendment to the Securities Act of 1933 increased the dollar amount of securities of an issue which the Commission may exempt from registration by rule or regulation from $500,000 to $1,500,000. The testimony received by the Commission during its recently completed small business hearings indicates there is a substantial need for an increase in the dollar limit ceiling on the small offering regulation. The Commission is therefore amending its small offering regulation to increase the aggregate amount of securities which may be sold thereunder within a 12-month period from $500,000 to $1,500,000. The Commission is also amending a rule in its small offering regulation to increase the amount of securities which may be sold without the use of an offering circular from $50,000 to $100,000.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

John A. Granda, or Paul A. Belvin, Office of Disclosure Policy and Proceedings, Division of Corporation Finance, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-1750.

SUPPLEMENTARY INFORMATION: On May 21, 1978, section 3(b) of the Securities Act of 1933 (the "Act") (15 U.S.C. 77a et seq.) was amended by Pub. L. 95-283 to increase the limit on the aggregate offering price of securities which may be sold pursuant to a rule or regulation thereunder from $500,000 to $1,500,000. The Securities and Exchange Commission today announced amendments to regulation A (17 CFR 230.251 to 230.264), adopted pursuant to section 3(b), which: (1) Raise the aggregate offering price of securities which may be sold thereunder by an issuer within a 12-month period from $500,000 to $1,500,000,[1] and (2) raise the aggregate offering price of securities which may be sold without the use of an offering circular, pursuant to rule 257 (17 CFR 230.257), from $50,000 to $100,000.

Background

Section 3(b) of the Act authorizes the Commission to adopt rules and regulations to exempt securities from the registration requirements of the Act, subject to appropriate conditions, if it finds that such registration is not necessary in the public interest and for the protection of investors by reason of the small amount involved or the limited character of the public offering.

Pursuant to section 3(b), the Commission adopted regulation A.[2] The regulation reflects the intent of Congress, as represented by section 3(b), by conditionally exempting from registration those small issues of securities which are offered to the public in such a manner as to meet the statutory criteria specified above. Thus, the regulation requires, among other things, that a notification and an offering circular containing certain specified information be filed with the regional office of the Commission for the region in which the issuer's principal business operations are conducted. The offering circular is required to be furnished to prospective investors at

[1] The initial ceiling under section 3(b) and the regulation was $100,000. In May 1945, the Commission amended regulation A, pursuant to statutory authorization, to increase the maximum of the offering to $300,000. The ceiling price was again raised, pursuant to amended statutory authorization, in January 1971 to $500,000.

[2] Under the authority granted by section 3(b) the Commission has also, inter alia, adopted regulation B (17 CFR 230.300-230.346) for fractional undivided interests in oil or gas rights, and regulation F (17 CFR 230.651-230.656), for assessments or assessable stock and for assessable stock offered or sold to realize assessments.

forth in rule 257 may, however, be made without the use of an offering circular if the aggregate offering price of all securities of the issuer, its predecessors and affiliates does not exceed

sion expressed its support for these increases with the proviso that it be made clear that the Commission would retain its present flexibility to adopt rules classifying offerings under

it is appropriate to raise the amount allowable under rule 257 to $100,000.

Possible Future Action

A thorough review of the require-

under section 13 of that act.[13] The Commission recognizes the possible burden on smaller issuers which may arise as a result of these registration

Statutory Basis and Effective Date

The amendments to rules 254 and 257 have been adopted by the Commission pursuant to the Securities Act of

SUPPLEMENTARY INFORMATION: On August 3, 1978, notice was given (43 FR 34203) that E. I. du Pont de Nemours & Co., Inc., Wilmington, Del. 19898, had filed a petition (FAP

forth in rule 257 may, however, be made without the use of an offering circular if the aggregate offering price of all securities of the issuer, its predecessors and affiliates does not exceed $50,000.[3]

One of the Commission's primary purposes in adopting regulation A was to provide, consistent with the protection of investors, a simple and relatively inexpensive procedure by which small businesses could raise limited amounts of needed capital. As currently written, regulation A does not require certified financial statements for most issuers,[4] thus reducing costs of compliance. Also, attorneys' fees are normally lower for the preparation of a regulation A filing than a registration statement under the Act. In addition, many smaller, local issuers have found that since a regulation A offering is reviewed by the Commission's regional offices, the reviewing process is more convenient than if the filing were made in Washington, D.C.

Despite these advantages, the number of issuers utilizing the exemption has declined drastically from 998 in 1972, to 657 in 1973, 331 in 1974, 250 in 1975, 226 in 1976, and 158 in 1977. Based on the record developed at the Commission's recently completed small business hearings,[5] it appears that this trend is primarily attributable to the regulation's $500,000 offering ceiling. The expanding capital requirements resulting from inflation are unlikely to be adequately met with an offering of this size. Moreover, the issuer is receiving a lower percentage of the net proceeds as compared to earlier periods because of the increasing costs of making a regulation A offering. The reluctance of underwriters to become involved in an offering of $500,000 also appears to have played a part in the declining use of the exemption.

Congressional recognition of these limitations resulted in the introduction of a number of bills to raise the dollar limit ceiling in section 3(b) to $2,500,000 or $3,000,000.[6] The Commission expressed its support for these increases with the proviso that it be made clear that the Commission would retain its present flexibility to adopt rules classifying offerings under regulation A, and otherwise, based on such factors as the size of the offering and the business and history of the issuer.[7] The legislative history of the bill which was enacted makes clear that the Commission retains its present flexibility under section 3(b).[8]

DISCUSSION

(1) *Regulation A:* In view of the fact that section 3(b) was raised to only $1,500,000 and not to the amounts previously proposed, the Commission believes that the regulation A ceiling stated in rule 254 may be raised correspondingly without the need for a revision of the existing requirements of the regulation. In determining not to require certified financial statements for offerings above $500,000, the Commission was guided by its recognition that such a requirement would deny the use of the regulation to many deserving small businesses which are severely in need of capital. In this connection, the Commission notes that the securities laws of many States would require certified financial statements in order to qualify an issue for sale in such States. It is also noted that underwriters frequently require that the offering circular contain certified financial statements as a condition to their participation in an offering. In those situations where these factors do not prevent an offering without certified financials, the Commission does not feel justified at this time in foreclosing the availability of regulation A. The Commission does, however, strongly encourage the use of certified financials and will closely monitor enforcement matters arising in this area to determine whether further requirements are necessary.

(2) *Rule 257:* As indicated previously, rule 257 permits offerings not exceeding $50,000 to be made by seasoned issuers[9] without the use of an offering circular. Although the rule is available for primary and secondary offerings of securities, it is not presently being utilized extensively. This may be due in part to the limited amount of securities which may be sold thereunder.

In view of the apparent lack of abuse attendant to use of the rule and the fact that the $50,000 amount was not increased when the statutory ceiling was increased from $300,000 to $500,000, the Commission believes that it is appropriate to raise the amount allowable under rule 257 to $100,000.

POSSIBLE FUTURE ACTION

A thorough review of the requirements of regulation A is contemplated, particularly with a view to addressing the comments raised in the small business hearings. This will also provide an opportunity to consider in detail a number of staff proposals for streamlining procedures and reducing the cost of compliance for certain quality companies wishing to avail themselves of the regulation.[10] The Commission is, however, of the view that the immediate assistance which can be provided to small businesses by an increase in the ceilings under rules 254 and 257 should not await the completion of a comprehensive review of regulation A. The magnitude of any increases in the dollar amounts of secondary sales of securities by affiliates and others under the regulation will also be addressed at that time. The Commission recognizes that secondary offerings have an effect on the ability of small businesses to raise capital because of the liquidity which they provide, but further inquiry is necessary to determine what the limits of such sales should be.

It should be noted that issuers completing an offering under regulation A for the maximum $1,500,000 may thereby become subject to the requirements of section 12(g) under the Securities Exchange Act of 1934 ("Exchange Act") [15 U.S.C. 78a et seq., as amended by Pub. L. 94-29 (June 4, 1975)]. Section 12(g) requires an issuer with total assets exceeding $1 million and with a class of equity securities held of record by 500 or more persons to register that class with the Commission within 120 days after the close of the fiscal year in which these criteria are met. Registration under section 12(g) triggers, among other things, the obligation to file a registration statement[11] under the Exchange Act and thereafter to file periodic reports under section 13 of that act.[12] The Commission recognizes the possible burden on smaller issuers which may arise as a result of these registration and reporting requirements. Thus, among the topics addressed at the Commission's small business hearings was whether there should be a reduction in the amount of disclosure required for such small companies. It is contemplated that this question will be examined based on the testimony and written submissions received during the hearings and the experience gained with companies filing under the new regulation A ceiling.

TEXT OF AMENDMENTS

Part 230 of Chapter II of Title 17 of the Code of Federal Regulations is amended as follows:

1. § 230.254(a)(1)(i) is revised to read as follows:

§ 230.254 Amount of securities exempted.

(a) • • •

(1) • • •

(i) $1,500,000 if the securities are offered or sold by or on behalf of the issuer, or by the estate of a decedent who owned the securities at death if offered within 2 years after the death of a decedent, or by affiliates of issuer: *Provided,* That the aggregate offering price of securities offered or sold by or on behalf of any one affiliate other than an estate shall not exceed $100,000; and

• • • • •

2. § 230.257 is revised to read as follows:

§ 230.257 Offerings not in excess of $100,000.

Except as to issues specified in paragraph (a) of § 230.253 and issues of assessable stock, the offering circular specified in § 230.256 need not be filed or used in connection with an offering of securities under this regulation if the aggregate offering price of all securities of the issuer, its predecessors and affiliates offered or sold without the use of such an offering circular does not exceed $100,000, computed in accordance with § 230.254, provided the following conditions are met.

• • • • •

(Secs. 3(b), 19(a), 48 Stat. 75, 85; secs. 202, 209, 48 Stat. 906, 908; 59 Stat. 167; Pub. L. 91-565, 84 Stat. 1480; sec. 308(a)(2), 90 Stat. 57; 15 U.S.C. 77c(b), 77s(a).)

STATUTORY BASIS AND EFFECTIVE DATE

The amendments to rules 254 and 257 have been adopted by the Commission pursuant to the Securities Act of 1933, particularly sections 3(b) and 19(a) thereof. The amendments will become effective September 18, 1978.

The Commission finds that the changes in rules 254 and 257 have already been generally subject to comment in Securities Act Release No. 33-5914 (43 FR 10876) and in its small business hearings, and represent a relaxation of existing requirements, so that further notice of rulemaking procedures pursuant to the Administrative Procedure Act (5 U.S.C. 553) are not necessary.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 11, 1978.

[FR Doc. 78-26209 Filed 9-15-78; 8:45 am]

[3] Although an offering circular does not have to be filed, rule 257(a) does require that there be filed as an exhibit to the notification a statement setting forth the information (other than financial statements) required by schedule I of form 1-A.

[4] Regulation A requires that the offering circular contain financial statements covering the issuer's last 2 full fiscal years. The statements required for the issuer's latest fiscal year must be certified if the issuer has filed or is required to file with the Commission certified financial statements for such fiscal year.

[5] The transcript of this proceeding as well as comment letters and written submissions are contained in Commission file No. S7-734 and are available for public inspection and copying.

[6] See, e.g., S. 2305, 95th Cong., 1st sess. and S. 1815, 95th Cong., 1st sess., respectively.

[7] See, e.g., Commission comments on S. 2305 and S. 1815.

[8] See, 124 Cong. Rec. S6444 (daily ed. Apr. 26, 1978) (remarks of Senator Williams).

[9] This would include issuers which have been organized or incorporated for more than 1 year and have a net income from operations for 1 of the last 2 years.

[10] In release No. 33-5915 (Mar. 6, 1978), the Commission invited comment on a proposed new registration form, form S-18, under the Securities Act. That proposed form is contemplated for offerings of less than $3 million by issuers not required to file reports under the Exchange Act. In considering the record of the small business hearings and the comments on proposed form S-18, the Commission will also consider the question of whether the increase in the regulation A ceiling justifies a revision in the ceiling contemplated under proposed form S-18.

[11] The form most likely to be used for such registration statement is form 10 (17 CFR 249.210) which requires, among other things, an audited year-end balance sheet and audited statements of income and source and application of funds for each of the 3 fiscal years preceding the date of such balance sheet.

[12] It should be noted that the Foreign Corrupt Practices Act of 1977 (Pub. L. 95-213) (Dec. 19, 1977) amended the Exchange Act, among other things, to require reporting companies to make and keep detailed books, records and accounts which, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the registrants.

[FAP 8H5189/R38; FRL 969-2]

SUBCHAPTER E—ANIMAL FEEDS, DRUGS, AND RELATED PRODUCTS

PART 561—TOLERANCES FOR PESTICIDES IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

Oxamyl

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule amends 21 CFR Part 561 by establishing a feed additive tolerance for residues of the insecticide oxamyl in pineapple bran. The amendment to the regulations was requested by E. I. du Pont de Nemours & Co. This rule establishes a maximum permissible level for residues of oxamyl in pineapple bran.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James Rea, Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-426-755-9315.

SUPPLEMENTARY INFORMATION: On August 3, 1978, notice was given (43 FR 34203) that E. I. du Pont de Nemours & Co., Inc., Wilmington, Del. 19898, had filed a petition (FAP 8H5189) with the EPA. This petition proposed that 21 CFR 561 be amended by establishing a regulation permitting residues of the insecticide oxamyl (methyl *N',N'*-dimethyl-*N*-[(methylcrabamoyl)oxy]thiooxamimidate) in pineapple bran at 6 parts per million (ppm) resulting from application of the insecticide to growing pineapples. The comment period was shortened to 15 days under the Administrative Procedure Act (5 U.S.C. 553(d)(3)) because of a threat to hundreds of acres of pineapples in Hawaii from the mealybug, against which no other currently registered pesticide is an effective control agent. No comments were received by the Agency in response to this notice of filing. (A related document establishing tolerances for residues of oxamyl on pineapples and pineapple forage appears elsewhere in today's FEDERAL REGISTER.)

The data submitted in the petition and other relevant material have been evaluated, and it is concluded that the pesticide can be safely used in the prescribed manner when such use is in accordance with the label and the labeling registered pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.).

The toxicological data considered in support of the proposed tolerance included 2-year rat and dog feeding studies with no-observable-effect levels (NOEL) of 50 ppm and 100 ppm, respectively; a three-generation rat reproduction study with an NOEL of 50 ppm, and a rat teratogenicity study, which was negative. Based on the 2-year chronic rat feeding study with a 50 ppm NOEL and using a safety factor of 100, the acceptable daily intake (ADI) for man is 0.025 milligram (mg)/kilogram (kg) of body weight (bw)/day. The theoretical maximal residue contribution (TMRC) in the human diet from the previously established tolerances on celery at 3 ppm, apples and tomatoes at 2 ppm, and potatoes at 0.1 ppm does not exceed the ADI. The proposed tolerance does not contribute anything to the TMRC since pineapple bran is an animal feed, and the transfer of residues to meat, milk, eggs, or poultry is not likely.

Desirable data that is lacking from the petition are a second oncogenicity study and additional mutagenicity studies. The mutagenicity studies will be requested when suitable test protocols have been determined. In a letter of April 28, 1978, the petitioner indicated that a second oncogenicity study was underway and is expected to be

or prior to the time the securities are offered for sale. A regulation A offering which meets the conditions set

[6560-01]

[FAP 6H5133/R39; FRL 968-8]

Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.). Therefore, the regulation is being established as proposed.

PART 17—RECORDKEEPING AND RETENTION REQUIREMENTS FOR FEDERAL-AID HIGHWAY, RECORDS OF

Sec.
17.1 Purpose.
17.3 Definitions.
17.5 Requirements.

(4) Toll facility records shall be retained for 3 years subsequent to the date when the facility became oper-

or prior to the time the securities are offered for sale. A regulation A offering which meets the conditions set completed in late 1980. The petitioner also agreed to voluntarily delete the use of oxamyl on pineapples from the label should the second oncogenicity study exceed the risk criteria for chronic toxicity in 40 CFR 162.11. Although the evaluation of the oncogenic potential of oxamyl is not complete, it is concluded that based on the available data, the risks are acceptable since the absence of an oncogenic potential is adequately shown in the 2-year rat feeding study.

The metabolism of oxamyl is adequately understood, and an adequate analytical method (gas chromatography using a flame photometric detector) is available for enforcement purposes. No actions are currently pending against continued registration of oxamyl nor are there any other relevant considerations involved in establishing the proposed tolerances.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978, 21 CFR 561 is amended as set forth below.

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 409(c)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348(c)(1)).)

Part 561 is amended by adding the new § 561.285 to read as follows:

§ 561.285 Oxamyl.

A tolerance of 6 parts per million is established for residues of the insecticide oxamyl (methyl *N',N'*-dimethyl-*N*-[(methylcarbamoyl)oxy]-1-thiooxamimidate) in pineapple bran as a result of application of the insecticide to growing pineapples.

PART 561—TOLERANCES FOR PESTICIDES IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

4-Amino-6-(1,1-Dimethylethyl)-3-(Methylthio)-1,2,4-Triazin-5(4H)-One

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule eastablishes a feed additive tolerance for residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4*H*)-one in dried tomato pomace and dried processed potato waste. The amendment to the regulations was requested by Mobay Chemical Corp. This rule estalishes maximum permissible levels for residues of the subject pesticide in dried tomato pomace and dried processed potato waste.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, EPA, 202-426-2632.

SUPPLEMENTARY INFORMATION: On June 30, 1978, notice was given (43 FR 28522) that Mobay Chemical Corp., Chemagro Agricultural Division, P.O. Box 4913, Hawthorne Road, Kansas City, Mo. 64120, had filed a petition (FAP 6H5133) with the EPA. This petition proposed that 21 CFR 561.41 be amended by the establishment of a regulation permitting residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3-(methylthio-1,2,4-triazin-5(4*H*)-one and its triazinone metabolites in or on growing tomatoes with a tolerance limitation in dried tomato pomace at 2 parts per million (ppm) and in dried processed potato waste at 3 ppm. No comments or requests for referral to an advisory committee were received by the Agency in response to this notice of proposed rulemaking. (A related Document establishing a tolerance for residues of the subject herbicide on tomatoes appears elsewhere in today's FEDERAL REGISTER.)

The data submitted in the petition and other relevant material have been evaluated, and it is concluded that the pesticide can be safely used in the prescribed manner when such use is in accordance with the label and labeling registered pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.). Therefore, the regulation is being established as proposed.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978. 21 CFR 561.41 is amended as set forth below.

(Sec. 409(c)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348(c)(1)).)

Dated: September 11, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 561, subpart A, § 561.41 is revised by reformatting the section into an alphabetized columnar listing and by adding the tolerance of 2 ppm in dried tomato pomace to read as follows:

§ 561.41 4-Amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4H)- one.

Tolerances are established for combined residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3(methylthio)-1,2,4-triazin-5(4*H*)-one and its triazinone metabolites in the following processed feeds when present therein as a result of application of this herbicide to growing crops:

Feed:	*Parts per million*
Potato waste, processed (dried)	3
Sugarcane molassses	0.3
Tomato pomace, dried	2

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—GENERAL MANAGEMENT AND ADMINISTRATION

PART 17—RECORDKEEPING AND RETENTION REQUIREMENTS FOR FEDERAL-AID HIGHWAY, RECORDS OF STATE HIGHWAY AGENCIES

Revision

AGENCY: Federal Highway Administration, DOT.

ACTION: Final rule.

SUMMARY: This document consolidates the existing regulations on recordkeeping requirements and retention schedules. This document is in response to the recommendations of the Federal Highway Administration's (FHWA) policy on minimization of redtape (43 FR 10578, Mar. 14, 1978).

EFFECTIVE DATE: September 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Franklin D. Rubis, Office of Management Systems, 202-426-0534; Lee Burstyn, Attorney, Office of the Chief Counsel, 202-426-0790, Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. e.t., Monday through Friday.

SUPPLEMENTARY INFORMATION: Because there are no major substantive changes or additions from the existing recordkeeping requirements and retention schedules for Federal-aid highway records of State highway agencies, notice and comment are unnecessary. The effect of this revision is to consolidate record retention practices and reduce previous requirements. The regulations were originally published on May 15, 1974, at 39 FR 17306 as Subpart A of part 17 of Title 23, Code of Federal Regulations.

NOTE.—The Federal Highway Administration has determined that this document does not contain a major proposal according to the criteria established by the Department of Transportation pursuant to Executive Order 12044.

In consideration of the foregoing and under the authority of 23 U.S.C. 315; 49 CFR 1.45 and 1.48(b) prescribing the delegation of authority by the Secretary of Transportation; and OMB Circular A-102 issued on August 24, 1977, title 23 of the Code of Federal Regulations, part 17, is revised to read as set forth below:

Sec.
17.1 Purpose.
17.3 Definitions.
17.5 Requirements.
17.7 Authorization to microfilm records.
17.9 Waiver.

AUTHORITY: 23 U.S.C. 315; 49 CFR 1.45 and 1.48(b); OMB Circular A-102.

§ 17.1 Purpose.

This regulation prescribes the recordkeeping and retention requirements for the Federal-aid highway program.

§ 17.3 Definitions.

As used in this regulation:

(a) *Records.* Includes all accounts, papers, maps, photographs, or other documentary materials regardless of physical form or characteristics, made or received by any agency, firm, or individual in connection with the transaction of Federal-aid highway business. This includes, but is not limited to, financial records, supporting documents, statistical records, and other records pertinent to Federal-aid highway projects.

(b) *Retention period.* The minimum period of time records are required to be held by the Federal Highway Administration (FHWA). Other governmental (Federal as well as State, municipal, etc.) or private entities may require or choose longer periods.

(c) *Federal-aid highway program.* All activity undertaken by a non-Federal governmental agency, business firm, or individual in connection with Federal grants-in-aid related to title 23, United States Code.

§ 17.5 Requirements.

(a) State record systems and requirements for maintaining documentation concerned with the Federal-aid highway program will meet applicable requirements of Federal and State laws and regulations, establish a sound basis for auditing the State program, and be consistent with generally accepted records management and accounting practices.

(b) Records pertaining to the Federal-aid highway program shall be retained for a minimum period of 3 years with the following exceptions:

(1) If any litigation, claim, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigations, claims, or audit findings involving the records have been resolved.

(2) Records for nonexpendable property acquired with Federal funds shall be retained for 3 years after the final disposition of the property.

(3) Records which have been transferred to the Federal Highway Administration for retention.

(4) Toll facility records shall be retained for 3 years subsequent to the date when the facility became operable on a toll-free basis.

(c) The start of retention periods for State and third-party records is as follows:

(1) State records shall be retained from the date of submission of the final voucher for project oriented records, or from the end of the fiscal or calendar year in which the final entry is made for cost accounting and fiscal type records.

(2) Third-party records shall be retained from the date final payment is received.

(d) FHWA may, from time to time, request transfer of records from State and local governments when it is determined that these records possess long-term retention value. However, to avoid duplicate recordkeeping, the Division Administrator may make arrangements with State and local governments to retain any records which are continuously needed for joint use.

(e) State or third parties should not limit access to Federal-aid highway records on the basis of this regulation. Federal-aid highway records need be kept confidential only when FHWA can demonstrate that such records must be kept confidential and would be exempted from disclosure under the Freedom of Information Act (5 U.S.C. 552) if the records were FHWA records.

(f) All records shall be available at all reasonable times for inspection by any authorized representative of the Federal Government and copies thereof shall be furnished when requested.

§ 17.7 Authorization to microfilm records.

Microfilmed copies may be used in lieu of original records subject to the following requirements:

(a) Copies must be legible and contain all the significant record detail shown on the originals.

(b) Copies shall be so arranged, identified and indexed so that any individual document or component of the records can be located with reasonable facility.

(c) Copies shall be adequate substitutes for the original records and serve the purposes for which such records were created or maintained.

§ 17.9 Waiver.

The granting of a waiver to the provisions of this regulation is expressly reserved to the Federal Highway Administrator subject to:

(a) Full written justification demonstrating unusual circumstances by the requesting party,

(b) An indication that compliance would be an unreasonable burden upon the State or contractor, and

(c) A determination by FHWA that

the judgment funds. The 30-day deferred effective date would curtail the filing period which would not be in the public interest. Therefore, the 30-day

(3) Applications must be filed with the Superintendent, Michigan Agency, Bureau of Indian Affairs, P.O. Box 884, Sault Ste. Marie, Mich. 49783, on

ury Decision 7461 in the FEDERAL REGISTER on January 13, 1977 (42 FR 2670). A public hearing was not held.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER F—ENROLLMENT

PART 41—PREPARATION OF ROLLS OF INDIANS

Qualifications for Enrollment and Deadline for Filing

SEPTEMBER 12, 1978.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Final rule.

SUMMARY: A plan for the use and distribution of certain judgment funds, awarded by the Indian Claims Commission, was submitted to the Congress and became effective November 12, 1977. The Bureau of Indian Affairs is amending its regulations on preparation of rolls of Indians to include requirements for enrollment as lineal descendants to share in the distribution of the judgment awarded the Saginaw, Swan Creek, and Black River Bands of Chippewa Indians. The regulation will clarify the qualifications for enrollment and impose a deadline for filing.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mitchell L. Bush, Jr., Enrollment Officer, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20245, telephone 202-343-6921.

SUPPLEMENTARY INFORMATION: Proposed regulations were published in the FEDERAL REGISTER, volume 43, No. 89 at 19674 on May 8, 1978. No comments or suggestions have been received.

The authority for issuing these regulations is contained in 5 U.S.C. 301 and sections 463 and 465 of the revised statutes (25 U.S.C.) (25 U.S.C. 2 and 9), and 230 DM 1 and 2.

The regulations impose a deadline for applying for enrollment to share in the judgment funds. The 30-day deferred effective date would curtail the filing period which would not be in the public interest. Therefore, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970).

NOTE.—The Bureau of Indian Affairs has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

The principal author of this amendment is Mitchel L. Bush, Jr., Bureau of Indian Affairs.

FORREST J. GERARD,
Assistant Secretary, Indian Affairs.

Part 41, chapter I of title 25 of the Code of Federal Regulations is amended by the addition of a new paragraph designated (cc) as set forth below.

No further changes are made in the text of part 41.

§ 41.3 Qualifications for enrollment and the deadline for filing.

* * * * *

(cc) Saginaw, Swan Creek, and Black River Bands of Chippewa Indians.

(1) All persons who meet the following requirements for eligibility shall be entitled to be enrolled to share in the distribution of the judgment funds awarded the Saginaw, Swan Creek, and Black River Bands of Chippewa Indians in Indian Claims Commission docket No. 57:

(i) They were born on or prior to and living on November 12, 1977;

(ii) Their name or the name of a lineal ancestor appears on (*a*) the 1868 census of the Kansas Swan Creek and Black River Chippewas; (*b*) the 1900 enrollment schedules of the United Band of Chippewa and Munsee of Kansas, appearing thereon as a Chippewa; (*c*) allotment schedules of the Saginaw, Swan Creek, and Black River Bands of Chippewa Indians dated Febrary 6, 1871, June 3, 1871, April 1, 1872 (two schedules), November 10, 1883, November 13, 1885 (two schedules), and November 7, 1891; (*d*) the March 22, 1939, revised membership roll of the Saginaw Chippewa Indian Tribe of Michigan; (*e*) the records as a person of Chippewa Indian descent who received a tract of land pursuant to article 3 of the treaty of September 24, 1819 (7 Stat. 203); or (*f*) any other record or document which is acceptable to the Secretary.

(2) No person shall be eligible to be enrolled under this paragraph who is not a citizen of the United States or who is enrolled or entitled to be enrolled with the Saginaw Chippewa Indian Tribe of Michigan.

(3) Applications must be filed with the Superintendent, Michigan Agency, Bureau of Indian Affairs, P.O. Box 884, Sault Ste. Marie, Mich. 49783, on forms provided for that purpose. Applications for enrollment must be received by the Superintendent no later than the close of business, December 1, 1978.

[4830-01]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7566]

PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES

Excise Tax on Further Manufacture of Certain Light-Duty Trucks, Buses, and Related Articles

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains a final regulation relating to the imposition of the manufacturers excise tax under the Internal Revenue Code of 1954. The regulation provides the public with guidance needed to comply with the Code by clarifying existing regulations in certain cases involving the further manufacture and sale of light-duty trucks, buses, and related articles after sale by an original manufacturer.

DATE: The regulation is effective retroactively as of January 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert H. Waltuch of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3328, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On March 31, 1978, the Internal Revenue Service published in the FEDERAL REGISTER a proposed amendment to the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) under section 4061(a) of the Internal Revenue Code of 1954. The amendment was proposed to clarify § 48.4061(a)-1(f)(1) published in Treasury Decision 7461 in the FEDERAL REGISTER on January 13, 1977 (42 FR 2670). A public hearing was not held.

There was one written comment on the proposed amendment. It asked that the amendment specifically exclude from potentially taxable events the sale or use of certain articles. These would be articles sold or used after modifications that are characterized as "further manufacture," but that do not alter the nature of the article so as to remove it from the light-duty class of tax-exempt items.

The final regulation contains the more general language of the proposed amendment. Thus, the regulation avoids any negative inference that might be drawn from a failure to identify other types of modifications not changing the tax-exempt character of a further-manufactured article.

DRAFTING INFORMATION

The principal author of this regulation was Thomas Rogan of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, the proposed amendment to 26 CFR Part 48 as published in the FEDERAL REGISTER (43 FR 13587) on March 31, 1978, is adopted without change as set forth below.

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: September 7, 1978.

DONALD C. LUBICK,
Assistant Secretary of the Treasury.

§ 48.4061(a)-1 Imposition of tax; exclusion for light-duty trucks, etc.

* * * * * *

(f) *Exclusion of light-duty trucks, buses, and related articles from tax—*(1) *In general.* * * *

(iv) Where the modification of an article, exempt from tax when sold by the original manufacturer, constitutes further manufacture after the original manufacturer's sale, a tax may be imposed on the subsequent manufacturer's sale or use of the modified article.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 78-63]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Frederica River, Ga.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Brunswick-Glynn County Joint Planning Commission, the Coast Guard is changing the regulations governing the Torras Causeway vertical lift bridge across the Frederica River by permitting the draw to remain closed during certain periods. This change is being made to accommodate periods of peak vehicular traffic. This action will accommodate the needs of vehicular traffic while still providing for the reasonable needs of navigation.

EFFECTIVE DATE: This amendment is effective on October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On May 30, 1978, the Coast Guard published a proposed rule (43 FR 23001) concerning this amendment. The Commander, 7th Coast Guard District also published these proposals as a public notice dated June 5, 1978. Interested persons were given until July 5, 1978, to submit comments.

DRAFTING INFORMATION: The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., project manager, Office of Marine Environment and Systems, and Lt. G. S. Karavitis, project attorney, Office of the Chief Counsel.

DISCUSSION OF COMMENTS

Ten letters and one petition were received. Seven letters and a petition with 35 signatures support the proposed regulation. Letters of no objection were received from the U.S. Department of the Interior and National Oceanic and Atmospheric Administration. One other letter was received, which discussed in general terms the potential hazards to vessels. The points raised were valid, however, the vessel operator, by timing his approach to this bridge, can avoid these potential problems.

In consideration of the foregoing, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a new § 117.409 immediately after § 117.408 to read as follows:

§ 117.409 Frederica River, AIWW, mile 675.5, Torras Causeway, Glynn County Drawbridge, St. Simons Island to Brunswick, Ga.

(a) From 7:30 a.m. to 9:30 a.m. and 4:30 p.m. to 6:30 p.m., Monday through Friday, except holidays, the draw need only open on the hour and half-hour to pass all accumulated vessels. At all other times, the draw shall open on signal.

(b) The draw shall open at any time for the passage of public vessels of the United States, tugs with tows, and vessels in distress.

(c) The owner of or agency controlling this bridge shall post, on both sides of the bridge, signs that state the conditions of this regulation. These signs shall be of such size that they may be easily read from an approaching vessel at any time.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 12, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard, Commandant.

[FR Doc. 78-26233 Filed 9-15-78; 8:45 am]

[4910-14]

[CGD 77-093]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Saginaw River, Mich.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Michigan Department of State Highways, the Coast Guard is changing the operating regulations for the Veteran's Memorial Bridge, mile 5.6, and the Lafayette Street Bridge, mile 6.8, across the Saginaw River, Bay City, Mich., to extend the restrictive opening periods for these bridges to include

weekends. Vehicular traffic on these bridges has increased because of the loss of the nearby Third Street Bridge. This action will assist the flow of vehicular traffic during the reconstruc-

need not open for the passage of downbound vessels of over 50 gross tons.

(iii) From 8 a.m. to 8 p.m. on Saturdays, Sundays, and legal holidays ob-

concerning this amendment. The Commander, Fifth Coast Guard District, also published these proposals as a public notice dated January 3, 1978. Interested persons were given until

(b) From 7 p.m. to 6 a.m. the draw shall open on signal.

(c) The draw tender shall open the bridge promptly for the passage of any vessel with an emergency condition

ly published system in the FEDERAL REGISTER.

The new systems of records involved are:

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 967-6; OPP-300014A]

PART 180—TOLERANCES AND EX-

weekends. Vehicular traffic on these bridges has increased because of the loss of the nearby Third Street Bridge. This action will assist the flow of vehicular traffic during the reconstruction of the Third Street Bridge.

EFFECTIVE DATE: This amendment is effective on October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On March 2, 1978, the Coast Guard published a proposed rule (43 FR 8559) concerning this amendment. The Commander, Ninth Coast Guard District, also published these proposals as a public notice dated March 15, 1978. Interested persons were given until March 24, 1978, and April 13, 1978, respectively, to submit comments.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Lt. G. S. Karavitis, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF COMMENTS

The proposal was to extend the period of restrictive openings to include weekends. Two comments were received, but both commenters were concerned with the existing weekday restrictions rather than the proposal. Correspondence with the Bay County Administration indicates that it is considering requesting modification of the weekday rules. The Coast Guard will consider the issues raised by the two commenters at that time.

In consideration of the foregoing, Part 117 of title 33 of the Code of Federal Regulations, is amended by revising § 117.700(h)(2) to read as follows:

§ 117.700 Saginaw River, Mich.; bridges.

* * * * *

(h) * * *

(2) From March 16 through December 15, the draws of the Belinda Street, Third Street, Veterans Memorial, and Lafayette Street Bridges shall open on signal, except that:

(i) From 6:30 a.m. to 8:30 a.m. and 3:30 p.m. to 5:30 p.m., Monday through Friday, except legal holidays observed in the locality, the draws need not open for the passage of vessels of less than 50 gross tons.

(ii) From 7:30 a.m. to 8:30 a.m. and 4:30 p.m. to 5:30 p.m., Monday through Friday, except legal holidays observed in the locality, the draws need not open for the passage of downbound vessels of over 50 gross tons.

(iii) From 8 a.m. to 8 p.m. on Saturdays, Sundays, and legal holidays observed in the locality, the draws of the Lafayette Street and Belinda Street Bridges need not open for the passage of recreational vessels except from 3 minutes before to 3 minutes after the hour and half-hour.

(iv) From 8 a.m. to 8 p.m. on Saturdays, Sundays, and legal holidays observed in the locality, the draw of the Veteran's Memorial Bridge need not open for the passage of recreational vessels except from 3 minutes before to 3 minutes after the quarter hour and the three-quarter hour.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 11, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard Commandant.

[CGD 77-229]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Albemarle and Chesapeake Canal, Va.

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This change amends the regulations for the drawbridge across the Albemarle and Chesapeake Canal, Great Bridge, Va., to allow the draw to open only on the hour from 6 a.m. to 7 p.m. At all other times the draw shall open on signal. This change will permit a more even flow of vehicular traffic during this period.

EFFECTIVE DATE: This amendment is effective on October 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: On January 5, 1978, the Coast Guard published a proposed rule (43 FR 981) concerning this amendment. The Commander, Fifth Coast Guard District, also published these proposals as a public notice dated January 3, 1978. Interested persons were given until February 4, 1978, to submit comments.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Environment and Systems, and Lt. G. S. Karavitis, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF COMMENTS

Nine comments on the proposal were received. Three supported the proposal and one had no objection. Five opposed the change on various grounds.

Those opposed to the proposal suggested alternatives in the following categories: (1) More frequent openings; (2) open on demand for commercial vessels; (3) limit restrictions to rush hours only; and (4) construct a high level bridge.

Various combinations of restricted bridge openings have been tried on a temporary basis for more than a year. Both vehicular and vessel traffic statistics have been compiled. Based on these studies, it is the Coast Guard's position that hourly openings will provide for the reasonable needs of navigation and that these restrictions should be imposed from 6 a.m. to 7 p.m. daily.

The Virginia Department of Transportation is planning construction of a high level bridge which will relieve vehicular traffic, however, it may be several years before the bridge is completed. When the new bridge is completed, the restrictions on this bridge will be reevaluated.

The original proposal was for the restricted periods to run from 5 a.m. to 10 p.m. A careful study of vehicular traffic patterns for this period showed that the traffic was heaviest from 6 a.m. to 7 p.m. The original proposal was too restrictive to navigation, and the period acceptable at this time is 6 a.m. to 7 p.m.

In consideration of the foregoing, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.350 to read as follows:

§ 117.350 Albemarle and Chesapeake Canal (AIWW), Va., U.S. Government bridge at Great Bridge.

(a) From 6 a.m. to 7 p.m., the draw need open only on the hour. However, if any vessel is approaching the drawbridge, and cannot reach the draw exactly on the hour, the draw tender may delay the hourly opening up to 10 minutes past the hour for the passage of the approaching vessel and any other vessels that are waiting to pass.

(b) From 7 p.m. to 6 a.m. the draw shall open on signal.

(c) The draw tender shall open the bridge promptly for the passage of any vessel with an emergency condition which presents danger to life or property. The signal to request emergency opening is four or more short blasts of a whistle or horn.

(d) Signs shall be posted on both the upstream and downstream sides of the bridge regarding the hours of restricted operation in such a manner that they can easily be read by an approaching vessel at any time.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 11, 1978.

J. B. HAYES,
Admiral, U.S. Coast Guard Commandant.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 266—PRIVACY OF INFORMATION

Exemptions of Systems of Records

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: The Postal Service announces the amendment of regulations exempting systems of records from specified provisions of the Privacy Act of 1974 by changing the descriptions of certain records systems.

DATE: October 18, 1978.

ADDRESS: Records Officer, U.S. Postal Service, Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:

Mr. John E. Finlay, 202-245-4142.

SUPPLEMENTARY INFORMATION: The Postal Service recently determined that it was desirable to make general description changes to certain personal records systems to reflect more accurately the nature and the scope of the systems described.

As a result of the revisions made, two new records systems descriptions subject to exemptions under the Privacy Act were substituted for a previously published system in the FEDERAL REGISTER.

The new systems of records involved are:

USPS 120.151—Personnel Records—Recruiting, Examining, and Appointment Records.

USPS 120.152—Personnel Records—Career Development and Training Records.

The amendment to part 266 of 39 CFR reflects only changes to the system descriptions, not the exemptions to which the systems are subject.

Accordingly, 39 CFR is amended as set forth below:

In § 266.9 revise paragraph (b)(4) and add a new paragraph (b)(8) as follows:

§ 266.9 Exemptions.

* * * * *

(b) * * *

(4) Postal Service Recruiting, Examining, and Appointment Records from 5 U.S.C. 552a (d)(1)-(4), (e)(1), (e)(4) (G) and (H), and (f) to the extent that information in the system is subject to exemption pursuant to 5 U.S.C. 552a(k) (5) and (6) as relating to the compromise of the objectivity or fairness of the testing or examination process and to the identity of a source who has furnished information to the Government in confidence as a part of an investigation conducted solely for the purpose of determining suitability, eligibility, or qualifications of an individual for employment.

* * * * *

(8) Postal Service Career Development and Training Records from 5 U.S.C. 552a (d)(1)-(4), (e)(4) (G) and (H), and (f) to the extent that information in the system is subject to exemption pursuant to 5 U.S.C. 552a(k)(6) as relating to the compromise of the objectivity or fairness of the testing or examination process.

ROGER P. CRAIG,
Deputy General Counsel.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 967-6; OPP-300014A]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Exemptions From Requirement of a Tolerance for Certain Inert Ingredients in Pesticide Formulations

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes exemptions from tolerance requirements for certain additional inert (or occasionally active) ingredients in pesticide formulations. The requests were submitted by various firms. This regulation permits the use of the exempted ingredients in pesticide formulations.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David L. Ritter, Hazard Evaluation Division (TS-769), Office of Pesticide Programs, EPA, 401 M Street SW., Washington D.C., 202-426-2680.

SUPPLEMENTARY INFORMATION: On July 11, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 29809) to amend 40 CFR 180, subpart D, by exempting certain pesticide chemicals which are additional inert (or occasionally active) ingredients in pesticide formulations from tolerance requirements under provisions of section 408(e) of the Federal Food, Drug, and Cosmetic Act. No requests for referral to an advisory committee were received by the Agency with regard to this notice.

Two comments were received in response to this notice requesting that the use of the inert ingredient styrene-maleic anhydride copolymer be expanded to include postemergence application. The Agency concludes that since a substantive change in crop coverage is involved and since the requests will require more review time than is available, the requested changes should be considered along with the next group of inert ingredients for which exemptions are requested. It has been concluded that the amendment will protect the public health and, therefore, that the amendment to the regulations should be adopted as proposed.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections

with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regu-

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

§ 180.1001 [Amended]

1. Section 180.1001 is amended as follows:

Section 180.1001 *Exemptions from the requirement of a tolerance* is

(d) * * *

Inert ingredients	Limits	Uses

with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective September 18, 1978, part 180 is amended as set forth below.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 180, subpart D, is amended by (1) deleting the items "*N,N*-Bis(2-[*omega*-hydroxypoly (oxyethylene)] ethyl) alkyl amines; * * *," "*N,N*-Bis[2-*omega*-hydroxypoly (oxyethylene)] ethyl alkyl amines; * * *," and "*N,N*-Bis(2-hydroxyethyl) alkylamine, where the alky groups (C_{16}–C_{18}) * * *" from the table in § 180.1001(d); (2) alphabetically inserting new items in the tables in § 180.1001 (c), (d), and (e); and (3) adding the new § 180.1040, as follows:

§ 180.1001 [Amended]

1. Section 180.1001 is amended as follows:

Section 180.1001 *Exemptions from the requirement of a tolerance* is amended in paragraph (d) by deleting the three items "*N,N*-Bis(2-[*omega*-hydroxypoly(oxyethylene)]ethyl) alkylamines; * * *," "*N,N*-Bis[2-*omega*-hydroxypoly(oxyethylene)] ethyl alkylamines; * * *," and "*N,N*-Bis(2-hydroxyethyl) alkylamine, where the alkyl groups (C_{16}–C_{18}) * * *" from the list of items in the table.

2. Section 180.1001 is amended by alphabetically inserting new items in the tables in paragraphs (c), (d), and (e).

§ 180.1001 Exemptions from the requirement of a tolerance.

(c) * * *

Inert ingredients	Limits	Uses
Glycerol mono-, di-, and triacetate		Solvent, cosolvent.
n-Propanol		Solvent, cosolvent.

(d) * * *

Inert ingredients	Limits	Uses
n-Alkyl(C_{8}–C_{18}) amine acetate		Surfactants, related adjuvants of surfactants.
N,N, bis(2-hydroxyethyl) alkylamine, where the alkyl groups (C_{8}–C_{18}) are derived from coconut, cottonseed, soya, or tallow acids.		Surfactants, related adjuvants of surfactants.
N,N-Bis 2-(*omega*-hydroxypolyoxyethylene) ethyl alkylamine; the reaction product of 1 mole *N,N*-Bis(2-hydroxyethyl) alkylamine and 3-60 moles of poly(oxyethylene) alkylamine, where the alkyl group (C_{8}–C_{18}) is derived from coconut, cottonseed, soya, or tallow acids.		Surfactants, related adjuvants of surfactants. Do.
Copper naphthenate	Not more than 2.5 pct of formulation; application limited to before edible portions of plants begin to form.	Mercaptan scavenger in technical pesticide.
Copper salts of neodecanoic acid and 2-ethyl hexanoic acid	Not more than 1 pct of formulation; application limited to before edible portions of plants begin to form.	Do.
Diakyl(C_{8}–C_{18}) dimethyl ammonium chloride, (C_{8}–C_{18}) group from tallow		Surfactants, related adjuvants of surfactants.
Douglas-fir bark, ground		Solid diluent, carrier.

(d) * * *

Inert ingredients	Limits	Uses
α-Pinene	Not more than 2 pct of formulation by weight.	Stabilizer.
Polyoxyethylene (5) sorbitan monooleate		Surfactants, related adjuvants of surfactants.
Styrene-maleic anhydride copolymer	For preemergence use only	Suspending or dispersing agent.

(e) * * *

Inert ingredients	Limits	Uses
Corn syrup		Sticker, attractant.
D and C green No. 6		Dye, coloring agent.
D and C red No. 17		Do.
D and C violet No. 2		Do.
FD and C blue No. 1		Dye, coloring agent.
α-Pinene	Not more than 2 pct of formulation by weight.	Stabilizer.
Tartrazine		Dye, coloring agent.

3. Part 180, Subpart D, is amended by adding the new § 180.1040 to read as follows:

§ 180.1040 Ethylene glycol; exemption from the requirement of a tolerance.

Ethylene glycol as a component of pesticide formulations is exempt from the requirement of a tolerance when used in foliar applications to peanut plants.

[FR Doc. 78-25959 Filed 9-15-78; 8:45 am]

[6560-01]

[PP 6 F1 738/R1 66; FRL 969-4]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Bifenox

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY. This rule establishes tolerances for residues of the herbicide bifenox on sorghum grain and forage, rice grain and straw, barley grain and straw, oat grain and straw, and wheat grain and straw. The request was submitted by Mobil Chemical Co. This regulation establishes maximum permissible levels for residues of bifenox on the above raw agricultural commodities.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW.,

Washington, D.C. 20460, 202-426-2632.

SUPPLEMENTARY INFORMATION: On March 12, 1976, notice was given

of 600 ppm in the two-year dog feeding study using a safety factor of 100. Although a complete evaluation of the oncogenic potential is not possible, the

Commodity:	Parts per million

Corn, fodder	.05
Corn, forage	.05

ing a feed additive regulation for residues of oxamyl in pineapple bran appears elsewhere in today's FEDERAL

It is concluded, therefore, that the tolerances be established as set forth below.

residues of the herbicide on wheat grain and straw and green wheat forage.

Washington, D.C. 20460, 202-426-2632.

SUPPLEMENTARY INFORMATION: On March 12, 1976, notice was given (41 FR 10709) that Mobil Chemical Co., P.O. Box 26683, Richmond, Va. 23261, had filed a pesticide petition (PP 6F1738) with the EPA. This petition proposed that 40 CFR 180.351 be amended to establish tolerances for residues of the herbicide bifenox (methyl 5-(2,4-dichlorophenoxy)-2-nitrobenzoate) in or on the raw agricultural commodities sorghum grain and forage, rice grain and straw, barley grain and straw, oat grain and straw, and wheat grain and straw at 0.05 part per million (ppm). No comments were received in response to this notice of filing.

The data sumitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerances included a rat oral lethal dose (LD_{50}) study with the LD_{50} greater than 6 grams (g)/kilogram (kg) of body weight (bw), a 90-day dog feeding study with a no-observable-effect level (NOEL) of 500 ppm, a 90-day rat feeding study with an NOEL of 500 ppm, a cataract study with chicks (negative), 2-year rat and dog feeding studies both with an NOEL of 600 ppm, a three-generation rat reproduction study with an NOEL of 200 ppm, a rat teratogenicity study (negative at 100 milligrams (mg)/kg bw/day, and a mouse dominant lethal mutagenicity study (negative at 500 mg/kg bw).

Desirable data lacking from the petition include oncogenic studies on two species of rodents and an additional mutagenicity study. In a letter of June 23, 1978, Mobil Chemical Co. agreed to do the missing studies and to remove the proposed uses from the label should the oncogenic studies exceed the risk criteria for chronic toxicity in 40 CFR 162.11. The additional mutagenicity studies are deferred until the Agency's requirements are finalized.

Tolerances have previously been established for negligible residues of bifenox on field corn grain, fodder, and forage and soybeans, soybean forage and hay at 0.05 ppm. The negligible residue designation is removed from these existing tolerances by this order because long-term studies are now available. The metabolism of bifenox is adequately understood and an adequate analytical method (gas chromatography using a halogen-specific microcoulometric detector) is available for enforcement purposes. The theoretical maximal residue contribution (TMRC) for all tolerances, established and proposed, is 0.0099 mg/day compared with a maximum permissible intake (MPI) of 9 mg/day for a 60-kg man. This is only 0.11 percent of the MPI. The MPI is based on the NOEL of 600 ppm in the two-year dog feeding study using a safety factor of 100. Although a complete evaluation of the oncogenic potential is not possible, the results of the 2-year rat feeding study in conjunction with the low potential for exposure provide adequate assurance of a very low over-all risk and even lower increment in risk from the additionally proposed tolerances. There are no pending regulatory actions against continued registration of bifenox, nor are there any other relevant considerations involved in establishing the proposed tolerances. There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3).

The pesticide is considered useful for the purpose for which tolerances are sought, and it is concluded that the tolerances of 0.05 ppm on sorghum grain and forage, barley grain and straw, oat grain and straw, rice grain and straw, and wheat grain and straw established by amending 40 CFR 180.351 will protect the public health. It is concluded, therefore, that the tolerances be established as set forth below.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Rm. M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978, part 180 is amended as set forth below.

Dated: September 11, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

Section 180.351 is revised by alphabetically reformatting the section into an alphabetized columnar listing and alphabetically inserting barley grain and straw, oat grain and straw, rice grain and straw, sorghum grain and forage, and wheat grain and straw at 0.05 ppm in the table, as follows:

§ 180.351 Bifenox; tolerances for residues.

Tolerances are established for residues of the herbicide bifenox (methyl 5 - (2,4 - dichlorophenoxy) - 2 - nitrobenzoate) in or on the following raw agricultural commodities:

Commodity:	Parts per million
Barley, grain	0.05
Barley, straw	.05
Corn, field	.05
Corn, fodder	.05
Corn, forage	.05
Oats, grain	.05
Oats, straw	.05
Rice, grain	.05
Rice, straw	.05
Sorghum, forage	.05
Sorghum, grain	.05
Soybeans	.05
Soybeans, forage	.05
Soybeans, hay	.05
Wheat, grain	.05
Wheat, straw	.05

[FR Doc. 78-26090 Filed 9-15-78; 8:45 am]

[6560-01]

[PP 7F2000/R164; FRL 969-1]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Oxamyl

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of the insecticide oxamyl on pineapples and pineapple hay. The request was submitted by E.I. du Pont de Nemours & Co., Inc. This regulation establishes maximum permissible levels for residues of oxamyl on pineapples and pineapple forage.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. James Rea, Product Manager (PM) 12, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-755-9315.

SUPPLEMENTARY INFORMATION: On October 27, 1977, notice was given (42 FR 56643) that E.I. du Pont de Nemours & Co., Inc., Wilmington, Del. 19898, had filed a pesticide petition (PP 7F2000) with the EPA. This petition proposed that 40 CFR 180.303 be amended to establish tolerances for residues of the insecticide oxamyl (methyl *N'*, *N'*-dimethyl-*N*-[methylcarbamoyl)oxy] - 1 - thiooxamimidate) in or on the raw agricultural commodities pineapples at 1 part per million (ppm) and pineapple hay at 10 ppm.

Subsequently, the petitioner amended the petition by deleting the proposed tolerance of 10 ppm in or on pineapple hay and proposing a tolerance of 10 ppm in or on pineapple forage. (A related document establishing a feed additive regulation for residues of oxamyl in pineapple bran appears elsewhere in today's FEDERAL REGISTER.) No comments were received in response to this notice of filing.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerances included 2-year rat and dog feeding studies with no-observable-effect levels (NOEL) of 50 ppm and 100 ppm, respectively; a three-generation rat reproduction study with a NOEL of 50 ppm; and a rat teratogenicity study, which was negative. Based on the 2-year chronic rat feeding study with a 50 ppm NOEL and using a safety factor of 100, the acceptable daily intake (ADI) for man is 0.025 milligram (mg)/kilogram (kg) of body weight (bw)/day. The theoretical maximal residue contribution (TMRC) in the human diet from the previously established tolerances on celery at 3 ppm, apples and tomatoes at 2 ppm, and potatoes at 0.1 ppm and from the proposed tolerances does not exceed the ADI.

Desirable data that is lacking from the petition are a second oncogenicity study and additional mutagenicity studies. The mutagenicity studies will be requested when suitable test protocols have been determined. In a letter of April 28, 1978, the petitioner indicated that a second oncogenicity study was underway and is expected to be completed in late 1980. The petitioner also agreed to voluntarily delete the use of oxamyl on pineapples from the label should the second oncogenicity study exceed the risk criteria for chronic toxicity in 40 CFR 162.11. Although the evaluation of the oncogenic potential of oxamyl is not complete, it is concluded that based on the available data, the risks are acceptable since the absence of an oncogenic potential is adequately shown in the 2-year rat feeding study.

The metabolism of oxamyl is adequately understood, and an adequate analytical method (gas chromatography using a flame photometric detector) is available for enforcement purposes. No actions are currently pending against continued registration of oxamyl nor are there any other relevant considerations involved in establishing the proposed tolerances.

There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3). The pesticide is considered useful for the purpose for which tolerances are sought, and it is concluded that the tolerances of 1 ppm on pineapples and 10 ppm on pineapple forage established by amending 40 CFR 180.303 will protect the public health. It is concluded, therefore, that the tolerances be established as set forth below.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978, Part 180 is amended as set forth below.

Dated: September 8, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(d)(2)].)

Section 180.303 is amended by alphabetically inserting pineapples at 1 ppm and pineapple forage at 10 ppm in the table to read as follows:

§ 180.303 Oxamyl; tolerances for residues.

• • • • • •

Commodity:	Parts per million
Pineapples	1
Pineapples, forage	10

• • • • • •

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2-[[4-Chloro-6-(ethylamino)-s-triazin-2-yl]amino]-2-methylpropionitrile

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of the herbicide 2-[[4-chloro-6-(ethylamino)-*s*-triazin-2-yl]amino]-2-methylpropionitrile. The request was submitted by Shell Chemical Co. This regulation establishes maximum permissible levels for residues of the herbicide on wheat grain and straw and green wheat forage.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C., 202-426-2632.

SUPPLEMENTARY INFORMATION: On July 14, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 30314) in response to a pesticide petition (PP 6F1729) submitted to the Agency by Shell Chemical Co., Suite 200, 1025 Connecticut Avenue NW., Washington, D.C. 20036. This petition proposed that 40 CFR 180.307 be amended by the establishment of tolerances for residues of the herbicide 2-[[4-chloro-6-(ethylamino) -s-triazin-2-yl]- amino]-2-methylpropionitrile in or on the raw agricultural commodities wheat grain and wheat straw and green wheat forage at 0.1 part per million (ppm). No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.307 should be adopted without change, and it has been determined that this regulation will protect public health.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Rm. M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978, Part 180, Subpart C, § 180.307 is amended by adding tolerances for residues of the subject herbicide on wheat grain and straw and green wheat forage at 0.1 ppm as set forth below.

Dated: September 11, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(e)].).

Part 180, subpart C, § 180.307 is revised in its entirety by editorially reformatting the section into an alpha-

betized columnar listing, deleting the term "negligible residue," and alphabetically inserting tolerances of 0.1 ppm in or on wheat grain, wheat straw, and green wheat forage, as follows:

§ 180.307 2-[[4-chloro-6- (ethylamino) -s-triazin-2-yl] amino]-2-methylpropio- nitrile; tolerances for residues.

Tolerances are established for residues of the herbicide 2-[[4-chloro-6-(ethylamino) -*s*-triazin-2-yl]amino] -2-methylpropionitrile in or on the following raw agricultural commodities:

Commodity:	Parts per million
Corn, fodder	0.2
Corn, forage	.2
Corn, fresh (including sweet K+CWHR)	.05
Corn, grain	.05
Cottonseed	.05
Sorghum, fodder	.05
Sorghum, forage	.05
Sorghum, grain	.05
Wheat, forage (green)	.1
Wheat, grain	.1
Wheat, straw	.1

[PP 6F1783 & 6F1823/R165; FRL 968-7]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

4-Amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4H)-one

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4*H*)-one. The amendment to the regulations was requested by Mobay Chemical Corp. This rule establishes maximum permissible levels for residues of the subject herbicide on lentils, lentil forage, lentil vine hay, peas, pea forage, peavine hay, and tomatoes.

EFFECTIVE DATE: September 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-426-2632.

SUPPLEMENTARY INFORMATION: On June 30, 1978, the EPA published a notice of proposed rulemaking in the FEDERAL REGISTER (43 FR 28524) in response to pesticide petitions (PP 6F1783 and 6F1823) submitted to the Agency by the Mobay Chemical Corp., Chemagro Agricultural Division, P.O. Box 4913, Hawthorne Road, Kansas City, Mo. 64120.

PP 6F1783 proposed to amend 40 CFR 180.332 by establishing a tolerance for residues of the herbicide 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4*H*)-one and its triazinone metabolites in or on the raw agricultural commodity tomatoes at 0.1 part per million (ppm).

PP 6F1823 proposed to amend 40 CFR 180.332 by establishing tolerances for combined residues of the subject herbicide and its triazinone metabolites in or on the raw agricultural commodities lentils (dried), lentil vine hay, peas (dried) and peavine hay at 0.05 ppm; peas at 0.1 ppm; and pea forage and lentil forage at 0.5 ppm. No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking. (A related document establishing tolerances for residues of the subject herbicide in dried tomato pomace appears elsewhere in today's FEDERAL REGISTER.)

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.332 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before October 18, 1978, file written objections with the Hearing Clerk, EPA, Room M-3708, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on September 18, 1978, part 180, subpart C, § 180.332 is amended by alphabetically inserting tolerances in the table on lentil forage and pea forage at 0.5 ppm; peas and tomatoes at 0.1 ppm; lentils (dried), lentil vine hay, peas (dried), and peavine hay at 0.05 ppm as set forth below.

Dated: September 11, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

Part 180, Subpart C, § 180.332 is amended by alphabetically inserting tolerances of 0.5 ppm on lentil forage and pea forage, 0.1 ppm on peas and tomatoes, and 0.05 ppm on lentils (dried), lentil vine hay, peas (dried), and pea vine hay in the list of commodities to read as follows:

§ 180.332 4-Amino-6-(1,1-dimethylethyl)-3-(methylthio)-1,2,4-triazin-5(4H)-one; tolerances for residues.

Commodity:	Parts per million

Title 43—Public Lands: Interior

CHAPTER I—BUREAU OF RECLAMATION; DEPARTMENT OF THE INTERIOR

PART 428—SALE OF REPLACEMENT FARM UNITS TO TETON FLOOD VICTIMS

Reclamation Rules and Regulations for the Sale of Replacement Farm Units to Teton Flood Victims

AGENCY: Bureau of Reclamation, Interior.

ACTION: Final rules.

SUMMARY: On June 2, 1978, proposed rules for the sale of replacement farm units to Teton flood victims were published in the FEDERAL REGISTER (43 FR 107). Interested persons were given until June 30, 1978, to submit written comments, suggestions, or objections. Full and careful consideration was given to all written comments and to the transcript of comments made at a public hearing held by the Bureau of Reclamation on June 22, 1978, in Sugar, Idaho. In view of these comments, the language of the proposed rules has been revised. The revised rules will permit two members of an immediate family who occupied, and obtained the major part of their income from, the same damaged farm to each obtain an adjacent 160-acre replacement unit thus raising the maximum replacement farm size to 320 acres. The requirements for financial information have been relaxed to permit the applicants to use signed estimates or information provided in making earlier damage claims. A person who purchased other farmlands since June 5, 1976, must report such purchase(s). He shall not be eligible to purchase a replacement farm unit under these regulations, if through activities initiated since June 5, 1976, he purchased a farm of like productivity to his damaged farm prior to the flood. The income producing ability of the damaged lands has been changed to make eligibility easier to obtain. The performance guarantee is returnable to those unable to purchase a replacement farm through no fault of their own. For two qualifying members of the same immediate family residing on the same damaged farm and filing for adjacent replacement unit, only one performance guarantee is required.

A new clause (428.6(m)) was added to reduce the possibility of speculation by prohibiting resale of these lands for a period of 3 years without the express approval of the Regional Director. Another new section 428.7(b) was included to permit appeal of Commissioner decisions to the Office of Hearings and Appeals of the Secretary of the Interior's Office.

These regulations will determine the socioeconomic criteria pursuant to which the Secretary will determine eligibility for the purchase of lands in compliance with section 210(c) of Pub. L. 95-238. The Bureau has completed an environmental impact assessment concluding that the publication of final regulations will not produce a significant impact on the human environment. They are, however, continuing to assess the environmental impact on the actual disposal of the lands. The provisions of the National Environmental Policy Act of 1969 will be complied with prior to any such disposal.

EFFECTIVE: September 18, 1978.

ADDRESS: Bureau of Reclamation, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240, Attention: Code 400.

FOR FURTHER INFORMATION CONTACT:

Mr. L. David Williamson, Senior Staff Assistant for Land Resources Management, O. & M. Policy Staff, Bureau of Reclamation, 202-343-5204.

SUPPLEMENTAL INFORMATION: Reimbursement for losses and damages to property as a result of the failure of the Teton Dam on June 5, 1976, was provided for under the Teton Dam Disaster Assistance Act, Pub. L. 94-400 (90 Stat. 1211), and rules and regulations published relating thereto. The Teton flood caused substantial losses of farm soils and productive capacity which is not economical to reclaim. While payment was made for such actual monetary loss, it is probable that some individuals will not be able to maintain an economically productive farming enterprise to reestablish themselves in the farming business. The act of February 25, 1978, Pub. L. 95-238, provides for the sale of lands formerly within the Idaho National Engineering Laboratory Reserve to such individuals. The acres available for purchase will allow the qualifying farmers to reestablish themselves in a farming enterprise and will also help to restore the economic and agricultural base of the flood-damaged region.

There is a limited amount of land available for purchase together with a limit of 5 years in which purchases can be made. There is also a need to avoid checkerboarding of undisposed lands; therefore, the regulations provide for sales in sequence rather than by random selections.

These regulations will determine the socio-economic criteria pursuant to which the Secretary will determine eligibility for the purchae of lands in compliance with section 210(c) of Pub. L. 95-238. We have concluded that the publication of these final regulations which determine eligibility for purchase of lands can be accomplished without further National Environmental Policy Act compliance. We are, however, assessing the environmental impacts of the disposal of the subject lands. Prior to a decision on disposal of these lands, we will have completed our National Environmental Policy Act compliance.

The regulations provide two separate filings by the qualifying farmers: First, a notice of prospective eligibility; and second, a notice of intent to purchase. The notice of prospective eligibility is to be filed by individuals who believe they are qualifying farmers as defined in these regulations. This notice must be given on or before October 31, 1978, in order to receive consideration for participation in the land-sale program. The regulations require that qualifying farmers file a notice of intent to purchase in sufficient time to allow for the administrative work to be done on surveys, appraisals, and drawings prior to the date of sale.

It is also provided in the proposed regulations that where two members of the same immediate family residing on the same damaged farm are both eligible they can, to the extent deemed possible by the Secretary, select contiguous replacement farm units. They will also be required to post only one performance guarantee between them.

Sales will be conducted at approximately 6-month intervals until the expiration of the statutory period ending February 24, 1983, or until the disposal of all the available lands, whichever occurs first.

The 5-year limit on sales provided in the act makes it necessary that the final date for filing a notice of intent to purchase occur no later than July 1, 1982. Filings after that date will not be considered by the Secretary.

Because of the time restrictions for publication of regulations to set forth the criteria for the determinations of eligibility provided in the act, the Department intends to act promptly.

The primary authors of this document are Loyd Ericson, Chief, Lands Branch, Pacific Northwest Region, Bureau of Reclamation, Federal Building and U.S. Courthouse, Box 043, Boise, Idaho, and Terence G. Cooper, Natural Resources Specialist, O. & M. Policy Staff, Bureau of Reclamation, 18th and C Streets NW., Washington, D.C.

Pursuant to the authority of the Secretary of the Interior contained in the Administrative Procedure Act (60 Stat. 237) 5 U.S.C. 552, 553, and in the Act of February 25, 1978 (92 Stat. 76), 42 U.S.C. 2011 et seq., a new Part 428 of Title 43, Code of Federal Regulations, is hereby established to read as shown on the following pages:

Dated: September 13, 1978.

DANIEL P. BEARD,
Deputy Assistant Secretary of the Interior.

The rules for title 43, part 428, will read as follows:

Sec.
428.1 Purpose.
428.2 Policy.
428.3 Liability.
428.4 Definitions.
428.5 Eligibility.
428.6 Sale of replacement farm units.
428.7 Decisions and appeals.

AUTHORITY: 42 U.S.C. 2011, Pub. L. 95-238, sec. 210, February 25, 1978.

§ 428.1 Purpose.

The purpose of these rules is to provide for the sale of economic farm units to qualifying farmers whose land is economically infeasible to reclaim from damages resulting from the Teton flood of June 5, 1976, and who are unable to find suitable replacement land for their flood-damaged farms, and to restore the economic and agricultural base of the flood-damaged region, as authorized by the act of February 25, 1978 (92 Stat. 76).

§ 428.2 Policy.

(a) The policy of the Department shall be to provide for the expeditious

tary from lands made available for that purpose within sections 14, 23, 24, 25, and 36, township 6 north, range 33 east; sections 19, 30, and 31, township

tion for purchase of a replacement farm unit. Notice must be delivered to the Regional Director, U.S. Bureau of

(9) A statement of the applicant's residence for the 12 months immediately preceding June 5, 1976.

tions, the applicant shall not be qualified to purchase a replacement farm unit. The applicant shall be notified of

the amount of $1,000 payable to the Bureau of Reclamation. The check shall constitute a performance guarantee by the qualifying farmer. No

§ 428.2 Policy.

(a) The policy of the Department shall be to provide for the expeditious and orderly sale of public lands under the provisions of the act of February 25, 1978 (92 Stat. 76).

(b) The possibility exists that not all of the lands set aside by Congress will be required; therefore, it is the policy of the Department to dispose of the lands in adjacent blocks to the extent feasible. To accomplish this objective, replacement farm units will be made available for purchase by qualifying farmers on a sequential basis, rather than on a random selection basis. When two members of a single family exercise their rights to purchase at a single drawing, to the extent possible, they will be allowed to purchase contiguous farm units.

§ 428.3 Liability.

Neither the promulgation of these regulations nor the rights arising under them constitute any admission of liability by the United States. No provision of these regulations shall be construed as providing or creating a right of action against the United States, its agents, or employees, nor shall these regulations be construed as waiving or extending any applicable statute of limitations or any other requirement prerequisite to any such right of action in connection with the Teton flood of June 5, 1976.

§ 428.4 Definitions.

(a) "Secretary" means the Secretary of the Interior or his duly authorized representative.

(b) "Regional Director" means the Regional Director of the Pacific Northwest region of the Bureau of Reclamation.

(c) "Teton flood" means the flood resulting from the collapse of the Teton Dam of the lower Teton division of the Teton basin Federal reclamation project on June 5, 1976.

(d) "Damaged farm" means an agricultural enterprise which, in the opinion of the Secretary of the Interior, produced sufficient income immediately prior to June 5, 1976, to support a farmer, and which is not economically feasible to reclaim so that it produces an income equal to that earned prior to the Teton flood because of damages resulting directly from the Teton flood.

(e) "Replacement farm unit" means a quarter section tract of land or the approximate equivalent thereof containing approximately one hundred sixty (160) acres, of which at least 85 percent is certified as arable (capable of sustaining continuous successful irrigation farming with the application of water to the land) by the Secretary of the Interior. The replacement farm units shall be established by the Secretary from lands made available for that purpose within sections 14, 23, 24, 25, and 36, township 6 north, range 33 east; sections 19, 30, and 31, township 6 north, range 34 east, and the southeast quarter (SE¼), the south half of the northeast quarter (S½NE¼), the east half of the southwest quarter (E½SW¼), and the southeast quarter of the northwest quarter (SE¼NW¼), all in section 8, and the south half of the north half (S½N½) of section 9, all in township 5 north, range 34 east; Boise meridian, Jefferson County, Idaho.

(f) "Qualifying farmer" means an owner-operator of a damaged farm who, on June 5, 1976, resided on or in the immediate locality of the damaged farm, and a substantial portion of whose livelihood was derived from his farming operation of the damaged farm prior to the Teton flood, and who is otherwise qualified under the terms of these regulations to purchase a replacement farm unit.

(g) "Resident" means an individual whose principal place of residence during the farming season for 1 year immediately prior to the Teton flood was within the counties of Fremont, Teton, Madison, Jefferson, Bonneville, Bingham, or Bannock in the State of Idaho.

(h) "Owner" means an individual, partnership, or corporation vested with title to a damaged farm on June 5, 1976, to the extent that all land parcels comprising the damaged farm share the same title and are all used as a single agricultural enterprise. When two members of the same immediate family occupy the damaged farm as joint tenants, tenants-in-common, tenants, by the entirety, or as owner operator-lessor where both receive primary income from the farm as in (f), then both shall be considered an owner.

(i) "Operator" means an individual who makes the day-to-day decisions and directs day-to-day farming activities, including giving directions to any employee of the operator. Lessors of farms shall not be considered operators for the purposes of these regulations, unless the lessor meets the requirements of (h) above.

(j) "Immediate family" means husband, wife, son, daughter, father, mother.

§ 428.5 Eligibility.

(a) In order to qualify for consideration for purchase of a replacement farm unit under these regulations, each prospective qualifying farmer must notify the Secretary of his prospective eligibility as a qualifying farmer as defined in these regulations on or before October 31, 1978. Failure to notify the Secretary on or before October 31, 1978, shall disqualify the applicant from any further consideration for purchase of a replacement farm unit. Notice must be delivered to the Regional Director, U.S. Bureau of Reclamation, Federal Building and U.S. Courthouse, Box 043, 550 West Fort Street, Boise, Idaho 83274, or must be postmarked to this address, on or before October 31, 1978. Where two members of the same immediate family occupying or receiving primary income from the same damaged farm are both applying under § 428.4(h), it should be so noted on each application. Only one performance bond will be required of the two immediate family members who occupied the same damaged farm when filing for adjacent replacement units. Each notice of prospective eligibility must provide the following information:

(1) The full name of each individual seeking to be determined eligible as a qualifying farmer, or the name of each partnership together with the name of each partner, or the name of the corporation seeking eligibility.

(2) The legal description of the damaged farm.

(3) The owner of the damaged farm on the date of the Teton flood.

(4) An estimate of the applicant's total net taxable income for the tax year prior to the Teton flood, together with a statement of the portion of such net taxable income derived from his operation of the damaged farm during that period. Federal tax records are preferred, but are not necessary; a signed statement giving the applicants estimate is sufficient. Records used in filing for a damage compensation claim following the flood are sufficient.

(5) A statement describing the nature and extent of the land damage loss sustained on the damaged farm, including the number of acres completely lost which cannot be economically reclaimed for agricultural purposes.

(6) The date and amount of each determination of flood damage pertaining to the damaged farm made by the authorized officer of the Department of the Interior under the laws and regulations pertaining specifically to the Teton flood (43 CFR Part 419 (1977)).

(7) A report on all farmlands purchased, or contracts, or options instigated for the purchase of farmland by the applicant since June 5, 1976.

(8) A statement of the operating procedures and responsibilities of the applicant in connection with a damaged farm during the 12 months preceding June 5, 1976, including a report on any leases or other agreements, oral or written, providing for use of the lands by others, in whole or in part, for rent or for sharing of crops or income from the production of the damaged farm.

(9) A statement of the applicant's residence for the 12 months immediately preceding June 5, 1976.

(b) In order to be determined eligible, the applicant's damaged farm must have suffered an economically nonreclaimable land loss to the extent that, if reclaimed, it could provide only fifty percent (50%) or less of its potential income-producing capacity prior to the flood; or the damaged farm must have sustained a complete loss of at least fifty-five (55) acres of land.

(c) In order to be eligible as a qualifying farmer, the owner-operator must have derived more than forty percent (40%) of his net taxable income from the operation of the damaged farm during the tax year preceding the Teton flood and must have been unable to purchase a farm of comparable productivity since the Teton flood. Persons who purchased other farmlands since June 5, 1976, must report such purchase, including the date on which the action was initiated, and shall not be eligible to purchase a replacement farm unit under these regulations if through activities initiated since June 5, 1976, he purchased a farm of like productivity to his damaged farm prior to the flood.

(d) The Secretary, acting through the Regional Director, shall make a preliminary determination of qualifying farmers based upon the notices of eligibility filed pursuant to section 428.5(a). Each applicant shall be given written notice by December 1, 1978, of the preliminary determination made concerning his eligibility status.

(e) A final determination of eligibility as a qualifying farmer shall be made by the Secretary, acting through the Regional Director, on the basis of documentary evidence submitted by the applicant. The accumulation of data to provide evidence or proof of eligibility shall be the sole responsibility of the applicant. Such evidence must be submitted to: Regional Director, U.S. Bureau of Reclamation, Federal Building and U.S. Courthouse, Box 043, 550 West Fort Street, Boise, Idaho 83724. A final notice of eligibility, or lack thereof, will be given by written notice prior to January 15, 1979.

(f) The evidence submitted by the applicant, together with any other evidence available, shall be examined to determine its sufficiency, authenticity, and reliability in determining the eligibility of the applicant. If the examination of the evidence indicates that the applicant is a qualifying farmer, the applicant shall be notified by certified mail that he is a qualifying farmer.

(g) If the applicant fails to supply any of the information required, or if the applicant's qualifications do not meet the requirements of these regulations, the applicant shall not be qualified to purchase a replacement farm unit. The applicant shall be notified of such disqualification, whether conditional or complete, and the reasons therefore and of the right of appeal.

§ 428.6 Sale of replacement of farm units.

(a) Replacement farm units shall be made available for purchase by qualifying farmers approximately every 6 months starting in February 1979 and ending in July 1982: *Provided, however,* That sales will be limited to the land made available for this program pursuant to the act of February 25, 1978 (92 Stat. 76) and described in § 428.4(e) hereof. The Secretary shall notify all qualifying farmers, in writing, of the date the first replacement farm units will be offered for sale and will also give notice of the closing date on which the qualifying farmer may file an intent to purchase a replacement farm unit from those offered for sale during the initial sale period. No subsequent notice will be provided; however, each qualifying farmer may file an intent to purchase at any time after the initial sale provided that no filings may be made after July 1, 1982.

(b) To participate in the sale program for any period, the qualifying farmer must file a notice of intent to purchase with the Regional Director, at the address provided in § 428.5(a) hereof. All such notices of intent to purchase filed after the closing date of the initial sale shall be accumulated as of January 1 and July 1 of each year to determine the number of replacement farm units to be sold to qualifying farmers at the next sale: *Provided, however,* That the availability of land for replacement farm units will be limited to the area authorized for sale under this program as indicated in § 428.4(e) hereof. The available lands will, to the extent possible, be sold in quarter section units of approximately 160 acres to qualifying farmers according to their priority standing for purchase of replacement farm units as established in subparagraphs (c) and (d) below.

(c) The Secretary, acting through the Regional Director, shall, on or about February 1 and August 1 of each year, starting in 1979 and ending in 1982, conduct public drawings of the names of those finally determined to be qualifying farmers who have filed a notice of intent to purchase.

(d) The names of the qualifying farmers shall be drawn and numbered in the order drawn for the purpose of establishing priority in the order in which the replacement farm units may be purchased by qualifying farmers.

(e) Each notice of intent to purchase filed by a qualifying farmer shall be accompanied by a certified check in the amount of $1,000 payable to the Bureau of Reclamation. The check shall constitute a performance guarantee by the qualifying farmer. No intent to purchase can be submitted until notice of final determination of eligibility has been issued. If the qualifying farmer fails to enter into a purchase agreement with the United States for a replacement farm unit offered by the Regional Director, or, having entered into a purchase agreement fails to complete the purchase, the performance guarantee will be forfeited to the United States as liquidated damages. If the qualifying farmer enters into a purchase agreement and completes the terms of the agreement, the performance guarantee fee will be applied to the purchase price of the replacement farm unit. Should the applicant not be selected as a qualifying farmer, or should land not be available for purchase, or he is unable to purchase through no fault of his own, his performance guarantee fee shall be returned.

(f) Where two members of an immediate family are each entitled as qualifying farmers at the drawing, their drawing shall be for only one number which shall allow them consecutive order purchases of replacement farm units. They are required to submit only one performance guarantee. Qualifying farmers need not be present at the drawings to participate therein.

(g) After the drawing, the Regional Director will notify, in writing, each qualifying farmer of his respective priority. The qualifying farmers may, to the extent that lands are available, successively exercise their rights to purchase replacement farm units in accordance with the purchase-right priority established by the drawing.

(h) All available replacement farm units will be assigned numbers by the United States and must be purchased in sequence by qualifying farmers in accordance with the purchase-right priority established by the drawings. The lower numbered units will be sold first, and no replacement unit will be sold until all units having a lower number have been purchased.

(i) If a qualifying farmer fails within 10 calendar days after receipt of his notification to enter into a purchase contract for the unit offered to him at the time of his eligibility, the replacement farm unit will be offered to the next qualifying farmer who has not made a purchase at the time the unit is available. A qualifying farmer who fails to purchase an offered unit shall forfeit his opportunity to participate in the sale for that period and shall also forfeit his performance guarantee required under § 428.6(e). Qualifying farmers who forfeit their rights to purchase through their own actions

may file a subsequent notice of intent to purchase for later sales, but must meet all the requirements of the new filing, including the payment of an-

(b) Any party to a case adversely affected by a final decision of the Commissioner of the Bureau of Reclamation under this part shall have a right

By the Chief, Broadcast Bureau:

1. The Commission has before it the notice of proposed rulemaking, 43 FR 6636, February 15, 1978, adopted Feb-

6. Accordingly, *it is ordered,* That pursuant to sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and

broadcast stations) of the Commission's rules and regulations.

1. On December 8, 1977, the Commission adopted a report and order

repair and maintenance on the vehicle inside a building under specified conditions. An exception is provided for any vehicle containing combustible liquids.

may file a subsequent notice of intent to purchase for later sales, but must meet all the requirements of the new filing, including the payment of another performance guarantee; however, only one performance guarantee will apply toward the purchase price, the other will cover the Governments administrative costs.

(j) The consideration to be paid by the qualifying farmer for a replacement farm unit shall be the current fair market value of the unit on the basis of an appraisal approved by the Regional Director on behalf of the Secretary. An appraisal approved not more than 6 months prior to the offering of the farm units for sale shall be considered adequate to determine the current fair market value of the unit.

(k) The fair market value of replacement farm units shall be determined by a board of three appraisers composed of one appraiser designated by the Secretary, one designated by the State of Idaho, and one selected from the Teton flood disaster area by the designated State and Federal appraisers.

(l) The Secretary, acting through the Regional Director, shall sell and convey, by quitclaim deed, fee title to replacement farm units to qualifying farmers, subject to the completion of NEPA compliance and to the normal reservations included in patents issued for other public lands disposed of in the area, including, but not limited to, the reservations of easements for public roads along exterior boundaries and other environmental aspects of such replacement farm units as determined to be desirable by the Secretary.

(m) Replacement farms purchased under these rules shall not be resold for a period of 3 years following the date of sale without express approval of the Regional Director. Permission shall only be granted for extreme extenuating circumstances where failure to sell would work permanent extreme hardship on the seller.

§ 428.7 Decisions and appeals.

(a) The Regional Director, acting as designee of the Secretary, shall make the determinations required under these rules and regulations. A party directly affected by such determination may appeal in writing to the Commissioner of the Bureau of Reclamation within 30 days of receipt of the Regional Director's determination. The affected party shall have an additional 30 days thereafter within which to submit a supporting brief or memorandum to the Commissioner. The Regional Director's determination will be held in abeyance until the Commissioner has reviewed the matter and rendered a decision.

(b) Any party to a case adversely affected by a final decision of the Commissioner of the Bureau of Reclamation under this part shall have a right of appeal to the Director, Office of Hearings and Appeals, Office of the Secretary, in accordance with procedures provided in 43 CFR Part 4, Subpart G.

Pertinent addresses are shown below:

Commissioner, Bureau of Reclamation, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240.

Regional Director, Bureau of Reclamation, Federal Building and U.S. Courthouse, Box 043, 550 West Fort Street, Boise, Idaho 83724.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[BC Docket No. 78-46; RM-2904]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Hatch and Silver City, N. Mex.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: This action deletes the noncommercial educational reservation on VHF TV channel *10 at Silver City to reflect its current use by a commercial TV translator station and to provide a second commercial TV channel there. In addition, VHF TV channel *12 was reassigned from Hatch, N. Mex., to Silver City to provide for a noncommercial educational TV service to Silver City and to the southwestern portion of New Mexico.

EFFECTIVE DATE: October 23, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mark N. Lipp, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Hatch and Silver City, N. Mex.). Report and order (proceeding terminated).

Adopted: September 8, 1978.

Released: September 12, 1978,

By the Chief, Broadcast Bureau:

1. The Commission has before it the notice of proposed rulemaking, 43 FR 6636, February 15, 1978, adopted February 3, 1978, proposing to delete the educational reservation of VHF TV channel *10 at Silver City, N. Mex., and to reassign VHF TV channel *12 from Hatch, N. Mex., to Silver City (retaining the reservation for noncommercial educational use). Comments were received from Hubbard Broadcasting, Inc., proponent for these channel changes with an attached letter from the Governor's Commission on Public Broadcasting.

2. Silver City (pop. 8,557)[1] is the seat of Grant County (pop. 22,030) in southwest New Mexico. It has two VHF TV channel assignments, channels 6 and *10 (both have 100-watt commercial translator stations). Hatch (pop. 867) is located in Dona Ana County (pop. 69,773), approximately 105 kilometers (65 miles) east of Silver City. Its only TV channel assignment, channel *12, is unoccupied. It receives noncommercial educational service from station KRWG-TV, channel *22, Las Cruces, N. Mex., licensed to New Mexico State University.

3. Hubbard Broadcasting, Inc., operates a commercial translator TV station on channel *10 in Silver City.[2] Pursuant to its request, the notice proposed that the reservation for that channel be deleted so as to reflect its present use. It also proposed to reassign channel *12 from Hatch (where it is unoccupied and unapplied for) to Silver City to provide a frequency for the expressed interest of the Governor's Commission on Public Broadcasting to operate a noncommercial educational TV translator station at Silver City. The comments of Hubbard Broadcasting, Inc. and the Governor's Commission on Public Broadcasting support the Commission's proposed action.

4. The Commission finds that the proposed changes are in the public interest and should be adopted. Deletion of the reservation on channel 10, Silver City, would reflect its present use and would provide a second commercial channel for the community. The assignment of channel 12 to Silver City, with its reservation for noncommercial educational use would extend such TV service to Silver City and the southwestern portion of the State. No interest in continuation of the educational assignment at Hatch has been expressed by any educational or public broadcasting authority.

5. Mexican concurrence in these channel changes has been obtained.

[1] Population figures are taken from the 1970 U.S. census.

[2] The translator station K10KF retransmits the programing of station KOB-TV, channel 4, Albuquerque, N. Mex., also licensed to Hubbard Broadcasting, Inc.

6. Accordingly, *it is ordered*, That pursuant to sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules, the TV table of assignments, § 73.606(b) of the Commission's rules is amended, effective October 23, 1978, for the following cities:

City	Channel No.
Hatch, N. Mex.	....
Silver City, N. Mex.	6, 10+, *12

7. *It is further ordered*, That this proceeding is terminated.

Federal Communications Commission,
Wallace E. Johnson,
Chief, Broadcast Bureau.

[6712-01]

[Docket No. 20539]

PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST, AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

Reregulation of Radio and Television Broadcasting; Correction

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: This document makes an editorial amendment to a final rule published at 43 FR 14660, April 7, 1978, to include provisions relating to TV translator relay stations which were inadvertently omitted.

EFFECTIVE DATE: April 14, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

John W. Reiser, Broadcast Bureau, 202-632-9660.

SUPPLEMENTARY INFORMATION:

Released: September 11, 1978.

In the matter of amendment of subparts F and G of part 74 and subpart B of part 78 to provide for the use of FM microwave by television translator relay stations, and to provide for the operation of television translator stations using modulation of direct video and audio feed. Amendment of subpart F, part 74 (television auxiliary broadcast stations) of the Commission's rules and regulations.

1. On December 8, 1977, the Commission adopted a report and order terminating the proceeding in docket No. 20539 (43 FR 1943, Jan. 13, 1978), by which the use of certain TV auxiliary microwave facilities were made available for use with TV translator broadcast stations. By that proceeding, paragraph (a) of § 74.602 was amended to include TV translator relay stations under the eligibility requirements for auxiliary microwave frequencies. A subsequent order adopted March 28, 1978 (43 FR 14660, Apr. 7, 1978), making editorial revisions in the same rule section inadvertently deleted the amendments made in December 1977. Therefore, the introduction of paragraph (a) of § 74.602 of the Commission's rules and regulations should be corrected to read:

§ 74.602 Frequency assignment.

(a) The following frequencies are available for assignment to television pickup, television STL, television intercity relay, and television translator relay station:

* * * * *

Federal Communications Commission,
William J. Tricarico,
Secretary.

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION BUREAU, RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. HM-110; Amdt. No. 177-42]

PART 177—CARRIAGE BY PUBLIC HIGHWAY

Repair and Maintenance of Vehicles

AGENCY: Materials Transportation Bureau, Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment to the DOT hazardous materials regulations modifies existing requirements on performing repairs or maintenance to a motor vehicle containing hazardous materials. Modification is necessary to allow repair of such a vehicle when it can safely be performed inside a building. The modification prohibits hot work on the cargo or fuel containment systems of the vehicle if the vehicle is required to be placarded but permits repair and maintenance on the vehicle inside a building under specified conditions. An exception is provided for any vehicle containing combustible liquids.

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

Alan I. Roberts, Associate Director for Hazardous Materials Regulation, Materials Transportation Bureau, 2100 Second Street SW., Washington, D.C. 20590, phone 202-426-0656.

SUPPLEMENTARY INFORMATION:

I. Previous Notices and Amendments in This Docket

On August 27, 1973 (38 FR 22901), the Department of Transportation (DOT) published a notice that, among other things, proposed to modify an existing requirement (49 CFR 177.854(g)) which prohibited repair and maintenance work on vehicles containing hazardous materials inside a building, or whenever that work could not be performed without hazard. The notice was prompted by a rulemaking petition from a motor carrier who observed that the existing requirement prohibited minor but important repairs, such as brake adjustments and tire and lamp replacement, from being performed indoors on vehicles carrying hazardous materials. The carrier asserted that such minor repair work could be performed safely indoors. The notice resulted in an amendment (39 FR 41741, Dec. 2, 1974) with a 6-month delay in effective date. The effective date was extended another 6 months (40 FR 12269, Mar. 18, 1975) during which time the original proposal was modified (40 FR 21485, May 16, 1975) and then the modification withdrawn (40 FR 44842, Sept. 30, 1975). The effective date was again extended until July 1, 1976 (40 FR 44821, Sept. 30, 1975). Finally, § 177.854(g) as it originally read was confirmed until further amendment (41 FR 27968, July 8, 1976). On October 12, 1976 (41 FR 44712), a new notice was published upon which this amendment is based.

II. Purpose of This Amendment

This amendment is intended to reduce the possibility of an accident involving significant quantities of hazardous materials as a result of maintenance or repair work on the motor vehicle in which the materials are contained. Commenters have suggested that a complete examination of the work area might be necessary to control possible sources of accidents. The MTB agrees and has prescribed only general conditions in this amendment to deal with hazards arising from the materials a cargo vehicle may carry, and with conditions that threaten the

integrity of the system on the vehicle that contains the materials. This amendment does not exhaustively address conditions in the work area. Be-

gasoline as motor fuel in vehicles subject to customary repair practices. However, although it may be common repair practice to allow some ignition

vent the ignition of an explosive fuel-air mixture.

4. Provided that the requirements of paragraph (g)(2) of the amendment

a cargo tank. For facilities that lack receiving tanks, the carrier seeking the repairs will have to arrange to remove

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e).)

Note.—The Materials Transportation Bureau has determined that this final rule

Rail Corp. (CR) between Back River and Sparrows Point, Md. The Amtrak portion of this route carries in excess

integrity of the system on the vehicle that contains the materials. This amendment does not exhaustively address conditions in the work area. Because of the variety of possible circumstances involved, reliance must be placed on existing local, State, and Federal laws concerning motor vehicle repair work, and on the sound judgment and experience of those persons performing the work.

Paragraph (g)(1) of this amendment prohibits hot work on the cargo or fuel containment system of a vehicle carrying a sufficient quantity of a hazardous material to necessitate placarding. Vehicles carrying combustible liquids are excluded from this prohibition.

Under paragraph (g)(2) of the amendment, repair or maintenance inside a building on any placarded vehicle, except one placarded COMBUSTIBLE, is prohibited unless the cargo and fuel containment systems are free from leaks, the vehicle can be quickly removed from the enclosed area if necessary in an emergency, and the vehicle is removed from the enclosed area upon completion of repair or maintenance work. Both a person capable of operating the vehicle, and a means of moving the vehicle (in the event the vehicle cannot or should not be moved under its own power) must be available if removing the vehicle becomes necessary in an emergency. Conditions under which the vehicle should be removed, and the location to which it should be removed, are not prescribed in the amendment. Those conditions, which may vary, are left to be determined by the carrier or repair facility. In some circumstances it may be advisable not to attempt to remove the vehicle until further precautions are taken. To preclude the potential dangers that may develop, the vehicle must be removed from the enclosed area upon completion of repair or maintenance work. This condition was proposed in the notice of proposed rulemaking and generated very few comments because from a practical safety standpoint it appears to be followed by motor carrier shops and repair facilities.

In addition to these three restrictions on inside repair to a placarded vehicle, two more conditions apply if the vehicle contains explosives A or B (any quantity of which necessitates placarding) or contains a flammable liquid or flammable gas (note that cargo tanks and portable tanks containing even residues of these materials necessitate placarding unless cleaned and purged). The MTB recognizes that hazardous materials other than those prescribed in paragraph (g)(2)(iv) may pose fire hazards.

Such hazards are commensurate with hazards posed by the presence of gasoline as motor fuel in vehicles subject to customary repair practices. However, although it may be common repair practice to allow some ignition sources near a vehicle being repaired in an enclosed area, the additional and potentially much more extensive hazards, and accident consequences, involving explosives or significant quantities of flammable liquids or flammable gases warrant special precautions. Consequently, a placarded vehicle containing those materials may be repaired inside a building only if ignition sources are eliminated. The method used to eliminate ignition sources is not prescribed in the amendment but is left to the sound judgment of the repair facility, subject to applicable local, State, and Federal laws concerning those facilities.

Some of the differences between this amendment and the notice proposed on October 16, 1976, should be reiterated.

1. The proposed prohibition against use of heat, flame or spark outdoors within 100 feet of a vehicle containing certain hazardous materials has been dropped in favor of a general prohibition on the use of heat, flame, or spark on the cargo or fuel containment system of a placarded vehicle. Judgment on the safe use of welding equipment, outside of a building, on other components of a placarded vehicle is left to the repair facility.

2. Except for a vehicle carrying combustible liquids, any vehicle required to be placarded is subject to this amendment. The previous proposal would have applied to any vehicle containing any quantity of a flammable liquid, combustible liquid, flammable gas, poisonous liquid, oxidizer, or explosive. Excluded from the amendment's coverage is any vehicle not required to be placarded (however, note that materials, especially explosives A or B, listed in table 1 at § 172.504, as well as cargo tanks and portable tanks that have not been cleaned and purged, necessitate placarding regardless of quantities).

3. Repair work performed indoors on placarded vehicles containing cargoes of explosives A or B, flammable liquids, or flammable gases is permitted, provided exposed sources of ignition are eliminated. Compliance with National Fire Protection Association Pamphlet No. 70, "National Electrical Code," although proposed in the last notice for electrical equipment, is not required by the amendment. In addition to that publication, there exist various requirements imposed by local, State, and Federal agencies pertaining to sources of ignition. Rather than requiring compliance with a particular method of protecting exposed ignition sources, the amendment allows use of any reliable method that would prevent the ignition of an explosive fuel-air mixture.

4. Provided that the requirements of paragraph (g)(2) of the amendment are met, cold repairs to closed fuel and cargo containment systems may be performed indoors. The vehicle's motor and electrical system may remain operational to the extent necessary to accomplish maintenance or repair.

5. The previous proposal to delete paragraph (h) (concerning hot repair to cargo tanks and fuel containers) has been dropped. Paragraph (h) will be retained in this amendment since repair of a cargo tank or compartment thereof, formerly containing certain hazardous materials, can be safely performed by using flame, arc, or other means of welding if the tank or compartment has been made gas-free prior to the repair. In response to the notice, several comments indicated that paragraph (h) should be retained since it reflects long standing safety practices set forth by safety-oriented organizations, such as NFPA, and which should be adhered to by all motor carriers and repair shops that engage in such work.

III. Impact

This amendment may still necessitate the performance of some kinds of repair work outdoors, such as hot work on vehicles carrying flammable or explosive cargoes. The MTB has attempted to balance the hazards of working in an enclosed area on such vehicles against the disadvantages and possible hazards of requiring the work to be performed outside. A concern raised in comment, with which MTB agrees, is that a rule that is too stringent may result in deferral of repair work, failure to correct vehicle deficiencies, and the continued operation of vehicles in an unsafe condition. On the other hand, hot work in an enclosed area on vehicles carrying explosives or large volumes of liquids, gases or vapors which are flammable presents substantial, inherent risks. Reliance on the repair worker's sense of smell to detect cargo or fuel leakage is not a sufficient safeguard against the possibility of fire or explosion.

This amendment is a relaxation of existing requirements found in § 177.854(g). Moreover, the restrictions imposed by the amendment are similar to restrictions resulting from existing fire codes and insurance practices. Comments indicate that cleaning and purging a cargo tank can cost $100 or more and that many repair facilities lack tankage to receive hazardous materials that this amendment may require to be removed from a vehicle on which work is to be performed. The incremental safety thereby achieved is worth the cost of cleaning and purging a cargo tank. For facilities that lack receiving tanks, the carrier seeking the repairs will have to arrange to remove the vehicle's contents before hot repair may be undertaken.

Primary drafters of this document are David B. Goodman, Vehicle Requirement Branch, Bureau of Motor Carrier Safety; Joseph T. Horning, Regulations Development Branch, Office of Hazardous Materials Regulation; and Douglas A. Crockett, Standards Division, Office of Hazardous Materials Regulation, Materials Transportation Bureau.

In consideration of the foregoing, Part 177 of Title 49, Code of Federal Regulations, is amended as follows:

1. In § 177.854, paragraph (g) is revised to read as follows:

§ 177.854 Disabled vehicles and broken or leaking packages; repairs.

• • • • •

(g) *Repair and maintenance of vehicles containing certain hazardous materials.*—(1) *General.* No person may use heat, flame or spark producing devices to repair or maintain the cargo or fuel containment system of a motor vehicle required to be placarded, other than COMBUSTIBLE, in accordance with subpart F of part 172 of this subchapter. As used in this section, "containment system" includes all vehicle components intended physically to contain cargo or fuel during loading or filling, transport, or unloading.

(2) *Repair and maintenance inside a building.* No person may perform repair or maintenance on a motor vehicle subject to paragraph (g)(1) of this section inside a building unless:

(i) The motor vehicle's cargo and fuel containment systems are closed (except as necessary to maintain or repair the vehicle's motor) and do not show any indication of leakage;

(ii) A means is provided, and a person capable to operate the motor vehicle is available, to immediately remove the motor vehicle if necessary in an emergency;

(iii) The motor vehicle is removed from the enclosed area upon completion of repair or maintenance work; and

(iv) For motor vehicles loaded with explosives A or B, flammable liquids or flammable gases, all sources of spark, flame or glowing heat within the area of enclosure (including any heating system drawing air therefrom) are extinguished, made inoperable or rendered explosion-proof by a suitable method. *Exception:* Electrical equipment on the vehicle, necessary to accomplish the maintenance function, may remain operational.

• • • • •

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e).)

NOTE.—The Materials Transportation Bureau has determined that this final rule will not result in a major economic impact under the terms of Executive Order 12044 and DOT implementing procedures (43 FR 9582). A regulatory evaluation is available in the docket.

Issued in Washington, D.C., on September 12, 1978.

L. D. SANTMAN,
Acting Director,
Materials Transportation Bureau.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Service Order No. 1337]

PART 1033—CAR SERVICE

Western Maryland Railway Co. Authorized To Operate Over Tracks of the Baltimore & Ohio Railroad Co.

Decided September 11, 1978.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order (Service Order No. 1337).

SUMMARY: The Western Maryland Railway Co. operates over tracks of the National Railroad Passenger Corp. between Fulton Junction, Md., and Back River, Md., thence over tracks of Consolidated Rail Corp. between Back River and Sparrows Point, Md. The high density of traffic results in serious delays to WM trains. Service order No. 1337 authorizes Western Maryland to operate over tracks of the the Baltimore & Ohio Railroad Co. between Westport, Md., and Sparrows Point, Md., in order to expedite train movements.

DATES: Effective 11:59 p.m., September 12, 1978. Expires 11:59 p.m., January 31, 1979.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C., 20423, Telephone: 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The Western Maryland Railway Co. (WM) presently operates over tracks of the National Railroad Passenger Corp. (Amtrak) between Fulton Junction, Md., and Back River, Md., thence over the tracks of the Consolidated Rail Corp. (CR) between Back River and Sparrows Point, Md. The Amtrak portion of this route carries in excess of sixty (60) passenger trains daily plus a large number of freight trains operated by CR. This high density of traffic results in serious delays in the movement of WM trains between its tracks at Fulton Junction and Sparrows Point.

An alternate route is available via the tracks of the Baltimore & Ohio Railroad Co. (BO) between Westport, Md., and Sparrows Point. Use of this route by the WM would enable it to bypass the congested Amtrak trackage on its present route and greatly expedite the movement of WM trains, thereby improving both freight car and locomotive utilization. The BO has consented to this use of its tracks by the WM.

It is the opinion of the Commission that an emergency exists requiring operation of WM trains over these tracks of the BO in the interest of the public; that notice and public procedure are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered,

§ 1033.1337 Service order 1337.

(a) *Western Maryland Railway Co. authorized to operate over tracks of the Baltimore & Ohio Railroad Co.* The Western Maryland Railway Co. (WM) is authorized to operate over tracks of the Baltimore & Ohio Railroad Co. (BO) between Westport, Md., and Sparrows Point, Md., all within the Baltimore, Md., terminal area.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the WM over tracks of the BO is deemed to be due to carrier's disability, the rates applicable to traffic moved by the WM over the tracks of the BO shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., September 12, 1978.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., January 31, 1979, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1(10-17).)

This order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be

given to the general public by depositing a copy in the Office of the Secre-

Refuge, Fontenelle Route, Via Kemmerer, Wyo. 83101, 307-877-6334.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for

[3510-22]

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NA-

fishery, when the total quarterly quota of cod is taken.

During the period of closure, it shall be unlawful for vessels of 61-125 GRT

given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael.

H. G. HOMME, Jr.,
Acting Secretary.

[4310-55]

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Fish Springs National Wildlife Refuge, Utah, to Public Hunting of Ducks, Coots, and Mergansers

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of ducks, coots, and mergansers at Fish Springs National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 7, 1978 through January 7, 1979.

FOR FURTHER INFORMATION CONTACT:

Kim Forrest, Acting Refuge Manager, Fish Springs National Wildlife Refuge, Dugway, Utah 84022; or Mitchell G. Sheldon, Assistant Area Manager, Refuges and Wildlife, U.S. Fish and Wildlife Service, 1426 Federal Building, 125 South State Street, Salt Lake City, Utah 84138, 801-524-5633.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Hunting for ducks, coots, and mergansers is permitted on Fish Springs National Wildlife Refuge, Utah, only on the areas designated by signs as being open to hunting. This area, comprising 6,773 acres, is delineated on maps available at the refuge headquarters, 66 miles southwest of Dugway, Utah, and from the office of the Area Manager, U.S. Fish and Wildlife Service, 1426 Federal Building, 125 South State Street, Salt Lake City, Utah 84138. Hunting shall be in accordance with all State and Federal regulations applicable to the hunting of ducks, coots, and mergansers, subject to the following conditions:

1. All hunters must register at the Visitor Information Station prior to hunting each day and must check out at the end of each day.

2. Shooting from, upon, or across dikes or roads, open to vehicular traffic, is prohibited.

3. The use of small boats, canoes, etc. is permitted, but outboard motors or air thrust boats are prohibited.

4. Dogs may be used for hunting, but must be kept under control at all times.

The provisions of these special regulations supplement the regulations that govern hunting on wildlife refuge areas generally that are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 7, 1979. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparations of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

KIM FORREST,
Acting Refuge Manager.

AUGUST 28, 1978.

[FR Doc. 78-26113 Filed 9-15-78; 8:45 am]

[4310-55]

PART 32—HUNTING

Opening of Seedskadee National Wildlife Refuge, Wyo., to Public Hunting of Mule Deer

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to public hunting of mule deer (either sex) on Seedskadee National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 15, 1978, through October 31, 1978.

FOR FURTHER INFORMATION CONTACT:

H. J. Johnson, Refuge Manager, Seedskadee National Wildlife Refuge, Fontenelle Route, Via Kemmerer, Wyo. 83101, 307-877-6334.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Public hunting of mule deer is permitted on Seedskadee National Wildlife Refuge, Wyo. All of the refuge area, comprising 14,284 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Fontenelle Route, Via Kemmerer, Wyo. 83101 and from the office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colo. 80225. Hunting shall be in accordance with all applicable State regulations governing the hunting of mule deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

H. J. JOHNSON,
Refuge Manager.

SEPTEMBER 8, 1978.

[4310-55]

PART 32—HUNTING

Opening of Seedskadee National Wildlife Refuge, Wyo., to Public Hunting of Migratory Game Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to public hunting of migratory game birds on Seedskadee National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: September 30, 1978, through December 31, 1978.

FOR FURTHER INFORMATION CONTACT:

H. J. Johnson, Refuge Manager, Seedskadee National Wildlife Refuge, Fontenelle Route, Via Kemmerer, Wyo. 83101, 307-877-6334.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of migratory game birds is permitted on Seedskadee National Wildlife Refuge, Wyo. All of the refuge area, comprising 14,284 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Fontenelle Route, Via Kemmerer, Wyo. 83101 and from the office of the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver Federal Center, Denver, Colo. 80225. Hunting shall be in accordance with all applicable State regulations governing the hunting of migratory game birds.

The provisions of the special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service had determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

H. J. JOHNSON,
Refuge Manager.

SEPTEMBER 8, 1978.

CHAPTER VI—FISHERY CONSERVATION AND MANAGEMENT, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

Part 651—Atlantic Groundfish (Cod, Haddock, and Yellowtail Flounder)

Fisheries Closure Notice

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Notice of closure.

SUMMARY: This notice announces the closure of commercial cod fishing in the southern New England (including Georges Bank) area for vessels in the 61-125 gross registered ton class for the remainder of 1978. This action is being taken because those commercial vessels have exceeded the annual quota of 6,910 metric tons allocated to that class.

EFFECTIVE DATE: 0001 hours, September 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. William G. Gordon, Regional Director, Northeast Region, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Mass. 09130, Telephone: 617-281-3600.

SUPPLEMENTARY INFORMATION: 50 CFR 651.9(a) (43 FR 31015) published on July 19, 1978, authorizes the Assistant Administrator for Fisheries to announce the closure of the season for cod by publication in the FEDERAL REGISTER, specifying the time, date, and area for the termination of that fishery, when the total quarterly quota of cod is taken.

During the period of closure, it shall be unlawful for vessels of 61-125 GRT to catch, retain, or land any cod.

On July 21, 1978, a vessel allocation system, based on traditional landing patterns for each of three sizes of trawl vessels was published in the FEDERAL REGISTER (43 FR 31341). The annual vessel allocation of cod for vessels in the 61-125 GRT class fishing in southern New England and on Georges Bank was established at 6,910 metric tons.

This annual quota, based on a calendar year, included the total allowable catch for that vessel class for 4 consecutive quarters.

The landing statistics for cod indicate that by August 31, 1978, the 61-125 GRT vessel class operating in southern New England had caught and landed 6,877 metric tons, or 99.5 percent of the total annual allocation. It is estimated, therefore, that the 61-125 GRT vessel class engaged in the southern New England and Georges Bank cod fishery has now exceeded its quota for the current calendar year. The closure will continue through the remainder of the present quarter and the entire 4th quarter.

Fishermen are reminded that vessels of a comparable size using small mesh nets in other fisheries are restricted to an incidental catch and landing of cod not to exceed 1 percent of all other fish on board.

Signed at Washington, D.C. this 13th day of September 1978.

WINFRED H. MEIBOHM,
Associate Director,
National Marine Fisheries Service.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 7]

OTHER REAL ESTATE PROPERTY

Proposed Revision to Interpretive Ruling

AGENCY: Comptroller of the Currency, Treasury.

ACTION: Proposed revision to interpretive ruling.

SUMMARY: The purpose of this proposed revision is to indicate that national banks should record the value of "other real estate owned" in a manner consistent with generally accepted accounting principles as reflected in the Financial Accounting Standards Board's statement of financial accounting standards No. 15 (FASB 15), and as additionally required in this ruling. In addition, the proposed ruling has been expanded to include accounting for certain real estate transactions where a national bank's involvement is other than as lender only.

On January 20, 1978, the Comptroller of the Currency published for comment (43 FR 2881) a proposed amendment to interpretive ruling 7.3025 entitled "Other real estate owned" to conform the ruling with the provisions of FASB 15. As a result of the January proposal, the Comptroller has decided to expand the scope of this ruling significantly in order to more fully encompass the provisions of FASB 15, and to incorporate certain transactions not specifically addressed in the January proposal. The Comptroller is, therefore, reproposing this amendment, with significant changes for additional comment.

DATE: Written comments must be received on or before October 18, 1978.

ADDRESS: Comments should be addressed to Mr. John E. Shockey, Chief Counsel, Comptroller of the Currency, Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT:

Mr. Andrew Levinson, Attorney, Comptroller of the Currency, Washington, D.C. 20219, 202-447-1880.

SUPPLEMENTARY INFORMATION: The current version of 12 CFR 7.3025 permits "other real estate owned" to be recorded initially at the lower of cost or fair market value. It also provides that if the book value exceeds the fair market value, the difference must be charged off. The existing interpretive ruling, in addition, notes that if a subsequent increase in fair market value occurs, book value should not be written up beyond the original cost.

On January 20, 1978, the Comptroller of the Currency published for comment (43 FR 2881) a proposed amendment to interpretive ruling 7.3025 entitled "Other real estate owned" to conform the ruling with the provisions of FASB 15. As a result of the many suggestions received in response to the January proposal, the Comptroller has decided to expand the scope of this ruling significantly in order to more fully encompass the provisions of FASB 15, and to incorporate certain transactions not specifically addressed in the January proposal. The Comptroller is, therefore, reproposing this amendment, with significant changes, for additional comment.

FASB 15 dictates that real estate acquired in a troubled debt restructuring be accounted for at its fair value. Thereafter a creditor shall account for an asset received in satisfaction of a loan the same as if the asset had been acquired for cash. FASB 15 defines fair value at the time of transfer as market value or, if no active market exists, the price it could reasonably be expected that a willing buyer would currently pay a willing seller. When real estate is acquired in a troubled debt restructuring, any excess of recorded investment in the satisfied loan over fair value is recognized as a loss by a charge against an appropriate loan loss or valuation reserve or against income. The proposed ruling follows these principles and additionally provides a definition for recorded investment in the satisfied loan.

The ruling has been further expanded to discuss the proper accounting for certain transactions among a debtor, the bank, and a third-party purchaser of real estate who does not assume significant economic risk. Transactions covered by the ruling are sales of other real estate owned where less than 10 percent of the total sales prices is in cash or there is financing by the bank of a portion of the sale price on terms more favorable than those customarily granted by the bank where its only involvement is as lender. The ruling also covers transactions in which the debtor transfers real property to a new owner who invests nominal equity and assumes the debt owed to the bank on restructured terms more favorable than those customarily required by the bank where its only involvement is as lender. These transactions are included to insure that banks recognize losses in a timely manner and do not circumvent the holding period of 12 U.S.C. 29.

Assets in the "other real estate owned" account which are not acquired by the bank in a troubled debt situation (former banking premises and property originally acquired for future expansion) will be accounted for at the lower of their net book value or fair value at the date of transfer to the account. This treatment is being required since the property is no longer an investment, but rather is held for resale.

The proposed ruling requires that banks substantiate both the initial fair value of all other real estate owned and its continuing carrying value by obtaining an appraisal or certification from an independent, qualified appraiser. Where the subsequent appraisal indicates that fair value has fallen below the carrying value, the bank must record the decline in a manner consistent with Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies." Should a later appraisal indicate that fair value has increased, any valuation reserve established to record the decline in value of a specific parcel of real estate may be reduced by the amount of the increase in value of that property, but not below zero.

At present, there is a bill before Congress which would modify the statutory holding period contained in 12 U.S.C. 29. If enacted, the Comptroller of the Currency would have the authority, upon application by a national bank, to extend the 5-year holding period but for no more than an additional 5 years. Recognizing the possibility that the holding period may be changed, the ruling no longer contains reference to 5 years. Rather, the term "the allowable holding period under 12 U.S.C. 29" is used. The Comptroller of the Currency intends to use any appropriate supervisory remedies including those enumerated at 12 U.S.C. 1818(b) to enforce the requirement of 12 U.S.C. 29.

DRAFTING INFORMATION

The principal drafters of this document were Ms. Roberta Books, Special Assistant to the Comptroller, Mr. Robert Klinzing, National Bank Examiner, and Mr. Douglas Ward, Director, Bank Accounting.

PROPOSED AMENDMENT

For the reasons stated above, the Comptroller proposes to amend 12 CFR part 7 by revising § 7.3025 to read as follows:

§ 7.3025 Other real estate owned.

(a) "Other real estate owned" is:

(1) Real estate acquired by a national bank:

(i) Through purchases at sales under judgments, decrees, or mortgages where the property was security for debts previously contracted;

(ii) Through conveyance in satisfaction of debts previously contracted; or

(iii) Through purchases to secure debts previously contracted; and

(2) Former banking premises beginning on the date of relocation to new banking quarters and property originally acquired for future expansion for which banking use is no longer contemplated.

(b) "Covered transactions" are:

(1) Sales of other real estate owned where less than 10 percent of total sales price is in cash or there is financing by the bank of a portion of the sales price on terms more favorable than those customarily required for transactions where the bank's involvement is as lender only; and

(2) Transfers of real property from the original borrower to a new owner where the new owner's-purchase price is for nominal equity and the debt owed the bank is assumed by the new owner on restructured terms more favorable than those customarily required for transactions in which the bank's involvement is as lender only.

(c) The "recorded investment in the loan satisfied" is the unpaid balance of the loan adjusted for previous direct writedowns, if any, and increased or decreased for accrued and uncollected interest and for unamortized premium, discount, finance charges, or loan acquisition costs.

(d) "Fair value" is the cash price that might reasonably be anticipated in a current sale under all conditions requisite to a fair sale. A fair sale means that buyer and seller are each acting prudently, knowledgeably, and under no necessity to buy or sell. The appraiser should estimate the cash price that might be received upon exposure to the open market for a reasonable time, considering the property type and local market conditions. However, when more than 1 year is deemed necessary for a fair sale of the property, the appraiser must apply an appropriate discount to reflect what a prudent, knowledgeable purchaser under no necessity to buy would require to purchase the property within 1 year of the date of estimation of fair value.

(e) The bank must maintain current documentation reflecting its continuing and diligent efforts to dispose of each parcel of other real estate owned. Whenever a bank can recover the amount of its original loan and acquisition costs, it should dispose of other real estate owned. However, no national banking association shall hold other real estate owned for longer than the holding period permitted under 12 U.S.C. 29. That holding period begins on the date that legal title to the property is transferred to the bank, except for properties for which banking use is no longer contemplated and covered transactions. After a covered transaction, if title reverts or passes to the bank and the outstanding financing exceeds 90 percent of the sales price, the holding period begins on the date the bank originally acquired title. For covered transactions described in paragraph (b)(2) of this section, the holding period begins on the date of the first such transaction for the property.

(f) Real estate acquired for future expansion should normally be used within 3 years. After holding future expansion real estate for 1 year, the board must state, by resolution, definite plans for its use. The resolution must be available for inspection by national bank examiners.

(g) Real estate for which banking use is no longer contemplated will be accounted for at the lower of its net book value or its fair value at the date of transfer to other real estate owned. Otherwise, other real estate owned will be accounted for individually at its fair value on the date of transfer to that category. Any excess of the recorded investment in the loan satisfied, over the fair value of the property must be charged against the reserve for possible loan losses. In the absence of such a reserve, the excess must be charged to expense of the current period. Legal fees and direct costs of acquiring title to the property shall be expensed when incurred.

(i) Upon transfer to other real estate owned, fair value must be substantiated by a current appraisal prepared by an independent, qualified appraiser.

(i) This requirement is waived when the entire property is recorded at the lower of 5 percent of the bank's equity capital or $25,000. The requirement is deferred for 3 months after bank takes title when the bank can document reasonable expectation of a sale, other than in a covered transaction.

(ii) All instructions from the bank to the appraiser must be in writing. The bank must instruct the appraiser to estimate fair value according to this subparagraph and the definition of fair value. The appraisal must contain all of the bank's instructions to the appraiser. Whenever the appraiser believes that more than 1 year is necessary for a fair sale of the property, the appraiser shall state and justify the estimated time and shall state the annual discount rate applied.

(h) The bank must obtain annually from an independent, qualified appraiser a current appraisal of fair value for each property or certification, in letter form, that the fair value has not declined. The bank need not obtain either if the book value of the entire property is below the lower of 5 percent of equity capital or $25,000. When book value exceeds fair value, the bank must record the decline in value by a charge against earnings to establish a valuation reserve or to reduce the asset account. When a later appraisal indicates that fair value has increased, the reserve may be reduced, but not by more than the amount provided for that property.

(i) Loans arising from covered transactions must be included in other real estate owned on reports filed pursuant to 12 U.S.C. 161 and accounted for according to this section until at least 10 percent of the covered transaction sales prices has been received by the bank in cash.

(j) If other real estate owned is an unfinished construction or development project, further prudent advances to complete the project may be included in other real estate owned. However, such additional advances may not be capitalized unless the bank maintains on file evidence that the advances will result in a more salable property and are recoverable.

(k) Properties transferred to other real estate owned after December 31, 1977, shall be accounted for according to this ruling. Properties transferred to other real estate owned before January 1, 1978, shall be accounted for according to this ruling or the ruling in effect on the date of the transfer.

Dated: September 11, 1978.

JOHN G. HEIMANN,
Comptroller of the Currency.

[13 CFR Part 309]

GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE

Amendment of Labor Standards for Construction Projects

AGENCY: Economic Development Administration (EDA), Department of Commerce.

ACTION: Proposed rule.

SUMMARY: This amendment revises 13 CFR 309.6 "Labor standards-construction of projects." By deleting subsections (d) and (e). The change results from a joint EDA-HUD (Department of Housing and Urban Development) program to eliminate unnecessary differences between the two agencies' regulations. The intended effect of this amendment is to conform this regulations to approved EDA-HUD standards.

DATE: Comments by October 18, 1978.

ADDRESS: Send comments to Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT:

Dan Weiss, U.S. Department of Commerce, Room 7001, Washington, D.C. 20230, 202-377-4689.

SUPPLEMENTARY INFORMATION: Section 309.6 lists the labor standards which apply to EDA-assisted construction projects. Subsections (d) and (e) of this section are being deleted. Subsection (d) applied Executive Order 11588 on wage and price stabilization to contractors and subcontractors on EDA projects. This executive order has been rescinded; therefore subsection (d) no longer serves a useful purpose.

Subsection (e) notified contractors and subcontractors of their duty to comply with Executive Order 11246 on equal employment opportunity. This requirement also is contained, more appropriately, in EDA's nondiscrimination regulations, 13 CFR Part 311. Therefore, the deletion of subsection (e) does not affect the enforcement of these requirements.

With these changes, EDA's labor standards regulation will accord with the provisions of the EDA-HUD agreement.

In accordance with the criteria contained in Department of Commerce Administrative Order 218-7, EDA has determined that this amendment is not a significant regulation subject to the requirements of Executive Order 12044. However, in accordance with the policies of that executive order, EDA is publishing this amendment as a proposed rule and will accept written comments on it on or before October 18, 1978.

Accordingly, EDA amends 13 CFR Part 309 by deleting subsections (d) and (e) from § 309.6.

Dated: September 8, 1978.

ROBERT T. HALL,
Assistant Secretary for Economic Development.

[Airspace Docket No. 78-CE-24]

CONTROL ZONE—CLINTON, IOWA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to designate a part-time control zone at Clinton, Iowa, to serve the Clinton, Iowa, Municipal Airport in order to provide additional controlled airspace protection for aircraft utilizing said airport.

DATE: Comments must be received on or before October 23, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-530, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas City, Mo.

An informal docket may be examined at the Office of the Chief, Operations, Procedures and Airspace Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Dwaine E. Hiland, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-537, FAA, Central Region, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before October 23, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the rules docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106, or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart F, § 71.171 of the Federal Aviation Regulations (14 CFR § 71.171) by designating a control zone at Clinton, Iowa, to serve the Clinton, Iowa, Municipal Airport. To enhance airport usage, a part-time control zone is being designated effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the airman's information manual. The intended effect of this action is to insure segregation of aircraft operating under instrument flight rules (IFR) and other aircraft operating under visual flight rules (VFR).

Accordingly, the Federal Aviation Administration proposes to amend subpart F, § 71.171 of the Federal Aviation Regulations (14 CFR 71.171) as republished on January 3, 1978 (43 FR 355), by adding the following new control zone:

CLINTON, IOWA

That airspace extending upward from the surface within a 5-mile radius of the Clinton Airport (lat. 41°49'55" N., long. 90°19'45" W.) and within 3 miles each side of Davenport VORTAC 044° radial, extending from the 5-mile radius area to the VORTAC; and within 3 miles each side of the Clinton NDB 327° bearing from the airport, extending from the 5-mile radius area to 8½ miles northwest; and within 2½ miles each side of the 030° bearing from the Clinton Airport, extending from the 5-mile radius area to 6 miles northeast. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the airman's information manual.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Mo., on September 5, 1978.

JOHN E. SHAW,
Acting Director, Central Region.

[FR Doc. 78-25987 Filed 9-15-78; 8:45 am]

[14 CFR Part 71]

[Docket No. 78-SO-57]

DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Designation of Transition Area, Butler, Ala.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will designate the Butler, Ala., transition area and will lower the base of controlled airspace in the vicinity of the Butler-Choctaw County Airport from 1,200 to 700 feet to accommodate instrument flight rule (IFR) operations. A public use instrument approach procedure has been developed for the Butler-Choctaw County Airport and the additional controlled airspace is required to protect aircraft conducting instrument flight rule (IFR) operations.

DATE: Comments must be received on or before: October 31, 1978.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

William F. Herring, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320, telephone 404-763-7646.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before October 31, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate the Butler, Ala., 700-foot transition area. This action will provide additional controlled airspace to accommodate aircraft performing IFR operations at Butler-Choctaw County Airport.

DRAFTING INFORMATION

The principal authors of this document are William F. Herring, Airspace and Procedures Branch, Air Traffic Division, and Keith S. May, Office of Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend subpart G, § 71.181 (43 FR 440) of part 71 of the Federal Aviation Administration Regulations (14 CFR 71) by adding the following:

BUTLER, ALA.

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of Butler-Choctaw County Airport (lat. 32°07'06" N., long. 88°07'42" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in East Point, Ga., on September 6, 1978.

WILLIAM J. MCGILL,
Acting Director, Southern Region.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in duplicate to the Operations, Procedures and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before October 23, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the rules docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106, or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart F, § 71.171 of the Federal Aviation Regulations (14 CFR § 71.171) by designating a control zone at Clinton, Iowa, to serve the Clinton, Iowa, Municipal Airport. To enhance airport usage, a part-time control zone is being designated effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the airman's information manual. The intended effect of this action is to insure segregation of aircraft operating under instrument flight rules (IFR) and other aircraft operating under visual flight rules (VFR).

Accordingly, the Federal Aviation Administration proposes to amend subpart F, § 71.171 of the Federal Aviation Regulations (14 CFR 71.171) as republished on January 3, 1978 (43 FR 355), by adding the following new control zone:

CLINTON, IOWA

That airspace extending upward from the surface within a 5-mile radius of the Clinton Airport (lat. 41°49'55" N., long. 90°19'45" W.) and within 3 miles each side of Davenport VORTAC 044° radial, extending from the 5-mile radius area to the VORTAC; and within 3 miles each side of the Clinton NDB 327° bearing from the airport, extending from the 5-mile radius area to 8½ miles northwest; and within 2½ miles each side of the 030° bearing from the Clinton Airport, extending from the 5-mile radius area to 6 miles northeast. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the airman's information manual.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Kansas City, Mo., on September 5, 1978.

JOHN E. SHAW,
Acting Director, Central Region.

[14 CFR Part 71]

[Docket No. 78-SO-57]

DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Designation of Transition Area, Butler, Ala.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will designate the Butler, Ala., transition area and will lower the base of controlled airspace in the vicinity of the Butler-Choctaw County Airport from 1,200 to 700 feet to accommodate instrument flight rule (IFR) operations. A public use instrument approach procedure has been developed for the Butler-Choctaw County Airport and the additional controlled airspace is required to protect aircraft conducting instrument flight rule (IFR) operations.

DATE: Comments must be received on or before: October 31, 1978.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320.

FOR FURTHER INFORMATION CONTACT:

William F. Herring, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320, telephone 404-763-7646.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before October 31, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to subpart G of part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate the Butler, Ala., 700-foot transition area. This action will provide additional controlled airspace to accommodate aircraft performing IFR operations at Butler-Choctaw County Airport.

DRAFTING INFORMATION

The principal authors of this document are William F. Herring, Airspace and Procedures Branch, Air Traffic Division, and Keith S. May, Office of Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend subpart G, § 71.181 (43 FR 440) of part 71 of the Federal Aviation Administration Regulations (14 CFR 71) by adding the following:

BUTLER, ALA.

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of Butler-Choctaw County Airport (lat. 32°07'06" N., long. 88°07'42" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in East Point, Ga., on September 6, 1978.

WILLIAM J. MCGILL,
Acting Director, Southern Region.

TRANSITION AREA—OSKALOOSA, IOWA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to designate a 700-foot transition area at Oskaloosa, Iowa, to provide controlled airspace for aircraft executing a new instrument approach procedure to the Oskaloosa, Iowa, Municipal Airport, which is based on the Ottumwa, Iowa, VOR, a navigational aid.

DATES: Comments must be received on or before October 23, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-530, 601 East 12th Street, Kansas City, Mo. 64106, telephone 816-374-3408. The official docket may be examined at the Office of the Regional Counsel, Central Region, Federal Aviation Administration, Room 1558, 601 East 12th Street, Kansas City, Mo. An informal docket may be examined at the Office of the Chief, Operations, Procedures and Airspace Branch, Air Traffic Division.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number, and be submitted in duplicate to the Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before October 23, 1978 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in light of the comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Operations, Procedures and Airspace Branch, 601 East 12th Street, Kansas City, Mo. 64106, or by calling 816-374-3408. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for further NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR Section 71.181) by designating a 700-foot transition area at Oskaloosa, Iowa. To enhance airport usage, a new instrument approach procedure to the Oskaloosa, Iowa, Municipal Airport is being established based on the Ottumwa, Iowa, VOR, a navigational aid. The establishment of an instrument approach procedure based on this navigational aid entails designation of a transition area at and above 700 feet above ground level (AGL) within which aircraft will be provided controlled airspace protection. The intended effect of this action is to insure segregation of aircraft using the new approach procedure under instrument flight rules (IFR) and other aircraft operating under visual flight rules (VFR).

Accordingly, the Federal Aviation Administration proposes to amend subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), by adding the following new transition area:

OSKALOOSA, IOWA

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Oskaloosa Municipal Airport (latitude 41°13'36" N., longitude 92°29'30" W.) excluding the portion that overlies the Ottumwa, Iowa, transition area.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; Mar. 8, 1978).

Issued in Kansas City, Mo., on September 5 1978.

CIVIL AERONAUTICS BOARD

[14 CFR Ch. II]

[EDR-347D, PDR-49D, Docket 32219]

U.S. CORPORATIONS WHICH DO NOT QUALIFY AS A "CITIZEN OF THE UNITED STATES"

Supplemental Advance Notice of Proposed Rulemaking

SEPTEMBER 11, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: This notice extends until October 23, 1978 the date for filing comments in a rulemaking proceeding involving (1) the correctness of the Board's tentative legal ruling that U.S. corporations are citizens of the United States for the purposes of section 408(a)(4) of the Federal Aviation Act, (2) to determine the extent and nature of the effect of such a ruling, and (3) to formulate possible regulatory solutions through rulemaking procedures for problems which may arise. The extension was requested by British Airways.

DATE: Comments by October 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald H. Horn, Routes Division, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5206.

SUPPLEMENTAL INFORMATION: By advance notice of proposed rulemaking EDR-347/PDR-49, March 9, 1978, (43 FR 10938 March 16, 1978), the Civil Aeronautics Board gave notice of its tentative legal conclusion that U.S. corporations are citizens of the United States for purposes of section 408(a)(4) of the Federal Aviation Act and requested comments on that tentative legal conclusion, including the nature and extent of the problems which may be created by finalizing that tentative conclusion, and what regulatory action might be taken to minimize those problems consistent with statutory objectives. Comments were requested to be filed by May 1, 1978. By EDR-347A/PDR-49A (43 FR 18196, April 28, 1978) the comment date was extended until June 30, 1978. By EDR-347B/PDR-49B (43 FR 29011, July 5, 1978) the comment date was extended until July 31, 1978. By EDR-347C/PDR-49C (43 FR 32308, July 26, 1978) the comment date was extended until September 18, 1978.

On June 26, 1978, British Airways filed a motion for clarification of EDR-347/PDR-49 and requested that the due date for comments in this rulemaking be extended pending action on that motion. As it does not appear that British Airways' motion will be acted upon before the current comment date (September 18, 1978), the undersigned finds good cause to grant the requested extension of time for filing comments. Accordingly, under authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to October 23, 1978.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324.)

RICHARD B. DYSON,
Acting Associate General
Counsel, Rules Division.

FEDERAL TRADE COMMISSION

[16 CFR Part 305]

RULES FOR USING ENERGY COST AND CONSUMPTION INFORMATION IN LABELING AND ADVERTISING OF CONSUMER APPLIANCES UNDER THE ENERGY POLICY AND CONSERVATION ACT

Revised Schedule for Public Hearings and Submission Dates on Proposed Rulemaking

AGENCY: Federal Trade Commission.

ACTION: Proposed rule; dates changed for public hearings and submissions.

SUMMARY: On July 21, 1978, the Commission published in the FEDERAL REGISTER its notice of proposed rulemaking regarding appliance energy cost labeling. Upon formal and informal requests for extension of time, the presiding officer has rescheduled the public hearings and submission dates that were scheduled in the July 21 notice. The notice of July 21, 1978, is hereby amended, but only to the extent necessary to incorporate the revised schedule and dates as contained herein.

DATES: General written comments, hearing statements and exhibits must be received on or before October 2, 1978. The hearings will begin on October 12, 1978. The deadline for notification of desire to testify at hearings remains September 19, 1978.

ADDRESSES: Hearing location: Federal Trade Commision Building, Room 532, Washington, D.C.

Written comments, exhibits and hearing statements should be submitted, in five copies when feasible, to Christopher W. Keller, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580. These documents will be available for public inspection in the Public Reference Branch, Room 130 of the Federal Trade Commission Building, Sixth Street and Pennsylvania Avenue NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Andrew I. Wolf, 202-724-1453, Attorney, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On July 21, 1978, the Commission published in the FEDERAL REGISTER a notice of proposed rulemaking to consider energy cost labeling of consumer appliances (43 FR 31806). The rulemaking has been undertaken by the Commission pursuant to the Energy Policy and Conservation Act. The notice contained the text of the proposed rule and dates for the submission of written comments, deadline for requests to testify and the date and location of public hearings. The Presiding Officer has determined, pursuant to the authority of section 1.13(c)(1) of the Commission's rules of practice (16 CFR 1.13(c)(1)), that a revision of the schedule and extension of certain deadlines is warranted for the orderly conduct of this proceeding.

Accordingly, the schedule has been revised to allow an additional period for filing written comments and hearing statements; such comments and statements must be received by the presiding officer on or before October 2, 1978. The hearings will begin at 9 a.m. on October 12, 1978, in Room 532 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D.C. The deadline for notification of intent to appear at the hearings remains September 19, 1978. (If possible, witnesses addressing a specific appliance category will be scheduled to testify on the same day as other witnesses associated with the same appliance category.)

SUMMARY OF DEADLINES

September 19, 1978: Requests to testify at public hearings.

October 2, 1978: All written comments, hearing statements (testimony) and exhibits.

October 12, 1978: Hearings begin.

Issued: September 12, 1978.

CHRISTOPHER W. KELLER,
Presiding Officer.

[FR Doc. 78-26245 Filed 9-15-78; 8:45 am]

[4410-01]

DEPARTMENT OF JUSTICE

Parole Commission

[28 CFR Part 2]

PAROLE, RELEASE, SUPERVISION, AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

Proposed Rulemaking

AGENCY: U.S. Parole Commission.

ACTION: Proposed rule.

SUMMARY: This proposed rule provides that all Federal prisoners eligible for parole would be afforded initial parole hearings within 120 days of their arrival at a Federal institution, with the sole exception that offenders whose sentences include minimum terms of 10 years or more would not be heard until just prior to completion of the minimum term. The proposal also requires the Commission to set a presumptive date of release for each prisoner at the initial hearing, if release were warranted for a date not more than 10 years from the date of the hearing. These proposed modifications are further extensions of the Commission's present early hearing and presumptive date policy, and are designed to provide more certainty in the service of prison terms.

DATE: Comments must be received by November 15, 1978.

ADDRESS: Send comments to the U.S. Parole Commission, 320 First Street NW., Washington, D.C. 20537; Attention: Office of the General Counsel.

FOR FURTHER INFORMATION, CONTACT:

Rockne Chickinell, Office of the General Counsel, telephone 202-724-3143.

SUPPLEMENTARY INFORMATION:

WHAT THE PROPOSAL WOULD DO

These proposed modifications would provide virtually all Federal prisoners eligible for parole with greater certainty in the service of their prison terms by: (1) Broadening the category of prisoners for whom the Commission conducts an initial parole hearing at the outset of confinement (120 days after arrival at a Federal institution); and (2) requiring the setting of a "presumptive date of release" following that initial hearing, provided that release is feasible (under the criteria set forth at 18 U.S.C. 4206) within 10 years of the initial hearing. If more than 10 years of confinement were to be required, a presumptive date would not be set and the prisoner would be given a de novo reconsideration hearing at the 10-year point to see if a presumptive release date could be set at that time. However, in no case would presumptive release be set for a date prior to completion of any court-imposed minimum term of parole ineligibility.

Under the proposal, interim review hearings would be held at the statutorily required intervals of 24 or 18 months, for as long as the prisoner remained in confinement (18 U.S.C. 4208(h)). However, the first interim hearing would be deferred until the prisoner reached parole eligibility, if a minimum term were imposed.

Thus, the proposal would provide prisoners with greater certainty (i.e., determinacy) in the service of their sentences by informing them at the outset of confinement of the actual duration of the prison term they must serve (contingent upon continued good conduct and the development of a suitable release plan). This procedure would facilitate long-range release planning, and avoid the psychological stresses associated with uncertainty as to the ultimate date of release. It is important to note, in addition, that this proposal would be an extension of the Commission's present presumptive release date policy which already covers the major part of the Federal prison population by permitting the setting of presumptive dates up to 4 years in advance of actual release.

IMPLEMENTATION

The procedures described above would apply to all prisoners sentenced on or after the effective date of the final rule. (This would not include sentence modifications under rule 35, Federal Rules of Criminal Procedure, in the case of prisoners sentenced prior to the effective date of the rule.)

Prisoners sentenced prior to the effective date would continue to receive their initial hearings pursuant to the existing rule. The existing rule provides an early parole hearing for all prisoners whose sentences carry no minimum term, and all prisoners with sentences of less than 7 years regardless if there is a minimum term. Prisoners with sentences of 7 years or more who have minimum terms to serve do not receive initial hearings until just prior to completion of the

minimum term. See 28 CFR 2.12 (a) and (b) at 42 FR 39811 (Aug. 5, 1977).

However, at all initial hearings held after the effective date of these rules

(1) Notwithstanding a previously ordered presumptive release date or 10-year reconsideration hearing, interim

---

[4910-14]

DEPARTMENT OF TRANSPORTATION

[4910-14]

[33 CFR Part 117]

DISCUSSION OF THE PROPOSED REGULATIONS

Presently, the bridge opens on signal

minimum term. See 28 CFR 2.12 (a) and (b) at 42 FR 39811 (Aug. 5, 1977).

However, at all initial hearings held after the effective date of these rules, a presumptive date would be set pursuant to the proposed procedures (up to 10 years in advance) and not under the existing rule, which carries a 4-year limit. See CFR 2.12(c) at 42 FR 39811 (Aug. 5, 1977).

In the case of a prisoner who has already had his initial hearing, but was continued to a 4-year reconsideration hearing, the Commission would endeavor to set a presumptive date pursuant to the proposed procedures (i.e., up to 10 years in advance) at the next scheduled hearing in that prisoner's case (statutory interim or 4-year reconsideration hearing). An interim hearing in such a case will be conducted in lieu of (and pursuant to the same procedures as), the previously scheduled 4-year reconsideration hearing. The same procedure would be followed in the case of review hearings for prisoners who have not been considered for parole under the existing presumptive date policy.

The texts of the rule changes necessary to effect this policy would be the following:

1. Paragraphs (a) and (b) of § 2.12 would be revised as follows:

§ 2.12 Initial hearings: Setting presumptive release dates.

(a) An initial hearing shall be conducted within 120 days of a prisoner's arrival at a Federal institution or as soon thereafter as practicable, except that in the case of a prisoner with a minimum term of parole ineligibility of 10 years or more, the initial hearing shall be conducted at least 30 days prior to the completion of such minimum term, or as soon thereafter as practicable.

(b) Following initial hearing the Commission shall set a presumptive release date (either by parole or by mandatory release): *Provided*, That such date falls within 10 years of the initial hearing, or set an effective date of parole as defined in § 2.1(h). If release is not found warranted, the Commission shall continue the prisoner to a 10-year reconsideration hearing pursuant to § 2.14(c).

• • • • • •

2. Paragraphs (a) and (c) of § 2.14 would be revised as follows:

§ 2.14 Subsequent proceedings.

(a) *Interim proceedings.* The purpose of an interim proceeding required by 18 U.S.C. 4208(h) shall be to consider any significant developments or changes in the prisoner's status that may have occurred subsequent to the initial hearing.

(1) Notwithstanding a previously ordered presumptive release date or 10-year reconsideration hearing, interim hearings shall be conducted by an examiner panel pursuant to the procedures of § 2.13 (b), (c), (e), and (f) at the following intervals from the date of the last hearing:

(i) In the case of a prisoner with a maximum term or terms of less than 7 years, every 18 months (until released).

(ii) In the case of a prisoner with a maximum term or terms of 7 years or more, every 24 months (until released).

(2) However, in the case of a prisoner with an unsatisfied minimum term, the first interim hearing shall be deferred until the docket of hearings immediately preceding completion of the minimum term.

(3) Following an interim hearing, the Commission may:

(i) Order no change in the previous decision;

(ii) Advance a presumptive release date, or the date of a 10-year reconsideration hearing. However, it shall be the policy of the Commission that once set, a presumptive release date or the date of a 10-year reconsideration hearing shall not be advanced except under clearly exceptional circumstances;

• • • • • •

(c) *Ten-year reconsideration hearings.* A 10-year reconsideration hearing shall be a full reassessment of the case pursuant to the procedures of § 2.13 to determine whether the setting of a presumptive release date would be appropriate at that time.

(1) A 10-year reconsideration hearing shall be ordered following the initial hearing in any case in which a release date is not set.

(2) Following a 10-year reconsideration hearing, the Commission may:

(i) Set a presumptive release date, if such within 10 years of the hearing; or

(ii) Continue the prisoner to a further 10-year reconsideration hearing if no presumptive release date is set.

Dated: September 11, 1978.

CECIL C. MCCALL,
Chairman,
U.S. Parole Commission.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CDG 78-107]

DRAWBRIDGE OPERATION REGULATIONS

Blynman Canal, Mass.

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the city of Gloucester, the Coast Guard is considering changing the regulations governing the drawbridge across the Blynman Canal, Gloucester, Mass., by permitting the draw to remain closed during certain periods. This proposal is being made to accommodate periods of peak vehicular traffic. This action will accommodate the needs of vehicular traffic while still providing for the reasonable needs of navigation.

DATE: Comments must be received on or before October 20, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the office of the Commander (obr), First Coast Guard District, 150 Causeway Street, Boston Mass. 02114.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C., 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, First Coast Guard District, will forward any comments received with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Lieutenant G. S. Karavitis, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

This proposal is being made in an effort to reduce the congestion of both land and water transportation during the tourist season. The Blynman Canal is at the southern portion of the Annisquam River. During the summer months the drive around Gloucester Harbor or a cruise along the Annisquam River are popular attractions. Unrestricted openings of the Blynman Canal drawbridge cause vehicles to back up and unrestricted closures would cause vessels to back up. This proposal, by scheduling bridge openings, is intended to provide for the more orderly passage of vessels and improve vehicular traffic.

The request from the city of Gloucester would have required the draw to open at any time for the passage of commercial fishing vessels. The Coast Guard feels that this is inconsistent with the purpose of the basic request and this portion of the proposal is therefore rejected at this time.

In consideration of the foregoing, it is proposed that Part 117 of title 33 of the Code of Federal Regulations be amended by adding a new § 117.62 immediately after § 117.60 to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.62 Gloucester Harbor (Blynman Canal), Mass., Department of Public Works Highway Bridge.

(a) From May 15 through October 15, from 6 a.m. to 8 p.m., the draw shall open once an hour on the half-hour for no more than 15 minutes for the passage of vessels. At all other times the draw shall open on signal.

(b) The owner of or agency controlling the bridge shall conspicuously post on both the upstream and downstream sides of the bridge a resume of these regulations in such a manner that it can easily be read from an approaching vessel at any time.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5)).

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended, and OMB Circular A-107.

Dated: September 11, 1978.

J.B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

[33 CFR Part 117]

[CGD 78-112]

DRAWBRIDGE OPERATION REGULATIONS

Sheboygan River, Wisconsin

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of Donohue and Associates, Inc., on behalf of the city of Sheboygan, Wis., the Coast Guard is considering changing the regulations governing the Eighth Street bridge across the Sheboygan River. This proposal is being made to accommodate periods of peak vehicular traffic. This action should accommodate the needs of vehicular traffic while still providing for the reasonable needs of navigation.

DATE: Comments must be received on or before October 20, 1978.

ADDRESS: Comments should be submitted to and are available for examination at the office of the Commander (obr), Ninth Coast Guard District, 1240 East Ninth Street, Cleveland, Ohio 44199.

FOR FURTHER INFORMATION CONTACT:

Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-WBR/73), Room 7300, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0942.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their name and address, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal.

The Commander, Ninth Coast Guard District, will forward any comments received with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and recommend a course of final action to the Commandant on this proposal. The proposed regulations may be changed in the light of comments received.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Frank L. Teuton, Jr., Project Manager, Office of Marine Environment and Systems, and Lieutenant G. S. Karavitis, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

Presently, the bridge opens on signal between 6 a.m. and 10 p.m. daily from 1 May through 30 October and upon two hours advance notice all other times of the year. The proposed operating regulations would require the following 15 and 30 minute opening intervals, between the hours of 6 a.m. and 7 p.m.

15 Minute Intervals

6 a.m. to 8 a.m.
9 a.m. to 12 noon.
1 p.m. to 4 p.m.
6 p.m. to 7 p.m.
7 p.m. to 10 p.m. open on signal.

30 Minute Intervals

8 a.m. to 9 a.m.
12 noon to 1 p.m.
4 p.m. to 6 p.m.

The original request was changed from 15 minute intervals from 6 p.m. to 10 p.m. to 15 minute intervals between 6 p.m. to 7 p.m. and open on signal from 7 p.m. to 10 p.m. in order to give the mariner better service during the twilight hours. Donohue and Associates, Inc., and the city of Sheboygan agree with this change since it is a better service to the mariner and poses no unreasonable delay in vehicular traffic.

The purpose of these regulations is to eliminate vehicle traffic tie-ups during peak traffic hours.

Analysis of the bridge tender logs and traffic counts indicate that the requested operating regulations would not pose an unreasonable restriction to navigation.

In consideration of the foregoing, it is proposed that part 117 of title 33 of the Code of Federal Regulations be amended by revising § 117.652(a) to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

§ 117.652 Sheboygan River, Wis.; Eighth Street Bridge at Sheboygan, Wis.

a. From May 1 through October 30 the draw shall open on signal except that:

(1) From 6 a.m. to 8 a.m., 9 a.m. to 12 noon, 1 p.m. to 4 p.m., and 6 p.m. to 7 p.m. the draw need open to navigation only on the hour, quarter-hour, half-hour, and three-quarters hour.

(2) From 8 a.m. to 9 a.m., 12 noon to 1 p.m. and 4 p.m. to 6 p.m. the draw need open to navigation only on the hour and half-hour.

(3) Public vessels, vessels in distress, and state or local government vessels used for public safety shall be passed through the draw of this bridge as soon as possible at any time even though the closed periods may be in effect. The signal from these vessels is

four blasts of a whistle, horn, or by shouting.

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 28]

FIRE ISLAND NATIONAL SEASHORE, N.Y.

Zoning Standards

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: The proposed standards set forth below are a revision of the existing zoning standards (promulgated in 1966) for communities within the boundaries of Fire Island National Seashore. These revisions are necessary to guide private development uses and to promote the protection and development of land within the seashore boundary in a manner consistent with the purposes of Pub. L. 88-587, the 1964 Act authorizing the establishment of the seashore. The authority to implement these standards is set forth in the Act, which directs the Secretary of the Interior to issue regulations, which may be amended from time to time, specifying standards for local zoning ordinances that are consistent with the purposes of the Seashore Act. These revisions reflect and are consistent with the management objectives set forth in the recently approved 1978 General Management Plan for Fire Island National Seashore.

DATES: Written comments, suggestions, or objections regarding this proposal will be accepted until October 18, 1978.

ADDRESS: Comments should be directed to: Superintendent, Fire Island National Seashore, 120 Laurel Street, Patchogue, N.Y. 11772.

FOR FURTHER INFORMATION CONTACT:

Richard W. Marks, Superintendent, Fire Island National Seashore, telephone: 516-289-4810.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The enabling legislation for Fire Island National Seashore provides a special status for the delineated communities (often called "exempt communities") within the seashore boundaries. Under this legislation, existing and future private development in these communities is exempt from condemnation by the National Park Service so long as local zoning authorities have in effect zoning ordinances which are satisfactory to the Secretary of the Interior. To implement this legislation, the Secretary is directed to issue regulations which specify zoning standards consistent with the purposes of the Act, and to subsequently approve local zoning ordinances submitted to him which conform to those standards. Exemption from condemnation is provided the owners of property in the delineated communities only when an approved zoning ordinance is in effect in the appropriate town or village. In addition, in those instances where an approved ordinance is in effect, a property owner's exempted status may be removed if the property is the subject of a variance or special exception which the Secretary determines is inconsistent with the standards.

In the area within the seashore boundaries that is outside of the exempt communities, the Secretary may not, with one exception, acquire improved properties without the consent of the owner for so long as an approved zoning ordinance is in effect and no variances or special exceptions are granted above the objection of the Secretary. The exception to this limitation is in the area extending from Davis Park to the westerly boundary of Smith Point County Park, where the Secretary may acquire improved properties to achieve the purposes of the Act.

The original zoning standards promulgated by the Secretary under the Act were issued in 1966, and are in effect today. Of the four local zoning authorities involved, only the town of Islip submitted a zoning ordinance which received approval by the Secretary. The village of Saltaire submitted an ordinance on which no formal action was taken (pending completion of the general management plan), and the village of Ocean Beach and the town of Brookhaven did not submit ordinances.

With the formal approval of the general management plan in March of 1978, a protracted planning effort spanning about 7 years has reached fruition. During this period numerous options and proposals for management of the seashore were considered, and an extensive public involvement program conducted. The issue of zoning standards was thoroughly aired, and a general consensus reached on an approach that was acceptable to the general public and which satisfied the requirements of the Seashore Act. The general management plan sets forth the basic elements of a revised zoning standard for Fire Island National Seashore, and the impacts of those proposals are discussed in the final environmental statement which accompanies the plan. With a general management plan in hand, and general support of the public for its policies, the National Park Service now anticipates that the four local jurisdictions will move to submit acceptable zoning ordinances to the Secretary for his approval, thus for the first time fully putting into effect the mechanisms for control of private development within the boundaries of the seashore envisioned in the 1964 Seashore Act.

AREAS AFFECTED

These regulations are intended to apply to all privately owned lands within the boundary of Fire Island National Seashore. This includes lands within the "exempted communities" delineated on the official Fire Island National Seashore boundary map numbered OGP-002, dated June 1964, as it may be amended from time to time, and all other lands within the seashore boundaries in Brookhaven and Islip towns which lie outside of these communities.

ZONING STANDARDS

The proposed zoning standards set forth below build upon the foundation of the original zoning standards promulgated in 1966, but are modified and supplemented to provide increased protection for lands within the seashore, consistent with the purposes of the Seashore Act. These standards reflect the intent of the Act to guide the nature of private development rather than prohibit development altogether. The basic elements of the standards include orientation to single family residential use, strict control over increased commercial and industrial uses, protection of the fragile primary dune area, and limitations on population density.

A significant change in format from the existing zoning standards is the elimination of the terms "Seashore District" and "Development District" in the proposed standards. To eliminate redundancy and increase the clarity of the standards, these terms are no longer used. However, the distinction between private lands within and those outside of the "exempt communities" is retained, as it is clear that the Act limits additional private development to only the area within the communities. The proposed regulations are intended to conserve and preserve land and water resources, consonant with the purposes of the Seashore Act. The regulations include standards for acreage, frontage, and setback requirements, maximum percentage of lot occupancy and total floor area, maximum building height, and maximum numbers of kitchens and bathrooms per residence. These standards are intended to guide future residential development along environmentally acceptable patterns, to prevent over development of building lots, to preserve adequate open spaces in residential communities, to protect esthetic values, to discourage multiple dwelling use of residential structures designed for single family uses, and to lessen human impacts on ground water supply and sewage disposal systems. To preserve the traditional character of Fire Island communities and to protect environmental values, the regulations prohibit the construction, conversion, or expansion of multiple dwellings and guest houses, and the construction of inground swimming pools. Increased commercial uses are allowed only by special permit of the town or village board under the proposed regulations, and such applications will be reviewed by the Secretary to determine whether proposed uses are consistent with the purposes of the Seashore Act. The standards also provide for accessory uses consistent with the character of the island communities.

The proposed regulations also require that the towns and villages within the seashore have in effect flood damage prevention regulations, subdivision limitations, specified sign control standards, and general environmental protection controls on burning, dumping, and excavating. These regulations will insure protection of environmental and esthetic values, as well as promote the public health, safety, and general welfare.

Reflecting the increased public and scientific awareness of the important protective functions of dunes, the proposed standards require that each of the towns or villages have in effect a special dune protection district which prohibits construction in the area extending from the mean high tide line to 40' landward of the primary dune crest. This standard is intended to protect Fire Island's fragile dunes from the adverse impacts of construction and related human activities.

The final element of the proposed standards requires that each of the towns and villages adopt certain procedural standards which insure that the seashore is apprised of applications for permits requiring variances, and of the formal disposition of those applications by the town or village authority.

The general management plan for Fire Island National Seashore suggests the creation of a special wetlands district on Fire Island. However, in depth investigation of this issue had led to the conclusion that this suggestion need not be implemented. The provisions of the New York State Tidal Wetlands Act (Article 25 of the Environmental Conservation Law) are intended to regulate and protect the use of coastal wetland resources. As mapped by the New York State Department of Environmental Conservation under § 661.27 of the Tidal Wetlands-Land Use regulations, only one community on Fire Island contains a significant wetland, which is the Clam Pond area in Saltaire; minmal wetlands are found in Point O'Woods and Davis Park. Sections 661.17 (statements by the public) and 661.36 (judicial review) of these regulations, and comparable provisions in the Tidal Wetlands Act, are adjudged to provide sufficient opportunity for National Seashore involvement in wetlands regulation and protection of Fire Island. Therefore the proposed zoning regulations do not specifically address the wetlands issue. In addition, existing seashore authority to condemn property where variances are granted may, in certain situations, provide additional protection for wetland lots, should direct Federal purchase be warranted.

PUBLIC PARTICIPATION

It is the policy of the Department of the Interior, to the extent possible, to permit public participation in the rulemaking processe. Accordingly, interested persons are invited to submit written comments, suggestions, or objections on this proposal. All such comments received will be reviewed to determine whether changes should be made in these regulations. Comments should be directed to the Superintendent, as specified in the address section of this notice. In addition, the Superintendent will be available to meet with interested individuals or groups to discuss the proposed regulations during the public comment period.

IMPLEMENTATION DATE

It is anticipated that the revised regulations will become effective on October 1, 1978.

AUTHORITY

Section 3 of the act of August 25, 1916, 39 Stat. 535, as amended (16 U.S.C. 3); Section 3 of the act of September 11, 1964, 78 Stat. 930 (16 U.S.C. 459(e-2); 245 DM-1 (42 FR 12931) as amended, and National Park Service Order No. 77 (38 FR 7478) as amended.

DRAFTING INFORMATION

The following persons participated in the writing of these regulations: Richard W. Marks and John P. Debo, Fire Island National Seashore; and Peter Koff, Office of the Solicitor, Boston, Mass.

NOTE.—The National Park Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 12, 1978.

RICHARD W. MARKS,
Superintendent,
Fire Island National Seashore.

In consideration of the foregoing, it is proposed that Part 28 of Title 36, Code of Federal Regulations, be revised as follows:

Sec.
28.1 Introduction.
28.2 General provision.
28.3 Development standards.
28.4 Variances and exceptions.

AUTHORITY: Secs. of the Act of August 25, 1916, 39 Stat. 535, as amended (16 U.S.C. 3); sec. 3 of the Act of September 11, 1964, 78 Stat. 930 (16 U.S.C. 459(e-2); 245 DM-1 (42 FR 12931) as amended, and National Park Service Order No. 77 (38 FR 7478) as amended.

§ 28.1 Introduction.

(a) In administering, protecting, and developing the Fire Island National Seashore (hereinafter also referred to as the Seashore), and the Secretary of the Interior (hereinafter referred to as the Secretary), are required to be guided by the provisions of the Act of September 11, 1964 (78 Stat. 928), and the applicable provisions of the laws relating to the National Park System. The Secretary, further, may utilize any other statutory authority available to him for the conservation and development of natural resources to the extent he finds that such authority will further the purposes of the said Act of September 11, 1964.

(b) To the extent consistent with the aforesaid Act of September 11, 1964, development and management of the Fire Island National Seashore will be conducted in a manner to assure the conservation of its natural resources and the widest possible public use, understanding and enjoyment of its natural and scientific features. This contemplates a broad range of outdoor recreational activities, including, but not limited to, hiking, boating, swimming, fishing, picnicking, nature study or beachcombing, and any such activities that shall be compatible with wise resource management and the physical capabilities of the seashore.

(c) The Secretary may not acquire by condemnation any privately owned

"improved property" (defined in paragraph (e) of this section), or interests therein within the boundaries of the Seashore, for so long as the appropri-

any zoning ordinances or amendments to approved zoning ordinances submitted to him which conform to the standards set forth. He may not, how-

lineated on the official Fire Island National Seashore boundary map numbered OGP-0002 as it may be amended from time to time, and all other lands

standards for private development within the Seashore.

(e) Within the scope of the standards herein prescribed or as hereafter

(h) There shall be in effect appropriate regulations which lessen the potential for flood and related erosion losses consistent with the Federal In-

is acceptable to the Secretary. If through natural phenomena or causes a lot or lots are so diminished in size that an owner of property situated

"improved property" (defined in paragraph (e) of this section), or interests therein within the boundaries of the Seashore, for so long as the appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid zoning ordinance that is satisfactory to the Secretary. An exception to this limitation on the power of the Secretary to condemn improved property shall be in the approximately 8-mile area in the town of Brookhaven, from the easterly boundary of Davis Park to the westerly boundary of the Smith Point County Park, where the Secretary may acquire land or improvements by this means if he deems it advisable for carrying out the terms of the Act of September 11, 1964, or to improve the contiguity of park land and ease its administration. Improved property owners within such 8-mile area have certain elections under section 3(e) of that act if their property is taken for these purposes. The Secretary may acquire, by condemnation or other means, any beach or waters and such adjoining land as he determines is necessary for access to the beach or waters.

(d) [Reserved]

(e) As used herein, "improved property" means any building, the construction of which was begun prior to July 1, 1963, together with such amount of land on which said building is situated as the Secretary considers reasonably necessary to the use of said building not, however, to exceed 2 acres in the case of a residence or 10 acres in the case of a commercial or industrial use. The Secretary may exclude from such "improved property" any beach or waters, as well as land adjoining such beach or waters, which he deems necessary for public access thereto.

(f) The regulations in this part are designed to establish minimal standards to which local zoning ordinances for the Fire Island National Seashore must conform if certain improved properties and properties within the delineated communities are to be exempt from acquisition by condemnation. These standards are intended:

(1) To prohibit new commercial or industrial uses of all property within the Seashore, other than uses which the Secretary considers are consistent with the purposes of the act establishing the seashore; and,

(2) To promote the protection and development of the land within the Seashore in keeping with the purposes of that act by means of acreage, frontage, setback requirements, and other such environmental protection controls.

(g) Following promulgation of the regulations in this part in final form, the Secretary is required to approve any zoning ordinances or amendments to approved zoning ordinances submitted to him which conform to the standards set forth. He may not, however, approve any ordinance or amendment thereto which:

(1) Contains any provision that he considers adverse to the protection and development of the area comprising the Seashore; or,

(2) Fails to provide that the Secretary shall receive notice of any variance granted under, or any exception made to, the application of such ordinance or amendment.

(h) Nothing contained in the regulations in this part or in the zoning ordinances or amendments adopted pursuant to such regulations for the area within the Seashore shall preclude the Secretary from exercising his power of condemnation with respect to:

(1) Any property not within the definition of "improved property",

(2) Property within the 8-mile area between the eastern boundary of Davis Park and the westerly boundary of the Smith Point County Park; or,

(3) Any other property—including "improved property" and property within the delineated communities—if the appropriate local zoning agency does not have in force and applicable to such property, zoning ordinances that are satisfactory to the Secretary, or if a property owner fails to comply with the conditions, requirements, and restrictions contained in the regulations in this part and in zoning ordinances approved by the Secretary.

Nor shall these regulations preclude the Secretary from otherwise fulfilling the responsibilities vested in him by the act authorizing establishment of the seashore or by the Act of August 25, 1916 (39 Stat. 535), as amended and supplemented.

§ 28.2 General provisions.

Following issuance of the regulations in this part, the towns and villages wholly or partially within the Seashore boundaries shall submit to the Secretary for his approval, all zoning ordinances and amendments thereto which are in force and applicable to property within the seashore and which demonstrate conformity with the standards in the regulations in this part. The submissions shall include any ordinances and amendments in effect prior to the issuance of these regulations which demonstrate such conformity and any that have been adopted to implement the regulations in this part.

§ 28.3 Development standards.

(a) Definition. These standards shall apply to all privately owned lands within the boundary of Fire Island National Seashore, including lands within the "exempt communities" delineated on the official Fire Island National Seashore boundary map numbered OGP-0002 as it may be amended from time to time, and all other lands within the Seashore boundaries in Brookhaven and Islip towns which lie outside of those communities.

(b) Zoning ordinances in effect or adopted for lands within the seashore boundaries shall conform to the general and specific standards prescribed in the regulations in this part, shall be consistent with the objectives and purposes of the Act of September 11, 1964, (78 Stat. 928), so that to the extent possible under New York law—natural resources and values will be preserved and protected and any uses within the Seashore will be in accord with the purposes of the Seashore. From time to time these standards will be reviewed and, if necessary, revised through the issuance of amended regulations.

(c) To implement the Act the Secretary of the Interior shall approve zoning ordinances submitted to him which include the following minimum standards:

(1) Maximum plot occupancy not to exceed 25 percent for principle structures and 5 percent for accessory structures (storage sheds, decks, swimming pools, tennis courts, etc.), excluding access walks and bicycle racks,

(2) Maximum total floor area (including separate floor levels), not to exceed 30 percent of the total plot area,

(3) Maximum building height not to exceed 28 feet, measured from average ground level to average roofline elevation (excluding chimneys, flagpoles, and other similar projections,

(4) Maximum of one kitchen and two bathrooms per residential structure,

(5) A prohibition on the construction, or expansion of apartment or other multiple dwellings or conversion of existing structures to those purposes.

(6) A prohibition on the construction or expansion of guest houses, or conversion of existing structures to those purposes,

(7) A prohibition on the subdivision of plots into lots which do not meet the requirements of existing zoning ordinances,

(8) A prohibition on the construction of inground swimming or diving pools.

(d) Those provisions relating to acreage, frontage, and setback requirements contained in zoning ordinances of the towns of Brookhaven and Islip and of the villages of Ocean Beach and Saltaire which are in effect on Fire Island as of the date of publication in the FEDERAL REGISTER of these revised regulations are hereby adopted as the acreage, frontage, and setback standards for private development within the Seashore.

(e) Within the scope of the standards herein prescribed or as hereafter amended, permitted principle uses within residentially zoned areas include only construction of detached single family dwellings and churches, schools, community buildings, and other such nonresidential/noncommercial structures. Permitted accessory uses within residentially owned areas include only customary accessory structures such as storage sheds, decks, ramps, etc., and offices for professional occupations such as physicians, dentists, etc., provided such use is by the person residing on the premises, is incidental to residential use, and does not exceed more than ⅓ of the first floor area. Within commercially zoned areas, construction of new commercial and industrial uses or expansion or conversion of existing structures for these purposes, shall be permitted only by special permit of the town or village board. All special permit applications for commercial and industrial uses will be reviewed by the Secretary to determine whether the proposed use is consistent with the purposes of the Act establishing Fire Island National Seashore.

(f) There shall be in effect within the seashore appropriate limitations, requirements or restrictions upon the burning of cover and trash, the excavation, displacement, or removal of sand, and the dumping, storing or piling of refuse, materials, equipment, or other unsightly objects which would detract from the cultural and natural scene.

(g) Signs within the Seashore shall not be self-illumninated; shall be limited in size to one square foot in area in residential zones and limited to four square feet in are in commercial zones; shall be limited in number to one per premises; and shall be located on premises. Nonconforming signs may continue such nonconformity until they are destroyed, structurally altered, reconstructed, changed, or moved, but the period of such nonconformity may not exceed 2 years from the date the zoning ordinance imposing the restrictions contained in this paragraph is approved by the town or village. Noncommercial signs to be used for public information, orientation, or education purposes may be larger, by special permit of the town or village.

(h) There shall be in effect appropriate regulations which lessen the potential for flood and related erosion losses consistent with the Federal Insurance Administration's National Flood Insurance Program criteria for "Land Management and Use," as set forth in 24 CFR Part 1910, subpart A, as it may from time to time be amended.

(i) In the area extending from the mean high tide line to 40 feet landward of the primary natural high dune crest, as defined by Fire Island National Seashore on Suffolk County Property Maps, section numbers 491-498 (Islip), 002 (Ocean Beach), 002-004 (Saltaire), and 985.70-987 (Brookhaven), there shall be in effect zoning regulations which prohibit all construction, including new structures, bulkheads, piles, revetments, decks, swimming pools, and other structures or man made dune stabilization devices (excepting routine maintenance of existing structures, placement of snow fencing, or construction or repair of elevated pedestrian dune crossings for general public access).

(j) It is the clear intention of the act authorizing establishment of the Seashore that all land within its boundaries except certain "improved property" and property within the delineated communities (as defined in § 28.3(a) be acquired by the United States as rapidly as appropriated funds are made available therefore and before future development occurs. Accordingly, unimproved property situated outside of the delineated communities will be subject to acquisition by the Secretary by condemnation in the event it is developed by the owner for any purpose. Additionally, increased or additional commercial or industrial uses are prohibited on property situated outside of the delineated communities. Such developments will likewise be subject to acquisition by the Secretary by condemnation.

(k) No moving, alteration, or improvement of existing residential dwellings or structures appurtenant thereto or beach clubs shall be permitted on property situated outside of the delineated communities unless there is compliance with the acreage, frontage, and setback requirements, the height limitations and maximum plot occupancy, total floor area, and other requirements contained in a zoning ordinance, or amendment thereto, which is acceptable to the Secretary. If through natural phenomena or causes a lot or lots are so diminished in size that an owner of property situated outside of the delineated communities would be unable to comply with the requirements prescribed in this paragraph, for moves, alternations, or improvements such owner may file an application for a variance, as provided in § 28.4, which application will commence review by the Secretary to determine whether or not the proposed use fails to conform to the criteria set forth in these regulations or in the Act, and will, therefore, subject the property to acquisition by condemnation.

§ 28.4 Variances and exceptions.

(a) Zoning ordinances or amendments thereto, for the area comprising the Fire Island National Seashore may provide for the granting of variances, exceptions, and special permits.

(b) Towns and village zoning ordinances in effect on Fire Island shall contain provisions whereby,

(1) A copy of applications for variances, exceptions and special permits are provided by the local zoning authority to the Secretary within 5 working days of their submission by the applicant. The Secretary, within 15 working days of the receipt of such application, shall inform the applicant and the appropriate local zoning authority whether or not the proposed use conforms to the criteria set forth in these regulations, and will, therefore, subject the property to potential acquisition by condemnation. If the application does not confrom to the criteria, the Secretary shall also inform the applicant that should the application be granted, the Secretary may seek to enjoin the development and acquire the property by condemnation, subject to available funds, and

(2) Local zoning authorities provide the Secretary written notice of the dates and times of public hearings to be held concerning such applications.

(c) Pursuant to section 3(d) of the Act of September 11, 1964, every zoning ordinance or amendment thereof, for the area comprising the Fire Island National Seashore shall provide that a town or village that approves or disapproves an application for a variance, exception, or special permit must give notice to the Secretary within 5 working days of such action.

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Judicial Review of the Administrative Conference of the United States, to be held at 10 a.m., Thursday, October 5, 1978 in the fourth floor conference room at Covington and Burling, 888 16th Street NW., Washington, D.C.

The Committee will meet to discuss Professor Frederick Davis' study of whether or not Veterans' Administration determination should be subject to judicial review.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least 2 days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this meeting contact Jeffrey S. Lubbers, 202-254-7065. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

SEPTEMBER 11, 1978.

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

GRAIN STANDARDS

Request for Transfer of Designation by the Lubbock Grain Inspection & Weighing, Inc., Lubbock, Tex.

AGENCY: Federal Grain Inspection Service.

ACTION: Notice.

SUMMARY: Notice that the Lubbock Grain Inspection & Weighing, Inc., Lubbock, Tex., has requested transfer of its designation as an official agency to perform grain inspection services under the authority of the United States Grain Standards Act, as amended, to Mr. Raymond Anthis, who has filed an application for such designation. This notice also requests comments on the proposed transfer and invites other interested persons to make application for designation as an official agency at Lubbock.

DATE: Comments and/or applications by October 18, 1978.

FOR ADDITIONAL INFORMATION CONTACT:

Edith A. Christensen, Federal Grain Inspection Service, Compliance Division, Delegation and Designation Branch, 201 14th Street SW., Room 2405, Auditors Building, Washington, D.C. 20250, 202-447-8525.

SUPPLEMENTARY INFORMATION: The United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.) (hereinafter the "Act"), has been amended to extensively modify the official grain inspection system. Pursuant to sections 7 and 7A of the Act, the Administrator of the Federal Grain Inspection Service (FGIS) has the authority to designate any State or local governmental agency, or any person, as an official agency for the conduct of all or specified functions involved in official inspection (other than appeal inspection), weighing and supervision of weighing of grain, at inland locations where the Administrator determines there is a need for such services (7 U.S.C. 79 and 79a). Under the Act, such designation shall terminate triennially but may be renewed in accordance with the criteria and procedure prescribed (7 U.S.C. 79(g)(1) and 79a(c)).

The Lubbock grain Inspection & Weighing, Inc., Lubbock, Tex., has requested that its designation under the Act to operate as an official agency at Lubbock, Tex., be transferred to Mr. raymond Anthis, the present Chief Inspector of that agency. Mr. Raymond Anthis has applied for designation under section 7(f)(1) of the Act (7 U.S.C. 79(f)(1)) to operate as the official agency at Lubbock, Tex., to be known as the Lubbock Grain Inspection & Weighing, Inc. This application does not preclude other interested persons from making similar application.

NOTE.—Section 7(f)(2) of the Act (7 U.S.C. 79(f)) provides that not more than one official agency shall be operative at one time for any geographic area as determined by the Administrator.

Interested persons are hereby given opportunity to submit written views or comments with respect to the requested transfer of official agency designation. All views or comments should be submitted in writing, in duplicate, and mailed to the Director's Office, Compliance Division, Federal Grain Inspection Service, 201 14th Street SW., Room 2405, Auditors Building, Washington, D.C. 20250, not later than October 18, 1978.

Under the provisions of section 7(f)(1), interested persons are also given opportunity to make application for designation to operate as an official agency at Lubbock, Tex., pursuant to the requirements in section 7(f)(1)(A) of the Act, as amended (7 U.S.C. 79(f)(1)(A)) and section 26.96 of the regulations (7 CFR 26.96). Persons wishing to apply for designation to operate as an official agency at Lubbock should contact the Compliance Division, Federal Grain Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, for the appropriate forms and mail their applications to the Director's Office at the above cited address, not later than October 18, 1978.

Consideration will be given to the views and comments filed and to any applications submitted and to all other information available to the U.S. Department of Agriculture before a final determination is made with respect to the official agency designation. All views, comments and applications submitted pursuant to this notice will be made available for public inspection at the above Office of the Director during regular business hours (7 CFR 1.27(b)).

(Sec. 8, Pub. L. 94-582, 90 Stat. 2870 (7 U.S.C. 79); sec. 9, Pub. L. 94-582, 90 Stat. 2875 (7 U.S.C. 79a); sec. 27, Pub. L. 94-582, 90 Stat. 2889 (7 U.S.C. 74 note).)

Done in Washington, D.C. on: September 13, 1978.

DR. GALLIART,
Acting Administrator.

CIVIL AERONAUTICS BOARD

[Docket 33237]

CALIFORNIA-ARIZONA LOW FARE ROUTE PROCEEDING

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter will be held on October 31, 1978, at 10 a.m. (local time), in Room 1003, Hearing Room A, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the judge of (1) proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Pricing and Domestic Aviation will circulate its material on or before October 13, 1978, and the other parties on or before October 24, 1978. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., September 13, 1978.

FRANK M. WHITING,
Administrative Law Judge.

[Docket 32867; Order 78-9-55]

REEVE ALEUTIAN AIRWAYS, INC.

Petition For Setting of Fair and Reasonable Mail Rate; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of September 1978.

By this order the Board proposes to establish new final service mail rates for the transportation of mail over the intra-Alaska routes of Reeve Aleutian Airways, Inc. (Reeve) for the period on and after June 17, 1978.

By petition filed June 14, 1978, Reeve asks that the Civil Aeronautics Board fix a fair and reasonable rate of compensation for the transportation of mail by aircraft on its certificated routes consisting of a linehaul rate of $1.46 per great-circle ton-mile and a terminal charge of $0.146 per pound originated effective on and after June 17, 1978, the first day of the Postal accounting period following the filing date of its petition. In support, Reeve states that: (1) Its current linehaul rate of 96 cents per great-circle ton-mile and terminal charge of 12 cents per pound originated[1] were based on its operating results for the year ended September 30, 1975; and, (2) since the fall of 1975, its operating costs have increased substantially. Reeve submits supportive economic justifications for the requested rates increase based on its reported operating results for the year ended March 31, 1978.

In response to a request by the U.S. Postal Service (USPS), the date for the filing of answers to Reeve's petition was extended to August 15, 1978. The USPS filed a timely answer proposing a dual element rate consistng of a linehaul rate of 93.6 cents per great-circle ton-mile and a terminal charge of 22.3 cents per pound originated effective on and afer June 17, 1978. Reeve authorized USP to state that it agrees the rates proposed are fair and reasonable.[2] The proposed rates are derived from the economic data submitted by Reeve, as adjusted by the USPS. In brief, USPS has revised Reeve's mail service cost allocations and excluded the Alaska State income tax.

The rates, proposed by USPS and agreed to by Reeve, are derived from the carrier's reported operating results for the year ended March 31, 1978, the methodology for allocating costs to mail is a combination of general DPFI techniques [3] and procedures developed during the Priority and Nonpriority Domestic Service Mail Rate Investigation (docket 23080-2),[4] with modifications which purport to take into account the unique characteristics of Reeve's intra-Alaska operations.[5] The proposed rates will produce an estimated $438,000 additional annual mail revenue, an increase of 17.4 percent.

After review of all the materials submitted, the contentions of the parties, and the rationale utilized; the Board believes that the proposed service mail rates are fair and reasonable.[6] In reaching this conclusion, we have confined our determination to the particular facts of this case and do not pass upon the particular methodology underlying the cost calculations used in arriving at these rates.

PROPOSED FINDINGS AND CONCLUSIONS

On the basis of the foregoing, the Board tentatively finds that the fair and reasonable rate of compensation to be paid Reeve Aleutian Airways, Inc., by the Postmaster General, pursuant to section 406 of the Federal Aviation Act of 1958, as amended, for the transportation of mail by aircraft over its routes, the facilities used and useful therefor, and the services connected therewith is the sum of a linehaul charge of 93.6 cents per great-circle mail ton-mile and a terminal charge of 22.3 cents per pound originated.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a) and 406 thereof, and the Board's procedural regulations, 14 CFR Part 302,

1. We direct all interested persons, and particularly Reeve Aleutian Airways, Inc. and the Postmaster General, to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rates specified above to be effective on and after June 17, 1978;

2. Further procedures shall be in accordance with the rules of practice, 14 CFR Part 302. If a person objects to the rates or to the related proposed findings and conclusions, he shall file notice thereof within 10 days after the service date of this order and written answer and supporting document within 30 days after the service date of this order;

3. If no person files notice of objection within 10 days, or if a person files

[1] Order 76-9-112, effective on and after March 27, 1976.

[2] Reeve has, however, reserved the right to contest the methodology used by USPS should it find it necessary to do so at a later date.

[3] Domestic Passenger Fare Investigation, docket 21866, specifically, the version 6 updated cost methodology developed in phase 7.

[4] Recouping departure-related aircraft operating costs, i.e., taxiing, ascent and decent, within the terminal element.

[5] E.g., relatively fewer ground handling functions performed for enplaning passengers and baggage as compared to freight and mail.

[6] The costs underlying the agreed rates, as submitted by the parties, are set forth in the Appendix.

a notice and does not file an answer within 30 days after the service date of this order, or if the timely answer raises no material issue of fact, we

DELAWARE RIVER BASIN COMMISSION

WATER RESOURCES PROGRAM ET AL.

Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, September 27, 1978, commencing at 2 p.m. The hearing will be a part of the Commission's regular September business meeting which is open to the public. Both the hearing and the meeting will be held in the Hall of Flags West Room, Sheraton Hotel, Seventeenth and Kennedy Boulevards, Philadelphia, Pa. The hearing will be held on three subjects as follows:

[1] All Members concurred.

1. WATER RESOURCES PROGRAM

A proposed fifteenth annual water resources program has been prepared in accordance with section 13.2 of the Delaware River Basin Compact. The program comprises a summary discussion of water resources needs in the Basin, and particular current conditions in water supply, pollution control, flood protection and other functional aspects of water management with which the Commission is concerned. The program concludes with a discussion of the various projects to be performed by the Commission during fiscal year 1979 to assist in satisfying water needs in the basin.

Copies of draft water resources program are available from the Commission upon request.

2. WATER CHARGES—RATE CHANGE

In 1964 the Commission, acting on behalf of the four Delaware Basin States, assumed the obligation to repay the Federal Government the investment cost allocated to water supply in Federal reservoirs constructed in the Delaware basin. This commitment was made in accordance with the Water Supply Act of 1958 requiring that non-Federal interests repay water supply costs at Federal reservoirs.

Subsequently, the Commission formulated a water charges program that applies throughout the basin to new surface water users, and to existing surface water users whose taking is in excess of their legal entitlement. The charge was determined to be the weighted average unit cost of water supply stored in Federal reservoirs on behalf of the Commission, and was designed to be recomputed whenever new or additional storage having different unit costs was added to the system. The revenues thus obtained provide the funds for annual repayment to the Federal Government.

The initial charge, reflecting the costs of the first reservoir, Beltzville, was established in 1974 at 4 cents per thousand gallons for consumptive use and four-tenths of a mill for nonconsumptive use. The second reservoir, Blue Marsh, will become operational early in 1979 and will have unit water supply costs about twice that of Beltzville. The present level of charges must therefore be changed to reflect the average unit cost stored in both reservoirs.

Accordingly, the Commission proposes to amend its Administrative Manual, part III, Basin Regulations—Water Supply Charges, so as to provide that the charge for water shall be 6 cents per thousand gallons for consumptive use and six-tenths of a mill for nonconsumptive use. The new rate will apply to those surface water users who are now subject to the Commission's water charges as well as to future users, and will take effect the first day of the month following the date of deliberate impoundment of water supply in Blue Marsh.

Except for an increase in the unit charge for water, as herein noticed, no changes are proposed to be made in the Commission's water supply charges program. The amendment will not affect the existing legal entitlement of any water users nor any other terms or conditions of the Commission's overall water charges program.

Copies of the Commission's Basin Regulations—Water Supply Charges are available from the Commission upon request.

3. PROJECT REVIEW APPLICATIONS

Applications for approval of the following projects are pending before the Commission as amendments to the comprehensive plan pursuant to article 11 of the compact and/or as project approvals pursuant to section 3.8 of the compact:

1. *Pennsville Township (D 78-53 CP).* Well water supply project in Pennsville Township, Salem County, N.J. Designated as well No. 5, the new facility is a replacement well and has a capacity of 1 million gallons per day.

2. *Delaware City (D 78-70 CP).* Well water supply project to augment public water supplies in Delaware City, New Castle County, Del. Designated as well No. 3, the new facility is capable of yielding 450,000 gallons per day.

3. *City of New Castle (D 78-71 CP).* Well water supply project to augment public water supply in the city of New Castle, New Castle County, Del. Designated as the Frenchtown Road well, the new facility is capable of yielding 720,000 gallons per day.

4. *Town of Middletown (D 78-64 CP).* Well water supply project in Middletown, New Castle County, Del. Designated as wells No. 8 and 9, the new facilities are replacement wells and have capacities of 430,000 gallons per day and 275,000 gallons per day, respectively.

5. *Dublin Water Co. (D 76-63 CP).* A well water supply project to augment public water supplies in the company's service area in Upper Dublin Township, Montgomery County, Pa. The application is for approval to withdraw 600,000 gallons per day from well No. 5 and to increase the total average withdrawal from all sources to 1.2 million gallons per day. Adjudicatory hearings on this application have been held by the Commission and a report of the hearing officer filed on June 2, 1978. The application and the recommendations of the Hearing Officer will be considered by the Commission.

6. *Crompton and Knowles Corp. (D 78-38).* An industrial waste treatment project at the company's plant in Robeson Township, Berks County, Pa The treatment facilities will handle an additional 40,000 gallons per day of waste currently disposed of by ocean dumping. Combined with the existing discharge, a total of approximately 340,000 gallons per day will discharge to the Schuylkill River.

7. *Crown American Corp. (D 78-65).* A sewage treatment plant to serve the proposed Schuylkill Shopping Mall, New Castle Township, Schuylkill County, Pa. The facility will provide removal of 90 percent BOD and 88 percent suspended solids from an average wastewater flow of about 50,000 gallons per day. Treated effluent will discharge to Kaufman Run, a tributary of the Schuylkill River.

8. *Crown Zellerbach Corp. (D 78-69).* Well water supply project for use at the corporation's plant in New Castle, New Castle County, Del. Designated as well No. 7, the new facility is a replacement well that is capable of yielding 360,000 gallons per day.

9. *Shell Chemical Co. (D 77-78).* Replacement of a well water supply project at the company's facilities in Lawrence Township, Mercer County, N.J. Existing well No. 2 will be replaced by a new facility providing a yield of 88,000 gallons per day.

10. *Ionac Chemical Co. (D 77-23).* Waste treatment project at the company's plant in Pemberton Township, Burlington County, N.J. New waste treament facilities will be constructed to provide removal of 90 percent BOD from a wastewater flow of 1.8 million gallons per day. Treated effluent will discharge to the Rancocas Creek.

11. *National Railroad Passenger Corp. (Amtrak) (D 77-105).* An industrial waste treatment facility at the company's locomotive fuel handling and containment facilities at 30th and Race Streets in Philadelphia, Pa. The oil separation facilities will provide for a wastewater flow of 144,000 gallons per day. Effluent will discharge to the Schuylkill River by way of existing storm sewers.

12. *B.P. Oil Co., Inc. (D 76-124).* A secondary wastewater treatment facility at the company's refinery in Marcus Hook, Delaware County, Pa. Biological treatment processes will provide removal of 90 percent of BOD from an average wastewater flow of 2.9 million gallons per day. Treated effluent will discharge to Marcus Hook Creek.

13. *Seabrook Bros. & Sons, Inc. (D 78-8).* A waste treatment project at the company's vegetable processing facility in Upper Deerfield Township, Cumberland County, N.J. Vegetable processing and cooling water are screened prior to ultimate discharge on a 56-acre spray field. Approximately 4.3 million gallons per day will be

processed through this waste discharge system.

14. *Yardley Ball Corp. (D 78-54).* A

stitute a major Federal action significantly affecting the quality of the human environment, within the mean-

DEPARTMENT OF ENERGY

Economic Regulatory Administration

COLUMBIA LNG CORP. AND CONSOLIDATED SYSTEM LNG CO.

[ERA Docket No. 78-004-LNG]

Intent To Prepare an Environmental Impact Statement

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of intent to prepare an environmental impact statement (EIS) in connection with an application to import liquefied natural gas from Iran through existing facilities located at Cove Point, Md.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of its intent to prepare an EIS as part of its evaluation of the joint application of Columbia LNG Corp. and Consolidated System LNG Co. to import liquefied natural gas (LNG) from Iran.

SUPPLEMENTARY INFORMATION: ERA is considering the joint application (ERA docket No. 78-004-LNG) for authorization to import LNG into the United States under section 3 of the Natural Gas Act, as announced by ERA at 43 FR 31962 (July 24, 1978).

The application involves more than a 40-percent increase in the volume of LNG presently authorized at the Cove Point facility, with an associated increase in the number of LNG tanker deliveries. No onsite construction is anticipated. Applicants state that a relatively short pipeline connection will be built in Loudoun County, Va. Since the initial announcement, DOE has determined that the issuance of an order in this proceeding would constitute a major Federal action significantly affecting the quality of the human environment, within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 6, 4321 et seq. Accordingly, ERA intends to prepare an EIS.

Interested persons, agencies, and organizations desiring to submit comments or suggestions for consideration in connection with the preparation of this EIS are invited to do so. DOE encourages commenters to respond as soon as possible in order that suggestions may be reflected in the scope of the EIS. Upon completion of the draft EIS, its availability will be announced in the FEDERAL REGISTER, at which time public comments will again be solicited. All comments will be available for public inspection in the Natural Gas Branch Docket Room, Room 6317, 2000 M Street NW., Washington, D.C. 20461, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday except Federal holidays.

ADDRESS FOR COMMENTS: Finn K. Neilsen, Director, Import/Export Division, Economic Regulatory Administration, 2000 M Street NW., Room 6318, Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Finn K. Neilsen, Director, Import/Export Division, Economic Regulatory Administration, 2000 M Street NW., Room 6318, Washington, D.C. 20461, telephone 202-254-9730.

Janine Landow-Esser, Office of General Counsel, 20 Massachusetts Avenue NW., Room 8217, Washington, D.C. 20461, telephone 202-376-4266.

Carol Borgstrom, Office of Environment, 12th and Pennsylvania Avenue NW., Federal Building, Room 7119, Washington, D.C. 20461, telephone 202-566-9760.

Issued in Washington, D.C., on September 11, 1978.

Office of Policy and Evaluation

MOTOR FUEL MARKETING UNDER TITLE III OF THE PETROLEUM MARKETING PRACTICES ACT

Study of Subsidization

AGENCY: Office of Competition, Department of Energy.

ACTION: Notice of public hearing and opportunity for written comment.

SUMMARY: The office of competition of the Department of Energy (DOE) gives notice of a public hearing and opportunity for submission of written comments concerning the study which the Secretary of Energy is required to conduct under title III of the recently enacted Petroleum Marketing Practices Act. As required by statute, this study will examine the extent to which producers, refiners, and other suppliers of motor fuel at retail or wholesale with profits obtained from other operations, as well as other related issues. The purpose of this proceeding is to obtain comments on the issues involved in this study and the manner in which the study should be conducted.

DATES: Requests to speak on or before September 29, 1978, 4:30 p.m. Oral statements due on or before October 5, 1978, 4:30 p.m. Hearing: October 6, 1978, 9:30 a.m. Written comments due on or before October 16, 1978, 4:30 p.m.

ADDRESSES: Send requests to speak, oral statements, and written comments to: Office of Public Hearing Management, Department of Energy, Room 2313, Box VK, 2000 M Street NW., Washington, D.C. 20461. Hearing location: Room 2105, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

William Lane (Office of Competition), Policy and Evaluation, 20 Massachusetts Avenue NW., Room 7127, Washington, D.C. 20545, 202-376-9495.

Robert C. Gillette (Hearing Procedures), Department of Energy, 2000 M Street NW., Room 2214B, Washington, D.C. 20461, 202-254-5201.

Judith Garfield (Office of the General Counsel), Department of Energy, 12th and Pennsylvania Avenue NW., Room 7134, Washington, D.C. 20461, 202-566-2085.

SUPPLEMENTARY INFORMATION:

I. Background.
II. Plans for conducting the study.
III. Specific comments requested.
IV. Public hearing and comment procedures:
A. Written comments
B. Public hearing.

I. BACKGROUND

Section 301(a) of the Petroleum Marketing Practices Act, Pub. L. 95-297 (the "Act"), enacted on June 19, 1978, provides that the Secretary of Energy, in consultation with the Chairman of the Federal Trade Commission and the Attorney General and other agencies as the Secretary deems approprate, shall conduct a study of the extent to which producers, refiners, and other suppliers of motor fuel subsidize the sale of such motor fuel at retail or wholesale with profits obtained from other operations. Section 301(b) of the Act specifies that the study shall examine:

(1) The role of vertically integrated operations in facilitating subsidization of sales of motor fuel at wholesale or retail;

(2) The extent to which such subsidization is predatory and presents a threat to competition;

(3) The profitability of various segments of the petroleum industry;

(4) The impact of prohibiting such subsidization on the competitive viability of various segments of the petroleum industry, on prices of motor fuel to consumers and on the health and structure of the petroleum industry as a whole; and

(5) Such other matters as the Secretary considers appropriate.

Under section 301(d)(1) of the Act, the Secretary shall report to the Congress the results of this study, together with such recommendations for legislative action and such statistical evidence as he considers appropriate, within 18 months after the date of enactment of the Act.

In conducting this study, the Secretary is required under the Act to give appropriate notice and afford interested persons an opportunity to present written and oral data, views, and arguments concerning the study.

II. PLANS FOR CONDUCTING THE STUDY

Within the DOE, the Office of Competition in the Office of Policy and Evaluation will conduct the study of motor fuel marketing subsidization required by the Act. At the present time, the office of competition plans to conduct the study in the following manner.

Following the hearing and opportunity for public comment announced in this notice, the Office of Competition will undertake to collect relevant economic information on potential subsidization and on the profitability and competitive viability of various segments of the petroleum industry. While existing data sources will be used to the maximum extent possible, it will also be necessary to obtain new information from both integrated companies and companies that sell motor fuel at the wholesale and retail level. The Energy Information Administration of the DOE will assist in identifying and obtaining such information. The Office of Competition considers the collection of needed data to be critical to the timing as well as the substance of this study.

After collecting and evaluating the relevant data, the Office of Competition will prepare a draft report and will hold public hearings and receive written comments on the draft report. If warranted by the public comments that are received, the Office of Competition will revise the report before transmitting it to the Congress as required under the Act.

III. SPECIFIC COMMENTS REQUESTED

The Office of Competition is interested in receiving relevant comments on the interrelated issues of subsidization of motor fuel sales, functional profitability of integrated petroleum companies, and the competitive viability of various segments of the petroleum industry. In particular, but without limiting the scope of the information requested, the Office of Competition would like to receive specific comments on the following matters:

(1) In view of the limited time period for conducting the study, what direction should the study take and what areas or issues should be emphasized?

(2) What is the most appropriate methodology to use in conducting the study? What information gathering techniques should be used, and from what sources should information be obtained?

(3) What are the potential problems that may be encountered in conducting the study within the time permitted by the Act, including any problems involved in gathering and evaluating relevant data?

IV. PUBLIC HEARING AND COMMENT PROCEDURES

A. WRITTEN COMMENTS

You are invited to submit written views, data or arguments with respect to the proposed study. Comments should be submitted to the address indicated in the ADDRESSES section of this notice and should be identified on the outside envelope with the designation "Title III Study." Fifteen copies should be submitted. All comments received will be available for public inspection in the DOE Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

Identify separately any information or data you consider to be confidential and submit it in writing, one copy only. The DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

B. PUBLIC HEARING

1. *Request procedure.* The time and place of the public hearing are indicted in the DATES and ADDRESSES sections of this notice. If necessary to present all testimony, the hearing will be continued to 9:30 a.m. of the day following the date of the hearing. You may make a written request for an opportunity to make an oral presentation at the hearing. The request should contain a phone number where you may be contacted through the day before the hearing. Since it may be necessary to limit the number of persons making such presentations, you should be prepared to describe your interest in this proceeding; if appropriate, why you are a proper representative of a group or class of persons that has such an interest; and to give a concise summary of your proposed oral presentation.

The DOE will notify each person selected to be heard before 4:30 p.m. on October 3, 1978. Persons selected to be heard should submit 100 copies of their statement to the address indicated in the ADDRESSES section of this notice before 4:30 p.m., October 5, 1978.

2. *Conduct of the hearing.* The Office of Competition reserves the right to select the persons to be heard at this hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

A DOE official will be designated to preside at the hearing. Representatives of the Federal Trade Commission and the Attorney General may be members of the hearing panel. This will not be a judicial or evidentiary-type hearing. Only those conducting the hearing may ask questions, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

You may submit questions to be asked of any person making a statement at the hearing to the address indicated above for requests to speak before 4:30 p.m. on October 5, 1978. You may also submit any questions, in writing, to the presiding officer at the time of the hearing. The Office of Competition or, if the question is submitted at the hearing, the presiding officer will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made, and the DOE will retain the entire record of the hearings, including the transcript, which will be made available for inspection at the Free-

dom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m., and 4:30 p.m., Monday through Friday. You may purchase a copy of the tran-

year vehicle or engine from distributing such fuels or fuel additivies in commerce after September 15, 1978. Section 211(f)(4) permits the Administrator to grant a waiver of any section

waiver, and I deny the requested waiver for MMT.[7] All section 211(f) prohibitions and limitations pertaining to MMT remain in effect. In order to prevent dislocation in the market-

dom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m., and 4:30 p.m., Monday through Friday. You may purchase a copy of the transcript from the reporter.

In the event that it becomes necessary for the DOE to cancel the hearing, every effort will be made to publish advance notice in the FEDERAL REGISTER of such cancellation. Moreover, DOE will notify all persons scheduled to testify at the hearing. However, it is not possible for DOE to give actual notice of cancellations or changes to persons not identified to DOE as participants. Accordingly, if you wish to attend the hearing you should contact the DOE on the last working day preceding the date of the hearing to confirm that it will be held as scheduled.

Issued in Washington, D.C., on September 13, 1978.

HARRY L. PEEBLES,
Acting Director of Administration.

IN RE APPLICATIONS FOR MMT WAIVER

Decision of the Administrator

I. INTRODUCTION

Section 211(f)(3) of the Clean Air Act (Act), 42 U.S.C. 7545(f)(3), added by the Clean Air Act Amendments of 1977, Pub. L. 95-95, 91 Stat. 681, prohibits [1] manufacturers of fuels and fuel additives which are not substantially similar to any fuel or fuel additivies utilized in the certification of any model year 1975, or subsequent model year vehicle or engine from distributing such fuels or fuel additivies in commerce after September 15, 1978. Section 211(f)(4) permits the Administrator to grant a waiver of any section 211(f) prohibition or limitation. Methylcyclopentadienyl manganese tricarbonly (MMT) [2] is not substantially similar to any fuel additivies used in certification and is therefore prohibited unless a waiver is granted. [3]

The Administrator may waive the section 211(f) prohibition or limitation if he determines that the applicant for a waiver has established that MMT, a specified concentration of MMT, its emission products, or the emmission products of a specified concentration of MMT, will not cause or contribute to the failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) such that the vehicle will fail to comply with the emission standards with respect to which it has been certified under section 206 of the Act. The Administrator must grant or deny a waiver within 180 days from the receipt of the waiver application or else the waiver will be deemed granted.

A waiver request for MMT was received from the Ethyl Corp. on March 17, 1978, and the expiration of the 180 day review period is September 12, 1978. Additional waiver applications [4] for MMT have been received subsequent to Ethly's and this decision shall be equally applicable to them. Further, as previously stated in the "Guidelines for Fuel Additive Waivers," [5] this decision will be applicable to all manufacturers of fuels containing MMT and to all manufacturers of MMT.

A hearing on the Ethyl waiver request was held on June 27-28, 1978, in Washington, D.C., and the 30-day comment period following the hearing ended on July 28, 1978. [6]

II. SUMMARY OF DECISION

I have determined that the Ethyl Corp., et al., have not met the section 211(f)(4) burden necessary to obtain a waiver, and I deny the requested waiver for MMT. [7] All section 211(f) prohibitions and limitations pertaining to MMT remain in effect. In order to prevent dislocation in the marketing of gasoline, enforcement of the section 211(f)(3) prohibition on the distribution in commerce of MMT and fuel containing MMT will not commence for 45 days from the date of this decision. This delay in enforcement will permit manufacturers to distribute in commerce MMT and gasoline containing MMT until October 27, 1978.

Ethyl has asked that EPA wait unit the Coordinating Research Council (CRC) test program is completed or grant a temporary waiver prior to finally acting on the waiver request. [8] Because of the 180-day period of review, I cannot postpone action on the waiver request as Ethyl suggests. To do so, absent a final decision, would automatically grant the waiver. Further, although I may grant a waiver conditioned on time or other limitations, [9] such granting of a waiver can only be done if the requirements of section 211(f)(4) are met by the applicant. [10] Naturally, Ethyl is free to reapply for a waiver whenever it beleives new data justify such reapplication.

---

[1] Sec. 211(f)(1) prohibits, after Mar. 31, 1977, the first introduction into commerce or increase in concentration of controlled fuels and fuel additivies. Sec. 211(f)(2) limits, after Nov. 30, 1977, the use of manganese additives in conncetions in excess of 0.0625 gr of manganese per gallon.

[2] MMT is an octane enchaning gasoline additive currently in widespread use. The concentration of MMT averaged over all U.S. unleaded gasoline will be about 0.03 gr of manganese per gallon (g Mn/gal) in 1978. Ethyl (I), report 3, 1. The citation format used in this decision is explained in note 8, infra.

[3] California has prohibited after Sept. 8, 1977, the sale in California of fuels containing manganese additives. See, 13 Cal. Admin. Code § 2254 (1977).

[4] See note 6, infra.

[5] 43 FR 11258, Mar. 17, 1978.

[6] See, "MMT Waiver Request: Public Hearing," 43 FR 24742 (1978). The public docket (docket No. MSED-211(f)) is available for public inspection in the Public Information Reference Unit, EPA, Room 2922, 401 M Street SW., Washington, D.C. 20460.

[7] Ethyl requested a waiver for MMT at concentration levels of 1/32 and 1/16 gr of manganese per gallon (g Mn/gal). Since no data at any lower levels of usage nor any means of extrapolating data to a lower concentration level was presented, a determination cannot be made for any concentration level other than what was requested. All such applications requested a waiver for MMT in concentrations up to 1/16 g Mn/gal or incorporated by reference Ethyl's data. Therefore, 1/8 g Mn per gallon was deemed not to be a concentration before the Agency for waiver purposes. Ethyl has in fact stated that 1/8 g Mn data are irrelevant to its application. Ethyl (III), IV-2. Further, Ethyl reduced its recommended maximum concentration from 1/8 to 1/16 g Mn/gal in 1977 (Ethyl (T), I-9) and has stated that there is a concentration dependent engine-out MMT effect, Ethyl (T), I-30-34, 101. Herein all public hearing testimony will be cited by inserting a "T" between the testifier and the transcript page number.

[8] Ethyl application for MMT wavier, submitted Mar. 17, 1978, cited herein as Ethyl (I). Ethyl has also made two other major submittals on June 19, 1978, cited as Ethyl (II) and July 28, 1978, cited as Ethyl (III). all other submittals will be cited by manufacturer and date; e.g., the General Motors submittal of July 27, 1978, is cited GM (July 27).

[9] "The Administrator's waiver may be under such conditions, or in regard to such concentrations as he deems appropriate consistent with the intent of this section." S. Rep. No. 95-125, 95th Cong., 1st Sess. 91 (1977).

[10] The Senate report, ID. at 91, states "[T]he Administrator (may) waive or conditionally waive that the prohibitions established by (sec. 211 (f)) *if the applicant has met the requirements of this paragraph (211(f)(4)).*" (Emphasis supplied.)

Ethyl has presented data and analysis from which it concludes that MMT has no adverse effect on a vehicle's hydrocarbon (HC) emissions, [11] regardless of the emission standard for which the vehicle is designed. [12] Based on our analysis of the data submitted by Ethyl and others, I find that Ethyl has failed to establish that MMT will not cause or contribute to the failure of any emission control device or system to achieve compliance by the vehicle with emission standards with respect to which it has been certified. In addition, and although not required by section 211(f)(4), I have determined that MMT will cause or contribute to the failure of vehicles designed to meet the California 0.41 gram per mile (gpm) HC standard. [13]

III. CAUSE OR CONTRIBUTE TO FAILURE OF EMISSION STANDARDS

In order to obtain a waiver for MMT the applicant must establish that MMT, a specified concentration of MMT, its emission products, or the emission products of a specified concentration of MMT will not cause or contribute to the failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified pursuant to section 206 of the Clean Air Act. This burden, which Congress has imposed on the applicant, if interpreted literally, is virtually impossible to meet as it requires the proof of a negative propostion, i.e., that no vehicle will fail to meet the emission standards with respect to which it has been certified. Taken literally, it would require the testing of every vehicle. Recognizing that Congress contemplated a workable waiver provision some mitigation of this stringent burden was deemed necessary. For purposes of the waiver provision, it is recognized that reliable statistical sampling and fleet testing protocols could safely be used to demonstrate that the fuel or fuel additive under consideration would not cause or contribute to failures of emission standards by automobiles in the national fleet. Ethyl and a number of others have submitted fleet testing data in support of or in opposition to the waiver request. [14]

Ethyl's application rests principally on the notion that there is no adverse MMT effect. Ethyl also maintained that MMT does not cause vehicles to fail their emission standards. [15] Ethyl did not evaluate data sets where the control and MMT vehicles exceeded the emission standard to determine if MMT may have contributed to failures. [16] An evaluation of all the reasonably useable data sets, using standard statistical methods, brings us to the conclusion that MMT does cause or contribute to the failure to meet emission standards by the fleet represented by the data cars.

A. ADVERSE EMISSIONS EFFECT ATTRIBUTABLE TO MMT

The statutory requirements for a wavier make it necessary for the applicant to establish that MMT will not cause or contribute to failure. In order to establish this, one need only show that MMT does not have a statisticly significant adverse emissions effect. However, our technical analysis has concluded that there is a high degree of likelihood that an adverse effect exists. [17] Our statistical analysis of the submitted data also determined an adverse effect existed and quantified the degree of confidence within which we could conclude that MMT had an adverse effect. [18] It should be noted that even if the data were inconclusive as to the effect of MMT on the national automobile fleet, the applicant would not have discharged the affirmative nature of the burden which he bears under section 211(f)(4).

B. FAILURE OF VEHICLES

Even if an applicant is unable to establish that no adverse effect results from the use of fuel containing MMT, he may still meet his burden under section 211(f)(4) by establishing that an adverse effect will not cause or contribute to a failure by vehicles to meet their emission standards. A failure due in whole or in part to the use of fuel containing MMT, which occurs at any time during the useful life, of the vehicle is sufficient to deny a waiver. The measure of failure is the emission performance of a vehicle at the tailpipe. [19] Thus, it is not necessary that the failure be directly attributed to a particular effect, such as deposit formation in combustion chambers, or the failure of a particular element of emission control hardware. It is sufficient that tailpipe-out emissions fail to meet certified emission standards, if MMT caused or contributed to such failure.

IV. THE APPLICABLE EMISSION STANDARD

Ethyl has asserted [20] that the emission standard which is applicable in determining failure is the present standards effective through the 1979 model year. [21] This assertion stems from the language of section 211(f)(4) which refers to a vehicle failing to meet the emission standards "with respect to which it *has been* certified pursuant to section 206" (emphasis supplied). The use of the past tense is pointed to by Ethyl to indicate that section 211(f)(4) is only concerned with already certified vehicles (i.e., the in-use fleet). Assuming this interpretation is correct, Ethyl and EPA are only required to be concerned with the effects of MMT on vehicles certified to

---

[11] There are three regulated automobile pollutants: hydrocarbons (HC), carbon monoxide (CO), and oxides of nitrogen (NOx). While all of these standards are relevant to a determination of whether to grant or deny a waiver, investigators into the effects of MMT agree that the primary emission problem associated with MMT is HC emissions. GM (T), II-4, GM (June 23), part 1,1; Ethyl (T), I-8, Ethyl (I), report 1, sec. 1,1 and report 2,6; Ford (T), II-84; Chrysler (T), II-138. Therefore, for this decision, the analysis was focused on any HC emission effect due to MMT.

[12] See, e.g., Ethyl (III), pts. IV, V.

[13] This conclusion was arrived at by a technical examination of the submittals, see sec. VI(B), infra, and a statistical analysis of the submitted data, see, sec. VI(A), infra. These sections summarize, "Technical Analysis of the Effects of MMT on Emission Control Systems," EPA Emission Control Technology Division, August 1978, and "Characterization Report: Analysis of MMT Fleet Data to Characterize the Impact of MMT on Tailpipe Emissions," EPA Mobile Source Enforcement Division, September 1978, cited herein as Technical Analysis and Characterization Report, respectively, and included as appendices to this decision.

We also examined vehicles designed to meet a 1.5 gpm HC standard and detected an adverse effect although the limited amount of data prevents any conclusions with high confidence.

[14] Ethyl has not shown that its 30 car test fleet is representative of the national in-use auto fleet. It has also not made a similar showing for the oil company fleet described in Ethyl (I), report 2.

[15] "There clear language of subparagraph (f)(4) thus prescribes a single criterion for application of the waiver authority-whether the fuel-additive *causes* a failure of the emission control system to meet the standards under which the vehicle has been certified pursuant to sec. 206." (Emphasis supplied.) Ethyl (III), III-2.

[16] In this decision, a reference to failure means failure of a vehicle or vehicles to conform to the emission standards with respect to which they have been designed. See note 39, infra.

[17] Technical Analysis at 2, 10, 24. Our technical analysis concluded that no catalyst enhancement occurs, see sec. VI(B)(c), infra, as contended by Ethyl, Ethyl (III), VII, thus this alleged phenomenon would not be a mitigating factor of any observed adverse effect.

[18] See sec. VI, infra, and Characterization Report, 22-26.

[19] This conclusion is derived from the legislative history of sec. 211(f). Conference Report, H.R. Rep. No. 95-564, 95th Cong. 1st Sess. 161 (1977).

[20] Ethyl (III) at III-4, see also, Chemetals (July 28) at 2-4.

[21] 1.5 gr per ml (gpm) HC. Hereafter the grams per mile units will be omitted. Further, frequent use of the phrases "1.5 HC vehicle" and "0.41 HC vehicle" will be made. These phrases refer to vehicles certified to meet the 1.5 gpm HC or the 0.41 gpm California HC standard, respectively.

meet the 1.5 HC standard. [22] An examination of the submitted data reveals that only the GM San Diego Taxi Fleet (15 1977 Chevrolet Novas) and

than the matching clear-fueled vehicle group?

1/32 g Mn 1/16 g Mn (percent)

meet the 1.5 HC standard.[23] An examination of the submitted data reveals that only the GM San Diego Taxi Fleet (15 1977 Chevrolet Novas) and two pairs of 1977 Chrysler vehicles (318 CID V-8 and 225 CID) [23] were designed and certified to meet a 1.5 HC standard.

Our mitigation of the burdensome "any vehicle" criterion has been to accept representative fleet data.[24] However, before a waiver may be granted EPA should be reasonably certain that the fleets are representative of the national fleet. The number and type of vehicles designed and certified on a 1.5 HC standard for which there were submitted data is patently insufficient upon which to base a waiver decision.[25] Ethyl has not demonstrated that these vehicles represent the national fleet.

A predominant portion of the submitted data was derived from testing California vehicles designed to meet the California 0.41 HC standard, but federally certified to meet the 1.5 HC standard. However, the California vehicles utilized emission control technology which is not representative of the national 1.5 HC fleet vehicles.[26] The inclusion of these vehicles in the 1.5 HC fleet data adds little toward meeting the "any vehicle" criterion.[27] Therefore, Ethyl has failed to meet its burden under 211(f)(4) and a waiver cannot be granted.

[23] This constraint would be related to those vehicles certified under sec. 206 of the Act to Federal standards. This would include the other Federal standards for earlier model years, but no fleet data was presented on such vehicles.

[23] A complete description of the GM San Diego Taxi Fleet can be found in GM (June 23), pt. 2, 45. The Chrysler vehicles are described in Chrysler (June 28), hearing handout. There were additional 1.5 HC vehicles, however they were operated for part or all of the accumulated mileage on fuel containing ⅛ gr of manganese. A description of the data received and the data analyzed is contained in characterization report, 3-4. Ethyl has requested a waiver for $\frac{1}{16}$ gr or $\frac{1}{32}$ gr concentration levels and has stated that ⅛ gr data is irrelevant to its waiver request. See note 7, supra.

[24] Ethyl has not shown that its data was derived from representative fleets. Our analysis, see, Technical Analysis and Characterization Report, was done on all of the useable submitted data. We believe that the fleets incorporated in this data base are more representative than the Ethyl fleets because of the larger numbers of vehicles and greater variety of vehicles. We cannot identify any substantial subgroups which would bias our results against MMT.

[25] See Characterization Report at 2.

[26] See Technical Analysis at 45.

[27] It is conceivable that had Ethyl been able to establish no effect on the more "sensitive" 0.41 vehicles, it would have lent some support to their position that MMT does not adversely affect the less sensitive 1.5 HC vehicles. However, as is discussed below MMT does have an adverse effect on the 0.41 vehicles.

Despite the above, and although it is not required by section 211(f)(4) to do so, EPA has gone forward and analyzed the California vehicle data to determine whether there is an adverse MMT effect and if so, whether such effect will cause such vehicles to fail to meet the 0.41 HC standard. Our interest in 0.41 HC technology is more than academic. The 0.41 HC technology utilized on California vehicles represents a close approximation of the technology to be employed in meeting the stringent 1980 Federal standards.[28] Where the emissions technology is available and imminent, and is reasonably certain to be applied in a prospective model year, the effects of MMT upon such technology should be examined. Any grant of a waiver for the general use of MMT would, due to its widespread use, also necessitate the use of MMT in certification. Thus, the ability of the auto industry to readily produce vehicles if they are required to certify on MMT fuels is a very significant question.

V. Design Changes and Sensitive Vehicles

Ethyl has contended that certain vehicles are "sensitive" to the effects of MMT [29] and has suggested that modification or changes be made to such vehicles to overcome such sensitivity. Ethyl offers no conclusions as to what factors may cause a vehicle to be MMT sensitive but does speculate as to a number of potential factors.[30] In response to a number of vehicle manufacturer assertions that the only manner to compensate for an MMT effect is to retard the spark (resulting in a loss of fuel economy), Ethyl suggests a number of changes that could be made.[31]

The primary thrust of the Ethyl argument is that should there appear to be a adverse MMT effect or should a number of vehicles appear to have an unusual sensitivity to MMT, design changes could easily be performed as a curative measure.[32]

[28] In 1980 the Federal emission standards become, 0.41 gpm HC, 7.0 gpm CO, and 2.0 gpm NOx.

[29] Ethyl (III), IV-2, 6, 7, 8, VI-4; Ethyl (II), report 2, 11. In response to supplementary questions submitted to Ethyl in a letter dated July 7, 1978, relating to the sensitivity of its test fleet Ethyl referred to section IV of Ethyl (III).

[30] Ethyl (II), report 2, 10-11. These factors include the size and shape of the combustion chamber "pocket," squish area, and the location of spark plug, intake, and exhaust valves. In fact Ethyl admits that it does not know what actually causes this sensitivity. Ethyl (T), I-24.

[31] Ethyl (I), report 2, 7; and Ethyl (II), report 2, 11. These recommendations include, redesigning of the exhaust port liners, higher valve spring loads, smaller valve contact seat area, and/or valve rotators.

[32] Ethyl(T), I-129.

The raising of this issue by Ethyl is confusing for it maintains that the emission standard to be used in determining the waiver is the 1.5 HC standard. All of the vehicles certified on this standard are currently in-use or will be introduced within the next few months (1979 model year vehicles). However, modificiations cannot be made on in-use vehicles and further, such modifications would be unnecessary if MMT does not adversely affect emissions as Ethyl contends.

The raising of this issue is apparently an attempt by Ethyl to shift the burden from itself to the vehicle manufacturing industry. The statutory requirements for a waiver state that the applicant must establish that the additive does not cause or contribute to any vehicle's failure to meet the emission standards with respect to which it has been certified.[33] Nowhere is there the requirement that vehicle manufacturers must alleviate such failure by modifications.

If the suggested modifications are offered to illustrate the vehicle manufacturer's ability to meet the 1980, 41 HC standard with MMT use, I must cite the serious concerns raised by the vehicle manufacturer's in contradicting this point. GM has stated [34] that neither it nor Ethyl has defined what modifications will alleviate an MMT effect and the possibility of not certifying some of its more MMT-sensitive engines would be great.

Ford,[35] while agreeing that the Ethyl recommended changes would help alleviate the adverse impact of MMT use, concludes that it does not know what parameters to actually change. Ford further states that it cannot readily make any changes to compensate for MMT usage. Chrysler [36] states that it may be unable to certify its 1980 vehicles on fuel using MMT.

VI. EPA Analysis

A. Statistical Analysis [37]

a. Adverse HC Emissions Effect. In order to determine if MMT-fueled vehicles manifest an adverse effect on tailpipe HC emissions as compared to clear-fueled vehicles, we examined eight characteristics of the data at 0, $\frac{1}{32}$, and $\frac{1}{16}$ g Mn/gallon. These characteristics were:

1. *Deterioration factors.* Deterioration factors (DF) were calculated for each vehicle group and fuel. The DF is used in the EPA certification of prototype vehicles and therefore helps to evaluate the effect MMT might have

[33] See H.R. Rep. No. 950564, 95th Cong., 1st Sess. 161 (1977).

[34] GM (July 27), cover letter.

[35] Ford(T), II-104-107.

[36] Chrysler (July 27).

[37] A complete discussion of the statistical analysis including the data used is located in the characterization report.

on the certification process. A one-side sign test was used to test the null hypothesis of no adverse MMT effect on DF's.

2. *Least squares regression slopes.* Slopes of the least squares regressions lines were calculated for each vehicle group and fuel. The slope of each MMT vehicle group was compared to that of the matching clear-fueled vehicle group to determine, using a one-sided t-test, the probability that the MMT-fueled vehicle group deteriorated faster than the clear-fueled vehicle group. A one-sided sign test was used to test the hypothesis that there was no adverse MMT effect.

3. *Maximum percent of vehicles failing standard.* The maximum percentage of failing vehicles was determined for each vehicle group and fuel over the maximum mileage for which the vehicle group was tested. The maximum percentage failure of each MMT vehicle group was compared to its comparable clear-fueled vehicle group by one-sided sign tests.

4. *Mileage point at which the regression line first exceeds standard.* Using the regression lines, the mileage point at which each MMT and clear-fueled vehicle group first failed its designed HC standard was computed. The mileage point for each MMT vehicle group was compared to its comparable clear-fueled vehicle using a one-sided sign test.

5. *Change in HC emissions from low mile point to 50,000 miles.* Data from vehicles which had not accumulated 50,000 miles were not used in this analysis. The emission levels for the low and 50,000 mile points were taken as the average of data points within 250 miles of the starting and ending mileages. The changes in the emission levels from low to high mileage was computed for each vehicle group. The change in emission levels for each MMT-fueled vehicle group was compared to that of the comparable clear-fueled vehicle group using one-sided sign and Mann-Whitney tests.

6. *Integral tailpipe HC above the initial emissions level.* Total HC emissions increase for each vehicle was computed by approximate integration using averages of actual data points. The total HC emissions increase for each MMT-fueled vehicle group was compared to that of the comparable clear-fueled vehicle group using one-sided sign and Mann-Whitney tests.

7. *Change in emissions from low mileage point to 5,000 miles.* The emission levels for the low and 5,000 mile points were taken as the average of data points within 250 miles of the starting and ending mileages. The changes in the emission level from low to 5,000 miles were computed for each vehicle group and fuel. The change in emission levels for each MMT-fueled vehicle group was compared to that of the comparable clear-fueled vehicle group using one-sided and Mann-Whitney tests.

8. *Comparison of initial emission levels.* The concern was raised that different initial emission levels of the different vehicle groups might mask any MMT effect. Therefore, initial emission levels were compared for each vehicle group and fuel. The average initial emission levels for each MMT-fueled vehicle group was compared to the initial emission levels of the comparable clear-fueled vehicle group using a two-sided Mann-Whitney test.

For each of these measures, matching MMT and clear-fueled vehicles were compared through the same mileage interval point. We used a total of 153 MMT and clear-fueled vehicles, whereas Ethyl's analysis was based primarily on its 30 car test fleet.[38] There was no extrapolation of data beyond a vehicle's maximum mileage interval point. Comparisons were tested for statistical significance by one or more tests, the t-test, sign test, or modified Mann-Whitney (rank sum) test.

The results of this analysis are summarized below.

1. To what degree of confidence can it be stated that a vehicle fueled on MMT will have a greater deterioration factor than its corresponding clear-fueled vehicle?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Deterioration factor	85	88

2. To what degree of confidence can it be stated that a vehicle group fueled on MMT will have a greater slope than its corresponding clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Slope	98	99

3. To what degree of confidence can it be stated that at any time during their useful lives a greater number of MMT-fueled vehicles will fail their designed HC standard than their corresponding clear-fueled vehicles?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of MMT vehicle failure	99	99

4. To what degree of confidence can it be stated that MMT-fueled vehicles will fail to meet their designed HC standard at a point in their useful life earlier than the corresponding clear-fueled vehicles?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of earlier MMT vehicle failure	99	99

5. To what degree of confidence can it be stated that the increase in the tailpipe HC emissions over a vehicle's useful life will be greater for the MMT-fuled vehicle group than the matching clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC change due to MMT, sign test	85	98
Mann-Whitney test	99	99

6. To what degree of confidence can it be stated that an MMT-fueled vehicle group will emit more total hydrocarbons over its useful life than the corresponding clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC emissions due to MMT, sign test	99	99
Mann-Whitney test	99	99

7. To what degree of confidence can it be stated that an MMT-fueled vehicle group will have different initial emissions than their clear-fueled counterparts?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of difference in initial emission for MMT vehicle groups:		
Sign test	8	28
Mann-Whitney test	0	70

8. To what degree of confidence can it be stated that the increase in tailpipe HC emissions from the low mile point to 5,000 miles will be greater for an MMT-fueled vehicle group than the clear-fueled counterpart?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC change due to MMT, sign test	99	82
Mann-Whitney test	97	90

From the above results, I conclude that MMT has a statistically significant adverse HC emissions effect at the ½₂ and 1/16 gram Mn per gallon use levels.

b. Failure of Vehicles Attributable to MMT. In order to determine if the demonstrated adverse effect will cause or contribute to failure of vehicles to meet their HC emission standards at any time during their useful lives, we estimated the percent failure for each vehicle group and fuel and compared the results of each MMT-fueled vehicle group to its matching clear-fueled vehicle group. The analysis was performed looking at individual types of emission systems and then in the aggregate.

In order to provide a frame of reference against which to analyze our data, we treated a failure as occurring when more than 10 percent of a class of vehicles failed to meet their designed emissions standard [39] at any

[38] For a description of the MMT test fleets included in EPA's data base, see characterization report at 5-12 and table 17. EPA has no reason to believe that its database is derived from fleets biased against MMT.

[39] Vehicles manufactured for sale in California are *designed* to meet the California emission standards of .41 gpm HC, 9.0 gpm CO, and 1.5 gpm NOx (1979 standard), although certified as meeting the Federal standards, e.g., 1.5 gpm HC. Although section 211(f)(4) refers to the certified emission standards, we have chosen to analyze the California vehicle data with respect to the .41 HC standard. This choice was made because vehicles designed to a .41 HC standard utilize different emission control technology than vehicles designed to a 1.5 HC standard.

Footnotes continued on next page

point in their useful lives.[40] Thus, when the observed failure rate for a class of vehicles, at any mileage point during their useful lives, exceeds 10 percent, we considered that class of vehicles to have failed the standard. Failure rates were calculated for each vehicle group and fuel at 4,000 mile intervals.

The results of this analysis are summarized below.

1. To what degree of confidence can it be stated that a vehicle group fueled on MMT will have a greater failure rate than its corresponding clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater failure rate	99	99

2. To what degree of confidence can it be stated that a vehicle group fueled on MMT will have a greater failure rate than its corresponding clear-fueled vehicle group at any point in their useful lives?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater failure rate	99	99

3. To what degree of confidence can it be stated that MMT-fueled vehicles will fail to meet their designed HC standard at a point in their useful life earlier than the corresponding clear-fueled vehicles?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of earlier failure	99	99

4. To what degree of confidence can it be stated that the increase in the tailpipe HC emissions over a vehicle's useful life will be greater for the MMT-fueled vehicle group than the matching clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC change due to MMT, sign test	85	98
Mann-Whitney test	99	99

5. To what degree of confidence can it be stated that an MMT-fueled vehicle group will emit more total hydrocarbons over its useful life than the corresponding clear-fueled vehicle group?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC emissions due to MMT, sign test	99	99
Mann-Whitney test	99	99

6. To what degree of confidence can it be stated that an MMT-fueled vehicle group will have different initial emissions than their clear-fueled counterparts?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of difference in initial emission for MMT vehicle groups:		
Sign test	8	28
Mann-Whitney test	0	70

7. To what degree of confidence can it be stated that the increase in tailpipe HC emissions from the low mile point to 5,000 miles will be greater for an MMT-fueled vehicle group than the clear-fueled counterpart?

	½₂ g Mn (percent)	1/16 g Mn (percent)
Confidence of greater HC change due to MMT, sign test	99	82
Mann-Whitney test	97	90

From the above results, I conclude that MMT has a statistically significant adverse HC emissions effect at the ½₂ and 1/16 gram Mn per gallon use levels.

b. Failure of Vehicles Attributable to MMT. In order to determine if the demonstrated adverse effect will cause or contribute to failure of vehicles to meet their HC emission standards at any time during their useful lives, we estimated the percent failure for each vehicle group and fuel and compared the results of each MMT-fueled vehicle group to its matching clear-fueled vehicle group. The analysis was performed looking at individual types of emission systems and then in the aggregate.

In order to provide a frame of reference against which to analyze our data, we treated a failure as occurring when more than 10 percent of a class of vehicles failed to meet their designed emissions standard [39] at any

[40] This constraint would be related to those vehicles certified under sec. 206 of the Act to Federal standards. This would include the other Federal standards for earlier model years, but no fleet data was presented on such vehicles.

[39] Vehicles manufactured for sale in California are *designed* to meet the California emission standards of .41 gpm HC, 9.0 gpm CO, and 1.5 gpm NOx (1979 standard), although certified as meeting the Federal standards, e.g., 1.5 gpm HC. Although section 211(f)(4) refers to the certified emission standards, we have chosen to analyze the California vehicle data with respect to the .41 HC standard. This choice was made because vehicles designed to a .41 HC standard utilize different emission control technology than vehicles designed to a 1.5 HC standard.

MMT. As there has been no resolution of the theoretical basis of MMT sensitivity, the classification of an engine as being sensitive or insensitive to

Highway, Arlington, Va., and will be open to the public.

[FRL 968-5]

RECEIPT OF ENVIRONMENTAL IMPACT

point in their useful lives.[40] Thus, when the observed failure rate for a class of vehicles, at any mileage point during their useful lives, exceeds 10 percent such occurrence constitutes a failure. In the case where a clear-fueled vehicle class does not, at a particular mileage point, exceed the 10 percent failure rate, MMT would cause failure if, at the same mileage point, the matching MMT fueled vehicle class exceeds the 10 percent failure rate. Similarly, in the case where a clear-fueled vehicle class exceeded the 10 percent failure rate, at a particular mileage point, MMT would be contributing to failure of that class if, at the same mileage point, it was found that the matching MMT-fueled vehicle class or exceeded the percent failure of the clear-fueled vehicle class or exceeded the 10 percent failure rate at an earlier mileage point than the clear-fueled vehicle class.

EPA has concluded that every vehicle subject to emission standards must meet such standards throughout its useful life.[41] The choice in this instance of a 10 percent criterion for failure is consistent with that conclusion. The choice of a 10 percent criterion is based on our judgement of the vehicle manufacturing industry's ability to mass produce vehicles meeting applicable emission standards and to allow some flexibility due to test variations and unavoidable production aberrations.[42]

1. *Oxidation catalyst vehicles designed to meet the .41 HC standard.* For vehicles equipped with an oxidation catalyst and designed to meet the .41 HC standard we found that 9 out of 10 vehicle groups using ½₂ g Mn fuel exceeded the 10 percent failure level at some mileage point where the corresponding clear-fueled vehicles were below the 10 percent level. Similarly, 16 out of 20 vehicle groups using ½₆ g Mn fuel exceeded, at some mileage point, both the 10 percent failure level and the failure rate of the clear-fueled vehicles.

2. *Three-way catayst vehicles designed for the .41 HC standard.* For vehicles equipped with three way catalysts, we found that 5 out 6 vehicle groups fueled on ½₆ g Mn fuel exceeded the 10 percent failure rate at some point where the clear-fueled vehicles were below the 10 percent failure level. For vehicles using ½₂ g Mn we found that 3 out of 4 vehicle groups exceeded the 10 percent failure rate level at some point where the clear-fueled vehicles were below the 10 percent failure level.

3. 1.5 HC vehicles [43] One out of one ½₂ g Mn fueled vehicle group exceeded the 10 percent failure rate level where the clear-fueled vehicles are below the 10 percent level. Two out of three vehicle groups fueled on ½₆ g Mn exceeded the 10 percent failure rate level where the clear-fueled vehicles were below the 10 percent level at the same mileage point.

From the above discussion we can state with the following confidence that MMT will cause or contribute to the failure of vehicles to meet their designed emission standard:

	½₂ g Mn	½₆ g Mn
	(percent)	
.41 Oxidation catalyst vehicles.....	98	99
.41 three way catalyst vehicles.....	68	89
1.5 vehicles [a].....	.....	.....
All vehicles regardless of designed HC standard or emission controls.....	99	99

[a] No meaningful confidence statements can be made on the basis of a single observation.

From the above analysis, I conclude that MMT in fact causes or contributes to failure of vehicles to meet their designed emission standards.

B. TECHNICAL ANALYSIS

At the MMT waiver hearing and from the submitted information, a number of technical issues were raised which EPA believes should be addressed. Those technical issues were investigated and, where possible, conclusions were reached regarding each issue. The technical issues which were addressed included: the effect of MMT on oxygen (O_2) sensors, catalyst plugging due to MMT, MMT enhancement of catalyst efficiency, vehicle design or automotive components indicative of a vehicle's sensitivity to MMT, and combustion chamber deposits due to MMT and the effects of such deposits.

a. *Oxygen Sensors.*[44] Oxygen sensors are an important component in the three-way catalyst (TWC) emission control systems which have recently come into increased use. Volvo introduced a three-way catalyst system in California in 1977, followed by Saab, Ford, and GM in 1978. Most manufacturers have plans to use three-way catalyst technology to meet future stringent emission control standards.

Recent fleet tests of production TWC systems by Ethyl and the Coordinating Research Council (CRC) have uncovered an MMT effect on these sensors which leads to a decrease in HC control.[46] Upon an examination of the before and after sensor change emissions data, MMT was observed to affect the durability of the oxygen sensors in the TWC systems tested.[47]

EPA has concluded that MMT must be strongly suspected of having an adverse effect on oxygen sensor performance which leads to increased HC emissions from TWC systems.

b. *Combustion Chamber Deposits.*[48] Based on a very limited amount of information, it is EPA's opinion that the lack of an adverse effect on combustion chamber deposits due to the use of MMT has not been established. The only data on combustion chamber deposits presented shows an adverse HC emissions effect due to these deposits.

c. *Catalyst Enhancement.*[49] Ethyl has presented the opinion that MMT may cause an enhancement of oxidation catalyst activity which leads to improved catalyst efficiency. This catalyst enhancement is purported to be a benefit of the use of MMT and a contributing factor towards overcoming the increased engine-out HC emissions observed when MMT is used.

An examination of the data submitted has led EPA to the conclusion that the catalyst "enhancement effect" is at best a weak effect, which does not overcome the negative effect of MMT on engine-out emissions.

d. *Catalyst Plugging.*[50] Early work by Ethyl, GM, Ford, and others showed the potential for catalyst plugging when vehicles were fueled with MMT (usually at the 1/8 g Mn level).[51] Ethyl testified that it had seen no evidence of catalyst plugging at the 1/16 g Mn level.[52] Ethyl has stated that catalyst plugging may occur because of the agglomeration of manganese oxide particles on catalytic converters at high temperatures with plugging tendency decreasing at lower MMT concentrations and lower temperatures.[53] Based on data presented at the waiver hearing by GM, Ford, Toyota, and CRC, I conclude that there is increasing potential for catalyst plugging with continued use of MMT.[54]

e. *MMT Sensitivity.*[55] It has only been recently suspected that different engines may have varied sensitivity to MMT. As there has been no resolution of the theoretical basis of MMT sensitivity, the classification of an engine as being sensitive or insensitive to MMT has been entirely empirical. No information has been provided which would allow an a priori identification of MMT sensitive engines.

VII. FINDINGS AND CONCLUSIONS

I have determined that Ethyl has not established that MMT at the specified concentrations of 1/16 and 1/32 grams of manganese per gallon and the emission products thereof will not cause or contribute to a failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified pursuant to section 206 of the Clean Air Act.

Although not required to do so by the Act, I find, based upon our technical and statistical analyses, that MMT has an adverse HC emissions effect at 1/16 and 1/32 grams of manganese per gallon concentrations. This effect was found, with high confidence, for all vehicle groups in EPA's data base. The limited amount of data for 1.5 HC vehicles also showed an adverse effect. However, the data submitted for vehicles certified on a 1.5 HC standard is by any reasonable standard, insufficient to meet the "any vehicle" criterion of section 211(f)(4). I also find that MMT will cause or contribute to the failure of vehicles to meet their designed HC emission standard.

The requests for waivers are denied.

Dated: September 11, 1978.

DOUGLAS M. COSTLE,
Administrator.

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT SCIENTIFIC ADVISORY PANEL

Open Meeting

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: There will be a one-day meeting of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel from 9:30 a.m. to 4:30 p.m. on Tuesday, October 3, 1978. The meeting will be held in Room 1112A, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va., and will be open to the public.

FOR FURTHER INFORMATION CONTACT:

Dr. H. Wade Fowler, Jr., Executive Secretary, FIFRA Scientific Advisory Panel, Office of Pesticide Programs (TS-766), Room 803, Crystal Mall, Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va., telephone, 703-557-7560.

SUPPLEMENTARY INFORMATION: In accordance with section 25(d) of the amended FIFRA, the Scientific Advisory Panel will comment on the impact on health and the environment of regulatory actions under section 6(b) and 25(a) prior to implementation. The purpose of this meeting is to discuss the following topics:

1. Review of FIFRA section 25(c)(3) final regulations on special packaging of pesticides;

2. Introductory briefing on plans by EPA for conditional registration of pesticides; and

3. In addition, the Agency may present status reports on other ongoing programs of the Office of Pesticide Programs.

Any member of the public wishing to attend or submit a paper should contact Dr. H. Wade Fowler, Jr., at the address or phone listed above to be sure that the meeting is still scheduled. Interested persons are permitted to file written statements before or after the meeting, and may upon advance notice to the Executive Secretary, present oral statements to the extent that time permits. Written or oral statements will be taken into consideration by the Panel in formulating comments or in deciding to waive comments. Persons desirous of making oral statements must notify the Executive Secretary and submit copies of a summary no later than September 27, 1978.

Individuals who wish to file written statements are advised to submit copies of statements to the Executive Secretary in a timely manner to ensure appropriate consideration by the panel.

(Sec. 25(d) of FIFRA, as amended (86 Stat. 973; 89 Stat. 751; (7 U.S.C. 136(a) et seq.); and Sec. 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770).)

Dated: September 13, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

RECEIPT OF ENVIRONMENTAL IMPACT STATEMENTS

Pursuant to the President's Reorganization Plan No. 1, the Environmental Protection Agency is the official recipient for environmental impact statements (EIS) and is required to publish the availibility of each EIS received weekly. The following is a list of environmental impact statements received by the Environmental Protection Agency from August 28, 1978, through September 1, 1978. The date of receipt for each statement is noted in the statement summary. Under the guidelines of the Council on Environmantal Quality the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days; the date of submission of comments is October 23, 1978. The thirty (30) day period for each final statement begins the day the statement is made available to the Environmental Protection Agency and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: September 12, 1978.

FOREST SERVICE

Draft

Cowlitz planning unit, land management plan, Lewis and Pierce Counties, Wash., September 1: Proposed is a land management plan for the Cowlitz planning unit, Gifford Pinchot National Forest, Lewis and Pierce Counties, Wash. The plan would affect 124,300 acres of the unit and would include: (1) Classification of 78,290 acres as general forest, (2) wildlife management on 24,140 acres, (3) 7,110 acres added to the wilderness study area, (4) continuance of 550 acres as a natural area, (5) 1,250 acres allocated as an unroaded recreation area, (6) 110 acres of roaded recreation area, (7) 110 acres of developed recreation, and (8) protection of 85 miles of stream. Timber harvest management is included. (USDA-FS-R6-DES-(ADM)-78-13.) (EIS Order No. 80970.)

Greys-Salt River planning unit, Bridger-Teton National Forest, Lincoln County, Wyo., September 1: Proposed is a land management plan for the Greys Salt River planning unit located in Bridger-Teton National Forest, Lincoln County, Wyo. Alternatives

for the management plan include emphasis on: (1) Dispersed recreation with recommendation for wilderness study for roadless areas, (2) dispersed recreation with mini-

width. Adverse effects include the elimination of most of the benthic populations occupying the affected areas. About 242 acres

placement of riprap, and (5) recreational parks and trails. In addition, the existing 0.4-mile diversion channel in Ellicott Creek

tion and Management Act of 1976 (Pub. L. 94-265). This Act extends jurisdiction over fishery resources and establishes a program

water uses in some parts of Maryland's coast while encouraging development in other parts. Maryland coastal area can be divided into two distinct regions; the Atlan-

for the management plan include emphasis on: (1) Dispersed recreation with recommendation for wilderness study for roadless areas, (2) dispersed recreation with minimum development and no wilderness study of roadless areas, (3) noncommodity key values, (4) commodity key values, (5) balance of all key values (proposed plan), and (6) commodity production regardless of key values. (USDA-FS-R4-DES-ADM-78-8.) (EIS Order No. 80973.)

Draft Supplement

Huston Park land management plan, Medicine Bow National Forest, Carbon County, Wyo., September 1: The statement supplements a final EIS filed in September 1977 concerning a land management plan for the 63,560-acre Huston Park unit located on the Hayden district of the Medicine Bow National Forest, Carbon County, Wyo., the selected alternative has been changed and features: (1) Division of unit into six management units, (2) recreational use, (3) management of stands of trees, (4) domestic livestock use, and (5) wildlife habitat management. Ten alternatives are considered. (USDA-FS-R2-SFES (ADM) FY-77-02.) (EIS Order No. 80974.)

U.S. ARMY CORPS OF ENGINEERS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attention: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Kaunakakai Harbor, Molokai, Hawaii, Maui County, Hawaii, August 29: The proposed project plan consists of a deep draft harbor at Kaunakakai Harbor, Maui County, Island of Molokai, Hawaii, capable of serving future waterborne commerce needs of Molokai. Harbor improvements would include general navigational features comprising and entrance channel, harbor basin, protective structures, necessary aids to navigation, and landscaping measures. At present, two harbor concepts are being considered. (Honolulu District.) (EIS Order No. 80946.)

Small Boat Harbor, Olcott Harbor, Niagara County, N.Y. August 31: Proposed is a small boat harbor plan for Olcott Harbor located in Niagara County, N.Y. The plan would provide two breakwaters, one to the west which would protect the existing channel to Eighteen Mile Creek and the other on the ease which would form a large mooring basin and provide sport fishing. Additional mooring spaces would be supplied by the west breakwater. Several new channels will be incorporated with limited dredging which would be disposed of at an upland site. Recreational facilities will be included. (Buffalo District.) (EIS Order No. 80961.)

Final

Mouth of Colorado River, Tex., Matagorda County, Tex., August 29: The proposed project consists of an entrance channel in the gulf, 15 feet deep by 200 feet wide, protected by jetties. The proposed east jetty is a weir type, designed to pass littoral material into an impoundment basin for periodic transfer to the down-drift beach. from the gulf inland to its connection with the gulf Intracoastal Waterway (GIWW), the proposed channel will be dredged to 12 feed in depth and 100 feet in width. Adverse effects include the elimination of most of the benthic populations occupying the affected areas. About 242 acres of terrestrial wildlife habitat will be removed or modified. (Galveston District.) Comments made by: EPA, DOI, DOC, AHP, HEW, USDA, DOT, and State agencies. (EIS Order No. 80949.)

U.S. 321 Highway, Watauga County, N.C., Watauga County, N.C. August 30: Proposed is the improvement of the existing two-land U.S. 321 Highway by widening to a basic four-lane highway. The improvement is 5.3 miles in length between Boone and Blowing Rock in Watauga County, N.C. Widening of the highway will require channel changes of Middle Fork Creek, a tributary of the South Fork of the new river. The channel involves 3,550 feet of the stream. Widening of U.S. 321 will require reconstruction of 500 feet of the Blue Ridge Parkway and a new bridge 200 feet in length which carries parkway traffic over U.S. 321. (Huntington District.) (FHWA-NC-EIS-75-07-F.) Comments made by: EPA, DOI, AHP, HEW, State and local agencies, groups, individuals, and businesses. (EIS Order No. 80951.)

GATX Corp. terminal facility, Delaware River, Gloucester County, N.J., August 30: The General American Transportation Corp. (GATX) has proposed to construct a terminal for the storage and transfer of bulk petroleum products on a 400+ acre tract in West Deptford, N.J. Plans include construction of a tanker and barge docking facility, a tank farm site, a maintenance building, and an office. The initial utilization of tank storage will be for No. 2 fuel oil, naphtha, and methanol. Dredging will result in a temporary increase in turbidity, evaporation losses of product will add to air pollution, and there will be some increase in the chance of a chemical or oilspill into the Delaware. (Philadelphia District.) Comments made by: DOT, HUD, USDA, DOI, DOC, EPA, State and local agencies, and businesses. (EIS Order No. 80956.)

Texas City Channel (Industrial Canal), Galveston, Galveston County, Tex., September 1: The propose action consists of widening of the existing main turning basin, relocation of the basin 85 feet to the east, deepening and widening the industrial canal, deepening of the turning basin at the head of the center of the Industrial Canal to 40 feet, and easing of the bend at the entrance to the industrial canal. All dredging will be accomplished by hydraulic pipeline dredge with dredged material disposal on Snake Island and in adjacent areas of Galveston Bay. Adverse effects include destruction or disturbance of some fish and bottom dwelling organisms, temporart increases in turbidity, and resuspension of toxic materials in the vicinity of the dredge. (Galveston.) Comments made by: DOI, DOC, EPA, CGD, and State and local agencies. (EIS Order No. 80976.)

Draft supplement

Ellicott Creek, flood protection and recreation, Erie County, N.Y., August 30: Proposed is a flood management plan for the Lower Ellicott Creek Basin which will consist of a combination of a major channelization-diversion channel for the towns of Amherst and Tonawanda, Erie County, N.Y. The project will feature: (1) Approximately 1.7 miles of major channelization, (2) construction of a new channel in addition to two diversion channels totaling 1.6 miles, (3) bridge modification and construction, (4) replacement of riprap, and (5) recreational parks and trails. In addition, the existing 0.4-mile diversion channel in Ellicott Creek Park connecting Ellicott and Tonawanda Creeks will be widened. (Buffalo District.) (EIS Order No. 80957.)

Flood control improvements, South Harrisburg, Dauphin County, Pa., September 1: This statement supplements a draft EIS filed in August 1977 concerning flood protection for Paxton Creek and Susquehanna River located in South Harrisburg, Dauphin County, Pa. Features of the proposal include: (1) A 12-foot high flood wall, (2) channel changes and construction of a detention reservoir on Asylum Run, and (3) sizing of Paxton Creek to accommodate the 100-year floodflow as modified by the detention reservoir. Recreational fish and wildlife improvements are associated with project. (Baltimore District.) (EIS Order No. 80965.)

Final supplement

Surfside-Sunset and Newport Beach, Orange County (S-2), Orange County, Calif., August 30: Proposed is a beach nourishment project to restore the eroding Surfside-Sunset Beach shoreline and help maintain the integrity of the Sandy Beach shoreline downcast from Surfside-Sunset Beach. The nourishment beach extends along approximately 6,000 feet of the Surfside-Sunset Sandy Beach shoreline. The nourishment material will be obtained from within a 190-acre subtidal borrow site located about 6,500 feet offshore from the feeder beach. (Los Angeles District.) Comments made by: AHP, DOC, DOI, EPA, DOT, HUD, USN, State and local agencies, and groups. (EIS Order No. 80958.)

CIVIL AERONAUTICS BOARD

Draft

Oakland Service case, docket 30699, August 29: Proposed by the CAB is new and improved authority in following Oakland markets: Albuquerque, Atlanta, Boston, Chicago, Dallas/Fort Worth, Denver, Detroit, Houston, Kansas City, Minneapolis/St. Paul, Philadelphia, Phoenix, Portland, Salt Lake City, and Seattle. This will be considered through the Oakland Service case. The Board has tentatively decided to adopt a policy of awarding permissive, subsidy-ineligible authority in each market where a need for new authority is shown to every fit, willing, and able applicant whose illustrative service proposal indicates that it is prepared to satisfy any part of that need. (EIS Order No. 80947.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-377-4335.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Draft

Groundfish fishery in the Bering Sea, September 1: The proposed action is to adopt and implement a fishery management plan for the groundfish fishery for the Bering Sea/Aleutian Island area under provisions of title III of The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265). This Act extends jurisdiction over fishery resources and establishes a program for their management. The purpose of the plan is to manage the groundfish fishery in the Bering Sea/Aleutian Island area for the optimum yield, and to allocate harvest between domestic and foreign fishermen. (EIS Order No. 80966.)

Butterfish fishery of the northwest Atlantic Ocean, September 1: Proposed is a management plan for the butterfish fishery of the Northwestern Atlantic Ocean. It replaces the preliminary management plan currently in effect. The objectives of the plan are to: (1) Minimize cost of butterfish and consumers; (2) minimize costs of harvesting butterfish; (3) increase employment opportunities for commercial fishermen; (4) prevent exploitation of the resource beyond that level producing the maximum sustainable yield; (5) minimize costs of enforcement and management of the resources; and (6) maximize marine food resources. (EIS Order No. 80967.)

High seas salmon fishery off the coast of Alaska, September 1: The proposed action is to adopt and implement a fishery management plan for the high seas salmon fishery off the coast of Alaska east of 175° east longitude under provisions of title III of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265). This Act extends jurisdiction over fishery resources and establishes a program for their management. The purpose of the management plan is to manage the ocean salmon resources off the coast of Alaska and the troll fishery on those resources. (EIS Order No. 80969.)

Final

Maine's coastal zone management program, Maine, August 28: The proposed action is the approval of a coastal program application by the State of Maine. The State of Maine is requesting administrative grants to improve environmental conditions, land use planning and management and to carry-out research that will result in recommendations to the legislature for improvement of policies concerning tourism, fisheries, heavy industry, etc. Comments made by: EPA, DOE, HUD, DOT, COE, USDA, DOE, FERC, DOD, DOI, State and local agencies, businesses. (EIS Order No. 80939.)

New Jersey coastal management program, New Jersey, August 30: The action proposed is the approval by DOC of the State of New Jersey's coastal zone management program, bay and ocean shore segment. The funding will be used for various actions which include improvement or development of: (1) Mapping programs, (2) preparation of a coastal handbook, (3) educational and information programs, (4) energy facility siting criteria and policies, (5) beach and waterfront area access, and (6) coastal management enforcement and monitoring programs. Comments made by: DOE, HUD, DOT, DOD, DOC, USDA, DOI, EPA, USA, FERC, NRC, State and local agencies, groups, individuals and businesses. (EIS Order No. 80959.)

Maryland coastal management program, Maryland, August 30: It is proposed that the assistant administrator approve the coastal zone management program for the State of Maryland. Approval would permit implementation grants to be awarded to the State, and require that Federal actions be consistent with the program. The State will condition, restrict, or prohibit land and water uses in some parts of Maryland's coast while encouraging development in other parts. Maryland coastal area can be divided into two distinct regions; the Atlantic coast area which has a shoreline of 31 miles and the Chesapeake Bay area which is characterized by over 4,000 miles of greatly indented shoreline. Comments made by: NRC, USA, DOI, DOT, DOD, DOC, HUD, State and local agencies, groups, individuals and businesses. (EIS Order No. 80960.)

Draft Supplement

Squid fishery of the Northwest Atlantic, September 1: Proposed is a management plan for the Northwest Atlantic squid. The following measures have been proposed: (1) Define management unit as all Loligo and Illex under U.S. jurisdiction, (2) set 1979 optimum yield for Illex as 30,000 metric tons and Loligo at 44,000 metric tons, (3) require valid registration or permit and owner or operator when catching, transporting or delivering squid for sale, (4) restricting foreign fishing to designated areas, (5) require appropriate gear restriction for foreign vessels, (6) require filing of periodic reports on squid catches, (7) incentive measures and (6) annual reassessment of U.S. harvesting capacity. (EIS order No. 80968.)

DEPARTMENT OF DEFENSE

Contact: George Q. Cunney, Jr., Acting Chief, Environmental Office, Office of the Assistant Chief of Engineers, Department of the Army, Room 1E676, Pentagon, Washington, D.C. 20310, 202-694-4269.

Final

Joint readiness exercise "Gallant Eagle 79", Florida, September 1: The proposed action, directed by the Joint Chiefs and sponsored by the U.S. readiness command is a large-scale, joint readiness exercise (JRX) scheduled to be conducted on and over the Eglin AFB, in Florida. The primary purpose of the project is to provide a simulated combat environment in which to exercise and evaluate the participating commanders, staffs and forces in joint service tactics, techniques and procedures employed by rangers, infantry, unconventional warfare forces and armored forces operating in lightly forested terrain and by tactical air forces operating in a sophisticated air defense environment. Comments made by: COE, NOAA, DOI, EPA, DOC, DOD, USDA, State and local agencies. (EIS Order No. 80963.)

DEPARTMENT OF ENERGY

Contact: Dr. Robert Stern, Department of Energy, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, 202-566-9760.

Draft

U.S. spent power reactor fuel, August 29: This generic statement proposes environmental input into decisions on whether, and if so, how to implement the 1977 presidential policy on the interim management of spent fuel. This statement considers various options for governmental involvement in the interim management of domestic spent fuel including the alternative of no Federal role outside the regulatory sphere. Also analyzed are the issues of centralized versus decentralized storage of spent fuel and Degree of Federal Management Control. (DOE/EIS-0015-D). (EIS Order No. 80942.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. John Hagan, EIS Coordinator, Environmental Protection Agency, Region IV, 345 Courtland Street NE., Atlanta, Ga. 30308, 404-257-7458.

Final

Cement plant and limestone quarry, permit, Mobile and Monroe Counties, Ala., September 1: The proposed action is the issuance of a NPDES permit and other necessary certificates and permits to the ideal basic industries for construction and operation of a cement plant and limestone quarry. The plant will be located in the Theodore Industrial Park, Mobile County, Ala. on 50 acres and will include docking facility, grinding mills, material storage and mixing piles. The quarry will be located in Monroe County, Ala. on a 4,035 acre site and will consist of in part, docking and loading facilities, clarification basins, limestone storage piles, and fuel tanks. (EPA 904/9-78-005). Comments made by: DOC, HUD, EPA, DOI, DOE, COE, HEW, State and local agencies, groups, individuals and businesses. (EIS Order No. 80972.)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Contact: Mr. Richard H. Brown, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

Draft

Springfield Subdivision, Harris County, Tex., August 28, 1978: Proposed is the issuance of HUD home mortgage insurance as applied for by the First General Realty Corp., of Houston for the Springfield subdivision located in Harris County, Tex. When completed the subdivision, which encompasses approximately 515.3 acres of land, is expected to consist of about 1,770 dwelling units. A total of 86 acres have been held in reserve for the following purposes: (1) Commercial (office/retail) use, (2) recreation, (3) apartments, and (4) church facilities. HUD-R06-EIS-37D.) (EIS Order No. 80936.)

Westbourne subdivision, Harris County Tex., August 29, 1978: The proposed action concerns the issuance of HUD home mortgage insurance for the Westbourne subdivision located in Harris County, Tex. The subdivision is located on 1,500 acres of land and when completed, in approximately 12 years, will contain approximately 7,200 dwelling units. Also included as part of the subdivision are shopping and recreation facilities. (HUD-R06-EIS-7-41D.) (EIS Order No. 80941.)

Paddock subdivision, Harris County, Tex., August 29, 1978: Proposed is the issuance of HUD home mortgage insurance for the Paddock subdivision located in Harris County, Tex. When completed, the subdivision, which encompasses approximately 850 acres, is expected to consist of approximately 3,815 single family and patio homes. Also included are shopping and recreation facilities. (HUD-R06-EIS-39-D.) (EIS Order No. 80944.)

Stone Creek subdivision, Harris County, Tex., August 29, 1978: Proposed is the issuance of HUD home mortgage insurance for the Stone Creek subdivision located in Harris County, Tex. The subdivision encompasses 316 acres of land and will be developed with primarily single-family residential and some patio homes totaling approxi-

mately 1,319 units. When completed, the subdivision is expected to house approximately 4,466 people. (HUD-R06-EIS-78-40.) (EIS Order No. 80950.)

phase II, a single high-rise structure containing 302 units of 10.5 acres. (HUD-R05-EIS-77-14F.) Comments made by: FPC, USDA, State and local agencies, businesses. Comments made by: AHP, USDA, DOC, DOE DOI DOT, EPA, FERC, State and local agencies. (EIS Order No. 80964.

on the east. The project lengths of these alignments range from approximately 7.3 miles to 8.1 miles. (FHWA-FLA-EIS-78-5-

FEDERAL COMMUNICATIONS

BMPTT-1011 (W59AH), Allentown and Bolivar Relay, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change primary TV station to

mately 1,319 units. When completed, the subdivision is expected to house approximately 4,466 people. (HUD-R06-EIS-78-40.) (EIS Order No. 80950.)

Homestead planned community, Spokane County, Wash., August 30, 1978: Proposed is the issuance of HUD home mortgage insurance for the Homestead planned community located in Spokane County, Wash. The development will encompass 1,175 acres of land and will consist of community shopping facilities, an industrial park and campus, areas for institutional services, a 2,534-unit residential community, and public services including recreational and educational facilities. (HUD-R10-EIS-78-2D.) (EIS Order No. 80955.)

Final

Bear Creek Village subdivision, Harris County, Tex., August 28: The proposed action is for the Department of Housing and Urban Development to accept for HUD/FHA mortgage insurance purposes the 662-acre Bear Creek Village subdivision located in Harris County, Tex. When completed in approximately 5 years, the subdivision will contain approximately 1,846 single-family homes plus some attached single-family and multifamily housing, and shopping and recreational facilities. Adverse impacts include the loss of agricultural land and an increased demand for fossil fuels through heavy dependence on the automobile for transportation. (HUD-R06-EIS-25F.) Comments made by: EPA, COE, USDA, DOI, State agencies. (EIS Order No. 80933.)

Park Meadows subdivision, Deer Park, Harris County, Tex., August 28: The proposed action is for the Department of Housing and Urban Development to accept for HUD-FHA home mortgage insurance purposes under section 203(b) of title II of the National Housing Act of 1934, some 267 acres of land located in the city of Deer Park, Harris County, Tex. It is proposed that this tract of land be developed into a subdivision composed primarily of single-family dwellings (approximately 1,000 units). (HUD-R06-EIS-78-26F.) Comments made by: AHP, USDA, DOI, COE, EPA, State agencies, groups. (EIS Order No. 80934.)

Farmington subdivision, Knoxville, Knox County, Tenn., August 28: Proposed is the development of Farmington subdivision, a 650-lot single-family subdivision in west Knox County, Tenn. It is located in a sector of Knox County that is growing rapidly. There is a substantial amount of undeveloped land in this area and may be developed for single-family use. The area chosen for study is bounded on the south by Fort Loudon Lake, on the west by Fox Road, on the north by Kingston Pike and Westland Drive and on the east by Wright Ferry Road. The project will be developed on about 310 acres with 85 acres being developed under the early start procedures. (HUD-R04-EIS-77-18F.) Comments made by: EPA, DOI, USDA, HEW, AHP, TVA, DOC, GSA, DOE, State and local agencies. (EIS Order No. 80935.)

Oakland Park Towers development, Troy, Oakland County, Mich., August 28: Oakland Park Towers is proposed for a 21-acre site in southeast Troy, Oakland County, Mich. The project will ultimately contain 800 units, and have a resident population of about 1,500 persons. The current HUD proposal is to obtain approval of mortgage insurance under section 23 of the Housing Act for phase II, a single high-rise structure containing 302 units of 10.5 acres. (HUD-R05-EIS-77-14F.) Comments made by: FPC, USDA, State and local agencies, businesses. (EIS Order No. 80938.)

Cherry Lane Village, Meridian, Ada, County, Idaho, August 29: The action involved is the approval by HUD of an application for mortgage insurance purposes concerning development of Cherry Lane Village, Meridian City, Ada County, Idaho, by the Leaultt Nupacific Co. The planned residential community will have a land area of 330 acres and will include 880 detached and attached single-family homes, 180 units of multifamily homes, 6 acres of commercial area, and a golf course. The development will provide housing for approximately 1,100 families. (HUD-RIO-EIS-78-3F.) Comments made by: COE, AHP, DOI, State agencies. (EIS Order No. 80945.)

Piper's Meadow subdivision, Harris County, Tex., August 29: Proposed is the granting of HUD-FHA mortgage insurance for the development of the 282-acre Piper's Meadow subdivision located in Harris County, Tex. The proposed subdivision will contain approximately 1,000 single-family homes shopping facilities and recreational facilities. Adverse impacts include the loss of agricultural land and an increased demand for fossil fuels through heavy dependence on the automobile for transportation. (HUD-R06-EIS-78-29F.) Comments made by: USDA, COE, EPA, DOI, State agencies, groups. (EIS Order No. 80948.)

BUREAU OF LAND MANAGEMENT

Draft

1979 Outer Continental Shelf oil and gas lease sale, southern California, September 1: Proposed is the leasing action for 217 (1,141,818 acres) of Outer Continental Shelf lands in southern California. The tracts are located in the following six general areas offshore: Santa Barbara Channel, Santa Rosa, Santa Barbara Island, San Pedro Bay, Tanner-Cortes, Dana Point-San Diego. Five alternatives are considered which include: (1) Hold the sale in modified form, (2) alternate development scenarios, (3) delay sale, (4) withdraw the sale, and (5) alternate local government stipulations. (EIS Order No. 80975.

Final

Development of coal resources, southwestern Wyoming, Lincoln, Sweetwater, and Unita Counties, Wyo., September 1: The proposed action involves the approval of five coal mining and reclamation plans on existing leases and the mining issuance of right-of-way necessary to develop these five proposed coal mines. These five mines are North Block Mine, Twin Creek Mine, South Haystack Mine, Long Canyon Mine, and Black Butte Mine. Surface ownership on the five proposals include 32,068 acres of public land, 45,259 acres of private land, and 4,207 acres of State land totaling 81,354 project acres containing 357 million tons of recoverable coal reserves. The geographic region consists of 6.3 million acres, includes all of Unita and portions of Lincoln and Sweetwater Counties, Wyo. (FES-78-20.) Comments made by: AHP, USDA, DOC, DOE DOI DOT, EPA, FERC, State and local agencies. (EIS Order No. 80964.

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Assistant Director for Environmental Projects, P-518, Washington, D.C. 20555, 301-492-8446.

Final Supplement

Allens Creek nuclear generating station unit No. 1, Austin County, Tex., August 30: The proposed action is the issuance of a construction permit to the Houston Lighting & Power Co. for the construction of Allens Creek nuclear generating station, unit 1, located in Austin County, Tex. This final supplemental statement has been prepared to update a FEIS filed with CEQ in November 1974. Major changes in the station design include: (1) Reduction in gross electrical generating capacity; (2) reduction in the number and size of associated facilities; (3) reduction in the cooling lake surface area; (4) addition of an external dam along the northern lake and (5) redesign of waste systems. (NUREG-0470.) (EIS Order No. 80952.)

DEPARTMENT OF TRANSPORATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Malecon Avenue, PR-14, Ponce, P.R., August 28, 1978: This proposed action involves the extension of Malecon Avenue, PR-14 from its present terminus at the PR-2 bypass northerly to an interchange with existing Arenas Avenue, PR-14. The project, approximately 3.5 kilometers in length, is located in the municipality of Ponce on the South Central coast of Puerto Rico. The Proposed Highway will be a six-lane divided highway, with restricted access at specific intersections and interchanges. Just north of PR-2 bypass, Malecon Avenue will bridge over the recently constructed Rio Portugus diversion channel. A bridge permit may be required, pending determination of jurisdiction by the U.S. Coast Guard. (FHWA-PR-EIS-78-01-D.) (EPA Order No. 80937.)

WI-31, WI-20 to CTH "MM" section, Racine County, Wisc., August 29, 1978: Proposed is the reconstuction of WI-31 to WI-20 to "MM" in Racine County, Wis. Design alternates to implement the proposed action are available and, while requiring additional right-of-way; the existing roadway alignment would be used. Alternate A features twin 36-foot roadways separated by a 24-foot raised median and a curb and gutter system. Alternate B would provide twin 23-foot roadways without a median separation, 6-foot shoulders, and an open ditch drainage system. (FHWA-WISC-EIS-78-02-D.) (EIS Order No. 80943.)

Port Everglades Expressway, construction, Broward County, Fla.: August 30, 1978; This proposal concerns the construction of the Port Everglades Expressway which would extend approximately 8 miles from FL-817 (University Drive) to the proposed FL-A1A in Broward County, Fla. The facility is proposed as a limited access, four and six-lane expressway in the FL-84 corridor. Five alternatives are considered, all of which extend from FL-817 on the west to FL-A1A on the east. The project lengths of these alignments range from approximately 7.3 miles to 8.1 miles. (FHWA-FLA-EIS-78-5-D.) (EIS Order No. 80954.)

Final

FAP Route 409, O'Fallon to Sandoval and St. Clair, Clinton, and Marion Counties, Ill., September 1, 1978: Proposed is the completion of a freeway system known as F-409, which begins at I-64 near O'Fallon, generally parallels U.S. Route 50 across the State, and connects to an already existing freeway in Indiana near Vincennes. It intersects with I-64 on the west, I-57 in the middle, and F-411 near the eastern border of the State. Between I-64 and I-57, the portion from U.S. Route 51 to I-57 has received design approval. This statement covers the remaining portion in this area, that being from I-64 to U.S. Route 51. (FHWA-ILL-EIS-76-05-F.) Comments made by: HUD, DOI, EPA, USDA, COE, DOC, FPC, AHP, DOT, HEW, State and local agencies. (EIS Order No. 80971).

Draft Supplement

FL-9/I-95, from FL-74 to canal C-23, Palm Beach and Martin Counties, Fla., August 30, 1978: This statement supplements a final EIS filed in October 1972. Proposed is the construction of a six-lane rural highway, approximately 34 miles in length, located in Palm Beach and Martin Counties, Fla. The project would be a divided highway with full control of access. It would also be the last link with I-95 along the east coast of Florida, and, if constructed, would provide the user with non-stop travel from north Florida to Miami. Six alternatives are considered. (FHWA-FLA-EIS-78-1-DS.) (EIS Order No. 80953.)

INFORMATION REPORT

The EPA has received the following report which provides supplemental information on proposals which have fulfilled the NEPA process. Copies of the report are available from the originating agency upon request.

U.S. Army, Corps of Engineers, Dr. C. Grant Ash, Office of Environmental Policy Department, Attention: DARN-CWR-P, Office of the Chief of Engineers, 1000 Independence Avenue, SW., Washington, D.C. 20310, 202-693-6795

EPA No., Date Received and Title

80940, August 14, 1978, Supplemental Report, Theodore Ship Channel and Barge Channel Extension, Mobile Bay, Alabama.

OFFICIAL CORRECTION

The EPA published a notice of availability in the FEDERAL REGISTER dated August 7, 1978, for the following EIS as a Housing and Urban Developing project.

Nollwood Development Corp., Austin Lake, Portage, Mich. (EIS Order No. 80816.)

This EIS was prepared by the U.S. Army Corps of Engineers.

FEDERAL COMMUNICATIONS COMMISSION

TELEVISION TRANSLATOR APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: September 11, 1978.

Released: September 13, 1978.

By the Chief, Broadcast Facilities Division:

Notice is hereby given pursuant to § 1.572(c) of the Commission's rules, that on November 2, 1978, the television translator applications listed in the attached appendix will be considered as ready and available for processing. Pursuant to §§ 1.227(b)(1) and 1.519(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on November 1, 1978, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington D.C., by the close of business on November 1, 1978. The attention of prospective applicants is directed to the fact, that some contemplated proposals may not be eligible for consideration with an application appearing in the attached appendix by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.572(c) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any ending television translator application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

UHF TV TRANSLATOR APPLICATIONS

BMPTT-1009 (W56AU), Wellsville and Scio, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1010 (W56AV), Rushford, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Add Houghton, N.Y., to present principal community, increase output power to 100 watts, change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1011 (W59AH), Allentown and Bolivar Relay, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1012 (W62AR), Andover, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change frequency to Channel 61, 752-758 MHz, change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1013 (W62AS), Friendship, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Add Belmont, N.Y. to present principal community, increase output power to 100 watts, change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1014 (W64AJ), Whitesville, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change primary TV station to WXXI, Channel 21, Rochester, N.Y, increase output power to 10 watts.

BMPTT-1015 (W65AI), Bolivar and Richburg, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Change primary TV station to WXXI, Channel 21, Rochester, N.Y.

BMPTT-1016 (W65AJ), Angelica, N.Y., Board of Cooperative Educational Services of Allegany County. Req: Add Belfast, N.Y. to present principal community, increase output power to 100 watts, change primary station to WXXI, Channel 21, Rochester, N.Y.

[RM-3030]

FM BROADCAST STATIONS

Table of Assignments, Catonsville and Baltimore, Md.; Memorandum Opinion and Order; Denying Petition for Rulemaking

ADOPTED: September 12, 1978.

RELEASED: September 13, 1978.

By the Chief, Broadcast Bureau:

1. Key Broadcasting Corporation, licensee of Station WKTK(FM) in Catonsville, Maryland, has petitioned to amend the FM table of assignments, 47 CFR 73.202, by reallocating FM channel 289 from its present community of license to Baltimore, Md.[1] Key asserts that Catonsville, an unincorporated Baltimore suburban community of some 52,000 persons,[2] has no individualized needs or interests distinguishing it from Greater Baltimore, lacks any significant body of citizens interested in reviving "community spirit," and—for example—possesses ten shopping centers but no major industry. Key recites a series of newspaper articles spanning several decades which purport to describe the absorption of Catonsville into Baltimore, points out that the station was originally licensed to a minister unable to find an unoccupied FM channel in Baltimore, and concludes that the earlier relocation of its transmitter and studio facilities to their present site in the city of Baltimore should now be accompanied by reallocation of its channel to that community.

2. We are not persuaded of the demise of Catonsville as a recognizable community, albeit perhaps a residential "bedroom" community. The petitioner has recited at some length newspaper articles which, while of historical interest, hardly establish the identity of the needs and interests of Catonsville and Baltimore. Indeed, apart from the conclusory statements in newspaper articles, petitioner has made no attempt to support its general assertion that the needs and interests of the two communities coincide. Such agreement would not be dispositive of the allocation question, but absent such a showing we have no reason to assume that a sizable suburban residential community has the same needs and interests of a diverse city such as Baltimore which comprises industry, commerce, shipping and residential elements. Far less would we assume the disappearance of a community on such a basis. Indeed, the most recent newspaper article which addresses the "community" question comments that the label fit Catonsville at that time—1963, 2 years after station WKTK(FM) first went on the air.

3. Station WKTK(FM)'s origins are traced by petitioner to a 1961 application filed by Rev. J. Stewart Brinsfield, who operated the station from 1962 until 1968. While explaining that Brinsfield applied for a Catonsville channel because none were available in Baltimore, the petition does not even address the showing of Catonsville as an independent community with identifiable needs and interests which necessarily underlay Brinsfield's initial application and subsequent Commission grants of renewed operating authority. Nor are there journalistic accounts of Catonsville's asserted demise postdating the 1963 story said to characterize it as a community. Petitioner's conclusory reference to the allocation of channel 289 to Catonsville as "an historical accident" created by use of the protected service contour system of allocations does not address the present status of the community, or distinguish Catonsville from numerous other communities whose present broadcast channels were allocated by that method.

4. As noted, the equivalence of a community's needs and interests with those of another community has not been established here, and even such identification of similar needs is a far cry from the conclusion that a separate community has ceased to exist. Catonsville may lack certain social components found in Baltimore, where Key is licensee of station WBMD(AM), but this observation by itself simply reaffirms the differences between the communities rather than the demise of the smaller one.[3] Because of our conclusion that Catonsville's demise as an identifiable community has not been established, we do not consider the question of the WKTK(FM) transmitter's failure to encompass Baltimore with a city-grade signal.[4]

5. Accordingly, for the reasons set forth above, the petition for rulemaking filed by Key Broadcasting Corp., RM-3030, is denied.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc. 78-26172 Filed 9-15-78; 8:45 am]

[1] Key also requests issuance of an order to show cause directing it to establish why its license should not be modified to specify operation on the same channel in Baltimore. This secondary request is mooted by our resolution of the petition for rulemaking. However, it should be noted that while Key requests both a reallocation of channel 289 by rulemaking and a modification of its present license to specify Baltimore as the city of license, the Commission has interpreted the Communications Act to require the opening of such a reallocated channel to competing applications from other interested parties. In effect, this involves a two-step process in which the Commission reassigns a channel and then petitioner and anyone else files an application proposing to serve this new community. The Commission has indicated an unwillingness to modify in lieu of following this procedure. See amendment of section 73.606(b), Television Table of Assignments (Riverside and Santa Ana, Calif.), 65 FCC 2d 920, 923-924 (1977) and *Ashbacker Radio Corp.* v. *FCC*, 326 U.S. 327 (1945).

[2] 1964 estimate by the Metropolitan Baltimore Chamber of Commerce for the Catonsville-Ellicott City area.

[3] No comparison of the needs and interests of the two communities as determined by Key's ongoing ascertainment efforts was submitted as part of the petition.

[4] The only comments on the petition were filed by Peter and John Radio Fellowship, Inc., licensee of station WRBS(FM) in Baltimore. They note that the mileage separation between the transmitting facilities of stations WRBS(FM) and WKTK(FM) is presently 8.22 miles, as opposed to the 15-mile separation required by the Commission's rules (47 CFR 73.207). This variance was approved by Commission action several years ago and is not complained of. Rather, Peter and John assert that station WRBS(FM) has been exploring means to improve its signal coverage for several years and is concerned that relicensing station WKTK(FM) to Baltimore would preclude even the possibility of both stations eventually providing full city-grade coverage over their respective communities of license (consistent with the 15-mile separation requirement). Peter and John do not flatly oppose Key's petition, but instead urge the Commission to directly address the potential IF separation problem. These requests are characterized by Key as unrelated to its petition and we agree.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 71, "VHF Automated Radiotelephone Systems".

Notice of 12th meeting Tuesday, October 3, 1978—10 a.m. (full day meeting).

Conference Room A-110, 1229-20th Street, NW., Washington, D.C.

AGENDA

1. Call to Order.
2. Administrative Matters.
3. Presentations and Discussions.

John J. Renner, Chairman SC-71, Advanced Technology systems, Inc., 3426 North Washington Boulevard, Arlington, Va. 22201, phone 703-525-2664.

Special Committee No. 70, "Minimum Performance Standards (MPS)—Marine Loran-C Receiving Equipment".

Notice of 12th meeting Thursday, October 5, 1978—10 a.m. (all day meeting).

Conference Room 7200, Nassif (DOT) Building, 400 Seventh Street SW. (at D Street), Washington, D.C.

AGENDA

1. Call to order; Chairman's report.
2. Administrative matters.
3. Discussion on test standards and procedures.
4. Other business.

Captain Alfred E. Fiore, Chairman, SC-70, U.S. Merchant Marine Academy, Kings Point, New York 11024, phone 516-482-8200.

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La; San Francisco,

UNIFORM SYSTEM OF ACCOUNTS, CC DOCKET NO. 78-196

Public Meeting on Proposed Revisions

SEPTEMBER 7, 1978.

The staff of the Common Carrier Bureau has become aware that some parties have questions on aspects of the notice of proposed rulemaking on the revision of the uniform system of accounts and financial reporting requirements for telephone companies (parts 31, 33, 42 and 43 of the FCC's rules), FCC 78-453 (released July 21, 1978). Therefore, on September 22, 1978, the staff of the Common Carrier Bureau will hold a public meeting in order to respond to questions about the intent of the Notice.

The meeting will be held in Room A-110, 1229 20th Street NW., Washington, D.C., 20554, at 9:30 a.m. Interested persons having questions relating to this docket should submit 6 copies of all questions to Doug Slotten, Room 546, 1919 M Street NW., Washington, D.C., 20554, by close of business on September 19, 1978. Questions not received by this date will not be considered. The meeting will be open to all, irrespective of whether any questions have been submitted. A summary of the meeting will be entered in the record.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

[6730-01]

FEDERAL MARITIME COMMISSION

AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La; San Francisco, Calif.; Chicago, Ill.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by October 9, 1978. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No.: T-5-1(4).
Filing party: Mr. John E. Nolan, Assistant Port Attorney, Port of Oakland, P.O. Box 2064, 66 Jack London Square, Oakland, Calif. 94604.
Summary: Agreement No. T-5-1(4), between the city of Oakland (Port) and Sea-Land Service, Inc. (Sea-Land), modifies the parties' basic agreement providing for the lease of certain land and improvements at Oakland, Calif., to Sea-Land for use as a truck terminal. The purpose of the modification is to enlarge parcel "C" of the leased premises by approximately 56,699 square feet and reduce parcel "E" thereof by approximately 759 squre feet and parcel "F" by approximately 38,978 square feet to provide for the construction of additional improvements made necessary by the revision in the westerly boundary of the demised premises, to increase the land rental for parcel "C" from $1,813.81 to $2,154.02 per month, and to decrease the land rental for parcel "E" from $533.51 to $529.04 per month and parcel "F" from $1,708.53 to $1,474.66 per month.

Agreement No.: T-2590-6.
Filing party: Mr. Francis D. Barrett, Curry & Dolan, 716 Southern Building, Washington, D.C. 20005.
Summary: Agreement No. T-2590-6, between the Albany Port Commission (Port) and United Brands Co. (UBC), modifies the parties' basic agreement providing for the use of certain office space and the preferential use of certain storage space at Transit Shed No. 2, Albany, N.Y. The purpose of the modification is to exercise the fifth option to renew the initial term of the agreement by: (1) Extending the term from December 1, 1978, to November 30, 1979; and (2) increasing the amount of compensation paid to the Port from $25,000 to $26,250.

Agreement No.: T-3155-2.
Filing party: Albert B. Dearden, Deputy Chief, Leases and Operating Agreements Division, Port Authority of New York and New Jersey, One World Trade Center, New York, N.Y. 10048.
Summary: Agreement No. T-3155-2, between the Port Authority of New York and New Jersey (Port) and Maersk Container Service Co., Inc. (Maersk), modifies the basic agreement between the Port and Moller Steamship Co., Inc. (Moller) providing for the 25-year lease of a marine terminal at Port Newark, N.J. The purpose of the modification is to increase the size of the premises, provide for additional contruction, and increase the rental accordingly.

Agreement No. T-3702.
Filing party: H. H. Wittren, Manager, Waterfront Real Estate, Port of Seattle, P.O. Box 1209, Seattle, Wash. 98111.
Summary: Agreement No. T-3702, between Port of Seattle (Port) and Chemical Processors, Inc. (CPI), provides for the 3-year lease of 100 lineal feet of a berthing area located between piers 90 and 91 at Port's terminal 91 complex to be used for the refueling of tugboats and related activities. CPI will build, at its expense, a fence to house its hoses and appurtenances necessary to the fueling operation of various tugs at the premises. As compensation, CPI will pay $1,000 per month as rental, all applicable Port tariff charges and utility charges.

Agreement No. T-3703.
Filing party: Richard L. Landes, Deputy City Attorney, Offices of the City Attorney of Long Beach, City Hall, 333 West Ocean Boulevard, Long Beach, Calif. 90802.
Summary: Agreement No. T-3703, between city of Long Beach (City) and Marine Metals, Inc. (Marine), provides for the 2-year lease to Marine of approximately 211,355 square feet of paved area including 116,403 square feet of warehouse space as described in the agreement. The premises will be used for the storage and distribution of merchandise. As part of the understanding between the parties, it is agreed that Marine will not operate a public terminal or public warehouse on the leased premises in connection with a common carrier by water, as defined in the Shipping Act, 1916. City shall receive as rental for the leased area the sum of $13,000 per month.

Agreement No. T-3705.
Filing party: Richard L. Landes, Deputy City Attorney, Offices of the City Attorney of Long Beach, Harbor Administration Building, P.O. Box 570, Long Beach, Calif. 90801.
Summary: Agreement No. T-3705, between city of Long Beach (City) and Cooper Stevedoring Co. (Cooper), provides for the 2-year nonexclusive, preferential assignment of certain premises located on berths 9, 10, and 201 at pier A in Long Beach, Calif., to be used in the operation of a marine terminal. Cooper does not have the exclusive right to perform stevedoring services upon the leased premises or the sole and exclusive right to operate a shipping terminal at the port. When the premises are not in use by Cooper, City's general manager may, with Cooper's consent, make temporary or secondary assignments to other persons as provided in the Port of Long Beach tariff. All charges assessed by Cooper will be reasonable and conform as nearly as possible with the charges published in the Port of Long Beach tariff and will be subject to review and control by City. As compensation, Cooper will pay all revenue from dockage, wharfage, and other applicable tariff charges accruing from its operations up to a guaranteed minimum tonnage of 137,000 revenue tons for the first year and 182,000 revenue tons for the second year. After the guaranteed minimum tonnage has been reached revenue will be divided as set forth in the agreement.

Agreement No. 10117-4.
Filing party: David C. Jordan, Esq., Billig, Sher & Jones, P.C., Suite 300, 2033 K Street NW., Washington, D.C. 20006.
Summary: Agreement No. 10117-4 would amend article 7 of the U.S. North Atlantic/Spain Rate Agreement to provide that all decisions and actions under the agreement shall be made or taken at meetings, except that decisions and actions on tariff rates (excluding rules and regulations) may alternatively be made or taken outside meetings by the unanimous vote of all parties to the agreement by telephone polls or polls conducted by any other means of communication.

By order of the Federal Maritime Commission.

Dated: September 13, 1978.

JOSEPH C. POLKING,
Assistant Secretary.

[6325-01]

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

OPEN COMMITTEE MEETINGS

Pursuant to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, October 5, 1978.
Thursday, October 12, 1978.
Thursday, October 26, 1978.

The meetings will convene at 10 a.m., and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, D.C.

The Federal Prevailing Rate Advisory Committee is composed of a Chairman, representatives of five labor unions holding exclusive bargaining rights for Federal blue-collar employees, and representatives of five Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the prevailing rate system and other matters pertinent to the establishment of prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Civil Service Commission thereon.

These scheduled meetings will convene in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chairman to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would impair to an unacceptable degree the ability of the Committee to reach a consensus on the matters being considered and disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public on the basis of a determination made by the Chairman of the Civil Service Commission under the provisions of Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of the meeting.

Annually, the Committee publishes for the Civil Service Commission, the President, and Congress a comprehensive report of pay issues discussed, concluded recommendations thereon, and related activities. These reports are also available to the public, upon written request to the Committee Secretary.

Members of the public are invited to submit material in writing to the Chairman concerning Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Secretary, Federal Prevailing Rate Advisory Committee, Room 1338, 1900 E Street NW., Washington, D.C. 20415, 202-632-9710.

JEROME H. ROSS,
Chairman, Federal Prevailing Rate Advisory Committee.

SEPTEMBER 1, 1978.

FEDERAL RESERVE SYSTEM

CENTURY BANCSHARES CORP.

Formation of Bank Holding Company

Century Bancshares Corp., St. Louis, Mo., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1) to become a bank holding company by acquiring 80 percent or more of the voting shares of North St. Louis Trust Co, St. Louis, Mo. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Century Bancshares Corp., St. Louis, Mo., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and 225.4(b)(2) of the Board's regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of North St. Louis Trust Co., St. Louis, Mo. Notice of the application was published on July 22, 1978, in the St. Louis Daily Record, a newspaper circulated in St. Louis, Mo.

Applicant states that the proposed subsidiary would act as agent or broker for the sale of credit life and disability insurance in connection with extensions of credit originated by its subsidiary bank. Such activities have been specified by the Board in section 225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 4, 1978.

Board of Governors of the Federal Reserve System, September 8, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

Office of Education

WOMEN'S EDUCATIONAL EQUITY ACT PROGRAM

Public Meeting on Regulation Issues

AGENCY: Office of Education, HEW.

ACTION: Notice of public meeting on regulation issues under the pending Women's Educational Equity Act of 1978.

SUMMARY: The purpose of this notice is to announce the date, time, and location for a public meeting on regulation issues.

DATE: October 19, 1978, 9 a.m.-12 noon.

ADDRESS: 400 Maryland Avenue SW., Washington, D.C. NASA Auditorium, room 6104, 6th floor.

FOR FURTHER INFORMATION CONTACT:

Dr. Mary Jane Smalley, room 2147, Federal Office Building 6, 400 Maryland Avenue SW., Washington, D.C. 20202, 202-245-2181.

SUPPLEMENTARY INFORMATION: Final regulations (45 CFR Part 160f), were published in the FEDERAL REGISTER at 42 FR 33009 on June 28, 1977. The Women's Educational Equity Act Program is currently operating under these regulations and will continue in fiscal year 1979. Consultations have been held with interested organizations and individuals concerning the pending Women's Educational Equity Act of 1978. In order to gain greater insight into regulation issues and expand public involvement, there will be a meeting to hear and explore additional views on the implementation of the act.

Public Health Service

NATIONAL INSTITUTES OF HEALTH

Statement of Organization, Functions, and Delegations of Authority

Part H, chapter HN (National Institutes of Health) formerly part 8, chapter 8 (41 FR 52724, Dec. 1, 1976) of the statement of organization, functions, and delegations of authority for the Department of Health, Education, and Welfare (40 FR 22859, May 27, 1975, as amended most recently by 43 FR 4114, Jan. 31, 1978), is amended to reflect the retiling of the Baltimore Cancer Research Center Program as the Baltimore Cancer Research Program in the National Cancer Institute. This change is intended to remedy the confusion in identification of extramural grant supported cancer centers and intramural cancer research programs. There is no change in organizational structure.

Section HN-B, Organization and Functions, is amended as follows: Under the heading National Cancer Institute (HNC), delete the title, Baltimore Cancer Research Center Program (HNC63) and insert the title, Baltimore Cancer Research Program (HNC63).

Dated: September 8, 1978.

LEONARD D. SCHAEFFER,
Assistant Secretary for Management and Budget.

DEPARTMENT OF THE INTERIOR

National Park Service

BOSTON NATIONAL HISTORICAL PARK ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, Pub. L. 92-463, that a meeting of the Boston National Historical Park Advisory Commission will be held at 11 a.m. on October 3, 1978, in the fourth floor conference room at 15 State street, Boston, Mass.

The Commission was established by Pub. L. 93-431 to advise the Secretary of the Interior on matters relating to the development of the Boston National Historical Park.

The members of the Advisory Commission are as follows:

Mr. Richard Berenson, Chairman, Brookline, Mass.
Dr. Evelyn Murphy, Lexington, Mass.
Mr. Byron Rushing, Boston, Mass.
Mrs. Katharine Kane, Boston, Mass.
Mr. Maurice O'Shea, Charlestown, Mass.
Ms. Gail Seybold, Boston, Mass.
Mr. Guy Beninati, Boston, Mass.

The matters to be discussed at this meeting include:

1. New initiatives in interpretation.
2. Transportation of visitors by land and/or water.
3. Boundary adjustments at the Charlestown Navy Yard.
4. Progress report on the water-Chelsea connector and gate 4 roadway projects as they affect the navy yard.
5. Progress report on cooperative agreements.
6. Evaluation of 1978 visitor season.
7. Discussion of park administration and operations.

The meeting will be open to the public. However, facilities and space are limited, and it is expected that not more than 25 persons will be able to attend the session. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Hugh D. Gurney, Superintendent, Boston National Historical Park at 617-223-1128. Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the office of the Superintendent, 15 State Street, Boston, Mass.

Dated: September 5, 1978.

JACK E. STARK,
Regional Director, North Atlantic Region.

[4310-70]

INTENTION TO EXTEND CONCESSION CONTRACT

Pursuant to the provisions of section 5 of the act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice (October 18, 1978), the Department of the Interior, through the Director of the National Park Service, proposes to extend the concession contract with LeConte Lodge, Inc., authorizing it to continue to provide concession facilities and services for the public at Great Smoky Mountains National Park for a period of one (1) year from January 1, 1979, through December 31, 1979.

It has been determined that the proposed extension of this contract does not have potential for causing significant environmental impact and there-

fore preparation of an environmental assessment is not required.

The foregoing concessioner has performed its obligations to the satisfac-

quired due to a substantially greater export demand in 1978 than in previous years. In the case of ethylmorphine, an increased U.S. consumption

fore preparation of an environmental assessment is not required.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which expires by limitation of time on December 31, 1978, and therefore, pursuant to the act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. This provision, in effect, grants LeConte Lodge, Inc., as the present satisfactory concessioner, the right to meet the terms of responsive offers for the proposed new contract and a preference in the award of the contract, if, thereafter, the offer of LeConte Lodge, Inc., is substantially equal to others received. The Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before October 18, 1978.

Interested parties should contact the Assistant Director, Special Services, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: September 7, 1978.

DANIEL J. TOBIN, Jr.,
Director,
National Park Service.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CONTROLLED SUBSTANCES IN SCHEDULE II

Proposed 1978 Revised Aggregate Production Quotas—Anileridine and Ethylmorphine

Section 306 of the Controlled Substances Act of 1970 (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas for all controlled substances in schedule I and II each year. This responsibility has been delegated to the Administrator of the Drug Enforcement Administration pursuant to § 0.100 of Title 28 of the Code of Federal Regulations.

On May 12, 1978, a notice of the final aggregate production quotas for anileridine and ethylmorphine was published in the FEDERAL REGISTER (43 FR 20565). Since the finalization of these quotas, DEA has been advised by the sole U.S. manufacturer of anileridine and ethylmorphine that additional production of these substances will be necessary in 1978. In the case of anileridine, increased production is required due to a substantially greater export demand in 1978 than in previous years. In the case of ethylmorphine, an increased U.S. consumption in 1978 relative to 1977 requires increased production. In order to allow additional production in 1978, the aggregate production quotas for anileridine and ethylmorphine must be revised. Therefore, the Administrator of the Drug Enforcement Administration, under the authority vested in the Attorney General by section 306 of the Controlled Substances Act of 1970 (21 U.S.C. 826) and delegated to the Administrator by § 0.100 of Title 28 of the Code of Federal Regulations does hereby propose the following changes of the aggregate production quotas for 1978 for anileridine and ethylmorphine expressed in grams of anhydrous base:

[Production quota]

Basic class	Previously finalized 1978 aggregate	Proposed revised 1978 aggregate
Anileridine	234,000	272,000
Ethylmorphine	23,000	30,000

All interested persons are invited to submit their comments and objections in writing regarding this proposal. Comments and objections should be submitted in quintuplicate to the Administrator, Drug Enforcement Administration, U.S. Department of Justice, Washington, D.C. 20537, Attention: DEA Federal Register Representative and must be received by October 23, 1978. If a person believes that one or more issues raised by him warrant a full adversary-type hearing, he should so state and summarize the reasons for his belief.

In the event that comments or objections to this proposal raise one or more issues which the Administrator finds, in his sole discretion, warrant a full adversary-type hearing, the Administrator shall order a public hearing in the FEDERAL REGISTER summarizing the issues to be heard and setting the time for the hearing.

Dated: September 11, 1978.

PETER B. BENSINGER,
Administrator.

[7715-01]

POSTAL RATE COMMISSION

[Docket No. MC78-2]

MAIL CLASSIFICATION SCHEDULE, 1978

Notice of U.S. Postal Service Filing of a Request for a Recommended Decision on Establishing a Third-Class Carrier Route Presort Subclass

SEPTEMBER 13, 1978.

Notice is hereby given that on September 8, 1978, the U.S. Postal Service (Postal Service), pursuant to section 3623 of the Postal Reorganization Act (39 U.S.C. 3623), filed a request with the Postal Rate Commission for a recommended decision on establishing a third-class carrier route presort subclass. This filing has been assigned docket No. MC78-2.

The Postal Service states that its request is filed in accordance with the Commission's rules of practice and contains such information and data which explain the nature, scope, significance, and impact of the proposed carrier route presort subclass. The Postal Service further states that the proposed subclass will be available for mailings of bulk third-class regular rate matter which, inter alia, consists of 10 pieces for each carrier route and a minimum of 2,000 pieces per mailing. Mail qualifying for this subclass will be charged a rate that is 1.5 cents per piece less than nonqualifying bulk third-class regular rate matter. According to the Postal Service, this rate differential is intended to provide for mail service which: (1) Meets the needs of the different categories of mail users, and (2) recognizes cost savings associated with carrier route presorted mail. In addition, the Postal Service made a separate proposal relating to merchandise samples. Specifically, merchandise samples that otherwise fail to meet the size requirements for carrier route presorted mail may benefit from the proposed 1.5 cents discount if detached labels sorted to carrier route are provided.[1]

Hearings will be held on the proposals submitted by the Postal Service in docket No. MC78-2. Any person desiring to be heard with reference thereto and to become a party to the proceeding, or to participate as a party in any hearing thereon, should file a petition for leave to intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268, on or before September 29, 1978, and must be in accordance with § 20 of the Commission's rules of practice (39 CFR 3001.20). We direct specific attention to § 20(b) which provides that petitions for leave to intervene shall affirmatively state whether or not petitioner requests a hearing or, in lieu thereof, a conference; and further, whether or not the petitioner intends to participate actively in the hearing.[2] Alternatively, persons seeking limited participation, but who do not wish to become parties may, on or before September 29, 1978, file a written request for leave to be heard as a "limited participator," pursuant to § 19a of the Commission's rules of practice (39 CFR 3001.19a). In addition, persons wishing to express their views informally, and not desiring to become a party or limited participant, may file comments pursuant to § 19b of the Commission's rules, 39 CFR § 3001.19b.

The request of the Postal Service for a recommended decision on establishing a third-class carrier route presort subclass is on file with the Commission and is available for public inspection during regular business hours.

DAVID F. HARRIS,
Secretary.

[FR Doc. 78-26274 Filed 9-15-78; 8:45 am]

[1] The specific changes proposed by the Postal Service are set out, in legislative format, in attachment A to the Service's request.

[2] In this regard, parties who intend to participate actively in this proceeding are encouraged informally and promptly to inform the Postal Service of desired preliminary clarifications of the Postal Service's presentation wherever the participant believes such clarification will expedite this proceeding.

[1] The proposed additions to the DMCS appear in attachment A to the Service's request.

[7715-01]

[Docket No. MC78-3]

MAIL CLASSIFICATION SCHEDULE, 1978

Notice of Filing of Request of the U.S. Postal Service for a Recommended Decision on Establishing an Electronic Computer-Originated Mail Subclass

SEPTEMBER 13, 1978.

Notice is hereby given that on September 8, 1978, the U.S. Postal Service (hereinafter Postal Service or Service), pursuant to 3623 of the Postal Reorganization Act (39 U.S.C. 3623), filed a request with the Postal Rate Commission for a recommended decision on a proposed change to the domestic mail classification schedule (DMCS). The request involves creation of a new subclass of first-class mail to be known as electronic computer-originated mail (ECOM).[1] This request has been assigned docket No. MC78-3.

The Postal Service states that if its request for a waiver of certain filing requirements is granted, its request will be in accordance with the Commission's rules of practice applicable to requests for changes in the domestic mail classification schedule (39 CFR 3001.61-3001.64). It further states that ECOM would appear best suited for businesses with large mailing requirements. ECOM is designed to provide highly reliable 2-day service for computer-originated messages. These messages would be electronically transmitted via a communications common carrier designated to provide the electronic switching requirements. Messages would be received at a post office close to the addressee on high-speed printers and would then be automatically burst, folded, inserted, and sealed in envelopes. From there, the messages would be entered in the mailstream and processed for delivery with first-class mail.

Hearings will be held on the proposal submitted by the Postal Service in docket MC78-3. Any person desiring to be heard with reference thereto and to become a party to the proceeding, or to participate as a party in any hearing thereon, should file a petition for leave to intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268, on or before September 29, 1978, and must be in accordance with § 20 of the Commission's rules of practice (39 CFR 3001.20). We direct specific attention to § 20(b) which provides that petitions for leave to intervene shall affirmatively state whether or not petitioner requests a hearing or, in lieu thereof, a conference; and further, whether or not the petitioner intends to participate actively in a hearing.[2] Alternatively, persons seeking limited participation, but who do not wish to become parties may, on or before September 29, 1978, file a written request for leave to be heard as a "limited participator," pursuant to § 19a of the Commission's rules of practice (39 CFR 3001.19a). In addition, persons wishing to express their views informally, and not desiring to become a party or limited participant, may file such a statement pursuant to § 19b of the Commission's rules, 39 CFR 3001.19b.

The request of the Postal Service for a recommended decision on changes in the DMCS is on file with the Commission and is available for public inspection during regular business hours.

DAVID F. HARRIS,
Secretary.

[FR Doc. 28275 Filed 9-15-78; 8:45 am]

[2] Parties who intend to participate actively in this proceeding are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Postal Service's presentation which each participant believes necessary in order to expedite this proceeding.

[7715-01]

[Docket No. MC78-1]

PARCEL POST CLASSIFICATION MATTERS, 1978

Notice of U.S. Postal Service Filing of a Request for a Recommended Decision on Changes in the Domestic Mail Classification Schedule

SEPTEMBER 13, 1978.

Notice is hereby given that on September 8, 1978, the U.S. Postal Service (Postal Service), pursuant to chapter 36 of the Postal Reorganization Act (39 U.S.C. § 3601 et seq.), filed a request with the Postal Rate Commission for a recommended decision on certain proposed changes in the parcel post mail category. This filing has been assigned docket No. MC78-1.[1]

The specific changes proposed by the Postal Service for the parcel post mail category are set out, in legislative format, in attachment A to the Service's request. In its filing, the Postal Service states that the request complies with all the Commission's rules of practice which are applicable, and that it considers the changes proposed therein to be in the public interest and in accordance with the policies of the Postal Reorganization Act. Copies of the Postal Service's request are available for public inspection during regular business hours in the Commission's reading room.

Hearings will be held on the proposal submitted by the Postal Service in docket NO. MC78-1. Any person desiring to be heard with reference thereto and to become a prty to the proceeding, or to participate as a party in any hearing thereon, should file a petition for leave to intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268, on or before September 29, 1978, and must be in accordance with § 20 of the Commission's rules of practice (39 CFR § 3001.20). We direct specific attention to § 20(b), which provides that petitions for leave to intervene shall affirmatively state whether or not the petitioner requests a hearing or, in lieu

[1] The Postal Service denominates its filing a request for "a recommended decision on changes in the mail classification schedule as it relates to parcel post," and accordingly the request has been docketed as a mail classification matter. However, certain features of the Postal Service's filing—such as statements of compliance with various portions of the Commission's rules applicable to requests for changes in postal rates or fees—suggest that some aspects of the Service's request may involve this Commission's jurisdiction over changes in postal rates and fees pursuant to 39 U.S.C. § 3622. Therefore, participants in this proceeding should be prepared to treat postal rate issues arising under 39 U.S.C. § 3622 as well as mail classification issues arising under 39 U.S.C. § 3623.

thereof, a conference; and further, whether or not the petitioner intends to participate atively in the hearing.[2]

POSTAL SERVICE

PREPARATION OF DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR SOUTHEAST INCOMING MAIL CENTERS, BRAINTREE, MASS.

AGENCY: U.S. Postal Service, Real Estate and Buildings Department, Northeast Region.

ACTION: Notice of decision to prepare a draft environmental impact statement (DEIS).

SUMMARY: Public notice is hereby given of the Postal Service's decision to prepare a DEIS for the Southeast Incoming Mail Center proposed for a USPS controlled site located off Granite Street, adjacent to King's Department Store Shopping Center (about 1 mile south of Routes 128 and 37 intersection), Braintree, Mass., and other alternate sites. The proposal would affect the postal operations in the following cities and towns. Braintree, Milton, Quincy, and Weymouth, Mass.

The purpose of this notice is to invite comments from the public, including but not limited to entities of Federal, State, and local government, on potential environmental impacts related to the proposed facility.

DATE: Comments must be received on or before October 12, 1978.

ADDRESS: Written comments should be submitted to Mr. Theodore H. Widman, Supervisor, Design and Construction, U.S. Postal Service, Northeast Region, New England Field Office, Box 324, Lexington, Mass. 02173, for further submission to the independent contract firm preparing the DEIS.

FOR FURTHER INFORMATION CONTACT:

Robert H. Coven, 202-245-4304.

SUPPLEMENTARY INFORMATION: Major points raised by an comments will be included in the DEIS consistent with the USPS regional instruction, "Environmental Assessment and Impact Statement Procedures," dated March 31, 1978, filing No. 861, 1047-RE&B-39. Notice of completion and availability of the DEIS will be published in local newspapers and posted on the bulletin boards of all postal facilities located in and adjacent to the area of potential environmental impact. Public hearings will be held following distribution of the DEIS.

ROGER P. CRAIG,
Deputy General Counsel.

[FR Doc. 78-26106 Filed 9-15-78; 8:45 am]

[2] Parties who intend to participate actively in these proceedings are encouraged informally and promptly to inform the Postal Service of desired preliminary clarification in the Service's presentation which each participant believes necessary in order to expedite this proceeding.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 15155; SR-Amex-78-14]

AMERICAN STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

SEPTEMBER 11, 1978.

On July 11, 1978, the American Stock Exchange, Inc. ("Amex"), file with the Commission, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and rule 19b-4 thereunder, copies of proposed rule changes which make necessary modifications to the Amex's constitution and rules for the implementation and operation of an intermarket trading system ("ITS").

Notice of the proposed rule changes, together with the terms of substance of the proposed rule changes, was given by publication of a Commission release (Securities Exchange Act release No. 34-14969, July 14, 1978) and by publication in the FEDERAL REGISTER (43 FR 31478, July 21, 1978). All written statements with respect to the proposed rule changes were filed with the Commission and all written communications relating to the proposed rule changes between the Commission and any person were considered and (with the exception of those statements or communications which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552) were made available to the public at the Commission's public reference room.

The Commission finds that the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of sections 6 and 11A, and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule changes be, and they hereby are, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc. 78-26203 Filed 9-15-78; 8:45 am]

[8010-10]

[Rel. No. 15156; SR-BSE-78-3]

BOSTON STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

SEPTEMBER 11, 1978.

On April 6, 1978, the Boston Stock Exchange, Inc. ("BSE") filed with the Commission, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and rule 19b-4 thereunder, copies of proposed rule changes (supplemented by amendments No. 1, 2, 3, and 4, filed on Apr. 27, May 26, July 3, and July 5, 1978, respectively) which make necessary modifications to the BSE's rules for the implementation and operation of an intermarket trading system ("ITS").

Notice of the proposed rule changes, together with the terms of substance of the proposed rule changes, was given by publication of a Commission release (Securities Exchange Act release No. 34-14961, July 14, 1978) and by publication in the FEDERAL REGISTER (43 FR 31483, July 21, 1978). All written statements with respect to the proposed rule changes which were filed with the Commission and all written communications relating to the proposed rule changes between the Commission and any person were considered and (with the exception of those statements or communications which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552) were made available to the public at the Commission's public reference room.

The Commission finds that the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and 11A, and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule changes be, and they hereby are, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20705; 70-6207]

MIDDLE SOUTH UTILITIES, INC., AND LOUISIANA POWER & LIGHT CO.

Proposed Issuance and Sale of Common Stock by a Subsidiary to Its Parent Holding Company

SEPTEMBER 12, 1978.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), 225 Baronne Street, New Orleans, La. 70112, a registered holding company, and a wholly owned subsidiary, Louisiana Power & Light Co. ("L.P. & L."), 142 Delaronde Street, New Orleans, La. 70174, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, and 12(f) of the Act and rules 23, 24, and 43 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

L.P. & L. proposes to issue and sell to Middle South, from time to time through December 31, 1978, up to 3,788,000 shares of its authorized but unissued no-par common stock at an aggregate cash purchase price of $25,000,000. L.P. & L. will use the proceeds of such sales to finance its construction program and for payment in part of short-term borrowings. The sales of common stock will be timed to coincide with L.P. & L.'s needs, which are primarily determined by the nature and pace of construction work. It is stated that each sale will be reported to the Commission by a certificate filed pursuant to rule 24.

As of June 30, 1978, L.P. & L. had issued 49,988,000 shares of its common stock to Middle South for an aggregate cash consideration of $328,900,000. To the extent that funds are required from external sources to acquire the common stock Middle South will obtin such funds through the issuance and sale of its unsecured short-term promissory notes issued under a revolving credit agreement dated as of June 29, 1978, as authorized by the Commission's order dated June 15, 1978 (HCAR No. 20593).

The fees and expenses to be incurred in connection with the proposed transaction are estimated at $3,000, including legal fees of $1,000. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may not later than October 10, 1978, to request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearin thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant's-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 20706; 70-6204]

NEW ORLEANS PUBLIC SERVICE, INC.

Proposal To Issue and Sell First Mortgage Bonds at Competitive Bidding

SEPTEMBER 12, 1978.

Notice is hereby given that New Orleans Public Service, Inc. ("NOPSI"), 317 Baronne Street, New Orleans, La. 70160 an electric utility subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested parties are referred to said application, which is summarized below, for a complete statement of the proposed transaction.

NOPSI proposes to issue and sell, at competitive bidding, up to $15 million principal amount of its first mortgage bonds of a new series having a term of not less than 5 or more than 30 years. NOPSI will determine, and give notice of, the maturity date of the bonds not later than 11 a.m. on the 3d business day preceding the day fixed for presentation of bids. The interest rate of the bonds, which shall be a multiple of ⅛ of 1 percent, and the price, which will be not less than 98 percent nor more than 101.75 percent of the principal amount thereof, will be determined by competitive bidding. The bonds will be issued under the mortgage and deed of trust dated as of July 1, 1944 ("Indenture") between NOPSI and the Chase Manhattan Bank (N.A.), as trustee; as heretofore supplemented and amended from time to time, and as to be further supplemented by a 10th supplemental indenture to be dated the first day of the calendar month in which the bonds are issued. The bonds will be redeemable at the option of NOPSI, in whole or in part, at any time prior to maturity. The supplemental indenture will include a prohibition, for a period of not more than 5 years, against refunding the bonds directly or indirectly, with funds borrowed at a lower effective interest cost.

The application states that NOPSI will use the net proceeds from the sale of the bonds to repay short-term borrowings, estimated at $10,000,000 at the time the sale proceeds are received, to finance, in part, its 1978 and 1979 construction programs which provide for expenditures estimated at $25,000,000 and $26,750,000, respectively, and for other corporate purposes.

The fees and expenses incurred or to be incurred in connection with the proposed transaction are estimated at $152,000, including legal fees estimated at $42,500, accounting fees estimated at $14,000, rating fees estimated at $4,125 and charges for services of Middle South Services, Inc., estimated at $8,500. The approval of the city of New Orleans is required for the issuance of the bonds. It is stated that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 6, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securi-

ties and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the

limited partnerships ("Local Limited Partnerships") which own or lease government-assisted rental housing

income; and (2) that he is aware of the risks involved in investing in REAL. He also must represent that some part of his annual income for 1978 will be

prove or disapprove the sale of the project; the right to demand a dissolution of the Local Limited Partnership;

paid for these organization, syndication, acquisition, and selection fees.

During REAL's operational period,

priate in the public interest. Applicants assert that the form of organization of REAL, i.e., a limited partner-

ties and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption form such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

[8010-01]

[Rel. No. 10397; 812-4278]

REAL ESTATE ASSOCIATES, LTD., SONNENBLICK-GOLDMAN CORP. OF CALIFORNIA, AND CHARLES H. BOXENBAUM

Filing of Application

SEPTEMBER 11, 1978.

Notice is hereby given that Real Estate Associates, Ltd. ("REAL"), 1901 Avenue of the Stars, Los Angeles, Calif. 90067, a California limited partnership, and its general partners, Sonnenblick-Goldman Corp. of California and Charles H. Boxenbaum ("General Partners" and, together with REAL, collectively referred to hereinafter as "Applicants"), filed an application on March 6, 1978, and amendments thereto on August 11 and August 28, 1978, pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order exempting REAL from all provisions of the Act and rules thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants state that REAL was formed under the California Limited Partnership Act on September 15, 1977, and is designed to implement the policy of Title IX of the Housing and Urban Development Act of 1968 to provide private investors with a means of acquiring equity interests in government-assisted low- and moderate-income housing. REAL will acquire limited partnership interests in local limited partnerships ("Local Limited Partnerships") which own or lease government-assisted rental housing projects for low- and moderate-income persons.

REAL itself is organized as a limited partnership because a limited partnership is the only form of organization which provides an investor with both liability limited to his capital investment and the ability to claim on his individual tax return the deductions, losses, credits and other tax items a partnership can pass through to its partners. Therefore, REAL will operate as a "two-tier" partnership; i.e., REAL, a limited partnership, will invest in other limited partnerships which, in turn, will be engaged in the development, building, ownership or leasing of government-assisted housing for low- and moderate-income persons.

One of REAL's primary objectives is to pass through to its partners during the early years of the partnership net losses which may be used to offset other taxable income. Another of REAL's primary objectives is to invest in projects which will appreciate in value.

REAL has filed a registration statement under the Securities Act of 1933 covering the sale of 3,000 to 12,500 Units, each consisting of one limited partnership interest. These interests are to be sold only to qualified investors with a minimum subscription of five Units. The minimum investment is $5,000. The General Partners will contribute $12,500, an amount representing approximately 0.4 percent or 0.1 percent of the total capitalization depending upon whether the minimum or maximum number of Units are old. REAL will have a minimum of $2,700,000 and a maximum of $11,250,000 available for investment after deductions for sales commissions and offering expenses.

Offers to sell and sales of the Units to the public are proposed to be effected through E. F. Hutton & Co., Inc. and other selected members of the National Association of Securities Dealers, Inc., none of which will own or owns any interest in the corporate General Partner or will have or has any other material relationship with its directors or officers.

No subscription for Units will be accepted unless the subscribing investor will represent in the Subscription Agreement for Units: (1) That he has a net worth (exclusive of home, furnishings, and automobiles) of at least $25,000 and an annual gross income of at least $25,000, or that he has a net worth (exclusive of home, furnishings, and automobiles) of at least $100,000, or that he is purchasing in a fiduciary capacity for a person or entity which has such net worth and annual gross income; and (2) that he is aware of the risks involved in investing in REAL. He also must represent that some part of his annual income for 1978 will be taxable at the Federal tax rate of 50 percent or more, and that he anticipate some part of his income for the next 6 years will, but for the effect of his investment in the Units or other tax shelters, be taxable at such 50 percent rate. In addition, the Partnership Agreement will require that during the first 5 years following effectiveness of the Registration Statement, each transferee of Units must represent that he meets the suitability standards set forth above.

REAL will be controlled by the General Partners pursuant to a "Partnership Agreement" between the General Partners and limited partners, whereby the limited partners, consistent with their limited liability status, will not be entitled to participate in the control of REAL's business. However, a majority of limited partnership interests will have the right to amend the Partnership Agreement, dissolve REAL, remove one or both of the General Partners and elect successor general partners, and continue REAL upon the death, insanity, retirement or bankruptcy of a General Partner. Also under the Partnership Agreement, each limited partner or his representative is entitled to review the records of REAL at reasonable times, including the register of names, addresses, and number of Units owned by each other limited partner.

The application indicates that REAL will invest not less than 90 percent of its available capital in Local Limited Partnerships which own or lease government-assisted housing projects. REAL may also invest up to 10 percent or its capital in limited partnerships owning other residential projects. REAL has not yet identified any specific Local Limited Partnership or projects in which it proposes to invest. However, the application states that REAL will make its investments in accordance with both detailed criteria for selecting particular projects for investment and certain investment policies which may not be changed without approval by the limited partners owning at least a majority of outstanding Units.

Because REAL will invest only in limited partnership interests, both REAL and the General Partners will have only limited control over the management of the Local Limited Partnerships. However, REAL will have at least a majority and, in many cases, a 90 percent interest in a Local Limited Partnership. Moreover, in negotiating Local Limited Partnership Agreements, the General Partners will endeavor to provide REAL with one or more of the following: the right to approve or disapprove the sale of the project; the right to demand a dissolution of the Local Limited Partnership; and the right to demand the resignation of the local general partner. In addition, REAL's capital contribution to a Local Limited Partnership will be made in stages, and, in most cases, REAL will withhold the major portion of its contribution until the project has been constructed and is operating.

Although the General Partners are engaged in other real estate transactions and manage other similar limited partnerships, REAL will not sell, acquire or lease properties or interests therein to or from the General Partners or their affiliates. Further, the General Partners have undertaken that no new public offerings with the same investment objectives as REAL will be commenced until substantially all funds raised by REAL have been committed to investment or otherwise utilized as described in the REAL prospectus.

The General Partners will be entitled to receive 1 percent of REAL's profits, losses, and distributions subject to the conditions that their 1 percent share of net cash flow will be reduced by the amount of annual management fees which they receive, and that, upon liquidation of REAL, the General Partners will discharge any debt balance in their capital accounts. In addition to their 1 percent participation in REAL's profits, losses and distributions, the General Partners will receive certain fees for overseeing the conduct of REAL's affairs and the continuing operation of each project. Applicants represent that these fees are in substantial conformity with the standards imposed by the Midwest Securities Commissioners and the California Corporations Commissioner.

In the initial period, the General Partners will be paid a fee for the organization and initial management of REAL and the syndication of the Units, aggregating approximately 0.8 percent of invested assets. Invested assets are defined as the sum of the capital contributions anticipated to be made by REAL to the Local Limited Partnerships and the aggregate amount of the nonrecourse mortgage loans on the projects owned by such Local Limited Partnerships attributable to REAL's capital contributions. The General Partners also will receive acquisition and selection fees for their services in connection with the selection, evaluation, negotiation, and acquisition of REAL's investments. The aggregate amount of such fees will equal approximately 1.0 percent of invested assets. Of the proceeds from the sale of the Units, Applicants anticipate that a minimum of $270,000 and a maximum of $1,150,000 will be paid for these organization, syndication, acquisition, and selection fees.

During REAL's operational period, the General Partners will receive, in consideration for their management services, an annual fee in an amount equal to 0.5 percent of invested assets to be paid out of REAL's general funds. As noted above, this annual management fee will be applied against the General Partners' 1 percent share of REAL's net cash flow. Finally, when a project is sold, the General Partners will receive a liquidation fee based upon the net proceeds only after payment to the limited partners of their invested capital in the project, plus an amount sufficient to pay their Federal and State taxes.

REAL states that it will file with the Commission pursuant to section 15(d) of the Securities Exchange Act of 1934 all required annual reports, quarterly reports, and current reports on forms 10-K, 10-Q, and 8-K, as well as any other reports required by such Act. The General Partners will also send each limited partner a year-end report containing financial statements audited by REAL's independent accountants and tax information necessary for the preparation of each limited partner's federal income tax return. In addition, each limited partner will receive a report at least semiannually of REAL's activities and the operational status of its investments, as well as interim reports regarding acquisitions.

Under the California Limited Partnership Act, and under the terms of the Partnership Agreement, the corporate General Partner, which intends to register as an investment adviser under the Investment Advisers Act of 1940, and the individual General Partner, are fiduciaries of REAL and its limited partners. Applicants state that under the Partnership Agreement, the officers and directors of the corporate General Partner and the individual General Partner will be indemnified only when a court finds that such person's conduct fairly and equitably merits indemnity in the amount claimed.

Without conceding that REAL is an investment company as defined in the Act, Applicants request that REAL be exempted from the provisions of the Act pursuant to section 6(c). Section 6(c) of the Act provides that the Commission may exempt any person, security or transaction from any provision of the Act and rule thereunder if, and to the extent that, such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants contend that the exemption of REAL from the provisions of the Act is both necessary and appropriate in the public interest. Applicants assert that the form of organization of REAL, i.e., a limited partnership, which is necessary to limit the liability of private investors investing in subsidized low and moderate income housing, is incompatible with the regulatory framework of the Act. Applicants contend that to discourage the two-tier limited partnership arrangement by application of the Act would eliminate the primary means of attracting private equity capital into government-assisted housing and would frustrate the national policy declared by Congress "to encourage the widest possible participation by private enterprise in the provision of housing for low and moderate income persons."

Applicants state that the exemption would be consistent with the protection of investors and the purposes and policies of the Act. The limited partnership interests in REAL are being sold only to relatively sophisticated investors who will be apprised of the management of the partnership through reports sent to the limited partners and filed with the Commission. Furthermore, Applicants state that the General Partners' discretion to invest the assets of REAL is proscribed by its stated investment policies and objectives, which may be changed only by the vote of the holders of at least a majority of its outstanding Units. With a majority vote, the limited partners will also have the right to dissolve REAL, to amend the Partnership Agreement, and to remove the General Partners.

Applicants further assert that although the involvement of the General Partners in similar past and future partnerships could create a conflict of interest, such potential conflicts are mitigated by the General Partners' undertaking not to make any conflicting new offering until REAL's funds have been committed and to follow prescribed procedures for determining which partnership should make an investment in the event of a conflict. Moreover, Applicants state that the Partnership Agreement prohibits certain transactions between REAL and its General Partners and their affiliates in order to eliminate or significantly mitigate conflicts of interest.

Notice is further given that any interested person may, not later than October 6, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securi-

ties and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address

[Rel. No. 10398; 812-4344]

STATE MUTUAL LIFE ASSURANCE CO. OF AMERICA

Filing of Application

SEPTEMBER 12, 1978.

Notice is hereby given that State Mutual Life Assurance Co. of America ("Applicant"), 440 Lincoln Street, Worcester, Mass., a mutual life insurance company organized under the laws of Massachusetts, filed an application on August 3, 1978, for an order, pursuant to section 17(d) of the Investment Company Act of 1940 ("Act") and rule 17d-1 thereunder, permitting Applicant to acquire $2,500,000 in principal amount of a new issue of 9¼ percent senior notes due in 1998 of Rand McNally & Co. ("Rand McNally"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant is the investment adviser of State Mutual Securities, Inc. ("Investment Company"), a closed-end investment company registered under the Act. Applicant states that it has made a commitment to purchase at direct placement $2,500,000 principal amount of a new issue of 9¼ percent senior notes due 1998 ("Notes") of Rand McNally. Applicant and the Investment Company each currently hold $1,225,000 principal amount of 8¾ percent senior notes due 1989 of Rand McNally ("Outstanding Notes") issued by Rand McNally in February 1974. In addition, Applicant owns $1,400,000 of 6¼ percent senior notes of Rand McNally due 1982, purchased in 1967. Thus far Applicant and the Investment Company have each received $25,000 of sinking fund principal payments on the Outstanding Notes.

Pursuant to an order of the Commission issued on February 12, 1973 (Investment Company Act Release No. 7665), corrected on February 27, 1973 (Investment Company Act Release No. 7698) and amended by an order issued on July 28, 1976 (Investment Company Act Release No. 9371) (collectively referred to as the "Order"), Applicant is permitted to invest concurrently in each issue of securities purchased by Investment Company at direct placement in an amount equal to that invested in such issue by Investment Company and to exercise warrants, conversion privileges and other rights at the same time and in the same amount as Investment Company. The order is subject to several conditions, one being that once the Applicant and Investment Company have acquired interest in an issuer, neither Applicant nor the Investment Company, unless otherwise permitted by the order of the Commission, may acquire any further interest in such issuer or in any affiliated person of such issuer, or in securities issued by such issuer or affiliated person, other than interests in all respects identical. Applicant asserts that because the Investment Company will not acquire any of the Notes, Applicant may not purchase the Notes unless it first obtains an order of the Commission specifically permitting such purchase. Accordingly, Applicant's commitment is subject to the prior issuance of an order by the Commission permitting such purchase.

Section 17(d) of the Act and rule 17d-1 thereunder provide that it is unlawful for an affiliated person of a registered investment company, acting as principal, to effect any transaction in which such investment company is a joint participant, without the permission of the Commission. Rule 17d-1 provides, in pertinent part, that in passing upon applications for orders granting such permission, the Commission will consider whether the participation of the investment company in such transaction on the basis proposed is consistent with the provisions, policies and purposes of the Act, and the extent to which such participation is on a basis different from or less advantageous than that of other participants. Accordingly, Applicant has requested an order, pursuant to section 17(d) of the Act and rule 17d-1, permitting Applicant to acquire $2,500,000 in principal amount of the Notes, notwithstanding the present ownership by Applicant and the Investment Company of the Outstanding Notes.

Applicant represents that the proposed acquisition of Notes is in no way connected with the sale of the Outstanding Notes to Applicant and the Investment Company in 1974 other than by virtue of the fact that Applicant's acquisition of the Outstanding Notes continued a business relationship with Rand McNally which commenced in 1950. Applicant states that neither it nor the Investment Company is an affiliated person, as defined in section 2(a)(3) of the Act, of Rand McNally or an affiliated person of an affiliated person of Rand McNally.

Applicant asserts that Rand McNally will be receiving significant new value in consideration for issuing the Notes, the total issue of which is expected to be $9,500,000, and that $6,500,000 of the proceeds received from the sale of the Notes will be used to repay presently outstanding subordinated debt owed to banks, thereby reducing Rand McNally's reliance upon prime-sensitive debt. Applicant further asserts that the Outstanding Notes owned by the Investment Company will mature prior to the Notes and that the proposed purchase of Notes by Applicant will not materially affect Rand McNally's ability to meet its obligation to the Investment Company on the Outstanding Notes. According to the application, the Notes, ranking pari passu with the Outstanding Notes, will provide Rand McNally with improved financing capability and flexibility. Also, the Notes are nonrefundable from lower cost borrowings for a 10 year period and may be prepaid only at a premium declining in equal annual increments from 9¼ percent in 1979 of the par in 1995. Applicant states that voluntary prepayment of the Notes prior to the maturity of the Outstanding Notes is an unlikely event (most likely to occur at a time when the principal amount of the Outstanding Notes owned by the Investment Company would have been substantially prepaid by required sinking fund payments).

Applicant submits that its proposed acquisition of the Notes is not disadvantageous to the Investment Company and is consistent with the provisions, policies and purposes of the Act. Applicant asserts that the Notes are not an appropriate investment for the Investment Company and that the Investment Company's Board of Directors has voted to decline participation in the proposed acquisition of the Notes because the yield of 9¼ percent on the Notes is inadequate at this time. In addition, the application states that the relative exposure of the Investment Company, which currently has approximately 1.2 percent of its net assets invested in Outstanding Notes of Rand McNally, must be considered in assessing the merits of an investment in the Notes. However, in the judgment of the Applicant the Notes would be an attractive investment for it to acquire. Moreover, Applicant asserts that it would be disadvantaged if it is not permitted to acquire a portion of the Notes.

Notice is further given that any interested person may, not later than October 10, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.
